Preface

The House Select Committee to Investigate Covert Arms Transactions with Iran and the Senate Select Committee on Secret Military Assistance to Iran and the Nicaraguan Opposition, under authority contained in the resolutions establishing them (H. Res. 12 and S. Res. 23, respectively), deposed approximately 290 individuals over the course of their 10-month joint investigation.

The use of depositions enabled the Select Committees to take sworn responses to specific interrogatories, and thereby to obtain information under oath for the written record and develop lines of inquiry for the public hearings.

Select Committees Members and staff counsel, including House minority counsel, determined who would be deposed, then sought subpoenas from the Chairmen of the Select Committees, when appropriate, to compel the individuals to appear in nonpublic sessions for questioning under oath. Many deponents received separate subpoenas ordering them to produce certain written documents.

Members and staff traveled throughout the United States and abroad to meet with deponents. All depositions were stenographically reported or tape-recorded and later transcribed and duly authenticated. Deponents had the right to review their statements after transcription and to suggest factual and technical corrections to the Select Committees.

At the depositions, deponents could assert their fifth amendment privilege to avoid self-incrimination by refusing to answer specific questions. They were also entitled to legal representation. Most Federal Government deponents were represented by lawyers from their agency; the majority of private individuals retained their own counsel.

The Select Committees, after obtaining the requisite court orders, granted limited or "use" immunity to about 20 deponents. Such immunity means that, while a deposed individual could no longer invoke the fifth amendment to avoid answering a question, his or her compelled responses—or leads or collateral evidence based on those responses—could not be used in any subsequent criminal prosecution of that individual, except a prosecution for perjury, giving a false statement, or otherwise failing to comply with the court order.

An executive branch Declassification Committee, located in the White House, assisted the Committee by reviewing each page of deposition transcript and some exhibits and identifying classified matter relating to national security. Some depositions were not reviewed or could not be declassified for security reasons.

In addition, members of the House Select Committee staff corrected obvious typographical errors by hand and deleted personal and proprietary information not considered germane to the investigation.

In these *Depositions* volumes, some of the deposition transcripts are followed by exhibits. The exhibits—documentary evidence—were developed by Select Committees' staff in the course of the Select Committees' investigation or were provided by the deponent in response to a subpoena. In some cases, where the number of exhibits was very large, the House Select Committee staff chose for inclusion in the *Depositions* volumes selected documents. All of the original

exhibits are stored with the rest of the Select Committees' documents with the National Archives and Records Administration and are available for public inspection subject to the respective rules of the House and Senate.

The 27 volumes of the *Depositions* appendix, totalling more than 30,000 pages, consist of photocopies of declassified, hand-corrected typewritten transcripts and declassified exhibits. Deponents appear in alphabetical order.

PROCEEDINGS

(Witness sworn.)

Whereupon,

RICHARD ARMITAGE

was called as a witness by counsel for the Committees and, having been first duly sworn, was examined and testified as follows:

EXAMINATION

BY MR. SAXON:

Q Mr. Secretary, would you state your name for the record?

A Yes, my name is Richard Lee Armitage.

Q What is your current position?

A I am currently the Assistant Secretary of Defense for International Security Affairs.

With your permission, could we get on the record the level, et cetera?

Q Yes. This deposition is cleared at the top secret-Codeword level, and we do expect to have some classified material as deposition exhibits and as topics for discussion. And we will pursue the normal DOD channels for the declassification issue if we choose to use any of this.

A Thank you.

Q How long have you been in that position?

1 A Since approximately May of 1983.

2 Q Let me ask now that the first deposition
 3 exhibit be marked, and that simply is a copy of what I
 4 understand to be your most recent biographical sketch
 5 provided by your office?

6 A This is correct.

7 (The document referred to was
 8 marked for identification as
 9 Armitage Exhibit No. 1.)

10 Q Would you state for us generally your duties
 11 as Assistant Secretary?

12 A In general, I have the responsibility from the
 13 Department of Defense for inter-agency coordination
 14 between the Department of State, the National Security
 15 Council, the Central Intelligence Agency, for policy
 16 matters.

17 In addition, I have the responsibility to
 18 advise the Secretary of Defense on policy matters
 19 involving the Department of Defense for all countries of
 20 the world outside of NATO Europe. I have additional
 21 duties which I received approximately in May of 1986 in
 22 the SOF, Special Operating Forces, and counter-terrorism
 23 areas.

24 Q And you are responsible for the military
 25 aspects of U.S. policy pertaining to all countries except

1 for NATO, is that correct?

2 A NATO Europe, right.

3 Q You served, I believe, in Vietnam?

4 A I did.

5 Q What was the nature of that service?

6 A My first tour was as damage control assistant
7 on a destroyer off the coast of Vietnam. My second tour
8 was as an advisor to a coastal group, Vietnamese coastal
9 group, the ambush team advisor.

10 My next tour was senior advisor to River
11 Patrol Division 54 on the Vietnam-Cambodian border. My
12 third tour was as advisor to coastal group 21 in II
13 Corps.

14 Q In May of 1975, you returned to the Pentagon
15 as a consultant?

16 A Actually, in roughly April of 1975 I returned,
17 in the final days before the fall of Saigon. I was
18 invited to participate in those events.

19 Q And where principally were you located in your
20 consulting services?

21 A I served for the final week in Vietnam. I
22 then served in Washington from approximately the middle
23 of May until, as I remember it, the late fall. And I was
24 primarily engaged in the refugee resettlement projects.

25 And then in late fall through at least the

1 first half of 1976, I was in and out of Teheran, serving
2 as a consultant to the defense representative, Teheran.

3 Q In your current assignment, to whom do you
4 report?

5 A To the Under Secretary of Defense for Policy,
6 Dr. Fred Ikle, and through him to the Secretary.

7 Q Mr. Secretary, if you would walk us through
8 your involvement with the Iran initiative stage of the
9 Iran-contra affair, and that is, I principally have in
10 mind the draft NSDD that Mr. McFarlane sent to Secretary
11 Weinberger and to Secretary Shultz in mid-1985, your
12 role, et cetera.?

13 A As I recall, in approximately June of 1985 I
14 received a draft NSDD with a cover note from Mr.
15 McFarlane. The cover note was addressed to the Secretary
16 of State and the Secretary of Defense, and asked for
17 their comments on the draft NSDD. And the Secretary had
18 written his own remarks on a little buck slip.

19 This was forwarded upstairs to me, and I put
20 together a response to that draft NSDD, the thrust of
21 which, as I remember, was I don't disagree with the need
22 to develop a more congenial relationship with Iran, but
23 we did not believe that arms sales by ourselves or
24 allowing third countries to engage in arms sales was the
25 way to do it, nor did the Secretary of Defense feel that

SECRET

1 he could develop a more congenial relationship with the
2 present regime.

3 That is, as long as Khomeini was alive the
4 Secretary didn't feel that there was much use in pursuing
5 this.

6 Q His handwritten note, I believe that's the
7 statement in which he said this is almost too absurd to
8 comment on, is that right?

9 A He said also that it's like asking Quadafi for
10 a cozy lunch, approximately those words.

11 Q My understanding is that in the course of
12 drafting a response to that draft, there was a
13 disagreement between you and Dr. Ikle over a couple of
14 points in terms of what should be in the Secretary's
15 response.

16 I'd like to have this marked as Deposition
17 Exhibit 2.

18 (The document referred to was
19 marked for identification as

21 Q This is a memorandum to the Under Secretary of
22 Defense for Policy, who I believe would be Dr. Ikle. It
23 is dated 13 July 1985. I believe it is from you.

24 I will give you a moment to take a look at it,
25 and I am principally concerned here about the first page

1 and principally --

2 A Just let me read it.

3 (Pause.)

4 A Okay.

5 Q I am principally concerned about the point
6 that you make in the full paragraph that begins "Second,"
7 and you're telling Dr. Ikle: "I left in the
8 recommendation to keep pressure on our allies to cease
9 transferring military equipment to Iran. Although we
10 have had some successes to date, maintaining, if not
11 strengthening, our initiative is one of the few steps we
12 can take to try to bring an end to the Iran-Iraq War.
13 And if the war were to end, many of the pressures causing
14 Iran to seek assistance would cease.

15 "Therefore, I believe we should not omit this
16 initiative."

17 And then you go on to recommend which copies
18 should be forwarded to the Secretary, and that which
19 contained your language was in tab A, and the handwritten
20 note at the top indicates that Dr. Ikle forwarded the
21 version in tab B, which did not include this language.

22 Was there any oral discussion between you and
23 Dr. Ikle on this point?

24 A There may have been. I don't recall.

25 Q Do you know or recall what his reasons may

UNCLASSIFIED
TOP SECRET//SI//NF

10

1 have been for not wanting to include this point?

2 A If I understand, if I remember correctly, the
3 only point of difference was whether it was post-Khomeini
4 or not. And I don't know -- it strikes me that he had a
5 good understanding of the Secretary and did not want --
6 didn't think the Secretary would be interested in
7 anything with the present government. That's the only
8 thing I recall.

9 Q I believe the version which went forward also
10 left out the language about Operation Staunch and keeping
11 pressure on our allies not to ship arms to Iran?

12 A I'd have to check tab B.

13 (Pause.)

14 A Well, if this is tab B, it keeps in the point
15 about stopping arms.

16 Q Okay.

17 A I believe that was the only point of
18 difference there could have been, whether it was post-
19 Khomeini or present, not on the staunching of the arms,
20 as I remember.

21 Q If you would, then, continuing in a
22 chronological fashion, after the draft NSDD involvement
23 where you were more or less staffing and transmitting,
24 what happened next in terms of your involvement?

25 A I don't recall any further discussion on this

1 subject. I never saw anything more of the NSDD, never
2 heard anything more of it. And roughly in November, I
3 returned from a trip to Pakistan and somewhere else, and
4 either the Secretary someone else had indicated to me
5 that they had a feeling there were some discussions going
6 on with Iran. And they wanted me to find out, if I
7 could, what was going on.

8 Q And this would have been when, as best you can
9 date it?

10 A Late November. I got back 24th or 25th,
11 roughly, of November. It was approximately that time
12 frame that they mentioned this to me.

13 I nosed around as best I could, finally
14 decided to invite Ollie North for a luncheon in my
15 office. I have subsequently determined that the date of
16 that was 3 December.

17 I did have lunch with Ollie and asked him if
18 anyone had been meeting with the Iranians. And he told
19 me that he had. I made some comments about this to
20 Ollie, and then I reported this verbally to the
21 Secretary.

22 Q What can you tell us about the nature of the
23 comments you made to Colonel North?

24 A As best I remember, I told him that I knew my
25 boss, I felt my boss, didn't know anything about it. I

12

1 didn't think the Secretary of State knew anything about
2 it. I thought he was way out of line. I think I used
3 the term that his ass was way out on a limb and that he
4 ought to get everyone together quickly to discuss this
5 problem.

6 Q Did you say something along the lines of, he
7 needed to get the ~~elements~~^{elephants} together?

8 A That's a term I often use. That's basically
9 the recollection.

10 Q And that means the principals -- Secretary
11 Weinberger, Secretary Shultz, the National Security
12 Advisor, et cetera?

13 A Yes, and the President.

14 Q Do you have any information which would lead
15 you to believe that the December 7 meeting among the
16 principals of the elephants was a result of this
17 recommendation to Colonel North?

18 A I can only state that Colonel North had a
19 great respect for Secretary Weinberger, and I can
20 remember that he was quite shocked at the strength of my
21 statement to him.

22 I can't say that the December 7 meeting was a
23 direct outcome of this. It was just my recommendation to
24 him to get them together, the elephants together, as soon
25 as possible.

1 Q What did he tell you was the reason for this
2 initiative or these discussions or the meetings that he
3 had had with the Iranians?

4 A I've thought about it a lot. I can't quite
5 remember what he told me the reason was.

6 Q Did he mention a broader strategic concern, or
7 was it more directly related to hostages, or both, or can
8 you recall?

9 A I can't recall, I just can't recall.

10 Q Did you make any notes of your meeting?

11 A No, I did not.

12 Q A memoranda for the record?

13 A No, I did not.

14 Q Did you meet with Secretary Weinberger prior
15 to the December 7 meeting?

16 A Yes, I did.

17 Q And was anyone else present at that meeting?
18 General Powell?

19 A My recollection is that General Powell was
20 there. I don't think anyone else was there. I can't
21 even be sure about General Powell, but he was almost
22 always present.

23 Q And who initiated that meeting?

24 A I can only imagine that it was probably
25 General Powell, speaking for the Secretary.

14

1 Q And what do you recall saying?

2 A I recall that prior to the meeting I had
3 strategized, prior to meeting with the Secretary. But
4 after being informed that there was going to be some sort
5 of meeting that weekend, strategizing with my colleagues
6 at State how best to stop what we understood was going to
7 be an item for discussion, that is the provision of some
8 sort of arms to Iran.

9 Q And would that have been --

10 A Particularly with Mr. Raphel, Arnie Raphel,
11 who at that time was the principal deputy assistant
12 secretary for Near East, South Asia. And the thrust of
13 our discussions was that we felt it would be most
14 effective if Secretary of State Shultz and Secretary of
15 Defense Weinberger could have a very united front on this
16 issue.

17 We felt quite secure in speaking for our
18 bosses because we both knew our bosses' minds on this
19 subject, and we wanted them to approach the President
20 with roughly the same arguments, hoping that there would
21 be some resonance.

22 Q And in those discussions with Mr. Raphel, was
23 it your impression he already knew about this initiative,
24 or did you have to bring him up to speed?

25 A I can't quite remember, but I know that when

UNCLASSIFIED

15

1 the Secretary or General Powell had asked me to see if I
 2 could find out something about somebody talking to the
 3 Iranians I also checked in with Arnie Raphel, who is an
 4 excellent bureaucrat and I figured he'd know everything.

5 He was getting vibes, but he, at least to me,
 6 couldn't put his finger on anybody. So I'm quite sure
 7 after I spoke with Ollie that I also informed Arnie of
 8 the fact that Ollie had been meeting with the Iranians.

9 Q So you talked with him regularly?

10 A Daily.

11 Q Going to the December 7 meeting --

12 A Even today.

13 Q -- did you and General Powell meet to
 14 strategize before that meeting with the Secretary?

15 A I don't recall meeting with him to strategize
 16 before that.

17 Q In that meeting, can you tell us what each
 18 party said, what the nature of the discussion was?

19 A In general, I reminded, I guess is the proper
 20 word, the Secretary of Defense of the down sides of this
 21 initiative. I needed not remind him, because he was
 22 quite vocal and outspoken on all of the reasons why this
 23 would be bad.

24 I believe that I gave him a one or two page
 25 sheet of information on the Arms Export Control Act, I

UNCLASSIFIED

UNCLASSIFIED

16

1 think developed out of a conversation with Mr. Raphel and
2 myself. At least that information, if not the sheet
3 itself, was also going to be provided to George Shultz,
4 so they both would be acting on the same wavelength.

5 We talked about -- and either I would make the
6 point or the Secretary would make the point, and we'd
7 develop it, provision of any arms to Iran could be seen
8 as bargaining for hostages; the fact that we had enormous
9 equities in the Gulf and that all of our other friends
10 would be terribly concerned with any opening to Iran that
11 hasn't been thought about and talked about with them.

12 And number three, that Operation Staunch was
13 something that both he and George Shultz had been very
14 outspoken about, and we were leaning on our allies all
15 over town and all over the world to stop sales of even
16 questionable systems to Iran. And here it would turn out
17 that we were engaged in the same thing, and we would look
18 awfully stupid.

19 The Secretary, to my remembrance, also
20 questioned whether it would be legal or not.

21 Q What can you recall about the nature of any
22 statement he made in that regard?

23 A I just remember the discussion being about
24 legality. I can't remember any specific statement that
25 he made.

UNCLASSIFIED

UNCLASSIFIED

17

1 Q Was there any discussion about notification of
2 the Congress that we were to ship arms to Iran?

3 A The sheet that I gave him, if I remember
4 correctly -- I don't have it -- had some of the facets
5 surrounding Hill notification. So if he didn't talk
6 about it, I believe something was contained in the sheet.

7 Q Would these have been dollar thresholds for
8 when notice was required?

9 A Dollar, there was a dollar ceiling on one
10 sale. I forget if it's \$25 or \$50 million limit of a
11 major defense sale, and then a one item limit. So there
12 were two aspects to it. They were both basically
13 dollars.

14 Q And they would have been \$50 million in one
15 case and 14 in the other?

16 A I think it was 50 and 14. I don't remember if
17 it was 25 and 14 or 50 and 14.

18 Q Was there any discussion of whether U.S.
19 approval before the fact needed to be given if any third
20 parties were involved in shipping arms, or were third
21 parties not discussed at that point?

22 A I can't recall that third parties were
23 discussed at that meeting.

24 Q What would you have stated at that time as
25 your understanding of both U.S. policy and U.S. law with

UNCLASSIFIED

UNCLASSIFIED

18

1 regard to arms sales to Iran? And I understand you're
 2 not a lawyer and I'm not asking you to make a legal
 3 judgment, but as a policymaker?

4 A I will tell you what I would have responded as
 5 to policy. Our policy was to embargo all arms to Iran
 6 and to try to force them and the Iraqis back to the
 7 status quo ante of 1979, before the war started; and to
 8 try to limit the export of Islamic fundamentalism from
 9 Iran.

10 Q Regarding the law, if the U.S. were to sell
 11 weapons to Iran, I would have said that this would not be
 12 in consonance with our laws, as we had an embargo.

13 MR. SABA: Mr. Secretary, I want to pursue a
 14 moment the policy at the time of Operation Staunch. How
 15 was this Operation Staunch communicated by the Department
 16 of Defense to our friends, allies, world in general?

17 THE WITNESS: First of all, it was
 18 coordinated, and there was actually a coordinator in the
 19 Department of State. It was Dick Fairbanks when it first
 20 started, and then Bill Schneider took it over, and they
 21 had the lead for this.

22 We went out as a matter of State cables to all
 23 of our posts around the world to announce our policy in
 24 Operation Staunch, and then members of the Administration
 25 -- the Secretary of Defense, the Secretary of State, or

UNCLASSIFIED

1 myself as a Defense person -- in traveling, meeting with
2 foreigners, when the subject would either arise or we had
3 reason to believe somebody was engaged or about to engage
4 in an arms sale, we would preempt and put in front of
5 them our own policy, Operation Staunch, and tell them why
6 we thought this was the proper policy and try to persuade
7 them as best we could not to engage in arms sales.

8 This was also enunciated in a series of
9 speeches and referred to in speeches by Administration
10 officials for several years.

11 BY MR. SABA:

12 Q Do you recall when that policy began?

13 A Dick Fairbanks was in the job. It was right
14 after the Lebanon experience. I would say '83, '84,
15 probably '84.

16 Q Did you travel between that time and, let's
17 say, the end of 1985 to various countries explaining that
18 policy?

19 A Not specifically to explain that policy, but I
20 did travel to various countries. And for instance, [REDACTED]
21 [REDACTED] or some country that might
22 be engaged in selling not just weapons, but dual use
23 items, jeeps or something -- we would certainly, or I
24 would certainly, have put in front of them our policy.

25 But I did not go on a particular trip to sell

UNCLASSIFIED

20

1 that particular policy.

2 Q But during your trips, do you recall incidents
3 in which you did explain that policy to them?

4 A Yes, I do. And there were foreign visitors
5 into my office.

6 Q Do you recall what countries these were?

7 A Well, I can remember having discussions with
8 [REDACTED] I remember certainly hearing
9 about it from other colleagues, discussions with the
10 European allies.

11 I remember -- in fact, we continue right now
12 to have these discussions with [REDACTED]

13 Q Excuse me. Do you mean --

14 A [REDACTED] excuse me.

15 I think all of our Arab friends, whether I
16 visited there or they visited me in the Pentagon, were
17 interested in this. And I would absolutely have spoken
18 to them about it.

19 Q Do you recall in the period commencing at the
20 beginning of this policy but ending in 1985 visiting any
21 of the Arab capitals and in the course of those meetings
22 discussing it?

23 A I don't remember it specifically, but I did
24 visit Arab countries and was in the capitals. But I
25 don't remember specifically talking this policy.

UNCLASSIFIED

21

1 Q During 1985, particularly the last three
2 months, do you recall any conversations with friends,
3 allies, indicating to you personally that they had
4 knowledge of American arms shipments?

5 A Over the past several years, no, I can't
6 remember those three months specifically. But I had
7 heard from [REDACTED] Arab countries that
8 they felt that the Iranians were getting outside supplies
9 of weapons, and in general those countries were putting
10 the blame on Israel.

11 Q Did they indicate that these arms were
12 American arms, American origin arms?

13 A They indicated they were outside arms, [REDACTED]
14 [REDACTED]
15 [REDACTED]
16 [REDACTED]

17 They also, the Arabs in general, would speak
18 about the ability of the Iranians to keep their aircraft
19 in the air and think that these parts must have come from
20 the United States, but generally through Israel. But the
21 impact of what they were telling me was that Israel, they
22 felt, was doing this, not the United States.

23 Q Was there any discussion at that time
24 specifically of TOW or Hawk parts?

25 A Not that I remember.

1 Q So you would say, then, that it was fair to
2 state that our public policy, as well as our internal
3 policy, was expressed in Operation Staunch?

4 A That's correct.

5 Q And was opposed to sales, whether by us
6 directly or by our allies?

7 A That's correct.

8 Q And it was correct that during that period,
9 had a nation which acquired arms from us, it would have
10 required our advance permission to transfer those arms to
11 any third party?

12 A That's my understanding. It's called a third
13 country transfer.

14 Q And had there been a request to make a
15 transfer to Iran, what would your position have been?

16 A The Secretary of Defense would have opposed
17 it, I would have too. The Department would have opposed
18 it.

19 BY MR. SAXON: (Resuming)

20 Q Whose permission is required?

21 A The Secretary of State has the cognizance of
22 those things. In general terms, it would be hard to
23 believe that the Secretary of State, over the strenuous
24 objection of the Secretary of Defense, would okay
25 something like that without presidential approval.

UNCLASSIFIED

UNCLASSIFIED

23

1 Q Am I correct in understanding that the statute
2 gives the authority to the President, but that by
3 executive order he has delegated it to the Secretary of
4 State?

5 A I would have to review that, but that is my
6 understanding, yes. But I don't know the mechanics.

7 BY MR. SABA: (Resuming)

8 Q Did we communicate back to the American public
9 our policy? Was that part of your duty?

10 A Yes.

11 Q How was that done?

12 A Generally, in speeches, public discussions, Q
13 and A's, radio.

14 Q And these speeches were made inside the United
15 States?

16 A Yes.

17 BY MR. SAXON: (Resuming)

18 Q Anything that you can tell us about your
19 discussions with Secretary Weinberger prior to the
20 December 7 meeting when you and General Powell met with
21 him to brief him?

22 A Well, I say I think General Powell was there.
23 I know I was there, but that's basically it, other than I
24 must say he totally and completely opposed the policy.

25 MR. KREUZER: Was Dr. Ikle there?

UNCLASSIFIED

UNCLASSIFIED

1 THE WITNESS: No.

2 MR. KREUZER: But he is the primary policy
 3 maker?

4 THE WITNESS: He is the Under Secretary for
 5 Policy.

6 MR. KREUZER: So he was aware of all of this
 7 and read into all of this?

8 THE WITNESS: I don't feel he was aware of all
 9 of it. My understanding is that he was not aware of this
 10 and the finding. None of us were until some time later.
 11 I think that after he signed forward the answer to the
 12 draft NSDD, that Dr. Ikle was not involved in this.
 13 That's my remembrance, until late in '86.

14 I know I brought him into the loop.

15 MR. KREUZER: But normally, being a policy
 16 question, wouldn't this go down to the special assistant
 17 staff, who looks at policy questions, and be fed up to
 18 the Under Secretary?

19 THE WITNESS: No, they don't do policy
 20 questions. They do covert actions. You're talking about

21 
 22 BY MR. KREUZER: (Resuming)
 23 Q Okay. But would it go down to Under Secretary

24 Alderman?

25 A Deputy Under Secretary Alderman, it could if

25

1 the Under Secretary designated it.

2 Q Then would it normally go to Dr. Ikle?

3 A That's right.

4 Q Well then, would this be a departure from
5 normal procedures? Would this amount to a departure from
6 normal procedures?

7 A It amounts to the Secretary of Defense telling
8 me to handle this with extraordinary sensitivity, and
9 that's what I did. If you say is that the way things are
10 normally handled, no, it is not. But they are normally
11 handled the way the Secretary of Defense wants.

12 Q So if it weren't what he regarded as an
13 extremely sensitive situation, then it might have gone to
14 Alderman?

15 A I would have assumed that would have been the
16 case.

17 BY MR. SAXON: (Resuming)

18 Q Did Secretary Weinberger tell you this was an
19 especially sensitive matter, with close hold, et cetera?

20 A Yes.

21 Q In that session?

22 A Yes, either there or the time before, when he
23 asked me to nose around to see if anybody was talking to
24 Iran. But he said, this is very sensitive.

25 Q After the December meeting at the White House,

UNCLASSIFIED

UNCLASSIFIED

26

1 did Secretary Weinberger at some point upon returning
 2 fill you in on what had transpired?

3 A He filled me in to the extent that he and
 4 George, George Shultz, had made very strong
 5 representations to the Secretary -- excuse me, to the
 6 President -- and that he, Secretary Weinberger, felt that
 7 the initiative was dead. I have used a term to describe
 8 it that is a term of his. He said: We have strangled
 9 the baby in its cradle.

10 Q No doubt in your mind, and apparently in the
 11 Secretary's that at that point the initiative was dead?

12 A There was no doubt in my mind.

13 BY MR. SABA: (Resuming)

14 Q Did you have any knowledge at that point that
 15 there had been transfers to Iran of American arms by the
 16 Israelis?

17 A I don't recall any knowledge of that at all at
 18 that time.

19 BY MR. SAXON: (Resuming)

20 Q Did anything transpire from that point on this
 21 issue forward until January?

22 A Not that I recall.

23 Q Did you report any of what Secretary
 24 Weinberger told you to anyone else?

25 A In general terms, to Arnie Raphel. And I

27

1 think basically, and I don't remember at all my words,
2 but I think it would have been, I think we got past this
3 one.

4 Q And did he convey Secretary Shultz's
5 impression of the meeting?

6 A No, I don't remember him characterizing George
7 Shultz's impression, but he gave me the impression that
8 that's the way he felt. He Arnie gave me the impression
9 that that's the way he felt, that we were past this and
10 that it was behind us.

11 Q So what would you say would be the next point
12 that you would have any involvement at all in this?

13 A In January I was informed that the Secretary
14 was going to another meeting, another one of these
15 meetings to discuss the initiative, which I don't believe
16 we called the initiative. We just called it the Iran
17 deal or whatever.

18 I believe I checked with Colin Powell to see
19 if there was any need for me to do anything, and he said,
20 no, the Secretary was armed. I think we had a
21 conversation, but it was a rehash of our previous
22 conversation.

23 Q You said the Secretary was armed. With what?

24 A The knowledge that he had before, that it was
25 still good.

UNCLASSIFIED

28

1 Q And when the Secretary went to the January 7th
2 meeting, were you later filled in on what transpired?

3 A I don't remember being -- well, I wasn't
4 filled in on what transpired at that meeting until much
5 later. But some time later that month or in early
6 February, I was informed that weapons were going to go to
7 Iran.

8 Q When was the first point at which you recall
9 having been informed that the weapons went pursuant to a
10 presidential finding?

11 A I don't remember hearing about the finding
12 until somewhat later. But some time -- and my
13 recollection is in February -- General Powell told me
14 about TOW's going, and this was that the President had
15 decided. And so --

16 Q Are you able more precisely to date it?

17 A No, I am not. I attempted to get a lot
18 smarter when I was called upon to be the Department's
19 witness in the initial hearings around these events, back
20 when Mr. Casey first testified. And at that time I had
21 learned more about the dates things went forward, I mean
22 things actually moved from the Army to the CIA.

23 But since I wasn't in that loop, it really
24 didn't matter to me. I was informed in general terms
25 that another trench was going each way through the year

1 of '86 each time a trenche went.

2 BY MR. SABA: (Resuming)

3 Q Excuse me. When you say another trenche, do
4 you mean you had been informed that one had gone?

5 A No, I was informed in February of a trenche,
6 and then some time later I was informed of another
7 trenche, and another trenche, and then finally I think
8 the last one was in November, the third or the fourth
9 trenche, the announcement that I knew about.

10 BY MR. KREUZER: (Resuming)

11 Q The second one went when, roughly?

12 A Well, I have given you all the documents I
13 have, but I just don't have the dates in my mind. I was
14 in general terms informed after they went.

15 MR. SAXON: Let me have you mark that as the

25 A You have a different one. It's 9131. Do we

2 (Pause.)

7 MR. SAXON: Back on the record.

8 This is a chronology prepared by the National

 10 says "Historical Chronology," and the date is 11/20/85.

11 THE WITNESS: Correct.

13 Q If you would, look to page 30371.

14 A All right.

15 Q And look at the last full paragraph and let me
 16 give you a moment to read that.

17 (Pause.)

18 Q I am not going to ask you to vouch for the
 19 accuracy of that statement, but it says, in terms of
 20 these transfers, the shipment of the Army TOW's from
 21 Elliston to the CIA [REDACTED] it says:

22 "Policy level coordination for these
 23 arrangements was effected by NSC (North) with DOD
 24 (Armitage) and CIA (Clair George)."

25 Does this mean that you were involved in some

1 coordination for the logistics of these shipments?

2 A No, it only means to me that if things are
3 going to move Ollie would tell me. I was involved in no
4 way with any of the coordination of the logistics.

5 Q Wouldn't it be your best judgment that this is
6 simply an incorrect and inaccurate statement?

7 A I don't know that it's so inaccurate. I was
8 the policy level guy who knew about this, but never
9 talked about logistics with our services or anybody else.

10 Policy level, yes, I was the policy guy in the
11 Pentagon who knew about it the program. But I had no
12 logistics activity whatever.

13 Q Let me say, in response to a question by Mr.
14 Shapiro, that this is not something the meeting prepared.
15 This is an NSC chronology bearing the date of November
16 20, 1986.

17 Mr. Secretary, what would you say would be the
18 first time you learned about the issue of U.S.
19 replenishment of Israeli TOW's stocks?

20 A I have thought myself, I believe the first
21 time I learned about Israel providing weapons and we
22 repaying Israel was when Mr. Casey testified in November.
23 I think that's the first time I really knew of it.

24 Q November of '86?

25 A That's right.

UNCLASSIFIED

UNCLASSIFIED

32

1 Q And there were no discussions at the Pentagon
2 to which you were a party?

3 A Now, I have seen a paper in the documents we
4 turned over to you which discussed either Hawks or TOW's
5 for Iran, but I wasn't involved in the development of
6 that. I saw it some time later.

7 The first time I knew that I remember was when
8 Casey testified up here, I believe.

9 Q That would be the point paper, as it was
10 denominated, that Dr. Gaffney prepared at the request of
11 either Colin Powell or Noel Cook in '85?

12 A Yes, that's right. I saw that paper some time
13 later.

14 Q Dr. Gaffney did not make you aware of that?

15 A No, I don't think Dr. Gaffney made me aware of
16 it.

17 Q Mr. Rudd?

18 A I think some time later in the year Glenn made
19 me aware of the point paper. I think that's when I saw
20 it. I am not sure of the dates.

21 Q Did you meet on January 2nd of 1986 with Major
22 General Menachem Meron of Israel to discuss replacement
23 of Israeli TOW's by the United States?

24 A I don't remember. I might have met with him.
25 I don't remember meeting on that subject.

UNCLASSIFIED

UNCLASSIFIED

33

1 Q So your best recollection would be that you
2 did not discuss that subject?

3 A My best recollection is I did not, though I
4 could have met with Mendy, Mendy Meron.

5 Q Given your stated feelings fairly clearly
6 about the wisdom of U.S. policy in terms of arms to Iran,
7 direct or indirect, and your statements about Operation
8 Staunch, do you think that you would recall if you had
9 discussed with General Meron that issue?

10 A I think so.

11 Q And if it were his statement that you did have
12 such a discussion, that wouldn't change your
13 recollection?

14 A I would say that I don't remember it and I
15 don't recall it.

16 Q Let me ask you a couple of questions about the
17 readiness issue in terms of the provision of the TOW's to
18 Iran. I assume readiness is something the Pentagon is
19 fairly concerned about?

20 A Yes.

21 Q Has anyone given you a status report or made
22 you aware of whether Army funds have been replenished for
23 those sales which went forward for the purchase of TOW's
24 to replenish DA stocks?

25 A Yes.

UNCLASSIFIED

UNCLASSIFIED

34

1 Q And what would be your understanding, that
2 those moneys have been made available?

3 A My understanding is that the great majority of
4 those moneys were made available. It appears that the
5 Army in some fashion undercharged to some degree, and my
6 understanding was that the Secretary of Defense had asked
7 that we recoup that shortfall.

8 Q I guess the question is this. Would it
9 surprise you, then, to find out today, more than a year
10 after the first shipment went forward, that there is
11 still \$5.6 million that has not been made available to
12 the Army to buy TOW missiles with?

13 A If what you're saying is that the CIA still
14 owes 5.6, it would surprise me.

15 Q No, the CIA has provided funds and, in
16 whatever way they work their way down the channels in the
17 Pentagon or the DA, they have not been made available to
18 the people at Micom who actually purchase TOW missiles.

19 A It would seem to me that's a long time.

20 Q Did you have any involvement at all on the
21 Hawk repair parts issue?

22 A None that I recall.

23 Q Let me go back to the issue of a presidential
24 finding and have you address your discussions at whatever
25 period you had them with Secretary Taft and Secretary

UNCLASSIFIED

35

1 Weinberger on the issue of presidential finding. I
2 believe you did have a discussion in April of '86 with
3 Mr. Taft?

4 A No, I didn't. But we, the Secretary of
5 Defense and I, were on a trip at that time in the
6 Pacific. Mr. Taft was involved in calling forward, I
7 think, another trench of weapons. He has, Mr. Taft has,
8 told me subsequently -- and this was in the past several
9 months -- that at that time he asked to see a
10 presidential finding and was shown what he was told was
11 one by John Poindexter.

12 Q Where was that?

13 A In John Poindexter's office.

14 This was not communicated to me at the time,
15 in April. This was when I was preparing to come to the
16 Hill.

17 Q I understand. And your understanding of that,
18 does it extend to whether Secretary Taft informed
19 Secretary Weinberger that he had seen the finding?

20 A This is -- again, I've been told this in the
21 past several months, that Mr. Taft said he had indicated
22 that to the Secretary during the phone call, the phone
23 conversation. But I don't think the Secretary recalls it
24 at all, and I was not privy to that conversation.

25 Q When would that have been dated, roughly?

UNCLASSIFIED

TOP SECRET//COMINT

UNCLASSIFIED

36

1 A April.

2 Q Were you party to a discussion or conversation
3 with Secretary Weinberger after these matters began to
4 become public over this issue of when the Secretary might
5 or might not have been made aware of the finding?

6 A Yes.

7 Q Tell us about that?

8 A The Secretary, as I recall, in November of '86
9 was called to the White House, and he had a finding read
10 to him. He specifically mentioned to me that it was read
11 to him, because he said he had not seen it, actually seen
12 it.

13 I think it was published in the New York Times
14 or somewhere, but it was read to him.

15 Q And this would have been when?

16 A November '86, to my memory.

17 Q As these matters were reaching a --

18 A While they were unfolding, but they hadn't
19 blossomed. I mean, the leaks were out there and
20 certainly there was a lot of scurrying around. We were
21 getting ready to go to the Hill and I was asking the
22 Secretary, do you know anything about a finding? And he
23 said: I've never seen one.

24 And I asked: Did we participate in it, in the
25 formulation of it. And he said, not to his knowledge.

UNCLASSIFIED

37

1 That's also true of me. So that's basically what I
2 remember.

3 Q Did you recall telling him at some point,
4 either in that session or shortly thereafter, what you
5 had learned from Secretary Taft about him having read the
6 finding?

7 A Yes, or Mr. Taft was there, one or the other.

8 Q And I believe you told --

9 A The Secretary can't remember that, as far as I
10 know. He just said, I don't remember that.

11 Q I'm not trying to put words in your mouth or
12 in his, but tell me if this is more or less what you
13 recall. You told us when we interviewed you something
14 along the lines of that Mr. Taft said to Secretary
15 Weinberger: But I read it back in April and informed you
16 about it. At which point the Secretary said, oh really?

17 Does that sound right?

18 A Yes. Whether it was "Oh really," I don't
19 remember that, whether it was Taft that told me. But
20 Taft might have been there, I think, at this discussion
21 with the Secretary when this came up.

22 Q Are there any other points on the arms to Iran
23 that you think we need to cover that we have not done?

24 A I would be pleased to try to answer any points
25 that you have.

2 BY MR. SABA: (Resuming)

3 Q Okay. In a moment I want to walk through a
4 couple of points in the statement that you made to the
5 DAIG.

6 A To the who?

7 Q To the Department of the Army IG, on the
8 pricing issue.

9 Has there ever come a time when you talked
10 about the replenishment issue or the TOW's which Israel
11 transferred in 1985?

12 A I don't remember it. I don't recall it, I
13 don't recall knowing about it.

14 Q Would you have normally come to know about it
15 in the course of business?

16 A I would have hoped so.

17 Q Did you know anything about the 100 TOW's --
18 I'm sorry, the 100 Hawks, which were in the pipeline to
19 Israel and which were being shipped about November 20th,
20 1985?

21 A I knew about that in 1986, late '86, because I
22 think we asked, I asked, DSAA, what's our latest Hawk
23 deal, when's the last time we sold anything to Israel of
24 TOW magnitude or Hawk things. And I think I was told
25 there were some Hawk missiles, there was a normal

1 transaction in '85, a normal notified transaction, et
2 cetera, et cetera.

3 But I didn't, to my recollection, know that
4 until some time as we were roughly either preparing for
5 the Hill testimony in late November of '86 or even later
6 than that.

7 Q When you learned of -- when did you say you
8 learned of the '85 transfers?

9 A I didn't know about the Hawk. There was
10 something about when the Secretary asked me or Powell
11 asked me to go investigate, to see if I could find out if
12 someone was talking to the Iranians, there was also, it
13 seemed to me, some intel at the time that mentioned
14 missiles.

15 We didn't understand very much, but it was all
16 part and parcel of, we were trying to figure out who was
17 talking to the Iranians.

18 Q This was intel that you picked up from [REDACTED]

19 [REDACTED]
20 A [REDACTED] one or the
21 other.

22 Q Okay. I'd like to hear more about it.?

23 A Well, when I say I knew something about
24 missiles, I didn't know what it was or what context or
25 whose they were.

2 Q When you had lunch with Colonel North on
3 December 3rd, 1985, he didn't tell you that the Israelis
4 had made some shipments to Iran?

5 A I don't recall him telling me that.

6 BY MR. SABA: (Resuming)

7 Q So there came a time when you did know at
8 least of the TOW transfers in '85?

9 A No, I don't remember knowing of the TOW --

10 Q In '86?

11 A Yes, in '86, but not to Israel. To Israel,
12 the best of my recollection, I became aware of this when
13 Bill Casey testified and Mike Armacost and I were sitting
14 in with him. That's the first time I remember knowing
15 about it.

16 Q Just so I understand, the first time you
17 understood about the Israel transfers of TOW's was when
18 Bill Casey provided that information in his testimony?

19 A To the best of my recollection, that's right.

20 Q This strikes me as, it would have bothered me,
21 I think. In view of all of the public positions you had
22 taken in Operation Staunch in 1985, perhaps in early '86
23 and before that, what was your reaction to that?

24 A I hoped it was the same reaction as the
25 Secretary of Defense. We hated it. We hated the

1 provision of weapons. There was never a doubt in anybody
2 in Defense's mind that this was a bad policy.

3 Q Did it strike you as unusual that you didn't
4 know?

5 A After being in government a while, it strikes
6 me as less unusual. Yes, I would have hoped I would have
7 known about this going to Israel, but I can't recall it.

8 Q I am obviously trying to understand how the
9 Assistant Secretary views a policy, having publicly gone
10 to allies and friends and our own people and upheld one
11 policy, and having heard a year later that while you were
12 out talking about one policy the reverse was in fact
13 happening?

14 A Well, part of the time we knew the reverse was
15 happening, we were still talking about Operation Staunch.
16 In my case, from February of '86 we continued to talk
17 about Operation Staunch.

18 But each time I know for myself, or I can
19 imagine for the Secretary of Defense, we didn't like it
20 because we realized the other hand was providing some
21 quantities of weapons to Iran. So we thought it was very
22 hypocritical. We hated it.

23 The hope was, at least as the Secretary of
24 Defense has reconstructed this to me, that in some time
25 along the line of this policy -- that is, as we were

1 providing these weapons the Secretary, as he stated it,
2 would find an opportunity to stop the policy of providing
3 weapons to Iran and we wouldn't have lost ground in
4 Operation Staunch in the meantime.

5 MR. KREUZER: Mr. Secretary, in your
6 conversations with Secretary Weinberger, do you ever
7 recall him saying words to the effect that the Israelis
8 are sending lethal equipment or sending arms or equipment
9 to Iran and they've got to knock that stuff off?

10 Do you ever remember hearing anything like
11 that?

12 THE WITNESS: Well, I can recall not only the
13 Secretary of Defense, but the Secretary of the State in
14 the past having made what we call demarches to the
15 Israeli officials about provision of Israeli equipment to
16 the Iranians.

17 And we had made several representations to the
18 Israelis. The Secretary of Defense has made some, I have
19 made some, George Shultz had made some. And generally we
20 receive the same answer: governmental policy forbade
21 that.

22 MR. KREUZER: Would that be U.S.-made Israeli
23 equipment -- in other words the equipment that we sold
24 them?

25 THE WITNESS: It was not specified. It was

UNCLASSIFIED
TOP SECRET//SI//NF//OR

UNCLASSIFIED

43

1 the Israelis were selling equipment. It was never
2 specified that I know to be U.S. equipment. It was that
3 the Israelis were engaged in arms sales.

4 MR. KREUZER: But the Secretary would mention
5 this from time to time?

6 THE WITNESS: Yes. He'd mention it whenever
7 visitors came, Israeli visitors.

8 MR. KREUZER: Did he like talk about it in '85
9 or '84 or '86?

10 THE WITNESS: I'd like to say yes on all of
11 the above. I know that it was pretty much a regular
12 feature of many of his discussions with the Israelis.
13 You see, they had a different view of the Iran-Iraq war.
14 They generally held the view that if these two continued
15 banging away at each other that it was good for Israel.

16 We felt it was bad for the world because
17 things could happen like the Stark. Instability couldn't
18 be contained and the Secretary would make his point that
19 we've got to all stop any dealings with Iran, whoever.

20 
21 MR. KREUZER: So the Secretary then must have
22 felt very acutely about this whole business when he was
23 apparently at this meeting on the 7th -- what was it, the
24 7th of January -- and then there was one in December.

25 THE WITNESS: I am quite sure he did.

1 MR. KREUZER: But how did, like when the word
2 came through, I presume, from Admiral Poindexter -- I'm
3 just guessing; correct me if I'm wrong -- that the word
4 came through at some point and they said, okay, this
5 first shipment of TOWs are going to go to Iran, and this
6 is the order. How did that come through; do you know? I
7 mean, who talked to whom?

8 THE WITNESS: No. I have asked the Secretary
9 and I believe he told me that John Poindexter told him
10 the President has decided that he, the Secretary, inform
11 General Powell to get with the Army to have some TOWs
12 transferred to the Central Intelligence Agency.

13 MR. KREUZER: So did blow up then?

14 THE WITNESS: Well, I wasn't there.

15 BY MR. SABA: (Resuming)

16 Q That was approximately February 1986?

17 A I was told approximately February. I don't
18 know when.

19 Q But from that time forward, through '86,
20 Operation Staunch remained our publicly-stated position?

21 A Yes, it did.

22 Q Did you have occasion in 1986 to receive
23 information from foreign leaders that we were
24 transferring arms directly or indirectly to Iran,
25 complaints, information, inquiries?

UNCLASSIFIED

UNCLASSIFIED

45

1 A We continued to get complaints about -- it was
2 generally focused as Israeli sales to Iran. At one time;
3 in late '86, [REDACTED] told me that he thought the
4 Iranian recent successes in the battlefield were not
5 attributed as much to weapons but to new training and
6 tactics, and I said, what does that mean. And he just
7 smiled and my impression was that he felt the Israelis
8 were involved in making the Iranians a little smarter on
9 the battlefield. But I have no knowledge that that was
10 the case.

11 So the answer is, I guess, yes, from time to
12 time we got indications that Arab countries felt that
13 Israel was continuing to sell weapons. I can't remember
14 getting told that the U.S. was doing this.

15 Q Did the Kuwaitis make any complaints; do you
16 recall?

17 A I can't recall.

18 Q Do you recall in '86 whether you or anyone at
19 your direction made any speeches in the United States
20 concerning Operation Staunch?

21 A Well, my deputies give speeches quite often,
22 and I do, too. And it oftentimes comes up in Q and As
23 and things of that nature. So I don't remember
24 specifically saying go out and hit Operation Staunch.
25 But it was a part of our policy and generally would come

1 up from time to time.

2 Q So you'd say even after February '86 it
3 remained the Department of Defense's public policy?

4 A It remained the Administration's public
5 policy.

6 Q To oppose transfers or sales to Iran?

7 A That's correct.

8 BY MR. SAXON: (Resuming)

9 Q May I have that marked, please, as Exhibit

14 This is a copy of your sworn testimony to the
15 Inspector General team for the Department of Army on 24
16 December 1986, provided to us by DOD. There are a couple
17 of questions I have just based on some things that you
18 stated. I want to make sure I understand what was meant,
19 or, in a couple of cases, to just see if in fact this is
20 how you still feel.

21 If you would look first on page 3 -- and the
22 pages are numbered at the bottom -- the portion that I
23 have marked, and I'll give you a second to read that.

24 (Pause.)

25 A Yes.

UNCLASSIFIED

UNCLASSIFIED

47

1 Q This simply has reference again, as we have
2 already talked about, to the draft NSDD from Mr.
3 McFarlane to the Secretary and has you telling the
4 investigators "I did have some comments for the
5 Secretary, the thrust of which was we would be willing to
6 enter a dialogue with Iran, number one, and under no
7 circumstance could we conceive of arms sold by the United
8 States or indeed lifting of our embargo."

9 As best as you can recall, that's a correct
10 statement?

11 A Yes.

12 Q And that's how you still feel?

13 A Yes.

14 Q Okay. Let me get you to look on page 4, about
15 halfway down, through this full paragraph. There is a
16 sentence in which you said: "I know the Secretary of
17 Defense was very suspicious that this might not be
18 legal."

19 A Un-huh.

20 Q As best as you can recall, is that how you
21 felt? Is that what you understood to be the Secretary's
22 position?

23 A Yes. I thought that he did have strong
24 feelings about legality.

25 Q Let me get you to look, if you would, at the

UNCLASSIFIED

48

1 top of page 5, your first full answer there. I'll give
2 you a moment to read that paragraph, particularly the
3 last two-thirds of it.

4 (Pause.)

5 A Yes. All right.

6 Q Let me ask you, if you would, to expand on
7 that a bit. We know that you have already indicated that
8 you were either out of town or out of the country at one
9 point and General Powell needed some information, as you
10 say here, on HAWKs, and he went to individuals in DSAA,
11 either Dr. Gaffney --

12 A I think he went to Mr. Koch and then Koch to
13 Gaffney, but I have put that together subsequently.

14 Q All right. In your statement here it says:
15 "When I came back, DSAA had made me aware that they had
16 provided to General Powell some information on HAWK
17 missiles." Do you recall who would have told you that?

18 A No, I can't remember. Someone said Rudd here
19 today, and it could have been.

20 Q As you say there, "My best remembrance is
21 November-December '85 on that." So at some point in that
22 time frame you were apprised of what?

23 A That a point paper had been done on HAWK. I
24 actually frankly think it was later than November-
25 December. It was after I got back from Pakistan and

1 somewhat after the paper had been provided to General
2 Powell.

3 Q Okay. If you would, look down to the next
4 full paragraph where you were responding to Colonel
5 Morton. Just take a moment and read that, if you would,
6 sir.

7 (Pause.)

8 A All right.

9 Q I believe we just addressed this a moment ago,
10 but let me see if I can get you to recall anything with
11 any greater clarity. I know we are asking you to look
12 back in time, but it was your judgment that Secretary
13 Weinberger said that he was made aware that the President
14 wanted this either by the President or by Admiral
15 Poindexter?

16 A That's correct. I am now more of the opinion
17 that it was John Poindexter who called the Secretary, but
18 if the Secretary could come in tomorrow and say it was
19 the President it would be the same to me. And the reason
20 that I say I'm somewhat more sure is because I obviously
21 in the last six or seven months have had many more
22 conversations with the Secretary on this subject, so I am
23 getting more sure.

24 Q And when approximately do you think that would
25 have been conveyed to you by Secretary Weinberger?

UNCLASSIFIED

UNCLASSIFIED

50

1 A That was after things started to become
2 public, and I was trying to in a hurry get smart so I
3' could come up here and be reasonable in front of the
4 Committee.

5 Q Okay. If you would, sir, look at the next
6 page, page 6. You are asked a question here. If you
7 would look at your answer there (indicating) --

8 A Yes.

9 Q You state that "sporadically during the year I
10 heard either from Vice Admiral Jones or Mr. Taft that
11 there were other shipments." Now Vice Admiral Jones
12 would be Admiral Donald Jones who took General Powell's
13 place as the Secretary's military assistant?

14 A That's correct.

15 Q And Mr. Taft the Deputy Secretary. So is it
16 your sense from this statement that periodically from
17 time to time you would hear that other shipments had gone
18 forward?

19 A Yes, it is.

20 Q Would that have been limited to the TOWs or
21 would you have also been apprised about HAWKS?

22 A I don't remember specifically hearing about
23 the HAWKS. I think it was just shipments. From my point
24 of view, frankly, it didn't matter because I wasn't
25 involved in any of the arrangements.

1 Q I'd like for you to look at page 10. About
2 halfway down the page there's a question that begins,
3 "Sir, when we talked to General Powell," and goes on to
4 say "he thought", General Powell thought, "we should talk
5 to you and to Admiral Jones.

6 The investigator says: "Based on your
7 knowledge, sir, do you think it would be beneficial for
8 us to talk to Mr. Taft?" And you say that you think it
9 would. Is that your recollection?

10 A Yes.

11 Q And as far as you know did they ever talk to
12 Mr. Taft?

13 A I can't say.

14 Q Would you tell us why you thought it would be
15 important that they might want to see Secretary Taft?

16 A My understanding was -- and again this was
17 after all the revelations were out and I was involved my
18 own self in trying to piece together what happened --
19 first of all he, Mr. Taft, played in this issue when the
20 rest of us were out of town, number one, so he had a
21 part, and, number two, that I either saw something, some
22 document or some note or something, memo, to the Deputy
23 Secretary or I was informed that perhaps Mr. Marsh or
24 General Wickham had spoken to him -- to him, Taft --
25 around the April time period. So I thought it was

1 essential that they do see him to get a full picture.

2 Q Let me now ask you to take a look at
3 Deposition Exhibit 5, which is a chronology supplied, as
4 you can see, by Ambassador-Designate Raphel on his
5 knowledge of the Iran arms transfer issue.

6 (The document referred to was
7 marked Armitage Exhibit
8 Number 5 for identification.)

9 I think this would be Arnie Raphel, who was at
10 State. Again, I'm not going to ask you to vouch for the
11 accuracy of anything that is in here, but I would like
12 you to look, if you would, at the page of the chronology
13 itself that is numbered page 2.

14 At the top you see November 24. You can see
15 that each date he has numbered in the various notes and
16 entries and so forth. If you would look at the December
17 3 entry, it says "Assistant Secretary Armitage told me
18 that Colonel North had said that he would be made the
19 scapegoat if the operation goes wrong, but that we have
20 lost little by trying."

21 Is that generally an accurate statement; do
22 you recall?

23 A I don't really recall that, but Arnie's very
24 good. He's very precise.

25 Q Do you recall Colonel North telling you that?

UNCLASSIFIED
TOP SECRET//SI//NF

UNCLASSIFIED

53

1 A No, but I do recall Ollie being very shocked
2 when I said how much the Secretary would hate all this,
3 and in that context it makes sense to me, but I don't
4 remember that statement.

5 Q The next sentence, again from Mr. Raphel's
6 chronology, "Reportedly, Colonel North added that the
7 Iranians involved are disreputable." Do you recall him
8 making that statement to you, Colonel North?

9 A I don't think he used that word. I think he
10 used somewhat more colorful language -- some people think
11 they are dirtballs or something like that. But that's
12 Ollie.

13 Q Do you recall conveying that to Mr. Raphel?

14 A No, I do not recall it, but I'm sure I did
15 because I shared a lot with Arnie. He was my major
16 contact on Middle East issues.

17 Q Let's go off the record a second.

18 (A discussion was held off the record.)

19 BY MR. SAXON: (Resuming)

20 Q Mr. Secretary, if you would look again at page
21 2 of Mr. Raphel's chronology, he says: "On December 6 I
22 was told that the operation involved trading arms [REDACTED]
23 [REDACTED] and that there was a need to replace 3,300
24 I-TOWs in Israel." Now he states later that he cannot
25 recall whether you may have provided him that information

54

1 or the information in the next entry for December 6,
 2 which is "my notes reflect that I was given information
 3 on the provisions of the Arms Export Control Act and how
 4 they applied to arms transfers."

5 Would you have a judgment as to which of these
 6 you might have talked to him about?

7 A I don't think I gave him the [REDACTED]
 8 thing. On the AECA, the Arms Export Control Act,
 9 provisions, I know I did discuss that with Arnie.

10 Q And would it have been about December 6?

11 A Oh, yeah. It was in preparation --

12 Q For the December 7 meeting?

13 A Yes. I remember having discussions on the
 14 Arms Export Control Act with Arnie.

15 Q Let me ask you, if you would, to turn to the
 16 top of the next page, page 3. There is a December 13
 17 entry.

18 A Yes.

19 Q And in ~~the~~ ^{THE COMMITTEE'S NOTES WHICH BEGIN ON} notes, which are on the page
 20 ^{Page 5003492. LOOK AT THE PAGE} numbered S-003494, if I could get you to look that over.

21 A I've got this, Raphael's notes, State.

22 Q Yes. And then ~~he~~ ^{THERE IS} has a quotation. ~~He~~ ^{IT} says:

23 "Raphael thinks Armitage told him this." Let me get you
 24 to look at both the December 13 entry and the one on page
 25 ^{OF RAPHAEL'S CHRONOLOGY} 2 and see if this refreshes your recollection as to

UNCLASSIFIED

UNCLASSIFIED

55

1 whether you might have told him any of this.

2 A There is no December 13 on page 2. Page 3?

3 Q Yes, sir.

4 A I don't think on page S-003494, ^[THE COMMITTEE NOTES] that I am the
5 one who told Arnie Raphael at Ollie North hostage meeting
6 last night, because I was not a member of the OSG at that
7 time. So I don't believe that was me.

8 Q Okay. If you would look under the February 5
9 entry on page 3, ^[OF RAPHAEL'S NOTES] still --

10 A Got it.

11 Q It says: "I was told that we were attempting

12 [REDACTED] " Then if

13 you look to ^[the Committee Notes] the same page, under February 5, it says:

14 "This information came from Armitage, according to
15 Raphael's best guess, because Armitage's initials appear
16 next to it. His note was that [REDACTED]

17 [REDACTED]

18 A I would guess that's me. If you are
19 interested, we had had some trouble periodically with [REDACTED]
20 [REDACTED] on this Iranian
21 caper. At one time we felt at the Department of Defense
22 that we were cut off. State apparently was still cut
23 off. I was keeping Arnie informed. I don't remember
24 that conversation, but it would have been something I
25 would have shared with Arnie.

UNCLASSIFIED

UNCLASSIFIED

56

1 Q I was going to ask you about that. Let me at
2 this juncture do it. It was your statement, I believe,
3 that DOD was cut out [REDACTED] in terms of
4 Iran at some point; is that correct?

5 A My understanding is that OSD was cut out, but
6 that Admiral Moreau of the Joint Chiefs of Staff for some
7 reason still got his copy and occasionally shared it with
8 Powell and the Secretary. And this was what I think had
9 tickled the Secretary's nose that there was something
10 going down with Iranians.

11 Q Do you have a sense as to how that came to be
12 or who was responsible for cutting all of OSD?

13 A I don't know who did it. I got a sense the
14 direction came from the NSC.

15 Q Do you have in mind who might have done that?

16 A No. Well, there are three or four suspects,
17 but I don't know.

18 Q Okay. Going back to Mr. Raphael's chronology,
19 on page 3 again, the February 12 entry, he says: "I was
20 told that David Kimche and the Israeli MFA was no longer
21 involved in the arms sales operation." ^{in the Committee}
~~On the page where~~
^{notes,} ~~he elaborates~~ on the February 12 entry, ^{it says:} ~~he says:~~ "This
22 information came either from Ken Quinn or Armitage", and
23 the notes simply say "Arms to Iran, Kimche out." Do you
24 know whether that might have been from you?
25

UNCLASSIFIED

UNCLASSIFIED

57

1 A I don't think it was me, and the reason I say
 2 that is because I knew David Kimche from the Lebanon days
 3 and referred to him as the owl, and I'd have almost
 4 certainly said something like that to Raphel. It's the
 5 owl.

6 Q Let me ask you, if you would, to look at the
 7 final entry on page 3 of July 24, where Mr. Raphel says:
 8 "I was told that Mr. Ledeen contended he established the
 9 original contacts with Israel to set up the arms
 10 transfers and that this was done with Mr. McFarlane's
 11 permission. The purpose to arrange for a more moderate
 12 regime in Tehran and to do so while Khomeini was still
 13 alive. The Iranian response was to ask for arms."

14 ~~his elaboration~~ ^{the committee notes} on July 24 it says
 15 "Raphel thinks this came from Armitage, who got it from
 16 Ledeen or North." Do you know whether you might have
 17 been his source for that?

18 A June 24?

19 Q July 24.

20 A Excuse me, July. No. The reason I say I
 21 don't think it was me, I dialed into Michael Ledeen
 22 somewhat later in the year, so I don't think this came
 23 from me. But that's consistent with what Ledeen told me
 24 later in the year, I must say.

25 Q Okay. This completes my references to this

1 document and I appreciate your helping us to try to make
2 sense of that.

3 Mr. Secretary, let me ask you a bit about the
4 OSG. We've talked about it and you've made reference to
5 it. Exactly what was the OSG?

6 A The OSG was a small cell established in the
7 White House, the Operations Subgroup of the Terrorist
8 Incidents Working Group, the TIWG. It consisted of
9 membership in the Department of Defense, the FBI, CIA,
10 NSC, and the Department of State, and it was established
11 in the wake of the Holloway Report on Terrorism. It was
12 to be a mechanism that could reach to principals very
13 quickly, not having to go through all sorts of
14 bureaucratic machinations to get quick answers for quick-
15 developing situations.

16 Q Was there a point at which any of its
17 discussions focused on arms to Iran or arms for hostages,
18 as best you recall?

19 A As best I recall, in several of the meetings
20 there were inferences by one or another participant to
21 this, not directly. I don't remember it coming out as a
22 direct discussion in front of the OSG of this program.
23 But various members of the OSG had various parts of the
24 puzzle and either on the margins of an OSG meeting or in
25 a reference across the table at an OSG meeting there was

;

1 generally what I would call a disparaging remark asked
2 about the policy of providing arms to Iran.

3 It was never a subject that I remember from my
4 participation in the OSG of an OSG meeting.

5 Q Do you recall who might have made that
6 disparaging remark?

7 A I remember making some. Bob Oakley had made a
8 couple. Later Jerry Bremmer made some remarks.

9 Q Who replaced Ambassador Oakley?

10 A Who replaced Ambassador Oakley. I don't
11 believe unless someone was witting of the whole program
12 that they were remarks that made sense to the whole
13 group.

14 Q But they were remarks along the line of why
15 are we saying this, given what we are doing?

16 A Or this sure is stupid to spend all this time
17 talking about how strict we are on our no-ransom, when on
18 the other hand we're doing something else. But a remark
19 and then gone.

20 Q Was there a time when General John Mollering,
21 the JCS representative, asked you what the heck everybody
22 was talking about?

23 A There was a meeting in the summer and, as I
24 remember, there was a little bit more chatter around the
25 table than usual. I felt somewhat bad, and I can't

UNCLASSIFIED

UNCLASSIFIED

60

1 remember if John asked me in the car going back or I felt
 2 so bad I raised this to John Mollering, but I said there
 3 are some things you ought to know, and I gave him a very
 4 general outline, that we were indeed providing some
 5 weapons to Iran.

6 Q This would have been approximately when --
 7 late June or early July of '86?

8 A I would say it was July, but it was summer.

9 Q And what was General Mollering's position?

10 A He was appalled.

11 Q I'm sorry, what was hit --

12 A He was Assistant to the Chairman.

13 Q Of the Joint Chiefs?

14 A Of the Joint Chiefs of Staff.

15 Q And as best you know that was his first
 16 knowledge of this?

17 A Yes.

18 Q And was Admiral Crowe, the Chairman of the
 19 Joint Chiefs, knowledgeable at that time, as far as you
 20 know?

21 A My understanding was that General Mollering
 22 had returned and made him knowledgeable.

23 Q Now to the question you were about to answer.
 24 What was General Mollering's reaction when you informed
 25 him of this?

UNCLASSIFIED

61

1 A To the best of my recollection, he was
2, appalled or disbelieving.

3 Q Now how do you know that he informed his boss,
4 Admiral Crowe?

5 A In the workup again to testimony after the
6 program had been made public this came to light.

7 Q That he had told Admiral Crowe and it had also
8 come to light that Admiral Crowe had gone down to see, or
9 up, or wherever to see Secretary Weinberger?

10 A He went up to see the Secretary, and this also
11 came to light as we were preparing for testimony.

12 Q Before I ask you on the issue of readiness
13 about the TOWs, let me ask you a question or two about
14 the HAWKs. Have you been made aware at any point, either
15 at the time or subsequent to the shipment of the HAWK
16 repair parts, about the readiness impact data that was in
17 front of the Army policymakers when they were trying to
18 decide whether to meet the requirement to the CIA?

19 A No.

20 Q So you would not be aware,

14

15

Q Do you recall an OSG meeting in the afternoon around the time of the Attorney General's press conference, or shortly thereafter, in which a statement was being prepared for President Reagan and it was circulated in which President Reagan was going to comment on and explain these matters, and it was circulated and then there was apparently some reaction to it that was fairly strong?

16

A Yes, I do.

17

18

Q Tell us about that meeting.

19

20

21

22

23

24

25

A It was in late afternoon, my recollection was around 1600, as most of the OSGs were roughly that time. A statement was being prepared for the President. I had seen a copy which came over maybe an hour or two before the meeting. I was annoyed and alarmed about it and called it to Mike "Armacost's attention. I said this looked like trouble to me. I think I used the term it asks more questions than it answers.

UNCLASSIFIED

UNCLASSIFIED

63

1 We then got into the OSG and various members
2 were asked to take a look at the statement and then take
3 it back and make some comments, to provide comments later
4 to Ollie's office. But in the nature of bureaucracies
5 people started reading right away and people started
6 commenting right away. And to my recollection the JCS
7 representative, the OSD representative, the State
8 representative, and the FBI representative all had very
9 serious reservations about the statement.

10 Q Along what lines?

11 A Mine -- that this looked like it asks more
12 questions than it answered. If the President doesn't
13 know any more about this, he ought to just say well, open
14 up. Once I get it, I'll make it all public. But this
15 looks kind of cooked. Now those are not quotes, but
16 that's the thrust.

17 General M^ellering said something about I think
18 that I was around here during Watergate; this looks like
19 -- you know, this not real. Buck Revell --

20 Q Of the FBI?

21 A Of the FBI had some comments. I just remember
22 they were along the lines, but I was subsequently told he
23 had fired over some comments to Ollie in the wake of that
24 meeting to try to bring the statement more in line with
25 what he knew to be the facts.

UNCLASSIFIED

UNCLASSIFIED

64

1 In general, all the people I mentioned bled on
2 that statement.

3 Q And were you subsequently told by Craig Coy of
4 the NSC staff that this reaction was so strong that
5 Colonel North ran across the street to either see Pat
6 Buchanan or Don Regan to have the statement changed?

7 A Well, I think it was Craig who told me that
8 they were surprised at the strength of reaction and the
9 kind of unanimous opinion of the group, and that Ollie
10 and maybe someone else -- I can't remember whether it was
11 Ollie alone -- went across the street to either Pat
12 Buchanan or Regan's office to try to get it changed. I
13 think it was Craig who told me that.

14 Q Let me ask you, Mr. Secretary, about some of
15 your discussions with Colonel North, and you've been
16 quite open previously with the Tower Commission and the
17 Senate Select Committee in characterizing several of
18 them, and I want to ask about two or three in particular.
19 You probably know which ones I'm talking about.

20 First, there was a statement sometime in 1986
21 in which Colonel North talked about General Secord and,
22 as I think you said, it was something along the lines of
23 Secord needs to get the Medal of Freedom.

24 A No. We said the President -- well, he didn't
25 say "needs". He said Secord's a national hero; the

UNCLASSIFIED
TOP SECRET TOWER

1 President ought to or will give him the Medal of Freedom.

2 Q Tell us more about that -- when you think it
3 might have been said, what the context was, et cetera.

4 A The context. I had come to understand that
5 Dick Secord was involved in this Iranian affair, and in
6 one of my conversations with Ollie I expressed to him how
7 terrible it was, and I think I also said I was very
8 surprised that Dick Secord would be involved in this, and
9 he said that Dick Secord was basically a great American
10 and the President is going to give him the Medal of
11 Freedom. And I don't recall the time.

12 Q When were you made aware that General Secord
13 was involved in some way?

14 A I don't remember that either, but it had to be
15 after -- sometime after February of 1986, that I recall.

16 MR. KREUZER: Mr. Secretary, in regard to
17 that, is that the kind of statement that if Ollie North
18 said that to you, would you say well, if Ollie says the
19 President's going to do that, then he's going to do it,
20 or was that just advertising?

21 THE WITNESS: I don't know. I can't answer
22 that question. This is what Ollie told me.

23 MR. KREUZER: The thrust of what I'm trying to
24 get at is can you comment on how close he is to the
25 President or was?

UNCLASSIFIED

;

UNCLASSIFIED

66

1 THE WITNESS: I could have commented on that
2 several months ago, but I can't comment on it now because
3 I don't know basically when I learned what. But at one
4 time it was pretty generally felt in the Administration
5 that Ollie was very close.

6 MR. KREUZER: That he could just walk in?

7 THE WITNESS: Well, that no one could just
8 walk in, but that he was able to get in to see the
9 President quite often. However, I have been informed
10 from newspaper stories and testimony throughout the past
11 many months that this wasn't the case. I'd have had a
12 lot easier time answering that seven months ago. I would
13 have answered more in the affirmative several months ago.
14 Right now I just don't know. But he said it.

15 BY MR. SAXON: (Resuming)

16 Q Do you know how you became aware or were
17 apprised that General Secord might have been involved in
18 this?

19 A No, I don't remember, and it could have been
20 either Ollie or it could have been the Israelis sometime
21 during '86, but I can't remember who it was. I know I
22 was surprised.

23 BY MR. SABA: (Resuming)

24 Q Why were you surprised?

25 A Dick Secord is a man, in my view, of enormous

UNCLASSIFIED

UNCLASSIFIED

67

1 intelligence, and I just couldn't believe that he was
2 involved in something that I personally felt was very
3 silly.

4 Q When you learned he was involved, apart from
5 your view of him as an individual, were you also
6 surprised that the operation had gone private?

7 A I don't think I knew it as public or private.
8 From my point of view Ollie was involved and consequently
9 it wasn't a private operation. It was the government.
10 So I don't think I ever thought about it in terms of
11 private or public, and I didn't know what Dick was doing.
12 But as far as I knew Ollie was involved, and as far as I
13 was concerned this was a government thing.

14 After all, there had been discussions in the
15 National Security Council about it.

16 Q Is it correct to say that you had no knowledge
17 of Secord's involvement prior to the February 1986
18 transfers?

19 A To the best of my recollection, because I
20 hadn't seen Dick in some time. But I could have known.
21 I think it's February -- to the best of my recollection,
22 sometime after February.

23 BY MR. SAXON: (Resuming)

24 Q Let me go back to your conversations with
25 Colonel North. I believe you testified that after the

1 Iran initiative became public and the McFarlane trip to
 2 Tehran but before the Attorney General's press conference
 3 at which the diversion was talked about Colonel North
 4 made the statement to you along the lines of well, that
 5 this won't be so bad when people find out the Ayatollah
 6 is helping us fund the contras.

7 What can you tell us about that statement --
 8 exactly what you recall the statement being, the context,
 9 et cetera?

10 A As I recall, I was again preparing to go
 11 testify and I called Ollie on the black phone, the secure
 12 phone, to find out what was going on, to fill in my
 13 knowledge a little bit more. And I think -- in the wake
 14 of this I've thought a lot about it -- that Ollie was
 15 concerned that I was very upset about this project, and
 16 he said basically, Rich, don't worry. It'll all be all
 17 right when the Vice President goes to Riyadh to sit down
 18 with the Iranians and they find out that our hostages
 19 come home, and that the Ayatollah is either helping us in
 20 Central America or the contras.

21 The impression that I got was that it was the
 22 contras, but he could have said Central America. And I
 23 said, Ollie, wow. And then he and I stopped the phone
 24 conversation. As I think I've told you and others
 25 before, I then called Mike Armacost and just reported

UNCLASSIFIED

UNCLASSIFIED

69

1 that I had what I considered to be a rather baffling
2 conversation with Ollie in which he talked about the Vice
3 President going to Riyadh, sitting down with the Iranians
4 to talk about peace in the Gulf, getting help in Central
5 America or the contras, and our hostages being freed.

6 And Mike, who shared the same anxiety I had
7 about having to come to testify not knowing much about
8 the program, just kind of said wow, but we didn't go into
9 it any more.

10 Q I realize that we have the benefit in asking
11 these questions of hindsight and knowing a whole lot more
12 than you knew at the time, but did you not inquire
13 further of Colonel North as to what he meant by that?

14 A I thought he was losing his grip at that time.
15 I thought he was saying this to make me calm down, not
16 realizing it had the opposite effect on me. I thought he
17 was losing the grip.

18 Q Was there a point at which you connected the
19 Ayatollah and the contras in the sense of diversion as we
20 have come to know it?

21 A No. No. When the Attorney General mentioned
22 this, that was the first time I realized it.

23 Q Did it "click", though, in terms of relating it
24 back to what Colonel North told you previously?

25 A Well, I remembered it, but it didn't click in

UNCLASSIFIED

UNCLASSIFIED

70

1 a major way. I just remember the conversation. It
2 wasn't too far afterward, too many days.

3 Q Do you recall if you told anyone about that
4 conversation other than Secretary Armacost?

5 A I'm almost sure I have, and I can't remember
6 to whom I said it. I know I've told a lot of people
7 since.

8 Q But roughly in that time period did you tell
9 Mr. Raphel?

10 A Well, I might have told Raphel, but I can't
11 remember. I know I told Mike because he was having to
12 testify with me.

13 Q I believe there was a time when you asked
14 Colonel North if he was all right in terms of the press
15 stories that were beginning to be written sometime in
16 early '86 about NSC involvement in aiding the contras,
17 and he basically told you his hands were clean and so
18 forth. Can you recall anything about that conversation?

19 A Yes, and I can state that it was not just me
20 that asked basically that question. I, from time to
21 time, participated in something that was called the RIG,
22 the Restricted Interagency Group.

23 Q And this was the RIG chaired by Mr. Abrams?

24 A Chaired by Elliott Abrams. I came to
25 participate more in the RIG toward the end of '86 because

UNCLASSIFIED

UNCLASSIFIED

71

1 my deputy, Mr. Sanchez, after six years was going to
2 retire and I had to pick up that slack a bit. And at
3 least one and, I think, several of those RIGs the story
4 kept cropping up. I think Senator Kerry had been
5 hounding Ollie and I made the general statement about
6 Ollie. All right, are you all straight on this. And he
7 assured me that he was, that it was absolutely legal, no
8 problem.

9 In a subsequent conversation either Elliott or
10 someone else at the RIG, probably Elliott, said, hey,
11 Ollie, this press stuff, is there anything to it. And
12 Ollie said he was absolutely straight -- not a nickel,
13 not a penny or no money had touched his hands. I
14 remember two or more occasions when his colleagues
15 basically inquired after Ollie's legal health.

16 Q As far as you know, were there any notes or
17 minutes of those meetings that would reflect this, or
18 memcons?

19 A No, I am unaware of any.

20 Q We covered before partially the question of
21 when you might have told Dr. Ikle about the arms to Iran.
22 What do you think is the time frame on that?

23 A The best I can remember it was late '86, and
24 if I had to pin down a date I'd say it was the beginning
25 of autumn but it was before it became public.

1 Q Let me ask a little bit more bluntly the
2 question that Mr. Kreuzer asked earlier, and let me
3 preface it this way -- that Dr. Ikle was your boss and he
4 was the top Pentagon man for policy. I understand that
5 if the Secretary says something is a close hold that
6 means it's a pretty close hold. But did you not feel at
7 any point that you had an obligation to him to apprise
8 him of something which you thought was a major departure
9 from our stated policy vis-a-vis Iran?

10 A Well, I will remind you, first of all, that we
11 all work for the Secretary of Defense primarily. That's
12 our boss. Second of all, I obviously had qualms about
13 this. That's why I eventually let him know what I
14 figured he needed to know to conduct his business without
15 an embarrassment to him. But I didn't realize this was
16 going to become public in November. So I guess the
17 answer is yes to both.

18 But we both work for the Secretary primarily.

19 Q I'm not trying to pass judgment.

20 A No. It's very important because we are both
21 Presidential appointees. We both work for the Secretary
22 primarily. If the Secretary were to tell me to do
23 something legal and tell me not to tell X, Y or Z, I
24 would not tell X, Y or Z. He didn't specifically direct
25 me not to tell Fred, but he told me it was sensitive, to

2 Q Did you ever discuss the Iranian arms
3 initiative with Noel Koch prior to the matters becoming
4 public?

5 A Yes.

6 Q Do you recall when you might have had any
7 discussion with Mr. Koch?

8 A Sometime, I would say roughly January or
9 February. It might have been late December.

10 Q January or February of?

11 A '86. It might have been December '85.

12 Q And what do you think might have been the
13 reason for discussing it with him?

14 A It seems to me that he might have raised it
15 with me, but I remember having conversations with him on
16 it. I think he probably raised it with me. I remember
17 he knew about it.

18 Q Did anyone tell you that he was involved in
19 negotiation with the Israelis on the price that was to
20 govern the TOW shipments to Iran?

21 A No, they did not.

22 Q Have you been made aware of that prior to
23 today?

24 A This is the first I've heard of it.

25 MR. SABA: This is the first?

4 Q I want to go back to the TOW pricing question.
5 You told the Department of the Army Inspection General
6 team that as far as you knew there was no pressure that
7 the Pentagon put on the Army to keep the price of the TOW
8 missiles low; is that correct?

9 A That is correct.

10 Q Do you find it at all curious that the GAO
11 report that looked at the pricing found that several
12 discretionary items, that they all came out on the low
13 side -- and that is particularly that the price the Army
14 charged on the I-TOW was too low, that the standard AMDF
15 price for the basic TOWs was too low, that the price for
16 the MOIC was too low, and that the Army underestimated
17 the charges for transportation?

18 A I don't find it so much curious as I found the
19 whole operation rather badly done. I concentrated more
20 on the final bottom line of the GO, which pleased me
21 quite a bit.

22 Q As you were looking back on all of this to try
23 to reconstruct what took place with the pricing in late
24 '86, after it became public, were you made aware of the
25 role that Mr. Ledeen and Mr. Schwimmer played in fixing

1 the first price on the TOWs?

2 A No.

3 Q Let me ask you, changing gears now from the
4 Iranian side of these matters to the contra side, let me
5 ask you a few questions about the private supply
6 operation and private supply network. That's what I'll
7 call it. If you know it by some other term, that's fine.

8 I believe you told the Tower Commission that
9 you knew that some weapons were getting through somehow
10 because the contras continued to fight; is that correct?

11 A Yes.

12 Q What would be your sense of how those arms got
13 there?

14 A I assumed that -- well, the conservatives were
15 providing money, and this money then purchased arms on
16 the grey arms market. I knew that some Americans had
17 been reported to be doing this -- Jack Singlaub and
18 others. I also, I think I told the Tower guys and maybe
19 you, my understanding was that it was at least the
20 implicit, if not explicit, discussion of this in the Hill
21 testimony surrounding the provision of \$27 million in
22 humanitarian assistance to the contras, basically to the
23 effect that well, "weapons are coming from somewhere, so
24 we are only going to do humanitarian.

25 Q Did you ever have any discussions with General

1 Singlaub about his role in these matters?

2 A None that I recall.

3 Q What do you know -- what did you know during
4 or prior to these matters becoming public about the air
5 strip that existed in Costa Rica?

6 A I knew nothing.

7 Q You knew nothing?

8 A I knew nothing.

9 Q When did you first learn that it was being
10 used for air drops or resupply?

11 A When things became public.

12 Q Did you ever have any discussions with Colonel
13 North about use of this air strip prior to it becoming
14 public?

15 A Not that I recall, no.

16 Q Were you ever involved with Colonel North in
17 what could be called concocting a cover story for the air
18 strip if these matters ever became public?

19 A No.

20 MR. KREUZER: Mr. Secretary, was it your sense
21 -- you mentioned a couple of minutes ago that you
22 understood that private benefactors may have been
23 contributing to the lethal, what you say was lethal
24 support.

25 THE WITNESS: I think I said money. They were

1 giving money and then with the money my assumption was
2 the contras could go purchase arms on the market.

3 MR. KREUZER: Did you ever ruminat^e on how
4 much of that effort would be covered by private
5 benefactor support?

6 THE WITNESS: None whatsoever. I never did.

7 MR. KREUZER: You never equated how much they
8 would be able to provide as opposed to, say -- in other
9 words, did the question ever come into your mind about
10 whether they would be able to provide overall support to
11 a contra effort of maybe [REDACTED] as opposed to some other
12 source of support?

13 THE WITNESS: No, I never did. I must say
14 that my own efforts on behalf of the contras, if I can be
15 allowed to say that, were somewhat periodic. As we
16 geared up for a fight, I'm sure you'll see the attendance
17 at different meetings in the White House and all would
18 reflect much more my attendance, because we would have to
19 lobby the Hill, we would have to work these things.

20 As we were not doing that, then I was a much
21 less frequent attendee at the normal meetings because I
22 felt I had a very good, and do feel that I had a very
23 good deputy in Nestor Sanchez, who knew these matters
24 very well and was perfectly competent. But as we got to
25 a crunch point and I felt it needed the artillery of my

19 initials JMP, which I guess suggests that Admiral
20 Poindexter had seen it, and it's with regard to the air
21 strip in Costa Rica to which I made reference a few
22 minutes ago, which we now know was used for air drops for
23 getting supplies, including lethal supplies, to the
24 contras during the period when U.S. assistance was cut

1 Let me direct your attention to a couple of
2 paragraphs on page one of the memorandum. It starts off
3 in paragraph two saying "Request guidance at Tab 1 has
4 been coordinated with State, Mr. Abrams, Defense,
5 Armitage, and CIA, [REDACTED]" Let me ask you first if you
6 have any recollection of Colonel North coordinating with
7 you anything in terms of how this issue of the use of the
8 air strip, its construction or anything else would be
9 portrayed in the press.

10 A I certainly don't remember this, and I knew
11 nothing about the air strip. It is possible that this
12 press guidance came through me from Nestor, but it
13 doesn't look to me -- I mean, I wouldn't have known what
14 it was. I could have coordinated, but I certainly don't
15 remember it at all.

16 Q Okay. I can understand with the many issues
17 you have to deal with that you may not have total recall
18 of all of these.

19 A I say completely unabashedly that I have no
20 knowledge of this.

21 Q Okay. You'll understand if I have to ask a
22 few more questions.

23 A Please.

24 Q We are trying to piece all of this together
25 and we do know the air strip is [REDACTED] we are fairly

1 confident of the uses to which it was put and what the
2 U.S. role was in that. Colonel North says in his memo to
3 Admiral Poindexter that the damage done by this
4 revelation is considerable. He talks about the logistics
5 support provided by Project Democracy on the ability of
6 the resistance movement to sustain itself. He says the
7 air field at Santa Elena has been a vital element in
8 supporting the resistance and so forth, and talks further
9 through the memo about the strategic importance of the
10 air facility, et cetera.

11 Is it your statement that you had no knowledge
12 whatsoever prior to these matters becoming public that we
13 were using this air strip to supply the contras?

14 A This is my statement.

15 Q And you don't recall at all him, Colonel
16 North, talking to you or dealing with you to work at a
17 press statement which in effect was a cover that
18 disguised its purposes?

19 A No, I certainly don't remember it. I must say
20 that, having read this press guidance, this wouldn't
21 offend me, but I don't remember it at all.

22 Q I'm sorry. What do you mean?

23 A Well, the press guidance, as I read it, looks
24 fairly non-controversial and nothing to it. I myself did
25 not know that the air strip is being used for contra

1 resupply. If someone had come to me and said, look,
2 these are the facts, we've got this, I would have okayed
3 it. But I don't remember seeing this.

4 Q Okay. I understand the distinction.

5 A I don't remember seeing this.

6 Q Let me ask you a few questions about General
7 Secord, who we alluded to earlier. As best as you can
8 recall, when did you first meet him?

9 A I met Dick in Iran at his pinning of his
10 general officer stars, either at the last month of '75 or
11 the first month of '76. Whenever he pinned them on, I
12 was in that ceremony. That's the first time I met him.

13 Q And this was when you were a consultant to the
14 Pentagon?

15 A And, more particularly, to the defense
16 representative to Iran.

17 Q Have you had any ongoing or continuing
18 relationship with him since that time?

19 A Oh, yes. Well, when I left Iran and I did not
20 see Dick Secord, and I left in the middle of '76, nor
21 have any communication with him until 1981 in the advent
22 of this Administration.

23 Q When you both arrived at the Pentagon?

24 A Well, I arrived there. I think he was already
25 there. I can't remember when he was, but at any rate I

1 have the highest regard for him personally. I had a high
2 regard them. I introduced him, as I remember, to Frank
3 Carlucci as a job-seeker and he got the Near East/South
4 Asia job as Deputy Assistant Secretary. He held that job
5 until roughly the end of April 1983, at which time he
6 retired.

7 From the end of April 1983 to now I've seen
8 him possibly three or four times and, to my recollection,
9 I haven't seen him or spoken to him in over a year and a
10 half or more now. I consider him a friend.

11 Q You say you don't think you've spoken to him
12 in about a year or a year and a half?

13 A The reason I dare say that is I have asked my
14 own staff, my secretary, in preparation for either a call
15 by you or the FBI when the last time Dick Secord was in
16 or around. They couldn't remember. They put it together
17 as a year and a half.

18 Q And a year and a half would include the period
19 in May of '86.

20 A It certainly would appear then.

21 Q Do you recall whether you talked to him in May
22 of 1986?

23 A I don't recall. It's possible, but I
24 certainly don't recall it, nor did my staff.

25 Q Would you recall that if you had spoken to him

1 about the Iranian arms shipments?

2 A If I spoke to him, I would have spoken to him
3 about the Iranian arms shipments. There is no question--
4 no question.

5 Q If you had spoken to him, would it have been
6 captured in the record-keeping system you have in your
7 office?

8 A No. No, it wouldn't have been. I don't
9 generally make a memorandum of conversation afterward,
10 and I can't remember the last time I saw him. I'm
11 depending on my staff's advice, and I asked them when's
12 the last time I talked to him. But if I talked to him in
13 '86 after I knew he was involved, I can assure you I
14 would have talked about Iran.

15 Q For what it's worth, he, Richard Gadd, says
16 that at about the time of the second arms shipment, which
17 would be in May of '86, that General Secord told Mr. Gadd
18 about a conversation you and he had and, for what it's
19 worth, apparently you told General Secord this was not a
20 very bright idea. So if you did have that conversation,
21 it was a consistent statement. That's what Mr. Gadd
22 says.

23 A That's fine. I would have told Secord it was
24 a dumb idea. There is no record of his coming into my
25 office, I must say, and no phone record that anyone

1 remembers.

2 Q After General Secord left the Pentagon, was he
3 a consultant to ISA?

4 A He was initially a consultant to me.

5 Q And what was the nature of his duties?

6 A I don't remember ever having paid him to do
7 any, but it was going to be consulting on Near East/South
8 Asia. It could be that he did a little work for us, but
9 I don't believe much.

10 Q And was he later a member of the Special
11 Operations Advisory Group, the SOPAG?

12 A Well, he was dropped from my rolls and ⁵ a
13 consultant and he was picked up on the rolls of Mr. Koch
14 as a consultant to the SOPAG -- special policy advisory
15 group.

16 Q And what do you know or understand to have
17 been the reasons for his being dropped from the SOPAG
18 rolls?

19 A My recollection is that -- background. I took
20 over SOF in roughly May, late May of '86, the special
21 operating forces.

22 Q Upon the resignation of Mr. Koch?

23 A Upon the resignation of Mr. Koch. And I
24 brought on a fellow by the name of Mr. Larry Ropka.

25 Larry had reviewed the Special Policy Advisory Group, had

UNCLASSIFIED

1 noted that Dick had not participated, and further, for
 2 some time further noted that Dick had not turned in his
 3 proper forms, and, as I remember, Larry said we ought to
 4 drop him, and I said that's a good idea. I don't think
 5 he was ever paid for anything he did for us.

6 Q So he was in essence terminated or allowed,
 7 his membership allowed to lapse or whatever for failure
 8 to fill out a financial disclosure form?

9 A Well, I think that was what allowed it to
 10 happen. I think that Larry was recommending that Dick
 11 was just too busy to participate. If we're going to have
 12 the Policy Advisory Group, we've got to get guys who can
 13 participate. So it was a little of both. We needed a
 14 guy who could be there, and I think that his not filling
 15 in the financial forms made it easy to drop a friend, if
 16 you know what I mean.

17 Q Did you ever talk with General Secord about
 18 this issue?

19 A I don't recall ever having talked to him.

20 Q Let me have you mark this as the next
 21 deposition exhibit, Exhibit 7.

22 (The document referred to was
 23 marked Armitage Exhibit
 24 Number 7 for identification.)

25 Mr. Secretary, these are some questions and

UNCLASSIFIED

1 - answers that Secretary Weinberger provided to the House
2 Permanent Select Committee on Intelligence last December,
3 and you don't have the full text of all of it, but the
4 relevant portions you do have, and that is on page one,
5 question four had asked about any consulting contract
6 General Secord had with the Department and basically he
7 said what you just told us.

8 Then, if you look on the next page, about a
9 third of the way down the page there is a sentence that
10 Secretary Weinberger provides his term on the SOPAG
11 expired effect 4 August 1986.

12 In question five, was General Secord dropped
13 from one of our committees for failing to execute a
14 financial statements, it states "Major General Secord
15 served on the Special Operations Policy Advisory Group,
16 SOPAG, from January 1984 to August 1986, although he last
17 participated in November 1985. Major General Secord's
18 membership on the SOPAG was terminated effective 4 August
19 1986 based upon his failure to provide the Department
20 with financial information as required in Form SF-1555.
21 Amplifying information is enclosed in Tab C."

22 If you look toward the back, you will find Tab
23 C is on numbered page D-101, and simply contains a chart
24 showing the dates of service by General Secord as a
25 consultant. Is this essentially consistent with what you

1 recall?

2 A I believe I provided this to you. Yes, this
3 is basically it.

4 Q While we are looking at this document, let me
5 ask you an unrelated question, unrelated to General
6 Secord, simply because it is here in front of us. If you
7 look at Question 6, which at the bottom of page two, it
8 says: "Have any FMS" -- and that's foreign military
9 sales -- "or other arms sales by the Department been made
10 to any agents or middlemen, as opposed to directly to a
11 recipient country?" And the answer Secretary Weinberger
12 provided was: "No FMS or other arms sales to foreign
13 countries have been made by the Department through a
14 private agency or middle man. There is no legal
15 authority to sell under the Arms Export Control Act to
16 other than an eligible foreign country."

17 Would you agree with that statement?

18 A I would guess it was the case. It was
19 provided by the Defense Security Assistance Agency, not
20 me, but that would be my journeyman understanding.

21 Q And would it have been your understanding in
22 late '85 or early '86 that Iran was ineligible as a
23 foreign country to receive FMS sales?

24 A My understanding was it was because we had an
25 arms embargo on it, sure. We had no relationships with

UNCLASSIFIED

UNCLASSIFIED

89

1 Iran and we have no embassy. We had no way to monitor
2 usage. So as a journeyman that's what I would have said,
3 that we couldn't sell.

4 Q I realize that's a bit out of sequence, but it
5 was there in the same document.

6 BY MR. SABA: (Resuming)

7 Q With respect to General Secord's role as a
8 consultant to SOPAG what were the functions of SOPAG at
9 this time?

10 A The functions were we had been trying for some
11 time to rejuvenate, reenergize our special operations
12 policy and we thought that it would be wise to get some
13 of the old bulls, if you will, of the special operations
14 business together to see what their ideas were, and these
15 fellows met from time to time and gave their ideas to the
16 Department.

17 And Dick Secord is known as having a
18 background in special ops. As you'll see from the other
19 listed members, these guys are all very deeply involved
20 in special operations and dedicated to it, and they were
21 to advise the Secretary of Defense on the development of
22 special operating policy and how do we apply special
23 operations.

24 You look quizzical and that's why I'm going on
25 to explain how we apply our special operating expertise to

2 BY MR. SAXON: (Resuming)

3 Q In terms of our special operations policy,
 4 what do you know or understand to have been the reasons
 5 why Mr. Koch resigned and left the Pentagon?

6 A I think that he was upset because the
 7 Secretary of Defense had made the decision to place
 8 special operating forces, which were one of Noel Koch's
 9 purviews, under me. It's a very difficult arrangement to
 10 explain. Previously Noel Koch was the Principal Deputy
 11 Assistant Secretary of Defense for International Security
 12 Affairs, and in that hat was my deputy. But for special
 13 operating forces and counterterrorism he was not my
 14 deputy. He reported directly through Ikle to Secretary
 15 Weinberger.

16 Secretary Weinberger -- and I really have to
 17 ask him his reasons, but he decided he wanted to tidy up
 18 this operation and consequently decided that for SOF Noel
 19 Koch would remain as the Principal Deputy, but that too
 20 would come under ISA, and I think this was a great
 21 disappointment to Noel and he decided to take a walk. He
 22 never said that in as many words to me, but I feel that's
 23 the reason.

16 MR. ALBRIGHT: In any personal financial
17 setting?

18 THE WITNESS: Not that I remember.

14 A I did not know this.

15 Q Did you have any awareness of his business

18 A The only thing I was aware that he was working

20 for UAE, the United Arab Emirates, and it had to do, if I
21 remember correctly, with aircraft shelters, and he was
22 engaged in bidding with some other country in Europe, and

3 A No, I'm not.

4 MR. KREUZER: Mr. Secretary, would you tell us
5 what your personal relationship is with Mr. Koch? Did
6 you have a personal and professional relationship or just
7 professional?

8 THE WITNESS: I consider myself a very good
9 friend of his. I still consider myself a friend of his.
10 I think he does not consider himself a friend of mine any
11 longer.

12 MR. KREUZER: Can you clarify why you think
13 Mr. Koch would have resigned if you were to be taking
14 over?

15 THE WITNESS: I think he saw that as somewhat
16 of an affront to his authority. There had been a lot of
17 trouble in the Department, particularly public criticism
18 of various members of the Joint Chiefs of Staff of
19 various Departments -- Army, the Department of the Air
20 Force -- of a lack of dedication to the SOF arena.

21 Secretary Weinberger had expressed to me in
22 the past a question in his mind as to what did Noel want.
23 Why did he feel it necessary to go public and blast these
24 guys? Why couldn't we work these issues out in-house?
25 He had had some meetings with me where at least the

1 Secretary claimed I don't really understand what he wants
 2 other than to bang away at the services.

3 So I think that's why the Secretary, I think
 4 he got tired of this. I mean, frankly, I was all for it,
 5 moving it under me. I'm a bureaucrat. When the
 6 Secretary said what do you think, I said I thought it was
 7 the best idea I've heard -- brilliant. But that's my
 8 bureaucratic, in a sense, talking. I think Noel found
 9 that as an affront to his own leadership.

10 My own view was this was going to allow his
 11 leadership and my ability to get things done in the
 12 building to bring home a success. Noel did not view it
 13 in that way, I think.

14 MR. KREUZER: That would have brought him
 15 under your -- you would become his direct supervisor.

16 THE WITNESS: I was in one-half of his job
 17 already.

18 MR. KREUZER: But in his part now, where he
 19 was reporting to Dr. Ikle, he would be reporting to you.

20 THE WITNESS: That's right -- through me to
 21 Ikle.

22 MR. KREUZER: So in addition to himself would
 23 he be bringing anything else in from Dr. Ikle's
 24 organization with him?

25 THE WITNESS: Well, he would be bringing the

1 special plans group, the special operating force boys who
2 worked for Noel. They would come with him.

3 MR. KREUZER: And no other assets than that?

4 THE WITNESS: I don't think he had any other
5 assets. The other assets belonged to me, if you will,
6 bureaucratically, anyway.

8 Q Mr. Secretary, I'm sorry. I just have another
9 question on this Peace Shield. Are you aware of any
10 amendment to the Letter of Agreement between the United
11 States and Saudi Arabia on that program providing for a
12 sole source procurement for the contractor to build the
13 facilities in Arabia?

14 A This is something you must ask Lieutenant
15 General Phil Gast about that. The reason I say that is
16 because I can remember discussions with Phil on Peace
17 Shield. This belongs to him as far as the administration
18 of contracts and all that. I'm the policy guy. I decide
19 whether I think this is a good idea to have Peace Shield
20 in Saudi Arabia or not, but he's required to run this by
21 us. I don't remember per se, but I remember discussions
22 on Peace Shield, Peace Vector, a whole bunch of these
23 Peace series things.

24 Q But it's my understanding that it would be
25 Lieutenant General Gast who would have arranged, if there

2 approved it.

3 A He would know about it. He'd understand it.

5 Q I mentioned earlier Richard Gadd. Do you know
6 Mr. Gadd?

7 A I had met Mr. Gadd, I believe, once when I
8 gave a speech down in Ft. Walton Beach, Florida, in 1983.

9 Q And that was the only time?

10 A To the best of my recollection. I may have
11 seen him in the corridor from time to time, but at most I
12 might have seen him twice.

13 Q Have you ever had any dealings with him of any
14 sort?

15 A Other than that night at Walton Beach, we went
16 out and had a few beers and that was it.

17 Q Do you have any knowledge of any of the
18 companies he has been involved with, specifically Summit
19 Aviation. Have you had any dealings with Summit?

20 A Not that I remember. But I read about his
21 involvement with the different companies since this thing
22 went public.

23 Q Sumerco?

24 A I don't know what that is.

25 Q Airmoc?

6 efforts to or actual success at diverting any arms that
7 were intended for [REDACTED] to the contras?

8 A I do not.

9 Q Let me ask you about something which is known
10 as [REDACTED] Do you recall that?

11 A Very well.

12 Q Okay. What can you tell us about that
13 operation?

14 A [REDACTED] was something I
15 inherited when I came to be Assistant Secretary of
16 Defense for International Security Affairs. I know that
17 we have provided you such documentation as we had, to
18 include what I believe to be the original document

Q I want to ask you a few questions about the activities of Colonel Jim Steele as head of the U.S. Mil Group in El Salvador. First, do you know Colonel Steele?

A I have met him.

Q What was the nature of any relationship you've had with him?

A I can remember meeting him when he -- I think it was him -- brought General Vides Casanova to the United States and General Vides was the Minister of Defense of El Salvador.

Q So we can understand it, what is the reporting or oversight or supervisory authority that you might have, if at all, over any of the mil groups.

A I have none over Colonel Steele. He works for

1 DIA. What is he? Is he a mil group commander? He
2 worked for the JCS. Now I did get involved in that. I
3 set the policies. My office sets the policies in El
4 Salvador regarding whether or not a guy can carry weapons
5 -- those kind of things.

6 Q And what about in the security assistance
7 arena?

8 A Phil Gast would have the day-to-day
9 cognizance. I just have -- to be simple, I decide what
10 we're going to sell in general terms and notify the Hill
11 and set the parameters of the program -- how much money
12 and all that -- and Phil Gast and DSAA runs the program.

13 Q And is DSAA part of your bailiwick, under you?

14 A Well, only for policy. Colonel Steele would
15 report not only to the JCS but also to General Gast, and
16 would take his instruction, day-to-day, on running
17 programs from DSAA, not from policy.

18 MR. KREUZER: Mr. Secretary, getting back to
19 what we were discussing a little bit earlier --

20 MR. SAXON: Does this relate to Colonel
21 Steele, because I want to follow up on that.

5 (Pause.)

6 A I have looked at it.

7 Q First of all, let me ask you whether you have
8 seen any of these documents prior to today, sir.

9 A No, I have not.

10 Q Okay. The first is on U.S. Mil Group, El
11 Salvador letterhead and is dated 1 February '85. The
12 subject is Felix Rodriguez. It's through the Deputy
13 Chief of Mission and to Ambassador Pickering, and it's
14 from Colonel Steele. And for the record he has verified
15 that that is his signature.

16 It says: "Per your guidance, attached is a
17 draft back channel to General Gorman on our 'no pay'
18 mercenary." Let me ask first of all do you have any
19 familiarity with Felix Rodriguez?

20 A No, I don't, but this is not the attachment I
21 have.

22 Q I understand that.

23 A No, I do not.

24 Q Do you know who Felix Rodriguez is?

25 A From the news accounts, yes.

TOP SECRET (CONFIDENTIAL)

1 Q Do you know him by the name Max Gomez?

2 A No, other than by the news accounts.

3 Q The next item in this exhibit is a
4 confidential cable that is from General Gorman for
5 Ambassador Pickering and Colonel Steele. Again, the
6 subject is Felix Rodriguez. It says: "I have just met
7 here with Felix Rodriguez." The next paragraph:
8 "Rodriguez's primary commitment to the region is in
9 [REDACTED] where he wants to assist the FDN. I told him
10 that the FDN deserved his priority." Numbered paragraph
11 4: "My judgment is that his advice will reinforce ours
12 and that we should put no obstacles in his way to
13 consulting with Blandon or Bustillo unless and until we
14 get counterindications. I recommend that Jim Steele meet
15 with him."

16 And then the next paragraph: "Assuming your
17 approval" -- meaning Ambassador Pickering -- "I will send
18 Rodriguez to [REDACTED]" Do you have any knowledge at all
19 about the role General Gorman would have played, or
20 Colonel Steele would have played in getting Mr. Rodriguez
21 to El Salvador?

22 A None.

23 Q Let me ask you to look at the next item, which
24 is the backchannel. These are out of sequence, but this
25 is the backchannel message that Colonel Steele references

UNCLASSIFIED

UNCLASSIFIED

103

1 on the first page. It says: "Eyes only for Ambassador
 2 Motley. Mr. Johnson, and then Southcom for General
 3 Gorman." This is from Ambassador Pickering. If you go
 4 through the text, it talks about what the plan was in
 5 terms of using Mr. Rodriguez in El Salvador. You get to
 6 paragraph number 3. It says: "Rodriguez will return in
 7 three or four weeks to work with Bustillo and Steele
 8 still will monitor closely."

9 Do you have any knowledge of any activities of
 10 Colonel Steele in monitoring Mr. Rodriguez?

11 A No, I do not.

12 Q When all of these matters became public and
 13 some of the Mil Group communications and other people came up
 14 to meet, I think, either with [redacted] and/or Mr. Sanchez --

15 A He did not meet with [redacted].

16 Q You did not meet with Colonel Steele?

17 A No.

18 Q You would have no intimate knowledge of any
 19 of these, if in fact he was engaged in any activities
 20 with Mr. Rodriguez or helping support the FDN?

21 A No, and Steele may have [redacted] to meet with
 22 Nestor, but the only person I directed [redacted] or to have of
 23 was our fellow in Costa Rica, when [redacted] started to
 24 become public -- is anything going on [redacted] here. Nestor
 25 called him up and asked him are you involved in anything

1 of assistance the contras in any way. And he told
2 Nestor no, or s Nestor reported to me. I do not know
3 about Steele mee g with Nestor.

4 I do, ever, know that we as a Department
5 tried to make Stee available at some time. I did not
6 talk to him when h: me through.

7 Q The last e of this exhibit, paragraph 4,
8 says: "For ARA, ple brief Don Gregg in VP's office
9 for me." And this is in from Ambassador Pickering.
10 Have you ever had any sions with Mr. Gregg about
11 Colonel Steele or cont: any role that Felix
12 Rodriguez might have had support of the FDN?

13 A I never did u: on's name publicly became
14 associated. I frankly nev v Don Gregg involved in
15 Central American things. I im in the Middle East. I
16 saw him in Asia. But I don mber him being a part
17 of any of the discussions in cy.

18 Q Do you have any kn of the activities of
19 the Mil Group people in [REDACTED] getting the
20 [REDACTED] to be inv , issuing false end
21 user certificates?

22 A I do not.

23 Q In 1983?

24 A I do not.

25 Q Let me ask you a couple tions about Mr.

UNCLASSIFIED

1 Sanchez, Nestor Sanchez. Tell us what his position was
2 and the approximate dates.

3 A Nestor was the Deputy Assistant Secretary of
4 Defense for Inter-American Affairs from roughly late '81,
5 maybe early '82, until December of 1986, when he retired.

6 Q And what was his reporting relationship?

7 A He reported through me, through Dr. Ikle, to
8 the Secretary.

9 Q And I believe you told us earlier that he sat
10 in on one or more of the RIGs.

11 A He sat in on the great majority of the RIGs
12 and the IGs regarding Central America.

13 Q We have asked you this before, but for the
14 record do you have any knowledge of any trip that Mr.
15 Sanchez may have taken roughly in the late November 1985
16 time frame to Geneva, Switzerland?

17 A I do not have any knowledge.

18 Q And in fact you have asked him about that and
19 he denies that he took such a trip; is that correct?

20 A He took a trip, which I was well aware of, to
21 go to a conference in South America. I believe it was
22 Argentina. But he told me that's the only travel he had,
23 and I believe him.

24 Q What would have been the time frame on that
25 trip?

UNCLASSIFIED

UNCLASSIFIED

106

1 A It was November, but I don't remember the
2 dates.

3 Q And do you know the nature of the business on
4 which he was traveling? Was it official?

5 A Yes, it was official. It was a conference, as
6 I understand it.

7 Q Do you know who the sponsor of the conference
8 was?

9 A I can find out, but I don't remember.

10 Q Let me ask you a couple of questions about the
11 nature of our security assistance program. As you
12 probably know from statements you made or that were
13 attributed to you in last week's New York Times about
14 U.S. security assistance --

15 A Elaine Sciolino's article.

16 Q And any linkage between it and U.S. contra
17 support policy, let me have this article marked as
18 Deposition Exhibit 9.

19 (The document referred to was
20 marked Armitage Exhibit
21 Number 9 for identification.)

22 I am referring to an article in the New York
23 Times of Monday, May 18, written by Elaine Sciolino, with
24 the heading "U.S. Said to Link Latin Aid to Support for
25 Contras." Let me first ask you, Mr. Secretary, if the

UNCLASSIFIED

107

1 statements that are attributed to you in here are more or
2 less correct.

3 A I believe there was only one.

4 Q It is in this first column.

5 A Yes, one statement.

6 Q As far as you know, is that more or less
7 accurate?

8 A Yes. I'm sure it's an exact quotation.

9 Q I am really basically through with this
10 article. I wanted there to be something in the record
11 that would cover what I am getting at on this issue.

12 A I'd like to put something on the record.

13 Q In quicker time than we can, but I certainly
14 plan to let you say whatever you want on this issue.

15 A Thank you.

16 Q But let me ask you a question or two. Tell us
17 how we do use security assistance at all as a broad
18 instrument of foreign policy and national security
19 policy.

20 A First of all, we use security assistance as an
21 ability or a measure to build a shield which we believe
22 subsequently someday will keep us from having to devote
23 U.S. forces to an area. We find it an aid to stability
24 and security, number one. Number two, we also find that
25 in the provision of security assistance we develop a

UNCLASSIFIED
CONFIDENTIAL/NOFORN

UNCLASSIFIED

108

1 certain amount of influence with countries which we
2 believes helps the west in general and certainly helps
3 ourselves.

4 Number three, and particularly in relations
5 with host military we find that the identification with
6 U.S. forces, primarily in the third world, goes a long
7 way to fostering what we want in terms of professionalism
8 vice what is very often the case. We find a very
9 political military who is bent on fostering their own
10 personal power rather than the national power. So we
11 find security assistance a very helpful tool.

12 Q To your knowledge, have we ever linked or
13 coupled the provision of security assistance in Central
14 America or, for that matter, with any recipient country
15 to the issue of whether that recipient country has aided
16 the contras?

17 A No. I don't. And, if I may, I did have this
18 conversation with this reporter, who is an excellent
19 reporter. My statement or her story quoting me was not
20 in the Latin American context. It was security
21 assistance in general. I made the point that obviously
22 we don't give security assistance because we're just good
23 guys. It's in our interest. We don't do it because
24 people just need guns -- or economic assistance, for that
25 matter.

UNCLASSIFIED

UNCLASSIFIED

109

1 We do it because it's in our interest, and by
2 making people more stable, that's in our interest. And
3 she said do you get any influence? I said, you're
4 exactly right. Now when I used the object of Pakistan, I
5 said look at the case of Pakistan. We believe that the
6 provision of our security assistance in a large way and
7 in a great way retards the development of the Pakistani
8 nuclear program, which we find in everybody's best
9 interests.

10 So is there a linkage between the nuclear
11 program? You bet, and it's fostered by the Hill.

12 Q Let me ask you more in the Central American
13 context. Is there a linkage with regard to the decision
14 announced recently for us to provide fighter planes to
15 the Hondurans?

16 A Not to my knowledge. The Hondurans have been
17 after us for some time for this. We have been unable to
18 be successful in figuring out a replacement for the Super
19 Mysteres. We made the F-5 decision.

20 Q By whom was that decision made?

21 A It was an interagency one. No one person made
22 it. It had been discussed for months and months and
23 months.

24 Q Between State, Defense and --

25 A State, Defense and NSC, the CIA; military

UNCLASSIFIED

110

1 balance in the region was part of the decision.

2 Q When Secretary Abrams [REDACTED]

3 [REDACTED] and a couple of other individuals -- I believe Ray
4 Burghardt in the NSC -- traveled to Central America in
5 late November or early December of 1986 after these
6 matters became public, they were there on a mission to
7 sell the Administration's Central America policy, and in
8 the course of doing that were informed that [REDACTED]
9 [REDACTED] would be receptive, but they wanted

5 don't think I went, but I better check my file.

6 Q Okay, if you would, sir, do check because the
7 NSC records indicate that you did go on the trip.

8 A Eleven to 12 December '85. Okay. I'll have
9 to check. I went to Central America in '83 with the
10 Secretary of Defense. I went to Brazil in '83. The only
11 other time I remember being down there was with [REDACTED]
12 Elliott, Mollering and myself in September-October, so
13 I'll just check it -- of '86.

14 Q Yes, if you would, because this memorandum of
15 record of the trip itinerary says, and I quote, "the
16 following individuals were manifested aboard the
17 following aircraft," and then it lists the aircraft and
18 the dates.

19 A By the way, I think the word "manifested" is
20 different from "had gone", but it's easy enough.

21 Q For the record, let me indicate what this trip
22 was to consist of as far as Colonel North saw it and
23 posted. If you would look at page N-31907, under the
24 heading "Current Situation, Objectives for Honduras",

4 A No. I recall roughly the trip and I recall
 5 not going on it. But this -- I don't take exception to
 6 what he says in here, frankly.

7 Q You agree, then, with this statement that you
 8 agree with Ray -- I assume that's Burghardt -- Don -- I
 9 assume that Don F. is Fortier -- Walker -- I guess that's
 10 Bob Walker -- and I, Colonel North, that White House
 11 visibility is essential to the mission.

12 Do you recall what mission they were talking
 13 about?

14 A I recall very roughly that the mission was to
 15 show the Hondurans that we were steadfast in our policy,
 16 and that's the context in which it says White House vis
 17 is more important. I can go down there anytime, but, as
 18 I say, I'm quite sure I didn't go.

19 Q Let me ask you to flip over to what is
 20 numbered as page 27 in the PROFS. You will see in the
 21 middle of that page a little chart of sorts. This is
 22 again in a PROF memo from Colonel North to Admiral
 23 Poindexter. Let me just ask you if before today you've
 24 ever seen these equations of how many hostages equate to
 25 how many weapons.

1 A I believe I've seen references in the press
2 only. I don't think I had a direct chart or anything.
3 Q Now let me ask you to turn to the next page.
4 This is the same PROF.
5 A Twenty-eight?
6 Q Yes. Colonel North was apparently quite
7 productive when he sat at the computer.
8 A I'm glad I never learned to type.
9 Q And this is page 28, page 028.
10 A I've got it.
11 Q If you will read that first full paragraph at
12 the top --
13 (Pause.)
14 A Okay. I've read it.
15 Q Where he says: "The last op sec concerned
16 that of replenishing Israeli stocks is the most delicate.
17 Meron and I" -- and I guess that would be General Meron.
18 A Mindy Meron, I'm sure.
19 Q "Are working with the Israeli purchasing
20 office in New York City". Is that when Ben Joseph works?
21 A That's right.
22 Q "On the replenishment issue, to be
23 accomplished as quickly after December 12 as possible."
24 As far as you're concerned, you knew nothing about this
25 issue?

1 A As far as I remember, I did not.

2 Q Finally let me ask you to flip over to page 30
 3 in these PROFs.

4 A I've got it.

5 Q This is also to -- I believe this is to
 6 Admiral Poindexter from Colonel North.

7 A All right.

8 Q Subject: Private Blank Check again. He is
 9 proposing to Admiral Poindexter -- this is again in
 10 relation to this upcoming trip - he says: "In each
 11 location you would meet with the U.S. Ambassador and be
 12 accompanied by General Jack Galvin, the senior U.S.
 13 military representative. This approach will provide a
 14 plausible cover for delivery of the messages we need sent
 15 to [REDACTED] both of whom will want to
 16 congratulate you on your post."

17 Now in terms of your recollection of that
 18 trip, whether you did or didn't take it, tell me in your
 19 best recollection what the purpose of that trip was to
 20 be.

21 A I must state again I'm quite sure I didn't
 22 take it, and it was just that. The new National Security
 23 Advisor was coming on and that we wanted to show
 24 steadfastness with our policy in the region.

25 Q And as far as you can recall there was no

1 intent that that be cover and that the real purpose was
2 for --

3 A As far as I can recall, that was the only
4 reason for the trip.

5 Q Okay. I only have a couple more.

6 A I owe you after putting you off twice.

7 Q Let me get the last exhibit out of the way.

8 Let me have you mark this as 13. I know 13 is an unlucky
9 number, but we'll just have to end on that one.

10 (The document referred to was
11 marked Armitage Exhibit
12 Number 13 for identification.)

13 This is a PROF memo from Bob Pearson, subject,
14 Meeting on Contra Aid. I will let you read that.

15 A All right. What's the date? 1/24/86.

16 Q Yes.

17 (Pause.)

18 A All right.

19 Q And, if you would, look at the bottom note
20 from Donald Fortier.

21 A All right.

22 Q Is this the kind of session you made reference
23 to earlier when you were talking about putting together
24 the contra aid package to go to the Hill?

25 A Yes. I don't remember it, but that's exactly

UNCLASSIFIED

UNCLASSIFIED

121

1 right.

2 Q As far as I know, you have not seen these
3 communications?

4 A I have not seen these communications.

5 Q They are talking about you, but it's not
6 necessarily that you were involved. As best you know, do
7 you recall this event they are talking about?

8 A No, but me -- registering a protest for me not
9 being invited to a meeting is a normal bureaucratic
10 business. All of us do it from time to time. I can't
11 quarrel with this at all.

12 Q But your recollection would be that that would
13 have dealt with the legislative package?

14 A How we're going to approach the Hill and all.
15 Absolutely right.

16 Q Finally, I want to ask you about a couple of
17 individuals and just see if you can tell us what your
18 relationship is, if any, with these people. First, do
19 you know Ted Shackley?

20 A Yes, I do.

21 Q What's the nature of that relationship?

22 A I met him once in 1975. I had returned after
23 the fall of Saigon and my boss, Eric von Marbad, had sent
24 me out to the CIA to talk with Ted Shackley about what
25 had gone on in Vietnam, what I had seen -- I was there

UNCLASSIFIED

UNCLASSIFIED

122

1 the final day -- what was going on with the refugees.
 2 That was my one and only meeting with the man, to my
 3 recollection, and the only communication I ever had with
 4 him.

5 Q So as far as you know you've never had any
 6 dealings with him?

7 A I would not recognize him, I don't think.

8 Q The same question with regard to Thomas
 9 Clines.

10 A I met Thomas Clines in I want to say 1982 or
 11 1983. Dick Secord asked me to stop and have a drink with
 12 him and he introduced me to Tom Clines. I remember it
 13 very well because the two of them spent a good bit of the
 14 evening in a very congenial way talking about their time
 15 together at the Naval War College. It was
 16 extraordinarily entertaining. I remember it quite well.

17 Q Since that time have you had any dealing with
 18 him?

19 A Never seen him or talked to him, to the best
 20 of my knowledge

21 Q Finally, Mike Ledeen. Tell us about your
 22 relationship with him.

23 A I have met Michael through originally the
 24 bureaucracy. Later he used to work in the State
 25 Department and I'd come upon him from time to time.

123

1 Later he became a consultant to Noel Koch in Noel's SOFCT
2 role. When Noel left I inherited Michael. I did not use
3 him in that I didn't use him for any money. He came --
4 didn't pay him any money and didn't ask him to do
5 anything for me.

6 He would call from time to time and just say
7 hey, this event, some terrorist event in Pakistan and so
8 and so was a bad deal, are you guys thinking of all these
9 angles, something like that. But he came in to see me I
10 want to say September, and it could have been October,
11 but it was late in '86, and he told me of his involvement
12 in the Iranian affair, and he told me that he thought the
13 affair, which had in his mind or as he sketched it out,
14 started as a strategic opening had turned into nothing
15 but an arms for hostages deal, and that he thought this
16 was terribly wrongheaded, and that the policy was on its
17 head.

18 I was very interested to find someone who had
19 been at the beginning. I was unaware that Mike was at
20 the beginning of this adventure with Iran. I checked to
21 see if the Secretary's calendar was clear and took
22 Michael down, where Michael basically repeated the same
23 story for the Secretary of Defense, and the three of us
24 sat around and talked about it was terrible to have our
25 policy on its head.

1 Q Did he tell you in terms of his role that he
2 had been involved in negotiating the price with the
3 Israelis for the TOW missiles?

4 A No, he didn't.

5 Q Did he tell you that he had been taken off of
6 this project because he negotiated the price too low or
7 in some way Colonel North was dissatisfied with his
8 participation?

9 A No. He told me he was asked out of it, but he
10 didn't tell me why. I don't remember that he told me
11 why.

12 Q Did you ever ask Colonel North about Mike
13 Ledeen's role in the Iran part of things?

14 A I don't recall asking him.

15 Q Did Colonel North ever tell you -- did Colonel
16 North ever discuss Mike Ledeen in the context of the Iran
17 arms initiative?

18 A I can't recall that he did.

19 Q Did he ever tell you he, North, thought Ledeen
20 was skimming money from the operation?

21 A He never told me that. That I would have
22 remembered.

23 Q Did Colonel North ever tell you that with
24 regard to Al Schwimmer?

25 A I had never heard of Al Schwimmer and don't

UNCLASSIFIED

UNCLASSIFIED

125

1 recollect Ollie ever saying the name.

2 Q Did Ledeen ever mention Schwimmer's name in
3 this context?

4 A I think Ledeen mentioned Schwimmer in passing
5 when he was talking about his own involvement the day he
6 came in to tell me how the policy was on its head, but
7 not in any way that meant anything to me or that rang any
8 bells.

9 Q Did Ledeen mention Ben Joseph?

10 A No, he did not, to my recollection.

11 Q And, finally, did Ledeen mention Noel Koch in
12 the context of his, Ledeen's --

13 A No, I don't think he did. I think Michael
14 would have mentioned that, because Noel had left the
15 Department by then, but I don't recall it. I mean, if he
16 had mentioned it, he would have made a big thing about
17 it.

18 Q And finally for the record, a different
19 subject I just forgot to ask. When were you first made
20 aware that any monies may have been diverted from the
21 arms sales to Iran to the contras?

22 A If you don't count the conversation I had with
23 Ollie, when the Attorney General said something.

24 Q And that's the conversation --

25 A The conversation on the black phone where he

UNCLASSIFIED

UNCLASSIFIED

126

1 said they're helping us in Central America.

2 MR. SAXON: That's all I've got.

3 BY MR. SABA: (Resuming)

4 Q I have a few more on the Ledeen matter. Do
5 you recall exactly when that meeting took place?

6 A I will try to reconstruct it. It's September-
7 October, to my remembrance.

8 Q Of '86?

9 A Of '86, right.

10 Q Was it your understanding that Mr. Ledeen had
11 not previously spoken to Mr. Weinberger on this subject?

12 A I don't think he had, because nothing of the
13 conversation with the Secretary indicated that he had.
14 He went right through the recitation again in very quick
15 fashion with the Secretary and never indicated that he
16 spoke with the Secretary previously.

17 Q Do you recall Mr. Ledeen's recitation?

18 A In general terms, yes.

19 Q And in revealing his role in the matter there
20 was nothing discussed concerning price; correct?

21 A To the best of my recollection, his thrust to
22 me and again to the Secretary was in here is something
23 that's good for the country, a strategic opening to Iran,
24 and yet we've become hostage to hostages. That's
25 terrible. The policy's upside-down. And that's what I

UNCLASSIFIED

UNCLASSIFIED

127

1 remember most keenly about Michael's discussion.

2 Q Did he mention anything about HAWKS?

3 A I can't remember him mentioning anything other
4 than weapons for hostages per se, weapons in general.

5 Q I'm trying to understand what Ledeen was
6 getting at, what the purpose of this was.

7 A When he came in to me it was to sound off on
8 what a terrible thing this was, and that's exactly what
9 he told me.

10 Q What specifically did he find to be terrible?

11 A Arms for hostages rather than a strategic
12 opening to Iran.

13 Q Did he have any proposals for a different
14 course of action?

15 A Not that I recall.

16 Q Did he propose anything?

17 A He did state that previously he had talked
18 about supporting one small element in Iran who wanted a
19 small supply of either communications gear and things of
20 that nature and they would be more or less our guys
21 inside, but he made a big distinction between that and
22 the provision of weapons to Iran.

23 Q Could these have been HAWK radars?

24 A No. The implication clearly was like radios,
25 small items, just to prove the bona fides of this group.

UNCLASSIFIED

128

1 Q Were these objects to be sold by Israel?

2 A No. That wasn't even discussed. It was the
3 provision of those items. The manner of providing them
4 was not discussed. And this was just in passing in
5 Michael's discussion with us. As I say, his primary
6 thrust was we are being hostage to the hostages by
7 selling weapons to Iran. We should be developing a
8 strategic dialogue and we're squandering that. That was
9 his thrust with us.

10 Q Did he mention by name any particular factions
11 in Iran?

12 A He may have. I can't remember.

13 Q Did he propose that a continued dialogue be
14 direct or through Israel?

15 A He didn't propose to me. He indicated that it
16 was Israel who originally set him up in the discussions
17 in Iran in some manner, either introduced him to Iranian
18 people or got him out on the track to start talking about
19 a strategic dialogue. But that's it.

20 BY MR. SAXON: (Resuming)

21 Q Let me ask one follow-up to that. To your
22 knowledge, did anything in his background prepare him to
23 make judgments about the prices that should be charged
24 for TOW missiles?

25 A No.

2 Q On a different subject, I want to understand
3 something. Eric von Marbad you mentioned was your boss.

4 A That's right.

5 Q Referring to what period?

6 A He was my boss from roughly April 24, 1975,
7 until mid-1976 intermittently because I didn't get paid
8 when I didn't work and I was paid when I worked, and I
9 was back and forth. I had a home in San Diego. I didn't
10 stay out of the country.

11 Q So you were a consultant in that time?

12 A Yes, I was a consultant to the Pentagon, and I
13 got paid when I worked and I worked for Eric von Marbad.

14 BY MR. SAXON: (Resuming)

15 Q What was his position then?

16 A He at the time was the Principal Deputy
17 Assistant Secretary of Defense, Comptroller, until summer
18 of '75, at which time he took the job in Iran as the
19 Defense Representative and I went over there and handled
20 primarily naval programs for him.

21 BY MR. SABA: (Resuming)

22 Q Let me understand. You handled naval programs
23 for Mr. von Marbad?

24 A That's correct. I can remember two
25 specifically -- the Charbahar base development and the

1 993 destroyer program.

2 Q Did you become aware at that time or later of
3 programming in which the Portuguese would be involved in
4 rehabilitation of the Iranian navy?

5 A I don't know anything about it.

6 Q Did you have any further business with Mr. von
7 Marbad following his departure from U. S. Government
8 service?

9 A No. He was the Director of the Defense
10 Security Assistance Agency and he left and I've sent him
11 Christmas cards each Christmas. I generally get a card
12 from Eric and Lola back, and that's it. I may have had
13 one conversation with him, but he doesn't want to see
14 anybody in the building.

15 BY MR. SAXON: (Resuming)

16 Q Did you have any involvement with the IBEX

20 but I did not.

25 other.

1 Q Do you know of a company called Companie
2 Service Fiduciare, a Swiss Company?

3 A No. I've seen that in the press, but I don't

5 MR. SABA: I don't have anything further.

6 MR. KREUZER: Mr. Secretary, does Mr. Ledeen,
7 is he still associated with the Department of Defense in
8 any capacity?

9 THE WITNESS: No. I terminated his
10 consultancy. I want to stress that we didn't pay him to
11 do anything that I am aware of. Roughly in January, when
12 I saw his name become very prominent in this whole
13 affair, I didn't feel the Department needed it and I
14 terminated his consultancy.

15 MR. KREUZER: Would you say your association
16 with him was strictly business, professional or was it a
17 personal association?

18 THE WITNESS: No, it was business. On two or
19 three occasions he asked me to come out with my children
20 and meet his wife and so on, and I refused to do so.

21 MR. KREUZER: Do you know Mr. Richard Gadd?

22 THE WITNESS: Yes, I met him on at least one
23 occasion, possibly twice.

24 MR. KREUZER: So that is the extent of that?

25 THE WITNESS: No personal association at all

1 with him.

2 MR. KREUZER: One final question. We were
3 talking earlier about the transfer of responsibility, the
4 possible transfer of responsibility to you for special
5 plans that are under Dr. Ikle. Is the special --

6 THE WITNESS: No. Let me be clear. When Noel
7 Koch had his duties brought under me -- that is, the SOF
8 and counterterrorism duties -- you asked did he bring any
9 assets with him, and he did. He brought with him a small
10 cell we call special plans, SP. Special Plans is the SOF
11 cell -- four or five guys. But they were always under
12 Noel and they are not part of Craig Alderman's shop --
13 just to be clear.

14 MR. KREUZER: The organization that I am
15 interested in is the Defense Security Assistance Agency.
16 Does that come under Dr. Ikle?

17 THE WITNESS: Yes, it does.

18 MR. KREUZER: Would it in this changeover
19 still come under him?

20 THE WITNESS: It has no bearing at all. This
21 changeover affected DSAA not a whit.

22 MR. KREUZER: So DSAA is still under Dr. Ikle?

23 THE WITNESS: Would it help if I drew a
24 diagram to explain it just so you see the charts?

25 MR. SAXON: Sure.

3 ASD/ISA, and ASD/ISP as the two Assistant Secretaries.

4 BY MR. SAXON: (Resuming)

5 Q ISP is International Security Policy with Mr.
6 Perle previously?

7 A Right, Mr. Perle previously. Over here you've
8 got DSAA, but in their duties both Mr. Perle and myself
9 have a policy voice in DSAA. We don't have a program
10 voice. I don't tell General Gast how to run a program,
11 how to administer a program. I tell him what the size of
12 the program is going to be. I tell him sometimes when we
13 want to make a point, can't we speed up the delivery of
14 an item to the [REDACTED] and push someone else back in
15 the queue, if there is a policy reason -- that kind of
16 thing.

17 We oversee in terms of policy any
18 international agreements that DSAA gets into, but program
19 implementation is all under General Gast, but all of it
20 is under Ikle.

21 Q And General Gast would report directly to Dr.
22 Ikle?

23 A He would.

2 MR. SAXON: Let me say, Mr. Secretary, that
3 this is a continuation of your deposition of May 26,
4 1987, that it is likewise classified at the Top
5 Secret/Codeword level, and you remain under oath.

6 Mr. Saba will begin.
7 Whereupon,

8 RICHARD L. ARMITAGE,
9 called as a witness by counsel on behalf of the Senate
10 Select Committee and having been previously duly sworn,
11 was further examined and testified as follows:

E X A M I N A T I O N

12 BY MR. SABA:

13 Q Good afternoon, sir. Mr. Secretary, do you
14 recall what you knew about the circumstances of the
15 release of the Reverend Benjamin Weir?
16

17 A Can you refresh me when what was?

18 Q Yes. Benjamin Weir was released roughly
19 September 1986, and I would add for refreshment purposes
20 --

21 A '86?

22 Q I'm sorry, '85.

23 A It was Jacobson who was September or October
24 of '86.

25 Q That's correct. And I would add that

1 Ambassador Oakley, at that time the Department of State
2 Director of the Office of Terrorism, was informed by and
3 has provided us with information that he was informed by
4 Oliver North shortly after the release with the
5 information that the release was a result of an Israeli
6 shipment of TOWs to Iran.

7 My question to you is whether you discussed
8 that fact of the Israeli shipment of the TOWs with
9 anyone, whether you knew about it.

10 A I don't remember discussing it. I don't
11 remember knowing about it. I remember Weir coming out.
12 I was not a member of the OSG at the time, but it could
13 be that I was informed that it was an Israeli transfer
14 that got him out. I just don't recall it.

15 Q Do you recall if Ambassador Oakley discussed
16 the matter with you after the release?

17 A He could very well have. I just can't recall
18 it. I can't remember having that much communication with
19 Bob until more along the time that Noel Koch was about to
20 leave or was thinking about leaving, and I got involved
21 in the OSG. But it could very well be that I spoke with
22 Oakley.

23 Q Would you have spoken with Arnie Raphel at the
24 time?

25 A If I knew anything, I spoke to Arnie Raphel.

UNCLASSIFIED

UNCLASSIFIED

145

1 Q And would he have spoken to you?

2 A I would hope that he would have spoken to me.

3 Q Do you recall if you and he had a conversation
4 on the matter?

5 A I don't, but I would have talked to Arnie if I
6 knew anything.

7 Q Would it have been your business at that time
8 to know whether or not Reverend Weir's release was in
9 connection with the shipment of Israeli TOWs?

10 A I wouldn't say it would be my direct business,
11 but, as you may have learned in your discussions, I am
12 pretty nosy and frankly think I've learned the lesson in
13 a bureaucracy that the more you know, the more you can
14 put things together. So I'm pretty nosy. I don't think
15 it was my business to know at the time, but I would have
16 been sure curious and wanted to know and would have tried
17 to find out. I don't remember attempting to do it at
18 this time, but I would have tried.

19 Q Is it your testimony that you don't recall
20 whether you knew at the time that his release was in
21 connection with the Israeli shipment of TOWs?

22 A That is my testimony. I don't recall it. I
23 could have been told this, but I don't recall being told
24 it.

25 Q Focusing on the period of the fall of 1985, I

UNCLASSIFIED

146

1 want to ask you if you knew four people and, if you did,
2 what your relationship with them was. The first one is
3 Amiram Nir.

4 A I did not meet Mr. Nir, to my recollection,
5 until later in the year. It was after I joined the
6 operational subgroup and I met him at one time in Ollie
7 North's office. I think I've also testified to the fact
8 that I saw him coming out of Mike Armacost's office one
9 day and accused him of dressing like Columbo, but I think
10 those are the two occasions I have met with Mr. Nir.

11 Q When did you first meet him?

12 A This would have been mid to late '86.

13 Q '86?

14 A '86. That's when I remember meeting him. And
15 I remember it because the primary discussions that I had
16 in Ollie's presen^{ce} with Nir concerned, I believe it was,
17 a T-72 tank, the provision of a T-72 tank to the United
18 States, were we interested. And I can remember several
19 phone calls from Ollie about whether we should do this or
20 not.

21 Q Did you meet him prior to February 1, '86?

22 A I could have. I don't remember it.

23 Q Mr. Schwimmer?

24 A I don't think I've ever met him. I wouldn't
25 know if I fell over him.

147

1 Q Mr. Nimrod?

2 A I don't think I've met him and I wouldn't know
3 him if I fell over him.

4 Q Menachem Meron?

5 A I know him very well.

6 Q When did you meet him?

7 A I met him when he was the DAT here.

8 Q For the record, the DAT is?

9 A The Defense Attache from Israel. And that
10 must have been early '83 because I began actively in this
11 job roughly May or June of '83, but I was sitting in
12 awaiting confirmation and doing all the things an Acting
13 can do prior to that, so it would have been early '83.

14 Q I believe you've testified that in mid-
15 November 1985 you were on a trip and, as I recall your
16 testimony, you think you returned on or about the 23rd or
17 the 24th of November.

18 A I should have been smarter when I saw you guys
19 and prepared a little bit for this. Here's when I
20 traveled, according to my records. I haven't memorized,
21 so give it back to me and I'll let you have it for the
22 record.

23 Q All right.

24 A The answer to your question was I was out of
25 town from 15 to 23 November in Germany, Bahrain and

1 Pakistan, and I was out on the 28th of November, which
2 was Thanksgiving.

3 MR. SAXON: Is this '85 or '86?

4 THE WITNESS: '85.

5 BY MR. SABA: (Resuming)

6 Q And what was the basis for your preparing
7 that?

8 A Because you guys asked me questions about
9 travel dates and I didn't have a damn idea in the world,
10 and I was offended by it because I hadn't been told to
11 prepare for this. So this time I'm not going to make the
12 same mistake.

13 Q Did you prepare that document from your
14 calendars and records?

15 A Calendars and my secretary's recollection.

16 Q So you returned, then, on November 23 from
17 Pakistan.

18 A Yeah. I don't know what day of the week.
19 That might have been a weekend or might not. I just
20 don't remember when my schedule has me landing in
21 Washington.

22 Q And on your return from that trip did you
23 learn that Mr. Gaffney and Mr. Koch were providing
24 information to Colin Powell and the Secretary of Defense
25 concerning a proposal to send HAWK missiles to Iran?

1 A I don't think I knew Noel was -- now I know a
2 lot more about Noel since I've seen his testimony or at
3 least read the newspaper transcripts of it. I was
4 traveling. I now have seen that I talked to Dr. Gaffney
5 on the 6th of December, I believe in preparation to brief
6 the Secretary for a 7 December meeting.

7 Q But I'm looking back a little bit before that.

8 A I can understand. I'm trying to work my way
9 back. I'm trying to recollect it. I don't remember
10 talking to Hank Gaffney before that. It seems to me,
11 though, that we had seen in intelligence some references
12 to HAWK missiles going to or coming back from Israel. I
13 think I have testified to that.

14 And I think that's what I knew, but I don't
15 remember. I just don't think Noel told me at the time
16 anything about this. I don't think Hank would, as a
17 matter of course.

18 Q You learned about the [REDACTED]
19 When did you learn that?

20 A I'm not sure it was [REDACTED] It
21 might have been an IR intelligence report. I can't say
22 it was [REDACTED] at all, but it was an IR or something
23 about an allegation or something of HAWK missiles going.
24 I think it's either hearsay from my colleagues and I'm
25 sure I talked to Arnie about this. Or it might have

UNCLASSIFIED

150

1 originated with me hearing it somewhere else, that there
2 was a Star of David on these things and that they went
3 from Israel to Iran and they were sent back.

4 But that's kind of my recollection.

5 Q Do you recall when you learned that
6 intelligence?

7 A No, I'm sorry, I don't. It would have been
8 prior to my lunch with Ollie North on 3 December. But I
9 don't know when prior to that. My feeling is probably
10 after I came back from this trip to Pakistan, but I can't
11 say that with 100 percent assurance.

12 Q Your prior testimony was that the Secretary
13 had received the intelligence information and requested
14 you to find out what you could about it.

15 A Yeah, that's right. Either the Secretary
16 himself or through Colin, but it was clear that it came
17 from the Secretary -- Colin Powell.

18 Q Did you have access to the hard copy of the
19 intelligence information?

20 A I seem to remember that I saw an IR, which is
21 a message. It's not [REDACTED]

22 [REDACTED] I saw when the Secretary or
23 when General Powell thought that it was interesting for
24 me to see it. As you will remember, sometime we
25 apparently felt we were cut off from [REDACTED] but, as

UNCLASSIFIED

1 it turned out, Art Moreau was not. He was the Assistant
2 to the Chairman of the Joint Chiefs of Staff and he, I
3 since found out, has been giving to Colin Powell or the
4 Secretary interesting things that we weren't seeing in
5 OSD.

6 Some of those I was allowed to see by General
7 Powell. And this continued, I might add, somewhat during
8 the year of '86.

9 Q Do you recall if the intelligence indicated
10 how many weapons had gone?

11 A I do not.

12 Q Do you recall if it indicated how the weapons
13 had gone?

14 A By aircraft. That's my recollection.

15 Q Do you recall specifically what the request
16 was to you? That is, you were to verify the accuracy of
17 this?

18 A No. It wasn't directly concerning the HAWK
19 missiles. The request that was passed to me was to find
20 out is someone talking to the Iranians. I mean, what do
21 you know? Can you find out anything? Can you find out
22 anything about it? That was basically the request. Are
23 we dealing with the Iranians?

24 Q So there was information about shipments of
25 HAWKS by Israel to Iran?

~~TOP SECRET//TOP//NOFORN~~
UNCLASSIFIED

UNCLASSIFIED

152

1 A I'm not sure that it said by Israel. I said I
2 vaguely remember that they had a Star of David and all on
3 it, but I can't remember if that came in the IR which I
4 think I saw or not.

5 Q Who asked you to find out whether we were
6 talking to --

7 A Either the Secretary or Colin, one or the
8 other. Those would be the only two.

9 Q What did you understand to be the basis of the
10 request?

11 A That they were interested. It appeared from
12 [REDACTED] that there was somebody talking to the Iranians
13 and they wanted to find out who the hell it was.

14 Q Was the substance of the [REDACTED] or the actual
15 copy provided to you?

16 A Yes. In some cases it was, but it didn't mean
17 much to me. I remember vaguely a [REDACTED]

18 [REDACTED]
19 [REDACTED] which seemed to be of some concern to the
20 Secretary and/or Colin Powell.

21 MR. KREUZER: This information or this [REDACTED]
22 was coming from Admiral Moreau to you?

23 THE WITNESS: I think it was not coming to me.
24 It was going to Powell and the Secretary, and they would
25 let me see these things. They didn't come up here to me.

1 I had to go down there when they called me down there.

2 MR. KREUZER: For some reason it wasn't coming
3 in here.

4 THE WITNESS: Yes. Wait a minute. Let's be
5 clear. It wasn't coming into the Office of the Secretary
6 of Defense.

7 MR. KREUZER: It was going to the JCS?

8 THE WITNESS: The Assistant to the Chairman,
9 yes.

10 MR. KREUZER: Admiral Moreau was getting the
11 information and as he would get certain bits, interesting
12 bits and pieces, [REDACTED] he would bring them up here
13 and show them.

14 THE WITNESS: No.

15 MR. KREUZER: He would take them to Secretary
16 Weinberger --

17 THE WITNESS: To General Powell.

18 MR. KREUZER: Show them to General Powell, who
19 would show them to Secretary Weinberger?

20 THE WITNESS: I assume, yeah. I don't know
21 that. But I don't know that he brought every piece up
22 either. I saw what I saw.

23 MR. KREUZER: But this went on for a period of
24 time?

25 THE WITNESS: Yes, it did.

1 MR. KREUZER: In '86. So like maybe it went
2 out for 30 days?

3 THE WITNESS: Well, it was either '85 or '86;
4 I can't remember.

5 MR. KREUZER: Could it have been '85 and '86?

6 THE WITNESS: It could have been for a little
7 while, but I know once Powell determined and the
8 Secretary determined that we were cut off. I think the
9 Secretary took steps to put us back on. Now whether the
10 Secretary called [REDACTED] or whether Colin Powell
11 called [REDACTED] I can't say, but all of a sudden the
12 Secretary of Defense was put back on the distribution.

13 MR. KREUZER: But was the Secretary of Defense
14 aware that his was coming from Admiral Moreau?

15 THE WITNESS: You've got to ask him. I wasn't
16 aware of this until later.

17 BY MR. SABA: (Resuming)

18 Q Do you recall when the Secretary spoke to you
19 about this?

20 A I do not.

21 Q Could it have been Tuesday, November 26?

22 A I don't remember. It could have been.

23 Q I raise that date because you are on the
24 Secretary's calendar that morning.

25 A Yeah. But I must say that I slip into the

UNCLASSIFIED

155

1 Secretary an awful lot without being on his calendar. I
 2 wouldn't be surprised if that particular date had to do
 3 with the debrief of my trip, frankly. I don't think that
 4 this is something that he called me down and had me
 5 appear on the schedule for, but it could have been.

6 Q In connection --

7 A I very often, by the way, go in to see the
 8 Secretary either before a staff meeting, before everybody
 9 walks in, when everybody is gathered out in the anteroom,
 10 or late in the night.

11 Q In connection with the information, your
 12 understanding was that there had been information that
 13 certain Americans were in discussions with Iranians?

14 A More indications that certain official
 15 Americans were in discussions with the Iranians.

16 Q There was a reference to [REDACTED]
 17 [REDACTED]

18 A That's my remembrance of what triggered me.
 19 You may have a different one.

20 Q And at the same time you had an intelligence
 21 report indicating that HAWK missiles bearing the Star of
 22 David had gone to Iran?

23 A I vaguely remember an IR talking about HAWK
 24 missile deliveries to Iran. The Star of David aspect of
 25 it is something that either I developed in talking with

UNCLASSIFIED
CONFIDENTIAL

UNCLASSIFIED

HEREIN IS UNCLASSIFIED

156

1 my friends or Arnie or somebody told me. I don't
2 remember that, the Star of David being in the IR.

3 Q So the Secretary, this meeting was with the
4 Secretary when he asked you to find out what was going
5 on?

6 A It was either the Secretary or Colin Powell
7 who said, is someone meeting with the Iranians. There is
8 something going on; find out what you can.

9 Q Did that person tell you what he thought was
10 going on?

11 A No, other than that it was clear there was a
12 suspicion someone was meeting with the Iranians.

13 Q Was there a reference to the HAWK missiles?

14 A There could have been, but I don't remember it
15 in the Secretary's comments at all, or Colin Powell's. I
16 just don't remember that.

17 Q Was there a reference to information provided
18 by Mr. McFarlane?

19 A Not to my remembrance. Listen, I've testified
20 to you before that we had a real problem with Mr.
21 McFarlane's NSC, not personally with him, but we found it
22 difficult to deal with the McFarlane NSC. We found that
23 we weren't getting what we felt was a sufficient flow of
24 information and we found it much more collegial under
25 Admiral Poindexter. We found that at least people

UNCLASSIFIED

1 listened to us.

2 So I don't believe that the McFarlane
3 reference would have come up. From my point of view we
4 didn't learn very much from them at all.

5 Q Mr. McFarlane has testified both privately and
6 now in public that at the time of the HAWK shipment from
7 Israel to Iran and at some time during the Geneva summit
8 in fact he seems to recall that he told not only
9 Secretary Shultz, of which we have written confirmation,
10 but also Secretary Weinberger, about the fact of the
11 shipment to Iran.

12 A I've seen that.

13 Q So obviously it seems logical to me that on
14 your return from a trip following the day that McFarlane
15 indicates he has provided the information that you would
16 be requested by either the Secretary or possibly Colin
17 Powell to get more information about it.

18 A I'd love to help you. I just can't say that
19 he brought up HAWKS with me at all. I don't think he
20 did.

21 Q Focusing on really the same time period that
22 Ambassador Oakley or Mr. Raphel or both of them, or
23 either of them, tell you about the weapons that went to
24 Iran, if it helps you --

25 A I'm just going to try to give it to you. My

UNCLASSIFIED

UNCLASSIFIED

158

1 remembrance is that we didn't know clearly that weapons
2 went to Iran.

3 MR. SHAPIRO: Can counsel please let him
4 finish?

5 THE WITNESS: Say what you will, please.

6 BY MR. SABA: (Resuming)

7 Q I wanted to try to help. We have testimony
8 and interview information that North had told Oakley
9 during the period sometime after the 17th of November
10 but, say, before the 25th, had told Oakley what was going
11 on because he needed help getting the landing permits in
12 [REDACTED] and he told Oakley what was going on, and we
13 know that Oakley provided information both up and down
14 the ladder in the State Department on the matter.

15 And, of course, we know that in Geneva at that
16 moment the matter had come to the attention of McFarlane
17 and, in a casual way perhaps, to Secretary Shultz, but
18 certainly by Monday, the 25th of November, which would
19 have been your first workday back, Oakley and Raphael,
20 according to McFarlane, the Secretary knew that Israeli
21 HAWKS had gone and they had an idea that some people from
22 the White House were talking to Iranians. That would
23 have been your state of knowledge as a minimum?

24 A That's pretty close to my state of knowledge,
25 except I can't say with assurance that they told me about

UNCLASSIFIED

UNCLASSIFIED

159

1 weapons going from Israel with any degree of assurance or
2 knowledge. I'm sure that any intelligence that I found I
3 talked to Raphael about it. I would hope he talked to me
4 about it. I just don't have a clear recollection.

5 I'll tell you why. This may sound baffling to
6 you, but it's not to me if you sat in this job. Whether
7 it's an M-16 or a HAWK missile to me was the problem
8 because it was the policy. It wasn't a matter of what
9 was or wasn't going. It was the policy that we didn't
10 like. I mean, I'm not a technician. I told you guys
11 that. It's the policy that bothered me, whether it was
12 M-16s or HAWKS. So I'm not sure, if they told me, that
13 HAWKS would have meant anything more to me than a TOW,
14 would have meant anything more than an M-16. We didn't
15 like it as a Department.

16 BY MR. SAXON:

17 Q In that time frame do you know if Arnie Raphael
18 told you that he had learned that McFarlane told
19 Secretary Weinberger in Geneva that the Iranians wanted
20 120 HAWKS?

21 A He may have told me that. I just don't recall
22 it. I trust that he would have shared with me, like I
23 tried to share with him.

24 Q Let me refer to something that's an exhibit in
25 the earlier deposition. I'll give you the number, but

UNCLASSIFIED

UNCLASSIFIED
EXEMPT FROM GDS

160

1 let me give you for your reference a copy. These are the
 2 notes of Arnie Raphael that were prepared by him on March
 3 31, 1987. I ask, Mr. Secretary, that you look at what is
 4 page four, at the November 25 entry.

5 It states, and this is Raphael: "My notes
 6 state that Bud McFarlane had met Secretary Weinberger in
 7 Geneva. Mr. McFarlane had asked for 120 HAWKS for Iran,
 8 noting that 100 had been delivered to Israel. My notes
 9 further state that Secretary Weinberger responded he was
 10 opposed to such an operation."

11 Does this in any way ring a bell with you?

12 A No. But if November 25 is that Monday and the
 13 Secretary just returned from Geneva and I had just
 14 returned, I tell you frankly I don't think I would have
 15 talked with the Secretary yet. So I don't think that's
 16 mine. But it could be. I don't think that's my note or
 17 my information to Raphael.

18 BY MR. SABA: (Resuming)

19 Q All right. But, in any event, what I'm just
 20 trying to establish is, whether they were HAWKS or TOWS
 21 or bullets and M-5s, whatever it is, your position was
 22 that our policy was contrary to making such transfers.

23 A Absolutely, yes.

24 Q And that you had come to know that transfers
 25 had occurred.

UNCLASSIFIED
EXEMPT FROM GDS

UNCLASSIFIED

161

1 A No. We had suspicions for some time that
2 Israel had been involved in transfers to Iran of we
3 didn't know what, and frankly I used the Tataran firm
4 because we've seen pictures of radios that are being
5 captured, allegedly captured by the Iraqis on the Iran-
6 Iraq battlefield, and this was one of the reasons that
7 we, along with others, in our administration directed the
8 attention of Israeli visitors to what we thought was a
9 foolish policy of selling any equipment to Iran.

10 I must say I don't think we thought it was
11 U.S. equipment, but it was not a big surprise to us that
12 Israel would be providing equipment to Iran. I would say
13 to me it is a surprise, was a surprise to find it was
14 U.S. equipment.

15 Q It would have been a surprise if you had
16 learned that in connection with that there were people
17 from the White House also talking with Iranians?

18 A Well, yeah, that would have been a further
19 surprise, but we had suspicions that people were talking
20 from the White House because of some of the [REDACTED] that
21 we were seeing, and I was trying to figure out who it
22 was.

23 Q Just so I can get your testimony correct, it's
24 your testimony that you had intelligence information
25 about a transfer of weapons to Iran.

UNCLASSIFIED

UNCLASSIFIED

162

A By Israel.

2 Q By Israel.

3 A By Israel over time, yes.

4 Q I don't particularly mean over time, because
5 that's vague. I'm looking very specifically at TOWs or
6 HAWKS in 1985.

7 A My recollection is that I saw, and I have a
8 vague recollection of seeing hard copy IR of a HAWK
9 transfer to Iran by aircraft. Now whether it came from
10 Israel I can't remember if that was on the IR. That I
11 have a vague recollection of. That became -- it was
12 obvious to us for some time that Israel had been selling
13 some weapons and equipment to Iran and this was the
14 reason that over time in a series of meetings for a
15 couple of years at least we had been raising with the
16 Israeli officials our point of view that Operation
17 Staunch was the right way to go with Iran.

18 That's my testimony.

19 Q And in addition you received [REDACTED]

20 A Yes.

21 Q Did the [REDACTED] indicate or refer to an actual
22 transfer of weapons?

23 A [REDACTED] and I can't remember when and I don't
24 know how much I saw -- I saw what I saw -- and I had to
25 go downstairs to see it -- sometimes indicated -- there

3 I think eventually it talked about
4 what kind, but my recollection is that that was sometime
5 in '86. I do not recollect seeing specific weapons
6 mentioned [REDACTED] in '85.

7 Q But the reference was to the fact that there
8 were people from the White House engaged in conversations
9 with Iranians about weapons?

10 A I can't say it was about weapons -- that they
11 were engaged with Iranians. Eventually it came to be
12 weapons. I don't remember that when the Secretary
13 grabbed me he said people from the White House are
14 talking about weapons. It was that people from the White
15 House apparently were talking about -- talking with
16 Iranians. What the hell's going on? What is this?
17 Because he was indicating to me, and it could have been
18 through General Powell, that he didn't know about this.

2 MR. SABA: I haven't seen it. You saw it, so
3 I'm asking what you saw.

4 MR. SHAPIRO: I'm just asking to clarify your

6 THE WITNESS: I understand you are at a

8 must have seen that [REDACTED] My understanding was [REDACTED]

10 There were [REDACTED] and they came up to me or

13 And they were in general the [REDACTED]
14 I think, and over time and starting late in '85 -- and I
15 can't tell you when -- and through a good period of '86
16 periodically, as you know, I do travel and when I
17 traveled I didn't see things and they didn't particularly
18 keep these, to my knowledge, in a desk drawer waiting for
19 me, which they could have done, but I think they just
20 handed them back to the guy who carries the [REDACTED]

22 So over time there were references to money in

5 MR. KREUZER: Mr. Armitage, were those the
6 reports that you went down to see, were those the ones
7 that Admiral Moreau picked out?

8 THE WITNESS: Well, some of them were, but
9 later -- and I'm now in '86 -- they were apparently ones
10 that were now being delivered to the Secretary of
11 Defense's office. So I'm sure some of the early ones
12 were ones that Admiral Moreau let us see, and the later
13 ones were, as far as I know, ones that came right to the
14 Secretary.

15 MR. KREUZER: Did you have to go down to a
16 certain place to see any of the [REDACTED]

17 THE WITNESS: General Powell's office. There
18 may have been one or two occasions when one would be
19 carried up to me, and, as a matter of fact, now they are
20 carried up to me. But in general I went down there to
21 read them.

22 MR. KREUZER: So the ones that Admiral Moreau
23 picked out for you to read he would give to General
24 Powell?

25 THE WITNESS: He did not pick out anything for

3 MR. KREUZER: Let's say the ones that Admiral
4 Moreau selected would end up with General Powell.

5 THE WITNESS: Yes, that's my understanding.

6 MR. KREUZER: And then you would read those in
7 General Powell's office?

8 THE WITNESS: Yes.

9 MR. KREUZER: And then at some point in time
10 Secretary Weinberger said wait a minute, we are supposed
11 to be on distribution for this.

12 THE WITNESS: That is my understanding.

13 MR. KREUZER: But you weren't able to
14 distinguish, were you, or were you, one from the other?

15 THE WITNESS: No. It was a matter of no
16 moment to me. I only subsequently learned that there was
17 a time that we were cut off, and I talked to Arnie Raphael
18 and found he was getting none of this, for instance.

19 BY MR. SABA: (Resuming)

20 Q So what happened was that the Secretary asked
21 you to find out what was going on.

22 A Yes.

23 Q And in that request to you was there any
24 mention of the existence of a recent transfer, whether of
25 HAWKS or TOWS?

1 A No, sir, I don't believe there was.

2 Q So the only basis that you knew it or that you
3 recall you knew at that time would be an IR report?

4 A I could have had subsequent conversations with
5 friends. I don't remember that. I don't recall that.

6 Q And you received that request to find
7 information.

8 A That's right.

9 Q And who did you speak to?

10 A I probably spoke to Bob Oakley, but I can't
11 say with a certainty. I know I had spoken to Arnie. Now
12 Arnie was on the trip with me -- this one to Pakistan --
13 as he had an inkling he was going to be the Ambassador to
14 Pakistan and wanted to go out and measure for the drapes,
15 and when we came back we were both engaged, as we would
16 have been, in a discussion, telephone, what's going on in
17 your building since you've been gone, and I'd tell him
18 what's been going on in my building since we were gone.

19 I know that when the Secretary told me that
20 something was going on I kind of figured Ollie would know
21 something about it because he was a very active fellow
22 and very involved with hostages. I could see myself no
23 reason to talk to the Iranians that didn't involve
24 hostages, none, and I think the combination of all of
25 those and maybe rumors from the interagency community led

1 me to ask Ollie to lunch.

2 Q Did you have a conversation with Ambassador
3 Oakley prior to that lunch with Ollie?

4 A I don't remember. I may have.

5 Q And in that conversation by any chance do you
6 recall the topic of a talking paper or points involving
7 the Arms Export Control Act arising?

8 A My remembrance -- I have been wrong -- was
9 that this arrived after I had my lunch with Ollie, and
10 before the meeting, what I think was the first meeting,
11 as far as I know, with the President in early December,
12 and I think I had that discussion with Arnie Raphael.

13 Q With Arnie?

14 A Yes, that's my recollection. I could have
15 also had one with Bob, but I'm quite sure I had a
16 discussion with Arnie Raphael on this.

17 Q What was the timing on that?

18 A It would have been, I'm sure, immediately
19 after having lunch here on 3 December with Ollie and
20 prior to the 6 or 7 December, whichever date that meeting
21 was. I'm absolutely certain I discussed this with Arnie
22 Raphael.

23 Q Do you recall, just to leave that alone for a
24 moment because in the same time frame there were joint
25 U.S.-Israeli talks going on.

2 Q Do you recall having a conversation that week
3 with Mindy Meron? He was to help you, staying in Chevy
4 Chase?

5 A I'm sure I did. If we had it at that time, I
6 would have had it here. He would have come in to see me.

7 Q Do you recall the substance of that
8 conversation?

9 A I do not. The only noteworthy conversation
10 that I remember with Mindy on this whole subject -- and I
11 can't give you a date, but my feeling is that it was
12 later in the spring of '86 prior to when Mindy was going
13 to leave his job as Director General of the Defense
14 Agency -- he got a call. He was in my office. He got a
15 call from Ollie, who wanted to talk secure, so I let
16 Mindy go out to my outer office to use the secure phone.

17 When he came back I don't remember him telling
18 me the subject of the conversation, but I said to Mindy,
19 you know, you guys are involved with some real sleaze
20 balls. I think I used that exact expression, or
21 scumballs, because Mindy gave me -- he was standing -- I
22 remember he had just come back in my office and he was
23 standing over by the corner of my desk, and he gave me --
24 he's got a very charming smile. He gave me this kind of
25 quizzical smile which I read as, you play the hand you

2 me one of those.

3 That's the only conversation I remember with
4 Mindy on this.

5 Q Continuing to focus on the joint U.S.-Israeli
6 talks in that period of time, did you see Defense
7 Minister Rabin at the same time?

8 A If he was in town I would have probably seen
9 him, but I would not have seen Rabin without the
10 Secretary. I mean, I did not see Rabin other than at a
11 major meeting. But Rabin doesn't come to JPMGs. As a
12 rule this is not his level of meetings. It is down a
13 bit.

14 Q I understand. It was at the Meron level?

15 A That's right. He led their team with their
16 Ambassador.

17 Q We have Mr. McFarlane's testimony and Mr.
18 North's testimony that Minister Rabin in New York first
19 met with McFarlane on the 15th and raised an issue.

20 A Of --

21 Q November, and raised an issue of replenishment
22 for Israeli weapons shipped and to be shipped to Iran.
23 When McFarlane was in Geneva Rabin again calls McFarlane.
24 McFarlane in turn calls -- tells Rabin to see Oliver
25 North. Oliver North's testimony was that at that time he

1 sought to determine legalities and modalities, I believe
2 was his testimony in public, as to the means of transfer
3 of a large number of HAWK missiles.

4 A So Ollie was looking for the legalities of
5 doing this?

6 Q And, if you recall, we have the testimony that
7 John and I did with Mr. Koch and Mr. Gaffney because we
8 eventually came to produce the week of the 17th to the
9 21st the Gaffney memorandum which discussed --

10 A Thank God I was gone, and that's why Noel was
11 in on it.

12 Q Which discussed 500 or 600 HAWKS and then
13 eventually that number became 120. But the testimony is
14 that that paper was in some way connected with that line
15 of inquiry.

- return and we'll take it up to December 7, to stretch it
 2 a few more days past Ollie North's lunch, did you have
 3 discussions with Minister Rabin as to replenishment
 4 issues?

5 A I don't remember Rabin, but I would not have
 6 met with Rabin, me, without being with the Secretary if
 7 he were in town. That is dead sure. That's number one.

8 Q Mindy Meron?

9 A If Mindy was in town at the time, I met with
 10 him and I would have met with him here. I don't remember
 11 talking about it, but I must say I don't know why Mindy--
 12 I mean, other than to talk about a project they wanted--
 13 would come to me for replenishment, because I don't have
 14 the power to replenish. I can't just order DSAA to
 15 replenish. He has to submit an LOA, which has to go
 16 through a normal process, which is something I can't
 17 order.

18 He may have; I don't know. I'm not sure I
 19 knew or would know if it was in the context of
 20 replenishment for Israeli weapons which were already
 21 delivered.

22 Q I think I understand, but correct me if I'm
 23 wrong. Is it your testimony that in this time period you
 24 did not discuss with Mindy Meron questions of
 25 replenishment of Israeli weapons to Iran, whether

UNCLASSIFIED

UNCLASSIFIED
TOP SECRET/CODE WORD

173

1 retroactively or prospectively?

2 A Well, I can't say. You guys, when I saw you
3 the last time, used the date 2 January with Mindy Meron,
4 which caused me to go back and look at my calendar. I
5 didn't see him, but I didn't remember then and I don't
6 remember now. Now retrogressive replenishment of Israel,
7 I just don't remember it. Prospective is a possibility,
8 but I am not sure in the context of they were going to be
9 giving stuff to Iran, because 2 December was prior to
10 having had the meeting with the President. It was prior
11 also to my positively getting Ollie to tell me that he
12 and others had been meeting with the Iranians.

13 So it's very possible I could have talked
14 about replenishment in general because that is one of the
15 subjects, weapons sales in general, that Mindy talks
16 about with me and with Phil Gast of DSAA. But I've got
17 to say I don't remember it being related to this specific
18 case at all.

19 Q All right. Let's go to the lunch. Did North
20 tell you that he had a long conversation about 11:00 that
21 day with Ambassador Oakley on this point?

22 A I don't believe he did.

23 Q Just to help, I am looking at Ollie North's
24 calendar for December 3. It simply notes that around
25 11:00 a.m. he had a call to Oakley. They discussed

1 certain talking points. There's a reference to hostages
2 and Ambassador Oakley has told us that issues of the
3 transfer were discussed and that North was concerned, but
4 you don't recall it?

5 A I sure don't.

6 Q Did Oakley tell you about this conversation?

7 A I don't recall Oakley telling me.

8 Q Do you remember if Oakley or Raphael discussed
9 that with you toward developing talking points or a legal
10 piece for either or both of your Secretaries?

11 A No. My recollection goes a little the other
12 way. My recollection is Ollie sat right where you are
13 sitting and I sat right where you are sitting and we had
14 this lunch, and after we finished it I talked about Iran
15 and he said yeah, he'd been meeting and doing this stuff,
16 and I was kind of shocked and said what I told you I said
17 to him and told him I thought the Secretary would be
18 appalled and all this had an effect, I thought, on Ollie
19 physically because he thought so much of Weinberger.

20 But after he left my office I know that I
21 would have informed General Powell and Arnie Raphael that
22 Ollie was meeting with Iranians. So my recollection
23 would be a little different. Though I don't have a clear
24 recollection, I'm quite sure I called Arnie Raphael,
25 second probably only to Colin Powell.

1 Q What did North tell you in that conversation?

2 A Well, what I remember most clearly is he was
3 meeting with the Iranians. [REDACTED]

4

5

6 [REDACTED] But it was the whole
7 thrust that he and others had been meeting with Iranians.
8 He may even have mentioned Dick Secord at that meeting,
9 though I can't be clear.

9

10 For me, on the one hand, I was excited at
11 having what I thought solved a mystery, and on the other
12 I was appalled at what I saw was something that my boss
13 was clearly not up to speed on going on, and that's what
14 struck me and that's my overwhelming remembrance of the
15 conversation.

15 Q What was your report about that conversation?

16 A That Ollie North is doing this and that
17 apparently it's sanctioned by his boss, by Bud. And I'm
18 sure that's the extent of that.

19 Q Did you do a written report?

20 A No.

21 Q Did North inform you of the success of the
22 August-September TOW transfer and Reverend Weir?

23 A Now that you ask me, that sounds a little more
24 familiar, that Weir came out as a basis of these
25 discussions or this was a result. That's not really what

TOP SECRET//COMINT

1 stood out in my mind, frankly. When you say it there,
2 that sounds familiar, but I don't have a clear
3 recollection of it.

4 Q But he talked about the whole mission?

5 A No, you are saying that. He talked about the
6 discussion with Iran and how far he thought they were
7 going to go and all this and that it was hostage-related.
8 Now that you mention Weir in that connection, I think
9 that's familiar to me. I can't center on it, whether he
10 talked about HAWKS or TOWs. For me again I've got to say
11 that's not what made the impression on me.

12 BY MR. SAXON: (Resuming)

13 Q Do you recall saying anything to him along the
14 lines of but this sounds like trading arms for hostages
15 and we don't do that?

16 A No, that's not the way I talk. That's not
17 what I would have said. This is really crap. How can we
18 do this? I would have said that. I don't know that I
19 did, but that's the way I would have put it to him. He
20 and I were friends and I wouldn't have been mincing
21 around it.

22 Q Let me ask you one other question.

23 A I would have hit it hard.

24 Q That's a little broader and in a way an even
25 more philosophical question.

1 A Get me on my weak point.

2 Q At any point in this time period did anybody
3 step back here in the Pentagon, as far as you know, and
4 look at the pattern of what was happening, of some things
5 going on with arms to Iran. We've been cut out of

6

7

8 You had had these problems that you described dealing
9 with the McFarlane NSC.

10 Did anybody -- you, Secretary Weinberger,
11 General Powell, somebody -- step back and say something's
12 going on here that we don't like, we don't know about, we
13 need to raise or discuss?

14 A This is the answer, yes or no -- yes, in that
15 something was going on that we didn't know and that
16 caused us all to want to have a meeting with the
17 President to kind of lay this out in front of everybody
18 and get all the guys that had the concern together to
19 give the President his information. I was less shocked
20 about, personally was less shocked at finding that we had
21 been cut out of some bureaucratic action because,
22 frankly, at that time with the NSC and since, as I
23 testified to before, the Lebanon experience, we had a
24 great deal of trouble with the NSC.

25 So I was less shocked at being found to be cut

178

1 out of some bureaucratic action than I was about what was
2 going on. So the answer is we didn't stand back and take
3 a long look at a great conspiracy or something like that,
4 but we did say hey, there's a problem here and we have
5 got to get a handle on it so we can try to fix it.

6 Q And the way that in a sense manifested itself
7 was when you told Colonel North we've got to get the
8 elephants together?

9 A No. I think it manifested itself when the
10 Secretary indicated, either himself or through Powell,
11 that he wanted someone to see what the hell was going on
12 so we could try to find out what was going on, where do
13 we go from here. That would be the manifestation to me,
14 and my comment to Ollie was a private remark based on,
15 certainly, my understanding that Secretary Weinberger
16 wasn't very clued in on this stuff and, number two, what
17 I felt was the case from my constant conversation with
18 Arnie Raphel that there's something going on and we're
19 not being plugged in.

20 And that's why I ever dared raise George
21 Shultz' name with Ollie, because I had talked with Arnie.

22 Q Did you get a sense in the December 3 lunch
23 that Colonel North was hearing for the first time that
24 Secretary Weinberger was opposed to what was happening or
25 wouldn't look favorably on it?

UNCLASSIFIED

UNCLASSIFIED

179

1 A I must say, now that you say it like that, I'd
2 have to answer yes, because I said, when I told him the
3 Secretary would have thought he was out of his mind with
4 this, Ollie looked shocked to me, and I think he looked
5 shocked because he respected Secretary Weinberger.

6 MR. KREUZER: That lunch occurred on what day?

7 THE WITNESS: December 3, whatever day of the
8 week that was.

9 MR. KREUZER: That was the third of December

11 THE WITNESS: Yes.

12 MR. KREUZER: Four days before the meeting for
13 the Secretary?

14 THE WITNESS: I don't want to claim credit for
15 having brought about a meeting with the President. I
16 mean, that was my recommendation to Ollie. I'm sure it
17 was also other people's recommendation as soon as I
18 finished that lunch with Ollie, because I know I told
19 Arnie what I had discovered.

 6 HAWK missiles for Iran. I have seen it. There was one
 7 about the possibility of leaks.

8 Q That will come.

9 A This one I have seen, but I don't remember
 10 when I saw it.

11 Q Do you remember when you first saw it?

12 A No, I don't. But I have seen it.

13 Q Do you recall whether in asking you to find
 14 more information about what's going on any reference was
 15 made to this paper or the fact of its existence? This
 16 had already been provided. Your testimony is it's been
 17 provided the Secretary a week before you engage in this
 18 inquiry.

19 A Whether provided by me, I was unaware of it.

20 Q I understand that it was provided, we have
 21 testimony, to Powell and the Secretary, so they had
 22 knowledge of this paper when they spoke to you, and it
 23 just seems unusual to me that having this amount of

3 in preparation for the 7 December meeting, when I was
4 getting smarter for the Secretary. I know I met with
5 Hank, so he may have mentioned it then. But I've seen
6 that paper.

7 Q I want to continue with the lunch with Ollie.
8 I'm trying to understand the gist of the conversation in
9 the context of what's going on. He told you there was an
10 initiative, told you that he had had a discussion with
11 certain Iranians.

12 A Yes.

13 Q He mentioned that this was in connection with
14 hostages?

15 A Yes.

16 Q Did he mention weapons?

17 A I don't recall. He may have, but that didn't
18 stick in my mind. And he may have mentioned Secord,
19 which does now strike a more resonant tone because I knew
20 Dick quite well at that time, at that lunch.

21 Q Do you remember the context in which he
22 mentioned Dick Secord?

23 A No, I don't. I just say that's familiar. I
24 think that might have happened.

25 Q Did Ollie mention that the status at that

1 point of the initiative involved a proposal for 3,300
2 TOWs?

3 A I don't recall it.

4 Q I-TOWs?

5 A I don't recall it. He may have. He may have
6 done that, or he may have -- you know, the number. I've
7 seen it on a piece of paper, but I don't remember Ollie
8 doing it, but it may have been Ollie that brought it up,
9 and I don't know if it was at that lunch or some
10 subsequent conversation. Weapons are not what stands out
11 about that lunch. As I say, what stood out was the fact
12 that we were dealing with the Iranians and the Department
13 of Defense was cut out of it. He may have told me about
14 weapons, but I don't recall it.

15 Q So you had the lunch and you made an oral
16 report to whom?

17 A To Colin.

18 Q To Colin Powell?

19 A Yes.

20 Q And did you provide him any information in
21 regards to weapons or hostages?

22 A I told him whatever I knew at the time. I
23 would have told him as much that struck me out of that
24 conversation.

25 Q What is your recollection of what happened

UNCLASSIFIED

1 next?.

2 A Well, I remember my most vivid recollection is
3 some frantic working with Arnie Raphel to try to make
4 sure our bosses were basically singing from the same
5 hymnal. That I know because I have talked to Arnie
6 several times on that. That's my most vivid
7 recollection. But you've got to remember -- and I don't
8 mean this facetiously -- my business continues and I was
9 about to go off, and I had all kinds of things going on
10 and in between this my most vivid remembrance is working
11 with Arnie Raphel to be sure our bosses could be
12 together, feeling that this would kill the program.

13 Q When did you speak to Glenn Rudd about the
14 matter?

15 A I would be guided by whatever Glenn said to
16 you guys. I didn't remember speaking to him, but he now
17 -- I think he and Gaffney came in to see me on 6
18 December, but I'm not clear on that. I am not sure.

19 Q Did you request Glenn Rudd to prepare a
20 document?

21 A Very possibly. I'm sure if I was in town I
22 would be the guy requesting. But let's see the document.

23 Q Let me show you the testimony as the next
24 exhibit. I have the entire deposition. Actually it was
25 a continuing deposition of both Mr. Gaffney and Glenn

1 Rudd taken Monday, June 22, '87.

2 I direct your attention to page three and I'll
3 show you the deposition, which will become our next
4 exhibit.

5 (The document referred to was
6 marked Armitage Exhibit Number 15
7 for identification.)

8 I would then show you, which will become our
9 next exhibit, the paper to which you referred and
10 identified in that deposition.

11 (The document referred to was
12 marked Armitage Exhibit Number 16
13 for identification.)

14 You might want to take a look at his testimony
15 to refresh your recollection as well as the paper. And I
16 direct your attention in particular to the number 3,300
17 that's referenced for TOWs.

18 A Got it. Yes, I've got it.

19 Q I guess what I'm trying to understand is how
20 that happened and what was it that caused you --

21 A I don't remember. My feeling is it must have
22 been in a phone call in preparing for this, but I just am
23 not clear on it.

24 Q Mr. Rudd testified that you came to him and
25 asked for the paper. He did not have this information of

1 his own knowledge, nor did he get those numbers from
2 anyone but yourself, and there had to be a basis on which
3 you went to him and said I need information about such
4 and such and such, and it's very specific information.

5 My question to you is, who asked for the
6 paper. Was this on your own initiative?

7 A No. I at my own initiative would not have
8 thought up those numbers. I can assure you of that. It
9 was clearly or my remembrance -- and I can't remember
10 who; it must have been from a phone call, and I can't
11 remember if it was Ollie, if it came from the bottom
12 floor, from Colin Powell or from whom. I have no
13 remembrance of that.

14 BY MR. SAXON: (Resuming)

15 Q What's the bottom floor?

16 A I meant the third deck, the Secretary's
17 office. Or Ollie or any of these guys. I just don't
18 remember.

19 MR. KREUZER: It could be maybe Ollie North?
20 It could be?

21 THE WITNESS: It could be anybody. You could
22 name them all.

23 MR. KREUZER: Could it have been the
24 Secretary?

25 THE WITNESS: I don't think it would have been

1 the Secretary. It could have been Colin. I can't
2 imagine the Secretary dealing in 3,300s. But I can't say
3 with any assurance that it was at all.

4 BY MR. SABA: (Resuming)

5 Q Are you suggesting the number did not come
6 from Oliver North on the third of December?

7 A I'm only suggesting I can't remember where it
8 came from. It could have certainly come from Ollie on
9 the third or in a subsequent conversation. I don't
10 remember where it came from and I don't remember who told
11 me. Clearly I wouldn't have asked for a paper to be
12 prepared if it didn't have some bearing on the meeting we
13 were about to go to. I just don't do stupid things.

14 Q Mr. Rudd testified that this was done at great
15 urgency. This was kept close is what he was informed.
16 DSAA General Counsel was not involved. This was a most
17 unusual exercise, done in a very short period of time.

18 A For all of us.

19 Q Not in the usual course of business.

20 A I agree.

21 Q I must confess it's difficult to, in the
22 context of all that you have said about policy and the
23 opposition of the Department to the policy, that you
24 would have requested such a document with such specific
25 facts and not have any recollection of why you requested

1 it.

2 A Well, I can speculate, but I can only do that.
3 I can't remember directly. I would speculate that I was
4 preparing this because it was going to come up the next
5 day. That's the only thing I could speculate. I just
6 don't remember it and I don't remember who told me, but
7 it was clear -- anybody who told me a number would be
8 somebody who I would have regarded as requesting
9 information that needed to be answered. I mean, I just
10 wouldn't ask Glenn Rudd or any of those guys to do
11 something stupid, and I just can't remember who it was.

12 And it was extraordinary, and it was very
13 close hold. All that I agree with.

14 Q What did you do with the paper?

15 A Well, I'm sure I provided it to the Secretary
16 for that meeting, but that's my best recollection.

17 Q For what meeting?

18 A For the next day's meeting.

19 Q So you knew there would be a meeting on the
20 7th of December?

21 A Yes, I knew by 6 December there was, sure.

22 Q How did you know that?

23 A You got me. Either Ollie called and told me
24 that or Arnie called and told me that, or the Secretary's
25 office called. Somebody told me they were going to have

1 the meeting.

2 Q Who did you give the paper to?

3 A Well, I'm sure I would have provided it to
4 Colin, but I don't remember giving it to him. But that's
5 the way I did things.

6 Q Isn't it likely, then, that Colin would have
7 told you of the occurrence of the meeting and the need
8 for the paper?

9 A It's possible. I don't like your words,
10 because I can't stand behind them. It's possible that he
11 could have.

12 MR. SAXON: I don't mean to be glib. If you
13 don't like ours, just provide your own.

14 THE WITNESS: I say it's likely, it's
15 possible, but it's equally possible that Ollie said one
16 of the things that's going to be discussed is 3,300 TOWs.
17 It's equally possible Arnie said to me hey, I hear 3,300
18 TOWs are the number and we better find out what the deal
19 is and get all the information. This is all possible,
20 but you got me.

21 BY MR. SABA: (Resuming)

22 Q Let me show you another document which I
23 perhaps may have shown to you before and it may be an
24 exhibit, but I will show it to you now. It's a PROFS
25 note written on December 4 by Oliver North. There's a

1 very long summary of the entire initiative to that point,
2 and he gives, on the third page of this, a formula and
3 this was also used in the testimony of Mr. Gaffney and
4 Mr. Koch. I'm showing you an unredacted version.

5 A I've got a clearance.

6 Q I just mention it because it's also a public
7 exhibit.

8 (The document referred to was
9 marked Armitage Exhibit Number 17
10 for identification.)

11 This would have been prepared the day after
12 your lunch with Mr. North.

13 A Do you want me to read the whole thing? I see
14 this is what you are interested in.

15 Q I direct your attention to the number in the
16 entire initiative and perhaps that helps you to remember
17 what Ollie might have talked about the day before.

18 A I see it says 3,300 basic TOWs, but it
19 doesn't. And, as I say, it could have been Ollie, but
20 that's not what struck me. You know, I don't think Ollie
21 would have told me about this 3 December, because I don't
22 believe I'd have waited to 6 December for information.
23 I'm not at putter-offer.

24 MR. KREUZER: But on 3 December you imparted
25 some very unnerving news to Ollie, and he was visibly

1 upset.

2 THE WITNESS: That was my view.

3 MR. KREUZER: It was your view that you were
4 out on a limb because the Secretary doesn't know about
5 this, and you are way out on a limb.

6 THE WITNESS: I told him that.

7 MR. KREUZER: So he had to be unnerved and he
8 left here, but within three days somebody came back with
9 a task here for point papers on I-TOWs, I-HAWKS, and a
10 Possibility for Leaks, which is a legal opinion paper by
11 a man who isn't an attorney.

12 THE WITNESS: A Possibility for Leaks I
13 believe was probably done between me and Raphael and with
14 some help from DSAA, not legal counsel. But I don't
15 know. You're saying that that was all one tasker and you
16 are a better witness than I am. I don't know that at
17 all. I think The Possibility for Leaks is me and Arnie.
18 This is my remembrance, and it wasn't a tasker, I don't
19 think. I think it was us. I just don't remember, and I
20 don't remember how the tasker got here.

21 MR. KREUZER: So, let's see. The I-TOW and
22 the I-HAWK paper, would that have come from, say, either
23 Colin Powell or Ollie North, the request for that?

24 THE WITNESS: Yes, but it could have come from
25 Arnie. It wouldn't have been a request. It would have

1 been more along the lines of this is what's going to be
2 discussed, but I doubt that it came from Arnie, but it
3 could have. I just don't remember who gave me this
4 information. I would say Ollie was the most probable.
5 But I don't think he would have done it 3 December
6 because I don't think I'd have waited until 6 December to
7 ask Glenn Rudd to do it for me. That's just my own
8 habit.

9 MR. KREUZER: So that would have come maybe
10 the 4th or the 5th or maybe even the 6th?

11 THE WITNESS: Possibly. I can only tell you
12 my habit is not to sit on things. So I don't sit on
13 things.

14 BY MR. SAXON: (Resuming)

15 Q Mr. Secretary, let me focus on one different
16 issue for a second and ask you since we've been talking
17 about 3,300 I-TOWs Exhibit 16, which is what we call the
18 TOW paper, has a little bit about HAWKs, but also some
19 about TOWs. And Mr. Rudd testified that he was involved
20 in putting this together for you, and it went to you.

21 The statement is contained in it, and I quote:
22 "Based on the numbers, the impact on Army of shipping
23 3,300 I-TOWs immediately would be serious but not
24 intolerable." Do you recall taking note of that sentence
25 in this, and do you recall any discussion about the

1 readiness impact?

2 A With the Secretary or with anybody?

3 Q With anybody.

4 A I don't remember it with anybody outside the
5 Secretary. I don't remember it directly, but I've got a
6 hazy recollection that the Secretary had a concern for
7 readiness, U.S. readiness.

8 Q On the issue of 3,300 I-TOWs?

9 A Whether it was on I-TOWs or HAWK spare parts,
10 I don't know. I can't remember. But I mean this is
11 something he gives some weight to. But whether the paper
12 had the information or whether we discussed it across a
13 table I can't recall.

14 Q Well, the HAWK spare parts didn't come until
15 April '86.

16 A Well, then it might have been the TOWs. I
17 just can't remember that it was TOWs, but I've got a
18 vague recollection of the Secretary being concerned with
19 readiness as a general proposition, yes. But I can't be
20 more precise.

21 BY MR. SABA: (Resuming)

22 Q Did you provide the information in this

25 would have provided it to him as well.

1 Q On the 6th of December?

2 A Whenever. Whenever they gave it to me.

3 Q I notice that in the notebooks of Mr. North on
4 the 6th of December there is considerable information
5 about TOWs, including the same formula which I showed you
6 in the PROFs notes and reference to the 3,300 TOWs and
7 very much the same information.

8 A I might have called it to him. I don't know
9 that I sent the paper. But it could very well have been.

10 Q I want to enter another exhibit, and the
11 second document is called "Possibility for Leaks".

12 A Yes. This did come out of my safe.

13 (The document referred to was
14 marked Armitage Exhibit Number 18

16 Q I'd ask you to take your time and take a look
17 at it and tell us what you know about it, and feel free
18 to look at the deposition of Mr. Rudd and Gaffney.

19 A You want me to recall first and then look at
20 the deposition?

21 Q As you like. I want you to feel comfortable
22 with your testimony.

23 A I'm telling you the truth as I know it, so I'm
24 comfortable without looking at their deposition. This
25 looks to me like something I would have asked them for --

1 the legality surrounding this problem. I mean, that's
2 my remembrance. I remember very clearly discussing with
3 Arnie Raphael kind of the legal problems.

4 Now the reason that you made a comment about
5 you're discussing things with people that aren't lawyers,
6 I will recall for you that at least two buildings were
7 appalled at this -- this and the State Department -- and
8 that, number two, that it was our fervent hope that this
9 thing was going to be killed. Number three, Arnie Raphael
10 had worked in PM. He had been the Deputy Director of PM,
11 Political-military bureau at State. As such, he had the
12 arms transfer policy hat for the State Department, who
13 has the lead in this issue.

14 We're technicians here in the Defense
15 Department. He was very well versed on the intricacies
16 of the Arms Export Control Act of necessity. He had held
17 the job.

18 Q Mr. Raphael?

19 A Raphael. So I can remember vividly talking
20 with him the ins and outs. I probably even read him this
21 paper, and I'm sure -- I have a very vivid memory that he
22 gave me some knowledge of what was legal and illegal.

23 BY MR. SAXON: (Resuming)

4 Q Let me just see if you can characterize your
5 discussion with Arnie Raphael and I'm going to give you
6 some choices, and if none of them apply, that's fine.

7 A Thanks. I'm comfortable.

8 Q Do you recall what I'll call the legal
9 discussion where you were talking about the Arms Export
10 Control Act, the provision and so forth?

11 A Yes.

12 Q Being in the context of what are the
13 provisions that apply and that govern so we can brief our
14 principals so they'll know, or what are the impediments
15 to this, since your boss and my boss don't want it to
16 happen and go forward, so we can help them shoot it down?

17 A I frankly think we saw them both as the same
18 thing. I mean, the legalities would be impediments. So
19 I don't know that we would have used the word how do we
20 block this. There was no question at the staff level the
21 advice to the principals was going to be this is a bad
22 deal.

23 So we wouldn't have used the term
24 "impediments". What are the legalities surrounding arms
25 transfers? What are the parameters that the bosses have

1 to take into consideration? That I remember. I don't
2 remember using the word "impediments", but it was clear
3 this is what our whole focus was -- my whole focus, and I
4 believe Arnie shared that.

5 BY MR. SABA: (Resuming)

6 Q In the Possibility for Leaks the very title of
7 the document might suggest certain things. What did you
8 understand to be the purpose of the paper?

9 A I think I was looking for what were the ways
10 to do this quietly. I don't know whether I would have
11 used the term "Possibility of Leaks" as the heading. I
12 possibly did, but I don't think so. I think I would say,
13 listen, if this wants to be done, how can it be done
14 legally? What are the legal parameters?

15 Quietly. I mean, obviously it would have to
16 be quiet.

17 Q Why?

18 A Well, because we thought selling weapons to
19 Iran was a violation of everything from operations talks
20 to hostages. We didn't think we'd ever be able to
21 explain it to our modern Arab friends. We thought it
22 would make us look like idiots in Europe, where we had
23 finally made some progress on terrorism, et cetera, et
24 cetera.

25 Q Why wasn't the question put to Jerry Silber?

UNCLASSIFIED

1 A I may have said don't let anybody else see
2 this. I'm sure I would have said to either Hank or to
3 Glenn. Just use your collective knowledge because we
4 want as few people to know about this as possible.

5 Q Who is "we"?

6 A Me and the Secretary. The Secretary said this
7 is a very close hold.

8 Q So it was the Secretary who asked you to do
9 it?

10 A No. It was the Secretary who asked me to find
11 out, but when I told him or told Colin what it was, I
12 then had to staff him up and told Colin that I would
13 staff the Secretary. The Secretary wants to keep this
14 very quiet. I mean, it was our hope to just kill it and
15 it would go away and we would never see it again.

16 So I would have, as a matter of course,
17 cautioned Glenn and Hank do it yourself. You guys have
18 been in this business for 20-odd years. You know the
19 stuff. Give me what I need.

20 MR. KREUZER: The Secretary asked you to find
21 out about this thing that's called Possibility for Leaks?

22 THE WITNESS: No. The Secretary asked me to
23 find out if anyone was talking to Iran. Eventually we
24 got word that there was going to be a meeting of the
25 elephants, as I called them. I then reported I will

1 staff the Secretary up to Colin. Colin reported back to
2 me that's fine, but keep it quiet, which I would have
3 done without any caution from the Secretary of Defense.

4 And I'm sure that I would have fully told Hank
5 and Glenn don't let this get out of your sight. It stops
6 with you. It is not unusual in this business for the
7 Secretary to turn to me or one of my colleagues and say I
8 need your advice on X. I don't want it staffed by
9 anybody; I want your advice. Give me what you've got
10 now.

11 I've had occasion to go in and see him on some
12 subject matter and he'd say, look, I need to know about Y
13 and I don't want to ask officially. Can you tell me what
14 you know about it? And I'll give him as much opinion as
15 fact. So that in itself, I mean, a request to keep
16 things quiet is not totally unusual. But this whole
17 program was bizarre.

18 BY MR. SABA: (Resuming)

19 Q And in your request to Mr. Rudd you also asked
20 about price and readiness issues?

21 A I guess I did.

22 Q And I take it you instructed him to draft --

23 A I would bet price was what somebody had asked
24 me, and I would bet that readiness was probably something
25 that I put on or that they put on themselves, because

1 they would have to take these stocks from the Army and,
 2 as a matter of course, we were interested any time we
 3 draw down our Army stocks what the readiness is. So they
 4 may have added it of their own free will. I like to
 5 think that I brought it up.

6 Q Who do you think "they" would be?

7 A "They", Hank and Glenn, the DSAA body as a
 8 whole. They do have to consider readiness.

9 BY MR. SAXON: (Resuming)

10 Q Before we get off of a point you made a moment
 11 ago, you said that this was very close hold.

12 A Yes, sir.

13 Q Why would this document, the one Possibility
 14 for Leaks, and the TOW paper and the HAWK paper -- I
 15 think they are all classified at the Secret level. Is
 16 that unusual, given how sensitive this was?

17 A No. I think that's what the boys felt. I
 18 didn't classify it. I think others did. But I don't
 19 know. Whether it's Secret or Top Secret, if you give it
 20 to the press you are still in violation, as far as I'm
 21 concerned, with all of the statutes. They classified it;
 22 I didn't.

6 MR. KREUZER: So it was just your choice to

10 wasn't in town or I would have had him -- General Gast.

11 BY MR. SABA: (Resuming)

12 Q I take it that the paper was prepared with a
13 contemplation of the possibility that a third country
14 would be involved in the transfer to Iran.

15 A Well, apparently that must have been the
16 instructions I was working under. I don't quite remember
17 it that way.

18 Q Referring specifically, there's a reference to
19 the legalities of third country transfer provisions of
20 the Arms Export Control Act.

21 A That also could refer to Iran. Iran we'd have
22 problems because we could not guarantee the third country
23 transfer from Iran. I mean, they might give it to I
24 don't know who -- Libya -- and we couldn't guarantee

5 Witness Rudd: "Yes." And the testimony goes on.

6 We questioned Mr. Rudd on this and it was his

9 A That's fine. I don't argue that. That's
10 fine.

11 Q Would you say also that the two documents,

20 THE WITNESS: Well, I don't know how you come
21 to that conclusion, but your previous point about the
22 last paragraph on page two of the paper, the Possibility
23 for Leaks, could be interpreted as having Israel in mind,

1 transfers.

2 BY MR. SABA: (Resuming)

3 Q But I was asking you if that was what was
4 contemplated.

5 A You know, I think it could have been, but I
6 don't remember it clearly. To me just doing it was the
7 bad thing, not how it was done, other than trying to make
8 it legal. The prospects for leakage of shipment of I-
9 HAWK looks to me like this is in response to a direct
10 question if we wanted I-HAWKS immediately where we would
11 get them and where we would take them, and I-TOWs
12 immediately where would we get them and where would we
13 take them.

14 I'm not sure that this particular paper would
15 have necessarily been explained as going to Iran. I'm
16 not saying that we didn't say that or I didn't say it to
17 Glenn or something, but I'm just saying that it's not
18 necessarily indicated here. I would like to think,
19 frankly, that I gave them a degree of protection from
20 this thing by just asking the specific question I needed
21 an answer to rather than how it would be done. In
22 combination of discussions with me and Mr. Koch, who I
23 have subsequently learned was involved in this, too, we
24 could have mentioned Israel.

25 Q But Mr. Budd and Gaffney have both testified,

3 A No problem. I don't argue with it. I would
4 have told them whatever I thought.

5 Q But it's your testimony that you don't have
6 any recollection where the numbers came from?

7 A No. I can't recall who, but I would say that,
8 one, I would not have pulled it out of thin air, and,
9 two, it would have to be somebody who had some authority
10 or I wouldn't have tasked the DSAA to do something like
11 this.

12 Q And who would have greater authority here than
13 yourself?

14 A Well, not greater authority. Look, we've
15 already seen, I think it's become painfully clear to most
16 of your bosses and painfully clear, embarrassingly clear
17 to the rest of us, that the National Security Council,
18 when a staff officer asks, whether it's Ollie or anybody,
19 generally you respond. They ask for information all the
20 time. In fact, ISA is correctly the point that all the
21 other agencies are supposed to come to when they want to
22 talk to different parts of this building. We are the
23 liaison between all the agencies.

24 So, as a matter of fact, we would respond to a
25 query from an NSC staff officer even if he wasn't Ollie.

1 Q But these papers were provided, you said, to
2 either General Powell directly or to the Secretary.

3 A Yeah. I'm quite sure I would have given them
4 to Powell and not to the Secretary.

5 Q So if Ollie North requested them, you might
6 have given the information to Ollie North?

7 A I'm sure I would have.

8 Q But that wouldn't have caused you to give
9 those same papers to the Secretary in preparation?

10 A I don't think so.

11 Q Or was it your understanding Ollie asked you
12 to do this to give to the Secretary in preparation for
13 the meeting?

14 A My understanding is I don't remember who asked
15 me, but clearly it was in preparation for the meeting.
16 The timing suggests that.

17 Number two, I would have had no reason to
18 withhold that information from Ollie North.

3 A I have no knowledge of it.

4 Q Authorizing?

5 A No.

6 Q Did you have any discussions about these
7 matters with anyone at that time, the time being the last
8 week or two of November, the first two weeks of December,
9 with anyone at the CIA?

10 A I sure don't recall it. I'm trying to think
11 who was DDO then. Who was DDO then? Was it Clair George
12 then or was it before? It was [REDACTED]

13 Q [REDACTED] Clair George?

14 A I don't have any recollection at all. I was
15 just trying to think of something that could jar me. [REDACTED]

16 [REDACTED] would have been --

17 Q McMahon was aware.

18 A McMahon was the Deputy.

19 Q Yes. McMahon was aware of the matter at the
20 time.

21 A Deputy until Bob Gates, who is a much closer
22 friend and colleague of mine. I didn't talk to the
23 Director or the Deputy Director that often. It was a
24 matter of some moment when they called me. But the guys
25 from the different regions and the DDO and the DDI, they

1 talked to me quite often, but I don't recall talking to

4 MR. SAXON: Do you recall talking to [REDACTED]
5 [REDACTED] about any of these matters?

6 THE WITNESS: I don't recall it. I wouldn't
7 be surprised if later in the year of '86 I took a few
8 shots at [REDACTED] I remember talking to Charlie Allen on the
9 outskirts of our OSG meetings about this.

10 BY MR. SABA: (Resuming)

11 Q In any event, it's your recollection, then,
12 that you provided these papers to Colin Powell or the
13 Secretary.

14 A It's a general recollection that I would have
15 provided to Colin. I would not have walked in to the
16 Secretary with these papers. I just wouldn't have done
17 it.

18 Q Do you recall having a discussion prior to
19 that meeting on the 7th with the Secretary about the
20 matter?

21 A I do.

22 Q All right. Can you recall when that meeting
23 was?

24 A Gosh, I've thought a lot about it. It was
25 either late on the 6th or early morning on the 7th. The

1 Secretary was leaving town. I like to think it was early
2 morning on the 7th, if that's a Saturday.

3 Q Yes, that's correct.

4 A As I seem to recall, I was in gym gear, which
5 is what I wear around here on Saturdays, but I recall
6 very clearly having a discussion with the Secretary in
7 preparation for this meeting.

8 Q And can you tell me about that discussion?

9 A Yes, I can say that I started to go through my
10 litany and the Secretary would finish sentences for me,
11 and that I indicated my understanding from staff was that
12 Mr. Shultz would be with him on this and that ought to
13 have a salutary effect. And the Secretary went through,
14 I remember very clearly, all the arguments that I had
15 laid out, plus the legal arguments which I had mentioned
16 in passing, and that he had absorbed.

17 I have never been more comfortable briefing my
18 boss in my life.

19 Q Did he indicate to you what he knew about the
20 matter?

21 A He did not.

22 Q Did he indicate to you what he expected would
23 happen that day?

24 A No. His whole discussion with me was what a
25 terrible and stupid affair this could be.

1 Q Did he make a reference to you to transactions

3 A Not to my recollection.

4 Q Did you discuss your lunch with Ollie North?

5 A I think I had done that previously to Colin.
6 I don't remember discussing it again.

7 Q Did you discuss with him a wrap-up of
8 intelligence information that you had earlier discussed?

9 A No, I don't recall that.

10 Q Did you discuss with him your discussions with
11 the people at the Department of State?

12 A I'm sure I did, because I have a clear
13 remembrance of saying Mr. Shultz, I was told by staff, is
14 going to be with you on this and that ought to have a
15 good effect or salutary effect and that it ought to get a
16 change and getting a smile from him. So in that context,
17 and I'm sure I mentioned Arnie's name, because he knew
18 that Arnie and I were dealing.

19 Q Did you provide the Secretary with any
20 information that was provided by Arnie?

21 A I'm sure I did. Whether I said this is what
22 Arnie says or this is staff view or my view, I can't say.
23 I would have probably taken credit for it.

5 A No.

6 Q That you had information about the fact that
7 there had been a HAWK shipment?

8 A No. Why would I assume that Arnie told me? I
9 mean he either told me or he didn't. I don't remember
10 it, but I remember having a discussion about the intel
11 with Arnie and what is this and what do we know and all
12 this.

13 Q Let me ask you more direct. Did you tell
14 Secretary Weinberger that you had information from the
15 State Department that there had been a HAWK transfer?

16 A I don't think so, and I don't think I had that
17 information. That is not something I think I knew.

18 MR. KREUZER: But you got information from
19 Colonel North on the third, when you had lunch, that he
20 gave you.

21 THE WITNESS: That's what you're telling me.
22 I'm saying he could have; I don't remember it.

9 Q Before we go to the meeting itself, let me ask

13 you gave the briefing paper which we have discussed you
14 indicate you are not sure if you gave it to him directly
15 or General Powell, and that's fine.

16 A I don't think I would have given it to him
17 directly.

18 Q Do you recall if he had it in hand and did
19 either of you have paper which you looked at or referred
20 to or talked about?

21 A I have a recollection that one paper I had in
22 hand talked about the Arms Export Control Act, and I
23 think I probably had jotted down as a memory aid my own
24 views in detriment to allies.

25 Q And do you recall --

8 Q I am about to leave these papers.

9 A Are you going to leave them with us?

10 Q Well, that's my last set of questions. Why

13 A Whoa.

14 MR. SHAPIRO: Counsel, any such question is
15 properly directed to me at another time.

16 MR. SABA: No. I think it's a valid question.

17 THE WITNESS: I'd like to get on the record on
18 this and let Ed answer the question. You know the
19 answer. You can take care of that. But I, when we
20 received documents searches, specifically ruled myself
21 out of my own documents and did not review the documents
22 and would not, and assigned someone else to do it because
23 I could smell a rat coming and I wanted to make sure that
24 I was above-board in terms of cooperation.

25 And I asked Linc Bloomfield to review all of

5 because I wanted to keep clean on this and, number two,

5 A Yes. I asked him after my testimony what was
6 going on, what went on.

7 Q And how did that --

8 A Well, I remember him having a different
9 opinion about whether he talked to me or Noel on one
10 meeting, and I can't remember which one it was, and I
11 pointed out, gee, I couldn't have talked to you then,
12 Glenn, I was out of town. He said, oh, yeah, I must have
13 talked to Noel. That's my clearest remembrance.

14 Q Do you recall Mr. Rudd coming to you on
15 approximately the 15th of June and discussing these
16 papers with you, Exhibits 16 and 18?

17 A I'm sure I would have asked him what went on,
18 what's your remembrance.

19 MR. SHAPIRO: You mean the papers specifically
20 or the substance of the papers or the substance of the
21 deposition or testimony, Counsel?

19 Q Mr. Secretary, can you tell us, to the best of

25 that I wanted to assure that all documents were given

6 To the best of my knowledge everything was
7 turned over as soon as possible upon notification of your

9 Q Thank you. I want to move to another area.
10 Perhaps if someone else has questions about these

12 MR. SAXON: No. We've got little time left.

17 Q I'd like to move on, Mr. Secretary. After the
18 7th you were debriefed. Between the 7th of December and
19 the end of the year, did you have any additional activity
20 in connection with what we call the Iran initiative?

21 A Well, other than I'm sure I wrapped up with
22 Arnie Raphael after I was informed by the Secretary that
23 he thought the outcome of the meeting, and I believe I
24 kind of thought things were dead, and that's what the
25 Secretary's impression was. But I would have had a

1 conversation with Arnie particularly about a debrief of
 2 here's how my boss saw the meeting. How did your boss
 3 see it?

4 Q Do you recall a January 2 meeting with Oliver
 5 North?

6 A I've got my January 2 calendar here, because
 7 that was the date you asked me about.

8 BY MR. SAXON: (Resuming)

9 Q Before we go on, let me ask you one question.
 10 In the debrief with Secretary Weinberger of the December
 11 7 meeting, whenever that debrief took place, did he tell
 12 you that he had proposed to the President that the better
 13 way to get the hostages back than selling arms to Iran
 14 was [REDACTED]?

15 A I don't know that he told me that. That was
 16 always his view and he expressed it on occasion. I had
 17 ever^y reason to believe he would have.

18 Q And just let me ask the further question,
 19 although I think it's answered by that answer. Did he
 20 say anything to you that would indicate that in the
 21 December 7 meeting he put forward that the better route
 22 to go was [REDACTED]?

23 A I don't remember that specific.

24 Q And that President Reagan said words to the
 25 effect in response, yeah, that's the way I want to go?

TOP SECRET (CODEWORD)
UNCLASSIFIED

UNCLASSIFIED

TOP SECRET/CODEWORD

217

1 A Well, it would have been consistent for him to
2 do so, but I don't remember him telling me that portion,
3 nor do I remember him telling me directly what the
4 President said. Secretary Weinberger does not generally
5 debrief on what the President said. He'll tell you what
6 he said, what Mr. Shultz said, and what the decision was,
7 but, as you know by now, it's difficult to get a debrief
8 from Secretary Weinberger, and it's only on those things.

9 I mean, there's a high degree of immediate
10 interest that I go down and park in his office. There
11 are plenty of ways, not the least of which is to find out
12 from the notetaker at the NSC what went on.

13 But January 2 --

14 BY MR. SABA: (Resuming)

15 Q January 2.

16 A I not only don't recall a meeting, it's not
17 listed on my calendar.

18 Q If I can help perhaps, I have a listing on
19 that morning at 8:30 at the Hay Adams.

20 A At 8:30 I was in the SecDef's staff meeting
21 here.

22 Q All right. Do you recall a meeting with North
23 that day?

24 A No, I do not. I can't tell you. I wouldn't
25 know the Hay Adams if I fell over it, frankly. I don't

1 remember having been in there. I guess I was in for some
2 visiting dignitary, but I do not remember being there
3 that day, and I'm specifically shown as in the staff
4 meeting and walking back to my office with Fred Ikle.

5 Q Do you recall a meeting on that day with
6 Menachem Meron?

7 A I do not show one, and I had a very full day.

8 Q Let me show you a page six, which will become
9 the next exhibit. It's page six of information provided
10 to us by the government of Israel, and if you haven't
11 seen it please take whatever time you need.

12 (The document referred to was
13 marked Armitage Exhibit Number 19
14 for identification.)

15 A I have just got to tell you that I did not see
16 Mindy, according to this calendar, that day, and I do not
17 recall that meeting. And the reason I have this calendar
18 is because you asked me about it previously and I didn't
19 remember it. And the next day I left for Hanoi.

20 Q Did you have any activity --

21 A I might say you might want to ask Mindy what
22 time of day that was, because I mean she's good and I was
23 in the office all day and Mindy didn't come in and she
24 wouldn't have let a visitor as noteworthy as Mindy come
25 in without making a note of it. So I don't recall that

1 at all.

2 BY MR. SAXON: (Resuming)

3 Q I guess the more important question, though,
4 would not be what time of day it was or whether it was on
5 your calendar, although I know that helps, and not even
6 January 2, because this is the report the Israelis have
7 provided after a lot of checking, and they indicate they
8 could have something wrong here and there.

9 But the report states: "Menachem Meron met on
10 2 January 1986 with U.S. Assistant Secretary of Defense
11 Armitage and sought to conclude an agreement regarding
12 the replacement missiles, including their price." So,
13 more important, do you recall at any time in that time
14 frame meeting with General Meron and discussing those
15 topics?

16 A I not only do not recall it, I'm not the guy
17 to talk price. Talk general systems and all of that,
18 fine, but I'm not a price guy, so I don't have any
19 recollection, and please let the record show that my
20 calendar shows no meeting with Mindy in or out of the
21 office.

22 Having said that, he's a great guy.

1 the government of Israel on the issues of the Iran
2 initiative?

3 A I can only state that from 3 January to 10
4 January 86 I was out of town, and then again from 14 to
5 18. I was in Bangkok, Hanoi and Hong Kong between 3 and
6 10 January. And then on 14 to 18 January I was at the
7 Security Subcommittee meeting in Honolulu. So I don't
8 remember it, and I think it's kind of unlikely. I mean,
9 I was just traveling a lot.

10 Q Did you have any conversations, perhaps in
11 December, with Ben Yusef?

12 A If Mindy came in, I'm sure Abraham Ben Yusef
13 would have come with him. They generally are a matching
14 set, because the purchasing agent is Mr. Ben Yusef. But
15 I don't recall, frankly, talking about weapons. We've
16 talked previously today about the possibility of talking
17 retroactive or prospective weapons. I just don't recall
18 it.

19 Q Did you have any knowledge prior to January 17
20 of '86 about the issue of replenishment of Israeli
21 weapons that had gone?

22 A I've told you my recollection. I'm not being
23 testy. I just don't have anything to add to it. And I
24 just say that I was gone a lot of that period.

25 Q Let me show you what will be the next exhibit,

1 which is from the testimony of General Colin Powell and
2 I'll provide three pages of that testimony, page 80, 81

4 (The document referred to was
5 marked Armitage Exhibit Number 20
6 for identification.)

7 You might want to look at the sequence of
8 questions. This is the Exhibit.

9 (Pause.)

10 A What's the date General Powell is talking
11 about on here? He's talking about sometime over the next
12 week, I can't recall how, either the Secretary or my NSC
13 interlocutors, the number changed to 4,508.

14 Q The reference is to --

15 A I'm trying to understand where the extra 508
16 came from.

17 Q The reference is to the period. He says it's
18 roughly the week after the 17th of January.

19 A It's the week after the 17th? Well, I would
20 have been back in town.

21 Q The week after the 17th.

22 A I certainly don't remember telling Colin.

23 Q Just to make it clear, on page 80, line 14, I
24 asked how the number changed to 4,508. At line 15 it
25 says: Sometime over the next week. And the reference

1 prior to that was the 17th of January. And we had other
2 testimony as to the period we're talking about.

3 A No. I don't remember telling Colin anything
4 about a previous shipment of weapons. And I think that
5 it was sometime -- and I can't say what "sometime" means;
6 more than a day or two -- after the 17th that I found out
7 things were in train for a transfer. And after the
8 decision was made on the 17th of January I never dialed
9 in. I never got involved other than to be informed that
10 something was going on.

11 Now any information that I found out about any
12 aspect of the program I would have shared with Colin
13 Powell, but I do not recall helping him at all with 508
14 or the increase from 4,508. I'm sure that I did not tell
15 him that the number should increase to 4,508 TOWs. I'm
16 dead certain of that.

17 Q All right. There is perhaps one reading of
18 the testimony could be that he came to realize that there
19 was a replenishment and he came to realize that one or
20 more persons had known prior to that date of a shipment,
21 and that this number was a replenishment.

22 A I read that in there.

23 Q He mentions your name twice. So it wasn't
24 necessarily that week that you knew of it.

25 A Previously.

1 Q But some point prior?

2 A Yeah. I understand what you're saying, and I
3 don't think I knew that. But if I had known I would have
4 told Colin. But I just don't recollect at all telling
5 him that. I just don't think I knew it.

6 Q My question is, did you know it?

7 A No. I don't remember knowing. I don't know
8 how to answer it. I don't recall knowing it. I think
9 I've testified that it wasn't until around November of
10 '86 I found out things had actually happened, that Israel
11 had transferred things without our knowing about it.

12 I was never actually sure during all of '86
13 how the transfers were made after our weapons went to the
14 CIA. As I say, this was absolutely not a matter of
15 ^{ve}moment with me. It was the policy that concerned me.

16 Q So your testimony then is that you simply did
17 not know even as late as roughly the 20th?

18 A Well, my testimony, I think I've got
19 carefuller, is I don't recall knowing about this. I hate
20 to be that way, but it's bad times, fellows.

21 MR. SHAPIRO: It's perfectly within your
22 rights.

23 THE WITNESS: Of course it's within my rights,
24 but these are bad times and I certainly don't remember
25 knowing this.

4 Q Let me introduce another exhibit, give you
5 this, and give you a moment to read it.

6 (The document referred to was
7 marked Armitage Exhibit Number 21
8 for identification.)

9 This is from the testimony of Colonel North at
10 our hearings on the afternoon of July 7, and I ask you to
11 just take a minute and read these two pages I've given
12 you.

13 (Pause.)

14 A Okay. I've got it.

15 Q At line 1486 Mr. Nields says: Colonel North,
16 I asked you before we broke about a number of particular
17 individuals and whether they were aware of the HAWK
18 shipment in November of 1985. Dropping down: Mr.
19 Nields: Were any officials at the Department of Defense
20 aware that 18 HAWK missiles or some number of HAWK
21 missiles had actually been shipped by Israel to Iran?

22 Mr. North: I believe they may well have been
23 because I think I made several efforts to coordinate with
24 them the replenishment of the HAWKS, I think, if I
25 remember properly, with DOD officials about both HAWKS

1 and TOWs. I wouldn't be asking them about HAWKS if they
2 hadn't already been ordered up as a need for
3 replenishing.

4 Then you get to the bottom of page 68, line
5 1519. Mr. Nields: I just want to make sure. My
6 question simply is who in the Department of Defense was
7 told that there had actually been a shipment, if anybody.
8 Mr. North: An unrefreshed long time ago memory would tell
9 me that I probably talked about that delivery with Mr.
10 Koch, possibly with General Powell, possibly with Mr.
11 Armitage.

12 Now Colonel North indicates his memory is
13 unrefreshed and he uses the word "possibly", so his
14 testimony does not stand for the proposition you were
15 told. I would simply ask you, since he says he might
16 have talked with you about it, do you recall Colonel
17 North ever telling you at the time or roughly at the time
18 of the shipments?

19 A I do not recall that. And I also recall that
20 in a previous part of Ollie North's testimony he said
21 that he dealt with others and latterly me. So I don't
22 think he did tell me -- others first, and then latterly
23 me.

2 I think it's helpful to the testimony and a better

4 A You'll get to look at, in case we want to move
5 somebody off who shouldn't have been seeing me.

6 Q You had a typewritten one?

7 A This is where I was. You guys are welcome to

10 [REDACTED] I'd

12 MR. SAXON: I think it would be helpful to
13 make that a formal exhibit to the deposition unless again
14 there is somewhere on there --

15 MR. SABA: I think it would be helpful.

16 THE WITNESS: I just want to stress for the
17 record that I prepared this based on the questions you
18 asked me last time and my inability to say that I was
19 traveling and where.

20 MR. SAXON: And by asking for it I'm not
21 suggesting that there is anything wrong or improper about
22 having a calendar to refresh you, because when we say

24 where they were without something in front of

Q Mr. Secretary, do you recall if in January you provided any other legal or other memoranda to anyone in connection with the Iran initiative?

A I don't recall.

BY MR. SAXON: (Resuming)

Q Let me ask the same question in a slightly different way. There is testimony, sworn public testimony, from Judge Sporkin, who testified on June 24 of this year at our hearings in his capacity as having been General Counsel at the CIA that on January 16, 1986, the day before the Finding was signed on the 17th, there was a meeting at the White House at which Admiral Poindexter was in attendance, Mr. Sporkin, and Secretary Weinberger, among others.

And his testimony was the meeting ended with Secretary Weinberger making a statement that he would like to take it -- and we're not sure whether "it" literally referred to the Finding, a draft of the Finding, a piece of paper or simply the concept that they were about to formalize -- would like to take it back and let my lawyers look at it. And Secretary Weinberger, in

TOP SECRET//SI//NF

UNCLASSIFIED
SECRET/NOFORN

228

1 his deposition to our two Committees, when presented with
2 this is what Judge Sporkin will testify to soon, said
3 that's sounds about right.

4 We have this afternoon been told more or less
5 by Mr. Garrett that there is no record that any lawyers
6 ever formally looked at the January 17 Finding on the
7 16th or the 17th. Our question to you is, were you asked
8 by the Secretary about that time to respond in any way
9 that we could call a legal response to either the Finding
10 specifically or the concept of going forward that was
11 expressed in the Finding?

12 A The answer is no. I was traveling at the time
13 as well, I wouldn't know Stanley Sporkin if I fell over
14 him.

15 MR. SABA: I have just a last line of
16 questioning at another time period on another subject.

17 MR. SAXON: I don't have much.

18 MR. SABA: I want to go to the November '86
19 period.

20 MR. SAXON: That's fine. I'm sorry, before
21 you jump to that, let me formally introduce as an

2 THE WITNESS: Yes. You can read it?

3 BY MR. SAXON: (Resuming)

4 Q I can read it.

5 A He's been a friend of mine for years, and I
6 can't read it.

7 Q I had to help Mr. Koch read this when he
8 testified to refresh his recollection as to what his
9 handwriting said.

10 He says in Item 1 that the TOW discussed
11 separately with Rudd and Gaffney in December. And that
12 we know more or less to be the case.

13 Item 4, "TOW paper locked in RLA safe.
14 Wouldn't let Rudd keep copy." He indicates that RLA is
15 Richard L. Armitage.

16 A That's right.

17 Q Would that be consistent with your
18 understanding that you took the TOW paper that Mr. Rudd
19 prepared and put it in your safe?

20 A Perfectly reasonable.

21 Q And for that matter, since this was a close
22 hold, that you told Mr. Rudd that you didn't want him to
23 keep a copy?

24 A I'm sure that's the case.

25 Q And, for the record, at the time that paper

UNCLASSIFIED

UNCLASSIFIED
TOP SECRET CODEWORD

230

1 was prepared or the HAWK paper, either of them, do you
2 recall telling Mr. Rudd or Dr. Gaffney to destroy all
3 notes, all working documents, et cetera?

4 A I'm sure I did. I didn't recall it, but when
5 they said it in their testimony I agree completely that I
6 would have done so.

7 Q And to make sure the record is clear that
8 would have been contemporaneous with their preparing it,
9 which would be in keeping with this being a close hold,
10 no notes kind of thing?

11 A Yes, sir.

12 Q And not in any way after the fact, trying to
13 destroy the record?

14 A Thank you.

15 Q Now one other thing I wanted to go to in this
16 document. If you drop down several lines, you see the
17 first word that looks like Gast. It says: "Gast said
18 best possibility of cover", and then the next word I
19 can't read, but the last words are "do it black".

20 A "Must do in black", "must do this black".

21 Q Mr. Koch testified in his two depositions and
22 publicly in his sworn testimony that if not from Gast --
23 he thinks it might have been from General Gast -- but
24 also it could have been from Mr. Rudd he got the clear
25 understanding that if you were looking at the numbers of

TOP SECRET CODEWORD

1 TOW missiles involved, knowing the prices we knew at the
2 time, you do the arithmetic and it would have been at a
3 dollar figure in excess of \$14 million, which means if
4 you were going to go forward through white world FMS
5 sales you would have to tell the Congress.

6 A Correct.

7 Q The understanding was that we didn't want to
8 do that, and, of course, the Finding said Congress was
9 not to be notified, so they concluded that the best way
10 to go about it, if the transaction was to go forward,
11 would be to make it an Economy Act transfer to the CIA,
12 make it an intelligence activity and go covert, which he
13 says do it black means.

14 My question to you simply is were you part of
15 any of this decisionmaking process?

16 A I don't think so.

17 Q Or any discussions in which this result was
18 reached?

19 A No, I wasn't. To my recollection I was not.

20 MR. SAXON: That's all I've got on that
21 exhibit.

22 BY MR. SABA: (Resuming)

23 Q Mr. Secretary, I have just a few questions by
24 way of information. You told us before that in
25 preparation for the Attorney General's press conference a

UNCLASSIFIED

TOP SECRET//COMINT

1 statement was being prepared for President Reagan.

2 A Well, okay. Yeah. I don't think it was in
3 preparation for the Attorney General's conference. It
4 was a statement the President was going to make, a
5 statement the President was going to make, not in
6 preparation for the Attorney General.

7 Q Let me show you the transcript, and we don't
8 have to make this an exhibit, but just if I could get
9 some help here. I'm showing the Secretary the transcript
10 of his deposition May 26, 1987, at page 62. I just want
11 to see if I can get some more information and maybe get
12 this right a little bit.

13 It's a bit confusing in light of what we know
14 now.

15 A All I can tell you is this. Around the time
16 of the Attorney General's press conference is where I
17 have a remembrance of the following -- that we had an OSG
18 meeting in which a statement for the President was shown
19 around. This was, in my memory, prior to the Attorney
20 General's press conference and not related to the
21 Attorney General's press conference -- to clarify that.

22 The speech or text of this paper concerned the
23 Iran initiative and, as I recall, did not concern itself
24 with the Attorney General's press conference or the
25 President's response to that.

UNCLASSIFIED

UNCLASSIFIED

233

1 Q Do you recall the date offhand? There were
2 several OSG meetings. If it helps you, the revelations--

3 A You know, I'll tell you, I think it was the
4 day the President made the speech.

5 Q The 19th? He had a press conference on the
6 19th.

7 A Then that may have been it.

8 Q He gave a speech on the 13th.

9 A Well, it was in preparation for a speech, to
10 the best of my knowledge, and I remember very clearly
11 that everyone at that meeting had negative things to say
12 about the statement. I've already testified to that.

13 Q So you think it was a draft statement?

14 A That was the way it was presented to us.

15 Q Do you recall specifically what your objection
16 to it was?

17 A Well, I recall making the comment that this
18 asked more questions than it answered. It's better just
19 to say I'll get the facts and give them to you. Jerry
20 Bremer, John Moellering, Buck Revell -- I mean, it was a
21 cacophony of sounds, people saying this is crazy. It
22 does not jibe with the facts, et cetera, et cetera. And
23 Ollie, who I think was a little surprised, and his
24 colleagues said well, send in your comments.

25 And my comment I think I phoned in later said,

UNCLASSIFIED

1 we can't go forward with this paper. And John Moellering
2 said, fellows, I was around during Watergate and this is
3 a bad deal.

4 Q So this was a draft which was circulated to a
5 group?

6 A That's correct.

7 Q Do you recall was any other draft of any other
8 statement provided to you for comment?

9 A Not that I recall.

10 Q Do you recall if you were provided with any
11 draft chronologies of the events?

12 A No, I was not.

13 Q For comment?

14 A No, I was not.

15 Q So to your recollection there was only one
16 document which was circulated for the group and you had
17 comments on it?

18 A Yes, that's correct.

19 Q Do you recall if in your comments to Mr.
20 North, Colonel North, you indicated that you had more
21 specific knowledge of the facts -- that is, the number of
22 shipments and the size of the shipments?

23 A Well, I don't know that it got down into line
24 by line this is wrong, that's wrong. No, I don't
25 remember that. But I remember that the general tone and

1 thrust was not, as I understood the project -- and I
2 didn't pretend to understand it in depth -- but Jerry
3 Bremmer, who sat next to me, I remember very well, I
4 said, Jerry, what is this and he was raising hell about
5 it. John Moellering, who was around the corner -- my
6 remembrances of those days are clearer because they are
7 so much closer -- but I don't remember that we went line
8 by line specifically tearing it apart. It was just a
9 general belief that this is terrible and we can't allow
10 the President to do this.

11 Q Did you provide any written comments?

12 A No. I can remember calling in. I think my
13 comment was the President ought to stand up and say I'll
14 get to the bottom of it; I'll give you the facts, et
15 cetera. Now I've been told subsequently Buck Revell sent
16 written comments, things of that nature.

17 Q Were you provided comments by anyone else in
18 writing?

19 A No. I wasn't. I don't think I showed anybody
20 else in the Department.

21 MR. SAXON: Who told you Mr. Revell sent in
22 comments?

23 THE WITNESS: I think subsequently in talking
24 with my colleagues we heard this. You know, did you send
25 anything over. I just bleated about and said they

5 statement with anyone here?

6 A Not that I recall.

7 Q Specifically the Secretary or General Powell?

8 A No. Powell was gone then, and Admiral Jones
9 was here. But I don't recall it.

10 MR. SABA: I don't have any further questions.

4 Q Do you need a moment to read this?

5 A No, I do not. I just want to make sure.

6 Q Are we like Shultz and Weinberger? Are we
7 reading off the same hymnal now?

8 A Yes, we are reading off the same hymnal.

9 Q Mr. Secretary, let me direct your attention to
10 page 107 of this transcript at line 2418. Mr. Nields --
11 let me back up. He had asked Colonel North what various
12 individuals knew about your activities in the contra

14 A That's right.

15 Q Mr. Nields: "How about the chief of the
16 Central American task force?" He's going through and
17 asking about particular individuals.

18 Mr. North: "Oh, I'm sure that he had a
19 detailed grasp of --"

20 Further down: Mr. Nields: "And what is your
21 basis for that belief?"

22 Mr. North -- and this is the part relevant to
23 you and I am quoting: "We used to have meetings with the
24 Restricted Interagency Group. We used to have secure
25 conference calls. And on one occasion I can recall

1 laying out for the group -- In fact I think it was after
 2 the \$100 million had been voted by both Houses, hadn't
 3 been sent forward to the President -- I can recall a
 4 meeting in an office in the Pentagon where I went down
 5 item by item by item the things that I was doing and
 6 asked them point blank whether or not I had to continue
 7 to do them to keep the resistance alive, because even
 8 though the money had been authorized and both bills had
 9 been passed, we couldn't get it forwarded to the

11 "And we went down item by item by item on my

 13 each quarter or each week to support the resistance, and
 14 I asked them point blank whether this should continue.

15 "Mr. Nields: Who was there?"

5 "Mr. North: I think so.

6 "Mr. Nields: Did you discuss efforts to
 7 obtain armaments?"

8 "Mr. North: Probably.

9 "Mr. Nields: Including munitions?"

10 "Mr. North: I am not absolutely sure it says
 11 munitions." He mentions logistics and air support.

12 Let me just simply ask you first if you recall
 13 a meeting of the RIG at which something like that or
 14 close to it took place?

15 A There were two meetings held in my office, one
 16 on August 28, one on September 19. They were breakfast
 17 meetings.

18 Q I'm sorry. The dates again?

19 A August 28 and September 19. They were
 20 breakfast meetings.

21 Q This is '86?

22 A That's '86. And I paid, and the reason we
 23 hosted them here was because we felt in the Department
 24 that we weren't up to speed and we wanted to know what
 25 was going on in Central America. Number two -- and

UNCLASSIFIED

1 that's the reason we hosted it here and I took the
2 initiative, and I remember that very clearly.

3 Number two, we wanted -- the reasons for the
4 discussion of the group were we were preparing to have a
5 passage of the bill by the Congress. We'd have some
6 money and we wanted to determine clearly what each
7 department would do, what would be the responsibilities.
8 And we wanted to start working on the NSDD which was
9 going to be signed out for the President, and
10 subsequently was who would have the lead
11 responsibilities, which agencies would support in what
12 manner.

13 Attendance at the first meeting on August 28
14 had, as I recall, John Moellering, myself, Nestor
15 Sanchez, Jim Michael, Ollie North [REDACTED] I do
16 not believe Elliott Abrams was there. In fact, my
17 record, which I will give you, does not indicate he was
18 there.

19 The second meeting, September 19, did have
20 those same gentlemen and, in addition, included Elliott
21 Abrams. My recollection and as reported by a memo that I
22 asked Nestor Sanchez to draft up for me to send to the
23 Secretary reporting on this event can be entered in the
24 record. I don't need to go all through it. But its
25 primary thrust has to do with [REDACTED]

And my final paragraph to the Secretary says:
The group I chaired this morning plans to continue meeting on a weekly or biweekly basis so that we can keep ourselves collectively informed on all developments and be able to provide timely policy guidance to the program. We'll keep you informed and request your guidance or approval as required.

That was for the August 28 meeting. I do not recall Ollie bringing this other stuff up. At a subsequent meeting I have a vague recollection of Ollie talking about humanitarian assistance.

Q By "subsequent" you mean the September 19?

A The September 19. Humanitarian assistance and not an item-by-item list of what Ollie was doing or not doing -- just a general discussion of humanitarian assistance. I would note, however, that my remembrance is the majority and the great bulk of the meeting was taken up on those items I mentioned earlier -- that is, what each department was going to do once we got this money and how would the NSDD be developed. And that's that.

Q Mr. Secretary, I'm not going to try to change

1 or tailor Colonel North's testimony to fit the facts so
2 he comes out being right.

3 A Well, I'm sure he remembers what he remembers.

4 Q But let me simply say that given people go to
5 lots of meetings and maybe some may go to the Pentagon
6 and some elsewhere, and some people in this group and
7 some not, let me just back up and ask the question a
8 little more broadly.

9 Do you recall, regardless of what dates,
10 regardless of where it was, regardless of whether it had
11 exactly the players he said -- because he could have
12 gotten all that wrong -- do you recall any meeting at
13 which he did anything close to what his testimony
14 suggests?

15 A I do not.

16 MR. SHAPIRO: Counsel, could we have this
17 entered as an Exhibit? Why don't you state for the
18 record what it is?

19 MR. SAXON: For the record, this is the

21 and that is a cover note from Nestor Sanchez.

1 Q And then in the body of the memo which follows
2 the cover note it is to Secretary Weinberger through Dr.
3 IKle from Nestor Sanchez.

4 A It was from me. That was the copy we got from
5 Sanchez in our sweep-up. He has a very clear remembrance
6 of it.

7 Q And it references the 28 August breakfast

9 A And noted Elliott Abrams was not in

15 The second matter I want to ask you about has

18 contributions to the contras during the time the Boland
19 Amendment was in effect that cut off U.S. Government

21 A No, only what I've read in the papers

24 soliciting of [REDACTED]

25 A No, I was not.

 6 presence that he had learned that [REDACTED] were going

8 A Absolutely not.

9 Q Do you recall ever telling him that [REDACTED]
 10 were going to be giving --

11 A Absolutely not.

12 Q Let me introduce the next exhibit and tell you
 13 what it is you are looking at. You are looking at a
 14 memorandum for record that John McMahon, the Deputy
 15 Director of the CIA, provided after they had had one of
 16 their regular breakfast meetings with Director Casey and
 17 himself and Secretary Weinberger and Mr. Taft, and it's

Hawk Missiles for Iran

- Missiles are available right now, suitable for foreign sale. There are 120 missiles at Red River Arsenal - intended for UAE and Korea. Seven of these are intended for tests, but the tests can be foregone.
- The missiles at Red River Arsenal cost \$500,000 apiece. This is not necessarily a firm price, and replacements could cost as much as \$450,000 apiece.
- Thus, the total bill for 120 missiles would be \$36-\$2.5 million. To this, applicable charges would have to be added (NRC cost, administration charge, packing and transport charges, plus storage).
- The missiles for Korea and UAE would have to be replaced, so DSAA will need the money to replace them.
- The modalities for sale to Iran present formidable difficulties:
 - Iran is not currently certified for sales, including indirectly as a third country, per Sec. 5 of the AECA.
 - Congress must be notified of all sales of \$14 million or more, whether it is a direct sale or indirect to a third country. The notice must be unclassified (except for some details), and the sale cannot take place until 30 days after the notice. The 30 days can be waived for direct sales, but the third country transfer has no such provision, and notice must still be given in any case.
 - Thus, even if the missiles were laundered through Israel, Congress would have to be notified.
- It is conceivable that the sale could be broken into 3 or 4 packages, in order to evade Congressional notice.
 - While there is no explicit injunction against splitting up such a sale (subject to check...), the spirit and the practice of the law is against that, and all Administrations have observed this scrupulously.
 - It is conceivable that, upon satisfactory consultation with Chairmen Lugar and Fawell and their minority counterparts, they might agree to splitting the sale into smaller packages.
- The customer countries (UAE and Korea) would have to be told that their deliveries had been rescheduled, but we would not have to tell them why. We would want to charge them more for later deliveries.

The political drawbacks are equally formidable

- If Iraq ever found out, they would be greatly irritated. Their sources of supply are more readily accessible than Iran's, however, so there would be no effect in that respect.
- Saudi Arabia and the other Gulf States would also be irritated and alarmed.
- If Israel were used as the laundering country, they would be greatly encouraged to continue selling to Iran, and to expand their sales.
- If the sale became known, all bars would be removed from sales by such countries as Spain, Portugal, Greece, UK, Italy, and FRG, countries who are only barely restrained from overt, large sales to Iran now.
- In short, the risk is that of prolonging and intensifying the Iran-Iraq war, while seriously compromising US influence over Israel and other countries to restrain sales to Iran.

PROSPECTS FOR IMMEDIATE SHIPMENT OF I-BANK and I-TOW MISSILES**I-BANK**

- There are 164 missiles available at Red River Arsenal--75 intended for OAS and 84 for Korea. The missiles have not yet been let acceptance tested, but there is a very low risk of failure. The missiles will be at Red River until about April 1966 for testing.
- There would be no impact on the OAS if we ship their 75 missiles. The program has slipped in other ways, and can be accommodated within the normal production lead time for replacement missiles.
- Korea would have to be consulted to ascertain the impact on their program, if it is necessary to ship any missiles in addition to the 75 mentioned above. Procurement lead time to replace Korea's missiles would be about 33 months.
- To the best of our knowledge, all of U.S. Army I-BANKs are with units and should not be considered for diversion.
- Unit replacement price of BANK missiles is about \$437.7K; total package price for 50 would approximate \$22.5M; for 100 about \$45M. Package prices include FMS surcharges.

I-TOW

- Army has about [REDACTED] TOWs (including 40,000 I-TOW) on hand, against a distribution requirement of about [REDACTED]. About 12,900 I-TOW missiles are available in COMUS depot stocks.
- Based on the numbers, the impact on Army of shipping 3,300 I-TOWs immediately would be serious but not intolerable. No missiles would have to be taken from troops. Based on the seriousness of the requirement, and keeping in mind that the Army would receive TOW-II replacement missiles, it is likely that the Army would reluctantly acquiesce to immediate shipment of the entire quantity.
- Unit price of the replacement TOW-II missile is about \$12,200; total package price would approximate \$42M, with FMS surcharges.
- Delivery from production of TOW-II pay back missiles to the Army would occur about the beginning of CY 1966. If necessary-- though this is not recommended--approximately 2,000 unallocated TOW-II missiles could be delivered from OAS to Army in second quarter CY 1967.

NOTE FROM: OLIVER BOSTE

Subject: PRIVATE PLEASE CBCEK

Subject: "Current Status of Operation Recovery: Following meeting in based on discussions in Geneva about Kische, Copp, Goshalifar and which were concluded this weekend, subsequent discussions with Geady Moros here in Washington which are continuing, and calls to Copp and Kische's asset (Bisrood) who is "baby sitting" the Iranians in Paris (note they are not receiving guidance from Tehran).

The attempted takeover of 18 bank accounts sent over because of stopping Soviet reconnaissance flights along the Iranian/Soviet border and on the Iranian/Iraqi border. Corba said that these flights occur regularly and as deep as 40mi inside Iranian airspace. Successive Schibaset and Ledere were unfamiliar with the operational parameters of the MIB, they agreed to ship 120 weapons that were totally inadequate to meet the requirements established by the Iranians. This delivery has created an atmosphere of extraordinary distrust on the part of the Corba. In Kische's view, because the credibility of the Corba, [redacted] situation has probably been seriously called into question.

Despite this perception (Corba said someone knew that this whole thing was a "cheating game" on the part of the Iranians), Copp & Kische have been able to proceed with a renewed dialogue which still promises hope for achieving our three objectives:

- in preparation of a study oriented fraction which could take over
- return of the hostages
- return of the five IRGCY hostages
- no more terrorist directed against U.S. personnel or interests.

From these ongoing discussions, which in two cases included Iranian military officers, Copp and Kische conclude that the military situation in Iraq is desperate. The Iranian description of the state of their equipment, lack of competent assignment, inability to see such of the remaining U.S. aerial portends the real possibility of a military collapse (at least by the Iraq) in the near to mid-term. Thus, there is considerable pinprick on the interlocutors in Europe to produce.

Given the relatively low level of competence on the part of the Iranians in Europe, and the fact that any application for [redacted] have to be made through the [redacted] it is very doubtful that a "single transaction" arrangement can be worked out with the parties in Tehran, no matter what is agreed to in Europe. In short, they have been

that when Cogg mentioned the base, fides of Gorbis and his cohorts as capable of delivery on their end of the arrangement, Gorbis carefully noted that since these discussions began w/ Michael & Schmeiser, there has not been a single Islamic Jihad bomb threat, hijacking or kidnapping -- and that there might be more in this "worked." O.K., Cogg and I agreed this to be at least one sign of confidence that this activity may yet prosper. There are some Jasser indications of confidence in recent days:

- In response to Cogg's demand for funds to be deposited in advance to defray operational costs, and what the Iranians were told were "purchases on the arms market" - a total of \$1M has been deposited!
- The 18 drums delivered last week have been repackaged and are ready for return to origin on the next available flight;
- The prices in Europe continue to stress that their requirements are being met, and they are ready to ship with a large number of crates of Israeli originated gear which could include technical assistance w/ sophisticated hardware which is critically needed but denied (ie this regard Gorbis at one point noted that at times they have as few as 50 operational tanks and less than a dozen flyable aircraft).

With all of the above as a lengthy preamble describing too nearly frantic vents w/ the Israelis & Iranians, the following proposal has evolved which the Iranians today said they wd like to discuss in detail on Saturday:

- The total "packages" from the Israelis w/ consist of 50 I tanks w/ PIR (product improvement package) and 3800 basic T08s,
- Delivery of same on or about 12 December as follows:
 H-16: 1 707 w/300 T08s - 1 BNCIF
 H-16hrs: 1 707 (w/see B/C) w/300 T08s - 1 BNCIF
 H-20hrs: 1 707 w/500 BNCs & 400 T08s - 2 BNCIFs
 H-24hrs: 1 707 w/300 T08s - 1 BNCIF
 H-24hrs: 1 707 w/2000 T08s - French Montage

all involved on our side recognize that this does not meet one of the basic criteria established at the opening of this venture: a single transaction which wd be regarded as a release of the hostages. However, given the points above regarding the actual distrust in the dialogue, we all believe it is about the only way we can get the overall process moving. Measures have been taken to reduce the check for duplicity on the part of the Iranians and to preserve a measure of OPSEC in carrying out the transaction. In the case of a double cross, one of the [REDACTED] will be in the hands of assets we control throughout. One of them [REDACTED] has already offered a solution (though apparently not fully heart attack aircraft - most's air transaction failed to produce results. The first [REDACTED] deliveries 707 freighters are relatively small and if they do not produce the desired outcome, all else stops. All 3 are now under our control.

OPSEC concerns are threefold: communications, deliveries enroute to Iran and replenishment of the Israeli stocks. To solve the first problem an Ofs Code is now in use by all parties. This code is similar to the one used to oversee deliveries to the Nicaraguan resistance and has never been compromised. The delivery/flyout/planning security problem has been solved by a such were deliberate selection of aircraft and altitudes

we could/should hope to achieve. Then, the only question fully aware of all dimensions of what we are about are you and McE.

I have given careful consideration to what you suggested re an RCR meeting with the Israelis re an effort to obtain release of the hostages before starting on an effort to end the present stalemate in Lebanon. Like you and Dad, I find the idea of having the presence of the Israelis in Lebanon somewhat, I believe very, top fat along with the Israelis to talk touting nests in London. I do not at least make one more try at this point, we have a good chance of condoning some of all to death and a release name of Islamic Jihad terrorists. While the risks of proceeding are significant, the risks of not trying one last time are even greater.

POSSIBILITY FOR LEAKS

There is no good way to keep this project from ultimately being made public. Following are three legal methods together with a brief discussion on the possibility of compromise.

- The President can make a determination, Section 614 of the Foreign Assistance Act, which would waive the statute which requires the normal Congressional notification under Section 36(b) of the Arms Export Control Act (AECA).
- President must notify the Speaker of the House and the Chairman of the Foreign Relations Committee, provide a written justification, and consult with both the Chairman of the Foreign Relations Committee and the Chairman of the Foreign Affairs Committee. This could be done in a classified, close-hold manner and is the best prospect for eliminating leaks from Congressional sources. However, the problem would come with actually executing a Letter of Offer (LOA) for the material without disclosing to the entire Security Assistance Community that the President had waived the need for Section 36(b) notification (Headquarters Army, USASAC, and MICOM, all are aware of the legal requirement not to process the LOAs without the 36(b) notification process).
- The OSD General Counsel should be asked personally to confirm that Section 614 is legal under these circumstances, since this authority never has been exercised in this way.
- The President could sign an emergency notification under Section 36(b), waiving the formal 30-day notification period. This requires a certification that an emergency exists, and the reasons therefor. While this notification would be classified, the distribution of the Section 36(b) notice is much broader than would be true for the Section 614 determination mentioned above. Additionally, the Security Assistance Community would have to be informed that the President had made the emergency determination and waived Section 36(b) before the LOA could be prepared and issued. There would be no good explanation as to why an emergency would exist for this country's purchasing the missiles.
- The last option, if time permits, would be to treat the sale as a routine unclassified action under Section 36(b). This would require the full 50-day notification period (including the 20-day informal notice) for Congressional review. Both systems are in the inventory of the country involved, and it is possible that the notification would flow through without question. This almost certainly would be true for I-HAWKS in the quantity contemplated; the I-TOW quantities might or might not cause speculation.

-2-
UNCLASSIFIED

- A further potential problem is associated with legalities of the third country transfer provisions of the Arms Export Control Act. One provision indicates that we will not authorize a third country transfer to a country we do not sell to ourselves. Another requires the third country to sign further retransfer assurances. Under the circumstances, though, these provisions probably can be overcome or deferred.

RICHARD LEE ARMITAGE
 ASSISTANT SECRETARY OF DEFENSE
 FOR INTERNATIONAL SECURITY AFFAIRS

15 May 86
 No 1
 5/26/86 - Tues
 oph. roudy

Richard L. Armitage was sworn in as the Assistant Secretary of Defense for International Security Affairs on 9 June 1983.

Mr. Armitage represents the Department of Defense in formulating and developing the politico-military relationships between the United States and other countries of the world, excluding NATO-member countries. As such, he is responsible for the military aspects of U.S. policy pertaining to these countries. Among his many duties are supervising DoD's security assistance programs, oversight of DoD activities relating to law of the sea and oversight of policies concerning U.S. special operating forces and counterterrorism.

Born in 1945 in Boston, Mr. Armitage attended high school in Atlanta and graduated in 1967 from the U.S. Naval Academy where he received a commission as an Ensign in the U.S. Navy. After graduation he was assigned to a destroyer which was stationed on the gunline off Vietnam conducting naval gunfire support operations.

After three incountry tours as part of the riverine forces in Vietnam, he left the Navy in 1973 to accept a position with the U.S. Defense Attache' Office in Saigon, primarily as a Naval and Marine Corps advisor. Immediately prior to the fall of Saigon, he effected the removal of naval assets and personnel.

In May 1975, he returned to the Pentagon as a consultant and subsequently served in Tehran on the staff of the U.S. Defense Representative, Iran. From 1976 to 1978, he pursued private business interests. In March 1978, he became Administrative Assistant to Senator Robert Dole of Kansas, a position he left in May 1979 to establish a Washington-based consulting firm specializing in Asian affairs.

Mr. Armitage worked in the Foreign Policy office of the Reagan presidential campaign and later was named as a member of the National Security Transition Team. He was a senior advisor to the Interim Foreign Policy Advisory Board charged with preparing the President-elect for major policy issues which would confront the new administration. From 1981 until assuming his present position, Mr. Armitage was Deputy Assistant Secretary of Defense, International Security Affairs for East Asia and Pacific Affairs.

Mr. Armitage is a member of the Association of Asian Studies and the World Affairs Council.

He lives in Fairfax, Virginia, with his wife Laura, four daughters, Elizabeth, Lee, Jenny and Alice and two sons, Paul and Chris.

2 A The number that was given to me was 4,000, and
3 sometime in a very -- within the next week or two, that number
4 was increased to 4,500. And whether it was 4,508 or not, I
5 don't know. I just recall it being 4,500.

6 Q But you wouldn't have increased that on your own?

7 A On my own? Oh, no.

8 MR. LIMAN: He said that it came from either the
9 Secretary or from the NSC.

10 BY MR. SABA:

11 Q And you don't know.

12 MR. LIMAN: And you understood that it might have
13 come --

14 THE WITNESS: As a matter of information, once I
15 talked to General Thurmond, and he put me in touch with
16 the logistics people in the Army, General Russo, at that
17 point I put General Russo in touch with the CIA and from then
18 on in I was in nothing but a mongering role.

19 MR. LIMAN: Is this when you learned that the 500
20 were to be used to replace earlier shipments to Israel?

21 THE WITNESS: Yes. It was at that point that
22 things clicked, and I said -- I started to find out about
23 the other 500, I just realized at that point that a
24 transfer must have taken place and this is the replenishment
25 of some kind.

1 BY MR. SABA:

2 Q Did you share your view on these 500 with anyone?

3 A I can't specifically state, but I would be willing
4 to speculate that Mr. Armitage's testimony and the Secretary's
5 would also recognize and corroborate that, too. And we all at
6 that point realized -- I might have learned it from
7 Armitage. I just don't recall.

8 Q Did you have any instruction or any understanding
9 that this -- the filling of the order should bypass their
10 [REDACTED] system?

11 A No. The [REDACTED] system was not something
12 the Secretary would have recognized as a system. And lots
13 has been made of bypassing of the [REDACTED] system, but I
14 don't think I bypassed the [REDACTED] system. I took it to
15 the top of the [REDACTED] system. General Thurmond sits in the
16 Army at the top of the [REDACTED] system. And when I
17 go to General Thurmond as a tasking, I did not in any way
18 restrict how he accomplished it other than to tell him that
19 it should be kept to the smallest number of people possible.

20 My understanding is that he then turned to
21 Colonel [REDACTED] who was his [REDACTED] officer, if I am
22 correct, and so I don't sense that we bypassed the [REDACTED]
23 [REDACTED] system.

24 It wasn't used, but it wasn't bypassed in any
25 deliberate, in any conscious kind of way.

1485 Mr. Nields.

1486 Mr. NIELDS. Thank you, Mr. Chairman.

1487 Colonel North, I asked you before we broke about a number

1488 of particular individuals and whether they were aware of the

1489 Hawk shipment in November of 1985. Are there any other

1490 officials of the United States Government who were aware of

1491 the Hawk shipment in November of 1985?

1492 Mr. NORTH. I think I have given you the list that I

1493 believe to have been aware.

1494 Mr. NIELDS. Were any officials at the Department of

1495 Defense aware that 18 Hawk missiles or some number of Hawk

1496 missiles had actually been shipped by Israel to Iran?

1497 Mr. NORTH. Again, I believe that they may have--excuse me,

1498 I believe they may well have been, because I think I made

1499 several efforts to coordinate with them the replenishment of

1500 the Hawks. I think I had a discussion, if I remember

1501 properly, with DOD officials about both Hawks and TOWs. I

1502 wouldn't be asking them about Hawks if they hadn't already

1503 been ordered up as a need for replenishing.

1504 You know, I am a little concerned I am leaving the wrong

1507 doing things, that there was no intent to avoid, to in any
1508 way violate the Arms Export Control Act, and that if there
1509 was confusion within the DOD over how I was going about it,
1510 it was because of my own ignorance in not knowing the right
1511 way to start, and I want to come back to the finding issue
1512 as to why we arrived at using the Economy Act procedures for
1513 that whole business.

1514 Much of the confusion that may exist out there may have
1515 simply been because when this kid was told to find a way to
1516 replenish things, I didn't know how to go about doing it,
1517 and, in fact, it wasn't until the latter part of January
1518 that a real methodology was proposed.

1519 Mr. NIELDS. I just want to make sure. My question simply
1520 is: Who in the Department of Defense was told that there
1521 had actually been a shipment, if anybody?

1522 Mr. NORTH. An unrefreshed, long-time-ago memory would
1523 tell me that I probably talked about that delivery with Mr.
1524 Koch, possibly with General Powell, possibly with Mr.
1525 Armitage.

2410 knowledge of my day-to-day activities like my superiors did,
2411 but certainly they knew that I was the guy that was getting
2412 things done.

2413 That's why they called me up, that's why there is a note
2414 to the effect that, hey, Ollie, you know, here these guys
2415 from Country whatever it is are talking about \$2 million,
2416 why don't you go over and put the smile on them, maybe
2417 they'll kick in.

2418 Mr. NIELDS. How about the chief of the Central American
2419 task force?

2420 Mr. NORTH. Oh, I'm sure that he had a detailed grasp
2421 of--well, I say a detailed grasp--I'm sure that he had an
2422 adequate sense of what I was doing.

2423 Mr. NIELDS. And what is your basis for that belief?

2424 Mr. NORTH. We used to have meetings with the Restricted
2425 Interagency Group, we used to have secure conference calls,
2426 and on one occasion I can recall laying out for the group--in
2427 fact, I think it was after the \$100 million had been voted
2428 by both Houses, hadn't been sent forward to the President--I
2429 can recall a meeting in an office in the Pentagon where I
2430 went down item by item by item the things that I was doing
2431 and asked them point blank whether or not I had to continue
2432 to do them to keep the resistance alive, because even though
2433 the money had been authorized and both bills had been
2434 passed, we couldn't get it forwarded to the President.

2435 And we went down item by item by item on my checklist of
2436 what I was having directed out each month or each quarter or
2437 each week to support the resistance, and I asked them point
2438 blank whether this should continue.

2439 Mr. NIELDS. Who was there?

2440 Mr. NORTH. Well, I would have to look at my
2441 contemporaneous note at the time, but I think there is a
2442 note in one of the notebooks I gave you to that effect.

2443 Mr. Fiers was there, Mr. Abrams was there, Mr. Armitage
2444 was there, I think Mr. Michael was there, I think General
2445 Moellering was there.

2446 Mr. NIELDS. Would you go through them for us, please,
2447 item by item, what it was you told this assembled group you
2448 were doing?

2449 Mr. NORTH. What I'm saying is I didn't say, look, on a
2450 given day I'm going to walk out and go talk to so and so
2451 about so much money. What they knew is that I was the
2452 person who was causing these things to happen. There was no
2453 doubt in their mind.

2454 That is why, when an airplane goes down in Honduras, they
2455 call me to get the bodies home and to pay the costs. That's
2456 why, when somebody needs something done, in the case of this
2457 contact right here you pointed out as part of Exhibit No.
2458 79, they called me.

2459 These people knew what I was doing. They knew that it was

2465 Mr. NIELDS. My question is, you indicated that during
2466 this meeting at the Department of Defense, at the Pentagon,
2467 you went down item by item. Would you go down for us item
2468 by item what it is you told them?

2469 Mr. NORTH. I don't have the list before me. I gave
2470 copies of that to you. It is in the stuff that I gave to
2471 you, seven binders full.

2472 Mr. NIELDS. Did you discuss the re-supply operation?

2473 Mr. NORTH. I think so.

2474 Mr. NIELDS. Did you discuss efforts to obtain armaments?

75 Mr. NORTH. Probably. I am talking about aid to the
2476 internal opposition, food, medical supplies, et cetera. I
2477 think it was all on that list, tick, tick, tick, tick, tick.

2478 Mr. NIELDS. Including munitions?

2479 Mr. NORTH. I am not absolutely sure it says munitions, it
2480 might have just said logistics, air support, it might have
2481 just said certain things about the internal activities. You
2482 have got it, along with the list of names of people that
2483 were there at the meeting.

2484 Mr. NIELDS. Is there anything else you can recall ticking
2485 off during this meeting?

2486 Mr. NORTH. No, but you have the note, and I am sure you

7. Question of the support to the Contras came up. The Director noted that we should have another meeting on it but following last week's meeting of the LSG we tended to be leaning towards non-lethal aid. I described the assignment given to Motley to develop different options which could be packaged and then played against Senators Lugar and Durenberger to see what combination of options in a single package might be acceptable to Congress. But I noted at the meeting that there was no agreement that we would be limited to non-lethal aid. The Director said that McFarlane was to meet with Lugar and Durenberger today. In closing the Secretary stated that he had heard that [REDACTED] had earmarked \$25 million for the Contras in \$5 million increments.

INTERNATIONAL SECURITY AFFAIRS

MEMORANDUM TO THE UNDER SECRETARY OF DEFENSE FOR POLICY

SUBJECT: US Policy Toward Iran (S)

(TS) I agree with nearly all your changes and have revised the memorandum from Secretary Weinberger to Bud McFarlane accordingly. However, I recommend against several of your changes and would like you to consider the following:

-- First, I agree with you that what we're really looking at is a "post-Khomeini" Iran and there is very little chance we can establish good relations with Iran as long as Khomeini is in control. At the same time, I don't think we want to give the impression in this paper that we should wait until Khomeini passes from the scene before doing anything. It's possible that Khomeini may live for several more years but be in such a senile state that he is no longer in control (similar to the latter years of Mao Zedong). Under such circumstances, we may be able to influence moderate elements of the regime and begin to achieve some of our long-range objectives before Khomeini dies.

-- Second, I left in the recommendation to keep pressure on our allies to cease transferring military equipment to Iran. Although we have had some successes to date, maintaining (if not strengthening) our initiative is one of the few actions we can take to try to bring an end to the Iran-Iraq war. And if the war were to end, many of the pressures causing Iran to seek Soviet assistance would cease. Therefore, I believe we should not omit this initiative.

(TS) Attached are two versions of the memorandum. At Tab A, the memorandum does not specify "post-Khomeini" when it refers to recommended actions and it contains the recommendation to lean on our allies to stop selling arms to Iran. The memorandum at Tab B is exactly the way you marked up the draft. Recommend you forward Tab A.

**MEMORANDUM FOR THE ASSISTANT TO THE PRESIDENT FOR NATIONAL
SECURITY AFFAIRS**

SUBJECT: US Policy Toward Iran (S)

(TS) This memorandum responds to your request for comments on the draft NSDD on US-Iranian relations. While I agree with many of the major points in the paper, several of the proposed actions seem questionable. Moreover, it is extremely difficult to consider an explicit revision of our policy toward Iran as long as we continue to receive evidence of Iranian complicity in terrorist actions and planning against us. I do not believe, therefore, an NSDD should be issued in the proposed form.

(TS) I fully support the policy objective that "our primary short-term challenge must be to block Moscow's efforts to increase Soviet influence." If we are successful, of course, this will put us in a better position to realize a longer-term goal of having at least neutral/non-hostile relations with Iran. Under no circumstances, however, should we now ease our restriction on arms sales to Iran. Attempting to cut off arms while remaining neutral on sales to either belligerent is one of the few ways we have to protect our longer-range interests in both Iran and Iraq. A policy reversal would be seen as inexplicably inconsistent by those nations whom we have urged to refrain from such sales, and would likely lead to increased arms sales by them and a possible alteration of the strategic balance in favor of Iran while Khomeini is still the controlling influence. It would adversely affect our newly emerging relationship with Iraq.

(TS) There are other actions, however, some of which are implied in the draft NSDD, that we could take now under our current policy, to try to prevent an increase in Soviet influence and to lead toward a more moderate post-Khomeini Iran:

- Given better information from intelligence sources, seek ways to establish contacts with "moderates" [redacted] who play important roles in the administration of Islamic rule but who also favor policies more favorable to US and Western interests. The intelligence community should develop a strategy and tactics for providing political and financial support to these "moderates."

Political

- Through contacts with allies and friends, we should discreetly communicate our desire for correct relations to potentially receptive Iranian leaders based on their renunciation of state-supported terrorism, their willingness to seek a negotiated settlement to the Iran-Iraq war, their non-interference in other states' affairs, and their cooperation in settling US-Iranian claims in the Hague Tribunal.
- Maintain our neutrality in the Iran-Iraq war while encouraging third party initiatives to end the conflict and increasing political-military cooperation with Gulf Cooperation Council countries.
- In light of recent evidence that our allies continue to permit sporadic transfers of militarily useful equipment to Iran and that negotiations may be taking place between commercial firms and Iranian officials, we should increase the pressure on our allies by considering public statements and possible sanctions.

Public Diplomacy

- Our public statements on Iran should bring pressure to bear squarely where it is needed--on the current Iranian regime. In tone, our public position must avoid casting Iran as a country and the Iranian people and culture, as well as Shia Islam, as the enemy, but should emphasize opposition to the policies of the present Iranian government and the corrupt mullahs inside the government. Our statements should aim to encourage those elements in Iran who disagree or oppose regime policies.

Economic

- A full range of US export controls are already in effect.

-- In conjunction with discreet political contacts proposed above, we could suggest to the Iranians that correct relations would include relaxation of current US trade restrictions and normal trade relations with an Iranian government that is not hostile to US interests.

(TS) I concur with the balance of the recommendations in the draft NSDD in so far as they support current US policy. My recommendations reflect my very strong view that US policy must remain steadfast in the face of international lawlessness perpetrated by the Iranian regime. Changes in policy and in conduct, therefore, must be initiated by the Iranian government. By remaining firmly opposed to current Iranian government policies and actions, yet supportive of moderation and a longer term improvement in relations, we can avoid the future enmity of the Iranian people and develop the leverage necessary to counter a possibly very dangerous increase in Soviet influence. In particular, we need to be prepared for a possible period of turmoil as the regime begins to change, by building up effective instruments of influence and access to people and organizations within Iran, so as to counter a Soviet attempt to promote a pro-Soviet successor regime.

who play important roles in the administration of Islamic rule but who also favor policies more favorable to US and Western interests, and develop tactics for providing political and/or financial support to those elements opposed to Khomeini and the radicals.

Political

- Through contacts with allies and friends, we should discreetly communicate our desire for correct relations to potentially receptive Iranian leaders based on their renunciation of state-supported terrorism, their willingness to seek a negotiated settlement to the Iran-Iraq war, their non-interference in other states' affairs, and their cooperation in settling US-Iranian claims in the Hague Tribunal.
- Maintain our neutrality in the Iran-Iraq war while encouraging third party initiatives to end the conflict and increasing political-military cooperation with Gulf Cooperation Council countries.

Public Diplomacy

- Our public statements on Iran should bring pressure to bear squarely where it is needed--on the current Iranian regime. In tone, our public position must avoid casting Iran as a country and the Iranian people and culture, as well as Shia Islam, as the enemy, but should emphasize opposition to the policies of the present Iranian government and the corrupt mullahs inside the government. Our statements should aim to encourage those elements in Iran who disagree or oppose regime policies.

Economic

- A full range of US export controls are already in effect. [REDACTED] We should reassess the effectiveness of present controls in curbing all but strictly civilian exports.
- In conjunction with discreet political contacts proposed above, we could suggest to the Iranians that correct relations would include relaxation of current US trade restrictions and normal trade relations with a post-Khomeini Iran that is not hostile to US interests.

(TS) - I concur with the balance of the recommendations in the draft NSDD in so far as they support current US policy. My recommendations reflect my very strong view that US policy must remain steadfast in the face of international lawlessness perpetrated by the Iranian regime. Changes in policy and in conduct, therefore, must be initiated by a new Iranian government. By remaining firmly opposed to current Iranian government policies and actions, yet supportive of moderation and a longer term improvement in relations once the regime has changed, we can avoid the future enmity of the Iranian people and develop the leverage necessary to counter a possibly very dangerous increase in Soviet influence. In particular, we need to be prepared for a possible period of turmoil as the regime begins to change, by building up effective instruments of influence and access to people and organizations within Iran, so as to counter a Soviet attempt to promote a pro-Soviet successor regime.

U.S./IRANIAN CONTACTS AND THE AMERICAN HOSTAGES

From the earliest months following the Islamic revolution in Iran, the U.S. Government has attempted to reestablish official contact with that government in order to discuss strategic developments in this critical part of the world and reconstruct a working relationship. Even before President Reagan came to office the U.S. Government agreed to try to expand security, economic, political, and intelligence relationships at a pace acceptable to Tehran. In the fall of 1979, the U.S. undertook three secret missions to Tehran:

- September 1979 - [redacted] (met secretly with Bazargan at the request of the Iranians)
- October 1979 - [redacted]
- October-November 1979 - [redacted] (discussed normalization of relations)

When these meetings and the secret November 1, 1979 meeting in Algiers, between Brzezinski and Prime Minister Bazargan, became public in Iran, they helped precipitate the takeover of the U.S. Embassy by radical elements and led to the resignation of the Bazargan government. These events have adversely influenced Iran's subsequent willingness to engage in any direct contact with the USG.

Despite mutual difficulties involved in re-establishing normal relations, our strategic interests in the Persian Gulf mandate persistent efforts to establish a dialogue. In this regard, it is notable that only a few major countries do not have relations with Iran -- Egypt, Jordan, Morocco, Israel, South Africa, and the United States. Even Iraq continues to have diplomatic relations with Iran.

Iran is the key to a region of vital importance to the West, yet it is increasingly threatened by growing Soviet military power and political influence along its borders and inside its territory. Over the course of the last two years, the Soviets and their surrogates have moved actively to gain greater influence in the Gulf:

- The Soviets believe that once Khomeini dies, they will have an excellent opportunity to influence the formation of a government in Tehran that serves Soviet strategic interests in the area.

- Communist nations have become the principal arms suppliers to Iran -- making Iran dependent on this source of supply in contending with an increasingly strengthened Iraq. This leads us to the conclusion that the Soviets may well be attempting to pursue their own revolution in Iran. That is, by fueling both sides in the conflict, the Soviets could well encourage a disastrous "final offensive" by Iran that would precipitate a political disintegration in Iran, leaving a power vacuum which the Soviets could exploit. Specifically, the indicators of Communist influence in Iran are:

The increasing desperation brought on by the costs of the Iran-Iraq war has exacerbated Iran's vulnerability to Soviet influence. Moreover, Soviet designs in Afghanistan, pressure on Pakistan, and actual crossborder strikes in Iran from Afghanistan have made reopening a strategic dialogue increasingly important.

In short, the Soviets were far better positioned to improve significantly their influence in the region in 1985 when we were presented with an opportunity to open a dialogue with Iran. In deciding to exploit this opening, we evaluated previous efforts through more conventional channels which had not succeeded.

About two years ago, senior Iranian officials apparently decided that some accommodation with the U.S. was necessary. Since 1983, various countries have been engaged in overtures to the U.S. and Iran in an effort to stimulate direct contact between the two countries.

However, internal splits and debates made it difficult for the Iranians to respond to these overtures.

Numerous individuals and private parties have likewise attempted to be helpful as intermediaries in establishing contact in Iran or in seeking Iranian assistance in the release of our citizens held hostage in Lebanon.

In the spring of 1985, a private American citizen (Michael Ledeen) learned from an Israeli government official (David Kimche) that the Israelis had established a liaison relationship with an Iranian expatriate (Manuchehr Ghorbanifar) in Europe who sought Israeli help in establishing contact with the U.S. Government. In acknowledging the need to demonstrate the bonafides of the Iranian officials involved, he (Ghorbanifar) indicated that his "sponsors" in Tehran could also help to resolve the American hostage situation in Beirut.

In June of 1985, in the midst of the TWA-847 hijacking, the Israeli officials in direct contact with the Iranian expatriate asked him to use his influence with senior Iranian officials to obtain the release of the hijacked passengers. Two days after this approach, four Americans held separately from the rest of the hijacked passengers were freed and turned over to Syrian authorities.

Majlis Speaker Rafsanjani, who was travelling in the mid-east at the time, and Iranian Foreign Minister Velayati both intervened with the captors. Rafsanjani, in his speech on November 4, 1986, for the first time publicly acknowledged his role in this matter.

On July 3, 1985, during a visit to Washington, an Israeli official (Kimche) advised National Security Advisor, Robert McFarlane, that Israel had established a channel of communication with authoritative elements in Iran who were interested in determining whether the United States was open to a discreet, high-level dialogue. The Iranians were described as comprising the principal figures of the government (i.e., Speaker of the Majlis Rafsanjani, Prime Minister Musavi, and Khomeini's heir-apparent, Ayatollah Montazeri) and as being devoted to a reorientation of Iranian policy.

At this first meeting, McFarlane went to great length to draw out the Israeli as to why he found the Iranian proposal credible, given the events of the past six years. The Israeli replied that their exhaustive analysis had gone beyond the surface logic deriving from the chaos and decline within Iran and the degenerative effects of the war, to more concrete tests of the willingness of the Iranians to take personal risks. He noted that the Iranians had exposed themselves to possible compromise by meeting with Israelis and by passing extremely sensitive intelligence on the situation (and political line-up) within Iran -- information which was proven valid.

The Israeli asked for our position on opening such a dialogue. No mention was made of any pre-conditions or Iranian priorities. McFarlane conveyed this proposal to the President (in the presence of the Chief of Staff). The President said that he believed such a dialogue would be worthwhile at least to the point of determining the validity of the interlocutors. This decision was passed to the Israeli diplomat by telephone on July 30.

On August 2, 1985, the Israeli called again on McFarlane. At this meeting, he stated that he had conveyed our position to the Iranian intermediary and that the Iranians had responded that they recognized the need for both sides to have tangible evidence of the bona fides of the other and that they believed they could affect the release of the Americans held hostage in Lebanon.

According to the Israeli, the Iranians separately stated that they were vulnerable as a group and before having any prospect of being able to affect change within Iran they would need to be substantially strengthened. To do so, they would need to secure the cooperation of military and/or Revolutionary Guard leaders. Toward this end, they expressed the view that the most credible demonstration of their influence and abilities would be to secure limited amounts of U.S. equipment. The Israeli asked for our position on such actions.

Mr. McFarlane elevated this proposition to the President at a meeting within days that included the Secretaries of State and Defense and the Director of Central Intelligence. The President stated that, while he could understand that assuming the legitimacy of the interlocutors, they would be quite vulnerable and ultimately might deserve our support to include tangible material; at the time, without any first hand experience in dealing with them, he could not authorize any transfers of military material. This was conveyed to the Israeli.

On August 22, 1985, the Israeli diplomat called once more to report that the message had been conveyed and that an impasse of confidence existed. He asked what the position of the U.S. Government would be to an Israeli transfer of modest quantities of defensive military material. McFarlane replied that to him, such an action would represent a distinction without a difference. The Israeli diplomat explained at great length that Israel had its own policy interests that would be served by fostering such a dialogue in behalf of the U.S., but that a problem would arise when ultimately they needed to replace items shipped. He asked whether Israel would be able to purchase replacements for items they chose to ship. McFarlane stated that the issue was not the ability of Israel to purchase military equipment from the U.S. -- they had done so for a generation and would do so in the future -- but rather the issue was whether it was U.S. policy to ship or allow others to ship military equipment to Iran. The Israeli asked for a position from our government. McFarlane elevated the question to the President (and to the Secretaries of State and Defense and the Director of Central Intelligence). The President stated that, while he could envision providing material support to moderate elements in Iran if all the Western hostages were freed, he could not approve any transfer of military material at that time. This position was conveyed to the Israeli diplomat.

On September 14, 1985, Reverend Benjamin Weir was released in Beirut by the Islamic Jihad Organization. This release was preceded by an intense effort on the part of Mr. Terry Waite, the Special Emissary of the Archbishop of Canterbury. To this date, Mr. Waite remains the only Westerner to ever meet directly with the Lebanese kidnapers.

In late September, we learned that the Israelis had transferred 508 TOW missiles to Iran and that this shipment had taken place in late August. The Israelis told us that they undertook the action, despite our objections, because they believed it to be in their strategic interests. The Israelis managed this entire operation, to include delivery arrangements, funding, and transportation. After discussing this matter with the President, it was decided not to expose this Israeli delivery because we

wanted to retain the option of exploiting the existing Israeli channel with Tehran in our own effort to establish a strategic dialogue with the Iranian government. The total value of the 508 TOWs shipped by Israel was estimated to be less than \$2 million.

On October 4, 1985, Islamic Jihad announced that it had "executed" Beirut Station Chief William Buckley in retaliation for the October 1 Israeli air raid on PLO installations in Tunis. This announcement led to a series of meetings in Europe among the U.S. (CIA and NSC), Israeli, and Iranian intermediaries. In these meetings, the Iranians indicated that, while their ability to influence the Hizballah was waning, the Hizballah had not killed Buckley; he had in fact died several months earlier of natural causes. We have since substantiated this information [REDACTED]

Buckley probably died on June 3, 1985 of pneumonia-like symptoms.

In mid-November, the Israelis, through a senior officer in the Foreign Minister's office (Kimche), indicated that the Government of Israel was convinced that they were nearing a breakthrough with Iran on a high-level dialogue. The Israeli contacted a U.S. official (North) and asked for the name of a European-based airline which could discreetly transit to Iran for the purpose of delivering passengers and cargo. He specifically noted that neither a U.S. carrier nor an Israeli affiliated carrier could be used. We were assured, at the time, that the Israelis were going to "try oil drilling parts as an incentive," since we had expressed so much displeasure over the earlier TOW shipment. The name of the proprietary [REDACTED] was passed to the Israeli, who subsequently had the aircraft chartered through normal commercial contract for a flight from Tel Aviv to Tabriz, Iran, on November 25, 1985. The Israelis were unwitting of the CIA's involvement in the airline and the airline was paid at the normal commercial charter rate (approximately \$127,700). The airline personnel were also unwitting of the cargo they carried.

In January, we learned that the Israelis, responding to urgent entreaties from the Iranians, had used the proprietary aircraft to transport 18 HAWK missiles to Iran in an effort to improve the static air defenses around Tehran. Our belated awareness that the Israeli's had delivered HAWK missiles raised serious U.S. concerns that these deliveries were jeopardizing our objective of arranging a direct meeting with high-level Iranian officials. As a consequence of U.S. initiative and by mutual agreement of all three parties, these missiles were returned to Israel in February 1986.

On December 7, the President convened a meeting in the White House (residence) to discuss next steps in our efforts to establish direct contact with the Iranians. Attending the

meeting were the Chief of Staff, Secretaries of State and Defense, the Deputy Director of Central Intelligence, and the Assistant to the President for National Security Affairs and his Deputy. Immediately after the meeting, Mr. McFarlane departed for London to meet with the Israeli official and the Iranian contact to make clear the nature of our interest in a dialogue with Iran. At this meeting, Mr. McFarlane, as instructed by the President, stated that:

- the U.S. was open to a political dialogue with Iran, but that no such dialogue could make progress for as long as groups seen as dominated by Iran held U.S. hostages; and
- the U.S. could under no circumstances transfer arms to Iran in exchange for hostages.

These points were made directly to the Iranian interlocutor. The Iranian replied that, unless his associates in Tehran were strengthened, they could not risk going ahead with the dialogue. Mr. McFarlane acknowledged the position but stated we could not change our position. In a separate meeting with the Israeli official, Mr. McFarlane made clear our strong objections to Israeli weapons shipments to Iran. Following these meetings, Mr. McFarlane returned to Washington and shortly thereafter left active government service.

On January 2, the Prime Minister of Israel dispatched a special emissary to the U.S. (Amiram Nir) to review proposals for next steps in dealing with Iran. The Israelis urged that we reconsider the issue of providing limited defensive arms to those attempting to take power in Tehran, since all other incentives (economic assistance, medical supplies, machine parts) were of no value in shoring-up those who wanted an opening to the West. Admiral Poindexter noted our stringent objections to the HAWK missile shipments in November and noted that the U.S. would have to act to have them returned (a step undertaken in February, when all 18 missiles were returned to Israel). In that any implementation of the Israeli proposals would require the active participation of the intelligence community, the NSC Staff (North) was tasked to prepare a covert action finding. Work on this Presidential finding commenced on January 4.

On January 6, the President, the Vice President, the Chief of Staff, and the National Security Advisor and his assistant reviewed the first draft of the Finding and the recommendations made by the Prime Minister of Israel through his special emissary.

On January 7, the President met in the Oval Office with the Vice President, the Chief of Staff, Secretaries Shultz and Weinberger, Attorney General Meese, Director Casey, and the National Security

Advisor to discuss the overall situation in Iran and prospects for a strategic dialogue. It was again noted that Mr. McFarlane, on return from his trip to London, had recommended that no further action be taken unless a mechanism could be established by which the U.S. could exert better control over events. He agreed, in principle, with Director Casey that providing limited quantities of defensive arms after the hostages were released still had merit. Both Secretary Shultz and Secretary Weinberger objected to any provision of arms, citing that we could not be sure that these would really help moderate elements and that, if exposed, the project would not be understood by moderate Arabs and would be seen as contravening our policy of not dealing with states that support terrorism. The President decided that we should attempt to keep the Israeli channel active as long as it offered possibilities for meetings with high-level Iranian officials and left open the issue of providing defensive arms to Iran if all the hostages were released.

It was further determined by the President that any dialogue with the Iranians must be aimed at achieving the following goals:

- Devising a formula for re-establishing a strategic relationship with Tehran.
- Ending the Iran-Iraq War on honorable terms.
- Convincing Iran to cease its support for terrorism and radical subversion.
- Helping ensure the territorial integrity of Iran and coordinating ways in which we might counter Soviet activities in the region.

The President made clear that a Western dialogue with Iran would be precluded unless Iran were willing to use its influence to achieve the release of Western hostages in Beirut. He also made clear that we could not and would not engage in trading arms for hostages. Secretaries Shultz and Weinberger retained their original position on providing any arms to Iran, but Attorney General Meese and Director Casey both supported the concept as a valid means of opening the dialogue. Attorney General Meese noted a 1981 determination by then Attorney General French Smith that transferring small quantities of arms through third countries under a Covert Action Finding was not illegal.

On January 16, a meeting was held in the National Security Advisor's office with Secretary Weinberger, Attorney General Meese, Director Casey, and CIA General Counsel Stanley Sporkin. At this meeting, the final draft of the Covert Action Finding was reviewed and was forwarded to the President with Secretary Weinberger dissenting.

On January 17, 1986, the President approved a Covert Action Finding (Tab A) directing that the intelligence community proceed with special activities aimed at accomplishing the goals set forth above. The President further determined that the activities authorized by the Finding justified withholding prior Congressional notification due to the extreme sensitivity of the dialogue being established. He further noted that public knowledge of the program would place the American hostages in Lebanon at greater risk. Noting his concern for the lives of those carrying out the operation (both U.S. and foreign), he directed that the Director of Central Intelligence refrain from reporting the Finding to the appropriate committees of the Congress until reasonably sure that those involved would no longer be in jeopardy.

On February 5-7, U.S. officials (NSC and CIA [redacted]) a representative of the Israeli Prime Ministry (Amirah NIF), and a senior-level Iranian official [redacted]

[redacted] met in London. At this meeting, the Iranians agreed that, if the USG would provide defensive weapons (TOWs) to Iran, they would, in turn, provide same to the Afghan Mujahideen. The U.S. side agreed to explore this possibility and, working with the Israelis, established the following mechanism for transfer of the weapons:

- The Iranian intermediary (Ghorbanifar) would deposit funds in an Israeli account.
- The Israelis would transfer funds to a sterile U.S.-controlled account in an overseas bank.
- Using these funds, the CIA would covertly obtain materiel authorized for transfer from U.S. military stocks and transport this to Israel for onward movement to Iran.

Using the procedures stipulated above, \$3.7 million was deposited in the CIA account in Geneva on February 11, 1986 and on February 14, 1,000 TOWs were transported to Israel for pre-positioning. These TOWs were transferred by CIA from DOD (U.S. Army stocks in Anniston, Alabama) and transported through [redacted] using standard CIA-DOD [redacted] logistics arrangements. Policy-level coordination for these arrangements was effected by NSC (North) with DOD (Armitage) and CIA (Clair George). The TOWs were placed in a covert Israeli facility awaiting onward shipment.

On February 19-21, U.S. (NSC and CIA), Israeli and Iranian officials met in Germany to discuss problems in arranging a meeting among higher-level officials. At this meeting, the Iranians committed

After coded authorization was received from Washington, the U.S. side agreed to provide 1,000 TOWs to Iran as a clear signal of U.S. sincerity. This delivery was commenced on the morning of February 20 and completed in two transits to Tehran on February 21. Transportation from Israel to Iran was aboard a false flag Israeli aircraft. On return flight from Iran, these aircraft carried the 18 HAWK missiles which Israel had sent to Tehran in November 1985 with USG aforeknowledge.

On February 24, U.S. (CIA and NSC) officials met again in Frankfurt with the Israeli and Iranian officials to discuss next steps. At this meeting, the U.S. side urged that the Iranian expedite a meeting among higher-level officials on both sides

On February 28, the Prime Minister of Israel wrote to President Reagan (Tab B) urging continued efforts to achieve a strategic breakthrough with Iran, but asking consideration for the safe of recently seized Israeli hostages.

On March 7, U.S. (CIA and NSC) and Israeli representatives met with the Iranian intermediary in Paris to determine whether a further progress was possible in arranging for a high-level meeting with U.S. and Iranian officials. During these meetings, the intermediary emphasized the deteriorating economic situation in Iran and Iranian anxieties regarding increasing Iraqi military effectiveness.

The escalation of tensions with Libya, leading up to the April 14 strike, prevented further dialogue from taking place until the Iranians urged the intermediary (Ghorbanifar) to accelerate the effort in late April, 1986. At that point, the Iranian expatriate advised us through the Israeli point-of-contact that the leadership in Tehran was prepared to commence a secret dialogue

with the United States along the lines of our established goals.

[REDACTED]

On May 6, 7, 1986, U.S. and Israeli officers met in London with the Iranian intermediary in which he urged that we take immediate steps to arrange for a high-level U.S./Iranian meeting in Tehran. During the London meeting, the Iranian urged that we (U.S. and Israel) act urgently to help with Iranian air defense. He emphasized that the Iraqi Air Force was increasingly effective and late and that the Iranians were desperate to stop attacks on population centers. The Israelis also used this opportunity to privately ask the U.S. to replace the 508 TOWs which they had sent to Iran in August, 1985.

Based on assurances that we could at last meet face-to-face with top-level Iranian officials, on May 15, the President authorized a secret mission to Tehran by former National Security Advisor McFarlane, accompanied by a CIA annuitant, CIA communicators, members of the NSC staff, and the Israeli and Iranian interlocutors. The Israelis were informed via coded message on May 15 that the U.S. had agreed to the Iranian request for limited anti-air defense equipment and to replenish the 508 TOWs sent by Israel.

On May 16, the Iranians, through the Israelis provided \$6.5M for deposit in the CIA secure funding mechanism. The funds were used to acquire 508 TOW missiles (for replenishing the TOWs Israel shipped in September 1985) and acquiring HAWK missile electronic spare parts. This material was subsequently moved to [REDACTED] repackaged and shipped to Kelly AFB for onward movement to Israel on May 22. As in the February shipment, the CIA provided logistics support for the movement of this material to Israel.

In order to ensure operational security, the McFarlane trip was made from Israel, coincident with the delivery of a pallet of spare parts for Iranian defensive weapons systems (HAWK spare

electronic parts). At the specific request of the Iranians, alias foreign documentation [redacted] -- obtained from the CIA -- was used. CIA also provided covert transportation support from CONUS to Israel for the McFarlane party. The group was transported from Israel to Tehran aboard an Israeli Air Force 707 with false flag markings.

In the course of the four-day (May 25-28) visit, lengthy meetings were held with high-level Iranian officials, the first direct contact between the two governments in over six years. Mr. McFarlane and his team were able to establish the basis for a continuing relationship and clearly articulate our objectives, concerns, and intentions. The group was also able to assess first hand the internal political dynamic in Tehran and the effect of the war which Iran clearly can no longer win. Using Presidentially approved Terms of Reference (Tab B), which had been reviewed and approved by appropriate Cabinet officers, McFarlane emphasized that our interest in Iran transcended the hostages, but the continued detention of hostages by a Lebanese group philosophically aligned with Iran prevented progress. During the visit, Mr. McFarlane made clear:

- that we fundamentally opposed Iranian efforts to expel us from the Middle East;
- that we firmly opposed their use of terrorism;
- that we accepted their revolution and did not seek to reverse it;
- that we had numerous other disagreements involving regional policies (i.e., Lebanon, Nicaragua, etc.), but might also find areas of common interest (i.e., Afghanistan and the Soviet threat to the Gulf) through dialogue.

During these meetings, both sides used the opportunity to detail the obstacles to implementing a strategic relationship between the two countries. In addition to the points noted above, Mr. McFarlane emphasized the political problems caused by Iranian involvement in the hostage issue. The Iranians objected to the USG embargo on U.S. military supplies already paid for plus the continued USG blocking of Iranian assets in the U.S., even after U.S. courts had ruled in their favor. During the course of these meetings, the Iranian officials admitted that they could not win the war, but were in a dilemma in Tehran over how to end the conflict given the need to present an Iranian "victory" before it could be concluded. They emphasized that the original aggressor, Saddam Hussein, must be removed from power in order for the war

to end. Mr. McFarlane concluded the visit by summarizing that notwithstanding Iranian interest in carrying on with the dialogue, we could not proceed with further discussions in light of their unwillingness to exert the full weight of their influence to cause the release of the Western hostages in Lebanon.

On June 10, Majlis Speaker Rafsanjani, in a speech in Tehran made guarded reference to Iranian interest in improved relations with the U.S. On July 26, Father Lawrence Jenco was released in the Bekka Valley and found his way to a Syrian military checkpoint.

On August 3, the remaining three pallets (less than 4 panneload) of electronic parts for Iranian anti-aircraft defenses (HAWK missile sub-components) arrived in Tehran. As in all flights to/from Iran this delivery was made with an Israeli Air Force aircraft (707) using false flag markings. Timing of the delivery was based on coordination among U.S., Israeli and Iranian officials.

In early August 1986, the contact with the Iranian expatriate began to focus exclusively on the willingness of the USG to provide military assistance to Iran in exchange for hostages and we sought to establish different channels of communication which would lead us more directly to pragmatic and moderate elements in the Iranian hierarchy. In mid-August, a private American citizen (MGEN Richard Secord, USAF [Ret.]) acting within the purview of the January Covert Action Finding, made contact in Europe with [redacted] of a senior Iranian official (Rafsanjani). With the assistance of the CIA, this Iranian [redacted] was brought covertly to Washington for detailed discussions. We judged this effort to be useful in establishing contact with a close confidant of the man judged to be the most influential and pragmatic political figure in Iran (Rafsanjani). These discussions reaffirmed the basic objectives of the U.S. in seeking a political dialogue with Tehran. We also provided assessments designed to discourage an Iranian offensive and contribute to an Iranian decision to negotiate an end to the war. The assessments also detailed the Soviet threat to Iran.

Through August, September, and October 1986, numerous additional meetings were held in Europe between U.S. representatives and the new Iranian contacts. During the October 26, 1986 meeting in Frankfurt, Germany, the U.S. side, as in the past, insisted that the release of the hostages was a pre-requisite to any progress. The Iranian, [redacted] urged that we take a more active role in support for the Afghan resistance.

The Iranians also proffered, and the U.S. accepted, the offer of a Soviet T-72 tank [redacted]. The Iranians have also offered to provide a copy of the 400 page interrogation of Beirut Station Chief William Buckley. At this meeting, Ali stated that there was a "very good chance that another American or two would be freed soon." On October 29, with U.S. acquiescence, Israel provided Iran with an additional increment of defensive weapons (500 TOW missiles).

Late on October 31, [redacted] called the U.S. citizen (Hakim) tasked to maintain contact and advised that Iran had "exercised its influence with the Lebanese" in order to obtain the release of an American -- David Jacobsen -- and an uncertain number of French hostages. He further noted that this would be part of the purpose of the Iranian Foreign Minister's visit to Syria -- an event we became aware of on November 1, 1986. [redacted] stated that the situation in Tehran, as well as Iranian influence over Hizballah were both deteriorating.

[redacted] On November 2, David Jacobsen was released by his captors near the old American Embassy compound in West Beirut. The U.S. Embassy in East Beirut immediately dispatched an embassy officer to West Beirut to pick up Mr. Jacobsen.

It is now apparent that persistent U.S. efforts to establish contact with Iran and subsequent public speculation regarding these contacts have probably exacerbated the power struggle in Iran between pragmatic elements (led by Rafsanjani) and more radical factions (under the overall sponsorship of Ayatollah Montazeri). In late October, radical supporters (of Montazeri) revealed the (Rafsanjani) contact with the USG and the terms of the contact. In order to defend himself against charges of colluding with the USG and to preserve a degree of latitude for both parties, Majlis Speaker Rafsanjani provided a purposely distorted version of the May 1986 McFarlane mission in his November 4 address to the masses. Moderate Iranian political leaders apparently now feel constrained to settle their internal political problems before proceeding with the U.S. relationship. The revelations in Tehran regarding the McFarlane mission are demonstrable evidence of the internal power struggle. The October 1986 arrest of radical leader Mehdi Hashemi, a close confidant and son in-law of Ayatollah Montazeri, for acts of terrorism and treason has caused further internal conflict.

Resolution of the Lebanon hostage situation is also complicated by waning Iranian influence in Lebanon due in part to financial constraints and the fact that the Libyans are expanding their

On November 7, the day after a meeting with U.S. officials, Iranian government authorities arrested six other individuals involved in radical activities. Among the two were senior military officers and a Majlis deputy (Ahmad Kashani), the grandson of Ayatollah Kashani, a conspirator in the 1949 attempt against the Shah.

Despite these internal difficulties and attendant publicity in the Western media, the Iranians continue to maintain direct contact with the USG and met again in Geneva on November 9-10 with NSC and CIA representatives.

It is important to note that since the initiation of the USG contact with Iran there has been no evidence of Iranian government complicity in acts of terrorism against the U.S. We do not know who seized the last three American hostages in Beirut (Messrs. Reed, Cicippio, and Tracy). The Islamic Jihad Organization (IJO) has disclaimed responsibility -- as have our Iranian interlocutors.

[REDACTED] It is possible that these three Americans were kidnapped at the direction of Iranian radicals

loyal to the now imprisoned Mehdi Hashemi. If so, this could be an effort to undermine the nascent U.S.-Iranian strategic dialogue and exacerbate the internal Iranian power struggle against the pragmatic faction with which we have been in contact.

Throughout this process, the USG has acted within the limits of established policy and in compliance with all U.S. law. The shipment of 2,008 U.S. TOWs and 235 HAWK missile electronic spare parts was undertaken within the provisions of a Covert Action Finding.

During the course of this operation -- and before -- the U.S. was cognizant of only three shipments from Israel to Iran. Specifically:

- The Israelis acknowledged the August 1985 shipment of 508 TOWs after it had taken place. Until we were advised by the Israelis, and had the information subsequently confirmed by Iranian authorities, we were unaware of the composition of the shipment. We subsequently agreed to replace these TOWs in May of 1986.
- The November 1985 shipment of 18 Israeli HAWK missiles was not an authorized exception to policy. This shipment was retrieved in February 1986 as a consequence of U.S. intervention.
- The October 1986 shipment of 500 TOWs from Israel to Iran was undertaken with U.S. acquiescence. These TOWs were replaced on November 7.

In support of this Finding and at the direction of the President, the CIA provided the following operational assistance:

- CIA communications officers and an annuitant to assist in various phases of the operation.
- Sterile overseas bank accounts for financial transactions.
- A secure transshipment point for the dispatch of U.S. military items from the U.S.
- Transshipment of military items from the U.S. to Israel.
- Communications and intelligence support for the meetings with Iranian officials and the McFarlane trip to Tehran in May.

- Cleared meeting sites in Europe for meetings with ~~Iranian~~^{U.S.} officials.
- Fabricated and alias documentation for U.S. and foreign officials for meetings in Europe and Tehran.

The weapons and material^{as} provided under this program were judged to be inadequate to alter either the balance of military power or the outcome of the war with Iraq. They have, however, demonstrated the U.S. commitment to Iranian territorial integrity and served to support those in Iran interested in opening a strategic relationship with the U.S. U.S. efforts over the last 18 months have had tangible results on Iranian policy:

- ~~The Rafsanjani/Velayati intervention on behalf of the TWA #847 passengers (June 1985).~~
- Iranian direction that the hijacked Pan Am #73 would not be received in Iranian territory if it left Karachi.
- 
- The release of three American and at least two French hostages.
- The initiation of an Iranian dialogue with their regional neighbors.
- Continued delay in the Iranian "final offensive."

Finally, it must also be noted that the U.S. arms embargo notwithstanding, West European nations have provided \$500 million a year in military equipment to Iran. Most of these transfers were accomplished with government knowledge and/or acquiescence.

All appropriate Cabinet Officers have been apprised throughout. The Congress was not briefed on the covert action Finding due to the extraordinary sensitivity of our Iranian contacts and the potential consequences for our strategic position in Southwest Asia. Finally, our efforts to achieve the release of the hostages in Lebanon must continue to rely on discreet contacts and intermediaries who cannot perform if they are revealed.

Finding Pursuant to Section 662 of
The Foreign Assistance Act of 1961
As Amended, Concerning Operations
Undertaken by the Central Intelligence
Agency in Foreign Countries, Other Than
Those Intended Solely for the Purpose
of Intelligence Collection

30380

I hereby find that the following operation in a foreign country (including all support necessary to such operation) is important to the national security of the United States, and due to its extreme sensitivity and security risks, I determine it is essential to limit prior notice, and direct the Director of Central Intelligence to refrain from reporting this Finding to the Congress as provided in Section 501 of the National Security Act of 1947, as amended, until I otherwise direct.

SCOPEDESCRIPTION

Iran Assist selected friendly foreign liaison services, third countries and third parties which have established relationships with Iranian elements, groups, and individuals sympathetic to U.S. Government interests and which do not conduct or support terrorist actions directed against U.S. persons, property or interests, for the purpose of: (1) establishing a more moderate government in Iran, (2) obtaining from them significant intelligence not otherwise obtainable, to determine the current Iranian Government's intentions with respect to its neighbors and with respect to terrorist acts, and (3) furthering the release of the American hostages held in Beirut and preventing additional terrorist acts by these groups. Provide funds, intelligence, counter-intelligence, training, guidance and communications and other necessary assistance to these elements, groups, individuals, liaison services and third countries in support of these activities.

The USG will act to facilitate efforts by third parties and third countries to establish contact with moderate elements within and outside the Government of Iran by providing these elements with arms, equipment and related materiel in order to enhance the credibility of these elements in their effort to achieve a more pro-U.S. government in Iran by demonstrating their ability to obtain requisite resources to defend their country against Iraq and intervention by the Soviet Union. This support will be discontinued if the U.S. Government learns that these elements have abandoned their goals of moderating their government and appropriated the materiel for purposes other than that provided by this Finding.

Q. Sir, could you start by giving us a general description of what you know about the incident on the missile transfer or Hawk repair parts transfer?

A. Yes. To do that I will have to go back to around June of 1985. Approximately in middle of June 1985, the Secretary of Defense received a draft National Security Decision Directive which was sent to us, sent to George Shultz, under a memorandum signed by Bud McFarlane. And the thrust of this decision, or draft decision directive, was an opening to Iran, and some ways in which an opening to Iran might be explored. In this particular NSDD draft, was a line which suggested that one way of generating cooperation with the Iranians was the sale of U.S. equipment to Iran. The Secretary of Defense received this memo, scribbled a note in his own handwriting on it, to the effect that this is absurd, and he thought that there was very little chance of developing a relationship with the present leadership and that indeed it would be like asking Qaddafi to come to Washington for a cozy lunch. He additionally sent that draft up to me for comments, which would then be sent back over the Secretary's signature to Bud MacFarlane. I did up some comments for the Secretary, the thrust of which was we would be willing to enter dialogue with Iran, we understood the strategic importance, but we thought that post-Khomeini was the time to do it, number one, and under no circumstances could we conceive of arms sold by the United States, or indeed lifting of our embargo. That response to MacFarlane's draft went over, in my memory, roughly July of 85, and I didn't hear any more about this idea, until the end of November (telephone rings-off tape)

COL MORTON: Back on tape, sir. You were talking about the reply went back in the July time frame.

MR. ARMITAGE: Yea, yea. Roughly July, we sent the reply back to Mr. McFarlane over the Secretary's signature and heard no more.. uh, about this until late November. I was on travel in the Middle East, Pakistan I believe. Came back and I had several discussions with my State friends. We were seeing rumors of arms transfers to--to uh, Iran, possibly from Israel. I say rumors, no confirmed intelligence, but speculation on it. Also, I believe that the Secretary of Defense had indicated that (portion of text deleted) that he was suspicious that some people in the White House had been dealing with Iranians. Armed with that suspicion of the Secretary, I nosed around the administration and finally got to Lieutenant Colonel Ollie North, and asked him if he knew anything about it, and he admitted to me that he had been meeting with Iranians in Europe. I expressed to him my surprise at this, and said to him that my boss, the Secretary, would be horrified at this news, and my own personal view that Ollie was way out on a limb and we'd better get uh, all the uh President's advisors in the same room and figure out who's doing what to whom. I don't know if that caused an eventual meeting in December or not, but for whatever reason around December 7th, Saturday December 7th, there was a meeting

held with the President and I know for sure that my boss and Secretary Shultz were there and I can't say definitively who else was there. But at that time arms for Iran were discussed. The Secretary came back and basically indicated that he thought that the baby had been strangled in the cradle. In other words this idea was going nowhere. I heard nothing until Dec - January. In early January, again approximately the 7th of January, there was another meeting-- with the President. The Secretary of State and the Secretary of Defense were there. The uh Attorney General was there, I believe the Vice President was there and Mr. Poindexter was there. I can't say who else. In which the arms to Iran idea was discussed again, and Mr. Shultz and Mr. Weinberger were adamantly opposed, and I can only assume were eloquent in their opposition for all sorts of reasons, to include legalities. I know the Secretary of Defense was very suspicious that this might not be legal. Uh, he came back from the meeting and did not indicate, the Secretary came back from the meeting and did not indicate that any decision had been made. I believe it's correct to say that he came away from that meeting thinking no decision had been reached. ..Some time in approximately late January, ..Colin Powell, however, informed me that he had been instructed by the Secretary to move. ..have the Army move, weapons under an Economy Act transfer, to the CIA, so it was clear to me at that time that a decision had been reached sometime after the January 7th meeting and that it had gone against the Defense Department's point of view. And that is we were now to supply these weapons. All General Powell told me, as I remember, is that he was doing this as a courtesy and because he had the Secretary's permission to let me know that basically our policy advice had been overridden. And he informed me the Secretary told him to prepare the Basic TOWs, have the Army prepare Basic TOWs for shipment to the CIA, and his, the only two points he made to me about it was that he did talk to General Thurman ..and that he uh, the Secretary uh, was not, was very unhappy, ..with this development, but the Secretary had said that an Economy Act transferred to the CIA, and, my words, but the thrust was that the department was to lose no money on the sale, that's my words.

COL MORTON: Did he give you numbers sir?

MR. ARMITAGE: I know the numbers now. I can't remember that he gave me the numbers. Uh, I can't remember that, but I know he told me weapons. And I can't remember if he said radars or not. I know now (COL MORTON: Sure.) uh, I must say just for the record, some of these events are over a year and half old so my memory is a little hazy, and then in preparation for testimony over the last four or five weeks I've become a lot smarter on this issue than I ever thought, so occasionally my remembrance might run together with what I know, you know after the public uh announcement.

COL BACHELDOR: It was alleged in the, in falls, that NSC had discussed numbers of weapons, of monies available possibly uh throughout the fall and it had gone forth.

MR. ARMITAGE: I have--

COL BACHELDOR: Were you aware of any of that sir?

MR. ARMITAGE: Well I am from subsequent discussions that General Powell said he had discussions about numbers and weapons to me, and I'm aware of this subsequent to public revelations. I wasn't aware of it at the time. There was one discussion--and I want to say November or December, but I was gone and General Powell had to get some pricing information from DSAA and I think was the HAWK missiles and the Defense Security Assistance Agency gave him the information on HAWK missiles, and when I came back DSAA had made me aware that they had provided to General Powell some information on HAWK missiles. My best remembrance is November/December 85 on that.

COL MORTON: Earlier sir, I believe you said the COL, General Powell said the Secretary directed him to ship Basic TOWs.

MR. ARMITAGE: That's what I said.

COL MORTON: Okay. It was the Secretary's decision on the type of TOW then.

MR. ARMITAGE: Uh--well that's how I remember it (COL MORTON--right sir) that the Secretary said we're going to go Basic TOWs whether he said vanilla TOWs or Basic TOWs, I don't know. The Secretary told me now subsequent to all this, in the last several months, he told me that, when I asked him in preparation for testimony, who told him to do it, he said well it was the President. Whether it was the President through Poindexter, or the President himself, I don't know, but that's what the Secretary told me. Uh, whether General Powell said to me TOWs or basic TOWs-- it wouldn't have made any difference to me (COL MORTON--yes sir) because any weapons was, you know we lost our virginity, I was appalled at it all.

COL MORTON: But to your best recollections you knew of no specific number nor a dollar amount available.

MR. ARMITAGE: No. My, I know I -- I have a specific recollection of item. I know nothing about dollar amounts. And I don't think that I know specific amounts of missiles though General Powell might have told me. He's a very thorough man. He probably did, but it didn't mean anything.

COL BACHELDOR: Based on your current position or any position you've her, held sir, would you have any idea what a TOW would cost or might cost.

MR. ARMITAGE: I know what a TOW is and I've seen 'em in combat, uh so I know exactly what it is. I have no idea what it costs. In fact, had never had a discussion of money involving this issue

myself, involving this issue, other than the discussions I had with people like LTC Armbright and all as I prepared for testimony and I had to learn what we paid.

Q. General Powell mentioned uh that he in fact tasked the Army, and as you stated to talk to General Thurman. Did he at any time talk about any other tasking or any other Russo discussions with you--again I can give you a name, General Russo was the Army point of contact.

A. He, yes, he told me, now this is after the fact, he's told me that he's had many discussions with General Russo about uh the TOW shipments. He said he had many many conversations with Russo. Now I learned that subsequent.

COL MORTON: Was the subject the price sir or do you know the subject.

A. I, I can't say the subject. It was about the shipment and about the transfer but whether it was price, he has told now, General Powell told me more recently in the last month or so that he was quite sure that General Russo would have a clear remembrance that Powell had said don't lose any money on the deal. Uh, now that, but I've learned all that in the last month or so. Month and a half.

COL BACHELDOR: In any of your discussions with General Powell would you have, uh, determined the feeling that the Army was having difficulty establishing a price or maybe being inept. Or have you..?

A. No, I, I got none of that. It was never indicated to me. And other than the conversation along the lines that basically the policy decision went against us and uh, we're gonna provide these weapons to the CIA and eventually in some manner they're gonna go to Iran. Uh, I wasn't involved. And sporadically during the year I heard either from Vice Admiral Jones or Mr. Taft that there were other shipments. But I think this is probably the only discussion I had with General Powell.

Q. You mentioned one discussion with uh, Colonel North. Did you ever again discuss this issue with Colonel North.

A. I discussed this issue with Colonel North on numerable occasions, in that, when I say this situation, or discuss this issue, arms to Iran and hostages. I felt that it was impossible to distinguish to the public, or indeed in my mind where we were selling arms to Iran for strategic dialogue or for hostages. I thought it was anathema, and I told Ollie every time that I had an opportunity privately, that I thought that this was a bad bad policy and it was bad business and we ought to be out of it. (COL BACHELDOR-Alright sir.) I never did talk to Ollie, in my recollection about pricing or anything, and I know that I never had a conversation with anyone in the Army about this until I

started talking with Lieutenant Colonel Armbright, in preparation for my testimony, once things were made public.

Q. Sir, what do you know, in general, about the requirement for a government agency to notify Congress if the arms are provided to--in the intelligence arena.

A. My understanding was that the receiving agency had to notify and that's all I know. I know what would happen under the Arms Export Control Act if we made a foreign military sale. And those notifications, uh I was concerned about an arms embargo to Iran, uh, I expressed those concerns to the Secretary and indeed I'm under the impression that he expressed those concerns to the President. But regarding an intelligence transfer, I was under the impression that any notifications had to come from the receiving U.S. government agency. Because they were the ones that ultimately would make the transfer.

Q. Were you aware at the time of a dollar threshold?

A. No. Uh, though I am aware of a dollar threshold on the Arms Export Control Act, regarding Foreign Military Sales. I was not and am not now aware of a dollar threshold of a for a covert program.

Q. What is the arms uh what is the dollar threshold for a... roughly sir?

A. I think its roughly fourteen million for a major end item or fifty million per sale. A bunch.

Q. Are you aware of any discussion of between the Army and DOD reference notification of Congress. And more specifically, I'll tell you there is (MR. ARMITAGE - Yes.) a one million dollar notification requirement.

A. Fine, one million? (COL BACHELDOR - Yes sir) I was not aware of that, but I have in conversations with General Powell... subsequent to this thing becoming public, plus my own preparation and looking at Army materials, aware that the General Counsel of the Army had some reservations. And had expressed these. General Powell, in Frankfurt, one of my trips to Frankfurt, when we were discussing this issue recently, told me that he remembers receiving from the Army, and he wasn't sure who, the memo that had some concerns, and that he fired that over to John Poindexter. And this is what General Powell told me probably six weeks ago. I, in going through Army material, reviewed a Susan Crawford memo, it was a one page memo I think to the Secretary of the Army, and I had that sent down to General Powell in General Doctor's office the other day. I said is this the one (COL MORTON - Yes sir, we got that) -- Is that the one by the way?

COL BACHELDOR: No sir it is not. According to General Powell. I've talked to General Brown and he is again looking uh and

Exhibit 17

General Powell has said (MR. ARMITAGE - I can't believe the Army doesn't have a copy somewhere. I know the U.S. Army.) Well we're at a loss too sir. Uh and we're looking hard. General Powell is going to try to help us after the thirty-first (MR. ARMITAGE - Oh, I'm sure he will). Sir, um did you talk to anyone in the CIA reference this matter?

MR. ARMITAGE: Reference arms (COL BACHELDOR - Reference arms to Iran, sir) I talked uh, no prior, prior to the decision being made. In the Terrorist Incident Working Group, Operational Sub-group, that's called the OSG of the T-WIG, which I sit, there have been general discussions with Dewey Claridge. I've had general discussions about how we, the Department, meaning the Secretary did not like this policy of arms to Iran. Those were the only...(COL MORTON - That was before the decision was made..) No after. (COL MORTON - Mr. Claridge) Yea, Dewey Claridge, of the CIA. Generally the only, the topic was only that the Department didn't like this, thought it was bad business.

COL BACHELDOR: You mentioned that in the summer/fall of 85 you heard rumors, maybe even later than fall, but you heard some rumors of possible transfers to Iran (MR. ARMITAGE - Yea!). Were you ever able to substantiate those rumors?

MR. ARMITAGE: Well we were hearing from Arab countries a lot. Saying that Israel's selling all kinds of things to Iran. Uh, we'd see some intelligence about reports of Israeli shipments. I hadn't substantiated it, however in my testimonies recently I have had occasion to testify with Mr. Casey and others, and I've learned a hell of a lot that we didn't know then, and among the things that I've learned is that apparently TOWs were shipped from Israel, as well as HAWK missiles from Israel, to Iran. And it is alleged that someone in the U.S. government gave permission for these third country transfers. And the Secretary of Defense didn't know about it and his Assistant Secretary of Defense for ISA didn't know about it and I can assure you the Secretary of Defense would have opposed it.

Q. It appears obvious based on your comments, sir, that you didn't know it before, but now do you know what Iran paid Israel for the shipment of TOWs? The first shipment.

A. I don't know what Iran paid Israel, yet I know what the CIA was charged by the Army. This is what I do know. I do not know what Iran actually paid Israel, or if they paid Israel. (COL MORTON - The Army's..)(COL BACHELDOR - Sir, I'm referring to..)

COL BACHELDOR: To set the record straight I'm referring to the potential shipment that we're talking about in the fall of 85.

MR. ARMITAGE: Yea, you're talking about the 508 TOW missiles. I heard in testimony on the Hill, I believe Mr. Casey, he indicated that there was a shipment in August or September of 85 of 508 TOW missiles from Israel. It's the first I've heard of it. I have no, I have no knowledge.

COL BACHELDOR: Our source sir, for that information is the, is the Washington Post, but that is the source that I was talking about. I was talking about that source, that shipment and any possible pricing.

MR. ARMITAGE: I learned about that in my Hill testimony. Mr. Casey said that, I believe it was Casey, that there was a shipment... in August or September, September strikes me as the date, of TOM missiles.

Q. In all of this discussion, preferably prior, but any discussion was there any talk about the ultimate recipient, we know Iran now, but the ultimate recipient having trouble paying for anything that they would get?

MR. ARMITAGE: I didn't have any discussions like that, and I didn't hear it. Occasionally
(portion of text deleted)

I'd see references to uh bitching about money, payments. But, and I didn't understand .. the context, and in many cases didn't understand (portion of text deleted) because there were different names used (text deleted) . Things of that nature. So, I think I am content to say I had no idea what was being charged for the weapons to Iran, how the procedures of payments were being handled, and even the existence of Swiss bank accounts.

COL MORTON: You mentioned earlier sir, you didn't know a specific price that we were charging the agency, but did you know that there was...

MR. ARMITAGE: No, I know now of the specific price. Of course I did not at the time.

COL MORTON: But previously? But was there any pressure to keep the price down .. that you know of?

MR. ARMITAGE: Not by me.

Q. Did you know of any such pressure?

A. I didn't know of any. Uh, and I know I was asked on the Hill .. was there any pressure from OSD, and I could only repeat what I've been told by General Powell and by the Secretary subsequently, that is the instructions were Economy Act and don't lose money. To the CIA only. Don't have anything to do with transferring to another country or another uh middle man or agency other than the CIA.

COL BACHELDOR: Do you have any idea sir, if the Army knew the ultimate destination for the equipment?

MR. ARMITAGE: I am under the very strong impression that they did not know. Impression. Whether the Chief of Staff of the Army, General Wickham, might have eventually known because of a discussion he had with Mr. Taft in the April/May time frame I can't speak, but the Army as far as the guys who were making the arrangements, I'm under the impression they had no idea where it was going.

Q. Did you get involved at all in the transfer of the, or correction, the request for HAWK missile parts. Mr. Taft handled that through General Wickham, were you involved at all sir?

A. No, I was travelling with the Secretary of Defense in Asia, and we were informed about it subsequently. I only found out much more recently that Mr. Taft had spoken to General Wickham about it. As we were trying to, in a discussion I had with Mr. Taft, to determine who knew what in the building, and he, Mr. Taft indicated that he had had a discussion with General Wickham, so General Wickham knew something. How much I can't say.

Q. Sir, when we talked to General Powell he specifically indicated, based on his knowledge and timing when he left, that it would be important for us, or thought it would be important for us to talk to you and, uh, Admiral Jones. Based on your knowledge sir do you think it would be beneficial for us to talk to Mr. Taft.

A. Yes, uh, I think this is Army and the Chief of Staff apparently had a conversation with Mr. Taft and I think you should.

COL BACHELDOR: Jim I have no other questions.

COL MORTON: Okay there was one thing....I think we had a glitch on these numbers and dates here.

COL BACHELDOR: Uh, no Jim, I can answer that question. Mr. Armitage and I were discussing missiles shipped from Iran to Israel in the fall of 85 (MR. ARMITAGE - no from Israel to Iran) (COL MORTON - Israel to Iran) I'm sorry Israel to Iran in fall of 85.

COL MORTON: Is it coincidental that the five oh eight(508) is the same number?

COL BACHELDOR: It may be coincidental.

MR. ARMITAGE: Come on guys. Look...take Casey testified, I can't remember which area I've had so many, that a shipment went in the fall, and I or summer, and I think September, of five hundred and eight TOW missiles,.. from Israel to Iran. I would maintain that the Department of Defense at least, one didn't know about that shipment and number two the Secretary of Defense would

if he were asked, he would not have given permission for it. I know that. But Israel did it. And there is an open discussion whether the President did nod and say Israel could do it or not. In my preparations for my hearings I had to become aware of what the numbers of missiles and spare parts and all were. Five hundred and eight seemed like a strange shipment to me (COL MORTON - Yes sir.). I didn't know why it was sent either. Why would five hundred and eight basic TOW missiles be called for, why not five hundred or six hundred or five ten(510). It became apparent to me, however, based on what I heard Casey say, that that five hundred and eight number went to Israel and not to Iran, to repay five hundred and eight which previously had gone from Israel to Iran. Do I make sense?

COL BACHELDOR: Well, no sir. Now you... I understand exactly what you said (MR. ARMITAGE - That's my impression). Let me, let me restructure the Army's involvement as we know it. The Army's involvement, as we know it, started in January of 1986, and we shipped initially a thousand, later five hundred and eight, and then the last shipment of five hundred (MR. ARMITAGE: Right). Are you now saying that the middle shipment of five hundred and eight went to Israel for repayment or are you saying there is another five hundred and eight shipment.

MR. ARMITAGE: I'm speculating that that's what happened. That that five hundred and eight, the coincidence is so great, it seems to me that there's a very high probability that that five hundred and eight, whichever shipment it was, that the Army transferred to the CIA, eventually ended up in Israel (COL MORTON - For repayment?). For replay, or replenish Israeli stocks for five hundred and eight that they sold previously. I don't know that. But the numbers...

COL BACHELDOR: And no one has said that.

MR. ARMITAGE: Pardon me?

COL BACHELDOR: You have drawn that conclusion...

MR. ARMITAGE: I draw that conclusion because the numbers sure look kind of striking.

COL MORTON: That's why I asked. Is it coincidental, but there's a reason?

MR. ARMITAGE: It seems to me, but I don't think the Army would know that at all. And there's no reason the Army should know it.

COL BACHELDOR: That would help, if that were true though sir because we have the same question. Why five hundred and eight?

MR. ARMITAGE: The same .. I never .. I had the same question, but it doesn't seem to me from your guys point of view to make a tinkers damn difference. You were doing what you were told under

Economy Act provision to the CIA. The CIA was the ones who knew the ultimate disposition. I can't say and I couldn't testify (COL MORTON - Sure.) that I know those five hundred and eight ended up in Israel. But I'd have to say that it seems mighty suspicious that the numbers (COL MORTON - Yes sir.) are the same. If you see what I mean? But for the Army's purposes, I can't imagine that has any real relevance to the Army .. itself. You were transferring to the CIA which you were being paid .. over.

COL BACHELDOR: It gives us one more alternative to provide to Mr. Marsh as to why the number five oh eight(508)...

MR. ARMITAGE: Yea indeed, and that's the only thing I can offer...

COL BACHELDOR: And we've been searching for that, and in that context sir your comments are very helpful because we did not have that information.

MR. ARMITAGE: Now that's .. I would not and could not swear that Israel made the shipment, but Mr. Casey thinks they did. Made a shipment prior, in the summer.

COL BACHELDOR: See we've heard pallet loads, plane loads uh all kind of reasons for five hundred and eight, so it again one more piece of the puzzle.

MR. ARMITAGE: Well I think that, I hope that's helpful, but that, I'm under that impression that Israel was repaid by the CIA for a prior shipment. Impression.

COL BACHELDOR: No further questions.

COL MORTON: Sir you mentioned the need for a higher classification...

MR. ARMITAGE: Well I'm talking about (portion of text deleted)

COL BACHELDOR: I know what the classification is.

COL MORTON: (portion of text deleted) covers it?

COL BACHELDOR: (portion of text deleted)

COL MORTON: Okay, you can read me on.

MR. ARMITAGE: Now .. are we

COL MORTON: Okay sir. Sir do you have any further information, statements or evidence to present concerning the matters under investigation.

MR. ARMITAGE: Umm...

COL MORTON: That would be beneficial to us.

MR. ARMITAGE: Well I've tried to think, in the testimonies, in the give and take and the questions from the Hill, you learn a lot. Huh, I'm trying to think of the Army's involvement...

COL BACHELDOR: I do have a question for you.

MR. ARMITAGE: I don't know of anything... let me complete the following then I'll be glad to answer. I don't know of anything that might be relevant to the Army, I have, subsequent to public revelations, become a lot smarter of what various parts of the administration were doing to include sitting in on testimony by some of our senior officials, closed testimonies, so I know a lot more about the issue, but I don't know of things that I think would have relevance to the Army. And I certainly don't know things that have relevance to the transfer. Uh, other than once these things got to [REDACTED] my understanding is we that is DOD transferred them to the CIA, title and everything, and then we got out of the business. Uh, there are plenty of other bits of information and policy discussions that surrounded this that I am aware of, and if it were appropriate would make you aware of it. I don't think they have any relevance to the Army.

COL BACHELDOR: Mrs. Crawford, the Army General Counsel, shared with me a comment uh that was attributed to you that you had heard in testimony someplace, that there either was or may have been some pressure applied to the Army. Is it important to discuss that sir?

MR. ARMITAGE: Yeah I, yeah I don't know. I'll tell you what I heard. I gave a testimony in front of the SSCI and it was over and I stood up. And it was over. And we were walking out, and some of the staff members said oh thanks alot you were very helpful. And I said well I hope so and I hope all the DOD witnesses are helpful. I said, "I must say that I'm not a technician..." and I did say this for the record, "...and I strongly urge you guys in your investigation to talk to our Army fellows who made the transfers, they know this issue, I'm not a technician, I was engaged in the policy end of it, so please talk to them." They said 'yeah, the only possible question for DOD, they said, is the pricing question. And I said, uh, excuse me, are you indicating by that statement that there is some inference that someone in the Secretary's office was leaning on the Army to lower the price. And they said absolutely not, we have no indication of that. We have no understanding that its other than just what you told us. Basically the Secretary didn't like it. He followed the President's orders though and did it, and said do

it under an Economy Act and don't lose money. But he said that there may have been a conversation that Ollie North had with one of the Army fellows involved. And I said I don't know anything about it. And that was the comment and I passed it on I think to Susan. That was it.

COL BACHELDOR: Yes sir, she shared that with us.

COL MORTON: Do you know who North might have talked to?

MR. ARMITAGE: No I don't know, .. they didn't say it happened either (COL MORTON - If?). They said there may have been (COL MORTON - Yes, sir). And I said, basically I was trying to find out if DOD, are we out of this now. And they gave us a pretty good clean bill of health, except for that issue. The pricing issue, there's still some questions. And that caused me to ask, certainly no questions that what I told you is not true because it is my understanding that OSD did not get into the pricing problem. Didn't lean on the Army. That's my understanding. He said no we don't have any indication to the contrary to that. There may be, it may be that North talked to one of the, one of the officers. I said, well you'll find that out from the officers. They can tell you that.

COL MORTON: Sir other than those you've already mentioned, do you know anyone else who could provide further information on the matter.

MR. ARMITAGE: Let me, let me recap. As far as I know in the Department, the Secretary, now LTG Powell, General Thurman because of his discussion with General Powell, General Russo because of the discussion that Thurman had with him, me, Mr. Taft, Vice Admiral Jones, and probably the Chief of Staff of the Army. After that I have to drop down to LTC Armbright who's the next person I ever talked to about this. And through Armbright I talked to Mic Kicklighter and indeed the Secretary of the Army saying I need the information to get ready for a hearing, lets get going. Uh, what's the story here. Give me the answer. And I said I'm not prejudicing the answer, I just need an answer. Uh, so I think those are the only ones that had information as far I'm concerned. Obviously there are people who do [REDACTED] transfers, who know how to work these and I've seen different names on different pieces of paper and as we put together the chronologies for [REDACTED] as I'm sure your talking to all those... (COL BACHELDOR - Yes sir we do.). Uh, other than that, Ollie North, but [REDACTED] I don't think Ollie's talking.

COL MORTON: Kind of hard to get answers...

MR. ARMITAGE: Yes, that's what I understand.

COL BACHELDOR: Admiral Poindexter, sir.

MR. ARMITAGE: Yea, or Poindexter I guess, but my own belief is that General Powell, and you've spoken to him, is probably, first of all he's the most honorable man I've ever met and even if his recollection was at direct odds with mine I'd have to say that I'd go with him. Because he is a very honorable and very smart man. (COL MORTON - Alright sir) That's who seems to be the key guy. Make sure you check him. It could be that .. well you can do that with Charlie Brown or something if you did it. Check in with DSAA if you need any pricing information. Charlie will get the answers for you (COL MORTON - Alright sir.). What we're charging these days for HAWKs and TOWs and things of that nature.

COL MORTON: Sir, this is an official investigation. It is privileged in the sense that the report of investigation will be made to the directing authority for such use as deemed appropriate. You are requested not to divulge the nature of the investigation or questions answered or discussions included in this interview with anyone except your counsel if you have some, have one.

MR. ARMITAGE: I already have to the Secretary of Defense.

COL MORTON: Yes sir. No I'm talking future. And the sole purpose of that and its uh...

MR. ARMITAGE: I do not have counsel and hope further that there's no need for one.

COL MORTON: This is standard to prevent witnesses coming to the attention... not intended to reflect on you.

MR. ARMITAGE: Well I wish you luck on the investigation. I'll be interested .. I assume, well I know I'll get it. The results of it. The Secretary's promised it to the Hill.

COL MORTON: One final thing sir, uh you're reminded that your testimony we've taken here is classified as will the report be. Your testimony may be made part of an official IG record. Individuals who do not have an official need to know may request a copy of this record, to include your testimony. If there is such a request do you consent to the release of your testimony outside official channels.

MR. ARMITAGE: No I don't.

SUBJECT: Press Guidance re Costa Rican Airstrip

Attached at Tab I is draft press guidance regarding the airstrip at Santa Elena, Costa Rica, which was divulged by the Costa Rican Security Minister at a press conference on Friday, September 26. This story has now been picked up by the New York Times (Tab II) and is generating press questions at State and Defense.

The press guidance at Tab I has been coordinated with State (Abrams), Defense (Armitage), and CIA [redacted]. Due to the extreme sensitivity of the issue, your approval is requested before the guidance is used in responding to queries.

The damage done by this revelation is considerable. As indicated in the CIA report at Tab III, the logistics support provided by Project Democracy has had a profound impact on the ability of the resistance to sustain itself in the field.

[redacted]

The airfield at Santa Elena has been a vital element in supporting the resistance. Built by a Project Democracy proprietary (Udall Corporation, S.A. -- a Panamanian company), the field was initially used for direct resupply efforts (July 1985 - February 1986). Since early this year, the field has served as a primary abort base for aircraft damaged by Sandinista anti-aircraft fire. The photographs at Tab IV show the field in June 1986 and a damaged Project Democracy KC-135 which made an emergency landing on the field early this month.

The Arias Administration revelations regarding this facility have caused Project Democracy to permanently close Udall Corporation and dispose of its capital assets. It has also resulted in the loss of a facility important to keeping the resistance supplied and in the field against the Sandinistas.

PRESS GUIDANCE RE AIRSTRIP IN COSTA RICA

DID U.S. PERSONNEL SUPERVISE CONSTRUCTION OF THE AIRSTRIP IN
NORTHERN COSTA RICA?

N 30934

"The U.S. Embassy in San Jose, Costa Rica, has reported that during the Administration of Former President Monge the Ministry of Public Security was offered the use of a site on the Santa Elena Peninsula which could be used as an extension of the civil guard training center at Murcielago. The site included a serviceable airstrip which could have supplemented the small one which is located near the training center. The offer was reportedly made by the owners of the property who had apparently decided to abandon plans for a tourism project. The Embassy has no information on the Ministry's decision concerning the offer. No U.S. Government funds were allocated or used in connection with this site nor were any U.S. Government personnel involved in its construction. Any further inquiries should be referred to the Government of Costa Rica."

WAS THE AIRSTRIP INTENDED FOR USE BY THE CONTRAS?

The Government of Costa Rica has made clear its position that it will not permit the use of its territory for military action against neighboring states. The U.S. Government respects that position.

Americans Reportedly Supervised Airstrip Project Near Nicaragua

By JAMES LAMOYNE

Special to The New York Times

LIBERIA, Costa Rica, Sept. 28 — Two Americans and the local police commander supervised the building of a military-size airstrip near Costa Rica's border with Nicaragua, according to several local residents, including those who say they worked on the project.

The accounts of the origin and building of the airstrip include details that directly contradict official Costa Rican Government explanations. The accounts indicate that the airstrip may be intended for use to supply Nicaraguan guerrillas or assist the American military.

Six Costa Rican residents of this northern border area with Nicaragua, three of whom said they helped build the mile-long airstrip, said in interviews that Americans oversee the construction.

The strip is situated near an American-built base used as Costa Rican border patrol units, and American military engineers and special forces have been active in the area in the last year. Nicaraguan guerrillas have bases nearby and have clashed with Nicaraguan Government forces on both sides of the border, although not in the last year.

'Americans Were There'

One town resident who befriended an American working on the airstrip said the American identified himself as a former Green Beret demolitions expert who said he was working on "classified" matters.

"Americans were there and there was always a lot of mystery," said a local contractor, Ladin Victor Arrieta, who says he was hired earlier this year to spend three months building the airstrip with the advice of the Americans and the protection of the local police commander. "I was told not to say I was building an airstrip. I was told to say I was building a road."

Mr. Arrieta said that he was ordered in April to finish work at the airstrip quickly and that shortly after that workers in the area told him that a large military airplane had landed at the field. They said they did not know the nationality of the plane. Several other local residents said the airstrip's existence and use was as open secret in this extremely conservative and fiercely anti-Communist area.

"We all know it is a military airstrip built by the Americans," one local businessman with close government ties said. "But he will claim it is only a tourist project because we wish the United States would invade Nicaragua and get rid of the Communists there."

U.S. Refuses to Comment

The official spokesman for the United States Embassy in San Jose, Costa Rica, has refused to comment on the airstrip in response to several telephone calls over the last five days.

(In Washington, a spokesman for the Defense Department declined to comment.)

The newly elected Costa Rican Government, which has tried to remain neutral in the conflict in Nicaragua, appears to have been embarrassed by publicity about the airstrip. Nicaragua is suing Costa Rica in the World Court for encroaching its territory to be used by Nicaraguan guerrillas.

In its first public statement last week, the Costa Rican Government said it closed the airstrip earlier this month because it feared it was used by Nicaraguan anti-Government guerrillas. The airstrip was begun as a tourist project by a Panamanian-based company and then intended as an alternative airstrip for a nearby Costa Rican Government training base.

The airstrip is six miles from an American-built base that is used to train Costa Rican border patrol units. But a Panamanian divides the strip from the base and there appears to be a connecting road. There is flat land near the base that would appear better suited for an airstrip to serve the training site.

Near Deep Water Port

The Green Berets helped build and run the training base, situated near the village of Miraflores. Both the base and the airstrip are within a few miles of the last natural deep water port before the Nicaraguan border.

While it is possible that the airstrip is used by drug traffickers, it is far larger than the size normally needed by drug runners who usually fly light airplanes that do not require long landing strips.

The airstrip is about 1.2 miles long, enough to handle as big the largest military aircraft. Costa Rican police reportedly found a newly built wooden barracks at the field, as well as a stock of aviation fuel.

The Americans who supervised the project gave their names only as "Robert" and "Mr. Bill," according to the two local contractors who built the field. The Americans often consulted with the local police commander and drove a jeep without license plates, one of the contractors said. Three other Americans visited the strip from time to time, the contractor added.

The two contractors, Gerardo Cordoba and Mr. Arrieta, said "Robert" and "Mr. Bill" planned and oversaw all details of the construction. Mr. Cordoba, who was the chief contractor, refused to say if the Americans or the local police commander, Col. José Ramón Montero, paid him for his work. Mr. Arrieta estimated the project cost \$20,000.

The American who gave his name as "Robert" said he was a former Green Beret demolitions and construction specialist who had been in Vietnam, accord-

The New York Times Staff in San José, Costa Rica, Sept. 28, 1960. Military-size airstrip is near Costa Rica-Nicaragua border.

ing to a close friend of his in this town who asked to remain unidentified. "Robert" said he was working on a government training base nearby, a site on "classified" projects that could not discuss, the local resident said.

According to several other local residents the airstrip was built from scratch to finish under the protection of local police, known as the civil gas Colonel Montero, who has since retired as police commander, was the one first asked the two local builders to construct the airstrip in January, contractors say.

Colonel Montero kept a 24-hour police guard at the airstrip and placed locked gate on the road to the site to keep people out, one of the contractors said.

A reporter who tried to see Mr. Montero for the last three days was told interviews that he was not home. He returned last week with a local newspaper Mr. Montero admitted being involved with the airstrip but denied Americans had been present. He said he was a tourist project.

The immigration official in charge of the Liberia airport, a Government installation, said he was surprised Montero would not use an American name.

"Col. Montero likes Americans in very close to the American Embassy," said the immigration official, adding that his name not be used.

According to the Costa Rican Police Security Minister, Mr. Garrón, the field was started last year as part of a tourist development. It was financed by an American company called Research Corporation based in Panama, he said, denying any Costa Rican involvement in the project.

When the tourist development of the airstrip was headed over to Government under the administration that left office in May, Mr. Garrón said, its legal ownership appears mainly in doubt since it appears to privately owned land.

Udall Research Corporation listed in Panama at the telephone books given on official government forms. Nor is the airstrip, the private field ever found in the records registered with the national civil aviation office.

MEMORANDUM FOR THE ASSISTANT TO THE PRESIDENT FOR NATIONAL
 SECURITY AFFAIRS

SUBJECT: US Policy Toward Iran (S)

(TS) This memorandum responds to your request for comments on the draft NSDD on US-Iranian relations. While I agree with many of the major points in the paper, several of the proposed actions seem questionable. Moreover, it is extremely difficult to consider an explicit revision of our policy toward Iran as long as we continue to receive evidence of Iranian complicity in terrorist actions and planning against us. I do not believe, therefore, an NSDD should be issued in the proposed form.

(TS) I fully support the policy objective that "our primary short-term challenge must be to block Moscow's efforts to increase Soviet influence." If we are successful, of course, this will put us in a better position to realize a longer-term goal of having at least neutral/non-hostile relations with Iran. Under no circumstances, however, should we now ease our restriction on arms sales to Iran. Attempting to cut off arms while remaining neutral on sales to either belligerent is one of the few ways we have to protect our longer-range interests in both Iran and Iraq. A policy reversal would be seen as inexplicably inconsistent by those nations whom we have urged to refrain from such sales, and would likely lead to increased arms sales by them and a possible alteration of the strategic balance in favor of Iran while Khomeini is still the controlling influence. It would adversely affect our newly emerging relationship with Iraq.

(TS) There are other actions, however, some of which are implied in the draft NSDD, that we could take now under our current policy to try to prevent an increase in Soviet influence and to lead toward a more moderate post-Khomeini Iran:

SUBJECT: U.S. Policy Toward Iran (S)

The Director of Central Intelligence has just distributed an SMIZ on "Iran: Prospects for Near-Term Instability", which I hope you have received. This SMIZ makes clear that instability in Iran is accelerating, with potentially momentous consequences for U.S. strategic inter sts. It seems sensible to ask whether our current policy toward Iran is adequate to achieve our interests. My staff has prepared a draft NSDD (Tab A) which can serve to stimulate our thinking on U.S. policy toward Iran. I would appreciate your reviewing the draft on an eyes only basis and providing me with your comments and suggestions. I am concerned about the possibility of leakage should we decide not to pursue this change in policy with the President. If you feel that we should consider this change, then I would refer the paper to the SIG(FP) in preparation for an NSPG meeting with the President.

**NATIONAL SECURITY DECISION
DIRECTIVE****U.S. Policy Toward Iran**

Dynamic political evolution is taking place inside Iran. Instability caused by the pressures of the Iraq-Iran war, economic deterioration and regime infighting create the potential for major changes in Iran. The Soviet Union is better positioned than the U.S. to exploit and benefit from any power struggle that results in changes in the Iranian regime, as well as increasing socio-political pressures. In this environment, the emergence of a regime more compatible with American and Western interests is unlikely. Soviet success in taking advantage of the emerging power struggle to insinuate itself in Iran would change the strategic balance in the area.

While we pursue a number of broad, long-term goals, our primary short-term challenge must be to block Moscow's efforts to increase Soviet influence (now and after the death of Khomeini). This will require an active and sustained program to build both our leverage and our understanding of the internal situation so as to enable us to exert a greater and more constructive influence over Iranian politics. We must improve our ability to protect our interests during the struggle for succession.

U.S. Interests and Goals

The most immediate U.S. interests include:

- (1) Preventing the disintegration of Iran and preserving it as an independent strategic buffer which separates the Soviet Union from the Persian Gulf;
- (2) Limiting the scope and opportunity for Soviet actions in Iran, while positioning ourselves to cope with the changing Iranian internal situation;
- (3) Maintaining access to Persian Gulf oil and ensuring unimpeded transit of the Strait of Hormuz; and
- (4) An end to the Iranian government's sponsorship of terrorism, and its attempts to destabilize the governments of other regional states.

TOP SECRET**UNCLASSIFIED**

UNCLASSIFIED**DRAFT**TOP SECRET

2

D 93

We also seek other broad and important, if less immediately urgent, goals.

- (1) Iran's resumption of a moderate and constructive role as a member respectively of the non-communist political community, of its region, and of the world petroleum economy;
- (2) continued Iranian resistance to the expansion of Soviet power in general, and to the Soviet occupation of Afghanistan in particular;
- (3) an early end to the Iran-Iraq war which is not mediated by the Soviet Union and which does not fundamentally alter the balance of power in the region;
- (4) elimination of Iran's flagrant abuses of human rights;
- (5) movement toward eventual normalization of U.S.-Iranian diplomatic consular and cultural relations, and bilateral trade/commercial activities;
- (6) resolution of American legal and financial claims through the Hague Tribunal; and
- (7) Iranian moderation on OPEC pricing policy.

Many of our interests will be difficult to achieve. But given the rapidity with which events are moving, and the magnitude of the stakes, it is clear that urgent new efforts are required. In moving forward, we must be especially careful to balance our evolving relationship with Iraq in a manner that does not damage the longer term prospects for Iran.

Present Iranian Political Environment

The Iranian leadership faces its most difficult challenges since 1981. The regime's popularity has declined significantly in the past six months, primarily because of intensified disillusionment with a seemingly unending war, the continued imposition of Islamic social policies on a population increasingly reluctant to accept such harsh measures, and a faltering economy brought on primarily by declining oil revenues. The impact of these problems is intensified by the realization that Ayatollah Khomeini's mental and physical health is fragile, which in turn casts a pall of uncertainty over the daily decision-making process.

Unless the acceleration of adverse military, political and economic developments is reversed, the Khomeini regime will face serious instability (i.e. repeated anti-regime demonstrations, strikes, assassination attempts, sabotage and other destabilizing activities throughout, increasingly involving the lower classes). This condition will sap officials' energies and government resources, intensifying differences among Iranian leaders as the government tries to avoid mistakes that would provoke popular upheaval and threaten continued control.

While it is impossible to predict the course of the emerging power struggle, it is possible to discern several trends which must be accounted for by U.S. policy. As domestic pressures mount, decision-making is likely to be monopolized by individuals representing the same unstable mix of radical, conservative and ultra-conservative factions that now control the Iranian government. The longer Khomeini lingers in power, the more likely the power struggle will intensify, and the greater the number of potential leaders who might affect the outcome of the struggle.

The ultimate strength of various clerical groups and the power coalitions they may form are not known. However, the weaknesses of various opposition groups -- inside Iran and abroad -- are evident, especially the lack of a leader with sufficient stature to rival Khomeini and his ideas. The most likely faction in a power struggle to shift Iranian policy in directions more acceptable to the West -- should their influence increase -- are conservatives working from within the government against the radicals. Radicals within the regime, and the leftist opposition, are the groups most likely to influence the course of events in ways inimical to Western interests.

The Iranian regular armed forces represent a potential source of both power and inclination to move Iran back into a more pro-Western position. Representatives of every faction inside and outside the regime recognize the potential importance of the military and are cultivating contacts with these forces. However, as long as the Army remains committed in the war with Iraq it will not be in a position to intervene in Tehran.

The other instrument of state power, the Revolutionary Guard, is becoming increasingly fractured. It will probably come apart following Khomeini's death, and might even engage in a major power struggle before then. In any scenario, the Guard will be at the center of the power struggle.

The Soviets are well aware of the evolving developments in Iran. They will continue to apply carrot-and-stick incentives to Iran in the hope of bringing Tehran to Moscow's terms for an improved bilateral relationship that could serve as a basis for major growth in Soviet influence in Iran. Moscow will clearly resist any trend toward the restoration of a pro-Western Iranian government.

Despite strong clerical antipathy to Moscow and communism, Tehran's leadership seems to have concluded that improvement of relations with the Soviet Union is now essential to Iranian interest. They do not seem interested in improving ties with us. This Iranian assessment is probably based on Tehran's view of what Moscow can do for -- and against -- Iran rather than on an ideological preference to conduct relations with Moscow. The USSR already has much leverage over Tehran -- in stark contrast to the U.S.

Moscow views Iran as a key area of opportunity. [REDACTED]

In return, Moscow is certain to offer economic and technical assistance, and possibly even military equipment. While they have heretofore balked at providing major weapon systems, the Soviets might relax their embargo if the right political opportunities presented themselves. While Moscow would probably not act in a manner that severely disrupts its relations with Baghdad, given Iraq's dependency on the USSR for ground forces equipment, Moscow possesses considerable room for maneuver if it senses major openings in Tehran for the establishment of a position of significant influence.

Moscow may also pursue a strategy based on support of separatist movements. The Soviet Union has had ample opportunity to cultivate the ethnic groups that cut across the Soviet-Iranian border. Most ethnic groups are unlikely to challenge the central government in Tehran as long as they fear severe reprisals. But in the areas of Iran adjacent to the Soviet border, the Soviets can provide a security umbrella to protect rebellious ethnic groups from reprisals.

The U.S. position in Tehran is unlikely to improve without a all
major change in U.S. policy. The challenge to the U.S. in the post-Khomeini period will be severe. Any successor regime will probably seize power in the name of Islam and the revolution and

~~can be expected to have a built-in anti-American bias. A more conservative regime, still Islamic, might lessen the emphasis on revolution and terrorism and could move cautiously toward a more correct relationship with the U.S. On the other hand, radical forces will try to exacerbate anti-American feelings to strengthen their own positions at the expense of the conservatives.~~

Our leverage with Iran is sharply reduced by the current degree of hostility that springs from the ideology of the radical clergy, especially as it serves their foreign policy goals. Moreover, the moderate and conservative elements of the clergy may also share the radicals' belief that we are inveterately hostile to the Islamic government, making accommodation with the U.S. impossible. The clerical regime continues to believe that the U.S. has not accepted the revolution and intends to reverse the course of events and install a puppet government. This perception has been reinforced by our restoration of diplomatic relations with Iraq, efforts to cut the flow of arms to Iran, and direct threats of military action in retaliation for Iranian-inspired anti-U.S. terrorism.

U.S. Policy

The dynamic political situation in Iran and the consequences for U.S. interests of growing Soviet and radical influence, compel the U.S. undertake a range of short- and long-term initiatives that will enhance our leverage in Tehran, and, if possible minimize that of the Soviets. Particular attention must be paid to avoiding situations which compel the Iranians to turn to the Soviets. Short-term measures should be undertaken in a manner that forestalls Soviet prospects and enhances our ability, directly and indirectly, to blunt U.S. and Western influence in Iran to the maximum extent possible in the future. Planning for the following initiatives should therefore proceed on a fast and longer-term track. The components of U.S. policy will be to:

- (1) Encourage Western allies and friends to help Iran meet its import requirements so as to reduce the attractiveness of Soviet assistance and trade offers, while demonstrating the value of correct relations with the West. This includes provision of selected military equipment as determined on a case-by-case basis.

- intentional and deliberate*
generalized
- specific:*
- (3) Increase contacts with allies and friends [redacted] on the evolution of the Iranian situation and possible means for influencing the direction of change, and be ready to communicate with Iran through these or other countries [redacted]
- (4) Take advantage of growing political fragmentation by:
- discreetly communicating our desire for correct relations to potentially receptive Iranian leaders; [redacted]
 - [redacted]
 - providing support to elements opposed to Khomeini and the radicals.
- (5) Avoid actions which could alienate groups potentially receptive to improved U.S.-Iranian relations.
- (6) Respond to Iranian-supported terrorism with military action against terrorist infrastructure.
- (7) Enhance our effort to discredit Moscow's Islamic credential with a more vigorous VOA effort targeted on Iran.
- (8) Develop action plan in support of the basic policy objective, both for near-term contingencies (e.g. death of Khomeini) as well as the long-term restoration of U.S. influence in Tehran.
- (9) With respect to the Gulf war:
- Continue to encourage third party initiatives to seek an end to the war;
 - Increase military cooperation with Gulf Cooperation Council countries, and bolster U.S. military capabilities in the Gulf area to enable CENTCOM to be fully capable of carrying out its mission; and
 - Seek to curb Iran's collaboration with its radical allies (i.e. Syria and Libya).

Political

- Through contacts with allies and friends, we should discreetly communicate our desire for correct relations to potentially receptive Iranian leaders based on their renunciation of state-supported terrorism, their willingness to seek a negotiated settlement to the Iran-Iraq war, their non-interference in other states' affairs, and their cooperation in settling US-Iranian claims in the Hague Tribunal.
- Maintain our neutrality in the Iran-Iraq war while encouraging third party initiatives to end the conflict and increasing political-military cooperation with Gulf Cooperation Council countries.
- In light of recent evidence that our allies continue to permit sporadic transfers of militarily useful equipment to Iran and that negotiations may be taking place between commercial firms and Iranian officials, we should increase the pressure on our allies by considering public statements and possible sanctions.

Public Diplomacy

- Our public statements on Iran should bring pressure to bear squarely where it is needed--on the current Iranian regime. In tone, our public position must avoid casting Iran as a country and the Iranian people and culture, as well as Shia Islam, as the enemy, but should emphasize opposition to the policies of the present Iranian government and the corrupt mullahs inside the government. Our statements should aim to encourage those elements in Iran who disagree or oppose regime policies.

Economic

- A full range of US export controls are already in effect.

[REDACTED] We
 should reassess the effectiveness of present controls in
 curbing all but [REDACTED] in exports.

- In conjunction with discreet political contacts proposed above, we could suggest to the Iranians that correct relations would include relaxation of current US trade restrictions and normal trade relations with an Iranian government that is not hostile to US interests.

(TS) I concur with the balance of the recommendations in the draft NSDD in so far as they support current US policy. My recommendations reflect my very strong view that US policy must remain steadfast in the face of international lawlessness perpetrated by the Iranian regime. Changes in policy and in conduct, therefore, must be initiated by the Iranian government. By remaining firmly opposed to current Iranian government policies and actions, yet supportive of moderation and a longer term improvement in relations, we can avoid the future enmity of the Iranian people and develop the leverage necessary to counter a possibly very dangerous increase in Soviet influence. In particular, we need to be prepared for a possible period of turmoil as the regime begins to change, by building up effective instruments of influence and access to people and organizations within Iran, so as to counter a Soviet attempt to promote a pro-Soviet successor regime.

SPECIAL OPERATIONS POLICY ADVISORY GROUP

B-104

The Special Operations Policy Advisory Group was formed in December 1963 under the authority granted in PL 92-463 Federal Advisory Committee Act to advise the Secretary of Defense on key policy issues related to the development and maintenance of effective special operations forces. The SOPAG meets on an irregular basis to discuss, for example, organization, force structure, manpower and personnel, readiness, and equipment. They meet in closed session as classified material may be presented.

The SOPAG activities relate only to policy and do not involve operational matters.

Members of the SOPAG are appointed for one-year terms in August each year. They serve as DoD consultants, without compensation, unless otherwise employed by DoD. There is no set number of members, but membership has ranged from 9 to 11 members.

Normally members have been invited to renew their membership annually unless there is some indication or desire not to serve.

NOTE FROM: OLIVER ROYCE

Subject: REVIATR BIKER CIRC

Re: discussion in Geneva among Sinche, Copp, Gotthardt and [redacted] which were concluded this weekend, subsequent discussions with Henry Aaron here in Washington which are continuing, and calls from Copp and Sinche's asst (Isakod) who is "baby sitting" the Iranians in Paris (about they are are receiving guidance from Tehran).

The attempted transfer through [redacted] of 18 West German West Army because the Iranians were in fact making weapons system that would be used to supply Afghanistan, Elitka along the Iranian/Soviet border and on the Iranian/Iraqi border. Sinche said that these flights occur regularly and on days as 1981 inside Iranian airspace. Because Schlemmer and Ledeen were familiar with the operational parameters of the deal, they agreed to ship 120 weapons that were totally inadequate to meet the requirements established by the Iranians. This delivery has created an atmosphere of extraordinary distrust on the part of the [redacted] in Sinche's view, because the credibility of the [redacted] mission has probably been seriously called into question.

Despite this perception, Gotthardt said whenever times that this whole thing "breaks down" on the part of the Iranian, Copp & Sinche here have been able to proceed with a renewed dialogue which still promises hope for achieving our three objectives:
-- support for a pragmatic - army oriented factline which could take over in a change of government
-- return of the five HARC hostages
-- no more terrorism directed against U.S. personnel or interests.

From these ongoing discussions, which in two cases included Iranian military officers, Copp and Sinche conclude that the military situation in Iraq is desperate. The Iranian descriptions of the state of their equipment, lack of competent management, inability to repair, the consistency of the military posture, the unwillingness to make any military collaboration, the unwillingness to change in the way to soldiers. Thus, there is considerable pressure on the interlocutors in Europe to produce - quickly.

Given the relatively low level of competence on the part of the Iranians in Europe, and the fact that any supplies delivered will undoubtedly have to be obtained by an Army or Air Force officer, it is very doubtful that a "style transaction" arrangement can be worked out with the parties in Tehran, no matter what is agreed to in Europe. In short, they have been

UNCLASSIFIED

N 12095

FILE: MUYF [REDACTED] WHITE HOUSE COMMUNICATIONS MGBUCT

N 12096

"ascend" no many times in the past that the attitude of distrust is very high on their part. At the same time, in all dimensions (including today's phone calls) they are desperate to conclude some kind of agreement in the next 10 days and have even asked that the meeting be held in London. In London he believes that they are very concerned that the hostages (the only people leverage point besides the Jews in Iran) may be killed or captured/ released by the Syrians, Druse, Phalange or Amal in the next future. Wall's contacts with the captors mean to corroborate this assessment. In short, time is very short for all parties concerned.

Finally, there is the matter of the longer term strategy for what we should be attempting to accomplish with the Iran-Iraq war and a more reasonable ceasefire. In this regard, I have several potential discussions with Kliche and Noron as it is apparent that the Iranian position continues at a stalemate, a more moderate Iranian government will emerge and will somehow find a way to continue getting their people (Jews) out of Iran through some kind of better arrangement. In that the first two of their goals are, it would seem, generally congruent w/ our interests, and their last a fact of life, we should probably be seeing the return, though it may be a part of the necessary first steps in achieving the broader objectives. Billie Kliche, Susan, Copp and I all agree that there is a high degree of risk in permitting the course we have started, so are we so far removed from the possibility that has been started could have even more serious repercussions. After the next steps as "confidence building" on the part of both sides, the next step is to have a simultaneous sheet of character we are dealing with on the other side. We are dealing with a primitive, unsophisticated group who are extraordinarily distrustful of the West in general and the Israelis/S. In particular. They have not the slightest idea of what is going on in our government or how our system works. Today for example, Corba called Copp in absolute confusion over the fact that Sakasani had just received a letter from [of all people] Sen. Nunn regarding the American hostages. Since the Iranians are adamant that they not be publicly connected with the seizure, holding or release of the AMCIAs, Mr. Corba wanted to know, was there being broyvat into this "solution to the puzzle." Corba reiterated that "parli ought to have more control over difficult decisions." Billie told him the letter had nothing to do with what we are about, but Corba did not seem convinced that this wasn't some sort of effort to embarrass Iran.

Given this very unhampered view of things on their part and the distrust that the Iranians obviously feel, we believe that if we stop the current effort at this point and do not at least proceed with a "test" of the current relationship we:

- can the risk of never being able to establish a "winchord" for the longer term goals is that the people we are dealing with will be totally discredited at home; and
- the greater likelihood of reprisals against us for "leading them on." These reprisals could take the form of additional hostages seized, execution of some/all of those now held, or both.

While the threat to carry out executions against us has not, to my knowledge, ever arisen (it certainly has not since Kliche/Copp/Herb have been directly engaged -- and Michael never mentioned it), it is interesting to note

12097

that when Copp questioned the boss fides of Gotbe and his cohorts as capable of delivering on their end of the arrangement, Gotbe carefully noted that since these discussions began, Michael Schelsner, Gotbe carefully noted that a single Israeli Jined bomb threat, a "ticking or kidnapping" -- and that there could be some of this "noted", a "ticking or kidnapping" -- and that there are signs of confidence that this activity is being planned. There are some issuer indications of confidence in recent days not proper. There are some -- in response to Copp's demand for funds to be deposited in advance to pay operational costs, and that the Israelis were told were "purchases" of the 18 3822 aircraft a total of 349 has been deposited, return to original intent week has been repackage and are ready for the portion in "Yemen Coast" available flight, long-term and that they are asking that their requirements are of Israeli originated support which would include technical assistance w/ requested hardware which is critically include technical assistance w/ operational tests and less than a dozen flyable aircraft).

sith all of the above as a lengthy preamble describing too exactly frantic work w/ the Israelis & Iranians, the following proposal has evolved on Saturday:

- The total "package" from the Israelis w/ consist of 58 I SHAHS w/ FIP (preduct improvement package) and 7100 BASIC TOYS, (delivered w/ commence on or about 12 December as follows:
 - B-4rs: 1 707 w/160 TOYS - 1 ANCIU
 - B-19hrs: 1 707 (name A/C) w/100 TOYS - 1 ANCIU
 - B-20hrs: 1 707 w/50 SHHS & 900 TOYS - 2 ANCIUs
 - B-24hrs: 1 707 w/100 TOYS - 1 ANCIU
 - B-28hrs: 1 707 w/2000 TOYS - French Montage

All leveled on our side recognize that this does not meet one of the basic criteria established by the opening of this venture: a single transaction which wd be preceded by the release of the hostages. However, given the points above regarding the release of the hostages, we cannot believe it is about the only way we can get the overall process moving. Measures have been taken to reduce the chances of OPBAC in the part of transactions and to preserve a measure of OPBAC in the part of transactions. It is the case of a double cross, one of the first steps has already wiffred w/ the Saudis (though apparently not total heart willing after last week's visit. The transaction failed to produce results. The first two deliveries, via 707 freighters are relatively small and if they do not produce the desired outcomes, all else stops. All 3 are now under our control.

OPBAC concerns are threefold: communications, deliveries escort to the end and replacement of the Israeli stocks. To solve the first problem an OPS Code is now in use by all parties. This code is similar has never been compromised. The delivery/flight planning security problem has been solved by a such more deliberate selection of aircraft and aircraft

We could/should hope to achieve. Thus, the only portion fully aware of all dimensions of what we are about are you and M.C.

I have given careful consideration to what you suggested re an SCR meeting with the Israelis in an effort to obtain release of the hostages before starting on an effort to obtain release of the present prisoners in Lebanon. Like you and Ted, I find the idea of better ties between the Israelis and the poor men captured. Nonetheless, I believe that as far as the lives of these poor men captured, seats in London or Tel Aviv, too far along with the Israeli success development. Each one. If we do not at least have one more try at this point, I stand a good chance of condemning some or all to death and a renewed wave of Islamic Jihad terrorism. While the risks of proceeding are significant, the risks of not trying are least five times greater.

traveling the Clinton east week. Elliott has responded that he believes
such a trip to both necessary and urgent. The trip wd be "billed" as a
quick tour through the region to confer w/ top ranking U.S. officials to
reinforce the continuity of U.S. policy in the region. In each location
you wd meet w/ the U.S. Ambassador and be accompanied by Gen Jack Galvin,

future -- after the installation of the newly elected government in Costa
Rica, Honduras, and Guatemala in January) It will also ensure that you do not
meet heads of state or political leaders on this visit. After the trip we
wd highlight that the purpose of your first "secret" trip was to meet
privately w/ U.S. Officials re the steadfastness of the President's policy,
that even though our approach was very closely identified w/ NSC, it neces-
sary remains no change and that the region was so important that you went
direct and will return at a later date to meet w/ the new democratically

effect on our friends in the region, the Central American [redacted] who

 The MSG99 Machine just ate half the note: text below is reconstruction of
 remainder of text re yr CEN78A Trip.

From perspective of all concerned, best travel time seems to be to depart on
 Weds P.M. and return Thurs P.M. Earlier departure conflicts with Elliott's
 ability to attend and later schedule would preclude Davis accompanying. Since
 you should get to base both ways, it would be best to take the Sat Texas time
 frame if at all possible. For scenario is equally bad for all dates, unless
 you choose to travel on a pri to [redacted]. Only disadvantage here may be
 complications in trying to meet with [redacted] local officials who tend to disappear
 on occasions.

If you agree with the general approach indicated above, we will least approach
 forward writer in a very small circle, along the lines of the plan we sent
 Elliott in connection about the approach and necessity. Multiple
 you'd like to comment about the approach and necessity. Multiple
 but not much longer. Once we have a way to get things rolling again

This approach will be a desirable cover for delivering the message we need most to [redacted]. Both of whom will want to congratulate you on your new [redacted] office. You are making a "whirlwind" trip to the region to see U.S. officials, meet with governments (we do need to consult to such a visit at some date in the next few weeks after the installation of the newly elected governments in Costa Rica and Panama in January) it will make sense that you do not do a single day of that or [redacted] this visit. After the trip we do background that the purpose of your first [redacted] trip was to meet privately w/ U.S. officials to the administration of their use to meet that [redacted] our approach was very closely identified w/ ACP's policy, they connect me change and that the region as an important that you meet there first and will return at a later date to meet w/ the new democratically elected leaders. I just got a call from Rich Armitage, who was politely registering a protest that he was not invited to the meeting this afternoon. He said he was in the meeting on Tuesday and had "left his calendar cleared" in expectation of a meeting today, but never got a call. He was aware that you had convened a session for this afternoon. I just said that when I got back from my trip I found a meeting was scheduled but didn't know much about it and thought it was only you, Elliott and myself. I recommend we leave the composition unchanged, because it would be impossible to discuss diplomatic initiatives with Defense there.

115 . Would you identify chronologically the jobs that you
116 held between law school and between the time you began with
117 your present firm?

118 . A Well, through 1976, I was a staff assistant to Mr.
119 Reagan in his bid for the nomination, which was as we all
120 know unsuccessful. After returning to San Diego, I can't

124 . In 1979, I guess, or late '79, early '80, I can't

127 . Thereafter served--I served on the transition team,
128 served briefly as Acting Deputy Assistant Secretary of
129 State, served briefly as Acting Deputy Assistant Secretary
130 for the Bureau of International Organizations and left

133 . Q Prior to your work with Ronald Reagan in 1975 and
134 1976, had you worked with him in any capacity?

135 . A No, sir.

136 . Q How did you obtain the job in 1975?

137 . A I was clerking for a law firm in San Diego and one
138 of the clients of that law firm was a gentleman who was--I
139 guess a friend of ex-Governor Reagan's, knew of his
140 intention to declare for the nomination, and I was asked by
141 the--one of the attorneys for whom I worked at the time to
142 take a trip to Lafayette, Louisiana, and did so with Mr.
143 Reagan--did so.

144 . Spent a week, and at the end of the week was invited
145 by Mr. Reagan and his immediate staff then to stay on board

PAGE 7

149 . A I was doing advance operations--I guess is the best
150 way to describe it.

151 . Q Can you elaborate on what that involved?

152 . A That involved preceding the candidate to this
153 intended destination and making arrangements for him and for
154 his party while he was there, for arranging whatever
155 speaking or meeting agenda items were to take place.

156 . At that stage of his run for the nomination, there
157 were very few of us, so our responsibilities occasionally
158 spilled over into other areas.

159 . We would collect information where it was feasible
160 or felt it might be interesting to one of the advisors to
161 Mr. Reagan, and served in some capacities as a quasi-
162 personal aide when he arrived--from the time he arrived until
163 the time he departed, and supervised to the extent that this
164 was the case, other advance people who were on ground
165 working that site and worked closely with the Secret Service
166 to ensure the security of the candidate.

167 . Q To whom did you report in this job?

168 . A I reported principally to Chuck Tyson.

169 . Q And what was his position?

170 . A You know, I can't remember titles. He may have been
171 Director of the Advance Operations--I guess it would
172 be--fairly accurate description of his role.

173 . Q Did you have in this job daily contact with Ronald

174 Reagan?

175 . A No. To the extent that I was on the ground and he
176 was there from the time he arrived until he left, yes, I had
177 daily contact with him.

178 . Q Did you first meet him in connection with this trip
179 to Louisiana that you described?

180 . A Yes, sir.

181 . Q And how many months--let me rephrase the question.
182 You say this job extended from 1975 to 1976. How many
183 months did this involve? Was this six months or eight
184 months?

185 . A I couldn't be precise in my answer to that. It was
186 probably around six to nine months, although I am not
187 certain.

188 . Q Okay.

189 . And during this period of time, is it correct to say
190 that normally, you would have personal contact with Ronald
191 Reagan at least every week?

192 . A I guess that is probably a fair estimation.

193 . Q And there was some periods of time when you would
194 have daily contact with him?

195 . A Yes, sir.

196 . Q And some periods when you would not meet with him
197 personally for several days, I take it?

198 . A That is correct; I think for purposes of

UNCLASSIFIED

UNCLASSIFIED

PAGE 9

199 clarification, I was not an advisor to Mr. Reagan at the
200 time, so my contact was in the form of advance man's
201 contact. It was not the kind of contact where we would sit
202 down and chat or where he would discuss issues with me.

203 . Q Did he call you by your first name?
204 . A I think after a while, he probably did. I guess I
205 he did.

206 . Q Did you call him by his first name?
207 . A No.

208 . Q What did you call him?
209 . A I called him Governor.

210 . Q You say there were a number of advance men doing
211 this type of job. Approximately how many were there during
212 this period?
213 . A I think back in '76, I would guess there were full-
214 time somewhere between seven and 10 of us in the country.
215 There were just very few.

216 . Q And you understood that you reported to Chuck Tyson.
217 . A That is correct.

218 . Q Now, what was the chain of command above Tyson, as
219 you understood it?
220 . A Well, certainly Mr. Deaver was almost always with
221 Mr. Reagan in those days, and final decisions to the extent
222 that I was certainly aware of them or advised of them were
223 in Mike's hands, in terms of the nature of operations that I

225 | Mr. Meese was not at that point--in my recollection,

226 | Mr. Meese was not always present on these trips with Mr.

227 | Reagan, but he was certainly there a significant amount of

229 | Mr. Nofziger was the Press Secretary I believe then,

250 didn't sit in on any of the policy meetings. It was

252 . It's hard to go back and estimate. I may have seen

254 . Q Is it fair to say you would see him in a room from
255 time to time, and he would speak to you and you would speak
256 to him?

257 . A Sure. You have to put this in perspective. My
258 principal responsibility was to create events essentially,
259 and make sure they ran smoothly, and when Meese was
260 traveling with then-Governor Reagan, he was there, and while
261 the Governor was speaking, for example, during a dinner, the
262 staff would huddle at a table in the back of the room, if it
263 was a dinner or a speech and talk, and evenings we would
264 occasionally get together.

265 . Q Were you on a first-name basis with Mr. Nofziger?

266 . A Yes.

267 . Q How frequently during this period did you see Mr.
268 Nofziger?

269 . A I would guess about the same number of times I saw
270 Mr. Meese, because Mr. Nofziger also traveled, I believe,
271 pretty much and stayed with Governor Reagan.

272 . Q The campaign came to an end, and you got a job with
273 the firm in San Diego that you identified, the Wasserman

274 firm.

275 . A Yes, not immediately after I returned. It was
276 probably six to nine months after I returned. I am guessing
277 at a stretch of time here.

278 . Q Were you taking a sabbatical for a while?

279 . A No. I was--I was doing a couple of things. I had a
280 friend who I had graduated law school with who was then
281 representing some artist in Los Angeles, and he involved me
282 in that briefly, and I looked at a couple of other things.

283 . I was looking around, and trying to make some
284 decisions.

285 . Q And then you found this opening with the Wasserman
286 firm?

287 . A Yes. I had graduated with Mr. Geile. Mr. Wasserman
288 was about 20 to 25 years older than we were.

289 . Q And joined that firm as a partner.

290 . A Yes.

291 . Q And you worked there for approximately four years?

292 . A Three, three and a half years--I guess until I
293 started with--until I rejoined the Reagan campaign in 1979.

294 . Q During this period, did you continue to have contact
295 with Mr. Deaver?

296 . A No. I received--we exchanged letters on a couple of
297 occasions. I believe I saw Mr. Deaver certainly a few times
298 during a stretch. Those^d were occasions when Governor Reagan

299 | would be in San Diego, for example, to speak to a group or
300 | attend a dinner, and I would get a call and assist in the
301 | advance work.

302 | . Q During this period, did you--did you meet with
303 | Governor Reagan at any time?

304 | . A Had no private meetings with Governor Reagan. I was
305 | with him at at least one event I can clearly recall, but had
306 | very little contact with him. Maybe on one or two
307 | occasions.

308 | . Q Did you continue on speaking terms with him? He
309 | would speak to you and you would speak to him. He would
310 | call you Marty and you would call him Governor?

311 | . A I think after the passage of about a year, I am sure
312 | someone refreshed his memory as to names before we saw each
313 | other. We didn't have any in-depth or extensive
314 | conversations.

315 | . I think the longest stretch of time I ever spent
316 | individually speaking to Mr. Reagan, and was waiting in the
317 | back of a limousine, because we were early for an event, and
318 | it was delightful.

319 | . Q But Mr. Deaver would look to you for--

320 | . A He would look first, I think, to Mr. Tyson. Mr.
321 | Tyson would then call me and perhaps one or two other
322 | people, depending on the nature of the event.

323 | . Q And again, Mr. Tyson was your superior in the

324 | campaign, Chuck Tyson?
325 | . A Yes, sir.
326 | . Q And was he located in San Diego also?
327 | . A Yes, he was.
328 | . Q Was he a lawyer in San Diego?
329 | . A No.
330 | . Q Did you specialize in any particular area of
331 | practice when you were at the Wasserman firm?
332 | . A We had a pretty general practice. There were only
333 | the three of us in that firm. I think for a period of about
334 | a year, we had one associate and perhaps had some clerks
335 | working for us throughout.
336 | . Q During this period, we talked about your dealings
337 | with Mr. Deaver. Did you have any contacts during this
338 | period with Mr. Meese?
339 | . A I may have seen him a couple of times. Again, in
340 | the same circumstances when Governor Reagan was around, but
341 | we didn't get together by ourselves.
342 | . Q Did you have any contacts with Mr. Hofziger?
343 | . A I guess the same answer, same kind of scenario.
344 | . Q You testified that you later became involved in the
345 | 1980 campaign on behalf of Ronald Reagan?
346 | . A That is correct.
347 | . Q How did you get a job in the 1980 campaign?
348 | . A Well, I was called by--I don't recall whether the

349 telephone call came from Chuck Tyson or Ed Meese, but I was
350 asked to come up to Los Angeles initially for a couple of
351 weeks to help them organize a national advance
352 operation--scheduling an advance operation.

353 . Q Approximately when was this call?

354 . A I couldn't tell you. I honestly don't recall what
355 month it came in. If we track back to the beginning of the
356 '80 campaign, it would be right about then.

357 . Q Would it have been in 1980?

358 . A You know, I don't know. I don't know whether we
359 started it in 1980 or whether we got started in '79. I
360 honestly couldn't tell you.

361 . Q And did you, in response to this call, go to Los
362 Angeles for two weeks to help organize?

363 . A I did. I didn't stay there. I flew up every
364 morning and flew back every night for a couple of weeks.

365 . Q Who were you reporting to in this capacity?

366 . A I was working again with Mr. Tyson principally.

367 . Q Did you have contact with Mr. Deaver?

368 . A Yes.

369 . Q Daily contact?

370 . A I don't know. All of us were in the office in Los
371 Angeles--within the Deaver-Mannafor office. That is where we
372 were putting this together. Deaver--H-a-n-n-a-f-o-r-d. They
373 have a public relations firm in Los Angeles, and Governor

374 Reagan's office was in there as well, so although I don't
375 have any specific recollection, I am sure I saw Mike quite
376 frequently then.

377 . Q What was the frequency of your contact, if there was
378 any, with Mr. Meese during this period?

379 . A Well, I guess Mr. Meese and I saw each other very
380 regularly, because we would occasionally be taking the same
381 flight up in the morning. He also was returning to San
382 Diego in the evenings, taking a 6:30 PSA shuttle up and an
383 8:30 shuttle back, and we would often to that together.

384 . Q You would sit next to each other on the plane?

385 . A Sometimes.

386 . Q Was Mr. Tyson also commuting from San Diego?

387 . A Occasionally he was flying back and forth. We would
388 sometimes take a room--there were two hotels immediately
389 across the street from the building--depending on the
390 workload.

391 . If it got too late, we would overnight in Los
392 Angeles.

393 . Q What was Mr. Meese's role in this two-week
394 organizing effort?

395 . A Well, I wasn't--I don't know exactly what Mr. Meese
396 was doing. I was not working with Mr. Meese during those
397 two weeks. We saw each other commuting, I am sure,
398 occasionally talked to each other in the office, but I

UNCLASSIFIED

PAGE 17

399 couldn't tell you what Mr. Meese was doing.

400 . Q Did you have contact with Mr. Nozziger in this
401 period?

402 . A You know, I don't remember a lot of contact with Mr.
403 Nozziger. As a matter of fact, I am not sure that Mr.
404 Nozziger was then working with the campaign at the very
405 beginning. I think he rejoined us maybe a month later or
406 so, although--those dates may not be exactly accurate.

407 . Q You indicated that Governor Reagan or then-Governor
408 Reagan had an office in this same group of offices where you
409 were working.

410 . A That is correct.

411 . Q Did you have contact with him during this period?

412 . A Probably not. I don't remember. I have have seen
413 him. He wasn't spending all day in the office. He would
414 occasionally come to the office and spend some time or have
415 meetings, but not with me.

416 . Q Who was in charge of the campaign efforts at this
417 point?

418 . A Well, I think by that time, as far as I was
419 concerned, anyway, Ed Meese was in charge of the campaign
420 effort. I believe John Sears was already out of the picture
421 at that point.

422 . Q Did William Casey have any role in the campaign at
423 this point?

UNCLASSIFIED

UNCLASSIFIED

NAME: HIR212002

PAGE 18

424 . A No. At that point, I didn't even know who Mr. Casey
425 was.

426 . Q So, your initial involvement in the 1980 campaign
427 came through the request that you come up and work in this
428 two-week organizing effort, and you responded affirmatively
429 to the request?

430 . A That is correct.

431 . Q Now, what happened after that that led to your
432 longer-term involvement in the campaign?

433 . A I got caught up in it once again. We scheduled--the
434 Convention was scheduled for Detroit. I was named head of
435 logistics for that, head of operations, I guess, for that
436 Convention.

437 . Although, as it turned out, I shared that role with
438 a couple of people once we got to Detroit who had a lot more
439 experience than I did in doing that type of thing, and
440 subsequent to the convention was invited to come back to
441 Washington, D.C., where we were opening our office for the
442 general campaign, and did.

443 . Q You say got caught up in it after this two-week
444 period. By that, do you mean that you were continuously
445 involved in the campaign in one way or another after this
446 initial two-week organizing period?

447 . A Yes, sir.

448 . Q When was the Convention in Detroit?

UNCLASSIFIED

UNCLASSIFIED

NAME: HIR212002

PAGE 19

449 . A Either July of August.

450 . Q Of 1980?

451 . A 1980, yeah.

452 . Q Is it correct that you worked for several months in
453 the campaign in advance of the Convention?

454 . A I couldn't tell you exactly how long a period it
455 was. It was probably ~~six~~ weeks, two months, in that
456 vicinity. Maybe more.

457 . Q Were you based in Detroit during this period?

458 . A No, I was based in Los Angeles. I stayed in
459 Detroit--I probably arrived in Detroit 10 days to two weeks
460 prior to the Convention, by my best recollection. And then
461 stayed through the ~~convention~~ *convention* and then left immediately
462 after the ~~convention~~ *convention*.

463 . Q Who was your superior during this period?

464 . A Chuck Tyson.

465 . Q Tyson again.

466 . What was the frequency of your contact with then-
467 Governor Reagan?

468 . A During which period?

469 . Q From the initial organization meeting that you
470 described, the two-week organization period, up through the
471 ~~convention~~ *convention*.

472 . A It was infrequent. There were one or two occasions
473 where I was asked to go out on an emergency to a site that

UNCLASSIFIED

474 he was planning to visit, so I would assume then--a quasi-
 475 advance role and have some contact with him in that sense.
 476 . Q Didn't spend much time with him during the ~~same~~ ^{conver-}
 477 ~~tion~~ ^{tion} period when he was in Detroit.
 478 . Q What was the frequency during this period that we
 479 have just described of your contact with Mr. Deaver?
 480 . A I guess I saw Mike or spoke to him fairly regularly.
 481 I don't know if that is every day, twice a day, every other
 482 day, but--
 483 . Q On the average, several times a week?
 484 . A I am sure several times a week.
 485 . Q Would the same have been true with respect to Mr.
 486 Meese?
 487 . A No.
 488 . Q How often would you--
 489 . A Less frequently with Mr. Meese. I had no specific
 490 reason to have--been having discussions with Mr. Meese. We
 491 were friends, so when he was there, I would chat, socially,
 492 or principally we talked about some event I had done or he
 493 had a comment on. We had no regular contact.
 494 . Q Is it correct that during this period, you work
 495 responsibilities did not involve Mr. Meese?
 496 . A That is correct.
 497 . Q Did your work responsibilities involve Mr. Deaver?
 498 . A Yes.

UNCLASSIFIED

UNCLASSIFIED

NAME: HIR212002

PAGE 21

499 . Q In what way?

500 . A Well, Mr. Deaver was--I don't know how to describe
501 it. He was an advisor to the President--to Mr. Reagan then,
502 and all scheduling and advance operations ultimately were
503 cleared through Mr. Deaver, so I had reason to have contact
504 with him--occasionally alone, more frequently with Mr. Tyson
505 and Mr. Deaver when we would review something.

506 . They weren't typically extensive contacts or
507 meetings.

508 . Q Did you understand that Mr. Tyson reported to Mr.
509 Deaver, in effect?

510 . A Yes.

511 . Q Was Mr. Nofziger involved in the campaign by this
512 point?

513 . A Yes.

514 . Q How frequent were your contacts with him, if any?

515 . A I would probably describe that the same way I
516 described my relationship with my contact with Mr. Meese,
517 although Mr. Nofziger and I were friendlier and closer than
518 I think I was to Mr. Meese.

519 . So, we might occasionally in Detroit, for example,
520 go out and have a cup of coffee at the end of the day, or we
521 went down and got ice cream at a shop a couple of times. I
522 didn't do that with Mr. Meese.

523 . Q Your job responsibilities did not involve any

UNCLASSIFIED

UNCLASSIFIED

PAGE 22

524 reporting to or association with Mr. Nofziger; is that
525 correct?

526 . A That is generally correct, although clearly in terms
527 of the press aspect of an advance operation, Mr. Nofziger
528 has some play in that, and I know that Mr. Nofziger worked
529 with Mr. Deaver and Mr. Meese in terms of making ultimate
530 scheduling and appearance decisions.

531 . Q Who was the Campaign Director during this period
532 prior to the ~~convention~~ ^{convention}?

533 . A It is a good question. I think--I am not exactly
534 sure whether Mr. Sears was permanently out of the picture
535 and whether Mr. Meese assumed that role until such time as
536 Mr. Casey was run on board. I can't give you precise dates.

537 . Q Did you have any contact with Mr. Casey during this
538 period prior to the ~~convention~~ ^{convention}?

539 . A No.

540 . Q When did you first meet Mr. Casey?

541 . A After I had returned to Washington, D.C. post-
542 ~~convention~~ ^{convention}, so it would be August, September, the
543 earliest.

544 . Q In some of your prior answers, Mr. Artiano, you have
545 given some description of your work during this period prior
546 to the ~~convention~~ ^{convention}, after the two-week organizational
547 period, but I think it would be helpful for the record if
548 you could just specifically summarize exactly the type of

UNCLASSIFIED

UNCLASSIFIED

PAGE 23

549 work you were doing in this period and what your
550 responsibilities were?

551 . A We are talking about prior to and during the ~~conven~~^{conven}
552 ~~tion~~^{tion}?

553 . Q Yes.

554 . A Prior to the ~~convention~~^{convention}, we were attempting to
555 set up a network of advance people around the country, and
556 that took up a great deal of my time contacting these
557 people, interviewing them, finding out what kind of
558 experience they had--we had people out already at that point,
559 advance people, in the field who were calling in because
560 they were looking at potential sites for visitation.

561 . We were discussing the ~~convention~~^{convention} and working on
562 plans for the ~~convention~~^{convention} during that stint in Los Angeles
563 and that is the--the detailing of that, as you can imagine,
564 is unbelievable, and I worked to a great extent with United
565 Airlines. We were chartering several jets from United
566 Airlines, and in fact, we were reconfiguring them, and I did
567 some work on that during this period of time.

568 . We had meetings in Los Angeles where we would call
569 in people who had experience in Presidential campaigns, and
570 have lengthy meetings with them, just seeking advice and
571 recommendations about people, about procedures, about the
572 ~~convention~~^{convention}, about that sort of thing.

573 . And frankly, on my own initiative, I started looking

PAGE 24

574 into the debates which I was anticipating, and in that
575 connection, flew a gentleman out from Virginia who had some
576 logistical expertise in setting up these debates.

577 . He recommended, sensing my interest, that I collect
578 certain data that he recommended to me, certain books and
579 briefing materials that were available to the public, and
580 also--also highly recommended a gentleman who is a debate
581 consultant with whom I met after I returned to Washington,
582 and indeed, consulted to the regular organization
583 subsequently.

584 . Q Were you involved in fund-raising at all?

585 . A I really wasn't. I set up certainly as an advance
586 man several fund-raisers in terms of just finding a location
587 for it. I had a number of conversations during the course
588 of my advance--advancing with fund-raisers, people who were
589 setting these things up, but I wasn't collecting or
590 soliciting any money.

591 . MR. FRYMAN: Off the record a second.

592 . [Discussion off the record.]

593 . MR. FRYMAN: Okay.

594 . BY MR. FRYMAN:

595 . Q Mr. Artiano, is it your best recollection that Mr.

596 Casey was not involved in the campaign prior to the ~~Conven-~~ ^{Conven-}

597 ^{tion} ~~Conven-~~
~~tion~~?

598 . A From my perspective in the ^{convention} ~~convention~~, he wasn't.

UNCLASSIFIED

PAGE 25

599 I hadn't met Mr. Casey. I don't remember when the first
600 time I heard his name was, whether it was pre-~~convention~~ ^{convention}
601 or during the ~~convention~~ ^{convention}. But I had no interaction with
602 him at all, so I would know whether he was or was not
603 involved.

604 . Q Am I correct that you were involved in the Reagan
605 campaign in 1980 after the ~~convention~~ ^{convention}?

606 . A Yes, sir.

607 . Q What led to your continued involvement after the
608 ~~convention~~ ^{convention}?

609 . A I was asked to continue and wanted to continue.

610 . Q Who asked you?

611 . A I don't recall whether it was Mr. Tyson or Mr.
612 Deaver, but I think we all understood we were all going to
613 continue.

614 . Q Did this same team generally stay together after the
615 ~~convention~~ ^{convention}?

616 . A Well, I think the same players remained involved,
617 but we were split up significantly. Some of us were there
618 on the road all the time, some of us were in Washington all
619 the time, and there were a host of new players added
620 immediately upon our arriving in Washington.

621 . Q The period of your involvement in the campaign after
622 the ~~convention~~ ^{convention} was approximately July of 1980 through the
623 beginning of November ~~of~~ 1980; is that correct?

UNCLASSIFIED

UNCLASSIFIED

NAME: HIR212002

PAGE 26

624 . A Of the campaign, that is correct, through November
 625 4th.

626 Q How would you describe your responsibilities during
 627 this period?

628 . A Well, I believe my title was Deputy Director of
 629 Scheduling Advance Operations. Mr. Tyson was Director of
 630 the Scheduling Advance Operations. We put together a group
 631 of perhaps as many as 70 people in the Washington office,
 632 directly involved in reporting through myself and Mr. Tyson
 633 and scheduling advance--

634 . MR. FRYMAN: Off the record. Wait until this thing
 635 is over.

636 . [Discussion off the record.]

637 . BY MR. FRYMAN:

638 . Q Please continue.

639 . A --operations, and had somewhere between, I would
 640 guess, 50 and 130 people in the field who were also
 641 reporting into that office.

642 . Q And you continued to report to Mr. Tyson; is that
 643 correct?

644 . A That is correct.

645 . Q What did you understand was the line of authority
 646 above Mr. Tyson--after the ^{convention}~~convention~~?

647 . A Was never perfectly clear to me, but there were--it
 648 was easier for me to identify the people who are higher up

UNCLASSIFIED

PAGE 27

649 the ladder than I was. Mr. Casey clearly was the Campaign
650 Director. Jim Baker was brought on board, and was--very
651 active and influential in terms of campaign decisions made
652 during the general election.

653 . Bill Timmonds had also joined that senior group of
654 people. Bob Gray, with whom I rarely interfaced, also had
655 come on board, as well as a number of purely political
656 consultants, people like Paul Manafort.

657 . You know, I can't tell you whether Charlie Black was
658 involved with us then or not? I could recall some names,
659 but there were lots of new faces then.

660 . Q Let's start with Mr. Casey. You indicated earlier
661 that the first time you recall meeting Mr. Casey was in
662 August or September of 1980, I believe?

663 . A That is correct.

664 . Q Is that correct?

665 . Could you describe your first meeting with Mr.
666 Casey?

667 . A Well, I can't tell you precisely when we were
668 introduced, for example. I don't have any recollection of
669 it. The only--well, let me backtrack for second, if I may.
670 We had at some point, we began having 7:30 meetings
671 between--among senior people and the campaign, and I was
672 invited to sit in on those meetings. We had then in a
673 conference room in our election headquarters.

UNCLASSIFIED

UNCLASSIFIED

PAGE 28

674 . Q Is this 7:30 a.m.?
675 . A 7:30 a.m., virtually every day. Mr. Casey was in
676 attendance in many, if not all, of those meetings.
677 . Q How large a group was in attendance at these?
678 . A Perhaps eight to 12 people.
679 . Q Can you identify those individuals?
680 . A Mr. Casey, Mr. Meese, Mr. Deaver and Mr. Hofziger
681 when they were in town. Mr. Timmonds, Mr. Baker, a lady
682 whose name I cannot recall who stayed with us during the
683 campaign and then returned to California. Mr. Tyson. At
684 some point, Ron Walker, who was brought in during the
685 general to assist us in the advance scheduling operations;
686 Bob Gray, I believe, sat in at least some of those meetings,
687 and there were people who I remember being at some of the
688 meetings, but don't know if they were regulars there, people
689 like Rich Williamson and Paul Manafort and Kenny K-l-i-n-g.
690 . Q I want to come back to--you were answering the
691 question about Mr. Casey. But just continuing on with this,
692 these meetings were held at 7:30 every morning, and
693 approximately what period of time did these meetings
694 occur--during what months or what weeks?
695 . A During most of the general election period.
696 . Q That would be July through October?
697 . A No, I would say it was probably August--started
698 sometime in August, I think, or early September, and lasted

699 through the balance of the general election.

700 . Q Did Mr. Reagan ever attend these meetings?

701 . A I don't recall him ever being at one of these
702 meetings, no, sir.

703 . Q Returning to the subject that we were discussing,
704 specifically Mr. Casey and your meeting with Mr. Casey, if
705 you would continue your answer with respect to that.

706 . A I can recall only one or two times where I had an
707 individual meeting with Mr. Casey that was on a matter of
708 substance. The most vivid in my mind was one that concerned
709 the debates.

710 . I had, by this time, compiled a significant amount
711 of information in terms of briefing books and logistical
712 information about debates, and I was concerned that I didn't
713 see any activity and felt that it was--we should get a head
714 start on preparing Mr. Reagan for the debates, and as such,
715 went to Bill Timmonds and Stu Spencer, who was then
716 assisting as well, and made a pitch to them, and essentially
717 recommended that they use their office to spur some activity
718 in this regard, and advise them that I would be quite
719 interested to the extent that I could.

720 . Very shortly after that meeting, they agreed. Very
721 shortly after that meeting, I got a call from Mr. Casey and
722 went to his office, and he asked me what I had done and what
723 I had--and I told him, and he said, 'Well, bring that all up

724 | to my office. I am going to take charge of this,' and I
725 | did.

726 | . I had another meeting with Mr. Casey, and I will
727 | tell you quite frankly, I had been speculating about the
728 | nature of it. We had some confusion about planes or people
729 | to be transferred from one place to another, and frankly, he
730 | was the person I needed to speak to at that time.

731 | . Other than those two occasions, I don't remember
732 | having a one-on-one with Mr. Casey.

733 | . Q You had frequent contact with him in these 7:30
734 | morning meetings that you described?

735 | . A Well, I was sitting--I sat in those meetings. I will
736 | tell you that I wasn't a major contributor at those
737 | meetings. I was for the most part auditing those meetings.
738 | When matters of scheduling and advance came up, if Mr. Tyson
739 | didn't have the answer and I did, I would be called upon,
740 | and if Mr. Tyson was not available, a matter along those
741 | lines came up, questions or requests were directed to me.

742 | . Q Were you on a first-name basis with Mr. Casey?

743 | . A No, sir.

744 | . Q You called him Mr. Casey?

745 | . A Yes, sir.

746 | . Q Did he call you Mr. Artiano?

747 | . A I doubt that Mr. Casey ever knew my name for more
748 | than 10 minutes at a time.

749 . Q Were you involved in preparation for the debates in
750 the 1980 campaign other than what you have described?

751 . A No, no.

752 . Q You did not work directly with Ronald Reagan?

753 . A No, sir, I didn't. My only additional involvement,
754 as I recall now, was urging successfully that a gentleman by
755 the name of Miles Martel, who was a debate expert, be
756 brought in as a consultant, and he was.

757 . Q Your work on the campaign continued until the
758 beginning of November 1980?

759 . A That is correct.

760 . Q What did you do after the campaign or after Ronald
761 Reagan was elected?

762 . A I had--between Election Day and Mr. Reagan moving
763 into the White House and the Inauguration, I had a dual
764 role. I continued to serve in a--much reduced at that
765 point--scheduling and advance operation with Mr. Tyson, did
766 some coordinating with the Inaugural team under Mr. Gray
767 that was putting together the Inaugural ceremonies and also
768 served on the transition team.

769 . Generally, I guess that was the State Department
770 transition team under Mr. Fuller and Mr. Frank Shakespeare.
771 My responsibilities were fairly limited in that regard. I
772 did a transition report on the Overseas Private Investment
773 Corporation, and also attended some of the transition

774 meetings at the Department of State, and AID.

775 . Q By what organization were you paid during the period

776 between the election and the Inauguration?

777 . A I don't know. It was--we all were paid by the

778 same--through the same vehicle and I am not sure at what

779 point it stopped being the Reagan for President Campaign and

780 what point it was transition funds.

781 . We all received the same checks, late.

782 . Q Were these government checks or were these private

783 checks?

784 . A You know, I don't recall. I do not recall.

785 . Q Did you continue to be paid at the same amount?

786 . A I believe so.

787 . Q Do you know how you were selected to be involved in

788 the State Department transition team?

789 . A I don't know how the selection process was worked.

790 I requested some--that I be given some area in the transition

791 team because it was quite interesting to me, and I wanted to

792 participated in it.

793 . Q Did you request State?

794 . A I don't know. I honestly don't know.

795 . Q Had you previously known Dr. Fuller?

796 . A No, sir.

797 . Q Had you previously known Ambassador Shakespeare?

798 . A No, sir.

799 . Q During the period from the election until the
800 Inauguration, how frequent was your contact with Ronald
801 Reagan, if any?

802 . A If any, it was minimal.

803 . Q Do you recall any occasion when you spoke with him
804 during this period?

805 . A No. I recall occasions being in the same room with
806 him on a number of occasions, but not having a conversation
807 with him.

808 . Q How frequent was your contact with Mr. Deaver, if
809 any?

810 . A There was contact, but it was probably relatively
811 infrequent.

812 . Q Did the--was the contact related to your
813 responsibilities during this period?

814 . A Yes.

815 . Q How frequent, if any, was your contact with Mr.
816 Meese?

817 . A Limited--infrequent.

818 . Q And the same question with respect to Mr. Neffziger.

819 . A I think infrequent. I don't remember spending time
820 during that transition period with any of them. I certainly
821 as them, but I don't remember having any discussions with
822 them or--

823 . Q The transition period covered approximately three

UNCLASSIFIED

PAGE 34

824 months, is that correct--two and a half months?
825 . A Two and a half months.
826 . Q And I think you have described three general areas
827 of responsibility during this period: One, the State
828 Department transition team; two, work in connection with the
829 Inauguration; and, three, continued work with respect to
830 scheduling or advance work.
831 . Is that a fair description of your areas?
832 . A Generally, that is probably pretty accurate.
833 . Q Which of these areas did you devote most of your
834 time to during this period?
835 . A Well, I think the most intense application of
836 efforts was in connection with the transition report. I had
837 never done anything like and it was brand new to me, and I
838 was concerned about doing that--a reasonable job.
839 . Q I take it from your comments that prior to the work
840 on the transition team, you had not had any prior experience
841 in dealing with the Department of State?
842 . A That is correct.
843 . Q Or the Agency for International Development?
844 . A That is correct.
845 . Q You described a report which you prepared concerning
846 overseas private investment?
847 . A Yes, sir.
848 . Q How did you happen to prepare that report on that

UNCLASSIFIED

PAGE 35

849 | subject? Was that assigned to you by someone?
850 | . A Yes, it was. It was assigned by Mr. Fuller or Mr.
851 | Shakespeare at one of the meetings that we had.
852 | . Q How many people were involved in this transition
853 | team?
854 | . A Total number of people on the transition?
855 | . Q Well, let's start with that, yes.
856 | . A I have no idea. I would guess--I have no idea.
857 | Hundreds probably.
858 | . Q Was there a smaller group that you dealt with on a
859 | periodic basis?
860 | . A Yes, sir.
861 | . Q What was the size of that group?
862 | . A 12 people, perhaps.
863 | . Q And did you have periodic meetings, or what was the
864 | nature of your contact with the others in this group of 12?
865 | . A We had several meetings--I don't know, two, three
866 | meetings perhaps at the Heritage Foundation. The meetings
867 | were either chaired by Mr. Fuller or by Mr. Shakespeare if
868 | he here there.
869 | . Q Was Mr. Fuller the person generally in charge of the
870 | organization of the transition team as you understood it?
871 | . A Of the State Department transition?
872 | . Q Yes.
873 | . A Yes.

874 . MR. MEEHAN: So, it is clear when you say transition
875 team, in the hundreds he is referring to the overall
876 transition and the team he worked on was the State
877 Department transition.

878 . MR. FRYMAN: Well, let's focus on the group of
879 approximately 12 that you have described who were involved
880 in the State Department transition.

881 . BY MR. FRYMAN:

882 . Q Now, was the larger group of hundreds involved in
883 the transition--does that pertain also to the State
884 Department or is that to the entire Executive Branch?

885 . A That--to the entire Executive Branch, not to the
886 State Department.

887 . Q So that particular State Department group was
888 limited to this group that you met with from time to
889 time--insofar as you know?

890 . A So far as I know, yes, sir.

891 . Q And that was organized by Mr. Fuller.

892 . A Mr. Fuller and Mr. Shakespeare.

893 . Q Who were the other members who you recall that were
894 in this group?

895 . A The only two members I can recall were Elliott
896 Abrams and I believe Henry Mau, M-a-u.

897 . Q What was Mr. Mau's position other than being a
898 member of the transition team?

UNCLASSIFIED

UNCLASSIFIED

NAME: HIR212002

PAGE 37

899 . A I believe Mr. Mau was a professor at the college or
900 graduate level at a university here in Washington, D.C. at
901 the time. I am not certain of that, but I believe that was
902 his position.

903 . Q Other than your work on the report concerning
904 overseas private investment and your attendance at the
905 periodic meetings of the group, what else did you do in
906 connection with this work?

907 . A With the transition--

908 . Q With the transition.

909 . A I attended several meetings at the Department of
910 State. One such meeting was a meeting, I believe, of all
911 the Assistant Secretaries at the Department of State. That
912 is my recollection. I had another--I have another
913 recollection of a smaller meeting that I attended, and I
914 will be perfectly frank with you:

915 . I can't tell you who was at the meeting with me.
916 There was at least one person from the--one Assistant
917 Secretary or two Assistant Secretaries from the State
918 Department and one or two members from our group of 12. I
919 don't recall whether that was Mr. Fuller, Mr. Abrams, Mr.
920 Mau or someone else. I don't know who it was with at the
921 time.

922 . Q Did you work with other people in the preparation of
923 this report, or did you basically write the report by

924 | yourself?

925 | . A I worked with one other gentleman. His first name
926 | was Roy, and his last name I cannot recall, who was a
927 | financial consultant to the campaign. I worked under Bay
928 | Buchanan. And I asked for his assistance, because in
929 | part--obviously part of my reporting on the Overseas Private
930 | Investment Corporation involved reviewing their financial
931 | statements to make sure that I was accurately interpreting
932 | that data.

933 | . Q Now, you mentioned that Mr. Abrams was a member of
934 | the team. Had you met Mr. Abrams before your work with him
935 | on the team?

936 | . A I don't think so. I will qualify that by saying we
937 | may have met once before. I may have been introduced to him
938 | by Bill Timmonds. Somehow, I seem to have a recollection of
939 | that, but I am not certain that is the case. I can't tell
940 | you when that would have happened.

941 | . It would have happened probably immediately prior to
942 | the transition, and my first recollections of Elliott Abrams
943 | are during that transition period.

944 | . Q What was Mr. Abrams' position during this period,
945 | other than being a member of the transition team?

946 | . A I am not certain. I can't tell you what he was
947 | doing.

948 | . Q Was he living in Washington?

UNCLASSIFIED

PAGE 39

949 . A Yes, sir--I think he was living in Washington.

950 . Q How frequent was your contact with Mr. Abrams during
951 this November to January period?

952 . A Not very frequent. It was infrequent. I saw him
953 when we had the meeting at the Heritage Foundation--didn't
954 see him in the regular course of my transition
955 responsibilities, because he wasn't involved with the
956 Overseas Private Investment Corporation.

957 . I frankly can't tell you what Elliott's specific
958 responsibilities were during--on behalf of the transition
959 team other than knowing that he was involved in a State
960 Department transition.

961 . Q What did you do after the Inauguration?

962 . A Well, at some point after the Inauguration, I
963 accepted a position under Mr. Abrams who had then been named
964 Assistant Secretary for International Organizations as an
965 Acting Deputy Assistant Secretary in that agency under
966 Elliott.

967 . Q When you say at some point, approximately when was
968 this?

969 . A You know, I would guess sometime in February,
970 although I can't assure you that that is accurate.

971 . Q Do you know what led to the Administration offering
972 you this position?

973 . A I had gotten to know Elliott Abrams during the

UNCLASSIFIED

974 course of the months preceding that, and at some point,
975 either late in the transition period or post-transition, I
976 had met Elliott's wife--I don't even think their first child
977 was born yet at that point--hard to remember--but I started
978 establishing a friendship with him outside of the political
979 arena--and with Elliott's wife, Rachel.

980 . Q Is it your understanding that Mr. Abrams made the
981 decision to offer you this position?

982 . A I believe so. He's--I got the telephone call from
983 Mr. Abrams, and he asked me if I would be interested, and I
984 said I would be, and I went over to chat with him about it.
985 He was already in. I don't know that he was confirmed at
986 that point, but he was already Acting Assistant Secretary.

987 . Q How long did you continue in this spot?

988 . A Only for a few months perhaps, three months. I
989 don't remember the exact amount of time. I left to join the
990 law firm, and I believe I--I believe I started with the law
991 firm either at the end of May of 1981 or the beginning of
992 June of 1981.

993 . Q When you started this job in February, had you
994 intended to stay for such a brief period?

995 . A I don't think I had--I was kind of up in the air at
996 that point, frankly, about what I wanted to do. I had a
997 strong desire to go back to California at that stage of the
998 game. Frankly, working for the United States Government is

UNCLASSIFIED

UNCLASSIFIED

NAME: HIR212002

PAGE 41

999 not an appealing prospect to me.

1000 . Q Why was that?

1001 . A I just didn't feel comfortable in a bureaucratic
1002 situation, which is why I never went to work for a large law
1003 firm, and the State Department was clearly quite
1004 bureaucratized.

1005 . Q Did you have daily contact with Mr. Abrams during
1006 this February to approximately May period when you were
1007 working--

1008 . A Unless he was traveling, I am sure I did.

1009 . Q And in addition to your professional association
1010 with him, you indicated you had become personal friends--and
1011 with his family.

1012 . A That is correct.

1013 . Q And you saw them socially as well?

1014 . A Yes.

1015 . Q Were you married at this point?

1016 . A No, I was not.

1017 . Q Then, as I understood your answer, when you took
1018 this job in February, you took it with the intention of
1019 staying for a short period of time?

1020 . A I am not sure I could say that in all honesty. I
1021 can tell you very honestly that I didn't know whether I
1022 wanted to stay in Washington or go back to California, and I
1023 had frequent discussions about that with friends of mine and

1024 | with my father, for example, and with friends in California.

1025 | . I was kind of torn between going back to California
1026 | and staying in Washington.

1027 | . Q Did you tell Mr. Abrams when you took the job you
1028 | weren't sure how long you would be able to remain in that
1029 | position?

1030 | . A I don't remember specific conversations, but I am
1031 | sure I was quite upfront with Mr. Abrams because we were
1032 | friends.

1033 | . Q What led you to quit in approximately May of 1986?

1034 | . A I was unhappy at the Department of State, and I was
1035 | offered a job at the law firm that was very attractive to
1036 | me.

1037 | . Q What was attractive about it?

1038 | . A I liked the people. It was a new firm. It was
1039 | headed by Mr. Stan Anderson. Mr. Anderson and I had gotten
1040 | to know each other and become friends during the campaign.
1041 | Mr. Anderson was a--I don't know what his title was. He was
1042 | a consultant to Mr. Timmonds during the campaign, and we had
1043 | established a nice relationship.

1044 | . He had worked for a larger law firm and had left
1045 | with three of his partners and they were starting a new
1046 | venture and had very exciting plans with the venture. And I
1047 | was very impressed with the people, and it looked like a
1048 | terrific opportunity, frankly, and I was delighted with the

1049 offer, and I accepted it.

1050 . Q And you joined the firm as an associate in May of
1051 1981?

1052 . A That is correct.

1053 . Q And you became a partner two years later in 1983?

1054 . A Two years or less--may have been less than two years.

1055 . Q Mr. Artiano, we have talked about a number of
1056 individuals that you have known and you have worked with in
1057 the campaign and in other capacities. I want to now turn to
1058 a few additional individuals that we have not discussed.

1059 . First, David Fischer, F-i-s-c-h-e-r. I take it you
1060 know David Fischer?

1061 . A Yes, sir.

1062 . Q When did you first meet David Fischer?

1063 . A Either in late 1975 or early 1976 would be my best
1064 guess.

1065 . Q That was during the period right after your
1066 graduation from law school and while you were working as an
1067 Executive Assistant to Ronald Reagan; is that correct?

1068 . A Yes, sir.

1069 . Q What was Mr. Fischer doing then?

1070 . A He was doing advance work.

1071 . Q For whom?

1072 . A For Mr. Reagan, as I was.

1073 . Q Had he at that point been working for Ronald Reagan

UNCLASSIFIED

UNCLASSIFIED

NAME: HIR212002

PAGE 44

1074 | for a period of time?

1075 | . A No, sir. My best recollection is that Dave came on
1076 | after I did.

1077 | . Q Did he report to you?

1078 | . A No.

1079 | . Q You were at the same level, would you say?

1080 | . A We were doing essentially the same things. I think
1081 | I probably had started a few months before Mr. Fischer; and
1082 | so, I would guess, did more of that type of work during 1976
1083 | than Mr. Fischer did.

1084 | . Q What was the period of time that you worked with him
1085 | doing this advance work--approximately six months or four
1086 | months?

1087 | . A I am guessing. I will guess four months. Somewhere
1088 | in that vicinity.

1089 | . Q And I take it you had frequent contact with him
1090 | during this period?

1091 | . A We had--we had contact. I am not sure I would
1092 | categorize it as frequent, because advance men were being
1093 | sent to different places all the time, so we would
1094 | occasionally bump into each other.

1095 | . I really cemented a friendship with Mr. Fischer
1096 | during the ~~Colonel~~^{convention} and I am trying to remember now
1097 | where our ~~Colonel~~^{convention} was in 1976--Atlanta perhaps, or
1098 | wherever it was--Nashville. Mr. Fischer and I--all of the

UNCLASSIFIED

1099 advance men were teamed up. We had--there were two of us
 1100 working together--all the time, and Mr. Fischer and I were
 1101 working together during that ~~convention~~ ^{convention}, and obviously
 1102 spent day and night together at that point, and got to know
 1103 each other very well, and established a very close
 1104 friendship.

1105 . Q Ronald Reagan, as we know, was unsuccessful in that
 1106 ~~convention~~ ^{convention}, and after that ~~convention~~ ^{convention}, you returned to
 1107 San Diego and eventually began work with the law firm in San
 1108 Diego. What did Mr. Fischer do after the ~~convention~~ ^{convention}?

1109 . A Mr. Fischer stayed on as--I believe as an employee of
 1110 Deaver and Hannaford and served in the role of personal aide
 1111 and Chief of Advance Operations for Governor Reagan, who was
 1112 then continuing to make speeches around the country and had
 1113 a host of activities that Mr. Fischer assisted him with.

1114 . Q Now, you have testified that you became involved in
 1115 the 1980 campaign with this organizational meeting, which
 1116 was either in late 1979 or early 1980. Prior to your
 1117 involvement in the 1980 campaign, did you continue to have
 1118 contact with Mr. Fischer from 1976 to 1980?

1119 . A I did--you know, my best recollection is I probably
 1120 didn't see him for a period of about two and a half years.
 1121 We talked on the phone a few times, and the frequency with
 1122 which we spoke on the phone increased as 1980 approached,
 1123 and Mr. Reagan's bid for the Presidency was getting started

PAGE 46

1124 again.

1125 . Q Did his role with respect to Mr. Reagan change as
1126 the 1980 campaign began, or did he continue to do basically
1127 the same sort of work he had been doing for the preceding
1128 several years with Mr. Reagan?

1129 . A I think it changed in the sense that he became more
1130 purely a personal aide to Mr. Reagan, as opposed to going
1131 out to the field in advance of Mr. Reagan. We, at that
1132 point, had--we very quickly put together a host of advance
1133 men who were doing that.

1134 . Mr. Fischer would occasionally--any time he chose,
1135 frankly, would go out and investigate a site or an
1136 opportunity and use his own judgment and so advise the
1137 advance men.

1138 . Q When you say he became purely a personal aide, what
1139 do you mean by that?

1140 . A I mean, he stayed with Mr. Reagan, he traveled with
1141 Mr. Reagan and was not detached from Mr. Reagan and his
1142 immediate group for any extended periods of time.

1143 . The difference is where an advance man is given a
1144 site, might have a meeting with Mr. Deaver or Mr. Tyson or
1145 me at that stage of the game and be given general parameters
1146 for a series of events in Florida, and that advance men
1147 armed with that information would then go to the field alone
1148 or in conjunction with some other folks, meet with some

1149 Secret Service people and begin putting this series of
1150 events together and pick up a phone and call one of us in
1151 the office for guidance, and we would ultimately have a
1152 typed, printed schedule for that series of events, which
1153 that advance man was responsible for.

1154 . Mr. Fischer, who was doing both that for Mr. Reagan
1155 and serving I guess in a quasi-personal aide function prior
1156 to--between 1976 and 1979, by 1979 had evolved into what I
1157 would describe as purely a personal aide, and he stayed with
1158 Mr. Reagan all the time.

1159 . When he was on the ground, when the plane would
1160 arrive with a party that traveled with Mr. Reagan, Mr.
1161 Fischer would precede Mr. Reagan off the plane. He had
1162 almost always been in intimate contact with the advance man
1163 on the ground before that time.

1164 . He knew pretty much exactly what was going to happen
1165 step by step, from a logistical perspective. If there were
1166 any changes to be made, if he disliked something, he would
1167 instruct the advance men to change or otherwise alter it or
1168 cancel it, or whatever needed to be done.

1169 . The word came through Dave; occasionally came
1170 through Mike Deaver, but for purely logistical things, it
1171 came from Dave frequently.

1172 . Q Who frequently was your contact with Mr. Fischer
1173 during the 1980 campaign?

1174 . A Well, I wasn't traveling and Mr. Fischer was. When
1175 I say I wasn't traveling, that is in general--statement. I
1176 saw Mr. Fischer quite a bit in Detroit. I saw him obviously
1177 quite a bit in Los Angeles when--before we got to Detroit.
1178 . By the time we got--we left Detroit, I saw him less
1179 and less because he was always on the road with Mr. Reagan
1180 and I was virtually always, with perhaps two or three
1181 exceptions, in problem areas at the office in Washington,
1182 and we talked probably every day on the phone.

1183 . Those conversations were a function of both our
1184 responsibilities, my responsibility being one of the things
1185 he was interested in in terms of his performance and the
1186 fact that we were close friends and would chat during the
1187 day or at the end of each evening.

1188 . Q So, to summarize, you consider that you had
1189 established a close friendship in 1976, you had intermittent
1190 contact with him during the next three years, and then you
1191 begin to work together very closely during the campaign and
1192 had almost daily contact at least by telephone.

1193 . A It seems to me that we had--probably had daily
1194 contact. Otherwise, as you probably know in a situation
1195 like that, you spend 12 hours a day on the telephone, so I
1196 couldn't tell you that was exactly true, but sometimes to me
1197 it was virtually on a daily basis.

1198 . Q Mr. Fischer, following the campaign and Mr. Reagan's

1199 election in 1980 continued to serve as his personal aide; is
1200 that correct?

1201 . A That is correct.

1202 . Q What was his title after the Inauguration?

1203 . A I couldn't tell you precisely. I would guess it was
1204 Special Assistant to the President--would be my best guess.

1205 . Q And what did you understand his responsibilities
1206 were in the White House? Was it basically the same sort of
1207 thing or did his responsibilities change?

1208 . A You know, it is difficult for me to say, because I
1209 wasn't in the White House during this period of time. I
1210 think that, clearly, he continued to stay with the President
1211 through every day and indeed every weekend, he would travel
1212 to Camp David, for example, and if the President took a trip
1213 out of the country, Dave obviously accompanied him on this
1214 trips.

1215 . Dave had a very small office immediately off the
1216 Oval Office in the White House, and I think to the extent--I
1217 guess he generally did have the same type of role. He made
1218 sure that things worked in a timely and orderly fashion,
1219 there were no surprises, and when Mr. Reagan was moving,
1220 literally moving, going somewhere or worrying about a
1221 calendar or timetable, Dave is the person he looked to, not
1222 advance man or men who happened to be on the assignment.

1223 . Dave was always his target, so Dave would work with

1224 | whomever. He made sure that calendar flowed in an orderly
1225 | fashion.

1226 | . Q What was the frequency of your contact with Mr.
1227 | Fischer after the Inauguration?

1228 | . A You know, we were very close friends. I would guess
1229 | that during the first six months after the Inauguration,
1230 | both Mr. Fischer and I were so busy and were then working in
1231 | different places, that we probably didn't see each other a
1232 | whole lot during that time period.

1233 | . I would go over to the White House and visit, we
1234 | would have lunch somewhere, we would get together for dinner
1235 | if time permitted. His schedule was virtually impossible
1236 | and didn't lend itself to a great social life. As time went
1237 | on, however, and I settled in with the law firm and he
1238 | settled in in his job, we talked on the phone regularly, you
1239 | know, several times a week, tried to get together at least a
1240 | couple of time a month to have lunch or have dinner or just
1241 | take a walk.

1242 | . He would have two hours when the President would be
1243 | tied up in a meeting and he would call me and see if I can
1244 | break free and we would get together and see a movie.

1249 . Q Did you consider him one of your closest friends?

1250 . A Yes.

1251 . Q At what point did he resign from his position in
1252 the White House?1253 . A I don't know the exact date. I think it is 1985,
1254 early 1985. I am not sure, or late '84.

1255 . Q And he moved to Utah?

1256 . A Yes, sir.

1257 . Q So the nature of the contact that you have been
1258 describing of talking to him several times during the week
1259 and seeing him as time permitted, that contact, that type of
1260 contact, I gather continued from approximately mid 1981,
1261 when matters settled down in your respective jobs, until he
1262 left his position in the White House in early 1985?

1263 . A That is correct.

1264 . Q What was the nature of your contact with him during
1265 the period that he lived in Utah? Did you have direct phone
1266 contact with him?

1267 . A Yes.

1268 . Q I take it you didn't see him as frequently, because
1269 he was in Utah and you were here?**UNCLASSIFIED**

1270 . A No, I didn't. He got back here a couple of times
1271 on business for the company he was working for in Utah, and
1272 obviously when he was back, we managed to get a lunch or a
1273 dinner or a movie, or something, and got a chance to talk.
1274 We talked on the phone fairly regularly, and I, in fact,
1275 have a client in Utah, and I think at least once during the
1276 year in Utah managed to get out and see a client, so I saw
1277 Dave, spent a couple of nights at his house.

1278 . Q Was it his practice to stay at your house when he
1279 was in Washington?

1280 . A Not at that point.

1281 . Q Not while he was working in Utah?

1282 . A No, while he was working in Utah, he would fly back
1283 here on business for the company, and I believe he stayed at
1284 the Marriott typically.

1285 . [Discussion off the record.]

1286 . BY MR. FRYMAN:

1287 . Q Mr. Artiano, do you know Richard Miller?

1288 . A Yes, I do.

1289 . Q What do you understand to be the present position
1290 or occupation of Mr. Miller?

1291 . A President of International Business Communications,
1292 which is a public relations firm.

1293 . Q When did you first meet Mr. Miller?

1294 . A In 1980.

1295 . Q In what way?

1296 . A He was not sure if he was working for our campaign
1297 here in Washington or was a volunteer for the campaign, but
1298 he was here, and we met while he was lending his services to
1299 the campaign for Mr. Reagan.

1300 . Q Did he work for you?

1301 . A No.

1302 . Q Approximately at what point in the campaign did you
1303 meet him? I take it this was after the convention.

1304 . A Yes it was after the convention. I am not exactly
1305 sure when I first met Mr. Miller. My earliest memories of
1306 having the types of conversations you would relate to having
1307 with friends probably occurred during the transition.

1308 . Q What was his role during the transition?

1309 . A I am not exactly sure. I know one of his roles was
1310 he was responsible for transportation for I guess everyone
1311 in the transition. We had a large motor pool, and I believe
1312 that Mr. Miller was running the motor pool at that point. I
1313 think he may have had other responsibilities, but I can't
1314 tell you what they were.

1315 . Q Prior to the transition, had your contacts with him
1316 been infrequent? Would you characterize them as infrequent?

1317 . A Yes. I can't frankly remember exactly when I met
1318 him. It couldn't have been more than a month or two before
1319 the transition at best.

1320 . Q And prior to the election you say you met him, so
1321 would you describe him as an acquaintance as opposed to a
1322 personal friend?

1323 . A A very difficult line to draw. Our friendship grew
1324 as we got to know each other during the transition.

1325 . Q How frequent was your contact with him during the
1326 transition?

1327 . A Fairly frequent.

1328 . Q Daily?

1329 . A I don't know. I don't know if it was that
1330 frequent. I had cause to need transportation for myself or
1331 for someone else that I was arranging transportation for,
1332 and Mr. Miller was the guy I dealt with.

1333 . Q Was this contact both in your professional work and
1334 socially during this period?

1335 . A You know, I don't know whether Rich and I
1336 socialized a great deal during the transition period. It
1337 was a pretty hectic period.

1338 . Q Throughout the transition period, you understood he
1339 was responsible for transportation.

1340 . A Yes.

1341 . Q What did he do after the transition period?

1342 . A I believe he first served in the Public Affairs or
1343 Public Relations Office of the Department of Transportation
1344 when Drew Lewis was the Secretary of Transportation.

1345 . Q How long did this last?

1346 . A I couldn't tell you. I would guess at least a
1347 year.

1348 . Q Did you have contact with him during that period?

1349 . A Yes. I think we had contact.

1350 . Q Social?

1351 . A I don't remember when we started having a lot of
1352 social contact. It is quite possible during that period of
1353 time that I had some social contact with him, but I don't
1354 frankly recall.

1355 . Q During that period, do you recall having
1356 professional contact with him?

1357 . A I seem to remember seeing him a couple of times at
1358 the Department of Transportation, but I can't tell you in
1359 connection with that or whether I just was there for another
1360 reason and went in and said hi to Rich.

1361 . Q What do you recall that he did after the Department
1362 of Transportation?

1363 . A To the best of my recollection, I believe he went
1364 directly from the Department of Transportation to the Agency
1365 for International Development and served as either a
1366 Director or Deputy Director of Public Affairs.

1367 . Q What is your recollection about the length of time
1368 he served in that position?

1369 . A I am guessing. I would guess a year to two years.

1370 . Q Did you have contact with him when he was in that
1371 position?

1373 . Q Both professional and social?

1374 . A I don't know that I had any professional contact
1375 with him either at the Department of Transportation or AID,
1376 but I am sure at that point we had already started having
1377 social contact.

1378 . Q At least by this point you considered him a
1379 personal friend of yours?

1380 . A Yes.

1381 . Q And what is your understanding about what he did
1382 after he left AID?

1383 . A I again believe that he entered into a partnership
1384 with Mr. Frank Gomez, and they opened up International
1385 Business Communications, which is a public relations firm.

1386 . Q Do you know Mr. Gomez?

1387 . A I know Mr. Gomez, yes.

1388 . Q When did you first meet him?

1389 . A Rich introduced me to Mr. Gomez, I would guess it
1390 was--I can't tell you--'84.

1391 . Q Was that after Mr. Miller joined with Mr. Gomez to
1392 start their company or before?

1396 . Q What has been the frequency of your contact with

1398 . A Not too frequent. During the period from late
1399 November, 1985 until perhaps March or April of '86, I saw
1400 Mr. Gomez once or twice a week perhaps at a maximum.

1401 . Q That is in connection with your work for IBC?

1402 . A That is correct.

1403 . Q We will get into that later. Apart from that
1404 association, what contact have you had with Mr. Gomez?

1405 . A None.

1406 . Q Would you characterize Mr. Miller as a close
1407 friend?

1408 . A Yes.

1409 . Q And am I correct that you have considered him a
1410 close friend since at least 1982 or 1983?

1411 . A He has been a good friend, yes, probably since
1412 about that time.

1413 . Q Do you recall Oliver North?

1414 . A I was introduced once to Mr. North. We shook
1415 hands, and that is my sole contact with Mr. North.

1416 . Q You have never spoken with him on the phone?

1423 point and shook hands, but I don't know them.

1424 . Q You have no recollection of any meeting with
1425 Jonathan Miller?

1426 . A I don't. Honestly I have not.

1427 . Q I take it then you did not consider Jonathan Miller
1428 to be a friend of yours?

1429 . A That is correct.

1430 . Q Mr. Artiano, you entered into a business
1431 relationship with Mr. Miller's company, International
1432 Business Communications, did you not?

1433 . A Yes, sir.

1434 . Q And did that business relationship also involved
1435 Mr. Fischer?

1436 . A Yes, sir.

1437 . Q Would you describe the origin of that business
1438 relationship and how it came about?

1439 . A In late November or early December of 1985, I
1440 received a telephone call from Mr. Miller where Mr. Miller
1441 told me that in order to increase the services he was
1442 rendering to existing clients, to attract additional

1444 was holding out to existing and prospective clients, that he

1446 | at a relatively senior level, who was of good reputation,
1447 | had good common sense and judgment, and might entertain the
1448 | prospect of entering into a relationship with his firm.
1449 | . Q What did you do in response to this call?
1450 | . A At some point shortly after I received that phone
1451 | call, I talked to Mr. Dave Fischer about his interest. If
1452 | any, in my pursuing this conversation with Mr. Miller on his
1453 | behalf.
1454 | . Q What was Mr. Fischer doing at this point?
1455 | . A Mr. Fischer had been for the preceding 10 months, I
1456 | would guess, been working as Vice President for
1457 | Administrative Affairs I believe for Huntsman Chemical
1458 | Corporation in Salt Lake City, Utah and had been expressing
1459 | to me over the preceding three months his general

1461 | Washington and do consulting work for clients in Washington.
1462 | . Q Had he explained to you the basis for his
1463 | dissatisfaction?
1464 | . A I think it was, to the best of my recollection,
1465 | merely a case of the job not involving the types of things
1466 | he anticipated it would, and it just wasn't very rewarding
1467 | or challenging to him, I guess. He was not particularly

1469 | . Q Did he indicate dissatisfaction with the

1471 . A No.

1472 . Q Do you know if at the time of your call from

1473 Richard Miller whether he had at that point ever met Mr.

1474 Fischer?

1475 . A I don't think so. I don't know that for a fact.

1476 They may have at some point or another been introduced, but

1477 they didn't know each other.

1478 . Q So the origin is Mr. Miller calls you and says he

1479 is looking for someone. You over the preceding few months

1480 had been hearing from Mr. Fischer that he might be ready to

1481 come back to Washington and try something different, and

1482 then you spoke to Mr. Fischer and explained the approach to

1483 Mr. Miller, is that correct?

1484 . A That is correct.

1485 . Q And did Mr. Fischer ask you to express an interest

1486 on his behalf with Mr. Miller?

1487 . A Mr. Fischer's response, to the best of my

1488 recollection, his initial response to that information, was

1489 a request that I further investigate it by way of having

1490 more extensive discussion with Mr. Miller about what he

1491 wanted, what he was looking for, and who his clients were.

1492 . He made it clear to me during the initial

1493 conversation that while he was interested in returning to

1494 Washington and acting as a consultant, he didn't want to

1495 align himself exclusively with anyone, so that even if this
1496 were something that would be of interest to him, it would be
1497 a nonexclusive arrangement. He wanted to do some checking
1498 himself into Mr. Miller and IBC generally with people in the
1499 administration, I guess, to see what kind of response he
1500 would get.

1501 . Q In your initial discussion with Mr. Fischer, was
1502 there any consideration of your involvement in a
1503 relationship between Mr. Fischer and Mr. Miller?

1504 . A That happened very quickly. I don't know whether
1505 that topic was discussed during the first conversation I had
1506 with Mr. Fischer, the second conversation, but over the
1507 course of probably the first week, if not the first couple
1508 of conversations we had, that was something that was raised
1509 and discussed, yes.

1510 . Q Was that raised by Mr. Fischer?

1511 . A I think so, although I honestly couldn't tell you.

1512 . Q What did you understand that you were to add to the
1513 relationship that was being contemplated possibly between
1514 Mr. Miller and Mr. Fischer?

1515 . A I think you have to put that question in a
1516 timeframe for me, if you would.

1517 . Q Let's talk about the beginning, when you were
1518 having these initial discussions and it was raised either by
1519 you or Mr. Fischer in your conversation with him that you

UNCLASSIFIED

1520 would have some involvement in this.

1521 . A One of the very early conversations I had with Mr.
1522 Miller, I don't know if it was the first conversation or the
1523 second conversation, in response to I am sure a question by
1524 me in connection with what types of services he was looking
1525 for on the part of a consultant, I am sure at this point I
1526 had raised Mr. Fischer's name.

1527 . He gave, to the best of my recollection, both a
1528 general and a specific response. Mr. Miller's general
1529 response was that he was looking at a number of projects for
1530 existing clients that hadn't yet taken shape, that he was
1531 about to embark on a major business development aspect of
1532 his business, that he was looking for someone who could help
1533 him in his evaluation of projects I have just mentioned,
1534 help him to formulate a strategy in connection with business
1535 development, help him service his clients across the board
1536 in the form of advice and judgment from a public relations
1537 perspective, public relations in Washington.

1538 . The more specific request was he indicated one of
1539 his most significant clients was a gentleman by the name of
1540 Mr. Channell who had several organizations that were raising
1541 money for programs that supported the President's position
1542 in different areas, and that in connection with one, I don't
1543 know frankly at that point if he even named the National
1544 Endowment for the Preservation of Liberty, that that

1545 particular client had asked for meetings with Don Regan, who
1546 was then Chief of Staff, with Senator Paul Laxalt, and with
1547 Assistant Secretary Elliott Abrams.

1548 . He advised me early on that this client was a
1549 client that had had regular contact with the administration
1550 for quite a while and was highly regarded by the
1551 administration. I recall that because it was the first
1552 specific request where he identified a service that was made
1553 in the course of these early conversations.

1554 . Q And specifically, the service was what again? Was
1555 this to arrange the meetings?

1556 . A No. Let me backtrack a second. He explained
1557 generally what type of services he was looking for from a
1558 consultant on behalf of IBC, and again I am trying to
1559 reconstruct, doing the best that I can. I suppose, in
1560 response to a question such as, well, is there anything you
1561 have on the burner right now that needs attention, his
1562 response was, "Yes. For example, this guy, Mr. Channell,
1563 is one of my principal clients, and he just recently called
1564 in over the past few days I guess and asked for me to line
1565 up meetings with the following three people", and that was
1566 the first specific thing that was ever discussed with Mr.
1567 Miller and I in connection with services.

1568 . Q Going back, Mr. Artiano, the initial call from Mr.
1569 Miller where he explained to you he was looking for someone.

1570 am I correct that you did not mention Mr. Fischer's name in
1571 that conversation?

1572 . A I don't think I did. I think I opted at that point
1573 to chat with Mr. Fischer before I even raised his name.

1574 . Q And then after chatting with Mr. Fischer, you had
1575 further conversations with Mr. Miller where Mr. Fischer's
1576 name was mentioned?

1577 . A That is correct.

1578 . Q At what point was it discussed that you would be
1579 involved in this arrangement as well as Mr. Fischer?

1580 . A Very early on.

1581 . Q In the early phone conversations?

1582 . A Yes. I am sure the early phone conversations.

1583 . Q And who suggested that?

1584 . A I don't know. I honestly don't remember.

1585 . Q The services that were being sought by Mr. Miller,
1586 would you describe them as generally public relations
1587 consulting services?

1588 . A Public relations, business development, political
1589 type consulting in terms of evaluating a project or a media
1590 campaign.

1591 . Q How soon was there a face-to-face meeting between
1592 you, Mr. Fischer and Mr. Miller?

1593 . A Again, I can't tell you a specific date. I would
1594 guess it was within two weeks of the first telephone call.

1595 . Q After that meeting at some point, the three of you

1598 . A That is correct.

1599 . Q Did it take several meetings to reach agreement on
1600 those matters?

1601 . A Yes.

1602 . Q Approximately how many meetings and over what
1603 period of time?

1604 . A I can't be specific because I just don't have the
1605 recollection. I would guess that we had three or four
1606 meetings at least. They probably went over a couple of
1607 weeks, three weeks. I am guessing.

1608 . Q Prior to the first meeting, had there been any
1609 discussion among the three of you about the terms of a
1610 relationship, or were there phone conversations just looking
1611 toward setting up a meeting for a more specific discussion
1612 of terms?

1613 . A I had had conversations, I had discussed
1614 compensation with Dave over the phone, and I had passed
1615 along what Dave and I had discussed to Mr. Miller, I
1616 believe, prior to our first face-to-face with Mr. Miller.

1617 . Q What was the compensation which was discussed with
1618 Dave?

1619 . A There are several aspects to those conversations.

1620 I don't think anything was said in concrete that early in
1621 the first week or two, but generally Mr. Fischer advised me
1622 that, A, it needed to be made perfectly clear to Mr. Miller
1623 that there was going to be no exclusive agreement for
1624 services, that he intended to develop a host of clients here
1625 that he would like to consult with; B, that he felt he could
1626 lend a great deal of value to a host of clients, including
1627 IBC, and that he expected to be compensated accordingly.

1628 . When we talked about numbers, we talked about a
1629 retainer of \$20,000 a month for the consulting services to
1630 be rendered, and Mr. Fischer told me that one of the things
1631 he absolutely did not want to do was get involved in the
1632 representation of a client which was going to be 30-day, 60-
1633 day, 90-day projects. He didn't want to do that. He wanted
1634 a long-term relationship, and he asked me to explore with
1635 Mr. Miller early on whether Mr. Miller would be prepared to
1636 enter into a long-term, 24 months say, two-year agreement
1637 for services.

1638 . He further advised me that, Mr. Fischer advised me,
1639 that prior to accepting a consulting agreement either with
1640 IBC or anyone else, he would have to be real comfortable
1641 with them as a client, and from Mr. Fischer's perspective
1642 that meant reviewing them to the extent that he could with
1643 his friends in the administration and whoever else he opted
1644 to check them out with, to make sure that they were people

1645 he wanted to be associated with.

1646 . Q Were the terms that Mr. Fischer initially described
1647 to you, that you have described, were these basically the
1648 terms that were eventually agreed upon, that is a retainer
1649 of \$20,000 a month for a period of 24 months?

1650 . A Generally, yes. I would say that was essentially
1651 the relationship that was established. The other factor, as
1652 I mentioned also, which were components of that agreement,
1653 which were that Mr. Fischer was not an exclusive consultant
1654 to IBC and could go about developing his own business and
1655 that he would not be a full-time consultant with IBC. It
1656 was the beginning of a new relationship.

1657 . Q But am I correct that at the end of this period of
1658 negotiation, Mr. Miller basically agreed to the terms that
1659 Mr. Fischer had laid out for you at the beginning, that is
1660 \$20,000 a month as a retainer for 24 months, and that was to
1661 be a nonexclusive arrangement?

1662 . A That is correct.

1663 . Q What was the subject that was covered in these
1664 three or four meetings where you had negotiations? Had Mr.
1665 Miller been resisting this arrangement?

1666 . A No. I think we were discussing a host of things,
1667 as I recollect them. For example, while Mr. Miller had no
1668 problem with Mr. Fischer representing other clients, he was
1669 not comfortable with the prospects of Mr. Fischer

1670 representing another public relations firm. That was of
1671 some concern to him. He wanted to know if Mr. Fischer's
1672 other intended representations called for him to be out of
1673 the country for long periods of time, for example, a
1674 question which obviously Mr. Fischer didn't have an answer
1675 to.

1676 . Wanted to know if Mr. Fischer--Fischer still lived
1677 in Utah at the time and did for another 14 months
1678 thereafter--whether Mr. Fischer would still be available, and
1679 if so, how many days a week, to come in to Washington, D.C.
1680 to render these services. I can't recall all of the things
1681 that were discussed, but we also spent a great deal of time
1682 allowing Mr. Miller to describe what his company did and
1683 getting to know Mr. Gomez a little bit, getting to see some
1684 of the presentations he had made to clients, finding out
1685 what he had done, what he intended to do, who he was
1686 interested in securing as a client, further defining the
1687 types of services he was looking for.

1688 . Q Did these negotiations lead to a written agreement
1689 between Mr. Fischer, Mr. Miller and yourself?

1690 . A No, sir.

1691 . Q In these negotiations, were you acting as a
1692 principal on your own behalf rather than as attorney for Mr.
1693 Fischer?

1694 . A That is correct. I was not at any time acting as

1696 | . Q And this agreed-upon retainer for 24 months in the

1705 Whereupon,
1706 . MARTIN ARTIANO,
1707 resumed the witness stand, and having been previously sworn,
1708 was examined and testified further as follows:
1709 . BY MR. FRYMAN:
1710 . Q Mr. Artiano, when we broke for lunch, we were
1711 discussing the consulting agreement that you, Mr. Fischer
1712 and Mr. Richard Miller had reached in late 1985, and one
1713 aspect of that agreement is that there was to be a monthly
1714 retainer of \$20,000 a month. At the time that agreement was
1715 reached, was there an understanding between you and Mr.
1716 Fischer that you would receive half of the monthly retainer
1717 of \$20,000?
1718 . A Yes.
1719 . Q What was the origin of that agreement or rationale
1720 for that agreement?
1721 . A It was contemplated that Dave and I would jointly
1722 be in a position to render the types of consulting services
1723 to IBC that they had articulated to us.
1724 . Q Did Mr. Fischer at some point tell you that because
1725 of your assistance in getting up this arrangement, he wanted

UNCLASSIFIED

PAGE 71

1726 you to have half the money?

1727 . A As I just indicated, we both intended to provide
1728 consulting services to IBC. I don't know what effect the
1729 fact that I had introduced Mr. Fischer to Mr. Miller in this
1730 connection, how great a part that played in Mr. Fischer's
1731 mind in terms of agreeing to split the fees.

1732 . Q What did Mr. Fischer say to you about this? I
1733 mean, the original proposal, I take it, that he made in the
1734 first conversation that you had with him about this is that
1735 he wanted a retainer of \$20,000 a month for himself, is that
1736 correct?

1737 . A We discussed the \$20,000-a-month retainer. I don't
1738 know whether it was the second conversation or the third
1739 conversation when we discussed sharing our retainer.

1740 . Q Did he raise the subject of sharing the retainer,
1741 or did you?

1742 . A I don't recall.

1743 . Q Was it made known to Mr. Miller from the beginning
1744 of your meetings with Mr. Miller that the monthly retainer
1745 would be split between the two of you?

1746 . A I believe that was made clear to him fairly early
1747 on.

1748 . Q By fairly early on, does that mean before you
1749 reached an agreement about the consulting arrangement?

1750 . A I guess that is probably right.

1751 . Q But you are not sure?

1752 . A I am not positive whether we discussed it before
1753 the first check was cut or at the time the first check was
1754 cut.

1755 . Q Is that the latest time that you discussed it was
1756 when the first check was cut?

1757 . A Yes. I am reconstructing now.

1758 . MR. MEEHAN: The latest time you first discussed
1759 you mean?

1760 . BY MR. FRYMAN:

1761 . Q Yes.

1762 . A Yes, it had been discussed by the time the first
1763 check was cut.

1764 . Q As we discussed this morning, this consulting
1765 agreement was basically for public relations services, is
1766 that correct?

1767 . A I guess I will fall back on the description I gave
1768 it this morning. I think that is probably generally
1769 accurate. There were a range of services that Mr. Miller
1770 discussed with Mr. Fischer and I that he was going to look
1771 to us for, and that the entirety of those services
1772 constituted what we were going to do on behalf of IBC.

1773 . Q There were a number of specifics that I understand
1774 came under the general category of public relations
1775 services. If there are other types of services that do not

UNCLASSIFIED

UNCLASSIFIED

NAME: HIR212002

PAGE 73

1776 fit under that general category, I think you should identify
1777 those now.

1778 . A I think, unless something comes to mind with a more
1779 specific question, what I described earlier today in terms
1780 of the services Mr. Miller was looking for were the types of
1781 services we rendered.

1782 . Q Once again, public relations is a particular area,
1783 and I think you have identified other specific categories of
1784 public relations services, but is there anything that falls
1785 outside the general description of public relations services
1786 that you were to perform?

1787 . MR. MEEHAN: My problem with the question is that
1788 he has defined the services. If you want to say that is
1789 what public relations means, some of it was client
1790 development, some of it was specific services, some of it
1791 was generalized advice and programs. Whether client
1792 development is public relations or whether it is
1793 professional development, business development, I guess it
1794 depends upon how you define public relations. And I think
1795 that his answers describe the services.

1796 . And if you want to say let's call them, for
1797 purposes of future purposes, public relations, we are
1798 prepared to deal with it that way.

1799 . BY MR. FRYMAN:

1800 . Q Just so there's no confusion, Mr. Artiano, I don't

UNCLASSIFIED

1801 want to take a lot of time on this, but specify again as
1802 briefly as possible the areas of services you contemplated
1803 were to be performed under this agreement.

1804 . A To review strategies and advise IBC in connection
1805 with the existing clients, projects that were underway in
1806 behalf of those existing clients, contemplated projects by
1807 those existing clients, presentation for representation to
1808 prospective clients, target clients of IBC, the compilation
1809 of a brochure that IBC could distribute for purposes of
1810 business development, and I guess the type of general advice
1811 that Mr. Fischer and I were in position to render.

1812 . Q And what areas were you to render general advice?

1813 . A I guess in connection with all of the things I
1814 mentioned, and I think, as is probably the case in all new
1815 relationships, things that we couldn't contemplate at the
1816 time and we didn't, not that I have anything specific in
1817 mind.

1818 . Q Mr. Fischer had a background in public relations
1819 going back to his work for the Deaver firm, did he not?

1820 . A That is correct.

1821 . Q And he had been working in the public relations
1822 area with Huntsman Chemical in Utah?

1823 . A I probably shouldn't answer that question, because
1824 I am not exactly sure what the scope of his responsibilities
1825 were.

PAGE 75

1826 . Q You are not certain what he did?

1827 . A Yes.

1828 . Q Your background is that of a lawyer, and you have,
1829 as you described this morning, done extensive work in the
1830 logistics area in political campaigns.

1831 . A That is correct.

1832 . Q What expertise did you bring to this arrangement
1833 that was being entered into that you understood met the
1834 needs that Mr. Miller wanted met by this agreement?

1835 . A I think the amount of time and the level of my
1836 prior experience with Presidential campaigns was something
1837 he wanted to take advantage of, my experience in business
1838 development, areas of business development, my ability to
1839 evaluate prospective business opportunities that might arise
1840 that IBC might be able to take advantage of, my assistance
1841 in the presentation, or at least the compilation of
1842 materials for presentation to prospective clients; my
1843 experience in Washington vis-a-vis representing clients in
1844 terms of strategies for a public relations firm to the
1845 extent that those were translatable. Those are among the
1846 services that Mr. Miller thought he could take advantage of.

1847 . Q Your prior experience in Presidential campaigns was
1848 basically in logistics, as I understand what you testified
1849 to this morning.

1850 . A That is correct.

UNCLASSIFIED

UNCLASSIFIED

NAME: HIR212002

PAGE 76

1851 . Q How would that experience usefully translate to the
1852 services you were to perform for IBC?

1853 . A Well, perhaps I should elaborate a bit on what that
1854 kind of logistical experience is. Essentially when you
1855 prepare an event for a Presidential candidate, you are a
1856 quasi-public relations man. You attempt to present the
1857 candidate in the most positive light, both in terms of what
1858 you personally do prior to his arrival and during his stay,
1859 and in terms of your decisions about how and where he is
1860 going to be making public appearances.

1861 . I was, if not a principal player, certainly a part
1862 of the group that made decisions throughout both of those
1863 campaigns, made decisions about all aspects of the campaign
1864 even if my role were primarily that of an auditor in those
1865 meetings, and as such I had accumulated and believe I still
1866 have a great deal of experience that lends itself directly
1867 to public relations.

1868 . In addition, I think my experience with the law
1869 firm in representation of clients here and my time in
1870 Washington essentially was appropriately thought by him to
1871 be something that he could take advantage of.

1872 . Q Did you understand that the contacts and people you
1873 knew were important?

1874 . A At the outset of this relationship, the only
1875 meetings, for example, with people that I mentioned were the

UNCLASSIFIED

UNCLASSIFIED

NAME: HIR212002

PAGE 77

1876 three I mentioned earlier. I am not exactly sure how you
1877 can separate, when you are looking at someone's experience,
1878 how you can separate and parse out that particular aspect.
1879 I think Rich knew certainly that I had been involved with
1880 the Reagan Administration in a couple of different
1881 capacities for a long time, that I had a number of
1882 relationships that were solid relationships, and I frankly
1883 don't know to what extent that impacted his evaluation of
1884 what I could lend to IBC.

1885 . Q You and Mr. Fischer ended up splitting the retainer
1886 50/50. You took \$10,000, and he took \$10,000 of the \$20,000
1887 monthly retainer, is that correct? I mean that was the
1888 agreement you reached between the two of you.

1889 . A That was the agreement, that is correct.

1890 . Q Going back to your discussions with him about
1891 reaching this agreement, was that 50/50 split agreed to
1892 because you contemplated contributing equal amounts of time
1893 to this arrangement?

1894 . A I think initially that is true.

1895 . Q That was the rationale?

1896 . A Yes.

1897 . Q Was it contemplated at the beginning that you and
1898 Mr. Fischer would devote a substantial amount of your time
1899 under this arrangement to work for Mr. Channell's
1900 organizations?

UNCLASSIFIED

UNCLASSIFIED

PAGE 78

1901 . A I think it became clear by the latest early January
1902 that at the outset, there were some pressing things that
1903 needed to be done on behalf of that client of IBC, and that
1904 was what the principal focus was at the onset.

1905 . Q You and Mr. Fischer were paid, however, by IBC, is
1906 that correct?

1907 . A That is correct, our arrangement was with IBC.

1908 . Q You were not paid by Mr. Channell directly?

1909 . A No, sir.

1910 . Q Did you later enter into a supplemental arrangement
1911 with Mr. Miller and IBC?

1912 . A Yes.

1913 . Q What was the origin of that?

1914 . A I think there are two components to the answer.
1915 Let me see if I can do it as clear as possible. Over the
1916 first two months of the relationship, January-February, if
1917 that long, frankly I think it was even shorter, three weeks
1918 to a month into this relationship, it became quite clear to
1919 everybody concerned, Mr. Miller, Mr. Fischer and myself,
1920 that the amount of time that was being asked for and the
1921 devotion of time to this endeavor was so much greater than
1922 had been initially contemplated by anyone at the outset,
1923 that we all understood that there was going to be an
1924 adjustment in compensation.

1925 . I can't tell you at what precise point we had that

UNCLASSIFIED

UNCLASSIFIED

NAME: HIR212002

PAGE 79

1926 specific discussion, but I can tell you that it was quite
1927 clear to all of us at the time and that we had some
1928 discussion about it, that the services being rendered in
1929 terms of time and to call upon both Dave and myself to be in
1930 attendance at meetings and review data that was being
1931 produced, and advice on campaign strategies and make
1932 arrangements on behalf of Mr. Miller's clients, in
1933 particular Mr. Channell, was far in excess of what we had
1934 originally anticipated and that, therefore, there would be
1935 an adjustment upward in the original negotiated price.

1936 . To move to a second of what I guess would be three
1937 points, both Mr. Fischer and I expressed to Mr. Miller the
1938 desire to accelerate the already negotiated payments,
1939 because we felt we were getting way ahead of the curve, in
1940 light of the amount of time we were spending, and to some
1941 extent in light of the fact that Mr. Fischer found himself
1942 almost unable to go out and develop other clients. He did a
1943 little of that.

1944 . As a third point, down the road, if you would like
1945 me to jump there chronologically, at some point I guess in
1946 the spring or early summer, I can't pinpoint the exact time,
1947 it became clear that Mr. Fischer was indeed spending, as
1948 both of us had been spending, an inordinate amount of time
1949 on this, virtually all his time in Washington, D.C. when he
1950 returned from Utah, and that he was developing a very nice

UNCLASSIFIED

NAME: HIR212002

1951 relationship with Mr. Miller, and that he foresaw the growth
1952 of that company and was thinking about getting more
1953 involved, and at that stage Mr. Fischer and I had a
1954 conversation.

1955 . Mr. Fischer made clear that he was talking to Rich
1956 or would be talking to Rich, and perhaps might even be
1957 talking to Mr. Channell, which continued to consume a good
1958 deal of time, about a different financial relationship, and
1959 that he would work that out.

1960 . I was at that point, by the early summer, at any
1961 rate, less of a hands-on person in terms of attending
1962 meetings during the day, for example, continued to advise
1963 both Dave personally throughout the year and IBC from time
1964 to time.

1965 . Dave indicated that he would attempt to compensate
1966 me at or near the amount that had initially been
1967 contemplated in the first discussion, which was a two-year
1968 contract for \$20,000, and an amount that would have been
1969 about 50 percent of that.

1970 . The agreement was never concrete, was in a state of
1971 flux almost from the word "go". I don't know much about
1972 the financial agreements after late spring-early summer
1973 between Mr. Fischer, Mr. Miller, Mr. Channell, and Mr.
1974 Fischer and Mr. Channell, and it started out and continued,
1975 as far as I was concerned, as a good-faith arrangement. I

1976 was friends with both Mr. Miller and Mr. Fischer, allowed it
1977 to develop.

1978 Q Focusing on your own arrangements, did you enter
1979 into a supplemental arrangement with Mr. Miller where you
1980 had an additional monthly retainer?

1981 A Yes.

1982 Q When was that?

1983 A I would guess it was in June or July.

1984 Q Of 1986?

1985 A Of 1986, yes, sir.

1986 Q And what was the reason for that?

1987 A As I indicated a few moments ago, I had become less
1988 active hands on, and Mr. Fischer had commenced certainly by
1989 that time his own discussions about payments and
1990 relationships with both Mr. Miller and Mr. Channell, and I
1991 think that Rich Miller, because he is a good friend of mine,
1992 felt kind of concerned about me. I think he was worried
1993 that this change in direction, that Dave's increased
1994 devotion to this firm might have caused some degree of a
1995 problem between Dave and I personally, and he also wanted me
1996 to stay available to IBC, and as a consequence called me and
1997 said that he wanted to enter--that is Mr. Miller--he wanted to
1998 enter into a separate agreement with me, through which I
1999 would remain available to IBC for some of the things I had
2000 discussed earlier, for evaluation of business opportunities

2001 that they had and for business development and to continue
2002 to review the materials they sent out to prospective
2003 clients, and asked me to write a letter to him.

2004 . I, again, during the course of those discussions
2005 told Mr. Miller that I would be happy to do that, but that I
2006 was constrained, as I had been from the start, in terms of
2007 what I could do, and it was important that he understand
2008 that. That amount of time that had been devoted early on
2009 was more than I could possibly devote in the future to this,
2010 that I certainly couldn't do any legal work as I had from
2011 the start, that if these clients he was hoping to develop
2012 conflicted with any of the clients that my law firm
2013 represented, I would not be in a position to do it.

2014 . I don't have a copy of that letter. I believe Mr.
2015 Miller still has a copy of it, and if under those
2016 circumstances that was a relationship he wanted, that I was
2017 delighted and happy to go forward with it, wrote him that
2018 letter, and he agreed to it, and that relationship stayed in
2019 effect I believe for about a period of five or six months, I
2020 am not exactly sure.

2021 . Q So this letter was in effect a retainer agreement
2022 that you drafted and sent to Mr. Miller?

2023 . A It was a consulting agreement. It was a letter
2024 back to Mr. Miller. I wrote it a long time ago, but it said
2025 essentially 'Rich, you asked me if I would remain available

2026 to consult with IBC on the following matters'' or I
2027 described something in general terms. ''I advised you of
2028 the following constraints'', which I just expressed. I
2029 don't remember them all. ''If under these circumstances IBC
2030 is still interested in having me available as a public
2031 relations consultant, I would be happy to go forward.''
2032 . Q And did the letter specify \$5,000 a month?
2033 . A I don't know. That was certainly what we had
2034 discussed. I don't know whether it was in the letter.
2035 . Q You don't know whether it was in the letter.
2036 . A I don't have a copy of the letter.
2037 . Q Why didn't you keep a copy?
2038 . A I thought I had, frankly, and looked for it and
2039 couldn't find it.
2040 . Q What makes you think that Mr. Miller still has a
2041 copy?
2042 . A I am not certain that he does.
2043 . Q Have you spoken with him about it?
2044 . A I don't think I have ever asked. I have certainly
2045 spoken to Mr. Miller, but I don't know whether I asked him
2046 whether he had a copy of that letter or not.
2047 . Q You indicated a minute ago that you thought that he
2048 still had a copy, and I was just wondering what your basis
2049 for that belief was.
2050 . A I am not sure. He may not have a copy.

2051 . Q So you don't know one way or the other?

2052 . A I am not sure if he does.

2053 . Q Was there any time period specified in this letter?

2054 . A I don't remember.

2055 . Q And pursuant to this agreement that you reached

2056 with Mr. Miller, you received a number of payments of \$5,000

2057 a month, in addition to the amounts that you were sharing

2058 with Mr. Fischer?

2059 . A That is correct.

2060 . Q A little later we will get into some specific

2061 checks from IBC, but let me ask you, what is your

2062 recollection, based on your review of your records, of the

2063 total amount of money you received from IBC pursuant to both

2064 the original agreement with Mr. Fischer, as well as the

2065 supplemental?

2066 . A I don't know specifically, exactly, but I think it

2067 was in the vicinity of about \$200,000.

2068 . Q Did you on some occasions receive funds from IBC

2069 and then you paid a portion of the funds to Mr. Fischer?

2070 . A Yes.

2071 . Q The \$200,000 that you mentioned, is that after the

2072 deduction of the amount that you paid to Mr. Fischer?

2073 . A Yes.

2074 . Q So you believe you retained something in the area

2075 of \$200,000?

2076 . A That is correct.

2077 . Q And those services were performed beginning in
2078 December of 1985?

2079 . A That is correct.

2080 . Q And they continued through the end of 1986?

2081 . A That is correct.

2082 . Q Did you perform any services in 1987?

2083 . A I don't think so. I don't have any specific
2084 recollection. I might have gotten together with Rich on a
2085 matter in January. If I did, I don't remember it, but that
2086 certainly would have been the last time.

2087 . Q So basically the period of time is 12 to 13 months.

2088 . A That is correct.

2089 . Q And you were paid \$200,000?

2090 . A That is correct.

2091 . MR. MEEHAN: Approximately \$200,000.

2092 . THE WITNESS: That is correct.

2093 . BY MR. FRYMAN:

2094 . Q Approximately \$200,00, yes.

2095 . Rather than looking forward, as we have been doing,
2096 talking about the negotiation of the contract and what was
2097 contemplated that you would do, at this point I would like
2098 to look backward and get your description of the services
2099 that you actually performed for these funds in this 12 to 13
2100 months. What did you do?

2101 . A We spent, and most of this is in the context, the
2102 initial part of my explanation will be in the context of
2103 what was done in meetings which were attended for the most
2104 part by Mr. Miller, Mr. Fischer and Mr. Gomez, and on
2105 occasion by Mr. Channell and Mr. Conrad.

2106 . Q In your answer, Mr. Artiano, you are certainly free
2107 to bring in contributions of other persons, but I want to
2108 focus on what you as an individual did for the compensation
2109 in the area of \$200,000, so if you could keep that in mind
2110 in your answer.

2111 . A I advised IBC on an overall strategy for growth of
2112 that company. We had lengthy continuing conversations about
2113 the types of clientele IBC should be serving, about the
2114 resources IBC would have to marshal in terms of personnel
2115 and expertise to properly serve those clients, that we work
2116 together on the preparation of materials for presentation to
2117 prospective clients and on an evaluation of the needs of
2118 those prospective clients and how IBC could best offer up
2119 its services to those clients.

2120 . We worked, from my perspective, we had again
2121 continuing lengthy meetings and conversations in connection
2122 with a number of projects that Mr. Channell either had
2123 ongoing or was contemplating, the first of which was
2124 National Endowment for the Preservation of Liberty. Others
2125 included the Space Defense Initiative, Constitutional

2126 minutes, a film that he was attempting to raise money to
2127 produce and get clearance to produce about CIA activities,
2128 an end of the century foundation, which was going to raise
2129 money and gather a host of people to go to Rome in the year
2130 2000, an endowment which he hoped would raise approximately
2131 \$20 million, the purpose of which was to fund activities by
2132 President Reagan after his second term, in terms of speaking
2133 and maintaining communication and being a voice for the
2134 Republican Party.

2135 . In many of those instances we prepared Mr. Miller's
2136 firm with guidance and advice from me, for this
2137 conversation, prepared lots of brochures and just general
2138 paper on all of these projects, in addition to reviewing
2139 them, in some instances ad nauseum, in meetings.

2140 . We prepared, and this was quite an extensive
2141 project, a brochure for IBC, which I unfortunately don't
2142 have a copy of it with me, but it was a fairly extensive
2143 brochure, and I think fairly well done. A gentleman was
2144 called in at my recommendation to do some of the drafting.
2145 We all discussed again at length what should be included in
2146 that brochure and how it should be prepared, to whom it
2147 should go.

2148 . We talked about, in connection with the projects I
2149 discussed above, media campaigns, did cost breakdowns of
2150 those, talked about the political strategy that would best

2151 apply in each instance. I virtually on a nightly basis,
2152 when Mr. Fischer was in Washington, he stayed at my home
2153 three to four nights a week for the course of the year, and
2154 evenings I would estimate we spent an average of three hours
2155 a night, just the two of us, going over all of these matters
2156 that I have just described. I don't think that is
2157 comprehensive, but that gives you a sense of the types of
2158 things we were working on.

2159 . Q During 1986, you were a member of your law firm.
2160 . A That is correct.

2161 . Q And you had been a member of that firm in 1985?
2162 . A That is correct.

2163 . Q Were your billable hours to your law firm
2164 substantially less in 1986 than in 1985?
2165 . A I don't believe so.

2166 . Q So this work for IBC did not cut into the time that
2167 you devoted to your law practice?
2168 . A No, sir.

2169 . Q Did you keep any records of the time that you spent
2170 for IBC?
2171 . A I don't believe that I did. I think my calendar,
2172 as I know I sent over a redacted calendar--there were just a
2173 handful of entries in that calendar. Typically during the
2174 day, for example, when Mr. Miller and Dave and I met, Dave
2175 and I would drive down from my house, for example, early in

2176 the morning and have a breakfast, have a couple of hours in
2177 the morning. That wouldn't appear on my calendar.

2178 . Q We might have lunch, which we did, until about the
2179 summer, on a regular basis, get together for lunch. I would
2180 find a slot in my day, if there was a reason for us to get
2181 together during the day, when I would just have an hour or
2182 hour-and-a-half, and Rich's office is fairly close to mine.
2183 I would go over to the office and join them in a meeting,
2184 and did to a large extent a lot of this work in the evenings
2185 at home with Dave.

2186 . Q So you were able to fit this work in without
2187 cutting into your law firm hours.

2188 . A I think that is true. I was feeling a little
2189 pressured for the first few months, because the load was
2190 much more than I had anticipated it would be, but I don't
2191 think I was feeling quite as pressured after the first four
2192 or five months of 1986.

2193 . Q You mentioned you spent a substantial amount of
2194 time on the IBC work in the evenings with Mr. Fischer at
2195 your house discussing these matters.

2196 . A That is correct.

2197 . Q And you would spend additional time driving to work
2198 with him in the morning and at breakfast meetings with Mr.
2199 Miller, is that correct?

2200 . A Well, I drive to work in the morning anyway. Dave

UNCLASSIFIED

2201 and I would drive in together. Dave didn't have a car for
2202 most of that time, and I would drop Dave off typically at
2203 Mr. Miller's office or wherever his first meeting was, and
2204 to the extent that we needed to meet in the mornings, early
2205 in the mornings, we would do that, park and have a meeting
2206 at Mr. Miller's office, and then I would go to work from
2207 there.

2208 . Q Did you draw more money from your law firm in 1986
2209 than in 1985?

2210 . A I think so.

2211 . Q Did that reflect additional hours that you devoted
2212 to your law practice in 1986?

2213 . A Hours are one component of a formula, a very loose
2214 formula.

2215 . MR. MEEHAN: Answer. Did it reflect more hours?

2216 . THE WITNESS: I don't know.

2217 . BY MR. FRYMAN:

2218 . Q Did you bill more hours to your law firm in 1986
2219 than in 1985?

2220 . A I don't know.

2221 . Q Did Mr. Fischer live at your house most of 1986?

2222 . A He was at my house, I would estimate, three to four
2223 days a week for almost all of 1986, and into January of
2224 1987.

2225 . Q He continued to maintain a home in Utah?

UNCLASSIFIED

2226 . A Yes. His wife and children were at his Utah home,
2227 and he started building a home here in Vienna sometime in
2228 the fall, I think, of 1986.

2229 . Q I asked about time records of your work for IBC,
2230 and you indicated you have no time records.

2231 . A That is correct.

2232 . Q What documents do you have that reflect work that
2233 you performed for IBC?

2234 . A Probably none. To the extent that I had--

2235 . MR. MEEHAN: It will go quicker if you just answer
2236 his questions.

2237 . BY MR. FRYMAN:

2238 . Q Do you have evidence of anything that you wrote in
2239 connection with this consulting agreement?

2240 . A Not in my possession.

2241 . Q What is there that is other than in your possession
2242 that you know about?

2243 . A Well, I think if I had an opportunity to review
2244 IBC's files and materials that they produce, I could find a
2245 host of things that I contributed to.

2246 . Q What do you recall now?

2247 . A As I indicated a few minutes ago, we could start
2248 with the brochure that IBC developed.

2249 . Q This was the brochure that was written by the
2250 consultant that you brought in to draft it?

UNCLASSIFIED

UNCLASSIFIED

2251 . A He was one of the participants, that is correct, in
2252 the preparation of the brochure.

2253 . Q And what was the subject of this brochure?

2254 . A IBC.

2255 . Q Was this brochure published?

2256 . A Yes.

2257 . Q And distributed to potential clients?

2258 . A Yes.

2259 . Q When was it published, if you recall?

2260 . A I don't. I would be guessing.

2261 . Q Describe the appearance of the brochure.

2262 . A I am not great at size. It is probably eight-by-12
2263 or 14-by-10, or something like that.

2264 . Q Larger than regular letter-sized paper?

2265 . A Oh, yes.

2266 . Q Is it in color?

2267 . A Yes, it is. It is slick. It is a very slick, high-
2268 gloss finish. It has got individual cards in it not only on
2269 the individuals who are the principals of the IBC, but also
2270 on the range of services that are provided by IBC. There
2271 are about seven or eight different areas of expertise that
2272 IBC, wrote statements about it, it discussed work that IBC
2273 had done without breaching any confidential relationships
2274 with clients that they had had in the past. It was, I
2275 think, a very good product.

PAGE 93

2276 . Q Did it have pictures?

2277 . A I am trying to remember if it had pictures. I
2278 think it might have, but I haven't seen it now for a while.

2279 . Q How many pages?

2280 . A It wasn't really in page format. It is a fold-out,
2281 and it has kind of a jacket inside of it for inserts. I
2282 don't know if there were eight pages in it, 12 pages in it.
2283 It had things about that length, cards, hard cards or a
2284 little wider, that slipped in and out. It was made
2285 obviously for subsequent adaptation, and spent quite a bit
2286 of time developing it.

2287 . Q But in terms of equivalent pages of text, Mr.
2288 Artiano, I mean we are talking about five to ten pages of
2289 text?

2290 . A I am guessing at text. I would guess it is longer
2291 than 10 pages of text, but I would have to look at it again
2292 now to tell you exactly what the quantity of it was.

2293 . Q Between 10 and 20 pages of text, such as you would
2294 generate in your law practice, in terms of number of words
2295 per page?

2296 . A I don't know. Perhaps between 10 and 20 pages of
2297 text as I would generate, but it was a totally different
2298 type of product.

2299 . Q And this was a brochure you worked on with a number
2300 of other people?

2301 . A That is correct.

2302 . Q You talked with others about it?

2303 . A That is correct.

2304 . Q You didn't write it?

2305 . A No, although I reviewed it after each section was
2306 written, may have made some contributions.

2307 . Q You may have edited it?

2308 . A That is correct.

2309 . Q What, other than this brochure, did you participate
2310 in generating in terms of written product?

2311 . A Material that was put out, some material I believe
2312 on NEPL, some material on the Space Defensive Initiative
2313 program, material on constitutional minutes, some proposals
2314 that were sent to specific clients, although frankly outside
2315 of I believe Panama I can't give you the names of those
2316 clients.

2317 . I attended--

2318 . MR. MEEHAN: He just asked you about written
2319 materials.

2320 . BY MR. FRYMAN:

2321 . Q Were these materials you have just described apart
2322 from the proposals to clients, were they in the nature of
2323 brochures also?

2324 . A They were in the nature of--no, they weren't. I am
2325 trying to remember the format they were in. I think they

UNCLASSIFIED

2326 were typically in a jacket, a regular typewritten, single or
2327 double-spaced pages in a jacket as they were sent out to the
2328 prospective clients.

2329 . Q You mentioned NEPL and SDI and constitutional
2330 minutes. How many items do you recall, or to the best of
2331 your recollection, do you believe were generated in terms of
2332 products for these entities? Are we talking about more than
2333 10?

2334 . A Oh, much more than ten.

2335 . Q More than 100?

2336 . A Perhaps, perhaps. There were endless drafts and
2337 letters and promotional pieces, the range of services in
2338 public relations, media evaluations, demographic studies,
2339 the types of things you would expect a public relations firm
2340 to put together.

2341 . Q So you think there may have been more than 100?

2342 . A My guess would be yes, there were probably well
2343 over 100 in the course of a year.

2344 . Q So we are talking about generating one on the
2345 average of every three to four days?

2346 . A Maybe more. Again, I don't have possession of
2347 these files. I have never counted them. I am just giving
2348 you my sense, impression, that there was a tremendous amount
2349 of paper generated by IBC and by the clients of IBC that IBC
2350 was reviewing.

PAGE 96

2351 . Q And to generalize, what was your role in the
2352 generation of this paper, these approximately 100 brochures?
2353 . A I might take exception to the word "brochures".
2354 They weren't all brochures.
2355 . Q Or items.
2356 . A These items.
2357 . Q Information items. Did you draft them?
2358 . A No.
2359 . Q You didn't write them?
2360 . A In some instances I participated in the drafting of
2361 them or edited them. I sat through meetings, strategy
2362 meetings prior to drafting, in which we came up with
2363 conceptual notions about how we wanted to approach
2364 something, about what items should be included in the final
2365 product, about identifying the proper people to whom they
2366 should be sent, working out a review process in each case
2367 prior to publication, talking about costs to the business.
2368 . Q These strategy meetings, were these generally the
2369 meetings with Mr. Fischer in the evening that you have
2370 described or the meetings early in the morning with Mr.
2371 Fischer and Mr. Miller? I mean, were those a substantial
2372 number of this type of strategy meeting?
2373 . A They were, yes. The answer is yes in both
2374 instances.
2375 . Q You also mentioned proposals to clients. How many

UNCLASSIFIED

UNCLASSIFIED

PAGE 97

2376 proposals do you recall you participated in?

2377 . A I think we had discussions. I think we had

2378 discussions about probably a dozen prospective country

2379 clients that IBC was interested in securing as clients of

2380 IBC, most of them in Central America, a couple of Asian

2381 countries, and some Arabic countries.

2382 . Q I thought you indicated you participated in the

2383 preparation of some written proposals to clients.

2384 . A That is correct.

2385 . Q How many of such written proposals?

2386 . A As many as either Mr. Miller or Mr. Fischer raised

2387 with me. As the business was developing, they would decide

2388 to target. They would get some information that would cause

2389 them to target a particular country, whether the country be

2390 Panama, Morocco or Brunei, whatever they happened to be. We

2391 would sit down and talk if Mr. Miller decided that was an

2392 appropriate target, or Mr. Fischer did, we would sit down

2393 and figure out how to best go about doing it.

2394 . Q Did you write any of these proposals?

2395 . A I wasn't the exclusive author of any of these

2396 proposals, but I participated in the manner I described a

2397 few moments ago in the preparation of most of this material.

2398 . Q That is you talked about them before they were

2399 written.

2400 . A We talked about them before they were written.

UNCLASSIFIED

2401 . Q And you read them after they were written.
2402 . A Sometimes Mr. Fischer would come back with an
2403 outline in the evenings. We would go over it, try to flesh
2404 it out, decide what needed to be included, what probably
2405 should be excluded, and how best to make that presentation,
2406 to whom it should be directed, how the prospective services
2407 should be described, what that would mean to IBC in terms of
2408 time and personnel. Those were regular, virtually nightly
2409 conversations we had.

2414 . Q Right. You mentioned a minute ago your calendars,
2415 which you have produced, and we will get to those in a few
2416 minutes.

2417 . Apart from the meetings in the evening with Mr.
2418 Fischer and in the early morning with Mr. Fischer and in
2419 some cases Mr. Miller and the other time you were able to
2420 make available at odd periods for them, do your calendars
2421 that you have produced reflect all of the meetings that you
2422 participated in in connection with this IBC arrangement that
2423 occurred during your regular working hours?

2424 . A No.

2425 . Q Why not?

2426 . A I would guess not.

2427 . Q Why not?

2428 . A As I indicated earlier, if I had an hour, hour and a
2429 half during the course of a day free, and it had been
2430 requested that I go over to Rich's office, I very well may
2431 not have entered it at all on my calendar.

2432 . It wasn't a law firm matter. I keep that calendar
2433 for purposes of time for the law firm. There are instances
2434 where I will put other things on it clearly, but certainly

2435 not all the time, as opposed to representation of a client,
2436 where I will typically enter all of the time I spent.

2437 Q Does your law firm have the practice of all of the
2438 attorneys preparing daily time cards for billing purposes?

2439 A We all have call cards. We keep them in different
2440 ways, and at the end of the month, each attorney submits a
2441 time sheet through his secretary, which is, you know,
2442 computerized.

2443 Q Summarizes hourly charges by client.

2444 A Yes, sir.

2445 Q Now, just to wind up the types of written work that
2446 you participated in for IBC. We have talked about the IBC
2447 brochure, we have talked about the various information items
2448 that were generated for MEPL and SDI and others, and we have
2449 talked about proposal to prospective clients.

2450 Q What else in the nature of written materials were
2451 you involved in?

2452 A I can't--there may have been other things. I can't
2453 recall them at the moment.

2454 Q Were those the major items?

2455 A I think so. You know, Mr. Fischer would come--in
2456 addition to telephone conversations I had during the course
2457 of the day, which were frequent--I guess that is--that is at
2458 least what I can recall as I sit here, having reviewed or
2459 discussed the one--for one purpose or another during the

2460 course of the relationship.

2461 . Q Well, as of today, looking back on this period of a

2462 year which ended seven or eight months ago, the types of

2463 written materials that you have identified are the ones that

2464 you recall today?

2465 . A That is correct.

2466 . Q Now, did you understand that part of your

2467 compensation was for arranging meetings?

2468 . A I think I understood from the beginning of the

2469 relationship that there would be occasions where Dave and I

2470 or one of us would be asked for one of various reasons to

2471 assist IBC on behalf of its clients in arranging a meeting.

2472 . Q And did you do that?

2473 . A On several occasions, yes.

2474 . Q What were the occasions?

2475 . A At my invitation, Elliott Abrams attended a

2476 luncheon. Either occasion, Elliott Abrams--I scheduled a

2477 visit with Elliott Abrams at his office at the State

2478 Department.

2479 . Q Anything else?

2480 . A No. Nothing that comes to mind immediately.

2481 . Q Well, take a minute or two to reflect.

2482 . A I am not recalling anything at the moment other than

2483 those two meetings that I on my own set up.

2484 . Q Well, did you assist in setting up any others?

PAGE 102

2485 . A Well, I think in every--in most instances anyway,
2486 certainly in many instances when Dave was asked to set up a
2487 meeting, Dave and I discussed it before it happened. I may,
2488 by the way, set up a meeting in the Vice President's office
2489 with--I may have set up a meeting with one of the Vice
2490 President's staff.

2491 . I know we had a meeting over there. I am not sure
2492 if I or Dave did that, but on any occasion when Mr. Fischer
2493 was asked to arrange a meeting, he and I reviewed it.
2494 Typically, he was the one that made the telephone call, not
2495 me.

2496 . Q So, in terms of making the telephone call, you did
2497 it for the two meetings with Abrams.

2498 . A Yes.

2499 . Q And one in the--one meeting with a member of the Vice
2500 President's staff.

2501 . A I think that is correct.

2502 . Q Who was the member?

2503 . A I don't recall. I know a lot of people--I don't know
2504 if Craig Fuller was in that meeting or if Lee Atwater was at
2505 that meeting. I just don't recall who was there when we had
2506 the meeting.

2507 . Q When was the lunch with Mr. Abrams?

2508 . A I am sorry. I don't recall the date of the lunch.

2509 . Q What was the month?

UNCLASSIFIED

PAGE 103

2510 . A I can't tell you.

2511 . Q Was it in early 1986?

2512 . A I believe it was prior to the summer of 1986. It

2513 was probably in the spring, but I don't recall the specific

2514 date.

2515 . Q Who attended?

2516 . A Mr. Abrams and myself, Mr. Fischer, Mr. Miller, Mr.

2517 Gomez and Mr. Channel, C-h-a-n-n-e-l.

2518 . Q Two Ls.

2519 . Who asked you to arrange that meeting?

2520 . A Mr. Miller.

2521 . Q But Mr. Miller did not attend?

2522 . A He did.

2523 . Q But--I missed that. So it was Abrams, you, Fischer,

2524 Miller, Gomez and Channell.

2525 . A That is correct.

2526 . Q Did Conrad attend?

2527 . A I don't believe so.

2528 . Q And Miller requested the meeting?

2529 . A I believe so.

2530 . Q Do you know if Channell requested Miller to set up

2531 the meeting?

2532 . A Yes.

2533 . Q That is your understanding?

2534 . A Yes.

UNCLASSIFIED

PAGE 104

2535 . Q Then Channell basically asked for the meeting?

2536 . A Yes, but I got the request through Rich.

2537 . Q Through Miller.

2538 . A But I believe it was on behalf of Mr. Channell.

2539 That is why he was at the meeting.

2540 . Q Why did your understanding this meeting had been

2541 requested?

2542 . A Mr. Channell had never met Mr. Abrams, I don't

2543 believe--prior to that time, and I think for obvious reasons.

2544 Mr. Abrams is--was Assistant Secretary for Inter-American

2545 Affairs, and was senior spokesman for the United States in

2546 matters concerning Central America, and Mr. Channell had an

2547 organization that was supportive of the President's position

2548 on the contras, and it was for purposes of an exchange of

2549 information.

2550 . I think Mr. Channell wanted to communicate to Mr.

2551 Abrams what he was doing and see what Mr. Abrams' thoughts

2552 on the matter were.

2553 . Q What happened at the lunch?

2554 . A Mr. Channell--to the best of my recollection, most of

2555 the luncheon was dominated by Mr. Channell. He told Mr.

2556 Abrams about all of the things he was doing, not only NEPL,

2557 but his other projects, some of which I have touched upon

2558 here, and talked about how he was hoping that he would be

2559 successful in supporting the President's platform on this,

2560 and appreciate the fact that Mr. Abrams was such a great
2561 spokesman for the Administration.

2562 That was that type of luncheon.

2563 Q Did Mr. Channell show Mr. Abrams any written
2564 material?

2565 A I don't recall. He may have brought material to the
2566 meeting with him--to the luncheon with him to show Mr.
2567 Abrams. I think we talked about the commercials that Mr.
2568 Channell's organizations had produced.

2569 I think he asked Mr. Abrams if he had ever seen any
2570 of the commercials. I don't recall whether Mr. Abrams had
2571 or had not. It is very possible he brought information or
2572 literature with him, but I don't recall if he did or didn't.

2573 Q At this point, you and Mr. Abrams were very close
2574 friends.

2575 A That is correct.

2576 Q Is that correct?

2577 Did you talk to Mr. Abrams afterwards about this
2578 luncheon?

2579 A I mean, I certainly talked to him afterwards. I
2580 don't recall that we specifically talked about the luncheon.
2581 We may have, but it was--if we did, I guess it was
2582 inconsequential, because I don't recall his comments post
2583 that luncheon, about it.

2584 Q Now, you said you arranged a second meeting with Mr.

UNCLASSIFIED

2585 | Abrams.

2586 | . A That is correct.

2587 | . Q When was that?

2588 | . A I don't recall exactly, but it was subsequent to

2589 | that, the luncheon.

2590 | . Q And who was in that meeting?

2591 | . A Mr.--it was in Mr. Abrams' office, and Mr. Fischer

2592 | and Mr. Channell and I were there.

2593 | . Q What happened at that meeting?

2594 | . A Mr. Channell had requested the meeting because he

2595 | was at that point--I am sorry, I don't recall the

2596 | date--concerned that the President was about to withdraw his

2597 | support from the contras in one form or another, and was

2598 | hoping to get some assurance from Mr. Abrams if that is the

2599 | case.

2600 | . The three of us went into Mr. Abrams' office. Mr.

2601 | Channell's sort of talking. He got very excited because Mr.

2602 | Abrams was telling him that at the minimum the President was

2603 | firm in his support and really wasn't saying much more, and

2604 | Mr. Channell started giving a speech and Mr. Abrams after--I

2605 | don't know exactly how long the meeting went; certainly

2606 | couldn't have been more than 10 minutes, as I remember it.

2607 | . Mr. Abrams finally just got up and said,

2608 | 'Gentlemen, you will have to excuse me. I have another

2609 | meeting.'" We all got up and walked out of the room, and

UNCLASSIFIED

2610 clearly, Mr. Abrams was upset by Mr. Channell's demeanor.

2611 . Q Did you discuss this afterwards with Mr. Abrams?

2612 . A I apologized to Mr. Abrams by telephone afterwards

2613 . Q What did he say?

2614 . A He said it happens. You know, "I am not

2615 offended."

2616 . Q And your recollection about a meeting with someone on

2617 the Vice President's staff is very imprecise?

2618 . A Very imprecise. This, by the way, is another

2619 project being worked on and talked about that never came to

2620 fruition. Mr. Channell was attempting to put together a

2621 project which involved a series of speaking engagements to

2622 small groups of conservatives around the country, and was

2623 hoping to get the Vice President to commit to a number of

2624 those, to appear at a number of those engagements.

2625 . This was--I guess another fund-raising vehicle for

2626 Mr. Channell's organizations. Several letters, as I

2627 recollect, were--that I know I saw and may indeed have had a

2628 hand in drafting were sent back and forth between Mr. Miller

2629 and the Vice President's office.

2630 . At first, it appeared that the Vice President was

2631 going to commit. I believe that commitment was later

2632 withdrawn. I don't think it ever happened.

2633 . Q All right.

2634 . A And my recollection is that is what that meeting was

UNCLASSIFIED

PAGE 108

2635 about, although I tell you I--the meeting is kind of a fog to
2636 me. I don't have any specific recollection of it at all.

2637 Q Now, you have indicated that you considered--one of
2638 the contributions that you were making pursuant to this
2639 arrangement with IBC was to arrange for these particular
2640 meetings.

2641 A I think the way I stated it was that--I think I
2642 understood right from the outset that part of the services
2643 would be that there would occasionally be a request on Dave
2644 or on me or on both of us to assist IBC on behalf of one of
2645 their clients to set up a meeting with somebody in the
2646 Administration.

2647 Q And these are the ones you arranged particularly?

2648 A Those two, I did on my own, yes, sir.

2649 Q And I think you used the phrase you made the
2650 telephone call?

2651 A That is correct.

2652 Q And part of your compensation was for making the
2653 telephone call?

2654 A I would hardly describe it that way, but part of my
2655 compensation was for rendering services. Included in those
2656 services was assistance in connection with giving or getting
2657 information from the Administration, and in that respect, I
2658 agreed to help set up those meetings, and did.

2659 Q You said that was contemplated from the beginning

UNCLASSIFIED

UNCLASSIFIED

NAME: HIR212002

PAGE 109

2660 that you would assist setting up such meeting, and that was
2661 to be covered by the compensation of--

2662 . A That is correct.

2663 . Q Now, the telephone calls for the other meetings you
2664 said were made by Mr. Fischer and not by you?

2665 . A They were not always in the form of telephone calls.
2666 Some were in the form of letters requesting meetings. That
2667 we would draft joint or someone would do a rough cut of it,
2668 and we would all look at--and had it sent out.

2669 . Q And you were aware that Mr. Fisher was making a
2670 request in one form or another for these other meetings?

2671 . A Yes, sir, I was.

2672 . Q And did these include meetings with the President?

2673 . A Yes, sir.

2674 . Q And Attorney General Meese?

2675 . A Yes, sir.

2676 . Q Who else?

2677 . A Charles Wick--the meeting, for example, at the White
2678 House in January, the briefing in the Cabinet Room that was
2679 arranged with the help of Mr. Fischer in January of 1986
2680 included Colonel North, Assistant Secretary Abrams, Don
2681 Regan and the President.

2682 . Q Okay.

2683 . Now, going back to your original series of meeting
2684 with Mr. Miller about this consulting arrangement, from the

UNCLASSIFIED

UNCLASSIFIED

PAGE 110

2685 | earliest discussions it was understood, was it not, that one
2686 | of Mr. Miller's objectives from you and Mr. Fischer was
2687 | setting up meetings with President Reagan?
2688 | . A That is not correct.
2689 | . Q When did that come up?
2690 | . A The first time that came up was, as I recall it, was
2691 | in January of 1986.
2692 | . Q What were the circumstances?
2693 | . A I am testing my recollection here, but to the best
2694 | of my knowledge, it came up at a meeting at IBC which was
2695 | attended by Mr. Miller and Mr. Fischer, myself, Mr. Channell
2696 | and Mr. Conrad. Either prior to that meeting or at that
2697 | meeting for perhaps the second or third time, we were
2698 | reviewing a file that had been given to David and myself by
2699 | either Mr. Miller or Mr. Channell, which included a stack of
2700 | letters from Mr. Meese--I believe Mr. Regan and the President
2701 | and perhaps the Vice President commending Mr. Channell for
2702 | his efforts and making reference to meetings that Mr.
2703 | Channell had already had at the White House, and the
2704 | different agencies of the Executive Branch, and we were
2705 | discussing at that meeting his current strategy for NEPL and
2706 | media campaign they were planning to mount, things of that
2707 | nature.
2708 | . I don't have--a crystal clear recollection of this
2709 | meeting. It was--a possibility of a briefing for a group of

UNCLASSIFIED

UNCLASSIFIED

NAME: HIR212002

PAGE 111

2710 donors to NEPL at the White House--as far as I can recall was
2711 raised in that meeting for the first time, and I can't tell
2712 you who raised it, who raised that possibility, because none
2713 of us had thought about it.

2714 . I certainly hadn't thought about it, nor Mr. Fischer
2715 before that time, but it sounded like a terrific idea, and
2716 we went about seeing if we can make it happen.

2717 . Q So, going back to the original discussions, which
2718 you believe occurred in probably December of 1985, it was
2719 contemplated from the beginning that one of the
2720 contributions that would be made by you and Mr. Fischer
2721 would be to arrange meetings in general, but the President
2722 had not been specifically identified in that original series
2723 of discussions or negotiations.

2724 . A That is generally accurate.

2725 . Q Well, in what relationship is it not accurate?

2726 . A Well, I guess we keep attempting here to define what
2727 services that were contemplated initially were. I have done
2728 my best thus far to give you my understanding of the range
2729 of those services as were discussed initially.

2730 . Q Right.

2731 . A As I indicated, one of many things mentioned in
2732 those--that first series of conversations and in the early
2733 negotiation with Mr. Miller were at three meetings that I
2734 references with Mr. Ryan and Mr. Abrams and Mr. Laxalt on

UNCLASSIFIED

UNCLASSIFIED

2735 | behalf of MEPL for purposes of examination of information
2736 | and perhaps getting some--getting additional support from
2737 | those people for the types of programs that MEPL was
2738 | undertaking.

2739 | . To the extent the meetings were discussed, that is
2740 | it. This subsequent January conversation, I have just
2741 | described to you, was indeed something absolutely new in
2742 | terms of the shape of this relationship, and the services to
2743 | be rendered. It was not something that had been
2744 | contemplated initially.

2745 | . Q Okay.

2746 | . How many meetings did you and/or Mr. Fischer arrange
2747 | with President Reagan and on behalf of an individual or a
2748 | group associated with Mr. Channell?

2749 | . A I can't give you a specific answer to that question,
2750 | because I didn't arrange those meetings myself and didn't
2751 | attend any, but one of them, and the one I attended was not
2752 | with an individual. It was the one I just described. It
2753 | was with a group of probably 30 people--35 people in the
2754 | Cabinet Room.

2755 | . I would be guessing--six.

2756 | . Q You were aware, were you not, of Mr. Fischer's
2757 | efforts to arrange such meetings?

2758 | . A Yes, sir.

2759 | . Q But he made the ¹ phone call, not you--I think to use

UNCLASSIFIED

NAME: HIR212002

UNCLASSIFIED

PAGE 113

2760 the phrase?

2761 . A Figuratively, yeah, he made the arrangements.

2762 . Q Now, did you become ware at some point in 1986 that

2763 Mr. Channell and Mr. Conrad had the understanding that they

2764 were paying you and Mr. Fischer \$50,000 for each meeting

2765 with Mr. Reagan?

2766 . A At some point in 1986, early in 1986, although I

2767 can't again tell you the date, both Mr. Fischer and I,

2768 through a vehicle I can't recall now or I would share it

2769 with you, became aware of the fact that either Mr. Conrad or

2770 Mr. Channell or both of them felt that they had made a

2771 payment for arranging a meeting.

2772 . Q This was told to you, I take it, by someone?

2773 . A Yeah. I mean, it was either a comment that was made

2774 to Dave or in somebody's presence, but we became aware of

2775 it, and were very concerned about it.

2776 . Q Why were you concerned?

2777 . A Because that was not--it was inaccurate. That was

2778 not the relationship we had then. It was not the

2779 relationship we anticipated, it was not one we would have

2780 entered into and it was inaccurate and we wanted to correct

2781 it.

2782 . Q What did you do?

2783 . A We had a meeting--called a meeting.

2784 . Q When was this meeting?

UNCLASSIFIED

UNCLASSIFIED

NAME: HIR212002

PAGE 114

2785 . A I don't recall the date of the meeting, but it was
2786 immediately after this became known to us and we were
2787 concerned about it, and we telephoned Mr. Miller and said,
2788 "We would like to have a meeting."

2789 . Q Where was the meeting?

2790 . A It was IBC's offices.

2791 . Q Who attended?

2792 . A Mr. Miller, Mr. Gomez, Mr. Fischer, Mr. Channell,
2793 Mr. Conrad and myself.

2794 . Q What was said at this meeting?

2795 . A We addressed the issue I just discussed. Said, "It
2796 has come to our attention you may feel"--this was addressed
2797 to Mr. Conrad and Mr. Channell--"or that somebody may have
2798 mentioned or indicated that we have been paid for meetings
2799 or retained by one of your organizations, and that is wholly
2800 inaccurate, and we have called this meeting to make sure
2801 that everybody understands that we have a continuing
2802 retaining relationship with IBC, we are available to IBC for
2803 all of the reasons--all the prefaces I have discussed with
2804 you already here earlier today," and that "we would
2805 appreciate it if no one ever made that kind of inaccurate
2806 remark again," and there was complete concurrence around
2807 the table as to all points.

2808 . Q Had you received a payment of \$50,000 from IBC after
2809 the January meeting with President Reagan?

UNCLASSIFIED

UNCLASSIFIED

NAME: HIR212002

PAGE 115

2810 . A We received--best of my recollection--I don't have the
2811 schedule in front of me--received a \$50,000 payment either in
2812 late January or early February.

2813 . Q And the retainer agreement that you have described
2814 provided for \$20,000 a month?

2815 . A That is correct.

2816 . Q What was the reason for the \$50,000 payment entered
2817 late January or early February?

2818 . A There were two reasons for it. The first reason
2819 was, as I indicate now and on several occasions, is that
2820 between the commencement of this relationship in December
2821 and mid-January, or by the second week in January, it became
2822 very clear to us--it certainly had by the end of January--that
2823 the amount of time that both Mr. Fischer and I, perhaps at
2824 that point more so Mr. Fischer, had been called upon to
2825 dedicate to this, was grossly in excess of what had
2826 initially been contemplated.

2827 . Therefore, we asked Mr. Miller, and he obliged us to
2828 accelerate payments, and I think as early as that date, we
2829 were discussing or at least thinking about increasing the
2830 initial financial remuneration in the anticipation that this
2831 increased call on time and resources was going to continue
2832 and thereby preclude Mr. Fischer for one from developing a
2833 broad-based consulting operation.

2834 . We also, I will add--Dave and I both had some concern

UNCLASSIFIED

UNCLASSIFIED

NAME: HIR212002

PAGE 116

2835 over being paid at all. I think that is always--always in
2836 the back of your mind in one of these relationships, and we
2837 felt a lot more comfortable being ahead of the game at that
2838 point, just on the basis of the initial agreement than
2839 behind the eight ball, and we are both as I indicated a
2840 moment ago, talking about the fact that there would have to
2841 be an adjustment in the compensation if this amount of time
2842 and effort were going to be dedicated on a regular basis.

2843 Q Do you recall that the original \$50,000 check was
2844 returned for insufficient funds?

2845 A I think that happened--I don't recall that
2846 specifically, but I think that happened on more than one
2847 occasion during the course of this relationship.

2848 Q When you had this meeting with Mr. Channell and Mr.
2849 Conrad, did they tell you that they had understood they were
2850 paying \$50,000 per meeting with President Reagan?

2851 A No, sir.

2852 Q Well, did they deny that was their understanding?

2853 A The--my recollection of that meeting, there was
2854 absolute unanimity among all of us in connection with what
2855 the relationship between Mr. Fischer and I and IBC was.
2856 There was absolutely no remark that I can recall in that
2857 meeting challenging that or disputing it in any sense.

2858 We didn't hold that meeting to create any animosity.
2859 We held it to make sure that they understood that, and to

UNCLASSIFIED

NAME: HIR212002

PAGE 117

2860 the extent that somebody had made a remark along those
2861 lines, that wouldn't happen.

2862 Q Did you ever become aware that subsequent to that
2863 meeting, Mr. Conrad said they paid you \$50,000 per meeting
2864 with President Reagan?

2865 A Subsequent to that meeting?

2866 Q Yeah.

2867 A No.

2868 Q Did you ever arrange meetings with Administration
2869 officials, for anybody else, under any other consulting
2870 arrangement other than the ones you described today?

2871 A Consulting arrangement other than IBC?

2872 Q Yes.

2873 A And outside of the law firm?

2874 Q Yes.

2875 A Yes.

2876 Q What?

2877 A I consulted to--in connection with several other
2878 people--Micro-Gravity Research Associates, which is a high-
2879 tech organization that manufactures a type of crystal. A
2880 meeting was set up--two meetings were set up on their
2881 behalf--one with Mr. Keyworth, who was the present--since
2882 advisor, and I believe one was an official at the Department
2883 of Transportation, although I didn't attend that meeting.

2884 . And in other instances--and I am now going back to

UNCLASSIFIED

2885 1984, perhaps, as early as 1984, maybe '85--there was a
2886 project that was presented to me by some folks in New York
2887 who owned an advertising barter company, and they had access
2888 to both numerous--by numerous, I mean tens of thousands or
2889 airline tickets they had gotten control of in a transaction
2890 with one of the airlines, and I don't remember which one,
2891 and discount hotel rooms, and they were interested in
2892 selling those to the United States Government, and they were
2893 being sold at a rate cheaper than the best government rate,
2894 and asked me to set up meetings, which I did, with the folks
2895 responsible for those types of decisions, and three or four
2896 different agencies.

2897 . I don't recall the precise people with whom I set
2898 the meetings up, but yeah, I did that, sure.

2899 . Q In response to my original question, you made the
2900 remark other than through your law firm. Is that a part of
2901 your law practice, to arrange meetings with Administration
2902 officials?

2905 . A No. The only meetings we had were--I was just
2906 trying to define your question.

2907 . Q Why did you think you needed to exclude your law
2908 firm?

2909 . A Well, there have been times in the last five years
2910 when I have had reason to sit down with someone in the
2911 Administration on behalf of a client that I have, because it
2912 is a matter pending before that agency or under that
2913 person's jurisdiction for advice or whatever.

2914 . Q But that is a meeting that you yourself have--

2915 . A Yes, sir.

2918 . A Yes, sir.

2931 . A Yes.

2932 . MR. FRYMAN: Ask the reporter to mark this volume
 2933 as Artiano Deposition 2 for Identification, which contains
 2934 the records produced by Mr. Artiano's counsel relating to an

2955 | . 2 Now, Mr. Artiano, Exhibits 2, 3 and 4--

2956 | . MR. MEEHAN: Exhibit 2 appears to be your PC

2957 | account, check register and bank statements with checks.

2958 | Are the checks included here? I haven't had a chance--yes.

2959 | they are--and also statements from--some statements from your

2961 | these were produced in response to the subpoena that was

2981 MR. FRYMAN: And [REDACTED]

2982 MR. MEEHAN: Which appears to have been opened in

2983 early 1986.

2984 The account ending in number [REDACTED] appears to be a

2985 personal account which had, I believe, its only actual

2986 transactions in and out in December '85 or early 1986, and

2987 account number ending with [REDACTED] is a premier credit line

2988 statement with the American Security Bank beginning--it

2989 appears in the summer of 1986--the first statement appears to

2990 be September 1986 and continues to April of 1987.

2992 Q Now, subparagraph A of the schedule attached to the

2993 subpoena, Mr. Artiano, calls for you to produce for the

2994 period July 1, 1985, to the present, all records relating to

2995 bank accounts over which the respondent had any authority to

2996 withdraw funds, and then it describes particular types of

2997 documents relating to those accounts.

2998 Now I will direct this question both to you and

2999 your counsel: Is it your belief that Exhibits 2, 3 and 4

3003 . MR. MEEHAN: I believe it does. We supplemented.
3004 Apparently we might have had some statements in the original

3006 . BY MR. FRYMAN:
3007 . Q And are those accounts that have been identified,
3008 Mr. Artiano, the only bank accounts during that period over
3009 which you had any authority to withdraw funds?
3010 . A Yes, sir.
3011 . MR. FRYMAN: Ask the reporter to mark this document
3012 as Artiano Exhibit 5 for identification.
3013 . [Artiano Exhibit No. 5 was marked for
3014 identification.]
3015 . BY MR. FRYMAN:
3016 . Q Mr. Artiano, Exhibit 5 is a 1985 Federal income tax
3017 return and there also are some materials relating to a
3018 Virginia return included in that.
3019 . Are those the only materials that you have that are
3020 responsive to subparagraph B of the schedule attached to the
3021 subpoena, which calls for 1985 and 1986 tax returns?
3022 . MR. MEEHAN: I think we submitted the extension
3023 certificate for the 1986 tax return.
3024 . MR. FRYMAN: All right. There was not a 1986 tax
3025 return?
3026 . MR. MEEHAN: No. But there was an extension and
3027 certificate that was filed with the Internal Revenue

3028 Service.

3029 MR. FRYMAN: And that is also included in Exhibit

3030 5.

3031 Mr. Meehan, it is my belief that Exhibit 5 is all
3032 of the tax materials that you have submitted, and if you
3033 would just look through that land confirm that is the case.

3034 MR. MEEHAN: We have a separate document form 4868,
3035 but that is the '86 extension notification to the Internal
3036 Revenue Service, as well as a copy to the State of Virginia.

3037 MR. FRYMAN: And those are the materials that Mr.
3038 Artiano has which are responsive to subparagraph B; is that
3039 correct?

3040 MR. MEEHAN: Yes.

3041 MR. FRYMAN: Finally, I would ask the reporter to
3042 mark as Artiano Exhibit 6 for Identification a group of
3043 calendars or redacted calendars which have been produced.

3044 [Artiano Exhibit No. 6 was marked for
3045 identification.]

3046 MR. FRYMAN: Mr. Meehan, if you and Mr. Artiano
3047 will look at Exhibit 6 and confirm those are the calendars
3048 that you have produced.

3049 THE WITNESS: That's the redacted calendar for the
3050 period of 1985 through July 1987--or to July 1987.

3051 MR. FRYMAN: And were those calendars produced in
3052 response to the request in subparagraph C of the schedule

3053 attached to the subpoena?
3054 . THE WITNESS: Yes.
3055 . MR. MEEHAN: Also in response, in fact, to
3056 subparagraph E in part, as well as some of the bank
3057 statements, are in response to C as well as A, as you would
3058 know. He related to David Fischer--some of the portions of
3059 the calendars relate to meetings with Mr. Fischer, and Mr.
3060 Miller obviously is covered by C.
3061 . MR. FRYMAN: All right.
3062 . Now, do the documents that have been marked as
3063 Artiano Exhibits 2, 3, 4, 5 and 6 constitute all of the
3064 documents in Mr. Artiano's possession which are responsive
3065 to subparagraphs A, B, C, D and E of the subpoena?
3066 . MR. MEEHAN: I believe they do.
3067 . MR. FRYMAN: All right.
3068 . BY MR. FRYMAN:
3069 . Q Just a few brief questions, Mr. Artiano, with
3070 respect to Exhibit 6, the calendars.
3071 . These calendars, I take it, are the only references
3072 to work performed pursuant to the consulting agreement with
3073 IBC?
3074 . A Yes, sir.
3075 . Q Is that correct?
3076 . If you would look at the calendar entry for
3077 February 25, it is a reference to a breakfast meeting at

3078 Dupont Plaza and the initials appear to be DF, RM and SC.
3079 . Who do they represent?
3080 . A Dave Fischer, Richard Miller and Spitz Channell.
3081 . Q There is another reference on a page that has 13,
3082 and I can't tell the month. And there is an entry at 11:30,
3083 it appears, for a White House lunch, or WH lunch, which I
3084 take it is White House lunch.
3085 . A That's correct.
3086 . MR. MEEHAN: The next page is March of '86.
3087 . BY MR. FRYMAN:
3088 . Q What does that entry relate to?
3089 . A I don't know. I pulled it because I suspected it
3090 may have been something that needed to be supplied pursuant
3091 to the subpoena.
3092 . I had a lunch at the White House with Dave Fischer
3093 and the Warns, I believe their names were. They were
3094 contributors, donors, to Mr. Channell's foundation, I think
3095 to NEPL. Dave had invited them to lunch at the White House
3096 and had invited me to come along, and I didn't know if that
3097 was the reference to that, because I had lunch at the White
3098 House other times clearly.
3099 . Q Who else attended this luncheon at the White House
3100 with the Warns?
3101 . A Myself and David Fischer.
3102 . Q Now, at this time Mr. Fischer was not a White House

3103 employee?

3104 . A That's correct.

3105 . Q Was there any White House employee who attended?

3106 . A It's possible that Jim Kuhn or someone was there

3107 when we arrived and sat us down at our table, but from my

3108 recollection only four of us sat through the whole lunch

3109 with Mr. Fischer and myself and Mr. and Mrs. Warn.

3110 . Q Was this luncheon in what is known as the White

3111 House Mess?

3112 . A Yes, sir.

3113 . Q Did Mr. Fischer retain privileges at the White

3114 House Mess after he resigned?

3115 . A I don't know. That's a good question. I don't

3116 know whether Mr. Fischer retained those privileges or not.

3117 . Q But you have no specific recollection of anyone

3118 from the White House being a participant in this lunch?

3119 . A No. The only four people I remember being at the

3120 lunch are the people I mentioned. I don't know whether

3121 someone came in and sat us down at the table and then left.

3122 . Q If you would--

3123 . MR. MCGOUGH: Do you know if Mr. Fischer retained

3124 his White House pass after--

3125 . THE WITNESS: I believe he did.

3126 . MR. MCGOUGH: Did he use the White House pass to

3127 gain entry to the White House Mess?

UNCLASSIFIED

PAGE 128

3128 THE WITNESS: I don't think so. You know, when you
3129 go into the White House, you have to clear a security on the
3130 outside. Typically you do that by calling in to whomever is
3131 going to clear you. You give your name, you're cleared at
3132 the gate and, when you go in, you present some kind of
3133 picture identification at the gate.

3134 I have no idea what he submits at the gate when he
3135 goes in. Once you're in the White House, you're typically
3136 met by somebody or you go into somebody's office and then
3137 proceed from there. But I never saw someone show a pass to
3138 get into the White House Mess.

3139 To get into the White House you just need to be
3140 cleared by anyone inside the White House.

3141 MR. MCGOUGH: Did you ever see Mr. Fischer display
3142 his pass during the meeting with the Warns or during the day
3143 with the Warns?

3144 THE WITNESS: No.

3145 MR. MCGOUGH: Just a White House pass?

3146 THE WITNESS: I don't think I've ever seen his
3147 White House pass, as a matter of fact.

3148 MR. OLIVER: Isn't it true when you go to the White
3149 House Mess, you're given a badge?

3150 THE WITNESS: Similar to what you've got around
3151 your neck.

3152 MR. OLIVER: Did Mr. Fischer wear a visitor's

3153 badge?

3154 . THE WITNESS: I have no idea. I have no
3155 recollection.

3156 . BY MR. FRYMAN:

3157 . Q Turning to the entry on March 19th, there's a
3158 reference to a meeting with Mr. Luss.

3159 . Who is Mr. Luss?

3160 . A Mr. Luss is chairman of San Diego Federal. That
3161 was--that meeting is totally unrelated to the subject we're
3162 discussing, but it was an entry on my calendar that showed
3163 Dave Fischer and I included it to err on the side of caution
3164 in terms of responding to the subpoena.

3165 . Q I show you the entry on March 13th, 1986. Could
3166 you read that entry for the record.

3167 . A Yes. Need to firm up proposal with Conrad.

3168 . Q What does that refer to?

3169 . A I have no idea. I'm sorry.

3170 . Q There is an entry on April 9, 1986, to a dinner at
3171 Maison Blanche. Do those initials indicate Mr. Channell and
3172 Mr. Fischer?

3173 . A Looks to me like SC and DF, although--I guess I
3174 thought it was, which is why I pulled it out of here. But
3175 it's not real clear to me from that, but it could very well
3176 be Mr. Channell and Mr. Fischer at the Maison Blanche.

3177 . Q Finally, there is an entry on July 21, 1986, a

3181 | . Q What does that refer to?

3182 | . A I don't know.

3183 | . Let me tell you what I did when I was redacting, to
3184 | share the process with you.

3185 | . Typically when I had a White House lunch, I put

3187 | was going with. On the two occasions that appear in the

3723 . [Discussion off the record]

3724 . MR. MEEHAN: We have gone through a lot of personal
3725 financial transactions with Mr. Artiano which are unrelated
3726 really to your investigation.

3727 . I understand why you had to ask them and I'm not
3728 sure what is going to happen with the transcript, but I
3729 would request that staff join with me, if the transcript is
3730 to be released, requesting that this portion be redacted so
3731 that it not be any part of the public record at any time.

3732 . MR. FRYMAN: Your request is noted and we will
3733 attempt to comply with that request.

3734 . MR. MEEHAN: On that line, obviously, we are
3735 concerned about the New York Times article yesterday in
3736 which it appears that the day before he comes up here to
3737 testify, the article ran and that somehow information--it
3738 certainly did not come from us or from anyone connected with
3739 Mr. Artiano--with respect to the fact that he would be coming
3740 up here.

3741 . And so we are concerned about material leaking out
3742 by accident or for any reason, and this material, which is
3743 really totally unrelated to the investigation, it seems to
3744 me should not come out in any event, and we request that as
3745 the time and the report is prepared--I don't know that other
3746 people have had to turn over documents relating to their

3747 divorce in situations like that, but to the extent that in
3748 his case if a portion of this is going to be made public, it
3749 be limited to that which relates to the investigation.

3750 MR. FRYMAN: As I say, your request is noted, and I
3751 think it's a reasonable request, and we will attempt to
3752 comply with that.

3753 I would also just like to note that you and I,
3754 prior to the commencement of the deposition, discussed the
3755 New York Times article and I expressed to you my concern
3756 about that article and I stated to you that the first time I
3757 had any inkling that the article was coming was when I read
3758 it in the paper yesterday. If you have any indication of
3759 the source of that article, I would like to know about it.

3760 I have discussed it with the Chief Counsel of the
3761 House Committee and I have expressed my concern to him about
3762 that article. It is a discussion we had yesterday, and I'm
3763 sure he would equally like to know the source of that
3764 article, and if you get any information I would appreciate
3765 it.

3766 MR. MEEHAN: We knew a day in advance because Mr.
3767 Berke was trying to reach Mr. Artiano--the man whose byline
3768 ~~is~~ on the article. But certainly the source or the idea of
3769 the article did not come from us, though Mr. Mibey did speak
3770 with him when he reached him on the phone, though he didn't
3771 know when he answered the call that that is what it was

 3773 | we don't know where or how it came about.

3774 | . MR. FRYMAN: As I say, I share your concern.

3775 | . BY MR. FRYMAN:

3776 | . Q Let me just ask a few concluding, general
 3777 | questions, Mr. Artiano.

3778 | . You have indicated that you received approximately
 3779 | \$200,000 from International Business Communications; some of
 3780 | the monies that you received, you relayed to Mr. Fischer
 3781 | pursuant to your understanding with him, and that some of
 3782 | the monthly checks were made payable to you and you then
 3783 | paid him a portion of it.

3784 | . Other than the monies that you relayed to Mr.
 3785 | Fischer, did you transfer to anyone else any portion of the
 3786 | monies you received from IBC?

3787 | . A No, other than the things we have just gone over.
 3788 | I commingled that money with my personal money, with my PC
 3789 | money, and then spent it, as you can see.

3790 | . Q But other than that commingling, was there any
 3791 | sharing of the proceeds--

3792 | . A Absolutely not.

3793 | . Q --from the IBC contract with anyone other than Dave
 3794 | Fischer?

3795 | . A Absolutely none.

3796 | . MR. FRYMAN: Mr. Meehan, as I indicated, I will

3797 follow up with you with some written questions about some of
3798 the other materials and the bank records.

3799 . I am hopeful that we can resolve those questions in
3800 writing.

3801 . I have no further questions at this time.

3802 . In the event that we are unable to resolve them, it
3803 may be necessary to resume the deposition at some point.
3804 But it is my hope and expectation at this point that we can
3805 avoid that.

3806 . MR. MEEHAN: Fine. We will attempt to respond
3807 promptly to your request.

3808 . BY MR. MCGOUGH:

3809 . Q Mr. Artiano, we spoke before, I believe, at the
3810 interview.

3811 . When did you first inform your law firm of your
3812 activities with or on behalf of IBC?

3813 . A I advised all of my partners of my participation
3814 with Mr. Fischer on behalf of IBC early in 1987. I believe
3815 it was January or early February of 1987.

3816 . Q So that would have been really a year or thirteen
3817 months after you first entered into this arrangement with
3818 Mr. Fischer; is that correct?

3819 . A That's correct.

3820 . Q There was a period of time, was there not, when Mr.
3821 Fischer was actually doing business from your office?

3822 . A There was a period of time when Mr. Fischer was
3823 coming into Washington, using the IBC offices, and
3824 occasionally coming by my office and using a second phone I
3825 have in my office, which is on the opposite end of the room
3826 from my desk.

3827 . He would come in for half an hour, 45 minutes, make
3828 a few calls and leave.

3829 . Q Did you explain to your law partners who he was and
3830 what he was doing?

3831 . A My law partners know Mr. Fischer.

3832 . Q Were they aware that you had any kind of business
3833 relationship with Mr. Fischer at the time he was coming in
3834 and using your office?

3835 . A Probably not.

3836 . Q Can you tell me, give me an estimate of the number
3837 of billable hours you reported to your firm in 1986,
3838 calendar 1986?

3839 . A No.

3840 . Q Was it over 2,000?

3841 . A I doubt it, but it was probably around there. My
3842 billable hours have been pretty consistent.

3843 . Q In the neighborhood of 2,000 hours?

3844 . A I think so, but I would have to go back and take a
3845 look.

3846 . Q During the first quarter of 1986, when I believe

3847 you said your activity on behalf of Mr. Channell's
3848 organization was most intense--it would be January, February,
3849 March of 1986--did the billable time you were reporting to
3850 your firm drop at all?

3851 . A I don't believe so. I would need to go check those
3852 records to give you a specific answer, but I was spending
3853 most evenings working on this with Mr. Fischer, and I was
3854 spending weekend time working on it, and as I described in
3855 the answer to Mr. Fryman's questions, I was doing my best.
3856 I believe I accomplished the end, the goal, of not having it
3857 interfere with my activities on behalf of the law firm.

3858 . Q Did you have any other business ventures during
3859 that first quarter of 1986 that required any of your time?

3860 . A Microgravity may have been active for me at the
3861 beginning of 1986, but I don't remember. That is a
3862 possibility, as well as Combs, which were both separate
3863 ventures. I didn't spend an extraordinary amount of time on
3864 either of those matters.

3865 . Those are the only two business matters I can think
3866 of.

3867 . Q Can you tell me what your approximate gross
3868 receipts were from the Microgravity project?

3869 . A My personal receipts from that were about \$6,000.

3870 . Q And as far as Combs is concerned?

3871 . A About 5,000-⁵6,000 approximately.

3872 . Q What role, if any, did you have in setting up
3873 meetings for Mr. Channell and/or his contributors at the
3874 White House?

3875 . A I knew that they were intended. I discussed them
3876 with Mr. Fischer, with Mr. Miller, occasionally with Mr.
3877 Channell, and perhaps Mr. Conrad. We talked about all of
3878 the things you would ordinarily talk about in setting up
3879 those types of meetings, about timing, about clearance
3880 procedures, about dates, those types of things. I had no
3881 direct contact with the White House.

3882 . Q That was going to be my next question.
3883 Did you speak with or communicate with anyone at
3884 the White House directly?

3885 . A No, sir.

3886 . Q Mr. Fischer handled that end of it?

3887 . A Yes, sir.

3888 . Q The scheduling.
3889 Did you assist in preparing any written
3890 descriptions of Mr. Channell's organizations or his
3891 contributors for submission to the White House?

3892 . A I believe I worked with Mr. Fischer in the
3893 preparation of a memorandum he sent to Chief of Staff Regan.

3894 . Q And that memorandum described, did it not, MEPL and
3895 the American Conservative Trust and their activities; is
3896 that fair to say?

3897 . . A I have not seen that memorandum probably for over a
3898 year, but I would guess that that's probably what was in the
3899 memo.

3900 . . Q In January of 1986 were you aware that Mr. Channell
3901 and his organizations were raising money for direct
3902 assistance to the contras, that is, money to be given or
3903 passed along through intermediaries to the contras?

3904 . . A No.

3905 . . Q What did you understand?

3906 . . A We understood their role to be a media-oriented
3907 role. We knew they were doing commercials. They were
3908 planning to do more commercials. They were supporting the
3909 Administration policies in that respect. That is a fairly
3910 expensive way to go.

3911 . . I also--although I never was frankly real familiar
3912 with exactly how this was done, I knew that they were
3913 providing humanitarian aid, or believed they were, for the
3914 Nicaraguans.

3915 . . Q Can you elaborate on how you knew they were
3916 providing humanitarian aid?

3917 . . A I read the formal packages that had been prepared
3918 on behalf of MEPL prior to Mr. Fischer and I beginning our
3919 consulting relationship with Mr. Miller.

3920 . . I was certainly present at meetings where MEPL was
3921 discussed, and these programs were discussed.

3922 As I say, I don't have a specific recollection of
3923 any discussion of humanitarian aid. All of my recollections
3924 go to media campaigns. That was the principal part of the
3925 conversation.

3926 Q But you were aware at least one facet of their
3927 activities was raising money for the supply of humanitarian
3928 aid to the contras?

3929 A I believe so. Had I been asked at that time, I
3930 probably would have responded that way.

3931 Q Do you recall whether the memorandum you helped
3932 prepare for submission to Mr. Regan included any reference
3933 to that aspect of NEPL's activities?

3934 A I don't. I'm sorry.

3939 Q Do you recall anyone ever making a conscious
3940 decision not to mention that appearance of MEPL's activity
3941 at the White House?
3942 A No.
3943 Q Were you at all--involved at all in setting up
3944 meetings with Charles Wick?
3945 A No.
3946 Q How about with Attorney General Meese?
3947 A In setting up that meeting.
3948 Q In setting up the meeting. I know we won't go to
3949 attending it.
3950 A No.
3951 Q You weren't the contactor involved in that?
3952 A No, I don't believe so.
3953 Q You were present, however, at a meeting with
3954 Attorney General Meese; is that correct?
3955 A That is correct.
3956 Q Can you describe what that meeting was about?
3957 A That was a meeting attended by Dave Fischer,
3958 Richard Miller, Frank Gomez--I believe Frank Gomez was
3959 there--Mr. Channell and Mr. Conrad.

3960 . . . This was in connection with the Constitutional
3961 Minutes program. They were trying to get organized. They
3962 had already done some preliminary--produced some preliminary
3963 paperwork on, I believe--certainly in the form of a
3964 description--a proposal for it.

3965 . . . They were interested in advising the Attorney
3966 General and his staff that they were planning to do this,
3967 and the purpose of the meeting was to let them know that and
3968 to seek any kind of guidance or help that the Justice
3969 Department might be able to lend in terms of recommending
3970 constitutional scholars that might help draft these
3971 television spots and that sort of thing.

3972 . Q Do you recall who set that meeting up?

3973 . A I believe Mr. Fischer set it up.

3974 . Q Let's jump, if we could, to January of '86, where
3975 in the discussions about the upcoming briefing at the White
3976 House for NEPL contributors, I believe you said that in
3977 discussions--whether late in '85 or early '86--someone brought
3978 up the possibility of such a briefing and it sounded like a
3979 terrific idea, and you and Mr. Fischer pitched in to help it
3980 happen.

3981 . . . Is that a fair summary of what--

3982 . A That's correct.

3983 . Q During those discussions was there mention--did
3984 anyone mention to you that there had been earlier briefings

3985 at the White House?

3986 . A As I indicated earlier, I saw a--a folder.

3987 . Q Yes.

3988 . A And in that folder, which had been provided to me

3989 through Mr. Miller, he had received it from Mr. Channell.

3990 I'm sure, or had prepared it for Mr. Channell with a stack

3991 of letters, and the letters referenced meetings.

3992 . There were letters commending Mr. Channell and his

3993 organization--meetings in the White House, and I had been

3994 advised either by Mr. Channell or by Mr. Miller, as I did

3995 Fischer, that they had had a series of meetings in the White

3996 House and that from this recollection that was substantiated

3997 in this packet of letters.

3998 . Q So is it fair to say when the idea of a briefing

3999 was discussed in late '85 or early '86, it wasn't a new

4000 idea; it was a variation on something they had done before?

4001 Is that fair to say?

4002 . A That's correct.

4003 . Q And what did you and Mr. Fischer bring to the

4004 January briefing that was different in any way from what

4005 they had done before?

4006 . A Well, I don't know this for a fact, but I don't

4007 believe they had ever had a Cabinet Room briefing. Those

4008 are obviously difficult to arrange for a host of reasons.

4009 We discussed--precisely that, frankly, at the meeting, how

UNCLASSIFIED

4010 difficult that is to do, you know, what would be involved,
4011 what steps needed to be taken, the fact that we would need
4012 to advise--immediately advise the Chief of Staff and perhaps
4013 some people at the National Security Council--I don't
4014 remember who.

4015 . But Dave and I, during the course of that meeting
4016 and afterwards at length for--probably twenty occasions--
4017 discussed it, and Dave went forward and we prepared the
4018 memorandum to Mr. Regan.

4019 . I know Dave spoke to Mr. Regan about this prior to
4020 that briefing and probably spoke to other people, although
4021 you have to ask him with who he spoke, and managed to get it
4022 approved and put on the schedule.

4023 . Q You either stated or implied, I think, that it was
4024 in the course of discussing that White House briefing that
4025 the idea of an appearance or meeting with President Reagan
4026 was first broached to you.

4027 . Is that--am I correct or did I draw that correctly?

4028 . A No, you're correct. That was the first time anyone
4029 had raised any kind of meeting or making the President
4030 available for any purpose.

4031 . Q Whose idea was that? Do you recall?

4032 . A You know, I don't. I don't remember who initiated
4033 it. We were kind of having a strategy session around the
4034 table and talking about the future of NEPL and what Mr.

4035 | Channell hoped to accomplish, you know, getting someone from
4036 | the Administration to voice directly to the donors that--you
4037 | know, this was a real important policy for the
4038 | Administration.

4039 | . Q And I guess whenever it was voiced, everyone agreed
4040 | that would be a good idea, to have the President--

4041 | . A Correct.

4042 | . Q By that time you and Mr. Fischer had been on a
4043 | \$20,000 a month retainer for a couple of months; is that
4044 | fair to say?

4045 | . A For two weeks.

4046 | . Q Two weeks.

4047 | . A I believe. Approximately two weeks.

4048 | . Q There came a point, did there not, when I think you
4049 | said the deal was renegotiated and--there was an agreement to
4050 | accelerate payments; is that fair to say?

4051 | . A That's correct.

4052 | . Q Can you be a little more specific about what the
4053 | payments--the new payment structure was to be?

4054 | . A Well, I can--the best I can tell you is this. The
4055 | payment structure--after the first arrangement which set
4056 | forth the \$20,000 a month, \$20,000 a month payment stayed in
4057 | a state of flux for as long as I was a direct participant in
4058 | any of those discussions.

4059 | . By mid to the third week of January it was clear

UNCLASSIFIED

4060 that Dave Fischer was spending virtually full time on behalf
4061 of IBC. I was spending a lot more time than I ever dreamed
4062 I would be spending on it, and Dave and I--to each other, and
4063 I'm sure to Rich Miller--indicated this was not anticipated,
4064 that the fee structure would have to change and it would
4065 have to be increased and indeed, as I've expressed earlier,
4066 that both Dave and I were concerned about the fact this
4067 would just stop as suddenly as it started, so we thought it
4068 was wise to get an advance payment so we were not behind a
4069 curve.

4070 . Q Do you recall striking an agreement at that time to
4071 accelerate payments so that \$280,000 would be paid over the
4072 course of the next four months?

4073 . A No.

4074 . Q Was there ever any agreement to that effect--I'm not
4075 saying that was what the payment structure was, but do you
4076 ever recall striking that agreement?

4077 . A No. I don't.

4078 . Q Do you ever recall--do you recall what the
4079 accelerated payment schedule was to be?

4080 . A I don't think there was ever a specific agreement
4081 about it. I--I know that Mr. Miller, at least at the
4082 beginning, although I--at some point was not again directly
4083 involved in these conversations--was very amenable to the
4084 request for acceleration of payments.

UNCLASSIFIED

NAME: HIR212002

PAGE 167

4085 . Q But let's get a little bit more specific. What
4086 were you asking for as far as--I mean acceleration can mean a
4087 lot of things. What was your proposal to remake the
4088 contract?

4089 . A You had an oral agreement to take \$20,000 a month
4090 over 24 months. What did you propose as an alternative in
4091 January of '86?

4092 . A Two things happened at that point. One was first
4093 the acceleration, and the number that Dave and I came up
4094 with was \$50,000 in terms of give us an accelerated payment
4095 at the end of January or February, get ahead of us a little
4096 bit, give us a check for \$50,000.

4097 . Q One \$50,000 accelerated payment?

4098 . A Yeah. I don't remember if there was another check
4099 during the course of the year for \$50,000.

4100 . Q I'm just talking about the proposal at this point.
4101 I understand the deal continued to evolve as time went on,
4102 but what I'm trying to do is get a snapshot of what the deal
4103 was in January of '86.

4104 . A You've got the snapshot.

4105 . Q And what is that?

4106 . A The snapshot is that we asked for an accelerated
4107 payment, an accelerated payment in the form of an amount
4108 over and above the \$20,000 to be paid at the end of January,
4109 the beginning of February, and advised Rich Miller that to

4110 the extent that the dedication of time was going to even
4111 approximate what had happened in the first month of this
4112 agreement, that--numbers will have to be renegotiated out.
4113 . Q I understand that.
4114 . Now, the payment that you wanted at the end of
4115 January or early February was \$50,000; is that correct?
4116 . A That's correct.
4117 . Q Did you discuss any future--any other acceleration
4118 at that time? Did you look beyond--for accelerated payments
4119 beyond late January or early February?
4120 . A I don't believe we did. If we did, I certainly
4121 don't recall the conversation along those lines.
4122 . Q So you don't recall agreeing to essentially
4123 compress the \$280,000 over a four-month period?
4124 . A No.
4125 . Q Do you recall Mr. Miller or--do you recall either
4126 hearing from Mr. Channell or Mr. Miller relaying to you any
4127 requests by Mr. Channell for--or any conditions by Mr.
4128 Channell on that acceleration, anything you would have to do
4129 for him?
4130 . A I'm not sure I understand your question.
4131 . Q Did Mr. Channell ask for anything in addition
4132 to--anything in exchange for the accelerated payment?
4133 . A No. First of all, the question is not really
4134 answerable because Mr. Channell was not the person with whom

UNCLASSIFIED

UNCLASSIFIED

NAME: HIR212002

PAGE 169

4135 we had the financial arrangement. It was Mr. Miller.

4136 . Q I understand that. But it is answerable in the
4137 sense that did Mr. Channell express to you, either directly
4138 or through Mr. Miller, a desire for anything in exchange for
4139 agreeing to concur in acceleration of payment?

4140 . A By concurring you mean that he was--he was making
4141 payment to Mr. Miller?

4142 . Q That's the explicit assumption, that Mr. Miller was
4143 not the one bearing the payments.

4144 . A I guess the answer is I don't know if there were
4145 any conditions put forward.

4146 . I know that Mr. Channell certainly for the first
4147 several months and I believe thereafter was delighted with
4148 the services he was getting, both from IBC and from the
4149 additional input of Mr. Fischer and myself, and I believe
4150 was getting what he wanted from IBC.

4151 . Q Did Mr. Miller ever come back to you and ask for
4152 any additional effort or any additional commitments in
4153 exchange for the accelerated payment of \$50,000?

4154 . A Well, I'll be perfectly honest with you--and I'm not
4155 trying to not answer this question; I just don't understand
4156 it. Mr. Miller--the reason the accelerated payment came up
4157 in the first place was because Mr. Miller kept asking for
4158 more and more and more and more in terms of time and energy
4159 and devotion to his business, and as a consequence of that

UNCLASSIFIED

UNCLASSIFIED

4160 We said hey, why don't you guys get ahead of us on this and
4161 why don't you rethink these numbers because it's not going
4162 to work at \$20,000 a month. I said this isn't the deal we
4163 cut, this isn't the way we want to proceed.

4164 . Mr. Miller continued to ask for lots and lots of
4165 things over the course of the entire relationship. That's
4166 the best answer I can give you.

4167 . Q Did you discuss scheduling presidential meetings
4168 with Mr. Miller?

4169 . A Yes.

4170 . Q Your ability to do that?

4171 . A Our efforts to do that, sure.

4172 . Q Or efforts to do that.

4173 . Did you discuss the scheduling of those meetings in
4174 conjunction with the acceleration of payments?

4175 . A No.

4176 . Q Did Mr. Miller ever come back to you and ask you
4177 prior--strike that; start again.

4178 . Prior to agreeing to accelerate payments, did Mr.
4179 Miller come back to you and inquire as to your ability to
4180 schedule four presidential meetings over the next four
4181 months?

4182 . A You know, I don't even think I can answer the
4183 question, and I'll tell you why. When we sat down at a
4184 table with Mr. Fischer and Mr. Miller and perhaps Frank

UNCLASSIFIED

4185 Gomez and myself, and we're going over all of these things.
4186 We may have covered five or six subjects at the same
4187 meeting. In other words, Mr. Miller may have come to us and
4188 said, you know, gee, can we do this three or four more
4189 times, and that would be one segment of a conversation, and
4190 also can we do this, this, this, and that would be another
4191 subject, and we may have raised payments at the same meeting
4192 in the course of the same two or three hours or the same
4193 breakfast.

4194 You know, in my mind certainly those things were
4195 never tied together. They were all components of the
4196 relationship.

4197 Q But they were certainly all discussed in the same
4198 time frame?

4199 A I'm sure that they were all discussed in the same
4200 time frame, yeah.

4201 Q And presidential meetings never even was raised as
4202 a subject until January of 1986; is that right?

4203 A That's the best of my recollection. That's the
4204 first time that surfaced.

4205 Q And it was also January of 1986 when you and Mr.
4206 Fischer requested an acceleration of your payments; is that
4207 correct?

4208 A That's correct.

4209 Q And the amount of acceleration requested was an

4210 additional \$50,000 payment for the month of January; is that
4211 correct?

4212 . A Yeah. I need to look at the records. I don't know
4213 whether they paid us 20 plus 50 or whether they paid us 50
4214 instead of 20. I don't know.

4215 . Q Do you recall which it was?

4216 . A I don't. I can look at the records and tell you.

4217 . Q Why don't you do that. Was it 20 plus 50 or was it
4218 50--

4219 . MR. FRYMAN: This appears to be the check that
4220 bounced.

4221 . BY MR. MCGOUGH:

4222 . Q So it appears to be the 20 plus 50?

4223 . A Yes. The 50 was an accelerated payment.

4224 . Q Let me put this as directly as I can, and I realize
4225 we are talking about conversations that were all occurring
4226 at or about the same time.

4227 . Did Mr. Miller, in substance, ever come back to you
4228 and say before I accelerate or agree to accelerate your
4229 payments, Mr. Channell needs to know whether you and Mr.
4230 Fischer feel that you can schedule four presidential
4231 meetings over the course of the next four months?

4232 . A I honestly do not remember ever hearing that from
4233 Mr. Miller.

4234 . Q Or anything to that effect?

UNCLASSIFIED

NAME: HIR212002

UNCLASSIFIED PAGE 173

4235 . A No. We had endless requests, endless requests from
4236 Mr. Miller for the type of briefing we set up and Mr.
4237 Fischer set up in January, for more of those. And obviously
4238 any time they can get the President at a function, what a
4239 plus for Mr. Miller and for his client.

4240 . I don't--those were common conversations that we had
4241 regularly all of the time.

4242 . Q Do you ever recall him presenting it as four
4243 presidential meetings in the space of four months?

4244 . A I don't remember. I mean, we talked about
4245 different numbers of presidential meetings.

4246 . Q What numbers did you talk about?

4247 . A I have no idea. I don't recall whether we talked
4248 about it--can we do two meetings in February, is it possible
4249 to do three meetings the same month, you know, how far ahead
4250 can we schedule a meeting like this, how much notice do we
4251 need to give somebody if we want to get them into
4252 town--typical types of logistical questions and scheduling
4253 questions you would ask if you were undertaking that kind of
4254 an assignment.

4255 . Q And these conversations--am I inferring correctly,
4256 these conversations took place at or about the same time you
4257 were discussing acceleration of your fee?

4258 . A We discussed the acceleration of the fee in
4259 January. If you're asking me whether we would call a

4260 meeting and say the sole purpose of this meeting is to
4261 discuss this--

4262 . Q No. I understand that. I'm not that naive.
4263 . A --that wasn't the case.

4264 . Q My question is, were these matters being discussed
4265 in or around the same time frame? And the matters are, one,
4266 scheduling presidential meetings and in particular how many
4267 presidential meetings can be discussed, and, number two,
4268 acceleration of payments under the consulting agreement.

4269 . A I can tell you that--both of those things, both
4270 acceleration of payments and presidential meetings, were
4271 discussed in our meetings.

4272 . I would be misrepresenting the truth if I told you
4273 I had a specific recollection about both of those things
4274 being mentioned within the scope of a single meeting or
4275 within the scope of two hours.

4276 . Q But they were both mentioned in January 1986?
4277 . A Unquestionably.

4278 . Q To your knowledge, does Mr. Fischer know Ron
4279 Piccini?

4280 . A I have introduced them, sure.

4281 . Q And on how many occasions? Are they just passing
4282 acquaintances or--

4283 . A Just passing acquaintances. Mr. Fischer probably
4284 met Mr. Piccini at my house on a weekend.

4285 . MR. McGOUGH: I think that is all I have.

4286 . MR. OLIVER: I will try to be brief. I just wanted

4287 to ask a few questions relating to some of the answers you

4288 gave to Mr. Fryman, to clarify some matters.

4289 . BY MR. OLIVER:

4290 . Q You said that you gave political advice to IBC, as

4291 well as business advice and advice on projects and that sort

4292 of thing; is that correct?

4293 . A That's generally correct.

4294 . Q Is your political experience limited to the two

4295 Reagan campaigns for president?

4296 . A My--in terms of my acting in a full-time capacity,

4297 yes.

4298 . Q Were you considered an insider in the Reagan

4299 campaign because of your early activities and your longevity

4300 with the campaign?

4301 . A An insider meaning what? I'm not sure.

4302 . Q I mean someone who is on the inner circle of the

4303 campaign. You mentioned there were 7:30 meetings and you

4304 were one of the people who attended those meetings on a

4305 regular basis.

4306 . A I certainly had relationships with several senior

4307 people around Mr. Reagan, had been around myself since 1976

4308 and was fortunate enough to have been included in those 7:30

4309 meetings. So if that's the definition of an insider,

UNCLASSIFIED

4310 somebody in an inside circle. I was that.

4311 . Q You've indicated that you were asked by Mr. Tyson

4312 or Mr. Meese to come up from San Diego to set up a national

4313 advance organization; is that correct?

4314 . A Right.

4315 . Q Was that at the beginning of the 1980 campaign?

4316 . A Yes.

4317 . Q So that really would have been in 1979.

4318 . A I'm not sure of the date. Could have been '79.

4319 . Q Well, it was before Mr. Reagan announced for

4320 president; is that correct? I mean, there would have been

4321 an exploratory period and a lot of things building up to the

4322 announcement of his campaign.

4323 . A I tell you, I don't know the date. I don't know--it

4324 was very early on. We did not have a national advance team

4325 put together.

4326 . Q Did you travel on some of these advanced activities

4327 yourself?

4328 . A I think only on one or two until a pre-convention.

4329 I remember one trip to Denver.

4330 . Q Did you ever go to Iowa?

4331 . A This is in 1979, '80?

4332 . Q 1980 Iowa caucus would have been held.

4333 . A I don't think so.

4334 . Q But you remember the Iowa caucus in which Mr. Bush

UNCLASSIFIED

UNCLASSIFIED PAGE 177

4335 defeated Mr. Reagan. That was a traumatic moment for the
4336 campaign.

4337 . A Yes.

4338 . I don't believe I was there.

4339 . Q But you were full time on the campaign at that
4340 point?

4341 . A I believe so, but I need to check the dates here to
4342 make sure I'm right about this, because I might have--

4343 . Q Did you ever go to New Hampshire?

4344 . A No.

4345 . Q You were full time in the campaign by the time of
4346 the New Hampshire primary, when Mr. Reagan won that primary?

4347 . A I believe so.

4348 . Q Isn't it the case that right about the time in the
4349 New Hampshire primary that Mr. Sears was fired and Mr. Casey
4350 was named as campaign manager--

4351 . A That's correct.

4352 . Q So that would have been March of 1980. Then full
4353 time in the campaign from then until November 4th; is that
4354 correct?

4355 . A That's correct.

4356 . Q When you came to Washington in--after the convention
4357 in Detroit, you indicated that you were the deputy director
4358 for logistics and scheduling; is that correct?

4359 . A I think my title was deputy director in scheduling

4360 advance operations.

4361 Q Who asked you to take over that job?

4362 A Mr. Tyson.

4363 Q Was it also Mr. Tyson who asked you to be the head

4364 of logistics for the convention in Detroit?

4365 A Yes.

4366 Q You also indicated that you had brought a debate

4367 consultant from Virginia into the campaign; is that correct?

4368 A Although I'm not sure that Mr. Miles Martel was

4369 from Virginia. I'm not sure where he was from.

4370 Q Why were you bringing a debate consultant into the

4371 campaign?

4372 A I was just--was a matter of interest to me. I was

4373 concerned that we get an early start, a head start on the

4374 debates, and everybody was real busy and didn't have time to

4375 focus on it, and I took it on myself to start looking into

4376 it and had an opportunity to have discussions with some

4377 people I consider to be knowledgeable and they, among other

4378 things, recommended Mr. Martel, and I then looked into his

4379 credentials and was impressed and made the recommendation.

4380 It was out of my role.

4381 Q And you said you went to Bill Timmonds and Stu

4382 Spencer regarding that debate?

4383 A That's correct.

4384 Q And the purpose of that was to persuade them that

UNCLASSIFIED

PAGE 179

4385 something needed to be done about debate preparation?

4386 . A They had two purposes. One was I wanted to get a
4387 response from Bill Timmonds and Mr. Spencer to see if they
4388 agree with my assessment that this was a good time to get
4389 started.

4390 . I wanted to let them know what I had collected and
4391 got done already and was trying to enlist them to spearhead
4392 this, because I alone couldn't have catalyzed an early
4393 operation, debate operation, and I think I was partially
4394 successful.

4395 . Q And you said earlier you remember two important
4396 meetings with Bill Casey, one of which he called you and
4397 asked you to come up and talk about the debate.

4398 . A They were important to me because I remember them.

4399 . The first meeting was one in which I guess after
4400 either Bill Timmonds or Stu Spencer called Mr. Casey and
4401 told him that--discussed the debates and said Marty Artiano
4402 has collected all this stuff and he's interested, and Mr.
4403 Casey called me up to his office to explore it with me, and
4404 he said who have you spoken to and all, and I shared it with
4405 him, and, okay, okay, fine, I'll address this meeting, and
4406 so it was immediately out of my hands.

4407 . It became a meeting that Mr. Casey and Jim Baker--

4408 . Q What were those materials you collected?

4409 . A Materials of public record, briefing books that had

4410 been prepared, for example, for President Ford that are now
4411 at the library. I believe I even had some from Mr. Carter's
4412 campaign in '76. Different periodicals that I had
4413 researched.

4414 . Q Did you have any briefing material that was
4415 prepared for Mr. Carter's 1980 campaign?

4416 . A No.

4417 . Q Were you aware of the briefing materials from Mr.
4418 Carter's campaign that came into the possession of Mr.
4419 Casey?

4420 . A No.

4421 . Q You didn't read about that?

4422 . A Well, I mean I was aware after the fact.

4423 . Q But you didn't know anything about it at that time?

4424 . A No.

4425 . Q You said that Bill Timmonds had introduced you to
4426 Elliott Abrams, to your recollection?

4427 . A I think that's possible, yeah.

4428 . Q That was during the campaign?

4429 . A I think so.

4430 . Q Was Mr. Abrams involved in the campaign?

4431 . A You know, I haven't spoken a lot to Mr. Abrams
4432 about that, ironically. I think that--I believe he was
4433 helping us in one of the campaign areas at the time, and I
4434 can't even remember what, whether he was working on the

4435 Jewish vote or what exactly he was doing. But I know that
4436 he had volunteered his services and was doing everything he
4437 could, and Mr. Timmonds thought highly of him.

4438 . Q He was a Democrat at that time, wasn't he?
4439 . A This was after his change of heart.

4440 . Q You couldn't remember all of the names of the
4441 people who were on the transition team Ed Folder and Frank
4442 Shakespeare headed. Was Ken Adleman on that team?
4443 . A Mr. Adleman might have been but I don't recall.
4444 . I should, just for purposes of putting this in
4445 perspective, let you know when I got to Washington I
4446 couldn't find my way from election headquarters to the White
4447 House. These names didn't mean much to me and I was kind of
4448 scrambling around on my own.

4449 . Q You said that in late November or early December
4450 1985 you got a call from Rich Miller indicating that he
4451 needed some help with his organization and that they wanted
4452 a high-level fellow with Washington experience.

4453 . Would you consider yourself someone with Washington
4454 experience of the kind that he needed at that point?
4455 . A I think I probably--if you evaluate my experience
4456 and credentials, they fit some of the criteria that he was
4457 looking for.

4458 . Q And had Dave Fischer had any Washington experience
4459 before he came to the White House to work as a personal

UNCLASSIFIED

PAGE 182

4460 assistant to the President?

4461 . A Not to my knowledge.

4462 . Q Had he been involved in any Washington activities
4463 or politics or Government besides that job?

4464 . A He had been involved, I believe, with Senator Hatch
4465 prior to--I believe with Mr. Hatch, but I'm not sure. He had
4466 some political experience prior to 1975, prior to 1975--prior
4467 to hooking on with Mr. Reagan, or between '76 and '79,
4468 although I think the former is correct.

4469 . Q So you felt that the experience that you and Dave
4470 Fischer had had in Washington fit the bill for what Rich
4471 Manna wanted?

4472 . A I think the cumulation of our experience--you know,
4473 when you're handling scheduling in advance for the President
4474 of the United States, you're an image-maker.

4475 . The answer is yes.

4476 . Q Did you--how soon after you talked to Mr. Miller did
4477 you and Mr. Fischer meet with Mr. Channell and Mr. Conrad
4478 and Mr. Miller?

4479 . A I can't tell you exactly. It was shortly
4480 thereafter, within a couple of weeks, I would guess.

4481 . Q So it was in December of 1985?

4482 . A Yes, I believe it was in December of 1985.

4483 . Q And at that meeting did you discuss the
4484 arrangements for you services?

UNCLASSIFIED

UNCLASSIFIED

NAME: HIR212002

PAGE 183

4485 . A At a meeting with Mr. Fischer present and Mr.
4486 Channell present?

4487 . Q Yes.

4488 . A I don't recall. Wouldn't surprise me if we did.
4489 Our negotiations were with Mr. Miller.

4490 . Q They were not with Mr. Channell and Mr. Conrad
4491 present at a meeting?

4492 . A No. As I said, they may very well have been
4493 present at those initial discussions.

4494 . Q And did you discuss directly with Channell and
4495 Conrad what the arrangements would be, what services you
4496 were going to provide?

4497 . A Well, you know, the services we were going to
4498 provide were as I've described them. There was never any
4499 question in anybody's mind, from start to finish, that Mr.
4500 Fischer and I were going to be working for IBC.

4501 . We also were made aware very early on that Mr.
4502 Channell's organizations were a big client of IBC and the
4503 thing needed the first thrust here.

4504 . Q Well, isn't it a fact, Mr. Artiano, that the exact
4505 amounts of money that were paid to you by IBC were paid to
4506 them by Spitz Channell?

4507 . A I will give you a specific answer to that question.
4508 Answer number one, I have no idea, none, how much
4509 money was paid from Mr. Channell or any of his organizations

UNCLASSIFIED

NAME: HIR212002

PAGE 184

4510 or anybody else, or any other client, to IBC. I have never
4511 looked or had access to any of the books of all those
4512 organizations.

4513 . Number two, wouldn't surprise me at all if Mr.
4514 Miller, to fund this obligation to Mr. Fischer and I which
4515 he had undertaken and which we proceeded on in good faith
4516 without a written agreement, was funded in large part--and
4517 perhaps getting into a hole--by Mr. Channell. I don't know
4518 that to be a fact; I was not present in those discussions.

4519 . Q Well, the reason I was asking questions about
4520 whether Mr. Channell and Mr. Conrad were present with you
4521 and Mr. Fischer and Mr. Miller when you were discussing your
4522 services would be to--if your contract was with IBC, why
4523 would Mr. Channell and Mr. Conrad be present at those
4524 negotiations?

4525 . A If Mr. Miller chose to discuss that matter in front
4526 of one of his clients, it frankly didn't concern Mr. Fischer
4527 and I.

4528 . Q You were not aware that IBC was billing Mr.
4529 Channell for the fees, exact amounts of fees that you and
4530 Dave Fischer were receiving?

4531 . A No.

4532 . Q You were never made aware of that?

4533 . A No. But as I have indicated--no.

4534 . Q And you had nothing in writing with IBC, no

4535 contract, no letters of agreement of any kind.

4536 MR. MEEHAN: Describe that. August, June or July

4537 letter of 1976.

4538 MR. OLIVER: I'm talking about prior to that time,

4539 December, January, February period.

4540 THE WITNESS: No, sir.

4541 BY MR. OLIVER:

4542 Q Did it concern you or Mr. Fischer that you didn't

4543 have some kind of an agreement because you wanted a long-

4544 term arrangement, not just something that would be cut off?

4545 Did you ever ask for something in writing?

4546 A No, sir.

4547 Q Was the lunch that you arranged with Elliott

4548 Abrams--did that take place on or about January 6, 1986?

4549 A I don't know, and I'd be surprised if it occurred

4550 that early, but it may have.

4551 MR. MEEHAN: Is it on the calendar?

4552 MR. OLIVER: I don't know if it is on his calendar

4553 or not.

4554 BY MR. OLIVER:

4555 Q Were you aware at the time of the luncheon that Mr.

4556 Fischer had begun to try to make arrangements with the White

4557 House for a briefing for Spitz Channell's organizations?

4558 A I don't remember the time frame so I can't give you

4559 an answer to that question.

4560 . I think I was aware--Whenever Mr. Fischer had
4561 started that, attempting to get that accomplished, I was
4562 aware of it.

4563 . Q Was there a discussion at that luncheon of the
4564 Central American Freedom Program?

4565 . A Of MEPL's program.

4566 . Q Essentially what they call the Central American
4567 Freedom Program.

4568 . A As I indicated, Mr. Channell went through all of
4569 his organizations and activities.

4570 . Q Did they show story boards of the ads to Mr. Abrams
4571 at that luncheon with text and so on?

4572 . A You know, I don't recall. I honestly don't recall
4573 the luncheon that well. I mean, I recall being there and I
4574 recall Mr. Channell did most of the talking, and it's
4575 possible that they had some paperwork or story boards, but I
4576 don't remember it. I'm sorry.

4577 . Q Were you aware that one of Mr. Channell's projects,
4578 the one that I described as Central American Freedom
4579 Program, was directed toward influencing the congressional
4580 vote on aid to the contras?

4581 . A My understanding of what Mr. Channell was trying to
4582 do was to raise grassroots support for the President's
4583 program through his media campaign.

4584 . Q Was there ever any discussion in your presence of

UNCLASSIFIED

UNCLASSIFIED PAGE 187

4585 running those ads in particular congressional districts?
4586 . A I remember being around, although I didn't--I
4587 remember discussions about where certain ads should run and
4588 about demographics. That was less my area of expertise, so
4589 I don't have real strong recollection about any of that.
4590 . Q Do you know a woman named Eddie Frazier?
4591 . A No, sir.
4592 . Q Did you ever meet her?
4593 . A If I did, didn't strike me, I guess, because I
4594 don't remember the name.
4595 . Q Jack Lichtenstein?
4596 . A Drawing a blank.
4597 . Q Bruce Canran?
4598 . A No, sir.
4599 . Q Penn Kimble?
4600 . A I don't believe so.
4601 . Q Did you ever attend any meetings in Rich Miller's
4602 office to discuss strategy on the vote that was to take
4603 place in the Congress on contra aid?
4604 . A To discuss strategy on the vote? I don't--I don't
4605 know. I mean, we talked about the vote all the time. While
4606 it was immediately before the vote, it was a matter of
4607 concern to us, obviously. We were hoping that it was going
4608 to go forward and I don't remember having a strategy meeting
4609 about it.

UNCLASSIFIED

4610 . Q Who did you discuss that with?

4611 . A Oh, with Dave, with Rich. It was obviously a

4612 matter that we were interested in.

4613 . Q Do you know Dan Kuykendall?

4614 . A I don't. I don't think I know him. I know the

4615 name but I don't think I know him.

4616 . Q These papers and brochures that you said you

4617 reviewed or helped prepare for IBC, did you retain any

4618 copies of those?

4619 . A No. I had--the answer is no. I had--what I had at

4620 my house--when Dave moved out of my house into his house,

4621 kind of packed up everything, and I would guess that what

4622 wasn't packed up I tossed.

4623 . Q When was that? When did Dave--

4624 . A January.

4625 . Q January of this year?

4626 . A December or January, yeah, December of '86 or

4627 January of '87--yeah.

4628 . Q That's your recollection, you threw those materials

4629 away?

4630 . A I don't have any recollection. If there was

4631 anything left after Dave moved out, it is not there now,

4632 because I've taken a look.

4633 . Q Did you say that Mr. Fischer came to Washington

4634 every week during 1987?

UNCLASSIFIED

PAGE 189

4635 . A I would guess 95 percent of the time.

4636 . Q Was he still employed in Utah at that time?

4637 . A No. He had some kind of arrangement, but he was

4638 not employed with Hudson Chemical at that point. He may

4639 have had some continuing relationship afterwards.

4640 . Q Why was--at the meeting which you arranged in

4641 Elliott Abrams' office, why was Elliott Abrams upset with

4642 Spitz Channell?

4643 . A You know, because he was very excited and wouldn't

4644 let anybody else get a word in edgewise and was kind of not

4645 listening to an attempt to answer him. It was--

4646 . Q Was there a discussion at the luncheon which took

4647 place in January of--of the arrangements for a meeting in the

4648 White House later on that month, the meeting with Abrams and

4649 Fischer and you and Miller and Channell?

4650 . A Could you repeat the question? I'm sorry.

4651 . Q You arranged a luncheon with Elliott Abrams for

4652 Spitz Channell attended by you and David Fischer, Elliott

4653 Abrams, Rich Miller.

4654 . Q Was there a discussion at that luncheon about the

4655 prospective White House meeting?

4656 . A I have no recollection. I'm sorry.

4657 . Q Was there a discussion there about Mr. Abrams'

4658 participation in such a White House briefing?

4659 . A I also don't recall that.

4660 . Q Did you have any discussion with Rich Miller or
4661 Spitz Channell in December or January this year about your
4662 arrangements with them during the prior year for financial
4663 payments to you and Fischer?

4664 . A I'm sorry, repeat the question.

4665 . Q Did you have any discussions with Spitz Channell or
4666 Rich Miller in December of 1986 or January of 1987 about the
4667 financial arrangements which had been made for you and David
4668 Fischer with them during 1986?

4669 . A Well, unless I'm--unless I've blocked something out
4670 of my mind, I haven't seen--didn't see Mr. Channell at all in
4671 that time period.

4672 . Q What about Rich Miller?

4673 . A I don't know. I certainly must have spoken to him
4674 during that time period. I don't know--that I had any
4675 specific discussion about the financial arrangement?

4676 . Q Yes.

4677 . A Between IBC and Fischer and myself?

4678 . Q Yes. Were you aware that Rich Miller had been
4679 asked by Spitz Channell to reconstruct the relationship
4680 between IBC and Spitz Channell's organization in relation to
4681 what the money they had given them had been spent for?

4682 . A No.

4683 . Q Did you have a discussion with Rich Miller about
4684 the payments to you from IBC in January of 1987, about the

UNCLASSIFIED

UNCLASSIFIED PAGE 191

4685 previous payments?

4686 . A I guess my best answer to that is I certainly spoke

4687 to Rich--I'm sure I spoke to Rich during that period of time.

4688 I don't even know if that was the subject of the

4689 conversation. If it was, I don't recall it.

4690 . MR. OLIVER: Thank you very much. I have no

4691 further questions.

4692 . MR. BUCK: I have a few short questions for you,

4693 Mr. Artiano.

4694 . BY MR. BUCK:

4695 . Q To the best of your knowledge, did anyone in the

4696 White House, any employees in the White House, including the

4697 President himself, receive any money from Mr. Miller's

4698 organizations--Mr. Miller or his organizations, Mr. Channell

4699 or his organizations, yourself and Mr. Fischer--for the

4700 meetings that were set up with these private contributors?

4701 . A Absolutely not.

4702 . Q Do you know any reason why Mr. Channell would

4703 believe that he was paying Mr. Miller \$50,000 for you or Mr.

4704 Fischer or Mr. Miller to set up meetings within the White

4705 House?

4706 . A As I indicated, I don't--I don't have any--never had

4707 any access to their books and didn't know what their

4708 financial relationship was. But, you know, it would not

4709 surprise me if Mr. Miller were making requests so that he

UNCLASSIFIED

4710 could get funded at IBC to honor his obligations to Mr.
4711 Fischer and to me.

4712 Q Did you consider Mr. Channell politically naive
4713 when you--before that January meeting when you had to discuss
4714 with him the fact that you were not arranging meetings with
4715 the President for a set amount of money?

4716 A Restate the question. I'm sorry.

4717 MR. MEEHAN: I think the meeting was not in
4718 January, but if you just refer to 'the meeting' without a
4719 time frame--

4720 MR. BUCK: Okay.

4721 BY MR. BUCK:

4722 Q I guess what I am trying to understand is why Mr.
4723 Channell had this belief that you had to dispel at the
4724 meeting, and if it wasn't anything you told him or anything
4725 that Mr. Fischer told him or that you knew that Mr. Fischer
4726 told him, was it just because he didn't understand how
4727 things worked?

4728 A I suppose it was a misunderstanding of the
4729 relationship. As has been indicated, the relationship was
4730 never formalized in terms of putting it in writing. It was
4731 constantly in a state of flux. There were continued
4732 discussions and negotiations about it, the timing of
4733 payment, amount of payment, and I guess it was--the generous
4734 explanation is that there was just misunderstanding. But

UNCLASSIFIED

4735 there was no misunderstanding by myself or Mr. Fischer, and
4736 I trust not by Mr. Miller either.

4737 . Q Okay.

4738 . Did you read a New York Times article on July 30th,
4739 1987, on page 10 of the New York Times, written by Richard
4740 L. Berke?

4741 . A I'm sorry to say that I did.

4742 . Q The sources identified in this article are your
4743 lawyer and other officials, and I believe when it refers to
4744 your lawyer, it is actually referring to a law partner of
4745 yours.

4746 . A That's correct.

4747 . Q And I'd like to read a statement here and get your
4748 reaction to it.

4749 . Midway down the first column it says, Mr. Artiano
4750 and Mr. Fischer each received about \$300,000 last year for
4751 arranging meetings between the President and wealthy
4752 conservative donors, the officials said.

4753 . First of all, let me ask you, is that statement
4754 correct?

4755 . A No.

4756 . Q Second of all, did you tell Mr. Berke anything that
4757 would lead him--that would give him information to write
4758 that?

4759 . A No. I refused to speak to Mr. Berke when he tried

UNCLASSIFIED PAGE 194

4760 to reach me.

4761 . Q Have you talked to your law partner that did speak
4762 to him on this subject?

4763 . A Yes, I have.

4764 . Q Is it your understanding that your law partner gave
4765 Mr. Berke any information that would allow him to write
4766 something like this?

4767 . A Absolutely not.

4768 . Q Do you have any suspicions as to where that
4769 information may have come from, if you or your law partner
4770 did not tell this reporter that information?

4771 . A I have--I don't have a firm enough idea of where it
4772 came from to want to accuse somebody of doing something like
4773 that. We regret it and, as Mr. Meehan indicated, I hope it
4774 doesn't happen again.

4775 . MR. BUCK: I have no more questions.

4776 . MR. MEEHAN: We did get through.

4777 . MR. FRYMAN: Yes.

4778 . We will conclude the deposition at this point, in
4779 accordance with the understanding that was stated earlier,
4780 between Mr. Meehan and me.

4781 . [Whereupon, at 5:40 p.m. the deposition was
4782 concluded.]

15 That's correct.

16 Q With regard to the way you handled duties as between
17 yourself and your Deputy, can you give me kind of an overview
18 of the allocation of responsibilities between yourself and
19 your Deputy?

20 A Well, I have always taken the approach that the Deputy
21 has to be one's alter ego as far as being made aware of,
22 being brought in, ^{and} ~~for~~ totally interchangeable sort of duties.
23 In the press of work, particularly in an area like the Near East
24 and South Asia [redacted]

UNCLASSIFIED

UNCLASSIFIED

5

1 [REDACTED]
 2 [REDACTED]
 3 [REDACTED]
 4 [REDACTED] and all these things, you tend somewhat to specialize
 5 if, you know, if you're off for a weekend, or you're on the
 6 seventh floor, or you're out down here in a hearing and something
 7 comes up, and the Deputy begins to handle it, then perhaps he
 8 remains more or less the expert on it because he talked to the
 9 people first. UN I there is no sharp division, though, unless
 10 it was something that--for instance, [REDACTED]

11 [REDACTED]
 12 [REDACTED] I probably carried 90% of
 13 the load on that issue, which was one of our largest and
 14 required a lot of effort and decisions and a lot of hearings
 15 down here on the Hill. So I suppose I sort of specialized
 16 on [REDACTED] Other than that, since [REDACTED]

17 [REDACTED] I
 18 suppose I tended to push things having to do with the Arabs,
 19 particularly those ^{that went} ~~[redacted]~~ a little bit more his way.
 20 But basically there was a fairly even distribution.

21 Q During the course of your tenure as Chief of Division,
 22 were there any projects as to which you compartmented out

23 [REDACTED]
 24 A No, not that I recall. I mean, you can compartment

UNCLASSIFIED

UNCLASSIFIED

6

1 things for security, and you do a lot of that, but you don't

2 compartment your Deputy out, unless it's maybe a personnel
3 matter that might come up briefly that needs to be resolved
4 and can't be spread around.

5 Q But you do not recall any projects that you were engaged
6 in as Chief of the Near East Division when, for security
7 reasons, you kept [REDACTED] out of that project.

8 A No, I do not recall any.

9 Q [REDACTED] has indicated that, for all intents and purposes
10 he kept himself informed of the same matters that you would
11 be keeping yourself informed of. Is that essentially the way?

12 A Essentially, yes. That's right. Not perhaps in as much
13 detail, since if you don't speak the language, maybe you don't
14 deal with [REDACTED]

15 Q With regard to some of the people that are involved in our
16 inquiry, can you tell me when you first came to meet Col. ^{well} Oliver
17 North?

18 A Probably, I don't remember exactly, but it would have been
19 sometime, I think a couple of months after I was on the job.
20 So sometime in October, late October maybe, 1964. Because I
21 remember we had a problem dealing with terrorism in Lebanon,
22 and he took a great interest in the terrorist issue, and I
23 believe that was my first encounter with him.

24 Q Now that would have been on a working basis?

UNCLASSIFIED

UNCLASSIFIED

7

1 A On a working basis, having to do with a possible activity,
2 uh, counter-terrorist activity.

3 Q At that time, were you aware that Col. ^{onel} North was engaged in,
4 for lack of a better expression, operational activity?

5 A Not in the intelligence and security sense. I was aware,
6 of course that he had played a role in the Grenada operation and
7 that sort of thing, but.

8 Q No, I'm thinking of operations in the classic sense.

9 A No.

10 Q When did that first come to your attention that Col. ^{onel} North
11 was going to play or was playing an operational role with regard
12 to intelligence matters?

13 A Well, let me think. I suppose it would probably have been
14 around the time of the Achille Lauro incident.

15 Q That would have been early October 1985.

16 A That's right, I suppose. I wasn't in the country then, but
17 when I got back, I heard, you know, what the dealings were with
18 the Israelis, and how the matter had been handled out of the
19 White House rather than out of State or the Agency, and that.

20 Q I'll come back to that in a moment. Were you aware prior
21 to that time of an operational role that Col. ^{onel} North had with
22 regard to Nicaragua-Contra related activities?

23 A What I was aware of, and what generally sort of seeped

UNCLASSIFIED

UNCLASSIFIED

8

1 around town, I suppose, is that the whole private benefactor
2 activity and private American, private money, volunteers, I don't
3 know what. Whoever had things to do with helping the Contras
4 when we were not, ~~is~~ that Ollie was certainly one of the leading
5 persons in the White House involved in encouraging, going around
6 making speeches, basically encouraging, I suppose, people to make
7 contributions to support the Contras during that period.

8 Q What was the source of your knowledge about that. Is that
9 basically read the newspapers?

10 A Sort of osmosis and read the newspapers, and then I remember
11 at one point, well, the committee staffers would make remarks
12 about this or ask a question, or, and I know it got things
13 raised to the point that I believe Bud McFarlane came down
14 and talked to one or both the Oversight Committees. I don't
15 know that, I remember that happening. So it was sort of the
16 general knowledge around town that this was going on and that
17 there were other people involved in it with him, perhaps more
18 directly.

19 Q Did you ever have occasion to talk with Col. North
20 directly about his activities relating to the Nicaraguan
21 Contras, or indirectly, in passing, any conversation?

22 A Only indirectly in the sense that I remember a
23 couple of times a terrorist incident would come up in the

UNCLASSIFIED

9

1 Middle East and there would be, you know, perhaps something
 2 going to happen over a weekend, and I suppose the first direct
 3 sort of knowledge was when he told me, "You can reach me on the
 4 White House number and they will know where I am and I'll call
 5 you, but I'm going to be down South," and 'down South' obviously
 6 in the context he said it didn't mean down in North Carolina or
 7 South Carolina. And, in fact, as I recall, there was something
 8 that came up and I called, and he called me either from the Miami
 9 or the Atlanta airport. Apparently, he had called the White
 10 House and they would say ~~██████████~~ ^{gone} ~~settled~~ and said call him at
 11 home. So I knew that he was travelling down there, but I did not
 12 have--I don't ever recall any direct knowledge of any particular
 13 activity, or him describing it to me, or ever having knowledge
 14 of it.

15 Q This telephone exchange relating to him being 'down South,'
 16 approximately when in time did that take place?

17 A Well, there was always something happening in Beirut on the
 18 weekend. It would have been sometime in probably that winter of
 19 '84 or '85. I don't have ^a good ^{memory of that} ~~one~~, but I know that he took more
 20 than one trip, ^{be} cause a lot of times something would come up--a
 21 terrorist incident--he usually came and sat on this working
 22 group, and he wouldn't be there, and someone would say, "Well,
 23 he's off on a trip and he'll be back. He was always on the go,

UNCLASSIFIED

UNCLASSIFIED

10

1 and a lot of it, to the South.

2 Q Your phone number appears in Col. ^{North} North's collection of
3 telephone numbers, indicating that he must have called you or
4 spoken with you with some regularity. How frequently were you
5 in touch with Col. ^{North} North in the '84 - '85 period, before the
6 time he left ~~as a~~?

7 A It moved in spurts. I'd say in the summer of '85 at the
8 time of the TWA hijacking probably there were a lot of calls
9 over a weekend. ~~to~~ 

10

11  I may get
12 three or four calls on a weekend, but I might not deal with
13 Ollie for a month or two months or even three months, other
14 than bump into him at some meeting. So it was very much a
15 function of the activity that might come up.

16 Q As between yourself and  was there any
17 distinction drawn between you in terms of who would be taking
18 care of Col. ^{North} North?

19 A No, I'd say not until the finding of January of last
20 year, when we began to work more intimately on ^a the specific
21 project, namely, this ^{Iran} arms --

22 Q That would be the January 17, 1986 memo.

23 A That's right.

UNCLASSIFIED

UNCLASSIFIED

11

1 Q And at that point, uh, was there an allocation of roles

2 assigned between you and [REDACTED]

3 A Well, by virtue of the--I need to tell you what happened,
4 the way it worked. I was there as Division Chief. I left on a
5 trip [REDACTED]

6 [REDACTED]
7 [REDACTED]
8 [REDACTED]
9 [REDACTED]
10 [REDACTED] and when I got back

11 [REDACTED] in the office, and I had had foreknowledge
12 before I left that there was something cooking in terms of the
13 White House NSC trying to work out a deal with the Israelis
14 and involving some other people, but I didn't know there was
15 going to be a finding. And when I got back, I was told the
16 finding had been signed and that Clair [REDACTED] and [REDACTED] had gone down
17 to read it, that our role was one of logistics, financial,
18 sort of intelligence support, and that things had moved to the
19 point that, you know, we were dealing with the military about
20 some weapons and so forth. Since [REDACTED] was so deeply involved
21 in this at that point, that largely became his baby. In fact,
22 the last, I suppose, three months of my tenure in NE Division,
23 that's when the balance shifted perhaps, and I suppose, [REDACTED]

UNCLASSIFIED

UNCLASSIFIED

12

1 spent, ah well, he still certainly performed his role as

2 Deputy, but I suppose he spent, gee whiz, some weeks a hundred
3 percent of his time on this, and other times, I don't know,
4 fifty-sixty percent. So, in that sense, there was a role
5 division the last three, three-and-a-half months.

6 Q Your involvement from that point on would have been
7 nominal, relatively nominal. You were keeping posted. What
8 would you describe it...

9 A Keeping posted. [REDACTED] came to me at times and said,
10 "Look, there are going to be a lot of details here that I,
11 [REDACTED] can't handle because it's homework. It's calling the
12 military trying to figure out which serial numbers match
13 what, and what is it these people are talking about because
14 it gets one list or request and then you get another one."
15 So, he said, "I'll need to bring [REDACTED] in on it."
16 So, since [REDACTED] had been peripherally in on it interviewing
17 this fellow Ghorbanifar earlier. And so we got [REDACTED] in on
18 it. I think maybe he brought someone else on it at some
19 point, but I was aware of that, but I was generally briefed
20 on it. That's right.

21 I did encounter Ollie after that--Oliver North on other
22 issues.

23 Q I'll return to that in more detail a little later. With

UNCLASSIFIED

UNCLASSIFIED

13

1 regard to your trip of [REDACTED] you were on

2 a trip with Director Casey?

3 A Part of the time. I rendezvoused with Director Casey in

4 [REDACTED] came back [REDACTED] with him.

5 Q I'll return to that in chronological sequence. With regard
6 to Director Casey, can you tell me when you first came to meet or
7 know Director Casey.

8 A Well, I met him when he took over from Stan Turner in 1981.

9 I was still at Headquarters [REDACTED]

10 Q You did not know him before he became Director.

11 A ^{NO.} ~~[Pause No audible answer.]~~

12 Q Can you describe your relationship with the Director
13 prior to the time that you became Chief of the Near East
14 Division, in terms of the working relationship. How often
15 you dealt with him, those kinds of things?

18 [REDACTED]

19 [REDACTED]

20 [REDACTED]

And that's about it before I took over as Chief NE.

UNCLASSIFIED

UNCLASSIFIED

14

1 Q After you took over as Chief of the Near East Division,
2 can you describe for me the extent to which you would have
3 been in contact directly with Casey?

4 A Well, it varied. On [REDACTED]
5 [REDACTED], which he took an intense interest,
6 there would be a tremendous burst of activity. You'd be
7 getting ready to go on a trip, in fact, we went on a trip

8 [REDACTED]
9 [REDACTED] and I suppose that's when I really got
10 to know him, travelling on an airplane with him, and ~~was~~
11 dealing with him on that issue sort of non-stop, pressure
12 cooker, which was his approach to things, ~~was~~ for three,
13 four days. And so I got to know him pretty well. *PH* He was
14 always interested in the hostage issue, the fate of those
15 in Lebanon. [REDACTED]

16 [REDACTED]
17 But, a Division Chief, I mean, in the Near
18 East being a very active area, he was always calling with
19 questions. So I suppose I saw him--it was rare that I
20 didn't see him once or twice a week.

21 Q During the course of that experience, on that or any
22 other time, did you get any sense of his relationship
23

UNCLASSIFIED

UNCLASSIFIED

15

1 with Col. North?^{med}

2 A Well, I knew he talked to him on the phone. I didn't
3 get any sense of any personal relationship. He admired Ollie's
4 'can do' attitude. I'd say that. A proactive approach to life,
5 which is exactly what Bill Casey had.

6 Q Did you have any sense of the frequency with which North
7 and Casey were meeting.

8 A No.

9 Q You were or were not aware that they would meet for
10 breakfast on weekends and that sort of thing?

11 A I was not aware of that. Usually when I heard about it
12 was when Bill had gone down to the White House to see
13 Poindexter or somebody, and he would say, "While I was down
14 there, I saw Ollie and this happened or that happened."

15 Q On how many occasions did you travel

14 Were you aware of any such?

15 A No.

16 Q You're not. [?]

17 A No.

18 Q And again, when [REDACTED] you
19 were not privy to any conversations in which contributions by
20 [REDACTED] to the Nicaraguan Contras was discussed?

22 Q Similarly, on the [REDACTED] trip, any discussions of

2 Q And you didn't hear any discussions taking place on

5 Q And on the [redacted] trip, any such discussions?

6 A No.

7 Q Did you ever acquire knowledge that Director Casey
8 solicited funds from [redacted]

9 [redacted] to benefit and assist the Nicaraguan Contras?

10 A No.

11 Q And you never discussed this matter with Mr. McMahon?

12 A ^{No.} ~~[Pause. No audible response.]~~

13 Q What was your relationship with McMahon? McMahon had
14 been with the Agency for quite some time--had you had a
15 chance to work with him?

16 A I had worked with him when he was Deputy Director
17 for Operations. That's the first I ever heard of him

18 [redacted] in 1978. He had been
19 made DDO sometime earlier that year, and so the first

20 time I ever even met McMahon was [redacted]

21 [redacted] on or about July 1978. I think I had a good working
22 relationship with him. I admired him. And we travelled
23 together on a couple of occasions. [redacted]

UNCLASSIFIED

19

1 [REDACTED] But I never had any
2 intimate, personal, family relationship.

3 Q So he was not a social acquaintance. It was a
4 professional relationship. Alright, now let me turn to
5 another interesting gentleman--Manucher Ghorbanifar was
6 the subject of concern in the Near East Division in 1984.
7 Much of the concern would be generated shortly before you
8 became Chief of the Division. Can you tell me the extent
9 to which you were familiar with Manucher Ghorbanifar and
10 the matters which caused the Agency to put out a burn
11 notice on him in 1984?

12 A I think that burn notice was put out in August or
13 so, [REDACTED] I don't recall seeing
14 the burn notice at that time. When I was briefed
15 generally, well, I was briefed specifically on the
16 [REDACTED] and so forth as part of my Division,
17 the [REDACTED] operations and threats and that
18 sort of thing. You know, I suppose in that briefing
19 probably there were half a dozen or more dirt balls
20 of the fabricator variety that would pop up. And I
21 had been dealing with [REDACTED] for years and
22 years, and his name may have been mentioned at that
23 time, because I do recall that it was somewhat familiar
24 the following summer when it first popped up on the

2 that, you know, he said there was a threat against the
3 President and this and that. And so, I remember at that
4 time it clicked. Of course, it may have been a generic
5 thing, ^{be}cause there are lots of Iranians. But I was not
6 familiar with those specific events, but I did hear about
7 them later, the things that had caused the burn notice to
8 be issued.

9 Q Just so I'm clear. The decision to put out the
10 burn notice and the inquiry that gave rise to it all preceded
11 your taking the position?

12 A ^{Yes} Yeah. I wouldn't make the decision on the burn notice
13 anyway. I mean, that wouldn't be approved by me.

14 Q That is a question I want to raise with you. I'm not
15 quite sure how one gets a burn notice approved. What is
16 the process on that?

17
18
19
20
21

It wouldn't go up

15 Q That's right. As to Ghorbanifar, did you know which

17 A I didn't know at the time. No. But it's when I read
18 the burn notice--it's pretty clear. The following summer,
19 or whenever I read it, it's pretty clear that that was ~~he~~
20 *what he fit into.*

21 Q Give me your best recollection of how you would

23 and I'm not as familiar with what you guys were looking for

1 as you are. So what would that have told you about
 2 Ghorbanifar? Simply that he was a liar, or that he was
 3 a liar with a motive?
 4 A A liar with a profit motive, probably. Although,
 5 sometimes it's not clear. I mean, I've run into dozens of
 6 fabricators, and some lie for the sake of lying; some lie
 7 for purposes of feathering their own nests and working out--
 8 they're con men. ~~Oh,~~^A and occasionally, there may be some
 9 ideological motivation. But, that's very rare. But he's
 10 just, he's not an atypical Iranian bum who, you know, made
 11 his living as a police informant, Savak informant. Israelis,
 12 I'm sure he worked with the Israeli shipping companies.
 13 I recall back in the revolution days, and probably ^{have} been
 14 associated with the Israelis since that time.
 15 Q Let me take you into the summer of 1985. At that
 16 point, June of 1985, you apparently were advised by
 17 Director Casey that he had been called by a gentleman
 18 named John Shaheen, who had that story to tell about
 19 Cyrus Hashemi and a program Hashemi had for releasing
 20 the hostages and releasing himself from prosecution. Do
 21 you recall that?
 22 A Yeah, I recall that. *we will refer to documents in a moment*
 23 Q Can you tell me, and ~~you're free to [Inaudible]~~,

UNCLASSIFIED

UNCLASSIFIED

23

1 but give me your best recollection of how this matter came to
 2 your attention in the summer of 1985?

3 A Shaheen, John Shaheen called Casey, which was not unusual.
 4 Shaheen was always calling Casey. They're old, they were old
 5 OSS buddies or something. Shaheen was born in the same town
 6 that Ronald Reagan was born in, I think. He's a very patriotic
 7 American. ~~DA~~ ^{He} had a lot of contacts. He was always giving
 8 Bill Casey hot tips on this or that. ^{fellow} And he'd call Casey,
 9 and then Casey sent me a note, as I recall, and it was well
 10 known what sort of fellow Hashemi was and what his motivation was,
 11 and I think he had been cut off once before ^{earlier} ~~early~~ on with some
 12 scheme, talking about ransom for the hostages. ^{It} This time he
 13 claimed to have the contacts with the Iranians at some fairly
 14 high level, and I went to State. I told Casey, I said, "We
 15 won't approve this one this way dealing with this guy. If he's
 16 really in touch with someone who represents the Iranian
 17 Government or who's in the Iranian Government, then they ought
 18 to be, and they want to talk, then we ought to get State in on
 19 it and find out, you know, how we ought to handle it. ^{It} I went
 20 to see either Dick Murphy or Arnie Raphael. I think I tried to
 21 see Dick Murphy, and then I may have seen his Deputy, ^{Arnie} ~~Arnie~~
 22 Raphael. And we worked out, they worked out, we talked about

UNCLASSIFIED

UNCLASSIFIED

1 it. They also knew about Cyrus Hashemi. I mean they had, you
2 know, the burn notice I think had been run on him. I'm not
3 sure of that. But, at least, somehow he'd come to their notice
4 on one of these previous schemes. Maybe about the thing he'd
5 been prosecuted for^H I guess illegal export, or something or
6 other. And so, what they worked was through our Embassy [REDACTED]
7 [REDACTED] where he claimed to be able to--of course, these guys,
8 fabricators or con men like Hashemi or Ghorbanifar, they always
9 want to, they gotta do something right now^H The moment you
10 hear, the guy's coming on Wednesday. So he claimed that he
11 could produce an Iranian, very senior level importance, and
12 join with me very quickly. So, State's position was, "We're
13 always ready to listen, but we are not sure we want to go
14 meet this guy." [REDACTED] because
15 the mention of the Red Cross had been made since it involved
16 hostages. [REDACTED]
17 [REDACTED] to agree to, you know, listen to what
18 this senior Iranian has to say about Iran-U.S. relations
19 and what influence they might bring to bear to get the
20 hostages released. So that was set up, and a phone number
21 was given I think to Hashemi to call and, of course,
22 nothing ever happened. I mean, nobody ever showed up.
23 However, his lawyer, who was Elliot Richardson, did call

UNCLASSIFIED

UNCLASSIFIED

1 [REDACTED] I don't remember whether I went out of town, had gone
2 on leave, or was--somehow or other--oh, I know what happened.
3 In order to get the details of this after Casey sent me the
4 note, and I talked in general principles to either Dick Murphy
5 and/or Arnie Raphael. [REDACTED] then went up to New York and talked
6 to Shaheen to get the details, to get names and so forth. And
7 he got the name of [REDACTED] who figured
8 in later events of course, and the name Manucher, and that's
9 a fairly common name, as I recall. I'm not 100% sure, but
10 we fairly quickly established it was Manucher Ghorbanifar.
11 Or likely to be him. Or maybe even Shaheen said, had his
12 full name. But whatever it was, we talked with State, and
13 the deal was set up that if [REDACTED] who was identified by us
14 as a bona fide Iranian official at some level. I don't remember
15 exactly the level, but fairly senior. If he showed up, the
16 [REDACTED] would be happy to talk with him
17 and listen to what he had to say about Iran-U.S. relations
18 and the hostages, but that they would not see this guy,
19 Manucher Ghorbanifar if he alone came along with Hashemi.
20 And then, as I recall, since [REDACTED] had met Shaheen, that was
21 probably why Elliot Richardson had called [REDACTED] on the phone
22 one day and said he represented Cyrus Hashemi and he understood
23 that something was being worked out with regard to nolle pros

- 1 on this case against him, and [REDACTED] fended it off at arms
2 length and said he would have to talk with somebody else,
3 not me. It was obvious that Shaheen had given Hashemi
4 [REDACTED] phone number, or he had given it to Elliot
5 Richardson or somehow Elliot Richardson had gotten it.
- 6 Q I want to go back on a couple of things and show
7 you some documents. With regard to his initial contact
8 did you have a meeting with Casey? Casey brought you in
9 and told you John Shaheen has told me X, Y, and Z, that
10 kind of thing, or did he just send you a memo?
- 11 A As I recall, he sent me a memo, and he may have
12 been going someplace or, you know, he went out of town
13 for the weekend a lot of times. I don't remember. He
14 sent me a note, though. I remember that.
- 15 Q You had had other notes come from Casey by way
16 of Shaheen, from Shaheen by way of Casey?
- 17 A I don't recall having any other notes. I recall
18 Shaheen coming up with this or that or some other
19 possible lead into information about the hostages,
20 etc., etc.
- 21 Q Were you aware of Shaheen's relationship to a
22 gentleman named Roy Furmark at that time?
- 23 A No.
- 24 Q You were not aware in the summer of 1985 that

UNCLASSIFIED

UNCLASSIFIED

27

1 Furmark was a business associate of Shaheen's.

2 A I never heard of Furmark until it was in the

3 newspapers when I deer hunting ^{at the} last end of November ^{شماره}

4 The first time I ever heard of Furmark.

5 Q Similarly, you were not aware that Furmark,

6 Mr. Shaheen's business associate, was a partner of

7 Manucher Ghorbanifar, Adnan Khashoggi and Mr. Hashemi

8 in a venture to sell materials to Iran in the period

9 January through August 1981?

10 A No.

11 Q During the course of these discussions, Ghorbanifar's

12 business relationship with Furmark--the one with Hashemi

13 and those people--it was not discussed at all?

14 A In the course of which discussions?

15 Q The discussions relating to what Casey told you in

16 the June, July, August period. Let me give you a better

17 question. In that period of time, June, July, August, was

18 it brought to your attention that Ghorbanifar had a business

19 relationship with Hashemi or Adnan Khashoggi?

20 A Not with Adnan Khashoggi, but since, no, but he had some

21 sort of legitimate or otherwise business relationship, but

22 an association was established, because Hashemi said this

23 fellow [REDACTED] was coming, and the other guys name was

24 Manucher. And we checked that, as I recall, so obviously

UNCLASSIFIED

UNCLASSIFIED

28

1 there was a hook up between Hashemi and Manucher, which ought
2 to be not surprising since they're both Iranian.

3 Q Was it ever explained to you how Shaheen came to come
4 by this knowledge that Hashemi was interested in putting this
5 deal together?

6 A Hashemi had told him this.

7 Q Did he tell you how it was that Shaheen would be in contact ^{with}
8 Hashemi.

9 A ^{I assume} In the spot oil market or some other shady international
10 business deal. But it didn't come to my attention specifically.

11 Q And it was not you that talked to Shaheen, but [REDACTED]

12 A That's correct. He went up to New York and got the details
13 of this thing, as I recall, and I talked to State, and again,
14 I think I went out of town, because I think [REDACTED] talked with Arnie
15 Raphael or maybe with Dick Murphy--they were our counterparts
16 at State--and confirmed that, okay, if there's some, if the
17 people had something to say. And I talked with Casey once
18 more about it at some point by saying, "Bill, this is the
19 way to handle it. We don't want to get into all this 'Who shot
20 John?' ^{in dealing} ~~and deal~~ with these guys. If they come forward and have
21 something legitimate, and this guy [REDACTED] You see, the
22 thing about Shaheen and other guys--they have a lot of contacts--
23 and they come up and it would be a tantalizing sort of thing.

UNCLASSIFIED

UNCLASSIFIED

29

1 I mean, the idea was the guy has access here, and that would turn
 2 out to be true. and you needed, you had to explore, but you had
 3 to explore it, but you had to be very careful ^{how} if you did it, or
 4 you'd get involved with another fabricator or swindler, you know
 5 Because the further you unravelled the thing the wormier it
 6 became. But, once in a while we'd have a contact that would
 7 make sense.

8 Q Did it come to your attention during this period of time
 9 that Mr. Ghorbanifar, as reported in his 201 file, once said that
 10 [REDACTED] was involved in the kidnapping of Mr. Buckley?

11 A I don't recall that.

12 Q Did [REDACTED] commit to writing what he learned in his
 13 interview with Mr. Shaheen?

14 A He committed to writing--~~it~~, I don't know whether ^{he did} or not.

15 I remember him later committing to writing sort of how the
 16 thing was being handled, and what, you know, once we talked
 17 with State and had the deal laid on that State would talk with

18 [REDACTED] I remember [REDACTED] writing something saying, "I called Shaheen

19 and told him this, ~~that~~ ^{if} that Hashemi is serious and he can
 20 really produce these people, ~~and~~ ^{that} he should ~~call~~ call this

21 number, and they'll be met." And he also told Shaheen that,

22 ~~that~~, about the deal, [REDACTED] fine, Manucher alone, no

23 because he had been proven to be a bad character and not

UNCLASSIFIED

UNCLASSIFIED

30

1 worth dealing with. And so I remember ~~that~~ he wrote that down.

2 Q Do you recall apprising Mr. Casey of the fact that
3 Manucher Ghorbanifar was indeed someone that Operations
4 preferred not to deal with?

5 A Yes.

6 Q And you would have told him that approximately when,
7 sometime in the June or July period?

8 A Yeah.

9 Q Would that have been in a face to face^{meeting}?

10 A I don't recall. It might have been on the phone.
11 It would have been sort of, "Hey, Bill, we have traces on
12 this guy. He's a bum." That sort of thing.

13 Q Do you recall anybody else that would have been
14 present when you related this to Mr. Casey?

15 A No, I don't recall relating it to him face to
16 face.

17 Q I see. You do think it was conveyed to him?

18 A Oh, yes, because if Bill Casey got a lead on something
19 from John Shaheen or anybody else, he didn't let go of it,
20 and you didn't just forget about it. You responded and you
21 explained to him the why and wherefore, and in this case,
22 why it would have been a dumb idea to have done it otherwise.

23 Q Let me show you a memorandum dated June 17, 1985 from

UNCLASSIFIED

UNCLASSIFIED

31

1 Mr. Casey, apparently to yourself which would be Exhibit I
2 of your deposition. Would you review Exhibit I and tell me
3 first if you recognize that document?

4 A I was talking about--

5 Q This would have been the initial memorandum from Casey
6 to you relating his conversation with Shaheen.

7 A Shaheen, that's right. That's right.

8 Q And does this review of that document given you any
9 further recollection on this initial phase of this that
10 you haven't testified to.

11 A No, as I say, there was never any, you know, sort of
12 [REDACTED] follow up. At least not as far as
13 I know. I talked to State and it was a question of allegedly
14 talking about a change in policy here, and the usual boiler
15 plate of, you know, release the prisoners and provide weapons.
16 They were always--the Iranians were always looking for weapons.
17 It doesn't raise any additional inferences.

18 Q Okay. Now, in terms of following this along. This document
19 is dated June 17, 1985. We have a document we have obtained
20 from the State Department dated June 22, 1985, and I want to
21 apologize for the wretched quality of the copy. State's copy
22 machines aren't nearly as good as, uh--

23 A Is this a telegram [REDACTED] uh--

24 Q Uh, the first is a memorandum from Mr. Murphy to Mr.
25 Armacost. The second is a cable to ^{Bob,} Vaughn (op2).

26 A That would have been in ^{Follow-up to our conversation.} [REDACTED].

UNCLASSIFIED

UNCLASSIFIED

32

1 Q What I'd like you to do is take a look at what
2 would be Exhibit 2 and do the best you can to read
3 the wretched quality and we'll see where that takes
4 us just in terms of chronology.

5 A Preliminary question will be whether or not
6 you have seen this document before.

7 A I do not recall having seen it, but I recall
8 the details of ~~the~~ ^{is} what ~~said~~ in it. And I
9 recall specifically that Mike Armacost approved
10 this because I remember I made reference earlier
11 to a note that [REDACTED] had written sort of
12 summing up where we were going on this, and in that,
13 I remember him saying that it had been Mike Armacost
14 who had approved it, and they were sending another
15 cable [REDACTED] ^{as} to follow up.

16 Q Murphy indicates in this memo that he, as he
17 says, consulted urgently with Justice on June 20
18 ~~to~~ to learn Justice's reaction to the Hashemi
19 proposal. Did you have any involvement in that
20 meeting with Justice?

21 A No.

22 Q Did you have any knowledge of it.

23 A I had knowledge of it, but I recall that he
24 did talk with him.

25 Q Do you know of anything in writing generated
26 by Justice regarding the Hashemi proposal?

UNCLASSIFIED

UNCLASSIFIED

33

1 A I wouldn't think there would have been because
2 nobody was willing to offer a nole pros on the basis
3 of a promise by a guy like Hashemi.

4 Q Being it a habit of government agencies to block things
5 out that I want to know about, I want to ask you about a
6 block. They say, we suggested that we could ask the blank
7 to send a professional to listen^{to} to the Iranian representative
8 [REDACTED] next week. Do you have any idea who it was suggested
9 should go [REDACTED] to listen to the Iranian official?

10 A I don't recall whether we offered, uh--it may well
11 be CIA ^{sent somebody who} since he would speak Farsi, and he would--

12 Q That would be my guess, and so I'm asking.

13 A I don't know for sure. It could well be because we
14 probably would have offered that as long as State had
15 approved it.

16 Q All right.

17 A It's just that we wouldn't have wanted to go out on
18 a limb dealing directly with these guys.

19 Q ~~Um,~~ there's a reference in the last paragraph that
20 I want to pursue. It says, ~~Finally,~~ Bill Casey is
21 anxious to move ahead on this proposal. I suggest you call
22 him to say we are urgently, I think it's considering or
23 working on the issue, and we'll be back to him as soon
24 as possible. We have passed the same message to and the
25 reference appears to be to you. So you were in touch with
26 State on this matter.

UNCLASSIFIED

UNCLASSIFIED

34

1 A With Murphy and/or Raphael. I don't recall. They
 2 were very careful. Yes, I remember. 'Cause I put a fair
 3 amount of, you know, Casey got the tip from Shaheen, and he's
 4 talking, and he runs into [REDACTED]
 5 [REDACTED] and you know, he goes to Long Island for the
 6 weekend and ^{will} see 14 more people, and you want to get this
 7 thing under control and in the right channel before, you know,
 8 there's some other angle that we have to send somebody out to
 9 talk [REDACTED] about something that's
 10 probably not going to amount to anything. So, I probably said
 11 "Bill's personally interested." But he may have called, well
 12 he talked to [REDACTED] so maybe [REDACTED] talked to, uh--

13 Q Did you perceive Casey to be very anxious or particularly
 14 interested in this suggestion by Shaheen?

15 A No more so than other similar ^{sorts of} hot leads that he'd come
 16 in on Monday morning and start ^{spewing} ~~(incredible)~~ out people to
 17 follow up on. I mean, yes, he was interested and, it had to
 18 do with the hostages. ^A ~~so~~ at that point, we did not know
 19 Bill Buckley was dead, and in fact, we thought he was still
 20 alive. [REDACTED]

21 [REDACTED] again through one of
 22 these contacts that Casey makes that leads to something.

13 top levels where you were, that that perception also was not

19 Q Yes. Do you have any recollection of any discussions

22 A No. I don't recall it.

23 Q You don't have a recollection of his view about whether

25 A No. No I don't.

 3 are documents for which I have great hopes of someday

 5 cable dated July 9, 1985, which had previously been marked
 6 as Allen Exhibit 3, a typewritten message to Arnie from
 7 Peter, dated July 11, 1985, which is Allen Exhibit 4.

8 A To Arnie from Peter?

9 Q Yes sir. And a cable dated July 12, 1985, which is
 10 Allen Exhibit 5. What I would like you to do is read
 11 these documents and tell me first if you recall having
 12 seen them at or about the time of their date. First, with
 13 regard to these documents, would you have seen them at or
 14 about the time of their date?

15 A Not necessarily. Something like this would probably
 16 have been brought to my attention. I don't recall having
 17 seen--I don't know what this document is.

18 Q I was hoping you would be able to help me out with
 19 that. [REDACTED] Do you know an Arnie or a Peter?

 21 Peter, Peter, Peter, Peter ^{Burleigh} ~~Belle (sp?)~~ from the State

 7 This sounds as if it was written outside of CIA. In other

 11 knowledge of [REDACTED] in the biographic files, see that's

 13 that. It sounds like they're referring to their own

15 Q Right. That's very possible.

16 A The other cables may or may not have come to my

 18 have been gotten to my attention.

5 A Not necessarily. Cables can be released down at the

9 A No, this is the [REDACTED]

13 Q All right. And essentially what the cable, which is
14 Allen Exhibit 3, is asking for is additional information
15 on [REDACTED] and Ghorbanifar, is that correct? Or Manucher.

16 A Yeah. FYI Headquarters suspects that Manucher is
17 identical with Ghorbanifar. We note that he had contacts with

18 [REDACTED] as
19 indicated by this Exhibit, they think it's probably the same
20 guy. And he is the fabricator, and circulated the burn notice

21 Q Okay. All right. So essentially, as of July 9, operations
22 Near East Division is trying to develop information on who
23 [REDACTED] and Manucher Ghorbanifar are. Is that right?

24 Is that what you're doing as of that time?

7 did not show up [REDACTED] I mean, he did not call. Shaheen
8 was going to pass this message to him with the thing that
9 [REDACTED] you asked if he wrote something up about what
10 we were gonna do. Shaheen was gonna call Hashemi in Geneva
11 --these guys were always floating around Geneva. He was
12 gonna call him and say okay, if you've got something to say,
13 go here or call this number. And as far as I know, nothing
14 ever happened on that.

15 Q Do you recall telling officials at State on the evening
16 of July 10th that you were, you yourself or [REDACTED]
17 were negative on [REDACTED] and Manucher Ghorbanifar?

18 A I don't recall specifically, but it's certainly in
19 the context of what I believed and thought at the time.

20 But the guy was only trying to get this nolle proes, and
21 that he would just come up with another cockamamie story.

22 But, since it possibly involved hostages, and maybe
23 improved relations, from State's perspective, you had
24 to listen to him. I personally didn't think he'd show up.

25 Q This document dated January 11th refers to DC/NE.

26 That would be [REDACTED] correct? Deputy Chief?

UNCLASSIFIED

UNCLASSIFIED

42

1 A That's right.

2 Q The memo also makes reference to the issue coming
3 up at 3 p.m. meeting C/NE. Is that you.

4 A That's me. That would have been me. I normally
5 had meetings once a week with Dick Murphy or Arnie.
6 That's why it makes me think that that's Arnie Raphael
7 up there.

8 Q This memo also makes reference to the point I made
9 a little bit earlier, which says that our only knowledge
10 of [REDACTED] in the biographic file is the report on
11 Manucher, who claimed, among other things, that [REDACTED]
12 "was the individual responsible for the kidnapping of
13 William Buckley." ^{Does} That give you any further recollection
14 of what you all knew about [REDACTED]?

15 A No. I don't. That doesn't refresh my recollection
16 at all.

17 Q Do you have any recollection at all of what impact
18 [REDACTED] role on the kidnapping of Buckley had on your
19 evaluation of whether or not you should be doing business
20 with [REDACTED]?

21 A Well, if it comes from Manucher Ghorbanifar, I would ↗
22 put about as much credence in that as anything else he
23 says. So, it wouldn't have had any impact whatsoever.

24 Q With regard to a meeting in early July with State,
25 discussing these matters, do you have any further
26 recollection of what was discussed?

UNCLASSIFIED

UNCLASSIFIED

43

1 A No. I made the arrangement. They said they would
2 send a cable [REDACTED] and I think maybe another cable
3 had already been sent. And it was agreed that at some
4 point that, no, they did not need our officer to sit in,
5 that [REDACTED] would be happy to do it for them, and
6 that was--and that's all I recall on that, it was just
7 left at that.

8 Q During this same period of time, June or July, we
9 now know it from the Tower Commission Report, that there
10 were a variety of meetings between Michael Ledeen and
11 Ghorbanifar, Bud McFarlane and people speaking on behalf
12 of Ghorbanifar. Were you aware in the June-July time period
13 that Ghorbanifar was making an effort to reach the United
14 States by way of the National Security Council?

15 A No.

16 Q At no time, to your knowledge, did Mr. Shaheen apprise
17 the Director of an effort to reach the United States by
18 way of the NSC.

19 A No. Not to my knowledge. It seems to me that had he,
20 I would have thought he would have mentioned something to
21 [REDACTED] in some context, because he was a very open sort of
22 guy once, you know, he got one of these leads and you
23 talked to him, he'd sort of tell you everything he knew about
24 it. But, he seemed to accept the fact that our records showed
25 that this guy, Ghorbanifar, was not the sort of fellow we
26 wanted to deal, but that if he could lead to [REDACTED]

UNCLASSIFIED

UNCLASSIFIED

44

1 maybe he was worth it.

2 Q In terms of Shaheen, though, you did not develop the
3 impression that Shaheen had a profit motive in trying to
4 put this relationship together.

5 A No.

6 Q And it is your recollection that [REDACTED] would
7 have gone to New York and actually interviewed Shaheen.
8 Is that correct?

9 A That is my recollection.

10 Q Do you recall anyone else being present at that
11 interview?

12 A No.

13 Q If you were to try to give me an estimate of when
14 this aspect petered out, came to an end, would it have
15 been in mid-July or at a later time.

16 A Well, it was just left hanging. We sort of had it all
17 in place by the, I don't know, the 10th or 12th of July,
18 and then it just sort of--we were waiting and, no call.

19 Q Did you ever determine why there was no call?

20 A No. My assumption was that it was, that he just
21 couldn't come through, when he was pinned down and we
22 didn't want to talk about arms or about ransom or something.
23 that, in other words, that he had to appear and state his
24 case on the merits as to what the Government of Iran
25 wanted to say to the U.S. Government, what they might
26 do to effect the release of the hostages in return for

45

1 better relations or something, that that wasn't the
 2 game that he was capable of playing. Either [REDACTED]
 3 or whoever [REDACTED] contacts were, if he in fact
 4 [REDACTED] existed.

5 Q It did not come to your attention that this
 6 initiative had died because in mid-August 1985,
 7 Ghorbanifar and [REDACTED] succeeded in getting the
 8 United States' agreement to have Israel ship TOW
 9 missiles to Iran.

10 A It did not come to my attention ^{until} long after ^{wards}.

11 Q Was there merely one interview of Shaheen by
 12 [REDACTED] to the best of your knowledge?

13 A As far as I know. He may have met him on another
 14 occasion, but that's the only one that I recall.

15 Q Where would the Central Intelligence Agency
 16 have kept its records of matters relating to this
 17 incident?

18 A Matters relating to--

19 Q To this incident, the Hashemi, [REDACTED]
 20 Ghorbanifar connection in June-July-August, 1985.

21 A Well, the cables were sent, I don't know
 22 whether they have a file number.

23 Q We have a 201 file.

24 A Yeah. And this is out of Ghorbanifar's 201?

25 Q Yeah.

26 A Probably after he was identified, I mean that

UNCLASSIFIED

UNCLASSIFIED

1 Manucher was him. It would have been put in there,
2 and there was a file on Hashemi, too, I think. So,

3 It would have been in one of those files, they're
4 probably in both of those files.

5 Q Have you had occasion to review the Hashemi
6 file related to this matter.

7 A No.

8 Q Have you had occasion to discuss this matter or
9 incident with [REDACTED]

10 A Over what period?

11 Q Within the last month or so.

12 A We have talked about, ~~we~~ not in the detail we have
13 talked here today, about Hashemi and Shaheen and all that.
14 We have talked about Ghorbanifar.

15 Q Well, let me come at it a little later. Did [REDACTED]
16 [REDACTED] advise you that he had been asked questions
17 about this Hashemi-Shaheen-Ghorbanifar matter during
18 the course of his deposition?

19 A No.

20 Q So you have not had the benefit of [REDACTED]
21 recollections to refresh your own?

22 A No.

23 Q According to the Tower Commission Report and the
24 other documents that you've now seen in the period
25 June 1985, there were efforts underway to ransom
26 two hostages, including Mr. Buckley, being supervised
27 by Col. North and being done in conjunction with two

UNCLASSIFIED

47

1 agents from the DEA. Were you aware of such efforts
2 in June 1985.

3 A June of 1985. I don't recall any. I recall
4 that periodically there were leads that came up.

5 DEA, you know [REDACTED]
6 and they were informants, not agents. But, no, I don't
7 recall.

8 Q Do you recall it coming to your attention during
9 your tenure as Chief of the Near East Division, of
10 plans or a program to ransom one or more American
11 hostages?

12 A Our policy on that was, no, I don't. [REDACTED]
13 [REDACTED]
14 [REDACTED]

15 there was in the latter
16 days of, let me think when it was, I think it was the
17 spring of last year, ~~what was the~~, what was the guy's name,⁷
18 ~~he~~ he was later determined to be, well, he was later killed,
19 but first everyone thought he was dead, one of the
20 hostages, I can't recall now, and then we got information
21 through a source that he was alive and we got pretty good
22 proof that he was alive, and the guy, they claimed they
23 wanted something like a million dollars or so to let him
24 loose. We obviously didn't pay ransom. ~~We~~ We talked to the
25 White House about that, specifically Ollie North, ~~was~~
26 ~~we~~ We talked to him about it, and he said there was private

UNCLASSIFIED

48

1 money available to pay for this sort of thing. But that
2 one never worked out. The guy was killed.

3 Q Let me focus you back in June. Were you aware of
4 a proposal in June of 1985 to pay several million dollars
5 in ransom for hostages and to utilize monies which Col.
6 North characterized as monies generated in his Nicaraguan
7 project to pay that ransom?

8 A No.

9 Q With regard to the matters we were discussing before,
10 the Shaheen-Hashemi initiative relating to Ghorbanifar and
11 [REDACTED] to your knowledge, did the conclusions that you
12 all reached, the suggestions that you all made about not
13 dealing with Ghorbanifar get related to the National
14 Security Council?

15 A At that stage?

16 Q Yes sir.

17 A I'm not sure. I don't have any recollection that they
18 were communicated to the National Security Council.
19 They were certainly communicated to Casey. State knew about
20 it at the Armacost level.

21 Q Secretary of State ^QSchultz has testified, as you know,
22 that as of mid-July, about July 16th, he had seen intelligence
23 reports on Ghorbanifar, I believe they related to this
24 incident, that he was aware of Ghorbanifar's track record
25 and how he was perceived by the Central Intelligence Agency.

26 A Yeah, I suppose that's probably right.

UNCLASSIFIED

UNCLASSIFIED

49

1 Q Do you have any knowledge of a similar conveyance
2 of information to Bud McFarlane during this period of
3 time?

4 A No.

5 Q Do you specifically have any knowledge of this
6 information being passed to Col. North during this period
7 of time?

8 A No.

9 Q Given Col. North's position relating to the hostages,
10 is it likely or unlikely that the Central Intelligence
11 Agency and State would have apprised him of this Shaheen-
12 Hashemi initiative during the June and July period of time?

13 A It's probably likely that it would have come to his
14 attention in some of the, ~~you know, the~~ periodic meetings
15 on the hostage situation. Although, at that time, this
16 hostage-locating task force had not been formally established.

17 Q No, I'm familiar with that, but it was Col. North's
18 turf, so to speak, to deal with hostages in June and July
19 of 1985. Isn't that right?

20 A Yeah, yeah. I mean, he was dealing with it. I don't
21 know that it was, if turf is exactly the right word. It
22 wasn't exclusively his turf.

23 Q I'm not suggesting that. But that certainly--

24 A Yes, it's quite likely it could have come to his
25 attention, but I have no knowledge whether it did or did
26 not.

UNCLASSIFIED

UNCLASSIFIED

1 Q You, yourself, did not, you don't recall having had
2 such discussions.

3 A I don't recall having said. I might have said something
4 like, you know, we've got a lead, or Casey might have said
5 something to him about John Shaheen's given us a hot lead,
6 and then, he might have asked me, and I might have said,
7 well, yeah, it turned out to be a bummer, or something.
8 But, I don't recall. That wouldn't be impossible.

9 Q Do you have any knowledge of [REDACTED] communicating
10 with Col. North about this matter in the June-July-August
11 period?

12 A No.

13 Q Let me move you into the fall of 1985. Did you become
14 aware in the period of late August-September that Col. North
15 was involved in an initiative with certain Iranian expatriates
16 and others?

17 A No. I think my first knowledge that something was going
18 on. Well, of course, Weir was released, and it was after then.
19 That was, as I recall, in September. After that, there was
20 it may have been early October, oh, I guess the first thing
21 that alerted me, it was about the time Weir was to be released.

22 Q Weir was released on the 15th of September.

23 A Okay, that's right. Somebody said, I don't know if it
24 was over a weekend or what, that Weir is about to be released,
25 and, I don't know, Claire George may have said that, or John
26 McMahon may have said it, that they're expecting to get Weir

UNCLASSIFIED

UNCLASSIFIED

51

1 out, and whether that means, you know, the Church or State,
 2 or the Iranians, or Ollie North, or whatever, but that there
 3 was anticipation at the White House that Weir was going to
 4 be released. And, Bingo, he was released. ^A And then I gradually
 5 became aware that some credit was being claimed for this in a
 6 satisfied way, by the White House. That they had worked with
 7 somebody and had gotten him out. Now whether, what it was,
 8 I didn't know. ^A Then, in early October, John McMahon and
 9 I were on a trip [REDACTED] and during the course of
 10 that trip, during which the Achille Lauro thing took place,
 11 John and I were sitting around having drinks someplace [REDACTED]

12 [REDACTED]
 13 [REDACTED] And he said something
 14 about, gee, I hope they know what they're doing. I hope this
 15 all works out about the Iranians and the hostages. And that's
 16 all he said. The unstated thing was that it was, you know,
 17 the White House was working somehow with somebody in touch
 18 with the Iranians. I did not know of the Israeli end of it.

19 Q Let me focus you on a couple of events and see what
 20 you can tell me about them. Mr. Allen places it at September
 21 9; contemporaneous records place it more like September 12.
 22 In any event, during that period of time, Col. North asked
 23 Charles Allen to increase [REDACTED]

24 [REDACTED] efforts on what we now know to be Manucher Ghorbanifar
 25 and [REDACTED] Did you know that that asking as you like to
 26 it had been placed on Mr. Allen at that time.

UNCLASSIFIED

UNCLASSIFIED

52

1 A No, I did not know at that time.

2 Q Director Casey didn't have any discussions with you in that
3 period of time about Mr. Allen's activities?

4 A No.

5 Q Do you have any knowledge of a request coming in from Mr.
6 Allen's office relating to Manucher Ghorbanifar, relating to an
7 alias name - Ashgari, relating to [REDACTED] asking you all to
8 tell them what was in your file on those people?

9 A It's quite possible he did, I don't specifically recall it.
10 It wouldn't necessarily come up to me, or even to [REDACTED] but it
11 probably would have been brought to my attention, but I just
12 don't recall whether it was or not.

13 Q Just in terms of dates, the first Israeli shipment of a
14 hundred TOWs was August 30, then 408 TOWs went out on September
15 14. Your testimony is that you had no knowledge of those.

16 A That is correct.

17 Q We do have a memorandum that was done in 1987, suggesting
18 that you all had cable traffic on the September 14 flight, at
19 least the fact that it went into Tabriz, that sort of thing. Do
20 you recall what you all knew at that point about Israeli flights
21 into Iran?

22 A I recall about some reporting but I thought that was later.
23 In September?

24 Q Yes sir.

25 A Was this the flight that came back out to Israel and then
26 there was something in the paper about that. I thought that was
27 later.

UNCLASSIFIED

UNCLASSIFIED

53

1 Q There was also, in October, there, there, a report about
2 the, the plane stopping and going to Africa.

3 A ~~See,~~ ^{is} that's what I remember, and I remember there was
4 something, on [REDACTED] somebody reported.

5 "Hey, here's something ^{has} happened." They didn't have any
6 knowledge of what it was. And I think that's probably what, that
7 contributed to my overall impression that something was going on.
8 Weir was out, the White House was happy, McMahon later, I think
9 in October, said something to me, and it may have been this
10 plane. It was pretty obvious that something was going on.

11 Q You also apparently learned or your division did that there
12 had been a suppression of a story in Israel about a Kimche-
13 McFarlane meeting and its results and how it related to the
14 release of Weir, any recollections...

15 A I don't have any recollections.

16 Q According to Mr. Allen, he and director Casey met on
17 September 16, two days after or a day after Weir was released to
18 discuss the Weir release and during the course of the
19 conversation Casey indicated what he knew about the American role
20 in the Iran Initiative. Did you attend that meeting?

21 A No.

22 Q Did you have any knowledge of that meeting?

23 A No. I know Charlie was involved and everyone was trying to
24 get in on [REDACTED] and I remember dealing with
25 Charlie in terms of who would go down [REDACTED] and so
26 forth.

8 Q Was Col. North in evidence to you in those September 14, 15,
9 16 period, trying to set up or establish [REDACTED]
10 and the other accoutrements that go with the release of the

In early October 1985?

17 A I don't recall anything specific. No.

18 Q Do you ^{re} recollect whether or not you had concluded that
19 Mr. Buckley was or was not dead at that point?

20 A I think we'd pretty much concluded by that point that he was
21 dead. ^{but} ~~though~~ we weren't going to publicly confirm it.

22 Q I understand, I understand. Im going to show you what's
23 previously been marked as Allen exhibit number 7, I doubt that
24 you've seen it before, but perhaps you could look at it and tell
25 me if you have ^{seen it}. There's one point of reference that I wanted to
26 mention to you. On the second page of Mr. Allen's memo he

UNCLASSIFIED

56

1 indicates that as of the date of that memo, which I believe is
2 October 7th, the Central Intelligence Agency, he says, has strong
3 evidence that Mr. Buckley is dead. Do you know what the strong
4 evidence was, that Mr. Allen's referring to on October 7th?

5 A It seems to me that there were bits and pieces reporting
6 that he's dead, [REDACTED] didn't have anything that offered
7 any hope. There'd been something about people being moved and
8 Buckley hadn't been with them. But I don't recall any strong you
9 know, single piece of evidence or even, that stood out from the
10 others. It was, you know, that we hadn't heard from him. The
11 reporting about the hostages and we had I think by then [REDACTED]

13
14

15 Q Did it come to your attention during this period of time
16 that Mr. Ghorbanifar had made an inquiry as to the condition as
17 to Mr. Buckley and had advised US representatives as of this
18 period of time, 7-8 October, that Mr. Buckley was dead?

19 A No, it did not come to my attention that Ghorbanifar had
20 done that. It may be, that intelligence may have been passed to me
21 in some form that, you know, that somebody said this, but I don't
22 recall his name coming up again until sometime later.

23 Q While we're in this period of time I'd like to show you one
24 other document that was generated by Mr. Allen for Col. North on
25 the 19th of September, relating to Iranian arms deals. Allen
26 exhibit 8, ask if you saw that document at or about the time it

1 states.

2 A Market arms scams things, rings a bell, but I don't recall
3 the covering on it. I certainly...Charlie Allen to Oliver North,
4 I don't really recall this one. I remember the basic document.

5 Q Do you recall knowing that Col. North was being given this
6 information by Mr. Allen at this time.

7 A No.

8 Q Or why it was being given to Col. North.

9 A No.

10 Q Sorry to jump around, I missed one other thought. At the
11 October 6-7-8 period, when Ghorbanifar was in town, that is the
12 same time as the Achilles Lauro incident, were you involved in the
13 CIA's efforts to follow and be of assistance in the Achilles Lauro
14 matter?

15 A John McMahon^{a-11} were off

16 [REDACTED] It was all over.

17 [REDACTED] We heard about it

18 there.

19 Q In terms of the way you all operate, when you are away, when
20 you are on the road like that I take it that operational
21 responsibility would lie with your deputy back at headquarters,
22 is that the way it works?

23 A Yes.

24 Q So [REDACTED] would have had that watch, is what it comes
25 down to:

26 A Yes, that's right he would have been in charge of any, had

UNCLASSIFIED

1 something serious come up he would send me a cable.

2 Q Were you aware that Mr. Ledeen was playing a role in the
3 Achille Lauro matter?

4 A No.

5 Q Did you know Michael Ledeen at that time? Have you ever met
6 Michael Ledeen?

7 A I've never met Michael Ledeen. I've seen him in the
8 distance. I'd never heard of him until...I've heard of him of
9 course, he has written things about Iran. But, I mean heard of
10 him in our circle, until December of 1985.

11 Q 85?

12 A December of 1985, that's right.

13 Q And you would have heard of him in that context because of
14 the Ghorbanifar memo?

15 A That's right. When that came out.

16 Q In mid November 1985, Mr. McFarlane is said to have had a
17 conversation with Mr. Casey and Mr. McMahon, relating that the
18 Israeli's were giving arms to Tehran. Did you have any knowledge
19 of that discussion, that conversation had with Casey?

20 A No.

21 Q Col. North at that same time, mid-November 1985 was in

23 Manucher Ghorbanifar. Did you have any knowledge [REDACTED]

16 Q With regard to the flight ultimately made by the CIA
17 proprietary airline into Tehran, were you aware of matters
18 relating to that flight while they were going on?

19 A No, no I was not. I didn't hear about that flight until, uh
20 it must have been early December...could have been the very end
21 of November, but I think it was, sort of the week or next week
22 after it, maybe ten days or two weeks.

2 A No. Absolutely not.

3 Q With that also be true of your personnel, [REDACTED]

4 A I'm sure it is, because I remember when we learned about it,

5 I don't remember if [REDACTED] heard about it or I heard about it...one

6 or the other...then we sat down and discussed it...what went

7 on...and there was apparently a flight. [REDACTED]

8 [REDACTED] And then I think there had been

9 a news story there about an airplane going to Tabriz and all

10 that, so I obviously knew something was going on but it didn't

11 enter my mind that it was one of our aircraft. It entered my

12 mind in a pure speculation -- I wonder what this has to do with

13 the deal that may be going on, so I assumed it might be some

14 airplane that might be involved with Secord or somebody that had

15 some Central American connection. But it didn't occur to me that

16 we had...

17 Q When did it actually come to your attention that the CIA

18 proprietary had been used?

19 A I think it was a week or ten days after, maybe early

20 December I think it was.

21 Q When did you learn the cargo of the flight that was made by

22 the proprietary?

23 A I learned, I think, when I learned about the flight I

24 learned that there was a concern to the point that John McMahon

25 had raised hell and said... that the concerns based on the fact

26 that there may have been military supplies, I didn't have any

UNCLASSIFIED

UNCLASSIFIED

62

1 specific knowledge...there had been a flight and it obviously had
2 been some sort of deal with Iran, and that military supplies had
3 been involved, and whether it had been Hawks or TOWs or anything
4 like that I didn't learn until later.

5 Q Has it ever come to your attention that a cable was sent
6 [REDACTED] to CIA Headquarters on the 23 of November relating a
7 meeting between the [REDACTED] and General
8 Secord...that Mr. Copp identified to the [REDACTED] that
9 the cargo was in fact Hawk missiles?

10 A I think that only came up, or came to my attention within
11 the last couple months, since I've been A.D.O.Oed...In the course
12 of the investigation and the independent counsel and all that.

13 Q Have you ever seen that cable?

14 A No. I have not seen that cable. I have heard talk about it,
15 and I may have seen some of the I.D. notes on the interview
16 involving [REDACTED] but the cable I did not
17 know.

18 Q Do you have any knowledge that the cable does or does not
19 exist somewhere in the records of the CIA at the present time?

20 A No, I do not. I know there was cable traffic...I am not sure
21 what you mean by THE cable.

22 Q There is A cable that were looking for.....Were you aware in
23 late November that Mr. McMahon felt a finding was required
24 because of this flight...a presidential finding?

25 A Either late November or early December, simultaneously with
26 the fact of the flight...In fact it came to my attention because

UNCLASSIFIED

UNCLASSIFIED

63

1 John McMahon had said, "Be careful...no airplanes, no nothing
2 unless we have a finding..."...that context...he didn't say that to
3 me, but I believe he said that.

4 Q Do you have any knowledge of who McMahon assigned the task
5 of checking with the White House periodically to determine if a
6 finding had been assigned?

7 A No I do not.

8 Q And you don't know what if any responsibilities either
9 Charles Allen or Dewey Clarridge had in that regard?

10 A No.

11 Q Let me show you a memorandum dated November 28, 1985 from
12 Mr. Casey to Vice Admiral Poindexter, enclosing a proposed
13 finding which approves of the Marcus Allen exhibit 10. I ask
14 that you look at that and tell me if you have ever seen that
15 document before.

16 A No.

17 Q You have therefore had no role in drafting the language or
18 suggesting the language to be used for this finding...the concept
19 behind it...the rest of it was not your balliwick?

20 A Absolutely not.

21 Q Do you remember attending a meeting in Mr. McMahon's office
22 on the 5th of December in which among other things the Iran
23 initiative was outlined and the November flight was discussed?

24 A I don't recall that. It's possible. As I say I learned
25 about the flight in very late November or early December. It is
26 conceivable that I could have attended the meeting, because I

UNCLASSIFIED

UNCLASSIFIED

84

1 would have understood the context of it.

2 Q Let's see if I can refresh your recollection. Let me show
3 you a memorandum that was done November 28, 1986 by [REDACTED]
4 reconstructing notes that Mr. McMahon made of a December 5, 1985
5 meeting held at his office amongst yourself, Mr. Gates, Mr.
6 McMahon, [REDACTED] Mr. Juchniewicz and [REDACTED] Let me
7 have this document marked as exhibit 3, is that where we are?
8 I'd like you to take a few minutes to read it, because I'd like
9 to see if it would refresh your recollection at all on what
10 happened at that meeting.

11 A [REDACTED]

12 [REDACTED] Paul several things, I've been reflecting back on the
13 situation and I was thinking a little later than this, I knew I
14 heard about the flight, then I knew that John talked to us,
15 talked to me, about the meeting that was taking place at the
16 White House on the question of the initiative with the Israeli's
17 and the Iranians and I... [too soft to make out]...I have
18 difficulty in recalling this specific meeting but all of the
19 facts that are mentioned, most of the facts that are mentioned in
20 there I recall. But I don't remember this about the President
21 signing a Finding.

22 Q Well, that was question number one on the list. You don't
23 recall that being discussed?

24 A No.

25 Q You don't recall who discussed it, I guess is even more
26 important, who raised the point?

UNCLASSIFIED

UNCLASSIFIED

65

1 A I sure don't. I know the whole context was that if we were
2 to play any role and do something, there would have to be a
3 Finding, but I don't remember anything about a Finding
4 authorizing us to do things...they talk here about Oliver North
5 arranging five plane loads and a lot of this meeting was to get
6 intelligence, I think so John would be prepared when he went to
7 the meeting on the 7th and you know, with facts. So that claims
8 by the Israeli's or others might be met with facts. But I do not
9 recall that bit about the Finding.

10 Q Now, I'm going to show you this document in a moment. On
11 December 7th, 1985, Mr. McMahon wrote another memo, a memo for
12 the record, and he said that "after repeated calls to NSC
13 personnel on 27 November, and during the week of 2 December,
14 continuously receiving reassurances of the President's intent to
15 sign the Finding, we were notified on 5 December that indeed the
16 Finding was signed. The President directed us not to inform
17 Congress for reasons of the safety and secure release of the
18 hostages until he so directed." December 7, 1985. Have you any
19 further recollection of what you all knew about a Finding you
20 sent to the President?

21 A I didn't know anything about a Finding. The first I heard
22 about a Finding was later in January. The first time I recall
23 hearing about a Finding.

24 Q At no time since these events have you or Mr. McMahon had
25 occasion to discuss what caused him to believe a Finding had
26 been signed in December.

UNCLASSIFIED

88

- 1 A John had gone to Lt. Aldridge, I've seen him a couple of
2 times you know, we've been back to testify in town, but I've
3 never talked with him.
- 4 Q Okay. If I could borrow that memo back, I'd like to ask a
5 couple of questions. What took place at this December 5, 1985
6 meeting. The second bullet indicates that Mr. McMahon said that
7 he was going to be attending a meeting on 7 December, with the
8 President discussing the Israeli/Iranian Initiative. He says
9 that a new "Private Interlocutor was working with Israeli foreign
10 Ministry official David Kimche." Do you recall who the identity
11 of that private interlocutor was?
- 12 A No. I could make an assumption based on what I learned
13 later.
- 14 Q I understand that. Do you recall Manucher Ghorbanifar's
15 name coming up in the context of this meeting, in early December?
16 ([REDACTED] apparently shakes head, No.) Did not come up?
- 17 A I don't recall it coming up.
- 18 Q Do you recall Ledeen's name coming up at this meeting?
- 19 A No, No.
- 20 Q Were you aware that the day before, December 4, Dewey
21 Claridge and Charles Allen, met with Mr. Ledeen at length to go
22 through the Ghorbanifar Initiative?
- 23 A No. The first I heard of Ledeen was a little bit later when
24 he came up with some terrorist information and other information
25 and we got into it in the N.E. division.
- 26 Q Mr. Allen and Claridge did not keep you apprised that they

UNCLASSIFIED

UNCLASSIFIED

67

1 met with Ledeem in late November, met again with him on December
2 4, to discuss Ghorbanifar.

3 A No, absolutely not.

4 Q Do you recall [REDACTED] do you recall him apprising you
5 all of what the cargo of the plane was that had flown on November
6 23rd?

A 7 I remember him mentioning something but, you know, I don't think
8 I focused that much. I knew it was weapons, or you know,
9 military goods, but I don't remember specifically what he said.

10 Q Well, let me just pursue that a tad further. Apparently
11 there was discussion at this meeting of North's plan to send
12 perhaps as many as five more plane loads including 747's with
13 weapons to Tehran. Do you recall that discussion at all, what
14 the program was?

15 Q No. I don't. I mean it may well have been that. I mean it
16 was sort of at times Col. North tended to over dramatize if not
17 exaggerate things sort of, "get all this done and we're gonna
18 send five airplanes and get out seven hostages," and that sort of
19 thing. So I'm not sure I would have accepted at its face value
20 that yea, that's really going to happen in the next couple of
21 weeks even had [REDACTED] said it having heard it from the White
22 House.

23 Q The reason I'm focusing on it, is because insofar as you all
24 were going to be backing up Col. North on that program given
25 McMahon's position that you all knew the Presidential Finding,
26 suggests to me that there must have been some discussion with the

UNCLASSIFIED

UNCLASSIFIED

68

- 1 Finding in place at this time, otherwise McMahon wouldn't have
2 had you all helping out Col. North.
- 3 A Well as I tell you my recollection at this meeting is that
4 it is primarily for John to get himself up to speed; we had the
5 DI people involved in this and Bob Gates and his deputy for the
6 Near East area, [REDACTED] myself; that it was to get himself
7 armed with facts, facts and figures to go to this meeting to talk
8 about what ever was going to be done, but I do not recall him
9 mentioning a Finding or a specific role of CIA. The reference
10 there is right I think that [REDACTED] or somebody said well if Ollie's
11 going to get these airplanes then--
- 12 Q Let me add one other fact to the mix--we know from cables
13 that we reviewed that there was a lot of cable traffic during
14 this period of time trying to arrange for overflights in various
15 countries, [REDACTED] and the like--
- 16 A You mean through our channels?
- 17 Q Yes. Through the CIA. Seems to have been done primarily
18 out of Clarridge's shop. I'm just curious why you all weren't
19 playing a role, if you weren't.
- 20 A Well I've always, I mean I've reflected on that since the
21 time. It started out there was a flight to go from [REDACTED] and
22 there was a question getting clearances and that's [REDACTED]
23 [REDACTED] didn't really impact on the Middle East
24 and sort of started out from there and why it continued that way,
25 I don't know.
- 26 Q Coming at it from another angle, were you aware that of the

UNCLASSIFIED

UNCLASSIFIED

69

1 fact that the CIA was indeed trying to obtain clearances for
2 these succeeding flights in early December?

3 A I don't recall being aware of that, no.

4 Q I'm trying to stir recollections which would suggest that
5 you would have known the Finding. But no such--

6 A It's going [REDACTED] that doesn't cover any
7 anyway, so--

8 Q I understand--

9 A There's no reason for me to be aware of that.

10 Q It was landing in Tehran though, it's under your turf, isn't
11 that right?

12 A It does, but it gets on to my turf, but I wouldn't be
13 involved the clearances of the flight clearances.

14 Q Okay. Alright. There is a reference in this collection
15 notes again going to the interlocutor that I have trouble with,
16 its key players were Kimche and the private U.S. citizen
17 interlocutor. Any further recollection of who that might be?

18 A Other than my later assumption; this would have been Ledeen.

19 Q Yes. But in terms of a specific recall of him being
20 discussed?

21 A No, not then. The first time I heard Ledeen's name was
22 later. It up around the 20th or 21st of December, as I recall.

23 Q Do you recollect what assignment, if any, any division was
24 given to get McMahon up to speed for this meeting with the
25 President?

26 A I think it was sort tracks on the Iranian political

UNCLASSIFIED

UNCLASSIFIED

70

1 situation, you know the moderates, the Mullahs, the middle-of-
2 the-roads, identities of the people in the hierarchy who had
3 political clout, etc., etc., that sort of thing. And we would
4 have worked with [REDACTED] and his people on that, and if we had
5 something to add, you know from the intelligence hierarchy or
6 some reporting that fleshed out with the DI might, we
7 probably would put it together and given it to him. I don't
8 recall the product.

9 Q Do you recall McMahon expressing anything about his view of
10 the merit of this initiative, at this meeting prior to meeting
11 with the President?

12 A I recall, I don't recall when he expressed it; I think I
13 know what his attitude was, and I know what my attitude was at
14 the time, and I think he thought it was sort of a cockamamie
15 scheme.

16 Q Was that a view that you shared?

17 A Yeah. Well I thought, I began to think that it was really
18 cockamamie when I got Ghorbanifar's circus from Ledeen, and all
19 this stuff. Before that, when I heard this Israelis and, I mean
20 I thought it was you know not my bailiwick, political-diplomatic
21 decisions, but that it was a politically, you know when you've
22 been very careful walking a careful trail not to pay ransom, not
23 to deal with terrorists, even though you weren't dealing with the
24 terrorists, you were dealing with the Iranians, and it was a
25 politically-charged dynamite, but you know I said something to
26 Bill Casey...is this really what people want to do? And--

UNCLASSIFIED

UNCLASSIFIED

71

1 Q When would you have had that conversation, roughly.

2 A Roughly in December or January, I suppose.

3 Q Was this a one on one session, or in passing along the hall,
4 or what?

5 A It was probably at the conclusion of one of the meetings
6 that I had with him when we sent [REDACTED] to talk with Ledeen.
7 I don't remember exactly. But on the other hand, if it were
8 something that could be done quickly and really have an impact on
9 U.S. - Iranian relations and get the hostages out, may be, cause
10 the results of the potential for them may be
11 Q Were you aware that Charlie Allen was preparing a memorandum
12 on the political situation in Iran at the same time?

13 A I don't recall.

14 Q You don't remember McMahon saying to Charlie Allen you've
15 need to give me a briefing on Iranian politics?

16 A No, I don't recall that.

17 Q You don't recall anybody saying why Charlie Allen, NIO
18 Counterterrorism was doing this as opposed to the NIO for Near
19 East, South-Asia or [REDACTED] office?

20 A Well Charlie Allen's a man who fills a vacuum...I mean he
21 was still in terrorism quite legitimately and ...terrorism, Iran
22 was certainly a country that had been involved in state-supported
23 terrorism, and so I wouldn't have found it unnatural that Charlie
24 was sort of in his way dug up a lot of facts about Iranor
25 in the process of preparing.....

26 Q Clarridge was out of the country on the 5th of December

UNCLASSIFIED

UNCLASSIFIED

72

1 which is why his deputy attended this meeting. So was Mr. Casey.

2 Do you know if they were out of the country at the same location?

3 A No, I don't recall.....

4 Q Mr. McFarlane and Colonel North met with Mr. Ghorbanifar in

5 London immediately after the meeting of December 7th. Did you

6 know that was taking place at the time it took place?

7 A Not at the time it took place.

8 Q When would you have learned that?

9 A I think I heard about that, I learned, in fact I learned

10 more about what had gone on from Michael Ledeen's revelations to

11 [REDACTED] in their first meeting that I had known. I mean that

12 provided then a very good framework for all these facts. I

13 learned it all from Ledeen. Ledeen told [REDACTED] all that 3 or 4

14 days before Christmas, including the fact that he had been in

15 touch with Ghorbanifar and Ledeen was the promoter for

16 Ghorbanifar.

17 Q Now let me show you Mr. Allen's memo dated December 18,

18 1986, of his meeting with Mr. Ledeen on December 4. Did I say

19 December 18, 1986? December 18, 1985, of his meeting on

20 December 4, 1985 with Mr. Ledeen. Ask you to look at it and tell

21 me if you've ever seen that memorandum before.

22 A Probably did see this. I can't say for sure, but I think it

23 was you know when Ledeen had proposed the day they had this scam

24 it might work against Khaddafi, and which was a cockamamie sort

25 of thing, a sting operation [REDACTED] and

26 Khaddafi, and even Khaddafi isn't dumb enough to fall for it a

1 second, well he might, but not a bird (laughter) so I heard about
2 that and it was about this time that either Claire^t or Claire^t and
3 Casey, or maybe just Casey, I don't remember talking to us about
4 taking a look at this guy Ghorbanifar's information well first
5 talking to Ledeen and leaving Ghorbanifar. Because we had had
6 experiences with us; he sure had and so I may have in the course
7 of being briefed on here's the situation, I may have been handed
8 this memo. I don't recall it. But I'm certainly familiar with
9 most of the facts in this. Yeah. Either out of here or from
10 Ledeen's conversation with [REDACTED]

11 Q Has that document been marked? I don't think so. Let's
12 have it back and mark it.

13 A [Mumbling, typist can't distinguish]

14 Q Memorandum does make reference to a 1984 effort by Ledeen to
15 get McFarlane to open up contact with Iran. Did you have any
16 knowledge of the 1984 effort that McFarlane made to open contact
17 with Iran?

18 A No.

19 Q Did you ever explore that point either with Mr. Allen, Mr.
20 Clarridge, or someone else who had talked with Mr. Ledeen?

21 A No, no I don't think I did.

22 Q Reference to that memorandum to one of the schemes, which is
23 a suggestion by Ledeen as we read about Mr. Allen. That had been
24 discussed with Colonel North. Did you have occasion to discuss
25 these matters with Colonel North in the early December period
26 times?

74

1 A No, No.

2 Q Indicated in terms of Mr. Ghorbanifar, as I understood your

- 8 A No, it's quite possible.
- 9 Q Do you know if [REDACTED] ever did that when he carried out the

- 12 A Right at this time, I don't know. I know that Colonel North

- 15 Q How about in early November?

- 19 Q One of the concerns I have is Mr. McFarlane, as you probably

MEMORANDUM FOR: Chief, Near East Division, DO
FROM: Director of Central Intelligence
SUBJECT: Release of Hostages

1. John Shaheen

2. Shaheen received a call from a Dr. Cyrus Hashemi who is currently in Hamburg at the Hilton Hotel in Room 703. Hashemi has tried to get in touch with us before offering to put us in touch with leading figures in the Iranian Government. When we learned that Hashemi is under investigation for violations of export control laws, we pulled away.

3. His recent call to Shaheen offered a change in Iranian policy (or information about a change in policy) that he could provide if the American Government would be able to get him a nolle prosequi -- in short, if we are able to take the pending indictment for conviction off his back. Shaheen said that he had no power to do that but then asked whether Hashemi's contacts with the Iranian government were good enough to spring the hostages if he could be gotten off the hook. Shaheen did this knowing that there have been occasions where nolle prosequis had been arranged for high national security considerations. What he was doing was feeling out Hashemi to see what kind of a reaction he would get. Hashemi said he would call back and in two hours he was back on the phone having, he said, talked to the [redacted]. He came back asking for the release of the DAWA hostages, plus TOW weapons, plus his nolle prosequi. Shaheen dismissed this saying no weapons, no DAWA prisoners. Then again, to feel him out, said, although I can't speak for the US Government, I understand that it will not negotiate with terrorists, and you might be able to get some Italian medical supplies or something like that [redacted].

Again Hashemi said he would check and called back within a couple of hours claiming that he had talked again to [redacted] and that they weren't interested in Italian medical supplies but they were willing to have a high ranking representative from Tehran [redacted] as early as Wednesday or Thursday of the coming week. He would have an agenda of what they were interested in [redacted].

5. Dr. Hashemi claims to be in touch with [REDACTED] and says he knows about a recent attempt by George Bush's brother, [REDACTED] together with a man named Shekeleh (no further identification) to contact the Iranians on this. Shaheen claims that he has made it clear that he can't do it for anything, that the US Government does not deal with terrorists, that if there is a meeting [REDACTED] nothing at all could be agreed upon in advance, that it would be up to the Iranians to tempt the [REDACTED] with an offer which [REDACTED] might be able to work out.

6. This should probably be taken up with Dick Murphy to see whether it is ready under the circumstances to see if [REDACTED] would be willing to listen to whatever proposition the Iranians might have in mind bringing [REDACTED] and to listen to whatever surrounding information might be available.

7. I ran into Rick Burt last night and discuss this with him. He thought that it was interesting and indicated that there had been recent knowledge that a nolle prosequi had been arranged and said he would talk to Dick Murphy about it. I think we might touch base with the Assistant Secretary of State for International Organizations as well as with Murphy and in doing so tell Dick about Burt's reaction. I suggest that he might want to check with Burt.

TO: P - Mr. Arneson
FROM: DIA - Richard W. Murphy
SUBJECT: Possible Iranian Contact Via Cyrus Mshenzi

ISSUE FOR DECISION

Whether to pursue a meeting brokered by Cyrus Mshenzi to discuss "hostages" with an Iranian official.

ESSENTIAL FACTORS

You will recall our earlier discussions on the Cyrus Mshenzi case, about which Elliot Richardson had called you. Mshenzi, who is living in West Germany, has now reentered the scene and has contacted a friend of Bill Casey's, with an offer to bring forward an Iranian official to discuss "U.S. hostages" in return for lifting a U.S. indictment for 1979-82 arms trading now outstanding against Mshenzi (see attached CIA report which [redacted] gave us). Justice has no interest at this time in releasing Mshenzi from the indictment (although it would be difficult to extradite him and he cannot be prosecuted unless he enters the U.S.) and we do not want to take any action which might prejudice Justice's case against him.

While the chance may be slim that Mshenzi can deliver an appropriately senior Iranian for a Suez meeting next week, as he has undertaken, we would nevertheless not want to pass up an opportunity to talk with an appropriate Iranian official about the hostages. (In this case we presume he is talking about the seven hostages who have been held for lengthy periods by Iranian-affiliated groups in Lebanon). Mshenzi has a clear record.

[redacted] But he does appear to have some top contacts in the Iranian hierarchy.

I consulted urgently with Justice on June 20 to ascertain its reaction to the Mshenzi proposal. We had suggested that an OIA official would meet with Mshenzi and the official from TAMRA since we do not want to jeopardize the case against the former. We suggested that we could ask the [redacted] to send

a professional to listen to the Iranian representative next week.

Justice reports that Justice, taking into consideration the current hostage crisis, felt that we could go ahead with the Bushart-arranged contact next week. Justice understands that we would be in a listening mode and would undertake no discussion which could be construed as negotiation with Bushart. Justice also thought that if we could not identify a third country official to do the job that we could send a U.S. citizen, including possibly a USG employee, but would prefer we not be directly involved in discussion with Bushart.

Although we would prefer not to deal, even indirectly with Bushart, and the chances for a successful meeting are slim, on balance, we believe we should go ahead using a [redacted] representative. We would be very clear that he would not have any authority to negotiate on behalf of the US with the Iranian representative and would basically be there to listen. Once we have the results of the discussion, we can decide how to proceed.

We will keep the close touch with the [redacted] front office if we decide to go ahead.

Finally, Bill Casey is very anxious to move ahead on this proposal. I suggest you call him to say we are urgently working on the issue and will be back to him as soon as possible. We have passed the case message to [redacted] (L/and/US)

RECOMMENDATION:
That you authorize SA to explore the possibility of a meeting in Rome of a third country diplomat with an Iranian official.

MEMORANDUM FOR THE RECORD

The following is a reconstruction of cryptic notes that I have from a 5 December 1985 meeting in DDCI John N. McManch's Office with then DCI, Bob Gates; D/NESA, [redacted] then ADDO, Ed Juchniewicz; then C/NE Division, [redacted] and I believe then DC/Europe [redacted]

- o The DDCI requested facts on the following by the next day:

- The political scene in Iran, including any possible dissension, unrest, etc;

- Biography of [redacted]

- Verification [redacted]

- Was it true that Iran was trying to get U.S. Hawk missiles to knock out Soviet Bear aircraft over the Iran/Iraq border.

- The status of the Iran/Iraq war, including a prognosis of what each might do and a table reflecting an order of battle for each side.

- o DDCI noted that he would be attending a meeting at 10:00 AM on Saturday, 7 December, with the President regarding the expansion of the informal link between the Iranians and the Israelis;

- He noted that a new "private interlocutor" was working with Israeli Foreign Ministry Official David Kimche;

- Noted that Iran wanted to get closer to the United States and wondered (DDCI) whether this could be a ruse to get Hawk missiles.

- o DDCI noted that Saturday's meeting would take stock of the two-track program now under way: one to free the hostages and the other to expand our ties with Iran. Meetings were planned in Geneva between the United States and Iran in the short term.

- o [redacted] reviewed what had been done so far:
 - One plane load had been sent to the Iranians on 24 November; we did not know if that included Hawk missiles;
 - Oliver North was to get to London that weekend for discussions; the following week he was arranging up to five plane loads, including 747s;
 - These would probably overfly [redacted] going from Israel to [redacted] to Iran;
 - President signed the finding; *(I am not certain who at the meeting actually said this)*
 - Oliver North was lining up the planes; we don't know how.
- o In response to a question about a clearance for the landing rights, someone noted that [redacted] were standing by;
- o A question was raised regarding a plane going to Iran from Jerusalem and possibly stopping in Texas; [redacted] No further information was available.
- o A review of recent Iranian reporting noted the following:
 - No real opposition that we could capitalize on;
 - Khomeini seemed to be in better health;
 - The economic situation was deteriorating;
 - The possibility of a new major offensive could stimulate opposition within Iran;
 - Key players were Kimche and the private U.S. citizen-interlocutor.
 - Weir released for one plane load; got nothing for second load. [redacted]
 - DDCI requested that the source of this information be checked.
- o DDCI also requested any intelligence coverage [redacted]

... had also far spent [redacted] for a total of [redacted] on

7 EXAMINATION ON BEHALF OF THE SENATE COMMITTEE

8 BY MR. SMILJANICH:

9 Q Mr. Secretary, you are currently the Secretary
10 of the Treasury; is that correct?

11 A Right.

12 Q And you have served as Secretary of the
13 Treasury since when?

14 A Since roughly February 3, 1985.

15 Q And prior to that you served as Chief of Staff
16 to the President?

17 A That's correct, from January 20, 1981.

18 Q Up to the time you were confirmed as Secretary
19 of the Treasury?20 A Up to the February 3 date, if I'm not
21 mistaken. It may have been February 1, but I think it
22 was February 3.23 Q During the late summer of 1981 when you were
24 serving as Chief of Staff did you become aware of a
25 specific program which was termed **UNCLASSIFIED**

5

6 A I don't have any specific recollection of
7 that, although it might well have come up in connection
8 with a meeting I attended, but I don't specifically
9 recall it today.

10 Q Putting aside the name of the operation for a
11 minute, do you recall any such activity at that time or
12 discussions concerning the possibility of 

13

14 A I don't have a specific recollection of any
15 such discussions.

16 Q Pursuant to that program sometime in either
17 late 1983 or early 1984 the 

18

19

20

21  Did you have any knowledge
22 of those matters?

23 A As we sit here today I don't have any specific
24 recollection of that, but, as I said, I attended most NSC
25 meetings and of course I attended morning briefings with

UNCLASSIFIED

UNCLASSIFIED

6

1 the President, and I can't tell you that the matter was
2 not discussed in a meeting that I attended. I don't
3 recall it.

4 Q In the summer of 1984 there is some indication
5 that there was an NSPG meeting at which the possibility
6 of third country solicitation was discussed in connection
7 with the Nicaraguan resistance. Do you recall an NSPG
8 meeting at or about that time in which that topic was
9 discussed?

10 A I recall an NSPG meeting which I thought was
11 in the fall of '84, which was held before the Boland
12 Amendment became effective to discuss the possibility of
13 third country funding for the contras.

14 Q And who do you recall being present
15 specifically at that meeting?

16 A Well, I specifically recall that Mr. McFarlane
17 chaired the meeting as the National Security Advisor.
18 The President was in attendance. The Secretary of State
19 was there. And those are the only people that I
20 specifically recall being there, although -- well, those
21 are the only people I specifically recall being there.

22 Q Do you recall that the possibility of third
23 country funding was the primary focus on that NSPG
24 meeting?

25 A As I recall it, it was.

UNCLASSIFIED

TOP SECRET
UNCLASSIFIED

7

1 Q This was a full-fledged NSPG meeting and
2 discussion of the matter?

3 A Yes, it was.

4 Q Do you recall whether or not any action was
5 taken pursuant to that discussion?

6 A I do not believe any action was taken.

7 Q Do you recall the question of the legality of
8 such third country solicitation being discussed?

9 A Yes.

10 Q What was your position at that time with
11 regard to the legality of the matter?

12 A My view was that we should take a very close
13 look at that question and I so stated in the meeting.
14 And it was my view that we could not do indirectly what
15 we could not do directly. My recollection is that a
16 similar reservation was expressed by Secretary Shultz,
17 that the meeting generally concluded with a decision to
18 take a hard look at the legality of third country
19 solicitations.

20 Q Do you recall what the position of Mr.
21 McFarlane was?

22 A Well, I think Mr. McFarlane indicated at one
23 point that the NSC considered that such solicitations
24 were legal but, as I recall it, the general view was that
25 before there was any further action there should be

TOP SECRET
UNCLASSIFIED

UNCLASSIFIED

8

1 another scrub on that question.

2 Q Was it decided that the Attorney General
3 specifically should take a look at the legalities of that
4 matter?

5 A I can't recall that, and frankly I don't even
6 recall whether the Attorney General was in attendance at
7 this particular meeting.

8 Q Do you recall whether or not the closer look
9 at the situation was going to be done by the Attorney
10 General's office as opposed to NSC legal counsel?

11 A I really don't recall, but it would be my best
12 guess that it would probably have been the Attorney
13 General, since ultimately the Attorney General has to
14 pass on those kind of matters.

15 Q I had indicated to you a while ago that the
16 notes of Charles Hill, who was Secretary Shultz's special
17 assistant or executive assistant, indicate that in a
18 discussion he had with Secretary Shultz on June 28, 1984,
19 Secretary Shultz told him that at a recent NSPG meeting
20 he had had some reservations about the legalities of
21 third country solicitation and stated that your position
22 at the time was "Jim Baker thinks it's an impeachable
23 offense."

24 Do you recall having any specific opinion like
25 that or such as that?

UNCLASSIFIED

UNCLASSIFIED
TOP SECRET

1 A No, I don't recall using that language or
2 having a specific opinion such as that, although I do, as
3 I have stated, recall feeling that we should take a very
4 close look at the question of legality and feeling that
5 we could not do indirectly what we couldn't do directly.

6 Q Would it be fair to say that your position at
7 that time was that there was, in your opinion, a very
8 good chance that such activity would be illegal under the
9 current state of the law?

10 A Well, I hadn't examined the law and I was not
11 in a position to pass judgment on it, but I felt that it
12 was important that it be looked at carefully and that it
13 was important, quite frankly, from a political standpoint
14 as well in terms of public support and that sort of
15 thing.

16 Q Did you have, at that time -- let me just ask
17 you what was your position with regard to the policy of
18 third country solicitation, putting aside the legality of
19 it for a moment? Did you have an opinion?

20 A Well, I strongly supported the contra -- did
21 and do strongly support the contra effort. I did not
22 really have a specific opinion with respect to the
23 question of third country solicitation as long as there
24 was no question of illegality apart from the public
25 relations and public support and Congressional support

1 aspect.

2 Q Do you recall whether or not the President had
3 or expressed an opinion at that meeting about either the
4 policy or the legality of third country solicitation?

5 A I don't recall whether the President expressed
6 an opinion, but the meeting, as I indicated earlier, I
7 think ended in a decision to take a close look at the
8 question of the legality of third country solicitations.

9 Q I've shown you earlier minutes of an NSPG
10 meeting for May 16, 1986, during which time the subject
11 was again discussed. Do you recall that particular NSPG
12 meeting at which you were in attendance?

13 A Well, I do now that I've seen the minutes.

14 Q And at that meeting some further discussion
15 was held about the possibility of approaching third
16 countries for support for the contras; is that correct?

17 A That's correct.

18 Q At that point there was a change in the law
19 with regard to whether or not such activity was
20 specifically addressed as being appropriate or not by
21 Congress; is that correct?

22 A That's correct. Evidently Congress
23 specifically provided for third country solicitation for
24 humanitarian assistance.

25 Q Having read the minutes, did you recall

UNCLASSIFIED

UNCLASSIFIED

11

1 anything beyond what's contained in the minutes with
2 regard to the positions of the various people in
3 attendance on that issue?

4 A No.

5 Q What was your position on that matter at that
6 time?

7 A Well, to be very honest with you, I'd have to
8 reconstruct my position from the minutes, and my position
9 was that it was important that we do what we could to
10 sustain the contras as a viable force during the
11 implementation of any Contadora agreement, and I see here
12 where I said that it would appear that Congress had
13 changed the law with respect to the question of our
14 approaching other governments for assistance.

15 MR. MC GRATH: At this point it might be
16 appropriate to mark the minutes as an Exhibit.

17 MR. SMILJANICH: Sure, why don't we do that?

18 (The document referred to was
19 marked Baker Exhibit Number 1
20 for identification.)

21 BY MR. SMILJANICH: (Resuming)

22 Q Mr. Secretary, Assistant Secretary Elliott
23 Abrams has referred to this whole subject of third
24 country solicitation as "tin cup diplomacy", and I
25 believe Secretary Shultz has also expressed a general

1 dislike for this as a policy matter. Did you have any
2 opinions one way or another with regard to the overall
3 policy concerning third country solicitation?

4 A No. I suppose my view would comport with
5 theirs, that it would be far better for the policy to be
6 supported by the legislative branch of government and for
7 the funding to come from appropriations.

8 Q Did you have or do you have at this time an
9 opinion with regard to whether or not third country
10 solicitations will always give rise to a question of quid
11 pro quos, in connection with any contributions?

12 A I didn't have an opinion then. I was not
13 really involved in the business of third country
14 solicitations. That wasn't my responsibility, and I
15 didn't do any of it.

16 Q Okay. In the summer of 1984 the evidence is
17 that money began to arrive on behalf of the contras from
18 [REDACTED] sources. Did you have any knowledge, starting in
19 the summer of 1984, that [REDACTED] were making any
20 contributions directly for the contra effort?

20 recall or were you aware of any other planning to prepare
21 for the impending cutoff of aid for the contras via the
22 Boland II amendment?

23 A I don't recall being aware of any. I just
24 simply don't recall it. I can't tell you that there were
25 not discussions involving private assistance and that

UNCLASSIFIED

1 sort of thing, but I don't recall those and I didn't, the
2 best I recollect, attend any meetings called for that
3 purpose.

4 Q Do you recall any discussions concerning the
5 involvement of the National Security Council staff on
6 behalf of the contras to fill the breach created by the
7 cutoff of funds to the CIA and Department of Defense?

8 A No. The only thing I recall involving the
9 National Security Council staff would be the public
10 liaison activities where we would have briefings in the
11 Executive Office Building designed to build public
12 support for the contra policy. Those went back to, I
13 would imagine, the end of '82, start of '83. And those
14 were held by the public liaison people in the White
15 House, not the National Security Council, but they would
16 have National Security Council staffers brief
17 occasionally the diplomatic and military situation.

18 Q But this was all in connection with a public
19 diplomacy --

20 A Public diplomacy effort. It was basically run
21 by Faith Whittlesey's shop in the White House.

22 Q Okay, one last area. Were you aware during
23 your tenure as Secretary of the Treasury, starting in the
24 spring or summer of 1985, up through November of 1986, of
25 any activities on behalf of the United States which have

UNCLASSIFIED

15

1 come to be known as the Iran initiative -- in other
2 words, the whole matter involving trading of TOW missiles
3 or HAWK spare parts to Iran in an attempt to get our
4 hostages in Lebanon released?

5 A No.

6 Q Anything with regard to our cooperation with
7 the government of Israel in connection with this
8 provision of military supplies or equipment to Iran in
9 connection with getting our hostages released in Lebanon?

10 A During 1985 and '86?

11 Q In '85 and '86 specifically.

12 A Not that I recall, no.

13 Q You had no knowledge or awareness of the
14 matters which have come to be known as the Iran arms-for-
15 hostage deal? You had no knowledge of it at the time?

16 A I had no knowledge. I had no knowledge of any
17 dealing with Iran of arms for the release of our
18 hostages, no.

19 Q What about dealing in arms with Iran in
20 connection with the opening up of a new strategic
21 relationship with Iran?

22 A No.

23 Q You were not aware of Mr. McFarlane's visit to
24 Tehran in May of 1986?

25 A No, I was not.

UNCLASSIFIED

16

1 MR. SMILJANICH: Thank you, Mr. Secretary.

2 That's all the questions I have.

3 MR. MC GRATH: I would just like to let the
4 record reflect that the Secretary appeared here
5 voluntarily today to cooperate with the Committee and its
6 investigation and that these proceedings will be
7 classified at a minimum of the Top Secret level. We
8 appreciate the Committee's assistance.

9 MR. SMILJANICH: And we appreciate the

Whereupon,

PETER G. BURBULES

was called as a witness and, having been first duly sworn,
was examined and testified as follows:

EXAMINATION

BY MR. SAXON:

Q Will you state your name for the record, please,
sir.

A Peter George Burbules, Lieutenant General,
United States Army.

Q And what is your current position, General
Burbules?

A Deputy Commanding General for Material Readiness,
United States Army Materiel Command, Alexandria, Virginia.

Q And when did you assume your position at the
Army Materiel Command?

A I assumed my position, I believe, on the 1st of
June 1985.

Q '86?

A Yes, '86. Yes, you're right.

Q And prior to that, sir, what was your position?

UNCLASSIFIED

UNCLASSIFIED
SECRET

A I was Commanding General, Missile Command, Huntsville, Alabama, Redstone Arsenal.

Q And what were your dates of service at MICOM, if you recall?

A It's approximately from May of '85 to late May 1986.

Q Sir, as you know, the area of our inquiry that concerns you has to do with the shipments to TOW missiles that took place from Anniston Army Depot through MICOM in 1986. There were three shipments. The first shipment took place in February, while you were still at MICOM; the second shipment was taking place about the time you were leaving, and the third shipment took place in November, after you were in your current position at AMC.

Then the HAWK shipment tasking came down in early April and was being worked through the month of April of 1986.

Those will be the two things we will focus on.

In a previous meeting with you on June 2, 1987, Roger Kreuzer, a House Staff Investigator, and I met with you. We covered a fair amount of ground which we have put in an interview memorandum which is available for subsequent

UNCLASSIFIED

UNCLASSIFIED

readers of this deposition, so I'm not going to take the time to cover all of the material in that memorandum, and that was the subject of our earlier discussion, where you were, on what day and who said what to whom.

In terms of the general picture, what we want to do, specifically, is to focus on the pricing questions which attended the first TOW shipment and then some questions about the HAWKS.

Let me ask you, sir, when you became aware that there was a tasking to MICOM to ship TOW missiles to, at the time its customer was CIA.

A As I mentioned to you before, I became aware when Colonel Jim Lincoln, Project Manager for the TOW missile system, came in my office and told me that there was a classified movement under way and that he had concerns about the price that was to be charged on it. He felt that the Army was going to charge too low of a price, and I believe he asked my advice and asked for my support.

Q All right. Let me fill in one or two things, sir.

When he came to you, this was after he had already received the requirement and had begun work; is that

UNCLASSIFIED

UNCLASSIFIED

correct?

A Apparently so. How long after, I don't know.

Q And in fact, Colonel Lincoln had been told by his point of contact here in Washington, at DA Headquarters, that he should not inform you; is that correct, sir?

A I found that out very late. As a matter of fact, earlier this year, 1987.

Q So, while in a technical sense, Colonel Lincoln may have been countermanding the instructions he was given, he had some concerns and, as his commanding officer, he went to you with those concerns?

A Yes. Apparently that's why I was brought into it so late, because of that caution not to, you know, it was highly classified, not to tell anybody, which I have learned since.

Q All right, sir.

 When he came to you, did Colonel Lincoln give you the specifics of the price question that he was concerned about?

A No. Only words to the effect that they're asking us to charge the older price for the missile, whereas the cost to replacing them currently with new missiles would be

UNCLASSIFIED

UNCLASSIFIED

much more, and the Army would end up with fewer missiles in the stockpile.

Q So as best as you recall it, the entire subject for your discussion with Colonel Lincoln had to do with replacement price?

A Right.

Q And for the record, the Army sold to the CIA and subsequently to the Iranians, basic TOW missiles, which were entered in the Army Master Data File or AMDF, at a price of \$3169. They had to have safety modifications, the missile ordnance inhibitor circuit or MOIC -- M-O I C -- in order to bring them up to the condition code alpha, which had been specified by the CIA.

Unbeknownst to certain parties involving these transactions, when the Army realized, in the early '80s, that certain of its basic TOWs had to have the safety modification, MICOM officials created a new national stock number and a new price for the basic TOW that went into the AMDF, which had a MOIC.

Rather than taking \$3169 and adding \$300 and getting \$3469, which seems logical to do, the decision was made, as we have subsequently learned, to add to the entry price of

UNCLASSIFIED

UNCLASSIFIED

\$3169, some inflation in the price for the subsequent purchase of basic TOWS, along with one other factor, having an eye to the cost of conversion, the cost of the MOIC, in order to create a higher price for the basic TOW with MOIC of \$8435. And the price of \$8435 is separate and distinct from the replacement cost of selling a basic TOW and replacing it with, say, TOW-II, at a price of \$11,000.

So if you will follow that analysis, let me ask this question:

When Colonel Lincoln came to you, as I understand your testimony, he was saying, we're selling basic TOWS. We're getting" -- he may not have said \$3469 or \$3500 -- but "we're getting a price in the low range. We're going to have to replace them with I-TOW or TOW-II, and that costs a lot more."

Is that the way he put it to you?

A Yes. Did not discuss any specific dollars. Didn't get into those details. Just the basic concept of original acquisition costs versus replacement costs.

Q Just to make sure, then, that we understand your testimony for the record, he did not talk about the fact that there had been a discovery of a second price for

UNCLASSIFIED

UNCLASSIFIED

the basic TOW with MOIC?

A No, he did not.

Q All right, sir.

And if I understand your testimony, at no time when Colonel Lincoln came to you in his discussion, were specific price amounts discussed.

Is that correct?

A That's correct.

Q Did you have a general knowledge at the time of these transactions and at the time you had a discussion with Colonel Lincoln, that when the Army took a basic TOW and put the MOIC on it, that that changed its national stock number and gave it a new and higher price?

A No, I did not know that. Nor, as I testified to you before, did I know anything about a MOIC, in that I'm not a missile expert. I was sent down there to assist in their procurement programs, and I did not know the details of those missile systems.

Q All right, sir.

I want to ask you for an opinion, and I clearly denominate this question as an opinion question.

In your opinion, from the time you spent at MICOM

UNCLASSIFIED

UNCLASSIFIED

and the many years of service in the Army, should someone who was in a position of being the Project Manager for the TOW Office have been familiar with the details of pricing of the missiles under his control, or are those the kind of details that people working for him would better be expected to know?

A People working for him better understand that, because you have to understand the Project Manager as generally a very small office, and he is supported more or less by the large Commodity Command, the major support command, and all the staff there, and they're the ones that provide the expertise.

For example, he does not have item managers under his control. They work for the Material Management Directorate. He doesn't have any lawyers under his control. They work with the Legal Department. He doesn't have quality assurance specialists, except maybe just one representative. Those work for the Quality Assurance Directorate. So he draws his support from the major Support Command and deals mainly with programmatic issues, you know, costs, scheduling, and technical performance in a broader sense, leaving the details to experts in that area. And it's a very complex business, as you found out, and just think, it would be

UNCLASSIFIED

UNCLASSIFIED

unreasonable to expect the Project Manager to know the details of the individual costs of individual parts of his weapons.

Q What I would like to do now, General, is to show you a few of the documents that create a paper trail on the TOW transfers. I have no reason, necessarily, to expect that you have ever seen these and, in fact, if you haven't, that would not only not surprise us, but probably, given your level, would make perfectly good sense that you have never seen them.

What I would like to do is have marked as Deposition Exhibit 1, and give that to you and give you a chance to look at it, but before you do, let me tell you what you're looking at. You are looking at the Material Release Order or MRO, as it's called, which is a standard MICOM form, that was prepared for each of the three coshipments, and I'll give you a moment to glance at that.

(Burbules Deposition Exhibit 1
identified.)

THE WITNESS: Yes, I think I can answer your question now. I did not see these while I was at the Missile Command. I did not see them in any aspect of my involvement in this affair. I think I saw them when Mr. Mike Sandusky, of our headquarters, was doing his investigation, his

UNCLASSIFIED

UNCLASSIFIED

13

after-the-fact investigation. He tried to assist the Department of Army Inspector General and ourselves in reconstructing the cost history. I think he may have flashed these by me in showing me how he was reconstructing the price history. This is all after-the-fact.

Q What I would like you do is take a look at, while some of this material is second and third and fourth generation copies and some things are blurred, if you would look at the quantity block of the 1000 that lets us know we're looking at the first shipment.

If you look at the National Stock Number block, the last four digits which are 1512, your specialist at MICOM will tell you that 1512 -- that's how they refer to it -- is the shorthand form for the basic TOW with the MOIC. Then if you look at the unit price that's been entered at \$8435, this is the first document that was created when the tasking came down from Washington to MICOM. This document was the basic release order in order for Anniston Army Depot to begin work, and the information on it was flown down from Redstone to Anniston Army Depot, and I understand a hard copy followed.

If you turn the page to the second copy, this is dated 16 May, for the second shipment of 508 TOWS, and

UNCLASSIFIED

UNCLASSIFIED

likewise, the \$8435 price appears therein.

The last page is for the third shipment of 500 TOWS, and it has a price of \$8164, which is different from the \$8435, because of the I-TOW conversion that was done, and that shipment took place after you were gone. But the point from these documents is that someone at MICOM, working in the TOW Project Office, who prepared this Material Release Order clearly knew that a basic TOW with MOIC cost \$8435.

I take it from you saying you haven't seen this, you also were never made aware that that was the price put in the basic work documents at MICOM.

A No, I was not. And I can't even read the signatures, but I see Mr. John Finafrak's name here, and he doesn't work for the Project Manager. He was in the Materiel Management Directorate, as I mentioned to you before. What I'm saying is, that possibly this document was prepared in the Material Management Directorate, not in the TOW Project Office.

Q All right, sir. Let me ask you to look at the second exhibit and ask that be marked.

This was prepared at Anniston Army Depot and, again, there's no reason to believe you would have seen this document,

UNCLASSIFIED

UNCLASSIFIED

but it is the Ammunition Planning Work Sheet.

Let me simply ask you first if you have ever seen, generically, an Ammunition Planning Work Sheet or are familiar with its use.

A No.

(Burbules Deposition Exhibit 2
identified.)

BY MR. SAXON:

Q Sir, if you would look in the quantity block here, you see quantity of 1000. This is for the first shipment of TOWS. The stock number shows the 1512, which means it's a basic TOW with MOIC, and the unit price -- this is all 1000, so you if you do some quick division and drop the zeros, you see the unit price is \$8435.

A That tracks back to the \$8435 that was on the Material Release Order.

Q Yes, sir.

Now, as the folks at Anniston Army Depot then began to work the requirement, they generate the next document in the trail, and that is a standard transfer document which is on DD Form 1348. I'll give you that.

A 21 January or February? I can't read that.

UNCLASSIFIED

UNCLASSIFIED

Q January.

A January. Okay.

Q This is a copy -- and I ask that be marked as Exhibit 3 -- of the first iteration of DD Form 1348, which, as you see, is from Anniston Army Depot to Redstone, and if you look in the quantity block, you see we've got 1000 missiles, and the stock number again is the 1512 or basic TOW with MOIC, and the unit price in the upper right-hand corner is \$8435.

So again, the people at Anniston who were working this apparently knew that a basic TOW with MOIC had that price or had simply taken that price that came down from the MRO.

A I don't know where they get the price, nor do I really know where the people at MICOM got the price, nor do I know that that price is necessarily correct.

Q Well, after the fact, a number of people have concluded that the price is not correct in terms of how it went into the AMDF. At the time, it was the correct price, according to the Army Master Data File for basic TOW MOIC, and having interviewed and deposed the person who prepared that Material Release Order, he said he took that figure not so much from the AMDF, but from his head, because he worked

UNCLASSIFIED

UNCLASSIFIED

with the TOWS all the time and knew that the basic TOW with MOIC had the price of \$8435.

A Again, you say "the correct price," but I believe you're saying it was the correct price, because it was in the AMDF. But because it was in the AMDF does not necessarily mean that it's the correct price. Errors are made.

Q Yes, sir. But my understanding is that no one knew that errors had been made in entering that price and that was the price people worked with.

A Presumed to be the correct price.

Q Yes. I think that's a better way to put it. It's the presumed correct price at the time.

Let me have you look now at the next exhibit and ask that this be marked as Exhibit 4.

(Burbules Deposition Exhibits 3 and 4 identified.)

BY MR. SAXON:

Q This is a series of the same document, and the reason it's a series is, this is for the first shipment of 1000, but each document represents a breakdown of a certain portion of lot of that 1000, and this was signed at MICOM by Mr. Chris Leachman, who at the time was the head of

UNCLASSIFIED

UNCLASSIFIED

logistics for the TOW Project Office. He is now the TOW Project Deputy. And if you look at the unit price block and track that all the way through on all of them, you will see that --

A I don't see a unit price on the top one.

Q That has been left blank, yes, sir.

A I see. What are the dates of these, relative to the dates of the first ones we saw? This is 29 January.

Q Yes, sir; that's correct.

A And the other one is 21 January?

COL WALLACE: Yes, sir.

THE WITNESS: Have you looked into the possibility that the folks may have started to move out on this, because it was a rush shipment, started to move out, assigning prices, and have you looked into the possibility that disputes over prices occurred after these documents had been cut?

MR. SAXON: We have looked into just about every possibility, and I don't mean to be glib about it sir, but to ascertain when the prices entered into the document, when a price disappeared from the documents.

BY MR. SAXON:

Q I guess the thing that strikes us at least curious

UNCLASSIFIED

UNCLASSIFIED

is that in Exhibit 4, we have no price. Not that it isn't \$8435, but that it isn't even \$3469, which is a price that everyone at MICOM says they were working with, in terms of the shipment.

A I think it's a reasonable observation, and you probably have asked why was the price omitted.

I don't know why the price is omitted on this document.

Q And I take it that this would be the first time you have been made aware that when the transfer document gets to MICOM, and Leachman, on behalf of MICOM signs for the TOW, that there is no price in the unit price block?

A No, I'm not aware of those details.

Q All right, sir. The final document is to show you what happens when individuals from the Department of Army Logistics Office, and in particular, Major Chris Simpson, who is the Action Office for this, working under General Russo, Simpson arrives on the scene at Redstone to physically take possession of the missiles for the Army and then transfer them to the CIA.

I'd ask you to take a look at this document and have that marked as Exhibit 5.

UNCLASSIFIED

UNCLASSIFIED

(Burbules Deposition Exhibit 5
identified.)

BY MR. SAXON:

Q If you notice a signature at the bottom of Major Chris Simpson -- and all of these documents have been declassified in this redacted form, and we have blacked out that particular name, but underneath has been put the letters "CIA," and the particular individual who signed on behalf of the CI, and then the price reappears in the price block, and it's \$3469.

Let me just ask, for the record, if you have ever seen this document before.

A No, I have not.

Q And have you had any awareness of the fact that that particular price was entered?

A No. Again, I had no involvement in those times with the detail prices, other than the initial acquisition cost and replacement value on those.

Q Now when the issue of replacement cost was flagged for you by Colonel Lincoln, what action did you take? Did you, in fact, have a phone conversation with General Russo?

UNCLASSIFIED

UNCLASSIFIED

A I believe I did and expressed our concerns, and, as I mentioned to you last time, General Russo noted my concerns, and he said he'd look into it. And again, reaching back in memory, I don't know how I found out, whether he called me back or whether a message was sent out or whether Colonel Lincoln came back in and told me that Department of the Army had decided to go with the lower price, the original acquisition cost. And I accepted that as a decision by my higher headquarters, a decision by competent authority and dropped the matter.

Q And was it your understanding that the issue of replacement cost in whatever way it was done up here had been considered, but basically rejected?

A Yes.

Q When you talked with General Russo, did he tell you anything about the nature of the consideration that would be given, by whom it would be considered?

A Nothing. I knew of this only as Operation Snowball, didn't know anything about the CIA's involvement. Frankly, I thought it was a classified FMS sale directly to a foreign government.

Q Well, we certainly know it was classified and it

UNCLASSIFIED

UNCLASSIFIED

was directed to a foreign government.

A No, directly, directly to a foreign government.

Not directed.

Q Did General Russo indicate to you anything about a ceiling, which the customer had to operate with or for which reason it might be difficult to get a replacement cost?

A No.

Q Did he indicate to you that the issue of a replacement cost had already been pressed forward by the Army and been rejected?

A No.

Q None of that?

A No. Merely that he would look into it, as I recollect.

Q Did you mention to General Russo at that time what any of the replacement cost would be?

A No. Because I didn't know what the replacement cost would be. Just that it probably would have been substantially higher.

Q And he didn't ask what the specifics would be, in terms of replacement cost?

A No, not to my recollection, anyway.

UNCLASSIFIED

UNCLASSIFIED

Q I'm ready to move off the TOW subject.

Is there anything else that you think we should know, sir?

A No, I can't think of anything that I can add.

MR. SAXON: Bob? Roger?

MR. GENZMAN: Nothing.

BY MR. SAXON:

Q What I'd like to do now, briefly, General, is go to the subject of the HAWK missile repair parts. Let me simply ask you for the record when you first became aware that MICOM was involved in what we now know was a follow on to the TOW requirement, with the same intermediate customer being the CIA and the same ultimate customer being Iran.

When were you first made aware that there was a HAWK requirement?

A This year, after I had come up to this headquarters and when the situation broke and the investigations were begun. Only then. And frankly, I learned about it, I guess, on the television when there were allegations about -- actually, as I learned it first, they were HAWK missiles, I think was what the TV program said. And I knew nothing about that.

UNCLASSIFIED

UNCLASSIFIED

Q In fact, as we now know, there were actually HAWK missiles shipped from Israel to Iran in November of 1985 in a quantity of 18, 17 of which were returned to Israel, and there were ultimately to have been 120 shipped, but in terms of our particular focus with you, it's the HAWK equipment repair parts that MICOM was tasked with providing on April 10, 1986.

A The HAWK Project Manager did not inform me while I was down there that this was going on. I can't speculate why. Perhaps he was under the same cautions of secrecy. In any event, I was in the process of departing the Command. I had been selected for promotion, and I was in the process in early or mid-May of departing Missile Command.

Q For the record, do you recall who the Project Manager was at the time?

A Yes. Colonel Sam Liberatori -- L-i-b-e-r-a-t-o-r-i.

Q I take that from your testimony then, not only did you not know that a requirement had been passed down by headquarters of the Department of the Army to the HAWK Project Office on ground equipment repair parts, but that no one in the time you were there, admittedly, as you were transiting to your new assignment, no one ever brought to your

UNCLASSIFIED

UNCLASSIFIED

attention the fact that there might be some readiness impact from the provision of these repair parts?

A No.

Q Let me walk you through what we now understand to be some of the facts of the transaction and see if you could render us a judgment from the roughly two years you spent as MICOM Commander.

A I was only there about eight or nine months.

Q I see. That's correct. From August 9, 1985, to May of '86.

When the requirement was imposed on MICOM on April 10, a list was transmitted, fax'd from AMC, which had gotten a list from Major Simpson, who had gotten it from his CIA counterpart, who had gotten it from Colonel North, who had gotten it from Mr. Ghorbanifahr, who gave it to North in Paris in March of 1986. And in fact, Ghorbanifahr got it directly from the Iranians. So that's the trail of this list of HAWK repair parts. It gets down to MICOM, and as best we can determine, the officials in the HAWK Project Office did a terrific job, one heck of a job, on short notice, and with a lot of pressure, to cast about and see where these parts were, the location, the availability, the quantities in

UNCLASSIFIED

UNCLASSIFIED

which they were available and any possible readiness impact, if they were provided in full in those quantities.

The same day, or later in the evening, that information was fax'd from Redstone Arsenal up to Department of the Army, at which time it was determined -- the Iranians had asked for 234 line items of HAWK repair parts. It was determined that if they met all of the quantities requested on the ones that they could locate -- and only 221 repair parts could be located -- that there would be a potential readiness impact on either 46 or 47 of the items.

The actual list provided us by MICOM said 47; the DA IG said 46. The breakdown on those numbers comes from the DAI IG. I don't have the additional item. I think the number is 47. The DA IG breaks down to 46, as follows:

On 15 of the items, it would deplete our inventories 100 percent, if we met all of the requirements on requested quantities. On 11 of the items, it would deplete them in excess of 50 percent, and on 20 of the items, it would be less than 50 percent, but still significant depletion.

That information was provided to the Department of the Army. As MICOM then worked with Simpson, over the matter of a few days, they argued about various quantities. The

UNCLASSIFIED

UNCLASSIFIED

numbers as to quantity were actually reduced, so the impact was not only with regard to the 46th or 47th items, because all of those materials were not provided.

Let me stop at this juncture and ask you, for the record. I assume you were never made aware of any of this information?

A No, I was not.

Q All right, sir.

What happens next is that Major Simpson is told by John Chapman and Billy Reyer, as MICOM, that with regard to the quantities that he says they should provide, that there would be significant depletion as to 10 or 12 items, and in fact, 100 percent depletion as to 10 or 12 items, which they thought would have an adverse impact on readiness.

Major Simpson discusses that with General Russo. There's some back and forth between Simpson and his CIA counterparts and, in essence, the CIA says that you must ship all of the quantities requested. Simpson then, on April 23rd, prepares a "must ship" list that is fax'd down to MICOM, and they realize that they have to provide the quantities that are requested.

The ultimate conclusion that has been presented

UNCLASSIFIED

UNCLASSIFIED

us by appropriate officials at MICOM who work with the HAWK, and then the supervisors of those individuals, was that we did actually provide 10 to 12 items that totally depleted our inventories, and there was a readiness impact on some of those items, that, in particular, where there was a serious readiness impact on one of the items, that they put it in a

[REDACTED]

The Iranians had asked for [REDACTED] of these items. We only had [REDACTED] in our inventory. The MICOM officials with whom we spoke protested and did not want to provide those.

In essence, the CIA overruled the Army and [REDACTED] [REDACTED] had to be provided.

The make whole date that MICOM has give, if we accelerate the procurement pipeline from the vendor which, in this case is the Varian -- V-a-r-i-a-n -- Corporation and accelerate those that are down for maintenance and repair,

UNCLASSIFIED

UNCLASSIFIED

is not until 1989.

I would simply ask for the record, if any of this was ever brought to your attention?

A No.

Q Let me ask you now for an opinion, so I clearly denominate that.

If anyone had come to you in this time period, whether you were exiting or not, if, as MICOM Commander, this had been brought to your attention -- and we clearly understand it wasn't -- would it have given you any pause, and would you have taken any action if your specialist told you it would deplete your inventory as to this one part being a high risk category, and we wouldn't have a [REDACTED]

A You bet. I'd have gotten on the phone, just as I did in the other case, and voiced my objections; however, I understand that there are national policy objectives that may have equal important considerations, such as in 1973, in the Israeli-Egyptian War. We drew down a lot of our stocks in support of the Israelis.

Yes, that too hurt our readiness, but the idea is, you know, meet the national policy objectives, and the whole

UNCLASSIFIED

UNCLASSIFIED

30

matter of defense is one of calculated risk with respect to investments and how much you buy and how many days' supply you have on hand and where to position it, and so forth.

Those risks have to be weighed along with side by side our national policy objectives, and I can only trust that somebody who is a patriot and interested in the national defense and interested in the survival of this nation appropriately considered this at the appropriate level and made the decision that the national policy objectives were worth the risk of a temporary drawdown of readiness.

Q So, if I understand your testimony, it's not simply a matter of saying readiness might be impacted; we have to look at the broader national policy objectives. But you also seem to be saying that you hope that that would be a deliberative process and that the people making that decision are clearly aware of the alternatives when they do so.

A Precisely.

MR. SAXON: I think that's all I've got on the HAWK repair parts.

Any further questions?

MR. SAXON: General, let me say, for the record, you have been very helpful today and very helpful when we saw you in June.

You would probably have been more helpful if anyone had thought to share any of this with you at the time, but that's not of your doing.

We appreciate your testimony and on behalf of both committees, let me simply thank you.

THE WITNESS Thank you.

And I stand ready to assist in any way you may request in the future.

1 MR. MCGOUGH: Good morning. My name is
2 Tom McGough. I am associate counsel with the
3 Senate Select Committee on the Iran-Contra
4 matter.

5 MR. GENZMAN: Robert W. Genzman,
6 Associate Minority Counsel with the House

8 MR. PERKINS: Jack Perkins. I'm with
9 the Office of Legislative Affairs, Department of
10 Justice.

11 BY MR. MCGOUGH:

12 Q. Would you please state your name.

13 A. Ana, A-n-a, Barnett, B-a-r-n-e-t-t.

14 Q. And what is your title here at the U.S.
15 Attorney's Office?

16 A. Executive Assistant United States
17 Attorney.

18 Q. What does-- what are the duties of the
19 Executive Assistant United States Attorney?

20 A. On paper, in the organizational chart,
21 I have supervisory responsibilities over the civil
22 section of the office, the appellate section of
23 the office, and the administrative side of the
24 office, and I report directly to the United States
25 Attorney.

1 As a practical matter, the lines aren't
2 that rigid.

3 Dick Gregorie lives in a parallel
4 world, where he has supervisory responsibility
5 over all of the criminal side of the office, but
6 essentially, we are acting U.S. Attorneys, when
7 the U.S. Attorney is not here.

8 Matters that come up-- we just deal
9 with them on an ad hoc basis, and try to solve the
10 problems as they arise.

11 I also speak for the office. We have a
12 press policy where line AUSA's do not speak
13 directly to the press, or answer inquiries.

14 That's done by myself or Dick Gregorie.
15 Mostly, I do it.

16 Just other things, as they come up.
17 It's very hard to say.

18 Q. Let me see if I can get a picture of
19 the organization of the office.

20 Leon Kellner is United States
21 Attorney.

22 Is there a first Assistant U.S.
23 Attorney?

24 A. Well, Dick and I are essentially the
25 first assistants.

UNCLASSIFIED

UNCLASSIFIED

4

1 When the office got to be beyond a
2 certain number of AUSA's, that position got split.

3 For example, in the Southern District,
4 of Florida, they have three, instead of just two.

5 They have an associate-- a term of art.
6 I guess we're the first assistant.

7 Q. So then as an organizational chart
8 matter, you would be supervising the civil and
9 appellate and administrative, and Mr. Gregorie
10 would be supervising the criminal side?

11 A. Yes.

12 Q. Where does Mr. Scharf fit into the
13 organization?

14 What is his title?

15 A. Special Counsel, and if I might, I can
16 clear it up, if I can draw the little
17 organizational chart here (indicating).

18 Q. Sure.

19 A. I sometimes do things in the criminal
20 domain, and Dick, sometimes in the civil domain,
21 depending on who is here and what comes up.

22 Larry is over here (indicating). Then
23 we have the others (indicating).

24 Larry doesn't report to anyone but the
25 U.S. Attorney, and has tasks as assigned.;

1 If I had to describe him most commonly,
2 he is the office oracle.

3 He's brilliant, and has many, many, ,
4 many years of prosecutorial experience, and as a
5 result, he handles the extremely complex cases or
6 novel cases that arise, that are usually given to
7 him for review to deal with in the office.

8 Q. In your position as Executive Assistant
9 United States Attorney, do you still maintain a
10 case load of your own at all, or do you deal with
11 cases, solely from the supervisory standpoint?

12 A. From a supervisory standpoint, except
13 as things come up.

14 I have-- a⁺ a request of a judge, I
15 have a case before that particular judge to try,
16 but I don't ordinarily have a case load in this
17 position.

18 Q. Is that a civil or criminal matter?

19 A. A civil matter, a class action filed by
20 Haitian refugees that were retained.

21 Q. I would like to get a little bit of
22 your background, if I could, starting with law
23 school.

24 When did you graduate, and from where?

25 A. Okay. I graduated from law school-- lot

1 me start with undergraduate school, because I'm a
2 late bloomer.

3 Actually, I went to law school late. I
4 just didn't-- why did you go to law school so
5 late, right?

6 I graduated with a BA from
7 undergraduate school in '68 from the University of
8 Florida.

9 I have a Masters Degree from Florida
10 State University.

11 Q. What is that in, the Masters Degree?

12 A. In psyche, in 1970.

13 Then I did real work for a few years.

14 I taught at Miami-Dade Community
15 College and was a counselor there, and then I
16 started law school in '73, so I graduated from law
17 school in '76 from the University of Miami.

18 Right out of law school, immediately
19 out of law school, I went to work for the State
20 Attorney, which is what we call the District
21 Attorney here in Florida, here in Miami.

22 I was there until 1978, when I came to
23 work here.

24 Q. Were you doing criminal trial work in

1 A. Yes, I did, criminal, and when I came
2 here, I started in the civil division and stayed
3 there.

4 Q. So in 1979, you came in as an Assistant
5 United States Attorney?

6 A. No. Actually, it was mid '78.

7 Q. And how long were you, if I could say,
8 a trial attorney in the civil division?

9 Is that a fairly accurate description
10 of the position you filled?

11 A. Yes.

12 I tried more cases than any other civil
13 attorney has ever done in this office.

14 I did all of the swine flu litigation.

15 I was there until Stanley Marcus became
16 U.S. attorney, which I think is was '82.

17 MR. GENZMAN: It was '82.

18 THE WITNESS: When he became the U.S.
19 Attorney, he appointed Leon Kellner chief of the
20 civil division.

21 He brought him in from private practice
22 in New York, and appointed me to be the deputy
23 chief of the civil division, and I did maintain a
24 case load, but a more limited case load that was
25 just limited to larger cases, or things assigned

1 the U.S. Attorney.

2 Then some time, a year or so after that
3 time, Leon Kellner became the Executive Assistant,
4 and Stanley Marcus made me the chief of the civil
5 division.

6 I'm a little fuzzy on those dates.

7 Then he was appointed judge, and I have
8 lost track of when that was, but some time in-- I
9 left the office in early '85 to private practice.

10 I thought that would be a good time to
11 try it, and then in October, late October of '86--
12 no. Excuse me. Late October of '85, I came back.
13 I didn't stay very long-- to this position.

14 Q. What did you do in private practice?

15 A. Civil litigation with a civil firm.

16 Q. What is your commercial telephone
17 number here?

18 A. Commercial telephone number is area
19 code 305-536-5242.

20 Q. Is that the same as your FTS number?

21 A. No. The prefix is [REDACTED].

22 Q. And the same four digits?

23 A. Right.

24 Q. Do you know Leon Kellner's-- what is
25 his-- does he have a direct dial number or direct

3 same thing, the 536 or the [REDACTED] exchange.

4 Q. And what's the general office number
5 here?

6 A. I don't know it.

7 Q. Now, obviously we're here to discuss
8 primarily an investigation that's gone by a number
9 of names.

10 We have called it the Garcia case, the
11 Cuervo case, the Costa case.

12 Does it have a name that everyone would
13 recognize it by in this office?

14 A. Costa, but-- although no matter what
15 you use, we all recognize it.

16 Q. Okay. Let's keep the terminology
17 straight. Let's call it the Costa case.

18 What was your first contact with the

20 A. Well, there's really two ways of

2 Q. That's fine. You'll provide us with a
3 copy of--

4 A. Certainly, although you have these
5 here.

6 Q. Are those your notes?

7 A. Yes.

8 Q. We would like to see all documents
9 that--

10 MR. PERKINS: Let me just give it to you
11 through channels, so we can keep track.

12 MR. MCGOUGH: I prefer to have it
13 today, really even before we adjourn the
14 deposition.

15 I will be glad to look at the documents
16 and see if there are any questions we have on the
17 documents before we go back.

18 MR. PERKINS: We don't want to get into
19 the business of handing over the-- handing over
20 documents every time a witness goes to be
21 interviewed.

22 MR. MCGOUGH: I understand that, but if
23 a witness uses a document to refresh their
24 recollection during the course of a deposition, we
25 are entitled to see it.

1 I think it's pretty clear, and we'd
2 like to see it during the deposition.

3 I guess to put it bluntly, if the
4 witness refers to the document-- we'll take it
5 through the normal channels, but if she does, we
6 would like to refer to it before the end of the
7 deposition, in case there are any questions off of
8 it, then we can take notice of that without
9 reconvening the deposition.

10 BY MR. MCGOUGH:

11 Q. You said you had two ways of answering
12 the question-- going back to the question.

13 A. Officially, on March 14th of '86 when
14 Jeff Feldman came into my office with, according
15 to this-- with Kevin Courier, an FBI agent.

16 Q. Now, do you-- on the chronology, do you
17 recall that meeting?

18 A. I recall the meeting very vividly.

19 I just don't recall the day it took
20 place, the timing of it.

21 Q. Can you tell me-- you said that was
22 your first official contact.

23 A. Yes.

24 Q. Did you have unofficial contact that
25 might have predated that?

UNCLASSIFIED

UNCLASSIFIED

12

1 A. Yes.

2 I only realize that in retrospect.

3 Toward the end of '85, soon after I
4 returned to the office in this position and
5 started getting-- well, the first thing I got is--
6 the clerk of the court called me up. That's one
7 of the things I do when problems come up. I handle
8 those problems.

9 He said, "We have a letter here. We
10 don't know what to do with it. Should we file it
11 as a case? It involves--" and I said "Send me a
12 copy and if it's--"

13 As it turned out, it was a letter
14 written by Mrs. Garcia, you know, protesting the
15 treatment of her husband in the course of his
16 trial.

17 I basically thought another pro se
18 defendant. We have hundreds of these. File it in
19 the crank file. That's that.

20 It was only in retrospect, as things
21 are developing-- I said "Oh, I think I have seen
22 these letters."

23 These letters, throughout the next few
24 weeks, I guess they were mailed to lots of people
25 all over. I don't know who all got them.

1 or Main Justice, anything like that?

2 A. No.

3 He, I think, got a letter, also, and
4 then passed it on to me.

5 I said, "Yes, I think I have seen it
6 before. It's an ongoing case, an active case,"
7 and I think eventually we passed it off to Jeff,
8 who had the underlying case, once we figured out
9 it was something that involved something that was
10 ongoing and pending.

11 Q. Do you recall what the allegation in
12 the letter was?

13 A. That the judge had been extremely
14 unfair by keeping out evidence-- I guess there had
15 been a supression hearing of some kind, and that,
16 you know, her husband was innocent, and he had
17 been-- he hadn't been allowed to prove his case.

18 It was a funny allegation. He said his
19 attorney was in ^achoots with the government and
20 conspiring to convict him, and that's why he
21 wasn't able to put in all of the evidence that he
22 needed to put in to prove this case.

23 You know, allegations-- that's vcrly
24 broad. That's not the details of it, but that's
25 the general nature of it, as I remember. ;

1 Q. Between these letters, all of this, you
2 really didn't take any affirmative steps?

3 A. Right.

4 Q. Did you have any contact with the Costa
5 case prior to March 14th?

6 A. From time to time, and I really can't
7 remember now if it was really before or after--
8 you know, there started slowly to be from time to
9 time, a call from a newspaper or somebody, saying,
10 you know, "There's a man named Jesus Garcia--"
11 there seemed to be interest in him, and it seemed
12 unusual for a gun case, but that's the only thing.

13 Q. And did those press inquiries predate
14 the March 14th meeting, as best you can recollect?

15 A. I'm really fuzzy on that.

16 I really can't tell you.

17 I have to suspect-- I have to think
18 that it probably did, because a lot of them had
19 questions about-- not a lot, but-- a lot, a few,
20 two, three, questions about Garcia, about who he
21 was.

22 I know we mailed out-- people asked for
23 copies of the indictment.

24 An L.A. paper stands out in my mind as
25 asking for copies of the indictment, and wanted

UNCLASSIFIED

1 copies of pleadings.

2 I said, "We send out copies of
3 indictments, because they are public," but
4 pleadings, it gets into too much trouble to send
5 out.

6 Things like that. Nothing that really
7 seemed out of the ordinary. Only in retrospect it
8 does. At the time, it didn't.

9 Q. Let's go to March 14, 1984.

10 What do you recall about that meeting?

11 A. That Jeff and the FBI agent came in
12 very excited, that they had, you know, heard about
13 the plot to assassinate a U.S. Ambassador and blow
14 up embassies, I believe it was in Costa Rica.

15 At that time, I think they came into my
16 office, because the U.S. Attorney may have been in
17 a conference or had people in this office and his
18 door was shut.

19 I thought, oh, my God, this is really
20 serious stuff. We have got to, you know, do
21 something about this, and look into this right
22 away.

23 What really stands out in my mind, as
24 we're talking about this, it's being relayed in a
25 very excited manner.

1 Leon walks in, opens the door in my
2 office, and says-- Leon comes into my office and
3 says, "I have got to see you. Something has come
4 up."

5 I said, "I have got to see you, too.
6 This is very important. They have got to convey
7 something about a plot to kill an ambassador."

8 He said, "That's what I have to see you
9 about," so at some point-- I'm not quite clear how
10 it merged. He got the information from a
11 different source, I think, from Washington, as
12 they were telling me, so we moved into his office.

13 Q. Let me stop you there for a second.

14 In the course of laying out these
15 allegations, did Mr. Feldman or the FBI agent
16 mention any allegations about gun running?

17 A. I can't remember, because that's-- that
18 was, like, the most exciting part of it, the very
19 idea there were people planning to kill a U.S.
20 Ambassador and blow up U.S. embassies. That's what
21 really stands out in my mind.

22 They may have, but I just don't
23 recollect that.

24 Q. Do you recall any mention of any public
25 firms or government employees being involved in

UNCLASSIFIED

18

1 the plan, the conspiracy that they were
2 describing?

3 A. No.

4 I-- there were names that didn't mean
5 anything.

6 Q. But they didn't specifically-- you
7 don't have a recollection of any specific
8 reference to the NSC, for example?

9 A. No. Not at that point, no.

10 Q. Who in Washington made the call?

11 Did Mr. Kellner indicate who made the
12 call to him?

13 A. At that time, I don't think he did.

14 Let me see. I think I asked about it.

15 No. I don't think I did ask, but I think it was--
16 I think it was a call and it may have been,
17 because at some point, there was talk about it.

18 It may have been generated because of a
19 letter. It could have been another one of Mrs.
20 Garcia's letters.

21 She was becoming a regular letter
22 writer after a while.

23 Q. When Leon came into your office, did he
24 seem to know about an alleged plot to assassinate
25 Ambassador Tamm?

UNCLASSIFIED

JACK BESONER & ASSOCIATES, INC.

UNCLASSIFIED

19

1 A. That's who it was.

2 Q. Were those allegations included in Mrs.
3 Garcia's letters?

4 A. The letters I read-- I don't remember
5 reading that.

6 My only recollection of the thing, that
7 it could have been generated by a letter, and that
8 was a later conversation we had, just basically
9 saying, how we did find out about this thing, and
10 that was thrown out-- it's really speculative.

11 I'm really fuzzy about how Leon came to
12 find out about it.

13 Q. You don't recall if Mr. Kellner
14 mentioned specifically who in Washington called
15 him and--

16 A. No.

17 Q. What happened after you went in his
18 office?

19 A. They went in and they told the story
20 again.

21 Probably they told it in great detail,
22 if you have ever spoken to Jeff.

23 I guess at that point, probably
24 discussions about, you know, what to do next,
25 maybe get on it, go down to Costa Rica, talk to

UNCLASSIFIED

UNCLASSIFIED

20

1 people, things like that, because I know that
2 after that point-- see, we're at a point it was
3 where Gramm-Rudman-- for some reason, our travel
4 money was very tight. That was another thing that
5 stands out in my mind.

6 . There was always going back and forth
7 conversation about, can we afford a trip to Costa
8 Rica, this and that, and that was a discussion
9 that was happening, the travel budget was running
10 low.

11 I don't know if it was at that very
12 meeting or soon thereafter-- "Yes. Absolutely, do
13 whatever you have to do to get to Costa Rica and
14 talk to these people."

15 Q. Was there any discussion about getting
16 to Mr. Terrell in New Orleans, T-e-r-r-e-l-l?

17 A. Jeff told me so, but I don't recall it.

18 Q. You mean at a subsequent time, Jeff
19 told you he had spoken with Mr. Terrell at that
20 meeting on March 14th or--

21 A. I don't remember any of the names that
22 were mentioned at the March 14th meeting.

23 What Jeff told me was that after that
24 time, he went to New Orleans to interview Jack
25 Terrell about this, so Jack Terrell must have had

UNCLASSIFIED

UNCLASSIFIED

22

1 that it was really as a result of having
2 prosecuted this gun case.

3 Went back to the beginning and told the
4 whole story.

5 Q. Do you recall any discussions of a
6 grand jury at that meeting?

7 A. Oh, no. Not at all.

8 Q. Do you recall anything else about the
9 meeting that might have been touched on?

10 A. Other than, you know, it dealt with,
11 you know, a very pressing and exciting matter, and
12 that stands out, but other than that, no, nothing
13 else really does stand out.

14 Q. Do you remember anyone else's
15 participation in that meeting with yourself, Mr.
16 Kellner and the FBI agent?

17 A. No. I don't remember who else was in
18 the meeting.

19 It would be very possible that or more
20 than likely that either Dick or Larry would have
21 gone in there or both, or one or the other of
22 them, just simply because we don't have a lot of
23 formalities in the office, and the way just things
24 generally operate, we, you know-- it's pretty
25 loose, and it's very likely whatever meeting Leon

UNCLASSIFIED

UNCLASSIFIED

23

1 was having before, you know, when that broke in,
2 either Larry or Dick were in it, and when we just
3 moved into there, they just stayed.

4 Q. Now, we have learned that after the
5 meeting or that Mr. Garcia's sentencing was
6 originally set for March 19th, and there was an
7 effort made to postpone that sentencing.

8 Do you have any recollection of being
9 involved in that at all?

10 A. No.

11 I mean, in-- again, in-- that's one of
12 those recollections only in retrospect that it
13 happened, and, you know, Jeff tried to put it in
14 context for me, saying that was right, because we
15 were trying to verify these plots were real, and
16 if we thought it was true, we would speak up at
17 the sentencing, you know, it would have some
18 impact.

19 Q. Do you recall any inquiry or
20 instructions from Main Justice about postponing
21 the sentencing procedure?

22 A. No. I don't personally remember that.

23 That's again one of those things that
24 Jeff has it on his chronology, and it probably had
25 a much greater impact on him, that he would have

UNCLASSIFIED

UNCLASSIFIED

24

1 read it, but I really didn't remember.

2 At that time, I still was really fuzzy
3 about Garcia, and, you know-- as far as I could,
4 see it, it was just another gun case, and we
5 literally have hundreds of gun cases, guns and
6 drugs. That's what we have hundreds of in this
7 district.

8 Q. What is the next event of which you
9 have an independent recollection regarding the
10 case?

11 A. Running into Jeff when he was returning
12 from Costa Rica.

13 Q. So that would have been early April,
14 April 3rd, April 4th, something like that?

15 A. April 4th, yes.

16 Q. What do you recall about that?

17 A. I was coming back from lunch, and, you
18 know, the little guard station downstairs, going
19 through the magnetometer, and running into Jeff,
20 who was also coming in, and said-- had his
21 suitcase with him.

22 He said, "I just got back from Costa
23 Rica. I have got to talk to everybody. It's just
24 real important."

25 I said, "We're around," and later that

UNCLASSIFIED

25

1 afternoon, we sat around and Jeff came in and told
2 about the-- all the events that developed when he
3 was down there, and all the interviews.

4 Q. Prior to the larger meeting later that
5 day, did you have any one-on-one conversations
6 with Jeff about what he had found in Costa Rica?

7 A. I might have.

8 I don't remember, but-- Jeff might have
9 stopped in and told us something, but he is such a
10 detailed person and so full of the names, so used
11 to throwing the names around, and when you don't
12 know the names, it really doesn't mean a whole
13 lot.

14 I do know that when I ran into him, he
15 was really excited, you know-- "This is really
16 exciting stuff. I have got to tell somebody."
17 It's just look a kid bursting to tell the news.

18 Q. So there was a meeting later that day?

19 A. Yes.

20 Q. Was it in Mr. Kellner's office?

21 A. Well, before you leave, you can see
22 what his office looks like.

23 His desk is over on one end, and at the
24 other end of the room, there's a smaller
25 conference table, but nevertheless, a relatively

UNCLASSIFIED

26

1 large table, and usually most of the meetings
2 about cases and things, take place there.

3 We all sat around there and had Jeff,
4 tell what he knew.

5 Q. Can you remember what time of day that
6 meeting took place, approximately?

7 A. It had to be after lunch. That's my
8 recollection.

9 Q. Do you remember who was there?

10 A. Well--

11 Q. Who do you recall being there?

12 A. Okay. That's one of those other
13 answers.

14 Now I recall Leon, Dick, Larry, Jeff,
15 and myself.

16 It wasn't till-- I am-- it wasn't till
17 recently that I realized that David Leiwant came
18 in toward the end of the meeting.

19 Q. Do you have any independent
20 recollection of Mr. Leiwant being in the room
21 during that meeting?

22 A. Yes. Now, yes.

23 Once he came and told us that he was
24 there, I remembered him, because, in fact, it was
25 I who had caused him to be there. ;

1 We were discussing-- generally, we were
2 discussing--

3 Q. Let me interrupt for a second. Let's,
4 start at the beginning of the meeting, and tell me
5 what happened, really, is the question.

6 A. Okay. Well, Jeff started telling the
7 story about why he was down there, and the things
8 he had found out.

9 It was so full of odd names, like,
10 Tegucigalpa, Quinta, you know, just names, odds
11 things and jumbled together.

12 It was mostly he was interrupted by--
13 "Go back to the beginning. How did you get there?
14 Who is this person?" It was that kind of meeting.

15 It wasn't like a smooth story. He
16 didn't say, "I arrived on the plane and proceeded
17 to do this, that and the other," whatever.

18 He was jumping around a lot. What
19 would have ordinarily probably should have taken
20 an hour, really dragged out.

21 It was just getting dragged out. I do
22 remember that.

23 Different people were trying to parse
24 out the facts, you know, who said what to whom,
25 and how did they know it, and what does it mean.

UNCLASSIFIED

28

1 At some point-- and if you ask me right
2 now, as many times as we have gone over this, I
3 couldn't tell you what all he told others, and
4 certain things stay in my mind.

5 He talked about John Hull, how he had
6 an appointment with Hull, and Hull cancelled the
7 appointment, and he ended up sitting on the same
8 plane as him, a few seats behind him.

9 Told about the meeting, the two
10 prisoners down in Costa Rica, and I'm not even
11 sure what--

12 Q. Do you recall any mention of the
13 National Security Council?

14 A. I don't know if it was the National
15 Security Council, but I think at that time Jeff
16 started mentioning Robert Owen, and again, it was
17 like a name that, you know, didn't mean anything,
18 and he probably did mention that he thought
19 somehow he was associated with the National
20 Security Council, although it didn't just stand
21 out.

22 Q. Do you remember what he said about
23 Owen?

24 A. Something in connection with Hull, and
25 again, I didn't-- I didn't take notes or--

1 Q. Do you recall any reference to Oliver
2 North?

3 A. I don't know if the reference to Oliver
4 North was then or at a later time.

5 I mean, at some point, his name did
6 come up, and at that point he was all-- who is
7 Oliver North then. He wasn't famous then.

8 I don't recall if it was at that
9 meeting or at a later meeting on this case.

10 Q. Do you recall any mention 

11 A. Yes.

12 Q. In what context?

13 A. I remember specifically, because Jeff
14 said he had talked to someone who identified
15 himself as 

16 
17 
18 Aren't they supposed to be
19 discreet?"

20 I remember asking that, because it just
21 seemed so-- it didn't fit in with my idea of the
22 way the people  are supposed to act.

23 Q. Do you recall Mr. Feldman describing
24 his meeting with Ambassador Tam^bas, in which he
25 outlined his investigation? :

UNCLASSIFIED

UNCLASSIFIED

30

1 A. I know he talked about his meeting with
2 Ambassador Tam^bs.

3 Now, when he told us that he showed ,
4 Tam^bs this diagram of his, you know, his theory of
5 the case or not-- I'm not sure if that happened
6 then or at a later time.

7 It could have happened then, but he did
8 talk about it, and he put a diagram-- I'm not sure
9 we're still talking about the same diagram.

10 I know at this meeting, he had diagrams
11 with him, lots of diagrams, or at least more than
12 one, as I recall, and he had made copies of them.

13 He laid them out on the table, and we
14 were having trouble explaining how, you know, box
15 number one over here connected to box number two,
16 and I just remembered, you know-- writing or
17 doodling on these different graphs that he had.

18 Q. Did you see this--

19 A. I didn't, but Jeff did.

20 Q. You didn't save the ones that you
21 wrote, did you?

22 A. I think he saved all the ones that
23 people wrote on, because I know that at some later
24 point when this all came out, we said, "Yes, I
25 remember--" just going back to talking and

UNCLASSIFIED

UNCLASSIFIED

31

1 discussing, and I said, "Yes, but I think some of
2 that stuff was just doodled on," and he said "Yes,
3 I think I saved them all."

4 Q. Did you take any notes on a piece of
5 paper or--

6 A. Not in the sense-- I would jot down a
7 name, and kind of go like that and--

8 Q. Cross it out?

9 A. Or actually make little drawings around
10 it, something like that, but it wasn't notes,
11 extensive notes on the meetings, though.

12 One of the other people, though, I
13 think was taking notes.

14 I started to, but frankly, it was so
15 hard to follow what Jeff is-- maybe I was being
16 remarkably dense, but it was so hard to follow the
17 story, and I kind of sat there.

18 Q. Did you save what you took?

19 A. No. I think I left and left the pad
20 there.

21 Q. You say one other person was taking
22 notes.

23 Who was that?

24 A. By process of elimination, it must have
25 been Larry. I know that Dick never writes anything

UNCLASSIFIED

UNCLASSIFIED

32

1 during any meeting.

2 I know he retains it all.

3 Larry was writing notes. He may have,
4 had a pad in front of him, or doodling.

5 Q. Why do you remember someone taking
6 notes, without--

7 A. I don't remember-- that's another one
8 of those retrospective recollections, only because
9 we had a discussion about that after all of this
10 became-- came to the light of day.

11 Saying, "Did you take notes? No. No.
12 No."

13 Larry said, "I think I took notes," and
14 I'm not sure if it was that meeting or another
15 one.

16 I don't really have an independent
17 recollection.

18 You have to understand, it's a table
19 considerably smaller than this, and he brought in
20 all of these files, and he had color photographs
21 he had out, and all these pieces of paper spread
22 around on the table, and newspaper clippings and
23 things, and it was just full, so, you know, a--
24 lot of stuff spread out.

25 Q. Do you recall any discussion at that

1 meeting about the use of a grand jury?

2 A. No.

3 My most vivid recollection of that ,
4 meeting is that Jeff-- we were asking after a
5 while, talking to Jeff, saying, "What do you think
6 you have in terms of the law," and he was talking
7 about Neutrality Act violations and he kept
8 mentioning the Boland Amendment, and Dick and I,
9 embarrassing enough to say, we had no idea what
10 the Boland Amendment was.

11 We hadn't followed that and weren't
12 aware of it, and we said, "What's the Boland
13 Amendment," and Jeff described it, and I said,
14 "Shouldn't we look it up to see what it says, you
15 know, just to make sure," that kind of
16 discussion.

17 The legal aspects of what it was, did
18 it have a criminal penalty, what did the
19 Neutrality Act mean. We spent a lot of time going
20 back and forth on the elements, you know, of the
21 Neutrality Act violation.

22 Q. When the discussion of the Boland
23 Amendment came up, was it you who went and got Mr.
24 Leiwant?

25 A. In a way, yes. ;

UNCLASSIFIED

UNCLASSIFIED

35

1 A. I think so.

2 There might have been phone calls and
3 things, and people walked in and out, because my,
4 recollection is that it was just very, very long.

5 I know that I get very restless, you
6 know, sitting for long, long periods of times, and
7 it seemed like it was dragging on and on and on,
8 and I suspect people got up and left and got
9 coffee and came back, something like that.

10 Q. In the context of discussing the Boland
11 Amendment, as you may now know or knew then, the
12 Boland Amendment deals with government aid to the
13 resistance forces.

14 In the context of discussing the Boland
15 Amendment, do you recall what form the government
16 aid-- the allegations of government aid took, how
17 the government was supposedly involved with this,
18 with this group of people who were allegedly
19 assisting the Contras?

20 A. Not specifically, except in the
21 beginning, when Jeff was describing what he had
22 found out till then.

23 There was a section when he was
24 describing these telethons that had been conducted
25 in the Miami area over the Latin radio stations,

UNCLASSIFIED

UNCLASSIFIED

36

1 you know, fund raising telethons, and he mentioned
2 some group that met out in the Everglades and gave
3 training and gave some guns that went on to fight
4 in Costa Rica.

5 As it turned out, it was some six or
6 seven AR-15's, something like that.

7 I think it was in the context of money
8 raised locally by this Cuban-American
9 organizations here.

10 Q. And possible government involvement
11 with that fund raising?

12 A. No. At least I don't recall that being
13 how-- that was the context of the money part of
14 it.

15 There was also a discussion of a Howard
16 Johnsons-- that's kind of coming back to me-- this
17 meeting at a Howard Johnsons, and I remember that,
18 because it was so bizarre.

19 There was a meeting at a Howard
20 Johnsons here in Miami, where all these people
21 had, like, a little mini-convention, I guess, and
22 they sat around and planned when they were going
23 to land, what they were going to do, and all of
24 this kind of thing, and I think there were people
25 there talking about raising money, but it just

UNCLASSIFIED

UNCLASSIFIED

37

1 seemed-- the only thing that sticks in my mind is
2 the recollection of the telethons, because I
3 thought who would have thought that would have
4 been a way to raise money like you do for cerebral
5 palsy.

6 Q. Just my question is really directed as
7 to why there were thoughts that the Boland
8 Amendment might be implicated.

9 The Boland Amendment speaks to
10 government assistance, and so forth. This sounds
11 like private efforts.

12 A. See, I don't know. That's why we
13 wanted a copy of it.

14 None of us were sure what it said.

15 Jeff kept throwing Boland Amendment
16 around, and I said, "You know, do you know
17 precisely what it says," and it seemed to me he
18 was very vague on it.

19 He said, "It just prevents aid to the
20 Contras," and that was his initial position, and
21 then we got the printout.

22 I don't think it was being looked at
23 from the perspective that the Boland said it was
24 limited to the types of people who could give aid,
25 because we didn't know what the Boland Amendment

1 said at that point, or we didn't have it in front
2 of us to tell.

3 Q. Do you recall any telephone
4 conversations in the context of that meeting, that
5 related to the case?

6 A. No. I don't-- you can't say that no
7 phone calls occurred during the course of that
8 meeting.

9 It was long, and, you know, Leon's
10 secretary buzzes him, this, that or the other, but
11 I don't recall-- I certainly don't recall any
12 phone calls that were significant enough for it
13 to-- the U.S. Attorney to turn around and relate
14 it to us, so in that context, I don't remember,
15 you know, any phone calls.

16 Well, it could have been or could have
17 not been.

18 I do not know, and this is disputed
19 again, we go back and discuss what happened at
20 that meeting-- I do recall being present in the
21 room when there was a conversation regarding the
22 Neutrality Act with Mark Richard, and it was
23 something to the effect of, you know, what are the
24 elements of the Neutrality Act, and my impression
25 was that we had called Mark Richard, singly

UNCLASSIFIED

UNCLASSIFIED

39

1 because he supervises that section that deals with
2 Neutrality Act violations, in the hopes they had
3 already briefed this issue in the past, because
4 there have been Neutrality Act violations brought
5 probably in the mid '60's or so, and hoping they
6 had some briefs and memoranda prepared on the
7 elements of the Neutrality Act, and could send
8 those to us and save all of us some work on that.

9 Q. Was that in the context of the April
10 4th meeting?

11 A. To my recollection, I thought it was,
12 but I only think of it as being then, because I
13 have a vivid recollection of really-- of talking
14 about the Neutrality Act at length during that
15 meeting.

16 I know that I was the one who
17 personally owned that book, and we were
18 discussing, what does it mean.

19 To set foot from, that sticks out in my
20 mind, because I said that, "Set foot from".

21 I know we discussed the Neutrality Act
22 and the elements of it at that meeting, is why I
23 believe that's when the, you know-- we called Mark
24 Richard to find out if they had the briefs on it.

25 The Mark Richard call-- it could have

1 been some other time, but it just seems to me that
2 must have been.

3 That's the only call that I remember,
4 you know, actually having a conversation relayed
5 back to us, saying, yes, they do, but they have
6 got these briefs and it has been done before, and
7 don't re-invent the wheel, wait to get it.

8 Q. Does this office, by the way, maintain
9 any phone records, toll records?

10 A. Yes.

11 Q. Would those be helpful in determining
12 whether FTS calls took place during that meeting?

13 A. Yes. I would imagine.

14 Q. Have they been maintained for--

15 A. Well, FTS toll records-- I don't know
16 who keeps FTS toll records.

17 It's either the administrative
18 department or us, but I imagine they are kept.

19 I know that we have whatever telephone
20 toll records we have, were sent to-- on a written
21 request by letter from the independent counsel. It
22 was sent.

23 Q. Do you send originals or copies?

24 A. Copies.

25 Q. Could we at some point, look at the

UNCLASSIFIED

41

1 originals for, it would be March and April of '86?

2 A. They should be here upstairs in--

3 Q. Let's see if we can straighten that out
4 before the end of the day.

5 If you would look at that--

6 A. Yes. When we finish, I can call the
7 admin people and have them bring the originals to
8 the room so you can look at them.

9 Q. In the course of that meeting, do you
10 recall any discussion at all indicating that Main
11 Justice or anyone, for that matter, wanted the
12 case to proceed slowly?

13 A. No.

14 Q. Do you recall anyone at that meeting,
15 instructing anyone else to handle the case in a
16 slow or dilatory fashion?

17 A. No.

18 That has been the-- has been the most
19 perplexing part of this whole case, when the
20 allegations first arose, where they have come
21 from, and we speculated a million things, and this
22 was the last thing that we could have imagined
23 when we did find out what it was.

24 Q. Do you recall any discussion at that
25 meeting of Steve Trotter or Jensen? ;

42

1 A. No.

2 Q. Do you recall any discussion of the
3 Attorney General?

4 A. No.

5 The only name that I recall coming up
6 was Mark Richard, as a department person.

7 Q. This is at any meeting?

8 A. That's what-- well, Trotter and Jensen
9 wouldn't stand out, but I know the Attorney
10 General's name would, and that was an important
11 person.

12 Q. Do you recall anything else about that
13 meeting on April 4th?

14 A. That when it broke up, I don't think
15 anything had really been resolved, other than Jeff
16 was asked to put the facts down in writing, that
17 maybe by articulating them in a written form, you
18 know, he might be able to sort it out better so it
19 would be more understandable, and that's how he
20 left it, is put it in a memo, you know, to
21 organize the case, so maybe we can get a focus.

22 It just seemed to be all over the case,
23 the gun case, the Neutrality Act, whatever.

24 Q. And again, you don't recall the
25 discussion about whether the case was ready to go

UNCLASSIFIED

UNCLASSIFIED

43

1 to a grand jury or anything, at that point?

2 A. I don't recall that being discussed at
3 that point.

4 There was a point where-- a meeting
5 where we discussed and made suggestions of things
6 to do before going to a grand jury, like, getting
7 financial records, so you can make a decision of,
8 you know, who to call, because you don't want to
9 ^eAnd up calling witnesses who-- just to be more
10 focused and organized, but I don't think it was at
11 that meeting.

12 My impression was that it was at a
13 later meeting.

14 Q. Do you recall any discussion at that
15 meeting, of potential Congressional votes on the
16 Contra aid issue?

17 A. I don't recall it, but Jeff said that
18 he mentioned it.

19 Q. At that meeting on the 4th?

20 A. Yes.

21 I think he says that he mentioned that.

22 Q. That there was an impending vote?

23 A. Yes.

24 Q. And you don't have any independent
25 recollection?

1 A. Not really, I don't.

2 If it was mentioned, you know, I just--
3 it didn't leave an impression. I don't remember,
4 it.

5 Q. And you don't remember any response or
6 any discussion from that-- at that point?

7 A. No.

8 You have to remember, you were at the
9 point where two of the people in the room, Dick
10 and I, had never even heard of the Boland
11 Amendment. I know it sounds odd living down here,
12 but--

13 MR. GENZMAN: Let me interject.

14 BY MR. GENZMAN:

15 Q. What did Jeff recall about mention of
16 the Contra aid vote?

17 A. I recall Jeff saying that he-- you
18 know, this is a very hot topic, you know, this is
19 a hot topic in Washington, a lot of controversy.

20 I think he expressed it like that. He
21 did mention it, and this is in a meeting that we
22 have had, to see what happened at that meeting,
23 that we don't remember.

24 He said "Yes, I just mentioned it in
25 passing, and you and Dick were oblivious," and we

1 went on to something else.

2 Q. Did Feldman mention where he had
3 obtained his information about the Contra aid vote
4 in Washington?

5 A. No, but I suspect that he was really
6 probably reading the papers more avidly, and
7 having-- following that portion of the case, may
8 have been following news reports in the news, you
9 know, and things relating to Nicaragua, you know,
10 more closely than the rest of us.

11 Q. You didn't get the impression he had
12 been relating this to his trip in--

13 A. Oh, no.

14 I remember at the meeting he had
15 newspaper articles, photographs, and that wasn't
16 only from local papers.

17 He had gotten clippings from things
18 about that, but my impression was that he got it,
19 just simply because he was interested and he was
20 following the developments.

21 MR. GENZMAN: Thank you.

22 BY MR. MCGOUGH:

23 Q. We understand that there was another
24 meeting on this matter on April 11th, which was
25 the day of the FBI shooting down here. At least we

UNCLASSIFIED

UNCLASSIFIED

46

1 have been informed that there was a meeting that
2 day.

3 Do you recall a meeting on that day? .

4 A. No.

5 Well, what I recall that day, is-- in
6 fact, I was the acting U.S. Attorney that day,
7 because Leon was away and he was due to arrive
8 back some time that afternoon from-- I think he
9 was in Great Britain, and then the shooting thing
10 developed during the course the day, and it became
11 very, very hectic around here, and that was also
12 the day when--

13 What I recall that relates to this
14 case, was that-- and I don't know who told me
15 this. It may have been Jeff. Probably is, because
16 Jeff would come in to see me a lot, tell me this
17 is going to happen and that's going to happen,
18 that there was supposed to be an AP article coming
19 out about his case, and I said, "Fine, because we
20 can't deal with all of this. This is really a
21 horrendous thing happening."

22 We had the FBI pick him up at the
23 airport and bring him right into the office, and I
24 couldn't-- you know, we were trying to deal with
25 things, how did the shooting occur, and sending

1 AUSA's out to the scene, because we didn't want
2 the locals questioning the agents, you know, and
3 it was just a very intense day, and I just don't
4 think that would have been it.

5 Q. Up to that point, up to the point of
6 the FBI shooting, do you recall any discussion of
7 the potential political impact of Jeff's case on
8 what was then Mr. Kellner's pending-- I don't know
9 that he had been formally nominated then, but he
10 was acting U.S. Attorney at that time?

11 A. Yes. I think he was acting at that
12 time, and he had been nominated.

13 Q. Do you recall any discussion at any
14 point, the potential impact of the-- Mr. Feldman's
15 case on Mr. Kellner's nomination?

16 A. No, I don't, but because this has come
17 up before, Jeff tells me that he did say that to
18 me, and, you know, he says he said it.

19 He says he said it.

20 I don't recall the discussion, and he
21 may have said it and my comment, "So what,"
22 because there was no other nominee, and nobody
23 else who wanted the job. He was the only one.

24 It was inconsequential, from the day
25 that Stanley left to be a federal judge, and-- he

1 says he mentioned it and he thought that, you
2 know, that was something relevant to bring up,
3 but, you know, I just-- he may have brought it up
4 to me.

5 I know I didn't remember it, and I
6 don't remember it coming from me.

7 Q. And you don't recall discussing it with
8 anyone else in the context of this case?

9 A. In the context of this case, no, except
10 about being asked about this, by other people, as
11 a result of, you know, the different
12 investigations.

13 BY MR. GENZMAN:

14 Q. If I can interject-- can you give your
15 best recall of what exactly Feldman said about
16 this issue?

17 A. I really can't.

18 I have to just totally rely on Jeff's
19 recollection of it, and I'm relying on him, simply
20 because he's the most compulsive human being I
21 have met. He's so certain about everything, and
22 I'm just fuzzy, so I have to assume he did tell
23 me, if he said he did.

24 Q. What did he say he had told you?

25 A. That he said-- he had asked me; if Leon

UNCLASSIFIED

JACK BESONER & ASSOCIATES, INC.

49

1 had been, you know, finally appointed--

2 Q. Confirmed?

3 A. Yes, as the U.S. Attorney, and I ,
4 probably said, you know, no, that it's pending.

5 I guess it was pending at that time. I
6 don't know, it's pending before the House or
7 before the Judiciary Committee, whatever, and, you
8 know-- "Well, do you think they may be holding it
9 up or something," and I said no.

10 What I wish, and I haven't asked Jeff
11 this and it just occurred to me, maybe the timing
12 of it would have helped-- if it was maybe about
13 the time-- there was a period of time when
14 allegations started surfacing about Jeff's case,
15 and I don't know if it was in that period of time
16 when it would have made sense to say it, because
17 of the context.

18 I don't remember the whole thing at
19 all, period, let alone the context.

20 Q. Was Feldman with his compulsive
21 demeanor, able to pinpoint the time at which he
22 had previously told you that?

23 A. I don't remember if he did.

24 I would have to ask him.

25 We went over his chronology. I didn't

UNCLASSIFIED

50

1 have it in here, so I don't know.

2 He may actually know. He may actually
3 ^{have} not much a recollection of when he said it,
4 either.

5 I don't know that.

6 Q. But you don't remember that
7 conversation?

8 A. No, I don't.

9 There was a point, you know-- we met a
10 lot. Not to put in the formal sense of the word,
11 but I have-- I guess it's part of my job
12 description, whatever, I'm just sort of there when
13 somebody needs something, something comes up, you
14 know, my doors are always open, and I guess my
15 office is first before you get to Dick's, and
16 people just come in. There was a period where he
17 started stopping by more often.

18 I don't know when or how often, or
19 what, because it's not by appointment or anything
20 that would have recorded it.

21 Q. If he had made such a statement, do you
22 think he would have remembered it?

23 A. I think so. I think so, although-- see,
24 the problem is that then it wouldn't have meant
25 anything.

1 It only becomes important now, you
2 know, with this whole thing, and if I had only

6 would have written it all down.

8 Q. Shortly after the FBI agents were shot,
9 the Attorney General came to Miami to visit the
10 FBI.

11 Do you recall that?

12 A. I recall-- yes. I saw it on television.

13 Q. Did you have any contact with the
14 Attorney General during this visit here?

15 A. No.

16 Q. Did you discuss the Attorney General's
17 visit with Mr. Kellner?

18 A. Only because after they had run into
19 each other at the hospital, Leon called me, and I
20 I don't remember if it was the weekend, but he
21 called me up and said, "Guess what. I was invited
22 to be in the group of people that-- dignitaries
23 that went with the Attorney General that went to

3 If you ever have been a AUSA-- people,

6 shoulders with dignitaries--

7 Q. I was a AUSA in Pittsburgh, and that's

9 MR. GENZMAN: I was in Orlando.

10 MR. PERKINS: I was in San Francisco.

11 THE WITNESS: But Main Justice refers to

13 and the thing was, you know, "I got to be in the
14 group that was there, and watch the news. I'm
15 going to be on TV."

16 I think the local news stations carried
17 the visit, because it was so intense, the publicity
18 surrounding the shootings.

19 The press followed everybody around,
20 and I think they stood outside the door of one of
21 the hospitals, and Leon was standing in the
22 background, and the Attorney General said a few
23 words about how brave they had been, and that kind
24 of stuff.

25 Q. Did you discuss with Mr. Kellner,

UNCLASSIFIED

UNCLASSIFIED

53

1 anything that he might have discussed with the
2 Attorney General?

3 A. No.

4 In fact, I was really surprised to find
5 out-- was only well after that, I found out during
6 that visit, he had been asked about Jeff's case.

7 Q. And when did you find that out?

8 A. At some point when all of these things
9 started surfacing about the Meese call to go slow.

10 At first we thought it was a joke. We
11 all have a joke, "Well, because I wasn't there
12 when Meese called".

13 We just all called about it. We laughed
14 about it, and said, "This will go away. It's a
15 silly thing," and it never did.

16 I don't remember the timing of this,
17 but we saw some article that quoted a Department
18 of Justice person saying that yes, Meese had
19 talked to the U.S. Attorney in Miami, but it, you
20 know-- he had never said to do anything one way or
21 the other about the investigation, but I know
22 there was an article about it.

23 I said Leon, "Look at this." I think
24 it was a Wall Street Journal, but we called public
25 affairs and said, "Who is saying this," and as it

UNCLASSIFIED

54

1 turned out, lots of calls back and forth, what
2 they were referring to was the meeting that they
3 had had while they visited the injured agent in,
4 the hospital, and that's how it came up.

5 He said "Yes, that's the only time,
6 never on the phone," but the way the article had
7 it printed, it made it sound like it had been a
8 phone-- made a phone call, and I don't know the
9 timing of that article, when it came up, but it
10 was another one of these days where he spends
11 hours on the phone back and forth, until we were
12 able to get the facts about what had happened.

13 Q. Going back to the end of the April 4th
14 meeting-- after that meeting was over, what is
15 your next recollection of any contact with the
16 Costa case?

17 A. Probably-- the only thing I recollect
18 offhand, is reviewing the memo, when he did
19 something down on paper.

20 Q. Would this have been the first draft of
21 the memorandum?

22 A. Probably.

23 Q. We've been told that that memorandum is
24 dated April 28th, or thereabouts.

25 Is that-- do you have any reason to--

UNCLASSIFIED

55

1 A. No. I don't have any reason to doubt
2 it.

3 Q. Put it at a different time?

4 A. No.

5 I'm just relying on that.

6 Q. What do you remember about that
7 memorandum?

8 A. Very little independently, other than I
9 know I-- I saw some of the sentences were
10 extremely long, and it was very long and
11 confusing, and I probably made some editorial
12 suggestions as to clarify who's talking or who is
13 saying this, that type of thing.

14 Q. To whom did you make those suggestions?

15 A. To Jeff, I have to assume.

16 I seem to recollect that we were back
17 again in, you know, in the office, at the
18 conference table, discussing the memo, and--
19 really, that's about all I recollect about the
20 memo, itself.

21 Q. Why would you review the memo?

22 A. Probably because I had been there when
23 he first raised the issue, and sometimes I'm used
24 as the litmus test because of not having, you
25 know, a^S deep a criminal background as the others,

2 follow who did what to whom and when.

3 Q. Do you know if Mr. Feldman gave you the

5 came to you?

6 A. No, I don't think so.

7 As far as I know, we were all given
8 copies and sat there and went through it together.

9 Although, you know, I may have had it
10 before then, and it may have probably just sat on
11 my desk.

12 Q. Do you recall some press reports-- I
13 believe they were in May, but don't hold me to
14 this-- that the Department of Justice had recorded
15 there was no investigation?

16 A. Oh, yes. I remember that very well.

17 Q. Can you tell me what happened there?

18 A. Before that article came out, and--
19 and, in fact, I can even tell you what led up to
20 that.

21 Ever since Jeff got back from his trip,
22 and back-- it started right after that AP article,
23 that happened at about the time of the shooting,
24 either the 12th or 11th, the very day of the
25 shooting, about the gun running and flights out of

9 at least two calls a day on the this thing, and
10 I'm going to start referring them up there."

11 They started getting calls, and-- they
12 said, "What is the case about? Tell me something
13 about it? Tell me what to say," and I said, "So
14 far, this in the beginning. This is in the
15 beginning stage, but it's an ongoing
16 investigation. So far we don't have a lot to go
17 on."

18 Q. Who are you talking to at DOJ?

19 A. For sure, Pat Corton.

20 Q. C-o-r-t-o-n?

21 A. C, and it may be e-n at the end. I'm
22 not positive how it's spelled.

23 Possibly John Russell, but at any rate,
24 they had-- they had an inquiry, because it's not
25 unusual, public affairs gets inquiries about

1 different offices, and they call and say, "Tell me
2 what to say? What is the case about," and it's--
3 even today as we speak here, what we have got, ,
4 half a dozen AR-15's arrived, some hand grenades,
5 a mortar, launcher, and an assortment of hand
6 guns, hardly what you would have a war with.

7 That's what's provable, and that's what
8 we have to this date, and--

9 You know, the next thing I see-- look
10 at this, it looks-- what the New York Times did,
11 called them up, and say-- the New York Times
12 article, where they say it's about a half a dozen
13 guns or so, which is true, but they characterized
14 it as not being an investigation, but they
15 characterized it-- I thought it was from the
16 euphem^mism they used-- they said it was less than
17 an investigation, but something like an inquiry,
18 words like that.

19 Q. They, being the article, or they, being
20 the Department of Justice?

21 A. Oh, no. Whoever was quoted in the
22 article, in that New York Times article.

23 Q. I guess that's my point.

24 Were they quoting somebody from the
25 Department of Justice about that? ;

1 A. They said a Department of Justice
2 official.

3 I'm sure the article-- I don't know if
4 they named the article or not, but they quoted a
5 Department of Justice thing.

6 At that point, then everything took on
7 a different meaning as far as we were concerned,
8 but the way I saw that, I said, like, "This is
9 terrible. They are making someone-- someone wants
10 to make it sound like we don't have a case and
11 we're not doing something--" this may seem very
12 paranoid, but I said, "I don't like this, and we
13 have to make it clear we do have a case," and I
14 called public affairs and told them that yes, we
15 do have a case, and, in fact, after that point,
16 then we started talking about the case.

17 Q. What did they say at public affairs
18 when you called them?

19 A. I don't remember.

20 Q. Do you remember who you spoke to?

21 A. I spoke with Pat Corton, but I don't
22 remember.

23 I'm sure it wasn't angry. I'm sure it
24 was the kind of call, "Look, this is wrong. You
25 have left the impression there is no case.

UNCLASSIFIED

1 There's an investigation, and it may not be grand
2 jury yet, but an assistant is assigned to it, two
3 agents, and interviewing people, and you shouldn't
4 give that impression, it's less than what it is."

5 Granted the amount of arms involved has
6 always been small. The Miami Herald-- put this in
7 context about the same time, something about six
8 tons.

9 All these publications are reporting
10 tons.

11 To date, as we speak today, we're
12 nowhere near close to six tons, but about six
13 guns, a mortar, a few grenades, a few hand guns,
14 and maybe a sniper rifle, things like that, but
15 not tons.

16 We just aren't into tons, and, you
17 know, I don't know-- it's very likely or most
18 likely it was a misinterpretation, you know. I
19 said, "It's just a few guns so far, so far no big
20 deal," and that was interpreted to diminish what
21 it was, that it wasn't tons. We are looking to
22 make a great case.

23 Q. Can you put a date on that?

24 A. It had to be the day that the article
25 came out. I think it was in May. :

1 I think I wrote down the date and time
2 of the article when I was getting ready for this.

3 I just wrote, article, May of '86, New,
4 York Times article.

5 Q. Now--

6 A. Oh, the other thing I wanted to mention
7 about that, is why it changed the character of
8 things, was that after-- probability, I think
9 Larry to-- anyway, at the time, just discussed the
10 general facts, you know, "What is this? Why is
11 this happening, when we do have facts, have
12 this."

13 Then Jeff's memo, which had originally
14 been written down so we can understand the fact
15 took on more significance.

16 Now it became, "Write it down, because
17 we want to have something definitely in writing to
18 show this is an investigation, that you did, in
19 fact, talk to people, that we are, in fact, doing
20 something."

21 Then the memo took on a different
22 significance.

23 Q. Do you recall receiving a second draft
24 of that memo?

25 A. No. I don't remember the different

62

1 drafts, and there was a point that-- I really
2 didn't contribute to the memo.

3 It was mostly, you know, others that ,
4 may have done editorial suggestions in the memo,
5 because it was after that article in the New York
6 Times that the memo-- see, the memo was never
7 intended to go anywhere.

8 It was just for us, so we could
9 understand the case.

10 At that point, the memo took on a
11 character of, this memo is going to go to
12 Washington, so the people in the department
13 realize we have a case, and then it had to be
14 looked at as other people were going to be reading
15 it, and we had to make it very clear.

16 After that point, I think it was looked
17 at more carefully.

18 Q. Do you recall seeing a draft of the
19 memo, and this would have been a draft which was
20 approximately 22 pages in length-- in which Mr.
21 Feldman felt it was appropriate to issue grand
22 jury subpoenas?

23 A. I always thought it was the first
24 draft, but it ended up it wasn't.

25 I was present when there was a

UNCLASSIFIED

63

1 discussion about the grand jury, whether to go to
2 grand jury or not to.

3 I don't recall the date of the meeting,
4 but I was present during a discussion of the memo
5 and that particular part of it, do we start a
6 grand jury right now, or do we do, you know, what.

7 Q. Going into that meeting, had you
8 already read Jeff's memo?

9 A. I'm pretty sure I had read it by then.

10 Q. Going into the meeting, do you have an
11 opinion as to whether the grand jury was
12 appropriate or not?

13 A. I don't recall-- what I thought going
14 into the meeting, I don't recall, but I do know
15 going into the meeting, as things developed-- this
16 is-- granted my background for the past few years
17 has been mostly civil and I'm learning a lot of
18 criminal as things go along, but my limited
19 knowledge of criminal cases, I felt that you still
20 couldn't really understand the direction of the
21 case from what was in the memo.

22 That was my going into the meeting
23 feeling.

24 At the meeting, I know one of the
25 things that I recall saying to Jeff, or, you know,

UNCLASSIFIED

UNCLASSIFIED

64

1 in the general back and forth of the different
2 people who were there, is what did you plan to get
3 out of the grand jury-- I mean, what were you
4 going to present to the grand jury, because we
5 couldn't overwhelm the grand jury with every
6 single thing, you know, because we are-- and none
7 of it makes any sense to us, and it has to be more
8 organized and thought through, or have a focus and
9 direction, and then others had specific
10 suggestions.

11 Mine were more broad.

12 Q. Do you recall discussions of issuing
13 subpoenas for records, bank records, gun sale
14 records, that sort of thing, as opposed to witness
15 subpoenas?

16 Q. No.

17 What I recall, I thought, was when we
18 came up with certain names, that certain people
19 hadn't even been interviewed yet, that that should
20 be done first, and that I know bank records-- that
21 decision was not mine. That was someone else, and
22 about toll records, too.

23 You also see toll records, to see if
24 particular people were where they said they were
25 at particular times.

1 Q. Do you recall--

2 A. All that had to be done.

3 Q. Do you recall any discussion of the
4 down side or any argument against issuing bank
5 record subpoenas, or telephone toll subpoenas?

6 A. Not specifically about this, but I
7 imagine there must have been, because I have been
8 in enough meetings on other cases, where I know
9 there are certain downsides about them that are
10 raised, especially in a case where we had no clear
11 idea of what and whom was being targeted.

12 Q. Do you recall who at the meeting, took
13 what positions or-- as far as grand jury goes, or
14 did people stake out a position?

15 A. Nothing really stands out.

16 I was probably less involved in that,
17 because it's an area that I didn't feel very
18 confident in, because I would suspect that Larry
19 was the most cautious, because Larry, by
20 reputation in the office, he's known as "Doctor
21 No".

22 He's very conservative in terms of
23 leaning into anything, and he's always-- turns
24 out, he was generally right.

25 His idea was, do your background work,

UNCLASSIFIED

1 investigative work, all this homework, and then
2 you take it to the grand jury.

3 He is a very detailed person, and that
4 would probably be my guess.

5 I don't know-- Dick, I don't-- I don't
6 really have a particular recollection of what
7 others were saying.

8 Q. Do you recall what position Mr. Feldman
9 and Mr. Kellner took, Mr. Feldman and Mr. Kellner?

10 A. No, I really don't.

11 I know that Jeff, in spite of being
12 very certain what to say-- very certain about
13 things, like the facts of when things happened,
14 and he also listened, and, you know, it wasn't
15 like a heated discussion. I don't remember it
16 being, like, somebody staking out a position, Jeff
17 saying, "Yes. Yes. Yes. Go for it. Why are you
18 holding me back," and others saying, "No. No.
19 No."

20 It wasn't just that acrimonious. I
21 don't have that good of a recollection of it.

22 Q. Was there a consensus come to at this
23 meeting, regarding the grand jury?

24 A. Well, my recollection is not that good,
25 but my recollection is one of-- the agents were

1 supposed to go out an X, Y and Z people
2 interviewed, and-- there were going to be some, I
3 thought it was, airline records or something like
4 that, but-- maybe some toll records, that were
5 going to be gotten, other things that were going
6 to be gotten, and then sit down and re-visit the
7 issue.

8 Q. As you recall it, at least, there was
9 supposed to be some sort of subpoena issued for
10 some records?

11 A. I think so.

12 Q. At that stage of the investigation?

13 A. I know there were going to be some kind
14 of records maintained.

15 I seem to recall airlines, for some
16 reason, the airline records.

17 Q. Do you recall any ATF records?

18 A. ATF records?

19 Q. Yes.

20 A. No, but--

21 Q. I don't mean ATF, I mean gun stores
22 records that the ATF could obtain?

23 A. That they could obtain?

24 That doesn't stand out in my mind, but
25 that probably should have been one of the things.

1 Q. Let me make sure I have the people.
2 There was Mr. Kellner, Mr. Feldman, Mr. Scharf
3 and--

4 A. Dick may have been there.

5 Q. I understand, but we have Kellner,
6 Feldman, Scharf and yourself?

7 A. Uh-hum.

8 Q. And perhaps Mr. Gregorie?

9 A. Right.

10 Q. Anything else that you can recall,
11 anybody else?

12 A. No.

13 Q. Is there anything else about that
14 meeting you can recall?

15 A. No.

16 Q. What is your next contact with the
17 case?

18 A. Let's see.

19 In my note on that meeting, on May
20 20th, Jeff recollects that-- now that I mentioned
21 something about it, we were still unsure about
22 what kind of case it was, whether it was focusing
23 to be a gun case or Neutrality case, and we still
24 needed to get better focused in on the law in that
25 area to start developing those facts. ;

UNCLASSIFIED

UNCLASSIFIED

69

1 My next recollection-- I really didn't
2 follow-up with the memo after that.

3 I think I was shown the memo before it
4 went out.

5 Q. Which memo were you shown?

6 A. The final, you know, the ultimate memo
7 that was sent out.

8 Q. We understand that there was a draft
9 that Mr. Feldman did and submitted to Mr. Kellner,
10 and then Mr. Kellner and Mr. Scharf or Mr. Scharf
11 made some changes in that memo, and then it was
12 the Scharf/Feldman memo that went to Justice, and
13 I did see the copy or--

14 A. I'm pretty sure I saw the one that went
15 to Justice, the old one that went out, without any
16 cover on it.

17 Q. Do you recall anything about that
18 memorandum?

19 A. No, except that soon after it was sent,
20 people knew about it. That was remarkable.

21 Q. Have you any opinion as to how that
22 memorandum found its way into the public domain?

23 A. Did I have an opinion as opposed to
24 facts?

25 I have no facts that would lead me to

UNCLASSIFIED

UNCLASSIFIED

70

1 believe one way or the other, other than my
2 cynicism of Washington, and that eventually
3 everything that crosses the District of Columbia
4 line, ends up somewhere in the public domain.

5 Q. So it's your opinion that the memo was
6 distributed out of Washington?

7 A. Yes.

8 Q. All right.

9 A. And that's a strictly unfounded
10 opinion, but based on personal prejudices.

11 Q. The memo went to Washington, had an
12 ultimate conclusion section, and that conclusion
13 was that it was premature to involve a grand jury.

14 Do recall that?

15 A. Yes.

16 Q. And it listed some reasons for being
17 premature, and it said at one point, the grand
18 jury at that stage, would be quote, a fishing
19 expedition, close quote.

20 Up until showing that reference in the
21 memorandum, do you recall hearing discussion of
22 the grand jury being a fishing expedition, and
23 again, this may refer back to the meeting on May
24 20th or at any other time?

25 A. I don't remember that. ;

UNCLASSIFIED

UNCLASSIFIED

71

1 I do remember expressions of, you know,
2 "You can't just let a grand jury run amock."

3 You have got to have them focused,
4 things like that, which I guess amounts to the
5 same thing, but just not in so many words.

6 Q. Do you recall any reference to the harm
7 that might befall innocent contributors to the
8 accounts that might be subpoenaed in the event
9 that subpoenas were issued?

10 A. Yes. That was discussed at one of the
11 meetings.

12 Again, I'm not sure of which one, but
13 there was a discussion-- you know, here's these
14 people. They don't know what they are
15 contributing to.

16 They write out a check, and what is the
17 result of this, what do we do with that,
18 especially in this community, everybody-- I mean,
19 one day it's earthquakes, and another day, mud
20 slides in Colombia, or earthquakes in Honduras-- I
21 mean, revolutions here and there.

2 This is an exile community. That's the
3 way they do it.

4 Q. Do you recall discussions of those
5 facts in context of issuing grand jury subpoenas
6 in this case?

7 A. That you-- you know, it was discussed,
8 the factors of the checks, as a result of the
9 telethons, things like that, and we obviously
10 couldn't be focusing on all those people, and what
11 did we want out of it, and things like that, yes.

12 Q. Did you have any input in the final--
13 this is after May 20th, up until the memo goes
14 into the Department of Justice.

15 Did you have any input suggestions or
16 changes to that memo?

17 A. No, not that I recall.

18 Q. Now, the memo was sent to the
19 Department of Justice on or about June 3rd.

20 A. Yes.

21 Q. At or after that time, what was your
22 next contact with the Costa case?

23 A. It was very really little, and then I
24 went away, and people were on vacation.

25 I returned mid August-- my next

1 chronology could have been at the very end of
2 August, and Leon called me into his office and
3 showed me a mailing that he had received in a
4 large brown envelope, and he said, "Look at this.
5 What do you think of this? You know, what do you
6 make of this," and it was something from-- I think
7 it was from Costa Rica, and it had affidavits in
8 it of the people who had been imprisoned in Costa
9 Rica, and it was just very odd, you know, and it--
10 it just looked fishy to me.

11 In fact, I said, "This is the kind of
12 thing you kind of hate to have your fingerprints
13 on. Who knows-- "

14 It was making allegations against John
15 Kerry, allegations of improprieties, and purported
16 to have sworn affidavits of these two guys that
17 were down there, but all the facts we knew to date
18 were totally contrary to some of the things that
19 were stated in those affidavits.

20 They could have been true for all we
21 knew, but by now, you know, we were starting to
22 focus on the case, you know.

23 There was a lot more public attention
24 on it, and I said, "I just have a feeling-- I
25 don't know-- for somewhere down the line, we're

1 being set up by other people, but--" you know, "I
2 suggest you immediately do not just hold this, but
3 pass this long."

4 Q. Did you discuss passing it along to
5 whom?

6 A. Yes, to submit that to Washington, you
7 know, to make sure we-- make people aware we had
8 gotten this packet.

9 As it turned out, we learned we weren't
10 the only people to get it. We just assumed we
11 were singled out, and it turned out there was a
12 mailing to other people, also.

13 Q. Prior to late August, I believe the FBI
14 gave a very thick prosecution memo to Mr. Feldman,
15 and he passed it on to Mr. Kellner.

16 Did you ever see that?

17 A. No. It's not a prosecution memo,
18 p-r-o-s, but after the last thing-- in the sense
19 that we write prosecution memos, before we
20 initiate a RICO prosecution, something like this,
21 but simply a compilation of all of the 302's,
22 without characterization of inclusion, things like
23 that.

24 I was aware it existed, but I didn't--
25 it came in when I was-- either it came in after I

2 leave, so I was winding things up.

3 I really didn't see that.

4 Q. You say you were aware of it.

5 When did you become aware of it?

6 A. Sometime after that, that that had been
7 prepared, and passed along.

8 Q. Were you ever asked for any input on
9 the decision, about what to do for the memo--

10 A. The prosecution memo?

11 Q. Yes.

12 A. No.

13 Q. After Mr. Kellner received-- after the
14 episode in which he received the affidavits that
15 you mentioned earlier in late August--

16 A. Uh-hum.

17 Q. What was your next contact with the
18 case?

19 A. It was about that time when we started
20 getting calls, saying, you know-- asking for
21 comments on whether we were told to stop this
22 case, you know, at the request of the Department
23 of-- the request of the Attorney General, and, you
24 know, from there it just really snowballed, and
25 the press saying-- I was sitting around saying

1 this is-- this was out of the blue. It's--

2 Q. You mean the press comments?

3 A. Yes, the comments.

4 I mean, around here, it's often we're
5 the last to know, and we usually get most of our
6 information from the press, and that's how we
7 first heard of this allegation.

8 Q. When those allegation came in, did you
9 go to Mr. Kellner or anyone else, to attempt to
10 determine what the status of the case was?

11 A. Oh, yes.

12 Well, I discussed the allegations with
13 Leon, and I imagine Jeff at some point.

14 Q. What did they tell you?

15 A. Starting in there, I really don't
16 remember in terms of what the case-- we would have
17 to see what Jeff was doing at that time.

18 Garcia-- the Garcia sentencing on
19 September 15th, seemed to be a landmark for the
20 beginning of a lot of calls and things on this
21 issue.

22 Q. When you talked to Mr. Feldman, did he
23 tell you that he had passed the prosecution memo
24 on to Mr. Kellner?

25 A. He may have.

UNCLASSIFIED

77

1 I was dealing from a very limited
2 perspective of just dealing with little events as
3 they came up.

4 At that point, I really didn't see the
5 day-to-day supervision of the case.

6 The case now-- well, at some point,
7 Jeff started working-- or one of the senior people
8 started working with Jeff on the case.

9 I don't know when that was.

10 At that time, it was the person, Dick
11 Gregorie's predecessor, Joe McSorley, and once
12 Joe, you know, was assigned, to work on it with
13 him, the rest of us kind of faded out.

14 Q. Can you remember when the press
15 inquiries about alleged pressure from Main Justice
16 began to come in?

17 A. The go slow calls?

18 Q. Not the calls, themselves, but the
19 ones--

20 A. I call them the go slow calls.

21 It started with-- I know it started
22 after I came back in August, you know, sometime,
23 late September-- late August, September, they
24 started.

25 Q. Before the Garcia sentencing, which was

UNCLASSIFIED

1 in September?

2 A. I think-- my recollection is that there
3 was intense attention right around the time of the
4 Garcia sentencing, but even before that, there
5 was, just, like a call from here, a call from
6 there on this, so it was starting to maybe build
7 momentum.

8 Q. Mr. Feldman has told us that he passed
9 along the prosecution memo to Mr. Kellner some
10 time in mid August or so, and ultimately, he got
11 it back from Mr. Kellner in early November.

12 If you were receiving press inquiries
13 as early as the middle of September and taking
14 them to Mr. Kellner at that time, was he giving
15 you any indication as to what he was doing with
16 the prosecution memo or with the case, in general?

17 A. I don't recall any discussions in terms
18 of the case, itself, but more discussion really
19 focused on, you know, why is this happening.

20 You know, it may be a very limited
21 perspective to take, again, in retrospect, but
22 that was it. It was very situationally oriented
23 discussions.

24 Q. I'll be frank here.

25 The case from the time the prosecution

1 memo came in and went to Mr. Kellner, until it
 2 came out of his office on November 1st, very
 3 little, if anything, occurred in the case, and at
 4 the same time, you were feeding press inquiries
 5 about this go slow allegation.

6 Were you making an attempt to find out
 7 why the case seemed stuck in one place for the
 8 better part of three, four months?

9 A. I imagine that I talked to Jeff from
 10 time to time about it, but I really didn't look
 11 beyond that, and, you know, I should have in
 12 retrospect, but I thought that, you know, things
 13 were just taking their course, and, you know, what
 14 was-- what was needed to be done, was being done.

15 Q. Were you aware that Mr. Gregorie was
 16 reviewing the prosecution memo?

17 A. No.

18 I'm trying to figure out at what point
 19 in time Joe left.

20 I don't know if he started reviewing it
 21 when Joe left, or he just started reviewing it
 22 also at some point, but no.

23 Q. You were not contemporaneously aware
 24 that Mr. Gregorie was reviewing--

25 A. No. Not really, no. ;

1 I generally stayed out of the-- the
2 specifics of the case at that point.

3 I had very little contact with it.
4 To this day, I don't think I have seen
5 the FBI pros memo, the compilations of the 302's.

6 Q: Do you recall when the C-123 in which
7 Mr. Hasenfuss was riding, was shot down?

8 A. Yes, I do.

9 Q. How did you learn about that?

10 A. Well, interesting enough, again, the
11 press calls-- we had a very well known case, or
12 famous, where Barry Seale was a prime witness. We
13 returned the cartel indictment based on his
14 testimony, and he flew a C-123 loaded with dope
15 into Nicaragua, a trans-shipment point, and that
16 was the basis for our cartel indictment.

17 The immediate press reaction to that
18 was that it was the same plane, and when Barry
19 Seale had been assassinated in Baton Rouge, there
20 was a lot of notoriety around it, and they had,
21 like, a 20/20 show focused on Barry Seale, and all
22 these things, so the initial calls we were getting
23 was, you know, was this the same C-123.

24 There's just not that many of these
25 planes around anymore.

1 Q. Did you discuss the Hasenfus^g shoot
2 down with anyone in relationship to Mr. Feldman's
3 case?

4 A. To Jeff's case?

5 At some time later, probably initially
6 it was basically discussed in trying to find out
7 if there was a connection with the-- the same
8 C-123 that Seale had used at a later time.

9 I mean, later could mean a day or two
10 later, just not that same day.

11 I know that I talked to Jeff about it,
12 and/or Jeff came in, or I walked in where Jeff
13 was, one of those things, and there was probably a
14 general discussion about that in relation to this
15 case, was there any indication this could have
16 been something related to the people he was
17 looking into, things like that.

18 Just general-- I don't have specific
19 recollections of what particular was discussed,
20 other than, you know, yes, there probably was at
21 some point, firm discussion-- got together and
22 said, you know, "Do you think this relates to
23 you."

24 Q. You say people got together.

25 A. I wish I knew who, except, again, I

1 would suspect it's Larry, Dick, and myself, and
 2 Jeff, and I'm not-- I don't have a fix on Larry
 3 and Dick, and also, that's not to mean-- there
 4 were other meetings, you know, where Dick could
 5 have met with Jeff and Leon, and the rest of us
 6 not being there.

7 I can tell you with certainty how
 8 much-- that as to David-- David's only contact
 9 with that case was with the printout on that
 10 particular date, contrary to the report.

11 He did not work on the case.

12 Q. Did you ever discuss--

13 A. Did not participate.

14 Q. Did you ever discuss the Hasenfus^g
 15 incident with Mr. Kellner?

16 A. Probably.

17 Q. Were you getting press inquiries at
 18 that time, linking the go slow, the Costa case,
 19 with the Hasenfus^g case?

20 Is this-- the question is, is this the
 21 same investigation?

22 A. Yes. It was again about that file,
 23 when that was, again, coming up again, and the
 24 other thing that had come up was Leon had given an
 25 interview, had talked to this man from-- I think

1 Murray Wass-- I want to say New Republic. I can't
2 remember now exactly what magazine it was, but---
3 I think that was, like, in September or so that ,
4 that happened, and that article came out around
5 that time.

6 That was, like, a retrospective of the
7 Garcia and go slow, and that, I think, was in
8 time-- happening about the same time as Hasenfuss.

9 It all gets mixed together in my mind.

10 I think it was all happening about the
11 same period of time.

12 Q. Getting back to that, do you remember
13 having discussions with Mr. Kellner about
14 Hasenfus^T and Costa?

15 A. Yes.

16 I just don't remember what we
17 discussed.

18 You know, can this be part of Jeff's
19 case, what's going on, maybe it's more than six
20 guns and a mortar, all of this-- maybe he's part
21 of that? Is there any way to tell?

22 Q. Do you recall discussing the correct
23 status of the case with him at that point?

24 A. I'm sure at that point it really got
25 discussed in detail, having talked to-- who we

1 talked to, you know, the-- these people, what have
2 they been telling you, that kind of thing.

3 Q. Did you talk to Mr. Kellner about--

4 A. What was Jeff doing?

5 Q. What was Jeff doing and what was he
6 doing about the case, where it was in the
7 pipeline?

8 A. I probably asked where it was and what
9 was going on.

10 Q. Do you recall what you were told at
11 that time?

12 A. No, I really don't.

13 I more vividly recall Jeff telling
14 things, you know, than I do being told by Leon,
15 what was going on.

16 I'm sure we did have the discussions,
17 you know, because it makes sense we would have.

18 Q. Other than contact with the public
19 information office, Pat Corton, did you have
20 discussions with anyone at the Department of

2 Q. Do you recall any meetings or
3 discussions--

4 A. Wait a minute. I just want to clarify.

5 I am not personally-- that's the only
6 one I have a total independent recollection of.

7 Now, since then I have heard Leon say
8 he had discussed the case with others that--

9 Q. But at that time--

10 A. But at that time, I'm not aware of it,
11 no.

12 Q. How many trips did Mr. Feldman make to
13 Central America?

14 A. One.

15 Q. Did you have any contact on the Costa
16 case, with Mr. Mathis, Mr. Garcia's attorney?

17 A. No, not directly, but that became a
18 large part of my life, when that thing came out,
19 that article, the accusations against Jeff for--
20 that Jeff allegedly told Mathis to butt out or he
21 was going to do it to him, something like that.

22 By that time, because of the conduct--
23 a mother figure, whatever, but Jeff would come in,
24 and he was down, would tell me, "I'm depressed,"
25 and I would boost him up, and when that happened--

1 Jeff is very young, and he was absolutely
2 destroyed.

3 He was really beside himself. He
4 called me at home that night. Really didn't know
5 what to do next, just really upset, something like
6 this had never happened to him, and from that
7 point on, it almost became my mission to keep Jeff
8 boosted up and going on this thing, and him
9 saying, "It looks like everything I do gets looked
10 at wrong. How can they say this to me."

11 That was a real important event in this
12 whole scenario.

13 Q. You never had any personal contact with
14 Mr. Mathis?

15 A. No.

16 As a matter of fact, until this
17 happened, I have no knowledge of who he was.

18 Q. Up until, say, November of 1986, did
19 you have any contact with any investigators from
20 Senator Kerry's staff or any other Congressional

22 A. I may have.

23 You know, we got phone calls. May have
24 gotten telephone inquiries.

25 Q. Were you ever interviewed by anyone

1 from those staffs, from the Congressional staffs?

2 A. Over the phone or personally?

3 Q. Personally.

4 A. Well, I don't recall, but there was a
5 time we were being visited-- in that fall, we were
6 visited by lots of people, and again, that's
7 another one of those things where I wish I had
8 kept logs, where I did have things of who it was,
9 because it would have been nice to know who it was
10 now, but I don't recall.

11 I don't have any independent
12 recollection of that.

13 Q. Did you ever have any personal contact
14 with Murray Waas?

15 A. On the phone, and then I sat in on-- I
16 think it was part of an interview he was having
17 with Leon.

18 Q. To the best of your recollection, did
19 Mr. Kellner tell Mr. Waas anything that departed
20 from what you have related to us today?

21 A. No.

22 I thought-- what I was particularly
23 angry at was because I think I was in the room for
24 the part when he was asked, "Have you talked to
25 the Attorney General."

1 It was a-- it was two distinct
2 questions, which when he wrote the article, merged
3 into one.

4 The first part of the question was,
5 "Did you talk to the Attorney General about the
6 case," and Leon said, "No. No, except for that
7 one event."

8 He said, "No. I never got a phone call
9 from him. Never talked to him about it."

10 Q. All right.

11 A. And the second part of the question,
12 "Did you talk to the Attorney General at all," and
13 he said, "Maybe half a dozen times in my life,"
14 and when he wrote the article, he put it in such a
15 way that it made it sound like, although Kellner
16 talked to him, the Attorney General-- he did at
17 least speak to him half a dozen times about it.

18 In the context of the way he put it, it
19 was really pitiful the way he put it, and it
20 bothered me that anybody would have done that.

21 Let me say that was my first loss of
22 virginity with the press, and I said, "This is the
23 end of trust now."

24 Q. Other than the pieces of correspondence
25 or memoranda that we have discussed and the notes

UNCLASSIFIED

1 you have-- said you saw, do you have any
2 recollection of seek or having input any other
3 correspondence, memoranda, anything like that?

4 A. Well--

5 BY MR. GENZMAN:

6 Q. Any written products on the Costa case?

7 A. No. No, because other than that memo, I
8 don't really remember any other major written
9 product on that case, involved in that case.

10 Q. Let me ask the ultimate question.

11 To your knowledge, did anyone in this
12 office or in the Department of Justice, give or
13 receive instructions or suggestions that the case
14 should be handled in a dilatory fashion or someone
15 should go slow or words to that effect?

16 A. No, and you know what is really
17 remarkable about this that really upset me to know
18 end, if there was anything that we have after this
19 whole thing came out, discussed, is how odd it was
20 that nobody did anything or said anything, and
21 that, you know, wonder-- maybe it was deliberately
22 ignored or deliberately left alone, because
23 somebody thought it might come back some day,
24 but-- at the time it didn't seem to us it was
25 going to be a highly charged case, just like

UNCLASSIFIED

90

1 another gun case in Miami, but now, I really-- the
2 fact nobody did anything is kind of interesting,
3 in itself.

4 Q. Since the time when Mr. Kellner and Mr.
5 Feldman came to Washington to offer their
6 depositions-- I think that was the end of April--

7 A. Yes.

8 Q. Have you discussed with Mr. Kellner or
9 Feldman, what occurred at those depositions?

10 A. Yes.

11 Q. And on how many occasions?

12 A. When they came back, I was consumed
13 with curiosity.

14 Q. Did they tell you what questions were
15 asked?

16 A. Not specifically, other than the
17 general topic matter was the go slow business, and
18 then we know that, you know, Jeff was called back
19 a second time, and he came back and he told me,
20 "Ana, your name came up all of the time, you know,
21 and now everybody wants to know if you said or did
22 anything, to David," and I said, "Oh, great."

23 Q. In the course of any of these
24 discussions, be it the discussion on the
25 chronology or the depositions, has anyone ever

1 suggested to you or asked you to say anything that
2 wasn't truthful, or try to create a recollection
3 you feel honestly you did not have? .

4 A. No.

5 Absolutely not, no.

6 I'll tell you what-- this job just
7 isn't worth it to have done it.

8 Q. Have you had any discussions with Mr.
9 Leiwant about this case, since the day he came
10 apparently to you and told you that he had been
11 the source of the story?

12 A. Yes, and not of my making, because I
13 really-- from the day he went-- and it was to Dick
14 and I-- Dick and I were talking, and he came in
15 and told us, you know, "I have been so totally
16 uncomfortable about it," and knowing, you know--
17 going back and saying, "Oh, my God, how did this
18 thing come up," just trying to avoid any further
19 thing, and immediately--

20 We're in the provinces, but we're not
21 that stupid, realizing that the next step,
22 anything we say beyond this would be interpreted
23 badly, no matter what we did, so we specifically
24 just tried to stay away.

25 I made, you know-- David did come in to

2 so on, and usually-- more mechanical questions.

3 I think he was very upset when
4 different events happened.

5 I recall a newspaper article the first
6 time his name came out in the paper, he was very,
7 you know, upset.

8 You know, he came to see me, and said,
9 "Do you know that my name is in the paper," and I
10 said no, and it was-- he had a friend. It was a
11 paper in another city, and he had a friend that--
12 who called him up and told him, and I think it was
13 Boston.

14 You know, it seems like it was Boston.
15 I don't remember, and I said, you know, "Well,
16 David, it's bound to happen."

17 You know, "What can I tell you?"

18 Then we had discussions about how he
19 was going to go up there, I guess, when you guys
20 talked to him the first time, the arrangements
21 for the travel, and then when we heard that

2 was going to come out in the paper the next day.

3 Q. Did you ever discuss your varying
4 recollections with Mr. Leiwant?

5 A. Yes, on the day he walked in and told
6 us.

7 I think it was on a Monday, and it was
8 in Dick's office, and I came in-- thought he was
9 coming in to see Dick, and I was just leaving, and
10 ~~X~~ ^{he} said " No, Ana. I want to tell you something,"
11 and he told us this, and my thing was, how could
12 you say this-- if I was supposed to have been
13 there, I never-- I have never been in a room when
14 Meese called about anything.

15 BY MR. GENZMAN:

16 Q. Can you remember, the best you can
17 recall, what he told you and Mr. Gregorie on that
18 day?

19 A. I came in and he said he had been-- the
20 reason he was coming forward, he had been called
21 by Heydon Gregory and a reporter, and he felt it
22 was going to come out eminently, and that he had
23 to tell us that he had been in the room where-- at

1 He just recalls it was me, Jeff and
2 Leon, and that he thought that Leon-- he was there
3 and Leon was talking on the phone, and that he got
4 the impression that he was talking to someone from
5 the Justice Department, that he may have said a
6 name, like, Trotter, Jensen at the time. I don't
7 recall.

8 When he got off the phone, he said
9 something to the effect that, "They want us to go
10 slow," and said he grimaced and-- "I knew it was a
11 joke," and that was that, and he went to Atlanta--
12 he's in the appellate section of the office, and
13 he had gone to an appeal in Atlanta soon after
14 that, and he ran into this good friend, John
15 Mathis, and at some point had a couple of drinks
16 with him, and said, "Guess what I saw or heard,"
17 whatever, and you know, I just remember after
18 that, it all registered, because until that point,
19 until that very minute, that was-- I had no idea.

20 We were all running around, saying, "I
21 know it's not me," and, you know, "It's you" and

3 I only remember-- just don't know how
4 you could remember that, and I was there, and the

6 at that point, some sort of happening, where you
7 realize, this is the time to stop talking, don't
8 want you to change your mind. If that's what you
9 believe, fine, so be it, but our recollection is
10 different.

11 Q. What was Gregorie's response?

12 A. Stunned.

13 I don't think that Dick said anything,
14 which is ironic.

15 You know, this whole thing was over,
16 and we sat down together over it. I said, "Dick,
17 you're the great criminal advisor. We didn't ask
18 how, when, where, what, how many people did you
19 tell, and all of the relevant questions we are
20 dying to know, because you just--" it could have
21 blown us away. There was no way we could have
22 ever thought that.

25 different recollections?

UNCLASSIFIED

UNCLASSIFIED

96

1 I asked you at the beginning, "Did you
2 ever discuss it with him," and you said not of
3 your own volition.

4 A. Yes, because after he was in
5 Washington, he was deposed and he came back, and--
6 I don't know the timing, but after he was deposed,
7 and Larry Scharf was sitting there, and I just
8 started spontaneously talking about-- he said, you
9 know, "Well, I'm glad it's over."

10 It was one of-- giving the impression
11 it was all a big misunderstanding and it was kind
12 of resolved.

13 He talked about it, and I don't really
14 remember, because I know that Larry and I just
15 kind of sat there, surprised, you know, it was
16 like a little recollection of what he had said,
17 and I think he wanted to tell us, "Look, I took
18 care of it all," or, "It's all straightened out."

19 At least that's my impression of the
20 conversation, but we studiously avoided
21 questioning him, and saying although-- I think we
22 did ask him, "You still don't even remember Larry
23 being there," something like that, and I-- he
24 probably said no.

25 That was the other time when that was

2 Q. This is probably a hard question to
3 answer, but I got to ask it anyway.

4 Do you know of any reason why Mr.
5 Leiwant would say this? Do you have any
6 explanation for it?

7 A. For it?

8 Q. Yes, just different recollections, any
9 motivation Mr. Leiwant might have to--

10 A. To have done that?

11 Q. To come up with this?

12 A. I don't, and that has caused me no end
13 of sleeplessness, simply because I always prided
14 myself as having a lot of insight to people, and
15 why people do things, or where people are coming
16 from and why things happen, and this is just one
17 of the most totally perplexing things I have ever
18 been involved in.

19 It's beyond me to understand it.

20 Moreover, I'm still just amazed that
21 David has no-- at least that I can perceive
22 comprehension of what has happened as a result of
23 this.

24 I mean, he just doesn't appreciate-- he
25 just thinks it's a slight misunderstanding, and it

1 will go away.

2 He had no understanding of the
3 incredible hurt it has caused to people, and the
4 hurt it has caused him, which is kind of sad in
5 another way, too.

6 Q. Do you know of any political
7 motivations or personal animosities, that you are
8 aware of?

9 A. No, simply because in the appellate
10 section, I mean, it's a section in the office that
11 just really isn't involved.

12 He-- until then, he always enjoyed the
13 confidence of the U.S. Attorney.

14 I know he had been called in to work in
15 special confidence, on projects and things, and
16 the only thing that makes any sense, and it really
17 could explain it, is simply that-- I don't say
18 this happened for sure, but Mathis might have
19 said, "I'm working on such and such a case," and
20 he said, "I was there and they were discussing
21 it," and talk, you know, exaggeration, you know--
22 I don't know, something to make yourself feel more
23 important than you are, that you are in on
24 something, and--

25 In fact, that doesn't really make

1 sense, but that's the only plausible explanation I
2 could have for it.

3 Then being caught in a situation, you,
4 know, you're saying you never thought it would go
5 beyond that.

6 You know, the old story, you tell your
7 kids even if you tell a little lie, at some point
8 it becomes a big lie, and then you're almost
9 committed to it.

10 I don't know if it was political. It
11 would-- I never have just thought of anybody here
12 as being political in any way.

13 I don't even know whether they are
14 Democrats, Republicans or what.

15 MR. MCGOUGH: I think those are the only

17 Do you have any further questions?

18 BY MR. GENZMAN:

19 Q. Just a few.

20 I heard you mentioned that Mr. Leiwant
21 indicated it was just a misunderstanding.

22 A. That was the impression he gave me.

23 He gave me that impression from his
24 deposition in Washington that day, and it was
25 almost as though-- and I find this remarkable--

1 almost as if he was making light of it.

2 I guess it was to re-assure us, "Look,
3 it's all solved, taken care of," almost a
4 childlike innocence about it. It was amazing.

5 Q. Did he go into detail about the nature
6 of the misunderstanding?

7 A. No, because we didn't want to get
8 really in it, but that was just the impression, it
9 was, like, it was all taken care of, and he
10 explained everything, and it was all, you know,
11 done.

12 I think it was, "Don't worry, guys.
13 It's all resolved."

14 Q. Has he ever expressed any occasions
15 that he had been confused or had exaggerated the
16 incident?

17 A. Not to me. Not to me, but then, you
18 know, maybe some day when this is over, I can say
19 what did happen.

20 I just really would like to know what
21 did happen.

22 Q. But to your knowledge, he has always
23 stuck by his account of what happened?

24 A. I'm not really sure of what his account
25 of what happened is, other than what he told us

1 that day.

2 I have to tell you, my most vivid
3 recollection is that I literally felt that I had a
4 lump in my throat, when I finally realized,
5 "David, it's somebody here."

6 You know, I think that's really what
7 the overwhelming response was.

8 He gave an explanation at that point.
9 I don't remember it specifically, you know, what
10 would have made him do that.

11 Q. In conversations with you, his story
12 has never been inconsistent, has it?

13 A. No, but then I have never known the
14 story, so that's one thing.

15 Q. What I'm getting at, from what he has
16 said on various occasions, have you found any
17 inconsistencies or reservations or admissions of
18 confusion or mistake?

19 A. Only in that he's just remarkably
20 vague.

21 The story about the grimacing, because
22 I know he didn't do anything, because-- "Leon
23 went, who are they, and went ahead--" it's
24 something that I don't even remember happening.

25 That's the only thing-- that he

102

1 repeated again, when he came back, that little
2 part of it.

3 I remember that, so I guess he is
4 sticking with whatever he said.

5 I would love to see what he said.

6 I would like to see his deposition, but
7 then we'll all know, because Hughes will have it
8 and it will be on TV.

9 MR. GENZMAN: I have nothing further.

10 MR. MCGOUGH: Nothing further. Thank
11 you.

12 THE WITNESS: What I'm going to do is
13 gratuitously add something, by the way.

14 MR. GENZMAN: We ask you to do that.
15 Tell us the answer to questions we should have
16 asked.

17 THE WITNESS: You mentioned I recall
18 earlier something that triggered something that I
19 recollected.

20 You said how many times had Jeff
21 Feldman gone to Costa Rica, and I recall seeing
22 ~~some~~ Lewis Tamms^b testify that there were two trips, and
23 I came back to the office and I went to admin, and
24 asked, "Did Jeff Feldman go to Costa Rica two
25 times? Let me see his travel vouchers," and there

103

1 was only one trip, so I went to Jeff and said,
2 "You know, that man said you were there two
3 times," and then we started-- he was confused. .

4 It was not Jeff Feldman. It was John
5 Mathis, because he testified at some public trial,
6 and for some reason, either-- I don't know,
7 whatever. I'm not going to say he would
8 misrepresent himself, but he got misrepresented as
9 a U.S. Attorney, and that created some kind of
10 inquiry to this office about unauthorized travel
11 by a AUSA, and I said, "That's what that was
12 about."

13 We had an inquiry about unauthorized
14 travel at the time, and that's my gratuitous
15 comment.

16 MR. MCGOUGH: Okay.

17 (Thereupon the deposition was concluded.)

PROCEEDINGS

1
2 Whereupon,

3 LINDA JUNE BARTLETT,
4 called as a witness by counsel on behalf of the Senate
5 Select Committee and having been duly sworn by the Notary
6 Public, was examined and testified as follows:

7 EXAMINATION

8 BY MS. NOURSE:

9 Q Could you state your full name for the record,
10 Ms. Bartlett?

11 A Linda June Bartlett.

12 Q And sometime during 1981 you came to be
13 employed at the National Security Council?

14 A That's correct.

15 Q And at that time were you assigned to work
16 with Ken deGraffenreid?

17 A Yes, I was.

18 Q And you left the NSC sometime during March of
19 1987; is that correct?

20 A That's correct.

21 Q And during that entire period you were
22 assigned to Mr. deGraffenreid; is that correct?

23 A That's correct, except for a period of a month
24 to a month and a half, two months. I was assigned to
25 someone else.

1 Q Who was that?

2 A Barry Kelly.

3 Q Could you just give us a quick description of
4 your duties on behalf of Mr. deGraffenreid?

5 A I was his secretary. I typed, took dictation,
6 phones, filed -- the usual.

7 Q Let me ask you some questions about our
8 favorite system, System IV, and System IV documents. I
9 understand that System IV documents are those that relate
10 to covert action or are highly sensitive; is that
11 correct?

12 A That's correct.

13 Q And System IV documents are kept in a separate
14 file room or safe that is taken care of by Jim Radzinski;
15 is that correct?

16 A He was in charge of those at one time.

17 Q He was the security officer in charge of
18 System IV documents up until November of 1986; is that
19 right?

20 A He left, yes, that fall.

21 Q And Brian Merchant took over from Jim
22 Radzinski as the security officer in charge of the files;
23 is that right?

24 A Yes. He took over temporarily, yes.

25 Q To your knowledge, did Jim Radzinski and his

TOP SECRET
UNCLASSIFIED

UNCLASSIFIED

6

1 successor, Brian Merchant, did they -- how should I put
2 this -- let me ask this a different way.

3 Did Mr. deGraffenreid, to your knowledge,
4 supervise Mr. Radzinski and his procedures for taking
5 care of the System IV documents?

6 A Supervise in what way?

7 Q Did Mr. deGraffenreid create the procedures to
8 take care of those documents or did he approve the
9 procedures that Mr. Radzinski would use to take care of
10 the System IV documents?

11 A I don't know how to answer that.

12 Q If you don't know, you don't know.

13 A Mr. deGraffenreid was head of the
14 intelligence.

15 Q And as head of intelligence he would have
16 general responsibility for everything within the
17 department, but you don't know specifically about the
18 procedures; is that what you're trying to tell me?

19 A Well, since he was head of the intelligence
20 directorate there and System IV documents were located
21 there --

22 Q Did he have overall responsibility to take
23 care of the System IV documents?

24 (Pause.)

25 Let's move on for a minute. Let me ask the

UNCLASSIFIED

UNCLASSIFIED

7

1 question in a more concrete fashion. Would Mr.
2 deGraffenreid and Jim Radzinski or, later, his successor
3 have meetings, discussions about the System IV security
4 procedures, to your knowledge?

5 A I don't recall any specific meetings. I think
6 over the years they must have. There would have been
7 something there.

8 Q On a day-to-day basis, if someone in the NSC
9 wanted to see a System IV document would they go to Jim
10 Radzinski? Would they go to Mr. deGraffenreid? Between
11 those two, what would be the normal procedure?

12 A If they requested a document, then they would
13 go to Jim, or they may call through me. It would just
14 depend.

15 Q So you did get calls occasionally for System
16 IV documents?

17 A On occasion.

18 Q They would call you and ask you to pass a
19 message to Mr. deGraffenreid?

20 A If Jim wasn't there, or I'd say well, you'd
21 have to talk to Jim or something like that.

22 Q Okay. Let me get this clear. If Jim
23 Radzinski was not available for a System IV request,
24 someone from the NSC might ask you to go look for the
25 document, or would they ask you to speak to Mr.

UNCLASSIFIED

UNCLASSIFIED

8

1 deGraffenreid about the document -- just on a normal
2 daily basis. I'm just talking generally.

3 A If Jim wasn't there, then of course they would
4 go through me to request the document.

5 Q And was it your normal practice to then go to
6 Mr. deGraffenreid and speak to him about getting the
7 document, or would you go to the files and proceed to
8 fill the request?

9 A As a procedure, I would probably occasionally
10 speak to Mr. deGraffenreid. It would just probably
11 depend on --

12 Q So on some occasions you might speak to Mr.
13 deGraffenreid --

14 A And on some occasions I may just go directly
15 to the files.

16 Q By the way, did you know Mr. Radzinski? I
17 mean, was he a part of sort of a team in the office, or
18 was he off on his own doing his own job? Was he
19 integrated into the whole intelligence directorate?

20 A He was part of the office. He was working
21 right in the office. He couldn't help but be part of the
22 office.

23 Q Is where he works just physically close to
24 where you worked? I'm just curious.

25 A Yes.

UNCLASSIFIED

TOP SECRET
UNCLASSIFIED

9

1 Q Did he keep what you considered to be a very
2 close hold on the documents? Was he very protective of
3 his domain, so to speak?

4 A Well, the documents were sensitive.

5 Q Was he generally considered a reliable person
6 in the office?

7 A Yes. He was a dedicated, reliable person.

8 Q Let me ask you this. Could you just tell us
9 who had access to the System IV files?

10 A Physically?

11 Q Physically, the hard copy in the safe. Who
12 had the combination to the safe to have access to those
13 documents?

14 A Well, realistically anyone in the office would
15 have had access to the safes.

16 Q Anyone in the intelligence directorate?

17 A Yes.

18 Q And could you just name for us those people in
19 the office, to make sure we have a clear record?

20 A At that time, of course, me, Mr.
21 deGraffenreid, Mr. Canistraro, Mr. Major. Who else was
22 there at the time? There was Jim, the secretaries there
23 --

24 Q Kathy Gibbs?

25 A Kathy Gibbs and Pat Rawson. And Colonel May.

TOP SECRET
UNCLASSIFIED

UNCLASSIFIED

10

1 Q He was in charge of space programs, as I
2 remember, a highly relevant topic to this investigation.

3 A Yes.

4 Q Were the combinations in a separate location,
5 a central location -- the combinations to the safes -- so
6 that if someone wanted to have access to the safe they
7 could go to a drawer and look at the combination?

8 A Yes. The policy was to have them in one place
9 and people would know that one safe combination in case
10 there was a necessity to pull it out.

11 Q And everyone in the office knew where those
12 were?

13 A They were supposed to. I can't vouch for them
14 all.

15 Q Theoretically they knew.

16 Now I understand Mr. Radzinski kept a computer
17 record of his documents in the System IV files. Were you
18 familiar with that computer system at all?

19 A No. I never got involved with the computer
20 aspect of it.

21 Q Do you know if anyone else in the office was
22 either involved with the computer aspect of it or knew
23 how to run the computer?

24 A That was brought up one time. I didn't have
25 time to do it. Pat was trained on it briefly -- Rawson.

UNCLASSIFIED

UNCLASSIFIED

11

1 That must have been at least a couple of years ago --
2 briefly. I'm not sure if she remembers how to do it.
3 That was quite a while ago.

4 Q Have you seen her actually using the computer
5 ever?

6 A Oh, at one time. As I said, this was probably
7 at least two or three years ago.

8 Q Were these occasions when you saw her using
9 the computer two years ago, these are the times that you
10 remember; or do you remember it occurring on and off?

11 A No. We were severely understaffed.

12 Q At the time?

13 A At the time.

14 Q So that when you saw her using the computer it
15 was two or three years ago, or two years ago?

16 A To the best of my recollection, yes.

17 Q Was there anyone else in the office that was
18 trained on the computer?

19 A No, not to the best of my recollection. No
20 one else was trained.

21 Q Did Mr. deGraffenreid know how to use the
22 computer, to your knowledge?

23 A No, not to my knowledge.

24 Q And you said that you yourself did not know
25 how to use the computer; is that correct?

UNCLASSIFIED

TOP SECRET
UNCLASSIFIED

12

- 1 A That's correct.
- 2 Q I take it as Mr. deGraffenreid's secretary you
3 had occasion to type in System IV documents; is that
4 right -- type for him?
- 5 A Yes, that's correct.
- 6 Q And you would get a number from Jim Radzimski
7 for the document; is that right?
- 8 A That's correct.
- 9 Q Okay. Did you ever have occasion to type a
10 document that did not have a number and was termed a non-
11 log document?
- 12 A When we submitted admin memos I don't believe
13 we put them in the system.
- 14 Q By admin memos do you mean memos dealing with
15 administrative affairs?
- 16 A Administrative matters.
- 17 Q These memos did not include highly sensitive
18 matter?
- 19 A No. Those were usually unclassified.
- 20 Q That's why they didn't get a system number,
21 because --
- 22 A Well, that was the procedure at NSC, whoever
23 formulated the policy, but I'm not sure about that.
- 24 Q These were day-to-day, normal affairs. Okay.
25 Have you ever seen a non-log document? Did

TOP SECRET
UNCLASSIFIED

UNCLASSIFIED

13

1 you see a non-log document in the course of your duties
2 as Mr. deGraffenreid's secretary? What I mean by that is
3 a document that on the upper righthand corner, instead of
4 the System IV number you will see the term "non-log".

5 A I don't recall any specific particular
6 documents.

7 Q Let me ask you again, to go back to the
8 procedures for the System IV documents, if someone came
9 to you and asked you for a System IV document, how would
10 it be that that document would find its way back into the
11 files? In other words, was there a procedure so that if
12 an original was taken out of the files that it would go
13 back in where it was found?

14 Was there something that you did when these
15 requests came to you?

16 A Well, the person requesting the document would
17 bring it back to the office. It would be logged back
18 into the computer log, and then it would be filed back
19 into the file itself, the hard copy.

20 Q When you say logged back into the computer
21 log, if an original were taken out, there would be a
22 computer entry indicating that it would be taken out, to
23 your knowledge?

24 A That would be the procedure, yes.

25 Q How many times would you say that requests

UNCLASSIFIED

UNCLASSIFIED

14

1 came to you for System IV original documents? Was it a
2 normal event -- it happened every day -- or was it once a
3 month, twice? I'd just like to get some idea.

4 A It's hard to say. It varied. There was no
5 set pattern.

6 Q Let me see if I can get you to be a little bit
7 more specific on that. How many times during the course
8 of your duties in a year would a request be made to you
9 to pull a System IV original -- ten times, 100 times?
10 Can you give me any ballpark kind of figure?

11 A I really couldn't, because it varied -- people
12 requesting.

13 Q Would you consider it to be a normal request
14 for a System IV document, or would it be unusual for
15 someone to come to you for a System IV document?

16 A It would be a routine request for somebody on
17 the staff calling up for an intel report.

18 Q And would these requests come to you generally
19 when Jim Radzinski was unavailable or would people just
20 talk to you?

21 A It would depend.

22 Q Sometimes even if Jim might be available as
23 well?

24 A It would depend. Since, you know, they knew I
25 worked in the intel office, it just would depend.

TOP SECRET
UNCLASSIFIED

UNCLASSIFIED

TOP SECRET

15

1 Q What would you do when a request came in for a
2 System IV original? You'd go to the hard copy, pull it?

3 A I would ask the person handling the System IV,
4 if Jim was there, if he could. If not, then I would try
5 to fill the request.

6 Q Okay. So normally if someone asked you for a
7 System IV document you would go to Jim Radzinski and ask
8 him to pull the document. He would do so. He would hand
9 you the document, the original document. At that point
10 would some entry be made somewhere to indicate that the
11 document had been taken out of the System IV files?

12 A That would be the correct procedure, yes.

13 Q Would you make that entry somewhere? Would
14 you make a written record?

15 A If he was not available, it should be on the
16 computer, yes.

17 Q Okay. I'm sorry to be so dense about this,
18 but if we can just back up a minute. If Jim Radzinski
19 were there and you had a request for a System IV
20 original, you would bring it to him, he would pull the
21 hard copy. He would make an entry on his computer; is
22 that correct?

23 A That would be the correct procedure, yes.

24 Q All right. If Jim Radzinski were unavailable
25 and there was no one tending the files that day and

UNCLASSIFIED

TOP SECRET

UNCLASSIFIED

16

1 someone had brought you a request, you would go in and
2 pull the hard copy and then would you make a notation
3 somewhere, a note for Jim, or what would you do?

4 A That would be the right way of doing it
5 because I don't know how to work the computer -- writing
6 it down on paper.

7 Q That's what I wanted to know.

8 A I would write a note.

9 Q You would write a note to Jim and say I took
10 these documents at so-and-so's request -- something along
11 those lines?

12 A Yes.

13 Q Do you remember any specific request for
14 System IV documents in the year 1986?

15 A In 1986?

16 Q First of all, tell me how many times you think
17 people requested documents, if you can, during 1986.

18 A It's hard to say. I don't know how many came
19 directly to Jim.

20 Q Well, no, only those requests that came to
21 you.

22 A Came through me?

23 Q Yes.

24 A I really don't recall.

25 Q Do you remember requests from Lieutenant

UNCLASSIFIED

UNCLASSIFIED
TOP SECRET

17

1 Colonel North during 1986 to pull a System IV original?
2 Do you remember any such request?

3 A No, I don't recall that at all.

4 Q Do you remember any requests from Fawn Hall,
5 his secretary?

6 A To the best of my recollection, I don't recall
7 anything.

8 Q Perhaps earlier in date, covering 1985, do you
9 remember any specific requests from Robert McFarlane for
10 a System IV original document?

11 A No, I do not recall that.

12 Q How about from his secretary, Wilma Hall?

13 A No, I don't recall that either.

14 Q Back to 1986, do you remember any requests
15 from Lieutenant Colonel Earl for a System IV original?

16 A No, I don't.

17 Q And Commander Coy for a System IV original?

18 A No, I don't recall that either.

19 Q Did Mr. deGraffenreid ever ask you to pull
20 System IV originals for him? I imagine that during the
21 course of his work with these documents that he might
22 have.

23 A Well, it was Mr. deGraffenreid's habit, or he
24 did like to work with original documents because of all
25 the notes written on the original documents so that he

UNCLASSIFIED
TOP SECRET

UNCLASSIFIED

18

1 could see. That was something normal for him.

2 Q The notes written on the originals, he wanted
3 to see notes on the original documents, or the originals
4 would be clean so that he wouldn't have to deal with
5 notes on copies? Which one of those?

6 Let me ask the question in a simpler fashion.
7 He wanted to see the originals because of notes that were
8 written on the originals?

9 A Yes, any side margin comments or anything like
10 that.

11 Q Okay. And so it was his regular practice to
12 ask you for a System IV original and you would go to
13 either Jim or to the files and bring him back the
14 original document; is that correct?

15 A Yes, that's correct.

16 Q Let's go to November 1986. Did Mr.
17 deGraffenreid ask you during November 1986, do you
18 remember any specifics about documents that he asked you
19 for during that period?

20 A I don't recall anything specific, no.

21 Q Let me ask you a question that I'm curious
22 about. You mentioned to me that Mr. deGraffenreid liked
23 to work with originals because of marginalia on the
24 original. Do you know how that marginalia would arrive
25 on that document?

UNCLASSIFIED

UNCLASSIFIED

19

1 A When we create the System IV documents they
2 are information or action memorandums. They do go across
3 to the West Wing for whatever purpose, and then when they
4 come back it would sometimes have comments or notes or
5 something to that effect on them.

6 Q So as a general matter it would likely be that
7 the marginalia would be --

8 (A discussion was held off the record.)

9 MS. NOURSE: Back on the record.

10 BY MS. NOURSE: (Resuming)

11 Q I was in the middle of a question. The
12 marginalia would generally be something someone had
13 written in the West Wing, typically the National Security
14 Advisor; is that right?

15 A Yes, it would be, typically.

16 Q Aside from that reason, do you know of any
17 other reason why people would want to see the original as
18 opposed to a copy?

19 A I can't answer for other people; I don't know.

20 Q Okay. It's just something I'm curious about.
21 Generally when a System IV document would be requested,
22 would you assume that the original was what the requester
23 would want? Let me clarify that.

24 If someone came to our security officer and
25 said I want X document, he would hand me a copy of the

UNCLASSIFIED

UNCLASSIFIED
TOP SECRET

20

1 document, not the original, and I'm just curious whether
2 it was a standard practice to hand out the originals or
3 whether you would make a copy if a request came to you
4 for a document.

5 A Could you repeat the question again, please?

6 Q Sure. Was it your normal practice to obtain
7 the original from the System IV files upon a request for
8 a particular document, or would you make a copy of that
9 document and give it to the person who had requested it?

10 (Pause.)

11 Let me give you a hypothetical. Someone from
12 the NSC calls up and says I want document 4002, and you
13 say fine, hang up the phone. Jim Radzimaki's not there.
14 You are there. You go look for the hard copy of the
15 file. Now you find 4002. Is it your assumption that the
16 person wants the original at that point and you will hand
17 him the original, making a note to Jim that you've done
18 that?

19 A It would not probably be my assumption.

20 Q Would you ask the person in this case whether
21 they wanted a copy or the original?

22 A If I were processing the document, I would
23 probably just -- it would depend if they would want it as
24 an add-on to their other package or, you know, the reason
25 they want it. It would just depend.

UNCLASSIFIED

21

1 Q What were the typical reasons that they would
2 want -- you mentioned something about an add-on to a
3 package.

4 A Yes. If there was a follow-on action or
5 something to a package that was already initiated, yes.

6 Q So I've never been very clear about add-ons, I
7 have to confess. Could you explain for us simply what
8 the add-on procedure was or what an add-on memo is?

9 A Certainly. If the first document you
10 initiated in System IV goes across the street and is
11 acted upon by the Advisor or the Deputy, it comes back
12 for further action. If it was necessary for you to
13 resubmit another memo, you would probably usually do an
14 add-on and retain the same original number, System IV
15 number, so that it could be logged in together. It would
16 be a good reference point.

17 Q Would you need the original System IV document
18 when you were creating the add-on? In other words, you
19 had suggested earlier that one of the reasons why one
20 might request a System IV original is for the purpose of
21 creating an add-on memo. I'm just not quite sure how
22 that works.

23 A Hypothetically, if I was doing the package I
24 would probably send over the original. It might be an
25 attachment or something to the add-on package, so that

1 the Advisor could see the original.

2 Q I see. Aside from that reason, are there any
3 other reasons you can think of why one might request the
4 original System IV document?

5 A I really do not know myself.

6 Q Let's go back to the situation about the
7 difference between originals and copies. If someone
8 called you up and asked for a System IV document and Jim
9 Radzinski was not there and you'd go in and try and
10 process the request, if the individual requesting the
11 document did not say one way or the other, would it be
12 your standard practice to make a copy of the document
13 that's in the files and give the copy to the person
14 requesting the document?

15 A I don't know if you would really say a
16 standard practice. I guess it would just depend, you
17 know.

18 Q But you did on occasion? On some of the
19 requests you would make copies?

20 A Make copies of the System IV?

21 Q And keep the original System IV document in
22 its file?

23 A I may have on occasion done that. I don't
24 recall any specifics.

25 Q And on other occasions you would actually send

1 the original to the individual requesting the document?

2 A I would send whatever, the System IV intel doc
3 or report to the person.

4 Q You would send the original to the person?

5 A The intel report itself, rather than Xeroxing
6 it.

7 Q Are these particularly long documents?

8 A Some of the intel reports are.

9 Q Let me go back again to how you would let Jim
10 know that you had taken out an original or made a copy.
11 It was your practice to leave him a note, is that
12 correct, as to what action you had taken -- whether you
13 had made a copy or processed the document by sending the
14 original on? You would tell him what you had done so
15 that the file --

16 A I would verbally tell him, if he were there,
17 if he was going to be back, or I'd write a note or
18 something if he was not there for a while.

19 Q Okay. Was there any other system by which
20 those documents were kept track of?

21 A I don't understand.

22 Q Was there a log in which you would write I
23 signed this document out to Admiral Poindexter, for
24 instance?

25 A No, I'm not aware of any log.

1 Q There was no other procedure aside from
2 letting Jim Radzinski know by telling him orally or by
3 writing him a note that you had taken the original and
4 made a copy?

5 A That's correct.

6 Q Let me show you a note. I will mark this as
7 Bartlett Exhibit 1.

8 (The document referred to was
9 marked Bartlett Exhibit Number
10 1 for identification.)

11 No doubt you have seen this note before, since
12 it was blown up and shown on television recently.

13 A So I understand, if this is the same one.

14 Q Let me ask you this. Aside from the
15 television blowup version of this document, which is a
16 series of seven System IV numbers, did you see this
17 document ever prior to November 1986?

18 A No, I don't recall seeing this.

19 Q Let me ask you, because the question is
20 slightly unclear, did you see it during November 1986 at
21 any time?

22 A I don't recall seeing it during November. I
23 was shown it later by the Independent Counsel, if this is
24 the same one with my initials on it.

25 Q We'll get to that in a minute, but you don't

1 recall seeing the note in this form aside from
2 Independent Counsel or what you might have seen on TV?

3 A No, not to the best of my knowledge.

4 Q Let me mark this as Bartlett Exhibit 2.

5 (The document referred to was
6 marked Bartlett Exhibit Number
7 2 for identification.)

8 Let me ask you first to focus on the lower
9 lefthand corner, to a note signed JB, which appears to
10 read: signed out to Ollie North, with the initials JB,
11 all in a circle. Is that your handwriting?

12 A Yes. It's my handwriting. JB.

13 Q And JB are obviously your initials. Do you
14 remember ever seeing this document?

15 MR. McGRATH: Let's go back and go slow. Is
16 the handwriting, "signed out to Oliver North", is that
17 your handwriting?

18 THE WITNESS: Yes. It appears that it is my
19 handwriting.

20 BY MS. NOURSE: (Resuming)

21 Q And the initials JB are your initials?

22 A Yes, that's correct.

23 Q All right. Do you recall seeing this
24 document, which is another set of System IV numbers with
25 a handwritten note above it?

UNCLASSIFIED

1 MR. McGRATH: Also we should reflect the fact
2 that it is the same set of System IV numbers as Exhibit

4 MS. NOURSE: That's right, Dean, the same set
5 of System IV numbers, along with a handwritten note
6 apparently signed Brian beneath those System IV numbers,
7 and another handwritten note that we have just identified
8 as being in the handwriting of Ms. Bartlett.

9 BY MS. NOURSE: (Resuming)

10 Q Do you remember ever seeing this document,
11 aside from anything on television or before the
12 Independent Counsel?

13 A I really don't recall this. I see my
14 handwriting here. It was a request I processed and I see
15 a lot of documents I don't remember each specific
16 document.

17 Q Let me ask you the same question about the
18 document without the note above the word Brian. This
19 appears to be a note by Brian Merchant. Have you ever
20 seen the document without that note on it? In other
21 words, it would be a series of System IV numbers and
22 simply your note about signed out to Ollie North.

23 A Without the Brian note?

24 Q Without the Brian note, yes.

25 MR. McGRATH: With just the circled part?

2 Q With just the circled part and the System IV

4 A I don't recall it, no.

5 Q The reason I ask that is that it appears that
6 one may be superimposed on the other and I don't know how
7 the original form of the note might have been.

8 Let me ask you this. Could you identify what
9 this reference here, which appears to be --

10 A It's a scribble.

11 Q It appears to be partly within the circle
12 surrounding your note.

13 A BM, Brian Merchant.

14 Q I see. Do you ever remember seeing on another
15 piece of paper, separated from the System IV set of
16 numbers, this note by Brian Merchant?

17 A Separate from the numbers or what?

18 Q Separate from the numbers, yes. Do you
19 remember seeing a note not necessarily attached to the
20 System IV numbers and not necessarily with this notation
21 that you've identified to be in your handwriting, but
22 just simply a note from Brian Merchant indicating -- and
23 I will read from the document -- "all originals attached
24 except 401214", et cetera?

25 A No, I don't recall.

1 Q Let me try and refresh your recollection about
2 this. Do you remember at all an incident in November of
3 1986 in which Ollie North asked you to obtain some System
4 IV documents for him?

5 A I don't recall any specifics like that, no.

6 Q Do you remember any incident in November 1986
7 where Fawn Hall came to you on behalf of Ollie North and
8 asked for System IV originals?

9 A No. I don't recall that.

10 Q Okay. Did you ever have a conversation with
11 Mr. deGraffenreid during November 1986 in which he said
12 Ollie North wants some System IV originals?

13 A I don't recall anything like that, to the best
14 of my recollection, no.

15 Q So Mr. deGraffenreid never asked you to sign
16 out originals to Ollie North, to the best of your
17 recollection, during November of 1986?

18 A To the best of my recollection.

19 Q Do you know whose handwriting the System
20 numbers are in? Would you recognize the handwriting, if
21 given to you?

22 A No. I do not know whose handwriting that is.

23 Q It appears that there are notations on the
24 side that may be in different handwriting than the System
25 IV numbers themselves. Does that notation, which appears

1 to say "cover", do you know whose handwriting that might

3 A No, I don't know.

4 Q What about this reference to Yediot Aharonot?

5 A I don't even know what that is or whose
6 handwriting that is.

7 Q Just for your information, it's an Israeli
8 newspaper, so you get to learn something today.

9 A Now I know.

10 Q You know that that's an Israeli newspaper.
11 Have you heard of this before?

12 A Only on testimony.

13 Q Testimony you've heard during the hearings? I
14 see. Okay.

15 A Or maybe on the news. I don't recall.

16 Q So you don't know whose handwriting that is?

17 A No.

18 Q And this handwriting, "all originals attached
19 except", signed Brian, would you recognize that as Brian
20 Merchant's handwriting?

21 A I don't know if I've actually seen him write
22 out more than a word or two. I see the signature there.

23 Q Based on that you would believe it would be
24 his.

25 Let's look at the dates on the document.

UNCLASSIFIED

UNCLASSIFIED

30

1 There's a November 21, 1986, stamp date, and there's also
2 a November 25, 1986 stamp date. It's unclear to me which
3 of these dates refers to which of the notes, but let me
4 ask you this.

5 During this period, November 21 to 25, 1986,
6 there was a lot of -- there were press conferences, et
7 cetera, about the Iran initiative, particularly on
8 November 25, when the Attorney General announced the
9 existence of the diversion memo. This was a period in
10 which I assume that a lot of attention was paid at the
11 NSC to the disclosure of the Iran initiative.

12 I am wondering if you can try and put yourself
13 back in that period and remember anything that might have
14 had to do with Ollie North and signing out original
15 documents.

16 A The 25th was a Tuesday; is that correct?

17 Q That was Meese's press conference on that day.

18 A No.

19 Q You don't remember Ollie North coming to ask
20 you for originals on that day?

21 A No.

22 Q Do you remember any other requests by anyone
23 else on that day for a System IV original?

24 A No, I do not recall anything.

25 Q Do you remember on that day, November 25,

3 A I'm sorry. On what day?

4 Q November 25, 1986. This is the day of the
5 press conference.

6 A No, I don't recall anything specific.

7 Q Do you remember any conversations on that day
8 that Mr. deGraffenreid might have had with Oliver North?

9 A I have no direct knowledge of that.

10 Q By "direct knowledge", what precisely do you
11 mean? Let me ask you another question.

12 A I don't know if he saw him out in the hallway
13 or said hello. I don't know.

14 Q You did not overhear any conversations between
15 Oliver North and Mr. deGraffenreid on that day?

16 A No.

17 Q Did Oliver North come to visit Mr.
18 deGraffenreid that day, if you remember? That's the day
19 of the press conference.

20 A I don't recall seeing Ollie in the office that
21 day, in our office.

22 Q Do you recall seeing him in the office the

8 A You say the weekend. I wasn't working on the
9 weekend, I don't think.

10 Q How about that Monday or Tuesday, the 24th and
11 the 25th of November?

12 A I don't recall anything. Monday I was working
13 as usual. Tuesday, of course, was the press conference.

14 Q Did you watch the press conference?

15 A I watched a few minutes here and there, yes.

16 Q Were you surprised at the revelations about
17 the diversion?

18 A I was surprised.

19 Q Yes?

20 A Yes.

21 Q Let me ask you a final question on the note.
22 To the best of your recollection, Mr. deGraffenreid never
23 handed you either Exhibit 1 or Exhibit 1A and asked you
24 to go look for originals?

25 A I don't recall anything like that, to the best

2 Q To the best of your recollection, Oliver North
3 never handed you either Exhibit 1 or 1A and asked you to
4 go get System IV originals?

5 A No. To the best of my recollection, he did
6 not.

7 Q If you saw this note, would these documents
8 mean anything to you? Would you associate anything with
9 these particular numbers -- a type of document?

10 A Well, it would be a System IV number. Other
11 than that --

12 Q You wouldn't recognize those numbers as
13 associating them with any particular content of a
14 document?

15 A No.

16 Q Did you ever have a conversation with Brian
17 Merchant about pulling System IV originals for Oliver
18 North during this period, November of 1986?

19 A I don't recall any specific conversation.

20 Q Do you recall any general conversation?

21 A I don't recall any, no.

22 Q To your knowledge, had Brian Merchant taken
23 over from Jim Radzinski at this time, November 21 through
24 November 25, 1986?

25 A Jim was not there. He had already left.

2 Were your procedures with Brian for taking out

5 Brian a note, as you would for Jim?

6 A The procedures were not changed from Jim to
7 Brian.

8 Q Okay.

9 A To the best of my knowledge.

10 Q To the best of your knowledge Brian didn't
11 require you to do anything if you had processed a request
12 in his absence?

13 A No.

14 Q Would it be correct to say that this note on
15 the bottom of Exhibit 2 "signed out to Ollie North, JB"
16 would be the standard kind of note you would leave for
17 Jim or Brian if you had taken out an original document
18 and given it to whoever had requested it?

19 A If I had retrieved a document from System IV,
20 that would have been the standard.

21 Q By this you would tell him who had obtained
22 the original documents?

23 A Yes, because it needed to be accounted for.

24 Q Would you follow up on original requests ever?
25 Would you go back to the person and say, hey, where's

2 A Things are hectic in the office. I would

6 follow up on the original requests?

7 A I would think that would be one of their --

8 Q You yourself never called or had occasion to
9 call someone and say bring that original back?

10 A I don't ever remember doing that -- an
11 original intel doc or report or something back.

12 Q It was not your standard practice to keep
13 track of these documents?

14 A No. I had too much other things to do.

15 Q Let me ask you some general questions about
16 your boss, Mr. deGraffenreid. What was his relationship
17 like to Ollie North? Were they close friends?

18 A I would say they were friends, as with the
19 other staff members.

20 Q Was Colonel North often in the office?

21 A He came in the office occasionally, no set
22 pattern. It wasn't every day. He did come in the office
23 on occasion.

7 Q You don't recall that. Do you recall ever

9 inquiries were being made -- that you had a request to
10 pull System IV documents, a number of System IV

12 A In '85?

13 Q Yes.

14 A I don't recall.

15 Q I know it's a long time ago. That's why I was

17 because I thought that might help you locate it in time.

18 Q Do you remember ever hearing Colonel North and
19 Mr. deGraffenreid discussing the issue of the inquiry

21 Do you remember overhearing any conversations about

7 A Now what time?

8 Q This is during the summer of 1985, August or

10 A No, I don't recall that.

11 Q Do you ever remember Jim Radzimski discussing
12 with Mr. deGraffenreid during this period, August or
13 September of 1984, the pulling of System IV documents?

14 A In '85?

15 Q This is in the summer of '85, whether there
16 were any discussions between Mr. deGraffenreid and Jim
17 Radzimski relating to pulling documents for the

6 or 1986, of an occasion when Mr. Radzinski failed to

8 A No, I don't.

9 Q Let me ask you the basic question that we ask
10 everyone around here, and that is when did you first
11 learn of the Iran initiative? Was it when you heard
12 about it in the press or had you heard about it earlier?

13 A In the press, the news, media coverage.

14 Q And by Iran initiative I meant the sale of
15 weapons to Iran.

16 A In the media coverage.

17 Q Okay. Had you ever heard, prior to Attorney
18 General Meese's press conference on November 25, about a
19 diversion of funds from the Iran arms sales to the
20 contras?

21 A No, I didn't.

7 Q Do you did not review the documents?

RELEASE OF AMERICAN HOSTAGES IN BEIRUT

Background: In June 1985, private American and Israeli citizens commenced an operation to effect the release of the American hostages in Beirut in exchange for providing certain factions in Iran with U.S.-origin Israeli military materiel. By September, U.S. and Israeli Government officials became involved in this endeavor in order to ensure that the USG would:

- not object to the Israeli transfer of embargoed materiel to Iran;
- sell replacement items to Israel as replenishment for like items sold to Iran by Israel.

On September 14, the Israeli Government, with the endorsement of the USG, transferred 508 basic TOW missiles to Iran. Forty-eight hours later, Reverend Benjamin Weir was released in Beirut.

Subsequent efforts by both governments to continue this process have met with frustration due to the need to communicate our intentions through an Iranian expatriate arms dealer in Europe. In January 1986, under the provisions of a new Covert Action Finding, the USG demanded a meeting with responsible Iranian government officials.

On February 20, a U.S. Government official met with [REDACTED]

the first direct U.S.-Iranian contact in over five years. At this meeting, the U.S. side made an effort to refocus Iranian attention on the threat posed by the Soviet Union and the need to establish a longer term relationship between our two countries based on more than arms transactions. It was emphasized that the hostage issue was a "hurdle" which must be crossed before this improved relationship could prosper. During the meeting, it also became apparent that our conditions/demands had not been accurately transmitted to the Iranian Government by the intermediary and it was agreed that:

- The USG would establish its good faith and bona fides by immediately providing 1,000 TOW missiles for sale to Iran. This transaction was covertly completed on February 21, using a private U.S. firm and the Israelis as intermediaries.
- A subsequent meeting would be held in Iran with senior U.S. and Iranian officials during which the U.S. hostages would be released.
- Immediately after the hostages were safely in our hands, the U.S. would sell an additional 3,000 TOW missiles to Iran using the same procedures employed during the September 1985 transfer.

In early March, the Iranian expatriate intermediary demanded that Iranian conditions for release of the hostages now included the prior sale of 200 PHOENIX missiles and an unspecified number of HARPOON missiles, in addition to the 3,000 TOWs which would be delivered after the hostages were released. A subsequent meeting was held with the intermediary in Paris on March 8, wherein it was explained that the requirement for prior deliveries violated the understandings reached in Frankfurt on February 20, and were therefore unacceptable. It was further noted that the Iranian aircraft and ship launchers for these missiles were in such disrepair that the missiles could not be launched even if provided.

From March 9 until March 30, there was no further effort undertaken on our behalf to contact the Iranian Government or the intermediary. On March 26, [redacted] made an unsolicited call to the phone-drop in Maryland which we had established for this purpose. [redacted] asked why we had not been in contact and urged that we proceed expeditiously since the situation in Beirut was deteriorating rapidly. He was informed by our Farsi-speaking interpreter that the conditions requiring additional materiel beyond the 3,000 TOWs were unacceptable and that we could in no case provide anything else prior to the release of our hostages. [redacted] observed that we were correct in our assessment of their inability to use PHOENIX and HARPOON missiles and that the most urgent requirement that Iran had was to place their current HAWK missile inventory in working condition. In a subsequent phone call, we agreed to discuss this matter with him and he indicated that he would prepare an inventory of parts required to make their HAWK systems operational. This parts list was received on March 28, and verified by CIA.

Current Situation. On April 3, Ari Gorbanifahr, the Iranian intermediary, arrived in Washington, D.C. with instructions from [redacted] to consummate final arrangements for the return of the hostages. Gorbanifahr was reportedly enfranchised to negotiate the types, quantities, and delivery procedures for materiel the U.S. would sell to Iran through Israel. The meeting lasted nearly all night on April 3-4, and involved numerous calls to Tehran.

[redacted] A Farsi-speaking CIA officer in attendance was able to verify the substance of his calls to Tehran during the meeting. Subject to Presidential approval, it was agreed to proceed as follows:

- By Monday, April 7, the Iranian Government will transfer \$17 million to an Israeli account in Switzerland. The Israelis will, in turn, transfer to a private U.S. corporation account in Switzerland the sum of \$15 million.

UNCLASSIFIED

UNCLASSIFIED

- On Tuesday, April 8 (or as soon as the transactions are verified), the private U.S. corporation will transfer \$3.651 million to a CIA account in Switzerland. CIA will then transfer this sum to a covert Department of the Army account in the U.S.
- On Wednesday, April 9, the CIA will commence procuring \$3.651 million worth of HAWK missile parts (240 separate line items) and transferring these parts to [REDACTED]. This process is estimated to take seven working days.
- On Friday, April 18, a private U.S. aircraft (707B) will pick-up the HAWK missile parts at [REDACTED] and fly them to a covert Israeli airfield for prepositioning (this field was used for the earlier delivery of the 1000 TOWs). At this field, the parts will be transferred to an Israeli Defense Forces' (IDF) aircraft with false markings. A SATCOM capability will be positioned at this location.
- On Saturday, April 19, McFarlane, North, Teicher, Cave, [REDACTED] and a SATCOM communicator will board a CIA aircraft in Frankfurt, Germany, enroute to Tehran. [REDACTED]
- On Sunday, April 20, the following series of events will occur:
 - U.S. party arrives Tehran (A-hour) -- met by Rafsanjani, as head of the Iranian delegation.
 - At A+7 hours, the U.S. hostages will be released in Beirut.
 - At A+15 hours, the IDF aircraft with the HAWK missile parts aboard will land at Bandar Abbas, Iran.

Discussion. The following points are relevant to this transaction, the discussions in Iran, and the establishment of a broader relationship between the United States and Iran:

- The Iranians have been told that our presence in Iran is a "holy commitment" on the part of the USG that we are sincere and can be trusted. There is great distrust of the U.S. among the various Iranian parties involved. Without our presence on the ground in Iran, they will not believe that we will fulfill our end of the bargain after the hostages are released.

UNCLASSIFIED

UNCLASSIFIED

N 585

- [REDACTED]
- Gorbanifahr specifically mentioned that Qhadhaffi's efforts to "buy" the hostages could succeed in the near future. Further, the Iranians are well aware that the situation in Beirut is deteriorating rapidly and that the ability of the IRGC to effect the release of the hostages will become increasingly more difficult over time.
- We have convinced the Iranians of a significant near term and long range threat from the Soviet Union. We have real and deceptive intelligence to demonstrate this threat during the visit. They have expressed considerable interest in this matter as part of the longer term relationship.
- [REDACTED]
- The Iranians have been told that their provision of assistance to Nicaragua is unacceptable to us and they have agreed to discuss this matter in Tehran.
- We have further indicated to the Iranians that we wish to discuss steps leading to a cessation of hostilities between Iran and Iraq.
- [REDACTED]
- The Iranians are well aware that their most immediate needs are for technical assistance in maintaining their air force and navy. We should expect that they will raise this issue during the discussions in Tehran. Further conversation with Gorbanifahr on April 4, indicates that they will want to raise the matter of the original 3,000 TOWs as a significant deterrent to a potential Soviet move against Iran. They have also suggested that, if agreement is reached to provide the TOWs,
- [REDACTED]
- The Iranians have been told and agreed that they will receive neither blame nor credit for the seizure/release of the hostages.
- [REDACTED]

UNCLASSIFIED

UNCLASSIFIED

-- The residual funds from this transaction are allocated as follows:

- \$2 million will be used to purchase replacement TOWs for the original 508 sold by Israel to Iran for the release of Benjamin Weir. This is the only way that we have found to meet our commitment to replenish these stocks.
- \$12 million will be used to purchase critically needed supplies for the Nicaraguan Democratic Resistance Forces. This materiel is essential to cover shortages in resistance inventories resulting from their current offensives and Sandinista counter-attacks and to "bridge" the period between now and when Congressional approved lethal assistance (beyond the \$25 million in "defensive" arms) can be delivered.

The ultimate objective in the trip to Tehran is to commence the process of improving U.S.-Iranian relations. Both sides are aware that the Iran-Iraq War is a major factor that must be discussed. We should not, however, view this meeting as a session which will result in immediate Iranian agreement to proceed with a settlement with Iraq. Rather, this meeting, the first high-level U.S.-Iranian contact in five years, should be seen as a chance to move in this direction. These discussions, as well as follow-on talks, should be governed by the Terms of Reference (TOR) (Tab A) with the recognition that this is, hopefully, the first of many meetings and that the hostage issue, once behind us, improves the opportunities for this relationship.

Finally, we should recognize that the Iranians will undoubtedly want to discuss additional arms and commercial transactions as "quids" for accommodating [redacted] Nicaragua, and Iraq. Our emphasis on the Soviet military and subversive threat, a useful mechanism in bringing them to agreement on the hostage issue, has also served to increase their desire for means to protect themselves against/deter the Soviets.

TERMS OF REFERENCE
U.S.-Iran Dialogue

- I. BASIC PILLARS OF U.S. FOREIGN POLICY (Optional)
- President Reagan came into office at a time when Iran had had a certain impact on the American political process -- perhaps not what you intended.
 - The President represented and embodied America's recovery from a period of weakness. He has rebuilt American military and economic strength.
 - Most important, he has restored American will and self-confidence. The U.S. is not afraid to use its power in defense of its interests. We are not intimidated by Soviet pressures, whether on arms control or Angola or Central America or Afghanistan.
 - At the same time, we are prepared to resolve political problems on the basis of reciprocity.
 - We see many international trends -- economic, technological, and political -- working in our favor.
- II. U.S. POLICY TOWARD IRAN: BASIC PRINCIPLES
- A. U.S. Assessment of Iranian Policy.
- We view the Iranian revolution as a fact. The U.S. is not trying to turn the clock back.
 - Our present attitude to Iran is not a product of prejudice or emotion, but a clear-eyed assessment of Iran's present policies.
 - Iran has used "revolutionary Islam" as a weapon to undermine pro-Western governments and American interests throughout the Middle East. As long as this is Iran's policy, we are bound to be strategic adversaries.
 - Support of terrorism and hostage-taking is part of this strategic pattern. We see it used not only against us, but against our friends. We cannot accept either. Your influence in achieving the release of all hostages/return of those killed (over time) is essential.

UNCLASSIFIED

UNCLASSIFIED

N 588

- We see your activity in many parts of the world, including even Central America.
- The U.S. knows how Iran views the Soviet Union. But subversion of Western interests and friends objectively serves Soviet interests on a global scale.
- Thus, our assessment is that a decisive Iranian victory in the war with Iraq would only unleash greater regional instability, a further erosion of the Western position, and enhanced opportunities for Soviet trouble-making.
- The U.S. will therefore do what it can to prevent such a development. We regard the war as dangerous in many respects and would like to see an end to it.

B. Possible Intersections of U.S.-Iranian Interests.

- Despite fundamental conflicts, we perceive several possible intersections of U.S. and Iranian interests. I propose we explore these areas.
- First, the U.S. has had a traditional interest in seeing Iran preserve its territorial integrity and independence. This has not changed. The U.S. opposes Soviet designs on Iran.
- Second, we have no interest in an Iraqi victory over Iran.

[REDACTED] We are seeking an end to this conflict and want to use an improved relationship with Iran to further that end.

- Third, we have parallel views on Afghanistan. Soviet policy there is naked aggression, a threat to all in the region.

[REDACTED] But our objective is the same: the Soviets must get out and let the Afghan people choose their own course.

C. U.S. Objective Today.

- We have no illusions about what is possible in our bilateral relations. Perhaps this meeting will reveal only a limited, momentary, tactical coincidence of interests. Perhaps more. We are prepared either way.
- In essence, we are prepared to have whatever kind of relationship with Iran that Iran is prepared to have with us.

UNCLASSIFIED

UNCLASSIFIED

III. SOVIET MILITARY POSTURE

- Moscow has designs on parts of Iran. [REDACTED]
- Afghanistan illustrates the price the Soviets are ready to pay to expand areas under their direct control.
- Summarize Soviet capabilities along border and inside Afghanistan which could threaten Tehran.
- U.S. is aware of Soviet activity [REDACTED]
- Soviet plans [REDACTED] How they would do it.
- Iranian support to Sandinista regime in Nicaragua aids and abets Soviet designs -- makes U.S.-Iranian relationship more difficult (\$100 million in oil last year, plus arms).
- U.S. can help Iran cope with Soviet threat.

IV. AFGHANISTAN

- May be real value for Iran and U.S. to find ways to cooperate against Moscow in Afghanistan.
- U.S. can provide humanitarian assistance for refugees [REDACTED]
- We need to know who you work with, what you already provide, and devise strategy to exploit Iranian comparative advantage.

V. HARDWARE

- We may be prepared to resume a limited military supply relationship.
- However, its evolution and ultimate scope will depend on whether our convergent or our divergent interests come to loom larger in the overall picture.
- What does Iran want? --

3 Q And your occupation?

4 A Aviation executive.

5 Q How long have you been an aviation executive?

6 A Well, I have been both an aviation executive and
7 a practicing attorney for a number of years, kind of overlapping
8 I would say that I got very much involved in probably half
9 my time as an aviation executive in 1970, say, January 1,
10 1974.

11 Q Could you tell us what your educational background
12 is?

13 A I have a Bachelor of Science degree in business

16 Q Any other education beyond the jurisdoctorate?

17 A No.

18 Q Could you tell us just generally what you did prior
19 to your involvement with Southern Air Transport?

20 A I practiced aviation law in Washington, D.C. I
21 graduated from George Washington University in 1956. I am
22 a member of the District of Columbia Bar, the Virginia Bar and
23 the Maryland Bar. I joined a law firm immediately upon
24 graduation that represented Capitol Airlines, and basically
25 practiced business law and aviation law.

- 4 Q For how long were you with that firm?
- 5 A Until 1961.
- 6 Q And where did you go from there?
- 7 A I was then employed by Air America as counsel in
- 8 Washington, D.C.
- 9 Q From what years?
- 10 A October 1961 until December 1963.
- 11 Q Now, at the time you were employed by Air America
- 12 as counsel, was it owned by the Central Intelligence Agency?
- 13 A Yes, it was.
- 14 Q Were you an employee of the Central Intelligence
- 15 Agency?
- 16 A I was not.
- 17 Q Would you explain how that worked?
- 18 A I worked for Air America, a Delaware corporation, and
- 19 they paid my salary.
- 20 Q Did the CIA own all the stock of Air America?
- 21 A Yes, it did.
- 22 Q And the assets of Air America?
- 23 A Was owned by the corporation.
- 24 Q Who was your immediate supervisor at Air America?
- 25 A George Doole, D-o-o-l-e.

UNCLASSIFIED

UNCLASSIFIED

1 Q And what was his position?

2 A Director -- what did they call him -- he was the
3 Chief Executive Officer -- it was called Managing Director of
4 that company.

5 Q And was he a CIA employee?

6 A I believe he was.

7 Q What was your function as counsel to Air America at
8 the time?

9 A Primarily my job was to take care of their business
10 interests in aviation interests before the Civil Aeronautics
11 Board and the FAA and contracting work. It was more commercial
12 than anything to do with the CIA.

13 The company probably 90 percent of its business --
14 I really don't know -- was just plain commercial business.
15 That was primarily my function. I stayed on the commercial side

16 Q Did you handle anything of the remaining 10 percent
17 that was done for the CIA?

18 A I didn't get involved in that much, no. They had
19 a need-to-know type approach, and I wasn't involved in that
20 primarily. I knew, of course, that they were owned by the
21 CIA, and I knew most of the people involved with things
22 proprietary.

23 Q Why did you leave the law firm to go to work for
24 Air America?

25 A Capitol Airlines at the time had financial problems.

UNCLASSIFIED

UNCLASSIFIED

1 They were purchased by United Airlines, and the law firm that
2 I was with was based in Jacksonville, and I had never really
3 worked with them in their Jacksonville office, so we only had
4 a small -- it was about a five-member office here in Washington
5 serving the Capitol account, plus a few other aviation accounts
6 Macke Airlines and a few others, and I didn't see a good
7 career opportunity anymore.

8 I had my options of either going with United's law
9 firm in Chicago or going to Jacksonville, or looking for work
10 in Washington, and I chose to stay in Washington. And
11 this was a job I saw advertised in the paper.

12 Q It was advertised?

13 A Yes.

14 Q And you interviewed for the position?

15 A Yes.

16 Q Now, you are familiar, through your counsel, of
17 course, and other interviews, what our investigation is looking
18 into, and the personalities and people involved.

19 Could you tell us, was there anybody either employed
20 by Air America or connected to Air America as either a customer
21 or in a managerial capacity that is related to the investigation
22 that we are currently undertaking?

23 A No.

24 Q Now, you left Air America in December of 1963; is
25 that correct?

UNCLASSIFIED

UNCLASSIFIED

7

1 A Yes.

2 Q Why did you leave?

3 A Because when I joined Air America, I didn't know
4 that it was a CIA proprietary. I was told after the fact,
5 and began immediately looking for other careers. I didn't see
6 it as a long-term career opportunity, because I didn't feel
7 that it was an airline that would be around forever.

8 Q What gave you that impression?

9 A Well, it was owned by the government, and the
10 government was not generally engaged in aviation, long-term
11 wise. They might be there for a specific purpose, but not --
12 it was not going to be there forever.

13 Q What was the specific purpose you felt it was for?

14 A It was proprietary to give them cover, I guess, to do
15 work in the Far East, in Southeast Asia, given a commercial
16 presence there so they could carry on activities that they
17 felt were necessary for their country.

18 Q At that time, what relationship, if any, did Air
19 America have to Southern Air?

20 A Southern Air was also owned by the CIA at the time,
21 and I also worked with Southern.

22 Q What did you do in that capacity?

23 A I did primarily all of their legal work, but not by
24 name, because at that time, the management group that was
25 managing Air America could not be shown to be managing Southern

UNCLASSIFIED

UNCLASSIFIED
~~CONFIDENTIAL~~

1 Air Transport. They were two separate companies, and they
2 shouldn't be together at the top. So, in fact, George Doole
3 was managing, was in fact the chief executive officer of
4 Southern, but he wasn't shown as that in the corporate records.

5 Q Who was?

6 A Stanley Williams.

7 Q Who is Stanley Williams?

8 A Stanley Williams was a gentleman who was with
9 Southern Air Transport in management. I think he was a
10 secretary at the time it was purchased by the CIA, and
11 it was a company that was based in Miami and they kept that
12 management in place, and it ran pretty much as it did before
13 they acquired it in the Miami, Caribbean, South America, and he
14 was the President.

15 Q Could you explain for us why Southern Air was
16 purchased and why not all of the CIA operations were done by
17 Air America?

18 A Well, at the time, which was 1961, they had a series
19 of accidents in the Military Airlift Command, I guess it was
20 called Military Air Transport then, that were unfortunate,
21 and the Military Airlift Transport, airlift transport, was
22 purchasing their airlift from various airlines on a
23 competitive bidding basis.

24 A lot of people were going broke, they were bidding
25 too low, and so, I think DOT put out some kind of order saying

UNCLASSIFIED

UNCLASSIFIED

9

1 that they would not do business with anybody except those with
2 a certificate issued by the Civil Aeronautics Board or some
3 operating authority issued by the CAB.

4 Air America did not have that certificate. Southern
5 Air Transport did, plus a lot of other what we called then large
6 irregular carriers, so they purchased it to carry on an
7 activity in the Far East which in fact, Air America had been
8 doing before.

9 It was an operation of DC-6 airplanes that flew up
10 and down the China coast with a Military Airlift Command
11 contract from Tachikawa, Japan; Okinawa; and down to Bangkok.
12 It was routine cargo, the Stars and Stripes paid for kind of
13 a communication network, and the CIA felt they needed that to do
14 covert missions from time to time, to give themselves a
15 commercial presence in the Far East that would permit them to
16 do covert missions from time to time.

17 So, not having qualified under the new rules, they
18 acquired a carrier that would qualify, and the business that
19 Air America was then doing.

20 Q In addition to George Doole, were there any other
21 employees of Air America of whom you were aware that were also
22 employees of the CIA?

23 A Not in the Washington office. I think there were
24 a number in the Far East. The Washington office was relatively
25 small. The operation of Air America and its subsidiary, Air

1 Asia, was based in the Far East, and there they had numerous
2 employees I think at the time, one time up to 8,000 probably -

3 Q How many?

4 A 4 to 8,000, something like that. I think the
5 maintenance base of Air Asia Company, Limited, had about 4,000
6 and Air America about 4, I think it was about 8 at one time.
7 It was a very large operation and primarily a commercial
8 operation.

9 Q George Doole, do you know whether or not he is still
10 living?

11 A He is not.

12 Q When did he die?

13 A A couple of years ago.

14 Q What was his profession at that time? Was he
15 retired?

16 A Retired. He was just a consultant.

17 Q Now, I have got you up to 1963, when you left Air
18 America, where did you go?

19 A I just went out and started practicing law on my own
20 singly, by myself.

21 Q In Washington, D.C.?

22 A Yes.

23 Q What was your client base at the time?

24 A I didn't have much of one. Air America then started
25 using me, they hired an attorney to replace what I was doing,

1 but they also continued to use my services. And Southern Air
2 continued to use my services.

3 I did work for them kind of without attribution.

4 Q Did you have any other client base?

5 A Yes, I had a number of local clients. I can't remembe
6 them all.

7 Q Were they airline companies?

8 A Some of them, Southeast Airlines was an airline
9 company. What was the one -- Sound Air in Canada. I can't
10 remember them all, it has been so many years. They were small,
11 most of them were small carriers, and other small businesses
12 locally.

13 Q And for how long did you continue this solo practice?

14 A Until about 1966, middle of 1966, and then I
15 joined Daggett Howard or Tilford Jones and Harvey Poe and reform
16 a firm.

17 Q That is a law firm?

18 A Yes. It was a law firm. Howard, Poe and Bastian.

19 Q You mentioned Daggett.

20 A Howard -- that was his first name, Daggett.

21 Q I see. Was that in Washington, D.C.?

22 A Yes, it was.

23 Q Did you have the same type of clientele?

24 A Yes.

25 Q How long did that partnership last?

UNCLASSIFIED

UNCLASSIFIED

12

1 A Until about two years ago.

2 Q Where you an active partner in that law firm?

3 A Yes, I was.

4 Q You were active until you moved to Florida?

5 A I was active until 1979, I would say, 1979. Becoming
6 less and less active over the years, but I was an active
7 practitioner of law until 1979, at which time I turned all
8 my clients over to my partners and stayed a partner of the firm
9 but didn't practice any more.

10 Q Did Air America and Southern Air continue to be
11 clients of your law firm from 1966?

12 A Yes, they did.

13 Q And did you continue to do work for Southern Air
14 under the name of Stanley Williams or under his umbrella?

15 A Stanley Williams was President of the airline,
16 probably in 1966, and I began representing Southern openly.
17 I didn't do it primarily when I was --

18 Q Their corporate counsel?

19 A When I was their corporate counsel, because I was
20 corporate counsel for Air America.

21 Q Okay. When did you assume a position with Southern
22 Air?

23 A 1974.

24 Q What was that?

25 A Vice President.

UNCLASSIFIED

UNCLASSIFIED

13

1 Q How did you come about?

2 A Well, that was after Stanley Williams acquired the
3 company from the CIA, and he just wanted me to be an officer
4 in the company. I guess I was also secretary.

5 Q Where did Williams get the money to buy Southern
6 Air from the CIA?

7 A He borrowed it from the First National Bank of
8 Chicago, and mortgaged all his personal assets.

9 Q Why did he buy it?

10 A I guess I would have to ask Mr. Williams.

11 Q Why do you think he bought it?

12 A Because it was an opportunity, it was his life's
13 work, and the CIA was going to sell it, either that or
14 discontinue it, dissolve it, and there were a lot of people
15 that worked for the company that he had been associated with
16 all his life and this was his life.

17 Q When he -- when the CIA owned Southern Air, did
18 Williams have any operational role in the company, or was he
19 simply a figurehead?

20 A No. He ran the Miami operation pretty much on his
21 own. He had to report to the Board of Directors and had to
22 get typical approval from the stockholders to do an airplane
23 purchase or something like that, but he was given quite a
24 free hand to run it like it had been run before.

25 Q At the time that he purchased it in 1973 or 1974,

UNCLASSIFIED

14

1 there was -- was there a suit or some sort of action filed by
2 the employees of Southern Air?

3 A Yes, shortly thereafter, about two months.

4 Q Could you explain that to us, please?

5 A I don't know really how to explain it, other than
6 they got a hold of a lawyer in Florida and brought an action
7 -- I am not quite sure why -- to set aside the purchase on
8 the basis that -- I really don't know. I guess because they
9 thought they were entitled to it.

10 Q Was it their claim that they were Federal employees?

11 A I don't think in that lawsuit it was. I think some
12 them brought such a suit later on.

13 Q Were you involved in that litigation in any way?

14 A I was there and I was counsel to the company and
15 attorney to fight it, yes, I didn't do it myself, because I
16 didn't feel qualified in that area, and I am also not a member
17 of the Florida Bar.

18 Q Who was the name of the attorney you hired?

19 A I don't remember -- yes, I do, Don Nicholson.

20 Q Where is he located?

21 A He was in Florida. He has passed on.

22 Q What was his law firm?

23 A Nicholson something.

24 Q Was it a sole practice?

25 A No. Nicholson-Brawner, I think it might have been.

- 3 Q What city?
- 4 A Miami.
- 5 Q What law firm represented the employees?
- 6 A I don't remember that.
- 7 Q Who would have that information?
- 8 A Maybe you could get it out of the court.
- 9 Q Would anybody else connected with Southern Air
- 10 or Air America or anyone else you know have that information?
- 11 A I don't know. I might have a ^{file}~~file~~ on it, but I
- 12 doubt it. It is possible I have a file on that.
- 13 Q Would that be at your Southern Air office?
- 14 A Yes.
- 15 Q Would you check that, please, for us?
- 16 A Yes.
- 17 Q Thank you.
- 18 Was that suit filed in Federal or State court, do

- 23 Q Were you a named defendant?
- 24 A No.

1 A Southern Air Transport, maybe Mr. Williams, I am no

3 Q From the period you became Vice President of the
4 company in 1974, what did you do for Southern Air?

5 A I did most of their contracting, their CAB work,
6 legal work, just anything they needed to be done legally.
7 Also business, I did a lot on the business side for them.

8 Q Now, were you paid a salary beginning in 1974?

9 A No, I wasn't. I think I went on the payroll in
10 1978. I was just paid by the hour.

11 Q Why was the difference in 1978?

12 A I don't know. It just seemed easier, I think.

13 Q You didn't assume any other duty or office?

14 A No, not really.

15 Q In this period from 1974 to 1978, aside from Mr.
16 Williams, who was on the Board of Directors?

17 A I was, and Bud Eason -- Vernon Eason, E-a-s-o-n,
18 and Mr. Williams.

19 Q Had Mr. Eason been affiliated with Air America?

20 A No. He had sold insurance to them. He was an
21 insurance broker in Miami with Alexander and Alexander.

22 Q And why was he chosen for the Board?

23 A He was an old friend of Mr. Williams and Mr. Willia
24 had a lot of respect for his business judgment.

25 Q Was anyone added to the Board prior to your purchas

2 A No.

3 Q Now, besides Mr. Williams, who I take it acted as

5 A Yes, he did.

7 court reporter came in the room.

8 BY MS. NAUGHTON:

9 Q Aside from Mr. Williams, who I gather operated as
10 CEO during this period, who else were the managers?

11 A Howard Hinton was Director of Maintenance, William
12 Dunn was Director of Operations. William Gilmore was Treasurer.
13 And that was primarily the management group.

14 Q What about sales?

15 A Sales -- they didn't have too much in the way of
16 sales, and I guess Dave Williams was -- I don't even know what
17 his title was -- Director of Sales.

18 Q What about Mr. Crumney, when did he begin with
19 them?

20 A He came after Mr. Williams had retired, and he
21 joined the company in -- I guess it was in the fall of 1973.
22 Mr. Gilmore retired then. I mean 1983 -- I am sorry. I
23 said 1973 -- 1983.

24 Q Was he chief financial officer beginning in 1983?

25 A Yes, he was. He was Senior Vice President, Finance.

3 1973 -- I mean 1983 -- 1984, 1985, I think, in the fall of
4 1985.

5 Q Do you know why he resigned?

6 A He just wanted a different lifestyle. He moved to
7 the West Coast of Florida and bought a house there, and just
8 wanted to do private investments or something he said. He
9 did a little CPA work in the small community of Tarpon Springs
10 he located in.

11 Q Could you spell that?

12 A T-a-r-p-o-n Springs. He is not actually there, he
13 is nearby there. It is on the west coast of Florida.

14 Q What community is he actually in?

15 A I don't know.

16 Q Would you have his current address in your records?

17 A Yes, I would.

18 Q Why?

19 A I just assume the company has his current records
20 in their files. He is a friend. I don't have it personally.

1 Q Now, when did you actually purchase Southern Air?

2 A I acquired 20 percent interest in the company
3 in 1974. I acquired another 20 percent of the company in
4 1975 and then through a stock redemption, the redemtion
5 of Mr. Williams' stock, I became 100 percent stock owner in
6 1979.

7 Q And where did you obtain the capital to purchase?

8 A Savings and real estate investments in Washington,
9 D.C. over the years.

10 Q You didn't need to take out any loans then to --

11 A I took out loans on my real estate. I sold some
12 of it. I think Mr. Williams financed part of it which I paid
13 him out over the years. But basically I paid it out by
14 selling real estate.

15 Q Now, at the time you purchased Southern Air, do
16 you recall how many aircraft it owned or leased?

17 A When I purchased it in '79, when I took control
18 in '79?

19 Q Yes.

20 A We had three airplanes owned.

21 Q What were they?

22 A They were Hercules L-100 aircraft.

23 Q All three?

24 A Lockheed Hercules L-100.

25 Q Is there a military equivalent?

UNCLASSIFIED

1 A Not really the equivalent, but it's a -- C-130 is
2 the military version of that airplane. The military version
3 is a little shorter. These have been stretched, but
4 basically they have otherwise the same systems.

5 Q Did you lease any aircraft?

6 A Not at that time. We had in the past. We had
7 leased and bought airplanes, but we are talking after '79
8 or at '79. That is the question, wasn't it?

9 Q Yes.

10 I had one question for you if we could back up. In
11 the record you gave me regarding Mr. Houston's, I guess
12 testimony, was it, he mentioned that a former CIA Director
13 had lobbied to have Southern Air merged with some other
14 company that was unnamed when the CIA divested in 1973. Were
15 you aware of that or do you know what that reference is?

16 A I think that is a misreference. I don't know.
17 I have read that article numerous times and, of course, I
18 was very familiar with what was going on and I don't recall
19 that.

20 MR. BECKMAN: What page was it?

21 MR. VAN CLEVE: May I ask whether there is an
22 additional copy of the document? I don't recall that we had

4 MS. NAUGHTON: It's dated February 10, 1987, just
5 confirming our deposition.

6 THE WITNESS: It must be in the archives. It's

8 MR. BECKMAN: I just wanted you to look at it when
9 she shows you the page.

10 MR. VAN CLEVE: I'll be happy to give it right
11 back to you after I take a look at it.

12 MS. NAUGHTON: I can't find it. I should have
13 written a page reference, but I can't find it at the moment.
14 Perhaps Mr. Bermingham, when he comes down to Miami, we can
15 discuss it and refresh your recollection and whether you
16 know anything about it. He can speak to you further about
17 it.

18 THE WITNESS: Ask the question again.

19 BY MS. NAUGHTON:

20 Q There was a reference to a former CIA Director
21 at the time. This would have been in the early 1970s when,
22 apparently, there was some problem with the competitors of
23 SAT feeling that a sale back to Williams would have damaged
24 their competitive stance in the markets in which SAT was
25 serving, and at the time apparently there is reference to a

22

1 former CIA Director managing several meetings and putting
2 together several meetings with CIA officials regarding the
3 merging of Southern Air with another existing company,
4 only it doesn't make reference to which existing company?

5 A I don't think -- I think that maybe there is a
6 mixup on that between the Southern sale and the Air America
7 close down maybe because there was some activity on the Air
8 America close down, I think, and attempts to buy that
9 company. E-Systems was one of the people that was interested
10 and ultimately did, in fact, buy Air Asia Company Limited, the
11 maintenance base in Thailand, and there was an ex-CIA Director,
12 I forget his name now, who was out in the community then as a
13 consultant that might have been instrumental in bringing the
14 parties together. But this is all hearsay. Other than what
15 I read in the papers, I don't have any personal knowledge
16 of this.

17 Q That is E-Systems?

18 A Yes. But I don't think they were after Southern
19 Air. There was a lot of press at the time and a lot of
20 activity by Southern Air's competitors to persuade the CIA
21 to dissolve the company rather than to sell it because that
22 would give a potential competitor -- obviously they would
23 have that interest, not that it would serve, not that they
24 would be damaged unfairly by its continuation, but just they
25 would like to get rid of it and there was a lot of attempts

1 on the Hill at that time, lots of pressure.

2 Q Now, when you purchased Southern Air through the
3 stock redemption in 1979, did you install a new board of
4 directors?

5 A No, I didn't.

6 Q So the board of directors remains the same as when
7 it was under Mr. Williams?

8 A Yes. I added Mr. Hugh Grundy to the board of
9 directors. He had been working for Southern Air Transport
10 and he retired.

11 Q Could you spell that, please.

12 A Grundy, G-R-U-N-D-Y. Hugh, H-U-G-H.

13 Q Okay. What was his position in the company?

14 A He was senior vice president.

15 Q In charge of what?

16 A Just in general. He had been added after the
17 management group I talked about earlier when Stan Williams
18 took the company over. I think he came with the company
19 in about '76 or something like that.

20 Q And why did you add him to the board?

21 A He is an old-time friend. He had been president
22 of Air America for a number of years and he was a very
23 qualified man, and he was available, and I just thought he
24 would be a good addition. I had known him for years.

25 Q Now, in 1979 when you took over full ownership,

UNCLASSIFIED

UNCLASSIFIED

24

1 who was your CEO?

2 A I was.

3 Q And whom did you place in the hierarchy then?

4 A I left the company pretty much like it was at
5 the time I took it over; namely, the same gentlemen that I have
6 mentioned earlier as being director of maintenance, director
7 of operations, treasurer, and Hugh Grundy was senior vice
8 president, stayed the same. My plan was to change management
9 if I didn't think they were performing, but that took some
10 time and searching.

11 Q And when did this change take place?

12 A It didn't really -- I didn't get the program
13 underway until 1983. We almost immediately upon my
14 acquiring control, we entered into a recession and things
15 got very difficult for the next three years, so it was kind
16 of a survival program then, not building management.

17 Q During that period from '79 to '83 what was the
18 status of the government contracts? Did they fall off as
19 well?

20 A We didn't have any government contracts.

21 Q When did you begin to have government contracts?

22 A We got our first government contract in '83.

23 Q What was that for?

24 A We got a piece of the log air business that the
25 Military Lift Command puts out each year.

UNCLASSIFIED

UNCLASSIFIED

25

1 Q Could you explain that to me?

2 A Well, for years and years and years ever since
3 I have been associated with the business, the Military Airlift
4 Command, previously known as Military MATS, or Military
5 Air Transport System, have a certain amount of commercial
6 buy they make with all the airlines, maybe three or four
7 hundred million dollars worth, and they allocate that among
8 the qualified bidders based on the number of airplanes they
9 have in the civil reserve air fleet and they have a very
10 complicated formula for that. It's been going on ever since
11 I can remember. It was part of the work that Southern Air
12 did way back when the agency, the CIA, first bought them.
13 That was the part of that group I was talking about down the
14 China coast. It was called the inter-island route and they
15 qualified in the same way that we do today.

16 When Southern Air was purchased by Mr. Williams back
17 in 1973, because of all the political furor that had
18 developed and because of the terrible pressure that the CIA
19 was under, the only way that he could accomplish that purchase
20 and go ahead and close on it, because we were having so many
21 problems with the competitors, was to give up all of his
22 CAB authority. The company relinquished it, turned in its
23 certificates and operated then as what we call a large
24 contract carrier, large commercial carrier, and we did business
25 off shore and just wherever we could find long-term contracts.

UNCLASSIFIED

UNCLASSIFIED

26

1 We couldn't hold ourselves out as a common carrier anymore.
2 So we didn't do any government business. We turned it --
3 actually the agency had already discontinued all government
4 contracts about a year before they sold it to Stan Williams.
5 They are not flying that route anymore. I think World
6 Airways was, the China coast route that I am talking about.

7 So all through the '70s we basically weren't qualified
8 to get government contracts because we didn't have enough
9 airplanes. They had certain rules and award criteria among
10 which was to get one of these log air routes you had to have
11 a minimum of two L-130 airplanes. We had two 130s and two
12 120s, which was a little shorter, that you could put on the
13 route because they didn't have any routes that took less
14 than two airplanes. Then you had to have one backup airplane.
15 So you had to have a minimum of three 130s and we didn't
16 have three 130s. In addition, you had to have so many
17 award points and three airplanes, if we put them into the
18 civil reserve air fleet program, wouldn't get us enough award
19 points.

20 So basically we suffered under that lack of capital,
21 lack of size to participate. So we did not fly any government
22 contracts from the day it was sold to Mr. Williams until 1983.

23 Q And how was it that you obtained then the contract
24 in '83?

25 A Well, after I took control that was one of my main

UNCLASSIFIED

UNCLASSIFIED

27

1 objectives, to see if we could get back into this business.
2 We had two problems. One, we had no authority or we didn't
3 because we had relinquished it, but deregulation had come into
4 being since then, deregulation for cargo. It happened in
5 '78, so in '78 we applied for and obtained a 408, I forget
6 what the part of the act is, that you can have an all cargo
7 route, not route, but just general authority. So that
8 qualified us to again do MAC work.

9 The next problem then was airplanes. We needed more
10 airplanes.

11 As soon as I gained control of the company, I traveled
12 to South Africa, because they had 16 airplanes and I
13 attempted to lease some airplanes from them. They were unwilling
14 to do so under the terms that was required; namely, I had to
15 have control of the airplanes so I could put them in CRAF.
16 If you can't put them in CRAF, you can't get the points.

17 Q In what?

18 A Civil reserve air fleet.

19 That requires that they be put in in a way that if the
20 government should declare an emergency that these airplanes
21 will be put into the emergency service and you can't turn
22 them back to the lessor. So they had to agree to that. They
23 were not willing to agree to that until '83, and all of a
24 sudden they changed their position and were willing to lease
25 airplanes at a rate -- also the rate was a problem -- that

UNCLASSIFIED

UNCLASSIFIED

1 would let us make a small profit in that business.

2 So in '83 they did a change of position. We were able
3 to lease two airplanes from them in early '83. We bid on
4 the log air quick trans business. We got one route that
5 used two airplanes. We took that away from Transamerica.
6 Transamerica had had the whole domestic airlift program from
7 the military for all those years, about 15 years. So we were
8 able to get a small segment of that away from them through
9 those commercial activities.

10 Q Was that on a competitive bid basis?

11 A The way they do it is, like I say, they award it
12 basically on how many airplanes you have in the CRAF and how
13 many -- that is just the way they did it. We qualified not
14 only for a whole route; we got it for ten months and we had
15 to turn it back to Transamerica and they flew it for two
16 months. They had another log air route they flew with two
17 airplanes and the whole quick trans, which is the Navy
18 operation, took five of their airplanes. So they had a
19 fairly big package, maybe \$40 million a year. Ours was
20 worth about 10 million a year, but we only qualified for
21 about nine, so we had to turn the route back to them for
22 two months. It is not done on competitive bidding. It's
23 done on rate making. The military gets all of your costs
24 and go over them and they set a rate based on your cost and let
25 you make a small profit. That was the first year.

UNCLASSIFIED

UNCLASSIFIED

1 The second year they said, well now, there is
2 enough competition, we will put it on competitive bidding.
3 But there really wasn't enough competition because we bid
4 competitively, because we were afraid we were going to lose
5 our route, but Transamerica knew they had all the other
6 Herc's and they didn't have to bid competitively and they
7 boosted their price up to get what they knew would be left
8 over after we got ours, and the military ended up paying
9 more than they would under the price rate making that they
10 had practiced before. So the next year they went back to the
11 rate making. That would be this year.

12 Q I want to stop at this point and go on into another
13 area, but we will take it back up after that.

14 For what other companies do you serve on the board
15 of directors, if any?

16 A None of any significance. I serve for friends
17 of mine on some very closely held companies just to fill out
18 their board from the legal standpoint. They need three
19 members. Permawick is one, Magnum is another, but these
20 are very small companies. It's more just to get a name in.

21 Q Do you have controlling stock in any other
22 company other than Southern Air?

23 A No, I do not.

24 Q Aside from these companies you just named, do you
25 hold any office with any other corporation?

UNCLASSIFIED

1 A In these same companies I am a director, I might

3 legal requirement that they have a secretary. I am not active
4 in any event.

5 Q Do you use now or have you ever used a secured
6 phone in any business dealings you have done?

7 A No.

8 Q When you were with Air America, did you use a
9 secured phone?

10 A No.

11 Q Now, I am going to name some companies and the
12 question will be the same for all of them, and that is whether
13 you, number one, own any stock, served as an employee or
14 officer or had any business dealings with these companies.
15 Those will be my questions as to all the companies so we
16 can go through this fairly quickly.

24 Q Lake Resources?

25 A No.

UNCLASSIFIED

UNCLASSIFIED

1 Q And you are not a -- my questions will also
2 encompass whether or not you are aware of Southern Air's
3 dealings, if any, with any of these companies?

4 A No.

5 Q Do you understand the question?

6 A Yes, I understand it. And it may be that some
7 of these companies -- because I have read about them in the
8 papers too -- might have been somebody who paid us. I am
9 not -- I haven't gone back over our financial records and I
10 assume Mr. Mason can speak to that. If monies were trans-
11 ferred from any of those companies to Southern Air, I am not
12 personally aware of it, but it could possibly be.

13 Q That is my question. I am not concerned with
14 what you have read in the papers. If we can ask for your
15 knowledge as of maybe October of 1986, that might be clear.

16 A I have not gone over our financial records though.

17 Q Corporate Air Services?

18 A No as to my personal recollection. I have read
19 in the paper since that we apparently advanced some money
20 to buy an airplane or something like that.

21 Q But as of October '86 you did not know of
22 Corporate Air Services?

23 A No.

- 10 MR. BECKMAN: It blew up in November. The

- 21 Q You had no knowledge of Air Mach prior to October

- 23 A No.

- 25 A EAST was a company that we had done business

1 with for a number of months, and maybe years. Not years;
2 maybe a year or so. But they were a company that we had a
3 contract with that used our aircraft, I guess on an as needed
4 basis or whenever they wanted, just like any of our charter
5 customers except they wanted to provide their own crews for
6 it, and so we set up a special arrangement where they could
7 furnish their own crews but would have to live within the
8 FAR 121 under which we operated, the Federal Air Regulations,
9 and basically the crew had to be our crew in a sense. Maybe
10 we would not pay them, but they had to qualify on our air-
11 plane; they had to pass all the checks and be kept current.
12 We had to interview them. We had to be certain that they
13 possessed the necessary qualifications, but it wasn't
14 necessary that they be directly on our payroll. So we went
15 into that arrangement with them. We also -- if they took
16 our airplane and they were leasing an airplane and putting
17 this crew aboard, of course they had to live with our
18 flight following and this sort of thing. There was a contract
19 to that effect.

20 Q When did you first become aware of EAST?

21 A Good grief, I really don't know. Probably -- it
22 kind of metamorphized into EAST. I think they had a
23 different name before that and I can't really remember what it
24 was. Then they changed it to EAST.

25 Q But it was the same people?

- 2 Q Was it Summa Air?
- 3 A The same people.
- 4 Q Was it Sumairco?
- 5 A Yes, Sumairco.
- 6 Q Who were the people you knew of there whom you
7 dealt with?
- 8 A Mr. Gadd, I guess, primarily.
- 9 Q Anyone else?
- 10 A I don't think so. I think it was primarily
11 Gadd after that. I think Foley was involved earlier who
12 was with Summit Aviation in Delaware. That is the way the
13 thing first came into being probably in 1982 or thereabouts,
14 that Summit Air asked for a bid or a quote on our providing
15 them an airplane and a crew for some minimal flying like
16 50 hours a month, and so I prepared the quote which, of
17 course, was very expensive on a per hour basis and suggested,
18 you know, maybe they really didn't need an airplane full
19 time totally committed. If they could just buy it by the
20 hour, we could really cut the price rather substantially for
21 them, and they then came to Miami. I did this by phone and
22 sent them a proposal, to Summit Aviation, and I think Mr.
23 Gadd came along with them.
- 24 Q With Mr. Foley?
- 25 A I think so. I don't have notes on this, and so

UNCLASSIFIED

UNCLASSIFIED

1 this is just a very vague recollection. But that was my
2 introduction to them. It seemed like there was somebody
3 from the Pentagon that came with Mr. Gadd, but I don't
4 remember his name either.

5 Q Excuse me. What is Mr. Foley's first name?

6 A I don't remember.

7 Q Would that be in your files?

8 A Possibly or maybe -- maybe in the aviation
9 directory.

10 MR. BECKMAN: I think we have provided the
11 Sumairco file.

12 BY MS. NAUGHTON:

13 Q It would be in the Sumairco file?

14 A If it's in there at all. I could even have the
15 name wrong.

16 MR. VAN CLEVE: I am not aware that any Sumairco
17 materials have been produced to us unless it's been in the
18 last couple days.

19 MR. BECKMAN: No, no, this was right in the
20 beginning.

21 MR. VAN CLEVE: I have been through your
22 documents submitted to us, and I am not aware of any documents
23 on Sumairco. In fact, I have the index if you would like to
24 look at it.

25 MR. BECKMAN: I would be glad to look at it. We

UNCLASSIFIED

1 submitted it to the Intelligence Committee. In fact, we
2 were informed that all the materials provided to the
3 Intelligence Committee came to you.

4 MR. VAN CLEVE: Then I will stand by what I
5 said. You didn't produce anything pursuant to the subpoena
6 to this Congress from Sumairco as far as I know.

7 MR. BECKMAN: With respect, I am sure you don't
8 mean to be antagonistic.

9 MR. VAN CLEVE: Not at all.

10 MR. BECKMAN: But it was my understanding in
11 discussions with Mr. Tiefer that the materials provided to
12 the Intelligence Committee in December were passed to this
13 committee.

14 MR. VAN CLEVE: I think they will be in due
15 course, but what I am saying --

16 MR. BECKMAN: You mean they haven't been?

17 MR. VAN CLEVE: I don't think there has been a
18 formal transfer and the index to your document submission
19 does not reflect any Sumairco documents. I just want to
20 tell you that. So what I am telling you is there may have
21 been documents produced in the 99th Congress pursuant to
22 a separate subpoena, but I don't believe they were produced
23 pursuant to this subpoena.

5 produced to the Intelligence Committee.

6 MR. VAN CLEVE: I am sorry. Mr. Tiefer isn't
7 here to either confirm or disagree with what you are saying.
8 Do you have any written representation of that fact?

9 MR. BECKMAN: As I sit here, I don't have my
10 file with me.

11 MR. VAN CLEVE: I don't see a lot of point to
12 pursuing this. All I am trying to explain to you is you
13 indicated you had previously produced to the Select
14 Committee these documents. I take it what you meant is they
15 were produced to the House Intelligence Committee under a
16 different subpoena in the last Congress. Is that correct?

17 MR. BECKMAN: That is correct.

18 MR. VAN CLEVE: Thank you.

19 MR. BECKMAN: I am sensitive on this because we have
20 cooperated totally with this committee.

21 MR. VAN CLEVE: I follow what you are saying, but
22 I simply wanted to be clear that when we examined the
23 document production pursuant to the subpoena in the Select
24 Committee, those documents are not reflected on the index
25 and I don't believe they were produced under that subpoena. I

UNCLASSIFIED

1 am not suggesting that you are not cooperating.

2 MR. BECKMAN: I will re-produce them.

3 MR. VAN CLEVE: I am not suggesting any lack of
4 cooperation. I am just saying it is news to me that you had
5 done it. That is all.

6 MR. BECKMAN: All right, Mr. van Cleve.

8 Q If you had dictated or written any memorandum

10 A It would, unless I threw it out later because
11 I would every couple of years go through my files and
12 weed out stuff that was unnecessary.

13 Q But if you had written one it would have been

1 Q From your company anybody?

2 A Oh, I don't know. Probably if anybody was there,
3 Hugh Grundy would have been the only one I would have
4 brought.

5 Q What did they want the aircraft for?

6 A I don't know. They had some missions they
7 wanted to perform with it. Primarily what they were
8 going to do was they were going to practice with it, they
9 said they would not take it out of the U.S. I didn't
10 inquire much beyond that.

11 Q What did they tell you they were practicing for?

12 A They didn't.

13 Q Did they say where they were going?

14 A Just that they were going to stay in the U.S.
15 and they were supposed to follow our flight like we did
16 and run the airplanes like we do, so I assume Ops. would
17 know where it went.

18 Q Your operation person at that time was whom?

19 A Director of Operations was William Dunn. He
20 has passed on but we had a whole operations department that
21 followed airplanes.

22 Q And they were going to use their own crews?

23 A They were going to use this crew that we would
24 interview and see that they met our qualifications, and
25 they would be on our roster, go through out training, our

1 company training and orientation, and be checked out by our
2 check pilots, and follow the normal routine, so they weren't
3 unknown to us; they just weren't on our payroll.

4 Q They were paid by whom?

5 A I suppose by East, Inc.

6 Q We were talking about Summit and now we have
7 East, Inc. involved.

8 A Somehow they changed their name to East, Inc.,
9 because Summit did not come into the deal. When Mr. Langton
10 joined the company in the spring of 1983, I just turned
11 the whole thing over to him, I had very little to do with
12 it after that.

13 Q As of May 1983, was it East or Summit?

14 A I am not sure. It was never Summit, it was
15 Sumairco, and I don't know when it changed from Sumairco
16 to Summit, nor why.

17 Q You mean from Sumairco to East?

18 A Yes.

19 Q Did you negotiate this contract?

20 A I negotiated the original contract with Sumairco,
21 right. I wrote it, as a matter of fact. It was a letter
22 contract, and I don't know if they are still following it.
23 After I turned it over to Langton I don't know if the
24 nature of the operation changed or not. It wasn't a
25 major activity of the company, in my judgment, and I didn't

jm 5
2 Q What were the terms of the contract in terms of
3 dates, was it a one-year contract, a six-month---

4 A It might have been a 30-day cancellation. The
5 draft might be in the files turned over to you.

6 MR. BECKMAN: I have a recollection, I think the
7 document was turned over to you.

8 THE WITNESS: I am not even sure that the
9 signed document existed but the draft is in my files. They
10 might have changed that totally. I know the rates changed,
11 probably, and I didn't follow it beyond that.

12 BY MS. NAUGHTON:

13 Q Is it fair to characterize it as a month-to-
14 month contract?

15 A I would read the contract, if I were you.

16 Q I am just asking for your recollection?

17 A I don't recall.

18 Q Okay.

19 Did you enter into any other contracts with either
20 Sumairco or East after this 1982, or thereabouts, early
21 1983, contract?

22 A I think that they changed the nature of the
23 contract from time to time, maybe just the rates. I don't --
24 I was not party to that. That was left to my subordinates.
25 Basically I don't even think they changed the rates. I

1 think they stayed pretty much the same.

2 Q Do you know whether or not the activity was
3 expanded?

4 A I don't think it ever did get to be a major
5 activity, no.

6 Q When you say that, is there a dollar figure we
7 can assign to it?

8 A Sure. I don't have it---

9 Q Can you give me an idea, \$10,000, \$100,000.

10 A I don't know. I would rather not speculate.

1 AFTERNOON SESSION

2 MS. NAUGHTON: Let the record reflect we are back
3 on the record after an hour long lunch break.

4 BY MS. NAUGHTON:

5 Q Now, when we left we were discussing a meeting
6 that you had with Mr. Gadd, meeting him for the first
7 time, and an official with Sumairco, regarding a fairly
8 small contract of contracting in aircraft for what they
9 said were practice runs. Do you recall that testimony?

10 A Yes. I think it was some officers of Summit
11 Aviation. Sumairco hadn't really been formed yet, probably.
12 Ultimately, I did contract with Sumairco though.

13 Q Okay, and you said you didn't know exactly
14 what -- was it just one plane?

15 A Yes, but not any specific aircraft. They would
16 take whatever one was available at the time. When they
17 wanted to use it, they would call and say, we would like
18 to block out next weekend, and we would look at our schedule
19 and see if we had availability then.

20 Q Did they have a specific size requirement?

21 A No, most of the time they took a Dash-20, the
22 smaller of the two airplanes.

23 Q They never told you what these were for or what
24 they were doing with the plane?

25 A No. I never asked the, except they were going

UNCLASSIFIED

jm 8 1 to conduct it in conjunction with our requirements for an
2 airplane, not carrying contraband, they had to fly to
3 where we had insurance.

4 Q Was this unusual for you not to know what they
5 were using the plane for?

6 A It wasn't something I did every day. I guess we
7 didn't have another customer that furnished their own pilots,
8 but we knew where the airplanes were going. I didn't ask
9 every day, where is this airplane going or flight following.
10 They said, practice missions and training in the U.S.

11 Q But you didn't ask them what would be inside the
12 plane?

13 A I don't remember asking that specifically, no.

14 Q Is that unusual for you not to know what your
15 customers are transporting?

16 A In general, we have bill of lading, and I assume
17 that when this one flew whatever went on, it would follow
18 the same conditions that a bill of lading -- not a bill of
19 lading -- what did they call it -- whatever we made up, a
20 manifest for an airplane cargo.

21 Q Would those documents be in the Sumairco file
22 or in another file?

23 A They should be in the Southern Air's files, I
24 think.

1 MR. BECKMAN: When you say those documents, what

3 THE WITNESS: The manifest.

4 MR. BECKMAN: If we had them they would have long
5 ago been destroyed.

6 THE WITNESS: They are not there now, probably.

7 MR. BECKMAN: I think we have a 90-day destruction
8 policy or something like that.

9 MS. NAUGHTON: If you could double check on that
10 for me, please, and then when Bob comes down, if they are
11 available we would like to see them?

12 MR. BECKMAN: I would be happy to. When we were
13 interviewed by the FBI I would have to tell them we didn't
14 have that. We would sink through the stress factor of the
15 floors.

16 THE WITNESS: I asked the question of Langton,
17 and was assured that was what they were doing, was flying
18 within the Continental U.S. on practice missions.

19 BY MS. NAUGHTON:

20 Q What did Mr. Langton tell you they were doing
21 on the practice missions?

22 A I don't think he knew. They were just flying
23 the airplane and practicing.

24 Q The crew that they provided for you -- to be
25 trained by you and certified by you, were these people

3 A I think they met our criteria, whatever that was.
4 Generally they used to require 1500 hours, but they were
5 very qualified people, I am sure. We have their names, I
6 am sure. They must have been supplied to somebody, if that
7 was the question.

8 They were experienced, et cetera, training records.

9 A When you met with these folks for the first time,
10 did you meet in your office?

11 A Yes, I did.

12 Q How many days did they spend there the first
13 time?

14 A Just the one day.

15 Q Did you go out in the evening with them?

16 A No, I don't think so.

17 Q When is the next time you had any conversations
18 with Mr. Gadd?

19 A I really don't remember. It was a long time
20 after that, it seemed like. I am not sure if I ever had
21 another one after having first turned the whole thing over
22 to Langton. I just don't remember seeing him again.

5 with Summit---

6 A Sumairco.

7 Q You contracted with Sumairco and Summit just

9 A That is my feeling, yes.

10 Q And then Sumairco became East?

11 A Right, I think that is correct.

12 Q What is Mr. Gadd's relationship to East?

13 A I don't know. I think he might be president,
14 but I don't know.

15 Q First of all, did you have any other contracts
16 then with Summit?

17 A No.

18 Q Did you have any other contracts with Sumairco?

19 A No.

20 Q So now we can concentrate on East?

21 A Yes.

22 Q When is the next time you heard either from

24 A Me personally talking to them?

25 Q No, any time your company had dealings with them?

1 A I think they had dealings with East mostly over

5 been following that original document that I drafted by the
6 time Langton was working with them two years later. I don't
7 I am sure that they were -- their guidelines were the same.

8 Q If I could go back to the original meeting you
9 had with Summit, the individual that you thought was a

13 A I don't remember he said much of anything, frankly.

14 Q Was it your impression that you could obtain

16 Sumairco?

17 A No.

18 Q Was t here any relationship, in your mind, between
19 government contracts that you were seeking and any work
20 done for East?

21 A No, we weren't seeking any at that time, other
22 than the fact that I would always be interested in *Log Air,*
23 *Quiktrans.*

24 Q And that is what you described with Trans America?
25 That is the contract you described that Trans America was

1 involved with?

2 A Yes, plus other carriers that participated in
3 this.

4 Q That is the contract you just described?

5 A Yes, I was interested in trying to get involved
6 in that or any MAC business but this had no entry in my
7 mind. That business is let on a very strict award criteria
8 that all carriers know, and we follow it by the book.

9 Q Was there a connection in your mind between
10 East and anybody in the Defense Department.

11 A I thought East had a contract with the Defense
12 Department -- the government, not necessarily the Defense
13 Department. They had the contract and they were going to
14 hire us, our airplane, to carry out their contract, yes.

15 Q When did you form this opinion?

16 A When they first came to me.

17 Q When Gadd and Foley and---

18 A They might have said, we have a government
19 contract and we need this type of airplane.

20 Q When was the next time that you were aware that
21 your company did any transactions with East?

22 You say---

5 Q And when do you next -- strike that.

6 Do you remember briefing Mr. Langton on this East

8 A Not specifically, but I am sure I did.

9 Q And how soon after Mr. Langton came onboard

11 A Personally?

12 Q Yes.

13 Q I don't remember, but it was quite a while. I

14 just don't know. Probably a year or more.

15 Q When you said, personally, let's distinguish that

16 from, I guess, the company.

17 A Yes, I think they were talking to him on a

19 Q Took that part over?

20 A Yes. And they became more active, I think, after

21 Mr. Langton came aboard than they ever had been -- we had

22 this contract in place and I don't remember them doing a

23 whole lot of flying out there, frankly.

6 he may have dropped into the office. He did come to my
7 home one time to talk about an operation, and I very frankly.
8 forget what that was.9 I just remember the incident. I was ill, so I didn't
10 go into the office, so he came to the house.11 Q Was that before October of 1985, or was that the
12 October of 1985 visit?

13 A It could have been October of 1985.

14 Q Is this when he broached the subject to you of
15 supplying the Contras?16 A Probably, yes, that he was -- they were
17 going to start an operation to help supply the Contras,
18 and he wanted to know if we wanted to become involved in it.19 Q So I have it clear in my mind, aside from maybe
20 a casual passing in the hallway between you and Mr. Gadd,
21 the next substantive meeting you had with him was this
22 October 1985 meeting in your home?23 A Yes. I am not sure it was in my home. I had
24 a meeting in my home, I am not sure that was what the
25 subject was.**UNCLASSIFIED**

1 Q Well, did you ever discuss the Contras with
2 Mr. Gadd outside of your home?

3 A I don't think so. I may have had a conversation
4 with him in the office, but I don't remember it.

5 Q Do you recall discussing the Contras while you
6 were in your home?

7 A Yes. I remember discussing the Contras, whether
8 it was in my home or in my office, I am not sure. I did
9 have one meeting with him in my home.

10 Q Do you remember anything else you discussed
11 with him in your home?

12 A I only remember two conversations with him, one
13 having to do with the Contras, and one having to do with
14 Iran, and one was by telephone, and one was a personal meeting
15 in my home. Those are the two that stand out in my mind.

16 Q Do you remember which came first?

17 A The Contras.

18 Q How did this meeting in your home come about?

19 A It was initiated by Mr. Gadd.

20 Q How did he initiate it?

21 A I guess he called Mr. Langton.

22 Q And why did they go to your home?

23 A Because I was not in the office. I had a cold
24 or something.

25 Q Did you tell them to come to your home?

1 A Yes, I said if they wanted to see me this
 2 particular day, they had to come to my home. Maybe I just
 3 had my arm operated on. I was ill and was in my home; no
 4 secret reason to be in my home.

5 Q I ~~was~~^{wasn't} suggesting that.

6 So Mr. Langton brought them to your home?

7 A They came together.

8 Q Mr. Gadd had not been to your home previously?

9 A I don't think so.

10 Q Who else was present at this meeting?

11 A That is all, just the three of us.

12 Q Anyone from your family?

13 A No. My wife was in the house but she wasn't in
 14 the meeting.

15 Q Where in your home did you meet?

16 A In the living room.

17 Q Were any notes taken by any of the three of you?

18 A Not that I recall, but somebody could have
 19 been taking notes. I just wasn't conscious of it.

20 Q Do you recall dictating or writing any memorandum
 21 after the meeting?

22 A No.

23 Q Do you recall reading any memorandum from either
 24 Mr. Langton or Mr. Gadd after the meeting?

25 A No.

1 Q Did you ever see anything in writing about the

3 A No.

4 Q Do you remember what time of day it was?

5 A Midday, I would say.

6 Q ~~S~~^S why don't you just tell us in a narrative
7 fashion and then I will ask the questions later -- once
8 they came into your home you sat down in the living room,
9 what was discussed to the best of your recollection?

10 A I think Mr. Gadd had some funds to commence
11 a supply operation for the Contras, private funds -- not
12 government funds as I recall, and he was going to set up an
13 airline to do that, and he wanted Southern Air to be involved
14 in that maybe as a joint venture or a joint venture or --
15 these were very loose concepts that were discussed. I
16 don't think the meeting took more than an hour and a half
17 or something like that. We ~~met~~^{met}, I guess, at the time, that
18 we just couldn't be involved without being in total control
19 of it.

20 It wasn't a concept that we thought was necessarily
21 wrong or right, or anything, but unless we could control
22 it we wouldn't be too interested in it. Mr. Gadd seemed
23 to want to -- he had the funds and he had all of the go-ahead
24 on it, or that is the impression he gave, and so we --
25 I guess we left it rather loose as to what we were ultimately

1 going to do, and said, well, it is an interesting idea,
2 Southern Air might be willing to give some assistance and
3 maybe even become a joint venture, or if it is structured
4 right -- I asked such questions as whose flag does it
5 fly under, or where would you get the registration for your
6 airplanes, and this sort of thing, which he didn't seem
7 to know.

8 He didn't have a good feel for the business.

9 Q What was his response to those specific questions?

(12:50 p.m.)

1 A No problem. It would all be taken care of. Don't
2 worry about it -- that we had the right contacts, and, you
3 know, we could either get Honduras registration or Panama
4 registration or El Salvador or whatever countries we were
5 talking about at the time.

6 It was just, you know, no problem. I asked him how
7 much budget he had, and, well, he had \$500,000 or something
8 like that, and my reaction to that was, well, that is really
9 totally inadequate to really start up an airline. There is
10 a lot more to do than they recognized.

11 You just don't go buy an airplane and start up an
12 airline. You really have to have an infrastructure, you got
13 to get the base, you got to get the money, and you got to get
14 parts. You got to get a company and you got to get your
15 airplanes registered and become part of the community, having
16 had some experience in that in the Indochina days.

17 So my general feeling was that this was not something
18 we wanted to be involved in.

19 Q Was it his plan to purchase an aircraft specifically
20 for this?

21 A Yes.

22 Q Rather than use Southern Air's?

23 A Yes, this was going to be an internal supply system.
24 Southern Air's airplanes were way too big for this activity.
25 You needed something that could land on much smaller strips.

UNCLASSIFIED

1 It was going to be a supply system within Central

3 Q And --

4 A Operating out of [REDACTED] or some place, I guess,
5 into wherever the contras were.

6 Q Now, when Mr. Gadd first broached this subject,
7 did he say whom he represented?

8 A He said it was private funds, but I got that
9 distinct impression that it wasn't government money; in some
10 way it was private money.

11 Q Did he say he represented a group of private
12 investors or individuals.

13 A No, he really never got into specifics where he
14 got his money nor did I ask, and I really didn't know.

15 Q He just said, we, or --

16 A Yes, more or less.

17 Q Is that the phrase he used?

18 A Yes.

19 Q Did he mention any organization?

20 A No, not to me. I don't remember anything about
21 where the money was going to come from.

22 Q Did he give you a business card?

23 A Not me, no. I don't have any.

24 Q Did he give one to Mr. Langton that you are
25 aware of or anyone in your company?

UNCLASSIFIED

UNCLASSIFIED

- 1 A I am not aware of that.
- 2 Q Did he ever show you any credentials?
- 3 A No.
- 4 Q Now, when he said -- you mentioned that he told
5 you that he had the go-ahead.
- 6 A Yes.
- 7 Q What did you mean by that?
- 8 A My feeling was that the administration was giving
9 him the okay on this, that they were working in some way
10 with the administration.
- 11 Q How did you get that impression?
- 12 A From Mr. Gadd, and I am not -- I don't have any
13 specific feelings, because I always felt that his contract,
14 for example, the contract EAST, Inc., was with the
15 government in some way, that he didn't just have money
16 of his own that he was, but it was a government contract.
- 17 Q How did you get that feeling?
- 18 A I think he probably told me so, and I think it
19 probably was. I think what happened was they did have a
20 government contract and that was a different project
21 entirely. He represented a company VINAL or something like
22 that that was very big in government contracts, and his
23 EAST, Inc. was just a spin-off of that.
- 24 VINAL -- was that it? I forget the name of the
25 company. I might have that card. He might have given me

UNCLASSIFIED

1 that card. I probably threw it away, though.

2 Q If you come across it, I would appreciate having it.

3 A They are a big company.

4 Now that you mention it, I did visit him, now
5 that I mentioned it, one time in McLean at this big office.

6 That was -- I have no idea when that was.

7 Q Was it after this contra discussion?

8 A No, it was before, early in my dealings with
9 him. So I had been up there at one time to his office in
10 McLean, I think -- no, Vienna.

11 Q McLean or Vienna?

12 A It might have been Vienna. He had a couple of
13 offices up there. The first one he had only one office and
14 he was very closely connected to what I thought was this
15 holding company. I was never quite clear on it.

16 Q Do you remember what the holding company was?

17 A VINAL or something like that.

18 Q When you went to visit him at this office, was it
19 a large office or just --

20 A It was a large office. He had a small office
21 within this complex. They might have had a whole floor
22 in one of those buildings out there. But they -- he
23 explained to me they had a number of government contracts
24 and this was one of them, that EAST, Inc. ultimately
25 because EAST, Inc., was operating.

UNCLASSIFIED

CONFIDENTIAL
UNCLASSIFIED

1 I do think that contract -- I have no basis for
2 it -- was divorced and not part of an ongoing -- the contra
3 deal that he was getting himself involved in was not an
4 ongoing part of this other contract that they used our
5 Herc for.

6 Q Do you recall how you got that address of where to
7 go in Vienna?

8 A I am sure he told me on the telephone.

9 Q Do you remember writing down any directions or
10 anything how to get there?

11 A I am sure I did, but I wouldn't have kept them.
12 This is, you know, a few years ago.

13 Q Did you use a rental car or public transportation?

14 A I probably used a rental car. I don't know.
15 No, I didn't use a taxi.

16 Q Did he introduce you to anyone else at that
17 company?

18 A Probably did, but I don't remember who they were.
19 This is a public company, I think.

20 Q Okay.

21 A Remind me. I will look through my card index.

22 MR. BECKMAN: Do you remember how to spell it?

23 THE WITNESS: Starts with a "V", V-I-L-L or something
24 like that.

25 MR. BECKMAN: Vill?

UNCLASSIFIED

UNCLASSIFIED

1 THE WITNESS: No, it is longer than that.

2 Vinal, maybe it is V-I-N-A -- I don't know.

3 MR. BECKMAN: Okay.

4 BY MR. NAUGHTON:

5 Q At that meeting in his office did you -- what did
6 you discuss?

7 A I don't know. It wasn't obviously any real
8 contractual activity. I might have just been in town and
9 went over to visit him. It is nothing of any consequence,
10 obviously.

11 Q Did you ever see him in uniform?

12 A No. I think he was retired.

13 Q Did he tell you that or --

14 A No, I ultimately found that out. I really didn't
15 know he was military, frankly, until all this came out --
16 or retired military.

17 Q Now, let's go back to the meeting in your home.
18 We got kind of sidetracked there.

19 When you said you felt he had the go-ahead from
20 the administration, to the best of your recollection, what
21 precisely did he tell you about that?

22 A I think I heard that more from Langton than from
23 him. These are things that -- you are trying to pin it down
24 to one meeting when all this happened and probably it is
25 conversations over a period of time with Langton. This is

UNCLASSIFIED

CONFIDENTIAL

1 the only meeting I had with him.

2 Q Okay. Let me stop you there. Before this
3 meeting, did Langton tell you about Gadd wanting to supply
4 the contras?

5 A He might have. Might have.

6 Q And would Langton then have told you at that
7 point that he had administration backing?

8 A I don't think he -- I think I was never told he has
9 administration backing.

10 You know, don't take my testimony to mean that,
11 because I don't think that is the case. My general feeling
12 was that they had administration backing from the standpoint
13 of this was a project that the administration was approving
14 of, but I never got the feeling that the money was coming
15 in. It was private money, but they were working some way with
16 the White House.

17 Q All right. That is what I am getting at.

18 When he said he was working with the White House
19 or had their go-ahead or approval -- can you explain to me --
20 first of all, let's go to Gadd, what Gadd told you to give you
21 that impression.

22 A That this has White House approval. This is some-
23 thing the White House wants done. I don't know if he said
24 it in those words, but clearly that came across.

25 Q Did he mention anyone specifically at the White

1 House?

2 A Not to me.

3 Q Did he mention the Vice President?

4 A No.

5 Q Did he mention anything about the Boland amendment
6 or humanitarian aid as opposed to military aid?

7 A Not to me. We were doing some humanitarian aid.
8 We were flying some of that for them.

9 Q For whom?

10 A I don't know if it was at this time or -- well,
11 Gadd was getting the business for us. So, he was the
12 agent as far as we were concerned, and we booked it through
13 his company, one of his companies, I guess.

14 Q You don't recall the name of that company?

15 A No.

16 Q What made you think this was then different
17 than the flights you were already running?

18 A Well, the flights we were running was the know-how
19 flights, whatever they call that, and this was going to be
20 supplying internally in Nicaragua, Central America, the
21 movement of goods, maybe some of this ~~XXXX~~ ^{NHAO} goods that
22 had to be moved in our type airplanes, including other
23 airlines participated in the humanitarian air relief.

24 We didn't fly that alone. Air Mach flew some
25 and other carriers, but to move that type of goods to the

1 contras required further airlift within country, within
2 Central America. And this was his desire, to set up this
3 airline. I think he saw it as, you know, as a business
4 proposition.

5 Q But when he explained this to you, was it in
6 the context of the ██████████ NHAO contract or was it a
7 separate venture?

8 A I got the feeling that it was not part of that
9 contract, but it was something that he was going to do with
10 whomever he worked with, because there was a need that
11 existed for distribution in Central America after the
12 stuff arrived either by boat or large airplane. You had to
13 distribute it to or within country, and this was a business
14 opportunity, in a sense.

15 Q All right.

16 A And that I assume he was going to make money at
17 it.

18 Q Well, did you get the impression he was doing it
19 for the money or for some political or patriotic reason or
20 both?

21 A I think a little of both. I think he visualized --
22 I know you are asking me to enter his mind now -- but
23 visualized a business that made some money, and in addition
24 was carrying out a function. . . .

25 Q Did you discuss with Mr. Gadd at this time or any

UNCLASSIFIED

1 time the political situation in Central America?

2 A I don't recall doing that, no.

3 Q You don't recall having a political discussion
4 with him regarding the contra movement, who is right or
5 who is wrong?

6 A No.

7 Q Or what was happening?

8 A No.

9 Q What kinds of materials did he discuss trans-
10 porting?

11 A I don't recall discussing that at all.

12 Q Did you ask him if he planned on transporting
13 contraband?

14 A No.

15 Q So you never separated from his mind or your
16 mind whether they were going to transport explosives or
17 weapons as opposed to soft goods?

18 A No, I never asked that. I never considered
19 weapons transported by an airline that he formed down
20 in Central America being contraband. It is just more cargo.
21 If you are asking me, I never even gave it a thought.
22 I would assume they would carry weapons.

23 Q All right.

24 A Why not?

25 Q In your mind, even today, transporting the weapons

1 down there, you see nothing wrong with that?

2 A I don't see that as a violation. Is that a
3 violation of the law? I don't know. I don't see that as
4 being a violation of the law, no.

5 Q Okay. Would the same be true of missiles or
6 missile parts, in your mind?

7 A Probably.

8 Q Now, he said that he was working for some
9 private or had private funds, is that correct?

10 A Yes.

11 Q And he said -- did he say he only had half a
12 million dollars or that is all he had to spend on this
13 project?

14 A That is all he had at that time, about a half
15 million dollars. Some way or another, in my mind, and
16 I don't know where it came from, that maybe up to a million
17 and a half might be available, all of which I considered
18 inadequate.

19 Q Did he say when this fundraising effort began?
20 Did he say, "We have been collecting this for years" or
21 "for months" or "for days"?

22 A Didn't say that at all. He just said this is the
23 money he had.

24 Q Did he say where he had it?

25 A No.

UNCLASSIFIED

UNCLASSIFIED

1 Q Did you ask him how you would be paid?

2 A I don't remember that, asking that, no. I did not
3 ask that. I didn't -- firstly, I wasn't going in the
4 business, I guess, and so I wasn't too interested in how it
5 was going to be paid being I wanted no part of it.
6 We wanted to get paid for whatever services we performed
7 and we were generally paid cash in advance -- not cash in
8 advance, but with him he had always been a good customer over
9 the years. We would give credit. But we got cash on our
10 invoicing.

11 Q What was Mr. Langton's contribution to this meeting?
12 Did he try to cement a business deal or did he argue against
13 it?

14 A No, I don't think so. I think he and I were in
15 tune with what Southern Air needed to go forward with
16 any business arrangement and understand what conditions we
17 would do it.

18 Q Did Mr. Gadd envision your company purchasing
19 the aircraft for him or was he going to do this separately
20 himself?

21 A He was going to furnish the money, as I got the
22 impression, and we never got far enough that I say, you
23 know, the next question would be, "Well, if you advance a
24 half million to buy airplanes and you are going to make us a
25 50 percent partner, how do we pay you back?"

UNCLASSIFIED

UNCLASSIFIED

1 Because obviously whoever put up the half million
2 dollars deserves to get his money back first or deserves to
3 own the assets that that money bought.

4 So those were problems in my mind because it was
5 a loose conversation, but it never got far enough that
6 I had to start resolving all of those.

7 Q What crew was he planning on using?

8 A That was another discussion, you know, where
9 would you get crew members for that. He said, "Well, I know
10 where I can get some" or "I already have hired some", which
11 was another alerting to signal to me that we were not in
12 control of it. He has already hired crews. I don't know
13 who they are and what their qualifications are and etc.

14 So, he had already hired crews, and they were
15 looking for airplanes, that type of thing. I am not sure
16 this all took place in this meeting. These might have
17 been conversations that Langton gave me either a little bit
18 before or a little bit after.

mas 11 Q And when you asked what flag it would be flying
2 under, he said he wasn't sure?

3 A Yes, I think they had not made up their mind yet.
4 They talked about Panama. I said, well, if you put a
5 Panama flag on it will [REDACTED] let you fly a Panama
6 flag carrier in their country, because this is a big
7 problem with airlines and we in the business understand that
8 you cannot take a U.S. N-registered airplane down to Panama
9 and fly it around Panama.

10 Q Internally?

11 A Internally, or even offshore sometimes. They don't
12 want you -- for example, if you get a Panamanian airplane
13 you probably cannot fly it in [REDACTED] without
14 [REDACTED] giving special permission. Also you got to return
15 it every, I think they want you to return it every six
16 months back home, otherwise they won't let you register
17 the airplane; or return every month. It has to be on a
18 scheduled operation out of their country.

19 So these get to be very nationalistic. So setting
20 up an airline to operate in another country becomes a very
21 difficult operation without total cooperation of that
22 administration.

23 Q Did he ever make any allusions to perhaps paying
24 anybody off in these countries?

25 A No, but I think there were allusions that that

1 had all been taken care of. They could get whatever
2 operating rights they wanted to and fly pretty much
3 where they wanted to. That would have been why I thought
4 that there had to be government assistance. You cannot
5 go down there all by yourself as an entrepreneur without
6 your government helping you or that government bring
7 friendly to you, getting you an airport to land in. That
8 was another discussion.

9 What site are you going to fly out of? How are you
10 going to get it? Who is going to let you have it?

11 Q What did he say to that?

12 A "It has all been taken care of."

13 Q Did he tell you where they were going to fly out
14 of?

15 A Yes, I think so.

16 Q What did he tell you?

19 Customs problems. We, Southern Air, if you are not an
20 air carrier and you are engaged in what we call common

5 THE WITNESS: With FAA you do file flight plans.

6 MS. NAUGHTON: All right.

7 BY MS. NAUGHTON:

8 Q If you are flying an internal flight in Central
9 America and you are a U.S.-registered plane, do you have
10 to file a flight plan?

11 A No, not to my knowledge.

12 Q So to your knowledge there is no U.S. regulations
13 or requirements that you have to file if you are just simply
14 doing an internal flight?

15 A Right. If you are flying a U.S. N-registered
16 airplane of course you are under the safety rules still of
17 the U.S. FAA, and you have to comply with those, but they
18 don't require any reporting. It is just that your pilots
19 can fly only so many hours and your airplane has to be
20 maintained under certain levels of safety, et cetera,
21 et cetera. All N-registered airplanes have to do that.

22 MR. BECKMAN: When you get to reporting you
23 also have the Department of Transportation reporting foreign
24 civil charters.

2 have to do that.

3 MR. BECKMAN: I just don't know how precise or
4 broad Pam's question is.

5 MS. NAUGHTON: I don't know either, I am just
6 factfinding.

7 THE WITNESS: We file with the Department of
8 Transportation some Form 41s on all our charter flights.

9 BY MS. NAUGHTON:

10 Q That is even your ad hoc charters?

11 A Yes.

12 Q Is this true of your contract flights?

13 A Yes, we file something on that that might be a
14 little more general in terms of it keeps repeating itself
15 type thing.

16 Q Now is that DOT or FAA specifically?

17 A DOT. This is an outgrowth of the CAB.

18 Q What is the form number?

19 A Used to be Form 41 because it was under Part 141
20 of the --

21 MR. BECKMAN: I think it is 217 now. They keep
22 changing it. I could be wrong as well.

23 BY MS. NAUGHTON:

24 Q Now, you had this meeting that lasted in your
25 home about an hour-and-a-half, you said. What was the

m7 1 sense you had at its conclusion, and did you convey the
2 message to Mr. Gadd that you were not interested?

3 A I am not sure it happened on that day. I think
4 it was left real fuzzy then. He said well, he didn't need
5 an answer. It might have gone on for a couple more
6 months in a fuzzy way because he was not yet putting it
7 together. But then all of a sudden I might have asked
8 Langton a month later or something, well, you know, what
9 has ever happened to that?

10 And he said, well, you know, Gadd is just going on
11 his own. He has hired crews already and we are doing the
12 maintenance for these people, or actually we were not
13 really even doing maintenance. We were providing maintenance
14 personnel. They were supervising their own maintenance.

15 We provided maintenance people when they needed
16 them and asked for them.

17 Q Who provided the materials?

18 A We went out and bought the materials for them,
19 used our purchasing department to do that.

20 Q And then billed their account?

21 A Yes.

22 Q How were you made aware of this?

23 A Myself, I was made aware really after the fact
24 by Langton and Bob Mason.

25 Q But prior to October of 1986?

1 A How I personally was made aware of the fact
2 that we were performing these services?

3 Q Yes.

4 A By Langton, Mr. Langton.

5 Q Okay.

6 A I would ask him from time to time "What is going
7 on" and you know, what was our involvement with this
8 operation down there?

9 Q Okay.

10 A Because I would see the airplanes sitting on
11 our ramp by this time.

12 Q Let's take it from the next step then. After
13 that meeting at your home, do you recall when the next time
14 it is that you spoke with Mr. Gadd?

15 A I am sure I spoke with him from time to time when
16 he was down there, more or less just "How do you do", in
17 the hallways though. But the next time I remember I guess
18 was when he telephoned late one night, or I was told he
19 was going to call.

20 Q By whom?

21 A By Mr. Langton.

22 Q What was he going to call about?

23 A I think that had to do with the Iran movement.

24 Q All right.

25 So you really didn't speak to Mr. Gadd substantive?

- 4 Q And do you recall when that was?
- 5 A No.
- 6 Q Now, were you aware of Amalgamated Commercial
7 Enterprises?
- 8 MR. BECKMAN: ACE.
- 9 THE WITNESS: ACE, yes.
- 10 BY MS. NAUGHTON:
- 11 Q When did you become aware of ACE?
- 12 A Probably shortly after it was formed, because
13 my people probably reported to me and said, well, we formed
14 this Panamanian company for Mr. Gadd.
- 15 Q I am sorry, I have to backtrack one more moment.
16 Regarding the conversation at your home with
17 Mr. Gadd and Mr. Langton, did you describe this conversation
18 to anyone else?
- 19 A No.
- 20 Q Did you tell anyone else about it?
- 21 A No.
- 22 Q Now, as to ACE, who told you that officials from

- 24 A Mr. Langton I believe.
- 25 Q How did that come up?

1 Q Was this in the course of an ordinary business
2 meeting or did he call you to ask if it was okay to do it?

3 A He didn't ask if it was okay to do it. I guess
4 it was in a normal conversation. Maybe it came up -- I just
5 don't know.

6 Q If he had asked your approval to do this, would
7 that have been unusual or would you have given your approval
8 to do it?

9 A I probably would have given my approval.

10 Q Had you done this for other companies?

11 A No.

12 Q Why then would you give your approval?

13 A I wouldn't see anything wrong with it. If it were
14 of use to a customer, I would do so.

15 Q What did Mr. Langton tell you about forming ACE?

16 A He thought ACE was going to be the company that
17 Gadd operated his Central American --

18 Q Resupply effort --

19 A Resupply effort, yes.

20 Q Did Mr. Langton tell you about the specifics, the
21 mechanics of opening up the ACE account?

22 A Probably. Which meant they just took some money
23 down and bought an off-the-shelf Panamanian company and opened
24 a bank account and that was the end of it. It took a couple
25 of hours.

- 1 Q Whose money did they use?
- 2 A Mr. Gadd furnished the money, I believe.
- 3 Q Is that what Mr. Langton told you?
- 4 A Is that what he told me?
- 5 Q Yes.
- 6 A I guess so. That is the impression I got from some
- 7 source. It wasn't our money, I didn't think. I certainly
- 8 didn't authorize anybody to open an account with our money.
- 9 Q Would that have required your authorization?
- 10 A How much money was involved.
- 11 Q Let's say around \$10,000.
- 12 A No. That wouldn't require my authorization.
- 13 I thought they had a quarter of a million dollars or somethin
- 14 Just \$10,000, maybe they did do it with our money and we got
- 15 reimbursed.
- 16 Q But you don't know, is your answer.
- 17 A I don't know.
- 18 Q Now, how soon after the meeting at your home did yo
- 19 learn that indeed Mr. Langton and Mr. Gadd had reached an
- 20 agreement regarding the maintenance of these flights?
- 21 A Oh, I don't know, it might have been a month or two

1 A They didn't reach an agreement on any ongoing
2 involvement of Southern Air in the Central American activity,
3 but we would just be technical advisors and provide maintenance
4 as they required on call and that is what we were doing. That
5 probably came up when I questioned Mr. Langton, what is going
6 on down there.

7 At some point, he said we are really not doing
8 anything other than providing support.

9 Q When did you ask him this?

10 A I don't know specifically.

11 Q A month later? A year later?

12 A It might have been two or three months later.

13 Q Why did you ask him?

14 A Because I started seeing the airplanes around and
15 I was worried about if we got further involved than what he
16 and I had agreed to.

17 Q Is that when he told you about the ACE account?

18 A It could have been. He could have told me at the
19 time, too; I don't know. I don't remember it being told to me
20 before the fact, though, but that is not really important.
21 I would have authorized him to go ahead and do that.

22 Q Did you ever see a contract?

23 A No.

24 Q Would one have been written?

25 A No.

UNCLASSIFIED
~~CONFIDENTIAL~~

UNCLASSIFIED

LDD 4

1 Q Why not?

2 A Well, because we provide drop-in maintenance
3 for people all the time. I would assume there is a work
4 order or something. When they want work done on an airplane,
5 we generally open a work order and have the pilot sign it so
6 we have something to authorize the work being done.

7 It is like driving your car into a dealership and
8 saying, "I have something wrong with my lights and I would
9 like you to check my brakes and change the oil," and the guy
10 stands there and makes up a work order and does it and you pick
11 up the car that night.

12 Q Would your answer be the same in terms of the term
13 used, would an invoice have been prepared every time the
14 maintenance required material?

15 A Yes, same thing on maintenance materials, if it were
16 going directly on the airplane. I understand that we did a
17 little more in this instance, that they might give us an order
18 and we would have our purchasing agents go buy the stuff on
19 the open market for them because they didn't have that
20 structure and capability and then we would bill them for it,
21 or maybe they would give us money in advance and we would draw
22 against that advance, I am not sure.

23 It probably happened both ways.

24 Q Would you generally take out a fee for your
25 services?

UNCLASSIFIED

UNCLASSIFIED

82

LDD 5

1 A We generally added 25 percent for that service.
2 We do a lot of buying and the standard charge is cost plus 25
3 percent. Then we have a regular hourly rate that we charge
4 for our maintenance depot like \$30 an hour, so if they use it,
5 we charge \$30 an hour.

6 Q If we can skip ahead then to March of 1986,
7 there was a purchase of a couple of C-123 aircraft?

8 A Yes.

9 Q Tell me what you know about that.

10 A I don't know anything. Ask me some questions.

11 Q To your knowledge, were some C-123 aircraft
12 purchased on behalf of anybody by Southern Air?

13 A Only from what I read in the newspaper and I guess
14 subsequently asking people in my company that we did advance --
15 I am not even sure we advanced, frankly -- we went down and
16 bought a cashier's check to take to somebody in Fort
17 Lauderdale to pay the purchase price on one C-123 and I am not
18 sure that that was an advance by Southern Air or just money --
19 what I was told was that they had a check to pay for it, but
20 the seller was demanding a cashier's check; he wouldn't
21 accept their check, so we took the customer's money that was
22 going to buy the airplane and we issued a cashier's check
23 from our account to pay for the airplane so the guy would have
24 good money.

25

We, in other words, accepted their bank check in

UNCLASSIFIED

UNCLASSIFIED

1 good faith.

2 Q Who told you all this?

3 A Langton or Mason.

4 Q And this was only after the story broke in the
5 newspapers?

6 A Yes. I didn't know we had done that accommodation
7 until then.

8 Q Was this unusual.

9 A Not really, no. We have done this for a lot of
10 customers or would do it. We have advanced money --

11 Q To purchase aircraft?

12 A To purchase something equally expensive. This
13 was only \$300,000 or something. Not that \$300,000 isn't a lot
14 of money, but this is a customer we have done business with,
15 a man we have known for a long time. He has a check in his
16 hand, even if he had promised it was on its way, we would
17 probably do that. And for other customers, we have advanced a
18 lot of money. Sometimes in aviation, a lot of people want
19 cash in advance before anything moves and if we can accommodate
20 them, we do.

21 Q Would it have been unusual to purchase the aircraft
22 yourselves and then resell it?

23 A That I would have objected to because then you get
24 into the chain of title and if there is a flaw in the airplane,
25 you could get sued for breach of warranty. If you are selling

UNCLASSIFIED

UNCLASSIFIED

1 the airplane, you are liable to be responsible for the
2 condition of it.

3 I really wasn't asked on this deal. They might have
4 done it something like that, but I don't think they did. I
5 think it was passed directly to the user.

6 Q I am going to back track a minute because it is
7 sort of in a separate category. The flights from Lisbon to
8 Central America, beginning in January of 1985, in early 1985,
9 January and February, what was your knowledge about those at
10 the time?

11 A I don't recall those.

12 Q Were you told anything about them?

13 A I could have been, but I don't remember being told.

14 Q What have you since been told?

15 A That they were just chartered flights that we had
16 out of Lisbon to Central America.

17 Q Who chartered them?

18 A I never asked and I don't know.

19 Q Even now you don't know?

20 A Even now. We do a lot of ad hoc charters and I
21 assume that most of them are legal, and so I don't ask the
22 details on each charter flight that we make. I have confidence
23 in my organization that they will carry it out in a profes-
24 sional manner.

25 Q Are you aware of a company named Arrow Air?

UNCLASSIFIED

- 1 A Yes, I am.
- 2 Q How are you aware of that?
- 3 A They are a company in the airport out of Miami,
4 a well-known charter operator and scheduled operator.
- 5 Q Were you aware that they were the subcontractor
6 on the Lisbon flights in early 1985?
- 7 A I am now, yes, not only from your conversation,
8 but having earlier knowledge of that, somebody told me either
9 at the time I heard it in the halls of Southern Air or after
10 the fact that we had to subcontract it because we didn't have
11 the airplanes.
- 12 We didn't have a 707 in operation.
- 13 Q Why don't you go back again and tell me what you
14 know of the January and February 1985 --
- 15 A Was that the Arrow one?
- 16 Q Yes.
- 17 A Apparently we got a requirement for a Lisbon to
18 Central America flight. We didn't have airplanes to do it
19 ourselves, so we went out and subcontracted to somebody else
20 to do it.
- 21 Q Were you aware it was carrying explosives or arms?
- 22 A No, but it is no reason I should know that. It is
23 not illegal. We carry arms lots of times, explosives, Class A
24 and there are certain procedures you have to go through when
25 you carry those and I assume they complied with that.

LDD 9

1 Q To where did the flights go in Central America?

2 A I don't know.

3 Q Everything you know about those, is that what you
4 were told by Mr. Langton?

5 A Yes.

6 Q Anyone else?

7 A No, I don't recall, but I attend meetings in the
8 company from time to time. We have operators meetings every
9 morning where we talk about flights that are going to take
10 place in the next three or four days and it is possible I was
11 in an operators meeting when they were talking about that we
12 had some charters from Lisbon to Central America, but that we
13 were subcontracting with Arrow.

14 I hear these type of things, but it is business as
15 usual really. It is not something that would alert me. I
16 would say we have a flight and had better look into it and see
17 about it and see that I am not going to be integrated on it in
18 the future.

19 Q These are daily meetings in the morning?

20 A Yes.

21 Q You attend them once a week?

22 A Yes, and I walk around halls.

23 Q Getting back to the contra supply and maintenance
24 of the aircraft, how were you paid for the service?

25 A It is after the fact.

UNCLASSIFIED

UNCLASSIFIED

90

LDD 10

1 Q What did you know about how payment was done prior
2 to October 1986?

3 A Other than the general principle of my company
4 that we get paid for services rendered and we don't let them
5 get too far behind.

6 Q So you just assumed then that since you hadn't
7 heard anything bad, you were getting paid?

8 A Yes.

9 Q Tell me what you have since learned.

10 A Subsequently, I have learned that apparently maybe
11 a quarter of a million dollars was put into our account and
12 they drew down against that for services rendered.

13 I am not even sure that happened in one case, but
14 apparently moneys were put in our account and we then billed
15 against that and charged the customer.

16 I think we are now \$130,000 short in that account,
17 though, so we didn't do our bookkeeping as well as we should
18 have.

19 Q Have you billed for that \$130,000?

20 A I don't think so. I don't know. I just found that
21 out last week. Maybe we don't know who to bill.

22 Q That was going to be my next question.

23 A Maybe they headed for the tall grass.

24 Q Of this \$250,000, did you ask at any time where it
25 came from?

UNCLASSIFIED

~~CONFIDENTIAL~~

1 A I told you I just found out after the fact this was
2 the way we were being paid. Later I found out it was being
3 transferred from Swiss bank accounts, a couple of transfers.
4 This particular money. I am sure there were other transfers
5 for maybe the Arrow flights. I don't know where that money
6 came from either. All of that had been made available, I think
7 through Mr. Mason.

8 Q I am asking you what you are aware of.

9 A I am telling you what I am aware of from talking
10 to Mr. Mason after the fact like you did.

11 Q Of the flights on behalf of NHAO, to your knowledge,
12 was there anything differently done regarding the billing
13 procedure for that or the payment procedure for that as opposed
14 to what we have just been discussing the maintenance, the
15 services that you performed?

16 A I don't know. I suspect that those checks came
17 from the State Department, who was in charge of dispensing
18 that money.

19 Q Does Southern Air have any foreign bank
20 accounts?

21 A No. Oh -- do we operate in a foreign country --
22 no, we don't. We don't.

23 MR. BECKMAN: Are you still talking about ACE?

24 MR. NAUGHTON: There is some discussion as to

4 A No.

5 Q Do you have any in London?

6 A Yes, we have one in London we just opened because
7 we just opened a sales office there.

8 Q Any others?

9 A No.

10 Q Any in Switzerland?

11 A No.

12 Q To your knowledge, was any of your other business
13 paid through either Credit ~~S~~^Huisse or any other Swiss account
14 other than the ones under investigation here?

15 A There might have been some of our business overseas
16 in past years. I don't know of any specifically, but I
17 certainly couldn't rule that out. We have done a lot of
18 charters in Algiers and Angola and around the world, and agents
19 generally get that business for us, European agents, and they
20 might use Swiss bank accounts.

21 Q This would not be unusual then?

22 A No. I would say this is a little different than
23 that.

24 Q Why?

25 A Well, because this is an American company versus a

1 Swiss broker.

2 Q Okay.

3 So it would be unusual because you are dealing
4 with a domestic company that is using a foreign bank?

5 A Yes.

6 Q And that would be unusual?

7 A I would think so.

8 Q You mentioned that you had a conversation then with
9 Mr. Gadd regarding Iran and those flights.

10 A Yes.

11 Q Could you tell me how that came about?

12 A I think they wanted us to fly into Iran and carry
13 some cargo.

14 Q My question was, how did this conversation come
15 about?

16 A He called me up and we started talking about it.
17 I think it had come up earlier with Langton and so the reason
18 for the call was they felt they had to get my clearance for
19 this.

20 Q So Langton discussed this with you prior to Gadd
21 calling you?

22 A Yes.

23 Q What did Langton tell you before Gadd called you?

24 A I don't recall the specifics in the way you want to
25 ask it. Kind of general --

UNCLASSIFIED

UNCLASSIFIED

LDD 14

1 Q Tell me what your general sense was.

2 A Generally, they wanted to talk about flying into
3 Iran with our airplanes and he said Gadd wanted to call me and
4 talk to me about that. So they did.

5 Q When Langton first told you this, what was your
6 reaction to flying to Iran?

7 A I wanted to be helpful to any government activity
8 if that was what was involved, but it seemed a little way out.
9 I wanted to know how we would be protected.

10 Q When you say protected, what do you mean?

11 A I mean our percentage, our airplanes.

12 Q You mean physically protected?

13 A From loss, yes.

14 Q And you just said you had the impression this was
15 for the government or government-related?

16 A Well, I can't imagine anybody would fly into Iran
17 unless it was involved with the government. Iran is off
18 bounds. You can't fly there if you wanted to.

19 Q Did you ask either Mr. Langton or Mr. Gadd if this
20 was government approved?

21 A I probably did. I don't recall specifically.

22 Q Well, this is kind of important. How did you get
23 this impression other than the fact that Iran is off limits?
24 What did they say about --

25 A I don't remember specifically what they said. I

1 just don't. It is understood it would be for the government.
2 They might have said it. I might have asked the question.
3 I might not have. I don't know.

4 Q Did you ask, "How are my people going to be
5 protected?"

6 A I don't remember. The fact is we didn't do it,
7 so it became moot. We didn't fly an airplane in there.

8 Q When Gadd called you on the phone then, do you re-
9 call what he said?

10 A They wanted us to fly our airplane into Iran. That
11 is all I remember.

12 Q What for?

13 A To carry some cargo in and carry some cargo out.
14 I don't even remember if they mentioned what kind of cargo it
15 was. It just seemed so --

16 Q And fly some out?

17 A Yes. That is what I was told at the time. It was
18 some kind of exchange, that they had something we wanted and
19 we had something they wanted. It just seemed so unusual to me
20 that I really didn't focus on what was going out. I was more
21 focused on they are going into Iran, this is a place nobody
22 can go in any more. That was very unusual.

23 Q But you didn't ask why?

24 A They told me they had some stuff they were going to

- 9 I assumed it was sensitive and people don't want
- 10 to tell you everything and I don't always ask everything.
- 11 Q When Gadd said they wanted to do that, did he tell

- 13 A I am not even sure he said they. Maybe he did tell
- 14 me who wanted to and I don't remember. I am not trying to be
- 15 evasive. I really don't remember.
- 16 Q No. I am trying to find out everything I can.
- 17 Did you get the impression that this activity was
- 18 separate from what Gadd had been doing regarding the Central

- 20 A Totally.
- 21 Q What gave you that impression?
- 22 A I guess just the geography of it, for one

1 dollars --

2 A Because we were going to operate that operation.
3 This one we were going to get paid. This was just another
4 charter to us, a little like the Lisbon charters. Those in
5 my little compartment of mine were different from running the
6 internal supply operation. That was running an airline down
7 there we didn't want to get involved. We run an airline around
8 the world. We charter airplanes and we carry cargo from Point
9 A to B and someone calls us up and says we got the charter.

10 We go from here to there. We got a free airplane.
11 We take it, and so this is something we do every day. Start-
12 ing an airline in Central America is a whole different ball
13 game.

14 So this Iran thing was just another charter and
15 I guess maybe they were, but in my mind they were separate.

16 Also I had already done business with Gadd in
17 different fields of endeavor that I don't think they were
18 connected. I think he had government contracts to do this and
19 then by virtue of his contact he apparently got another
20 government contract to do something else.

21 I did without getting into specifics again because
22 I don't remember the hard questions you want to ask, what did
23 he say -- I got the general impression that probably the same
24 people were involved.

25 You are going to say, "How did I get that?" I don't

1 know, but I had the feeling that the same people were involved
2 in the supply mission to the contras that were orchestrating
3 the Iran affair. But here again with all the press we have
4 had in the last three months, I am not sure if it is an after-
5 the-fact impression or a current one at that time.

6 Q You mentioned that you had had a lot of dealings
7 with Gadd by this time. Did you have any others with him in
8 any other related areas that we haven't discussed so far?

9 A No.

10 Q When he broached -- first of all, how long did
11 this conversation last on the telephone with Gadd?

12 A Probably 15 minutes; 20 at the most.

13 Q Did anybody else participate in it?

14 A I think Langton came over to my house before I
15 received the call. Knowing I was going to receive it at such
16 and such a time, he drove over to the house.

17 Q Do you recall approximately when this conversation
18 took place?

19 A No.

20 Q Can you give me a month?

21 A I really can't.

22 Q Do you remember a season?

23 A I somehow or another think it was in the winter,
24 but I really don't know.

25 Q Would that be of 1986?

UNCLASSIFIED

UNCLASSIFIED

LDD 19

1 A Probably.

2 Q Did Langton participate in the conversation or
3 was he just --

4 A Did he get on another telephone, I don't know.
5 I don't know. I don't think so. I am not even positive he
6 drove over, but I just kind of think he did. It was late at
7 night.

8 Q Was it a weekday?

9 A I don't know.

10 Q This was then a call that Gadd placed to you?

11 A Yes, I think so.

12 Q Did Gadd say where he was calling from?

13 A No.

14 Q Could you assume Washington or --

15 A Oh, yes -- McLean or Vienna. That is where he
16 lived.

17 Q When he mentioned that he needed someone to fly
18 to Iran, did you discuss the same sort of logistical things
19 you had discussed about the contras? In other words, what
20 flag to fly under, clearances, registration?

21 A No.

22 Q After he explained to you what he wanted, what was
23 your response?

24 A My inquiry then was what kind of insurance would
25 we have for our airplane?

UNCLASSIFIED

UNCLASSIFIED

LDD 20

1 Q What did he say?

2 A Well, I knew we didn't have insurance to fly into
3 Iran, so really my question is, could I go for a waiver or
4 could I go buy insurance in the open market to cover this one
5 flight? If I couldn't do that, then I would have to have a
6 hold harmless from a responsible party, and if it is a govern-
7 ment flight, it would have to be from the government, holding
8 us harmless for any losses, et cetera, et cetera, et cetera.

9 With those qualifications, I probably said that --

10 Q What did Gadd say to your insurance question?

1 A I think he said he understood our needs and would
2 take it up with his principals.

3 Q Is that how he referred to them?

4 A No, I don't think so. Maybe "clients" or
5 customer. Probably more likely customer. But don't hold me
6 to that because I don't know what he said. I am trying to
7 give you the general context of it.

8 Q I am not asking you to quote anything. I am just
9 asking the questions.

10 Did he give you assurances that these things would
11 be taken care of like he did with the contrast?

12 A No, he said he would have to talk to somebody
13 about it to see if they could be done. He said without
14 them, we couldn't possibly fly; couldn't even consider it.

15 Q After he said he would take that up with his
16 customers or principals, then what did you say?

17 A Then I think we kind of hung up, and then I think
18 a couple days later they couldn't meet those requirements,
19 so we didn't do it.

20 Q What is the next thing you learned about any
21 flights to either Tel Aviv or Iran?

22 A It seems like I kind of went out of the pattern
23 after that, and then I learned and I am not sure if it was
24 after the fact-- it must have been before the fact-- that
25 Langton had arranged to go ahead and do some flights to

UNCLASSIFIED

1 Israel which we didn't have a safety problem with, and we
2 didn't have an insurance problem with, and we didn't have
3 any legality problems with, and then I think--I am sure I was
4 informed before the fact that if we could find voluntary
5 pilots that we would pilot other people's airplanes into
6 Tehran that in fact is what ultimately happened.

7 Q Now, you learned this before the fact.

8 A I don't really have a nice clean specific time in
9 my mind when this revelation was made known to me, but I
10 kind of think that Langton would not have done that
11 without prior approval. So I suspect he did come to me before
12 the fact; not necessarily on the flights to Israel, but
13 our pilots going into, as volunteers, which they were-- into
14 Tehran.

15 Q All right. When did--do you remember how Langton
16 told you this? In other words, was this something like he
17 came over to your house in the dead of night?

18 A No.

19 Q Or was it an ordinary--

20 A We have offices right next door to each other, and
21 he kind of walks in and casually mentions something from
22 time to time. It wasn't a high profile discussion that I can
23 recall.

24 Q Did he tell you that Gadd still wanted to do this,
25 or the Iran mission was still on, or how did he bring this up

UNCLASSIFIED

UNCLASSIFIED

1 A I don't know, to tell you the truth. It was my
2 that after we backed out of it, that they
3 did run some flights into Iran with somebody else's
4 airplanes, and so we were totally unconnected with it; but
5 it didn't go as well as they had wanted, and they wanted
6 to get Southern back involved in it if they could, even
7 to the extent of just using our pilots.

8 Q Langton told you that?

9 A Yes.

10 Q When Gadd first told you about this, did he
11 specify the kind of aircraft he needed?

12 A No, but they needed a large jet because of the
13 speed and the range. They were going to have to go down
14 the Red Sea and around, and they couldn't go cutting
15 across Saudi Arabia or however. I don't know the geography
16 that well. I would have to get the map out. But they
17 showed me, and they needed a DC-8 or 707 type aircraft.

18 Q When Langton told you about this, was it like he
19 had already made the plans and was just checking with you,
20 or was he seeking your approval and then was going to do it?

21 A I think it was the former. He had already made
22 the arrangement.

23 Q Did he already have volunteer pilots?

24 A Probably.

25 Q To your knowledge did they file waivers to hold

1 the company harmless if anything happened to them?

2 A No, they did not. If they did, I don't know
3 about it.

4 Q All right.

5 A They probably should have, to be more careful.

6 Q Now, after Langton told you that, this was his
7 plan to go ahead with this. What was your response?

8 A Okay.

9 Q All right. Is that because you felt this was a
10 government-sponsored mission?

11 A Certainly.

12 Q When you say certainly, tell me what went into your
13 thought process.

14 A Well, I just wouldn't let anybody go into Iran unless
15 it was government-to-government under those circumstances.
16 It was illegal, I thought, to go into Iran probably,
17 except our airplane wasn't, so we were not going in from
18 that standpoint, but it was very ^E ~~dy~~ business, I would
19 assume, unless it all had been laid on by a government.
20 I can't imagine private individuals doing that.

21 Q What did you think at this time--who did you
22 think Gadd really worked for? Did you think it was CIA?
23 Did you--

24 A White House.

25 Q White House?

UNCLASSIFIED

UNCLASSIFIED

105

1 A Yes.

2 Q Why that, as opposed to CIA?

3 A Because I think by that time North's name was
4 being bandied about in the office.

5 Q By whom? By Langton?

6 A Yes, and who he had gotten it probably from Gadd
7 or somebody.

8 Q What did they say about North?

9 A I don't know. He was in the White House.

10 Q Well, gentlemen, what did they say in relation
11 to that? Why did he come up? Why did his name come up?

12 A I don't know. I wasn't in the day-to-day
13 conversations. I just heard the name.

14 Q But when you heard it, what was the context in
15 which they were speaking?

16 A They basically spoke that the White House was
17 involved, and I think they might-- at some point I knew
18 the National Security Council was--name was bandied about.
19 So those came to my mind. Some place in this long process
20 of conversation.

21 Q So would that have been a connection with the
22 Contras, as well as the Iran?

23 A Probably in my mind it would have been.

24 Q Have you ever met Oliver North?

25 A No.

UNCLASSIFIED

UNCLASSIFIED

1 Q Have you ever spoken to Oliver North?

2 A No.

3 Q To your knowledge, had Mr. Langton ever met or
4 spoken with Mr. North?

5 A No. To my knowledge he hasn't, but he could
6 have. I don't know.

7 Q While they were running the first Iranian
8 mission, that is the pilots going over, did you keep a
9 day-to-day contact with it, or were you informed after it
10 was over that it went successfully or what happened?

11 A I was informed after it was over that it was
12 successful. I think it went down pretty fast, and they came
13 back on the first of the month, as I recollect.

14 Q Did you ever talk to the pilot.

15 A Yes.

16 Q Who was the pilot?

17 A The one, the only one I have talked to is ~~four~~
18 vice-president of flight ~~operations,~~ ^{operations,} Paul Gilchrist.

19 Q Mr. Gilchrist.

20 A Who told me about his trips when he ~~came~~ ^{came} back.

21 Q What did Mr. Gilchrist tell you?

22 A I don't know. I mean I don't recall. I would
23 really think you ought to ask Mr. Gilchrist what he told us.

24 Q What do you recall him telling you?

25 A A lot of anecdotes really mainly.

1 Q Tell me one.

2 A I really don't remember. I would rather not try
3 to paraphrase what he said. I just don't remember that
4 clearly.

5 Q What was the impression you came away with after
6 speaking to Mr. Gilchrist? In the back of your mind did you
7 say, "Oh, oh, we got trouble," or, "This went well," or
8 what?

9 A I think on one of the flights he said it went
10 very routinely, but-- he went in with McFarlane and Secord,
11 and I think North went along, too, I am not sure who was
12 there. I do know McFarlane was. That was a pretty
13 hairy operation.

14 Listening to Paul Gilchrist, it was very scary.
15 The impression you got was that you are in a country that
16 nobody is in charge; that on one side of the field it is
17 very nice, and you are in the charge of the mill, but
18 when you move to the other side of the field and you are
19 in the hands of the revolutionaries, that you don't know
20 what is going on, and that they don't live up to their
21 word.

22 They promised certain things when they came in,
23 and ~~one~~ one of them came to pass, and you had a real bad feeling
24 that they might just make a hostage out of you even though
25 they invited you in.

1 Q Did Mr. Gilchrist give you the sense that he wanted
2 to go back or expected to go back?

3 A Yes. And he did.

4 Q Did he want to go back?

5 A I don't know if he wanted to. He certainly, I
6 guess enjoyed the adventure of it. You have to know Mr.
7 Gilchrist. He is quite a guy. He went back twice more
8 without McFarlane; just our crews.

9 Q After you spoke to him after the first time he
10 went he had the impression that he would go again?

11 A Yes. That is the feeling--I didn't ask him,
12 "Will you go again?" I didn't even know if they had
13 a need for anymore missions, frankly. He didn't feel that
14 one went well from the overall observations of McFarlane
15 and the Iranians.

16 Q Did Gilchrist mention that he had returned any
17 of the stuff he came with?

18 A No, I don't think they brought anything out.
19 They did on the mission that McFarlane was on; that
20 things did not go the way they were supposed to, and they
21 had--we had an airplane in the air that we turned around
22 and went back to Israel that was on its way with more cargo.

23 Q Was that later delivered to Tehran?

24 A I don't know. I suspect it was in some of those
25 later flights. I don't know how many later flights there

1 were, one or two.

2 Q When you had the impression from Mr. Gilchrist that
3 there would be more flights, did you tell him--

4 A I didn't get that impression from Mr. Gilchrist.

5 He would go if there were more. That is the
6 impression that--that he wasn't so frightened of his
7 experience and that he was a good enough citizen, and he
8 thought this was a mission that the country wanted;
9 that he would go ahead and do it.

10 Q And did you encourage or discourage that?

11 A Neither. I just listened and voiced amazement
12 and interest.

13 Q At the time he went, he was on your payroll and
14 you were paying him, correct?

15 A I think they put him on vacation when they went
16 on these trips, but we were paying them, yes, we paid
17 them.

18 Q Why did they put them on vacation?

19 A I think for security reasons. We were trying to
20 not let the rest of the company know that they were away
21 and have some excuse for them being away.

22 Q Whose idea was that?

23 A I don't have any idea. Probably was Langton,
24 Secord or something like that. But it was, you know, they
25 considered it a sensitive activity, and they really didn't

UNCLASSIFIED

UNCLASSIFIED

1 want anybody talking about it.

2 Q How involved was Secord in the planning of
3 this?

4 A I don't know because I wasn't involved in the
5 planning of it, but someplace, someplace Gadd drops out
6 and Secord comes into the pattern.

7 Q Before the flight, the first flight takes off?

8 A Probably. I think Secord--I am not sure if
9 Gadd wasn't just the first introduction to the Iran, and
10 then he kind of was not involved in Iran at all, and someplace
11 else along the line he drops out of the Contra, and I
12 suspect that happened when the hundred million was
13 appropriated or something, I don't know.

14 I don't know the sequence of it, but someplace
15 Langton seemed to be dealing more with Secord and Dutton
16 than Gadd. I don't know when that took place.

17 Q That is from around June 1986, perhaps.

18 A Perhaps.

19 Q To your knowledge, how many flights were there
20 by SAT pilots to Iran?

21 A I don't know. I think three.

22 Q And on any of these flights did--I am talking
23 about the return trip from Iran to Tel Aviv--did any of
24 them continue on to Central America of which you are aware?

25 A I am not aware of that, no. They might have come

UNCLASSIFIED

UNCLASSIFIED

111

1 back via Central America.

2 Q Why?

3 A I wouldn't consider that a continue-on. They
4 were moving cargo, but on the way back from the far left,
5 we might have done a back-haul from Lisbon to Central
6 America.

7 Q On one of the previously existing contracts?

8 A We tried to get back hauls also when we were
9 flying, you know, the object of our business is not to
10 fly empty airplanes, so if there was a back-haul and one
11 of them could have been the Lisbon-to Central America,
12 and if the same people were involved in it that would be
13 certainly an objective I would think.

14 Q By the way, when you spoke to Mr. Gilchrist about
15 the McFarlane mission, did he describe to you the bible
16 incident?

17 A No, he didn't.

18 Q And the cake?

19 A He did describe that they took some pistols.

20 Q Who had the pistols?

21 A They took them as gifts, some, maybe dueling
22 pistols or target pistols, or maybe magnum 500's, I don't
23 know, but they had some pistols that they took, McFarlane
24 took as a gift, and the reason I know that is because I was
25 one of the--that was one of the anecdotes, the pistol boxes

UNCLASSIFIED

1 were left on the airplane, and the pistols had been
2 delivered so the people guarding the airplane was
3 wondering where the pistols were that went with the
4 boxes, because they thought the crew had them, and of course
5 they had to then try to convince them that, no, they
6 didn't have any weapons and everything was safe.

7 Q But he didn't mention the cake or the bible?

8 A No, I never heard that part of it.

9 Q All right.

10 How was SAT paid for these?

11 A I don't know. I think they were paid out of
12 a Swiss bank account. I think there was a mixing of the
13 monies there.

14 Q Explain that to me.

15 A Well, when I first looked into the money, it
16 was way after the fact, and I saw--they said, well, there
17 was some, two transfers to our bank account, and I in
18 some way think they totaled about a quarter million dollars,
19 and then I asked, well, where did that money go? What
20 services did we provide for that money, and they said,
21 well, we provided this, and this, and this is Mason telling
22 me, we provided this service for maintenance, et cetera,
23 on the contra thing.

24 Then we provided this Iran flight, and I said,
25 "I thought those were separate. You are taking it from the

1 same pool of money. How do you do that?" And, this was
2 my recollection. That might have been straightened out,
3 and I might have been misinformed at the time, so I think,
4 you need to get that from Mason, and he has now, I think,
5 put together a compendium of the money we took in and
6 where it came from and where it went to and the whole
7 thing. But this was my first knowledge that maybe there
8 was, maybe this money was being used for dual purposes.

9 That would have been maybe not two months ago
10 or something--shortly after you came in.

11 Q This was after it became public.

1 BY MS. NAUGHTON:

2 Q Before the break, you had mentioned that after the
3 story broke regarding the Iranian trips and you sat down with
4 Mr. Mason and Mr. Langton to discuss the monies received, you
5 mentioned two transfers from the Swiss account in the amount
6 of approximately a quarter of a million dollars to your bank,
7 and that it seemed to you that the money had gotten mixed
8 between the contras activities and the Iranian activities.

9 Could you explain to me again what you told them regardi
10 the mixing of those funds?

11 A Well, the way it came up was there was a subpoena
12 outstanding relative -- issued by the Customs people and
13 Customs came over and -- or were going to come over, I guess
14 it was, and I said I wanted to see what we were going to
15 produce for them. ~~Langton~~ -- and I guess Mason -- they
16 just had a few pieces of paper, one of which was these two
17 telexes.

18 I could be wrong on whether it was a quarter of a millio
19 dollars, but it was two transfers to our account.

20 I said, what the Customs people are going to want to
21 know is what did you do with this money, what did you use it
22 for, so I would like to see the invoices that we charged out
23 using this money for our customer and that we didn't supply
24 any of it.

25 Then they began to explain to me where the money went

UNCLASSIFIED

2
1 without having the invoices there, and they said, we charged
2 this to the contra thing and to the Iranian trips, or maybe
3 it was the trips from Kelly Air Force Base to Israel, charter
4 flights there. But in my mind, those were ^{two} different
5 movements and of course Customs at that time were looking only
6 at the contra affair.

7 As a matter of fact, this was before the Iranian affair
8 became in the news, before the disclosure on that, before the
9 last mission there.

10 I said, you are mixing those things up. Is it all
11 coming from the same source or something like that. And I
12 asked Langton to check on that with whomever he was dealing
13 with, and so I think he tried to get ahold of Secord.

14 I don't know if Secord was in the Middle East then or
15 what the problem was, but they couldn't get hold of him right
16 away, so we put the Customs people off for a day or so to
17 pick up on this data. And my concern was, not that I didn't
18 want to go ahead and disclose under subpoena what we were
19 supposed to disclose, but that this was supposed to be a
20 very sensitive area -- the Iranian affair -- and that was not
21 in the news at this particular time.

22 And I think because of that conversation, I think that
23 was the time maybe that the FBI investigation was delayed
24 until they completed the Iranian rescue missions, or whatever
25 you want to call them.

1 Q Had the FBI already been to Southern Air at this
2 point?

3 A Very early on it had been announced that the FBI
4 was going to investigate Southern Air, almost immediately
5 upon the loss of that airplane in Central America, but nothing
6 came of it. They didn't seem to follow up on it and I don't
7 think there had been any pressure brought to bear on them.

8 Q You just thought the FBI was going to come in and
9 you wanted to get this straightened out?

10 A I didn't know whether anybody was going to come in.
11 Customs was asking for the documents. My feeling was that
12 these documents would raise more questions than they answered
13 and Secord or whoever was in charge ought to know this,
14 because we were ready to turn them over.

15 Q What was Langton's response to that?

16 A I think he called Secord.

17 Q What happened?

18 A I think he said they will take care of it and we
19 wouldn't have to have any more problems with that subpoena --
20 The Customs.

21 Q So, were your instructions to not turn it over, and
22 the Customs investigations would cease, or --

23 A Not to turn it over, yes. But I don't know if the
24 investigation would cease. I just don't know. I didn't

1 follow up on that. All I know is I just pointed out the

3 to do something I am going to turn this over to them and I
4 didn't know what was going to happen.

5 Q Langton came back and said he had talked to Secord
6 and you weren't going to turn over the documents?

7 A Yes.

8 Q Did Customs come back to you --

9 A They have ultimately and we have given them the
10 documents.

11 Q What was that, do you recall?

12 A I don't recall. I recall this one thing because it
13 was about a week before the last mission into Iran before it
14 became ~~public~~ public.

15 Q So this is a week before the last mission was flown?

16 A Maybe two. I don't really know.

17 MR. BECKMAN: Excuse me. I don't think we have
18 given the thousands of documents to Customs that we have given
19 to you. They asked precise questions relating to export.
20 that is their frame of reference and we gave them documents
21 relating to that.

22 MS. NAUGHTON: Can you perhaps help us with the

24 MR. BECKMAN: I don't know that there was a

5 A I don't know. No. I am sure someplace there is
6 one.

7 MS. NAUGHTON: Could we possible get that?

8 MR. BECKMAN: I have a copy of a Customs subpoena,
9 but it was a moveable feast, they kept changing.

10 MS. NAUGHTON: You mean the production date --

11 MR. BECKMAN: The request itself, because they
12 didn't ask it expertly, to put it kindly.

13 MS. NAUGHTON: Was this a grand jury subpoena?

14 MR. BECKMAN: At first it was an administrative
15 subpoena. Then it was a grand jury subpoena. We were told
16 to ignore the administrative subpoena. We should consider
17 the grand jury subpoena as encompassing the administrative
18 subpoena. Then the grand jury subpoena we were told to ignore.
19 In fact, sort of the day before we were to appear at the
20 grand jury, we were told not to come and we were told to go
21 back and comply with the administrative subpoena.

22 MS. NAUGHTON: Who told you not to appear for the
23 grand jury subpoena?

24 MR. BECKMAN: The Assistant U.S. Attorney who was
25 handling it.

MR. BECKMAN: Yes.

MS. NAUGHTON: The main Miami office?

4

MR. BECKMAN: The Assistant U.S. Attorney for Miami.

5

MS. NAUGHTON: Do you remember who that was?

6

MR. BECKMAN: The name Scrubbs is in my mind. He signed the grand jury subpoena.

8

MS. NAUGHTON: Do you recall when it was that you were told not to appear?

9

10

MR. BECKMAN: Let me look at my calendar. I think we were to appear on the morning of the 9th of December, because I have a note on my calendar that I went to Miami the night of the 8th. So therefore, to the best of my recollection, the appearance was to be on the morning of the 9th and it was called off very close to the time.

16

I think this is the day you weren't feeling very well. You were told to come down anyhow to talk to you.

17

18

MS. NAUGHTON: I am just trying to get a handle on when the original subpoena was served.

19

20

MR. BECKMAN: It would have been early October, I think. On the basis of what Jim says there was a subpoena served --

3 Q When you discussed this problem ^{of} ~~the~~ the double --
4 sort of double account for lack of anything better to call it,
5 what was Mr. Mason's reaction to that? In other words, did
6 he say he -- what I am getting at is how did he explain how
7 he knew to bill part to the contras and part to Iran?

8 A I didn't ask that question, or I don't recall.

9 Q Did Mr. Mason indicate he had received any
10 instructions on how to divide up that bulk sum?

11 A I don't recall. He didn't tell me I am almost
12 certain.

13 Q Did you ask Mr. Mason or Mr. Langton if the
14 accounting was accurate?

15 A No. I assumed they were doing what was correct.
16 You know, I assumed they were doing it with more coordination
17 with the customer and that we weren't just debiting accounts
18 that are willy-nilly, but you would have to ask them, I am
19 afraid.

20 Q How is it that you learned that Secord was the
21 originator of those funds?

22 A I might have mispoke. I think Langton called
23 Secord as a result of our conversation on these particular
24 invoices, and whether to turn them over to the Customs people.

25 Q Who did Langton say he was calling?

UNCLASSIFIED

UNCLASSIFIED

8

1 A Secord, I believe, but I am not certain. It might
2 have been Bill Dutton, but it may have been Gadd.

3 Q What was your understanding about Gadd sort of
4 shifting out of this and Dutton sort of coming into it in the
5 summer of '86?

6 A I guess I figured that that was about the time that
7 funding was coming about from the U.S. Government and now it
8 would move more into an official channel than in a private
9 channel. But now you tell me Secord isn't part of the
10 government, so I am not quite sure.

11 Q In other words, you thought Gadd represented
12 private interests or official interests?

13 A Private. Both of them did. I knew both of them
14 did. Maybe it is just a contractual problem up in Washington,
15 the power struggle between the two, who gets to run this
16 affair.

17 Q Did either Langton or Mason tell you that Secord,
18 that the funds from the Swiss account had come from the same
19 account?

20 A All I saw were the two telexes, one transferring
21 so much money, another transferring so much money, and this
22 was the full source of all the money to pay for all these
23 operations. I knew they were different operations, I said
24 it looks like the money is coming from the same bank at least.
25 If you go down this road the Iranian thing is still very

1 sensitive. It is not in the public domain. Do they want us
2 to turn these over to Customs. If they don't, they better
3 know we are going to do it tomorrow. That was the end of
4 my conversation in a sense. You better tell whoever you are
5 dealing with that either help us out here or we are going to
6 go ahead and comply with whatever subpoenas we have outstand-
7 ing.

8 Q And Langton came back after speaking to who you
9 assume was Secord, and told you to hold off on that, they
10 would take care of that?

11 A Right.

12 Q Have you since given them to Customs?

A Yes.

14 Q Did you ever see and handwritten notation by Mason
15 or by Langton --

16 MR. BECKMAN: I am not sure we have because of the
17 way Customs subpoenas were drawn. They seemed to be
18 interested in the C-123s and our documentation of the C-123s
19 was almost nil.

20 MS. NAUGHTON: On the purchase of them?

21 MR. BECKMAN: We didn't purchase or export them.
22 They were interested in export.

23 THE WITNESS: They might have redefined their
24 subpoena and cut it back, because it was very general. Then
25 also the Special Prosecutor's investigation has made some of

3 BY MS. NAUGHTON:

4 Q That is obviously after the fact?

5 A We are complying with whatever outstanding subpoenas
6 there are.

7 A Okay. Were you ever aware of any account numbers
8 from the Swiss banks?

9 A No.

10 Q Do you know whether or not Mr. Mason had any
11 account numbers?

12 A No.

13 Q Do you know of any other invoices or billings or
14 contracts that were paid from the Secord group from those
15 Swiss accounts other than those that we have discussed today
16 for any other services?

17 A Other than what Mr. Mason has given you, no.

18 Q During the break, I have shown you the materials
19 which had been marked as exhibits in Mr. Mason's deposition,
20 which is the underlying accounting materials; that is the
21 advices, the wire transfers and some of the ledger sheets.

3 indicating a Southern Air document. I can't tell what the
4 first three digits are. They look like zeros. The last three
5 are 720.

6 BY MS. NAUGHTON:

7 Q I ask you, have you ever seen that memorandum
8 before?

9 A I have never seen this. I don't believe it to be
10 a Southern document.

11 Q Why do you say that?

12 A I don't know, it just doesn't look like something
13 we would write.

14 MR. BECKMAN: He means not generated by Southern.
15 The fact that it has that number means we produced it.

16 MS. NAUGHTON: I understand.

17 THE WITNESS: No, I have not seen this one before.

18 BY MS. NAUGHTON:

19 Q When you say that looks like something you wouldn't
20 have produced, why do you say that?

21 A Well, I don't know any of the names in here, any
22 of the terminology, like the farm, Cincinnati, the plantation.
23 These are all key percentage, project managers -- I have just
24 never heard of any of these terms. It doesn't look like our

1 Q Does Southern Air pay for any of your personal
2 expenses?

3 A No.

4 Q What about -- you have a maid and a cook?

5 A Right.

6 Q Does Southern Air pay them?

7 A Yes, they do. I am reimbursed.

8 Q Can you tell me why that is?

9 A So that the maid and cook can have the benefit of
10 Southern Air's health plan and so I don't have to do the
11 payroll, you know, and the FICA taxes and all, and the company
12 bills me for all of these costs on a monthly basis and I pay
13 them.

14 Right now we do not have a cook. We have a yard man.

15 Q Is there anyone else in that category that Southern
16 pays that is not a working employee of the corporation?

17 A No.

18 Q Have you, or to your knowledge, anyone in your
19 company ever given over \$10,000 in cash to any employee to
20 take out of the country?

21 A I haven't, and to my knowledge the company hasn't.
22 To take out for good, right. I know we used to give pilots
23 more than that because they had to carry it with them to buy
24 fuel and things on the road back in the old days, but I am
25 not sure that we don't have credit every place now.

4 Are you talking about to the U.S. Government?

5 Q Yes.

6 A I don't know.

7 MR. BECKMAN: I think what she is asking is do you
8 expect them to smuggle that through Customs?

9 THE WITNESS: I don't give any instructions.

10 BY MS. NAUGHTON:

11 A Okay.

12 You say the FBI requested you. Do you recall when
13 that was?

14 A A month ago.

15 Q Do you know how long that interview lasted?

16 A A half hour.

17 Q Is there anything that you told them on that occasion
18 that you have not told us so far in this deposition?

19 A Yes. Their inquiries were primarily related to
20 ownership. It was almost exclusively to ownership and they
21 got into stock ownership a little deeper than you did, getting
22 into stockholder records and things like that.

23 Q And did you provide them with records that you have
24 not provided to this committee?

25 MR. BECKMAN: Yes.

UNCLASSIFIED

15

1 THE WITNESS: Yes.

2 MR. BECKMAN: We weren't asked. We showed the FBI
3 agents the stock transfer books, doctor's certificates, which
4 were not asked for in this subpoena.

5 BY MS. NAUGHTON:

6 Q Did they request documents regarding the acquisition
7 of your capital to purchase the corporation?

8 A No.

9 Q Has anyone asked for those records?

10 A No.

11 Q Did they show you any documents?

12 A No.

13 Q Was that your original meeting with the FBI? Have
14 they since contacted you?

15 A That is my only meeting. And they were then working
16 for the Special Prosecutor, I believe.

17 Q To your knowledge, how much profit, if any, did
18 Southern Air make from the Iranian trips?

19 A I have no idea. I suspect at this stage nothing
20 after paying legal fees.

21 Q I don't consider that an expensive --

22 A I don't know.

23 Q Excluding legal fees, do you have any idea --

24 A No. It was a normal operation.

25 Q I am discussing now both the contra resupply effort,

1 the Lisbon runs and the Iranian, everything we discussed to
2 date, which is that you got paid the usual rate, a lesser
3 rate, or a higher rate?

4 A I suspect there was a small premium on them. I
5 did not make the rates, Langton did. I don't know what we
6 charged. I would imagine that he put a slight premium on
7 that -- maybe ten percent -- for the difficulty of the opera-
8 tion, the waste, the time -- there was a lot of time wasted
9 in these things.

10 Q Did it ever enter into your discussions in your
11 company, or into your own thought that cooperating with the
12 Secord group or with Mr. Gadd would in any way result in
13 favorable treatment regarding government contracts that you
14 were seeking?

15 A Not at all. The way we get our government contracts
16 is what I tried to explain earlier to you, it is very open,
17 an award criteria is very clear, every place the game is
18 the same way and nobody is favored. If anything, it could
19 hurt us, I guess, with all this notoriety.

20 Q Would you say that it is fair to state that since
21 '83 or certainly since '79, your company has expanded a great
22 deal?

23 A That is correct.

24 Q And much of this is the result of government
25 contracts?

UNCLASSIFIED

1 A Acquired in the normal course of business through
2 the award criteria that everybody else plays by. Having
3 nothing to do with Iran and in spite of, I would say.

4 Q At this point I guess I am really asking, did you
5 have any sense, in dealing with the Secord group, especially
6 once you knew it involved McFarlane, and at that point you
7 knew the National Security Council was involved --

8 A He was outside then. No, we didn't think of it in
9 terms that we were going to get business from it. We thought
10 we were doing a service and it was something we could do.

11 Q Were you or anyone in your company ever asked to
12 make any political donations to any political party or
13 political action committee?

14 A No.

15 Q Do you know of any monies diverted for such purposes
16 from any of those transactions we have discussed?

17 A No.

18 Q Could you explain to me when you met Mr. Dutton?

19 A I have met him once in my ~~life~~^{life} and that was I guess
20 maybe a couple of days before the last flight into Iran.

21 Q Could you tell me how that came about?

22 A I guess it came about because I was complaining
23 bitterly to Langton and the rest of management about the
24 terrible press that Southern Air was getting because of its
25 assistance in the contra affair, and also the high cost of all

1 the subpoenas that were being laid on us and the terrible
2 unfairness of it all, and that somehow I wanted somebody to
3 take the pressure off. It seemed we were standing alone.

4 So, as a result of that conversation, Langton had
5 General Secord and Dutton come to Miami and met with me for
6 about an hour and then went back to Washington, I guess, to
7 kind of calm my feathers.

8 Q Would that have been in December?

9 A That would have been about two or three days before
10 the last mission, because the reason they came there was for
11 fear that I was going to pull my support out for the last
12 flight into Iran, which they thought was going to result in
13 some very favorable action by Iran, and they just came down
14 to say everything is going to be all right, we are doing what
15 we can to get the pressure off of you, but will you go forward
16 and not pull out on us now.

17 Q When you say unfavorable publicity, you are talking
18 about the contra end of it?

19 A Yes. ~~It~~ ^{Some} had not been made public yet.

20 Q Was Mr. Langton part of this meeting?

21 A Yes.

22 Q Where did it take place?

23 A In the Viscount Hotel.

- 1 Q Why did you meet there?

- 3 Q What was your sense between Mr. Secord and
- 4 Dutton? was Secord Dutton's superior, or were they co-equal,
- 5 or what was your sense about that?

- 7 Q Did he tell you that?
- 8 A No.
- 9 Q How do you know that?
- 10 A I really didn't get it from that meeting, par-

- 13 Q Tell me how the meeting began.

5 Q What did Mr. Dutton say?

6 A I don't remember.

7 Q I am not asking you for a verbal quote.

8 A I know. I am just telling you it was a nonsubstan-
 9 tive meeting. They just kind of tried to ^{calm} me down, and
 10 as I left with Langton, I said, "You know, I don't even know
 11 what they told me." Well, it is one of those kinds of
 12 meetings. They didn't promise anything, they just kind of --
 13 I let them mumble their way through and didn't hold them to
 14 any hard promises because I knew they couldn't deliver.

15 My problem was the press, and they can't make the press
 16 stop. I can't make them stop.

17 Q Did you ask for more money?

18 A No.

20 A Never talked money. Why should I? I assumed we
 21 were paid.

1 Did Secord give you any -- first of all, did you
2 know Mr. Secord was a retired General?

3 A I knew he was called General Secord.

4 Q Is that how you addressed him?

5 A I don't know how I addressed him, frankly. I
6 probably called him by his first name, and I don't even
7 remember what that is now.

8 Q Did he tell you that this was going to be the last
9 mission? The one that was upcoming?

10 A I got that impression. I don't think he used those
11 words. But I got the distinct impression, and I don't think
12 anything was directly said, but that they expected some
13 major breakthroughs with this one, probably hostage releases
14 or something, and in fact that did occur.

15 Q Did you remember specifically discussing hostages,
16 did anyone mention that?

17 A I don't remember, no, I don't remember that being
18 mentioned. It probably was, though, but I just don't remember
19 the substance. Like I say, it was a conversation with little
20 substance for coming all the way down here.

21 Q What did they tell you about the press, if any-
22 thing?

23 A I think they expected some good press once they got
24 the Iran people released. I think they did say something like
25 that, that after the Iran trip we are going to get some good

1 press, and you will have some good press, and my reaction to
2 that is I didn't want any press, good or bad. I just wanted
3 to be disconnected with it because in our business, you know,
4 good or bad is not what our bankers are looking for, it is
5 business as usual, not helping our government.

6 Q Did they indicate to you if you fulfilled the
7 last mission that you would receive any sort of reward,
8 whether it be financial or whether it be other contracts or
9 whether it be a medal of freedom?

10 A No.

11 Q Okay.

12 A We were not looking for anything. We didn't look
13 at these people as anybody who could give us anything.

14 Q I am not so concerned with what you were looking
15 for as what they represented to you.

16 A They didn't represent that at all. Nobody in our
17 company, I think, will ever -- you can ask them all that
18 question -- but we were not looking for business in this, nor
19 were they promising anything. This was a contract that stood
20 on its own. We made some money from it. It was -- except
21 for the uniqueness of providing pilots to go into Iran, most
22 of it was business as usual.

1 we did. Mark Air flew a number of flights, at least one or
2 two, down to Central America. I don't know if they are going
3 through the same interrogation or not. I guess it's all for
4 one time. Thirteen years ago, we were owned by the CIA.

5 MR. BECKMAN: Excuse me, Jim, in saying that you
6 made some money, do you know whether you were paid for the
7 last flight in October?

8 THE WITNESS: I don't know, no. I just assume, I
9 have great faith in my management. I assumed they would
10 price our product as though if all goes well, we would make
11 a decent profit from our activities.

12 BY MS. NAUGHTON:

13 Q So is it your testimony that even though they didn't
14 represent that there would be any benefit to your continuing
15 to fulfill the last mission and given your discouragement
16 regarding the press that you had nevertheless went ahead
17 and did the last mission?

18 A That is correct.

19 Q Why?

20 A I felt, number one, that it was a kind of a com-
21 mitment that we had already made, we had done several more,
22 they were ready to make the last one, and I felt that it was
23 helping our country. Obviously, it was something being done
24 for the government.

25 Q Did you discuss at all the Swiss bank account and

UNCLASSIFIED

1 the double accounting with the invoices?

2 A No.

3 Q Do you remember why not? .

4 A Why should I?

5 Q Do you want to elaborate on that?

6 A I just don't know -- to me, it was of no interest
7 other than the fact that it slows their operation. You know,
8 that obviously the reason I brought it up in the first place
9 is that I thought this was an extensive mission, and they
10 were using the same funds, or at least money transferred
11 from the same funds, to pay both parties, but I didn't see
12 that as illegal. Why should I question it? .

13 Q Did you get at this time or any time the sense
14 that the cargo to Iran were arms or missiles or anything of
15 that nature as opposed to humanitarian relief or oil drilling
16 equipment?

17 A I think they knew they were missiles.

18 Q Do you recall when you knew that?

19 A Probably when Paul Gilchrist came back from his
20 first trip.

21 Q You recall him telling you that?

22 A Probably, yes.

23 Q And you expected when you met with Secord and

6 A I have a calendar, but not -- well, I guess it is
7 an appointment book, but it is not well maintained.

8 Q Do you personally maintain it, or does your
9 secretary?

10 A I personally maintain it.

11 Q Was that turned over to the committee, or was it
12 requested?

13 A It wasn't turned over to anybody that I know.

14 Q After you and Mr. Langton left this meeting, did
15 you discuss what had transpired?

16 A Not particularly. I am sure we did, but I don't
17 recall our conversation other than the one I mentioned, you
18 know, when I was leaving walking down the hall saying "I don't
19 know what they told me."

20 Q What was Mr. Langton's response to that?

21 A Well, probably the same, it was a mushy conversatio
22 nonspecific.

23 Q Since he had arranged it, since you were upset, did
24 he think it had gone well, or was he disappointed with their
25 reaction, or what was his response?

13 A No.

14 Q What is your impression of him?

15 A He is a nice guy.

18 A Patriotic gesture. I am sure he has to live,
19 though. But I don't think money was the motivator.

2 A Well, I was looking for a chief operating officer
3 for many -- a couple of years, and his name was mentioned to
4 me by some guy who writes a newsletter, Aviation Newsletter,
5 out in Oregon, and I forget his name. So I called him up
6 to interview him.

7 Q For whom was he working at the time?

8 A Evergreen.

9 Q What do you know about Evergreen?

10 A Evergreen is a supplemental air carrier, like
11 Southern Air Transport. I have known them for a number of
12 years. They do basically the same type of work we do, it is
13 a successful company.

14 Q Do you know whether or not they have ever done
15 any work for the CIA or whether the CIA ever had any
16 financial interest in them?

17 A I don't know. I very much doubt it, but I don't
18 know.

19 Q Now, did you just have the one interview with
20 Mr. Langton before you hired him, or was this an ongoing
21 process?

22 A I had about three, I think, interviews with him.
23 I met him once at a trade show in Denver, I think, the first

4 A Straight salary.

5 Q And has it always been that way?

6 A No, I give all my management people bonuses now.

7 Q What are the bonuses based on?

8 A Generally establish a profit goal for the
9 year and if they make that goal then they get a certain
10 percentage of their salary in addition, and if they
11 fall short they get zero and if they overshoot it, they
12 get more. And that goes down as far as the director

17 A No, he does not receive any other income of

#9 1 Q. Would you be willing to set up an offshore Panamanian
CAS-1 2 company for any of your company's clients on request?

3 A Probably not. We would have to know them better
4 than just anybody.

5 Q Under what circumstances would you be willing to set
6 up a company like that for a client?

7 A I guess under the circumstances under which we did
8 it, for somebody like Mr. Gadd, whom we thought was helping
9 a government cause. I don't want that to mean that I thought
10 that it was the government operating. I didn't. I thought
11 it was something that the government wanted done.

12 Q I would like to take you in some detail now through

15 Service and what I am going to do is go through step by step

UNCLASSIFIED

- 3 A I don't recall.
- 4 Q You don't recall when the shoot down occurred?
- 5 A No.
- 6 Q If I told you that it was on or about October 6, 1936,
- 7 would that refresh your recollection?
- 8 A I will accept that date if you are telling me that

- 10 Q And you received the Customs subpoena shortly
- 11 thereafter, then?
- 12 A Yes, sir.
- 13 Q The original Customs subpoena called for what sort
- 14 of documents generally?
- 15 A I think it asked for all of our documents on all of
- 16 our employees, all the documents on everything we had ever
- 17 shipped out of the country. It was a very broad thing. Then
- 18 they were going to come back two weeks later and I think there

- 20 threw up my hands.
- 21 Q Did Mr. Langton handle the negotiations personally?

- 24 Q So he may have handled them personally?
- 25 A Probably

CAS-3 1 Q The general subject was export?

2 A Yes.

3 Q Normal jurisdictional Customs problems. And I
4 believe you then testified that after some discussions,
5 company officials assembled some documents which they thought
6 were responsive to whatever had been agreed to with respect
7 to the subpoena and that you then asked to review those
8 documents?

9 A Yes. What happened was we put the Customs people
10 off and put them off and now we are talking about a month
11 and a half after the subpoena was first served on us. I
12 even had a meeting with the Customs people before I got these
13 documents, maybe say that it was served, then I got involved
14 in it maybe a month later and talked to the Customs people,
15 we still hadn't produced any documents for them, asking them
16 why it was so broad and what were they after and why were they
17 asked for all the employee records, for example, it didn't seem
18 it was in their jurisdiction, employee records.

19 If they wanted to know if we owned the airplane
20 that was exported, that seemed pertinent. The fact is we
21 didn't, so we didn't have records on the airplane.

22 So we had that conversation. They said that they would
23 maybe try to sharpen up their subpoena and come back.

7 Q If we say that the subpoena was served in early

9 A Let me tell you what happened and you put dates

12 Q I believe you have testified to a couple of dates.

20 Q This is an important set of events, as you are aware.
21 There have been allegations made that on the basis of what

6 A That is correct.

7 Q And you eventually received a grand jury subpoena?

8 A That I don't remember.

9 Q At a certain point prior to an appearance before
10 the grand jury, you were instructed to ignore the grand jury
11 subpoena?

12 A That is what my counsel told me, as I recall.

13 Q It may have been your counsel who previously told us
14 today that an appearance was scheduled to occur on or about
15 November 9, 1986.

16 MR. BECKMAN: December, I thought I said.

17 MR. VAN CLEVE: I stand corrected on that. That may
18 account for my confusion about the chronology. Please, in
19 narrative fashion in as much detail as you can go through the
20 way in which your company and its senior officials responded
21 to the original Customs subpoena.

22 THE WITNESS: My recollection is that we received a
23 Customs -- and I think it was probably the first subpoena
24 we received in this whole affair, which was very broad,
25 shortly after the Hasenfus crash. Mr. Langton handled it

1 primarily with Customs and we were trying to respond, we
 2 wanted to respond, but at the same time I didn't want to
 3 through our entire company records and they did ask for all the
 4 personnel records of everything in the company.

5 As I recall, in addition, it had handwritten in it like it
 6 was an afterthought, and then they delivered more documents.
 7 It was very broad and he went back to them and said what we
 8 would try to get together for them.

9 Then a couple of three weeks went on and a return
 10 date passed and they called us and said what are you going to
 11 do about it and we said we haven't got the documents together
 12 but we are working on it.

13 Finally, they came over maybe for the second time,
 14 because I don't think I met with them the first time, that
 15 might have been a month after the thing first issued, but it
 16 could have been three weeks.

17 We have to get the time frame in between the time the
 18 airplane went down and the last flight of the Iran thing because
 19 it all has to fit into those dates, these things that happened.

20 BY MR. VAN CLEVE:

21 Q I understand. That was what I understood you to
 22 have previously said and I think that the last flight would
 23 have occurred shortly before the newspapers disclosed some of
 24 the earlier flights.

25 Correct me if I am wrong about this, but I think

1 around the beginning of November.

2 A So probably my last meeting with my people would
3 have been maybe a week or a week-and-a-half before that
4 last flight. Because I really didn't get involved in the
5 documents that were going to be produced.

6 I was hoping that Langton would solve it and give
7 them whatever they needed and they would go on about their way
8 so he was negotiating that with them.

9 Finally, when I met with them and they came over, and
10 this was before we produced anything, I started asking
11 them why did they want all these things, it didn't seem to
12 me it was pertinent to Customs, particularly people, so
13 they tried to support that. It finally ended up that they
14 would go back and try to further define their requirements
15 and we would produce whatever they wanted particularly
16 relative to the check for the airplane, the one talked about,
17 that we took money and issued our own check for that airplane,
18 which could be an issue of exporting an airplane, I could
19 visualize that and if there were parts that we supplied and
20 bought so all of it, invoices for parts for the contras would
21 seem like a pertinent issue so we were going to get those
22 together and the invoices associated with it.

23 * Then I had no more conversation about it for awhile,
24 and I was hoping it would go away like everybody hopes, and
25 the next thing I know Langton comes in and says they were

2 and they are going to come over. I said let me what you
3 have got. They produced a very little skinny file and said this
4 is all we have got. It had maybe a black check on it and two
5 telexes in there talking about transferring money to us. I
6 said this is a lot of money. I think it was \$250,000, but
7 it might have been \$150,000, but at least it was two
8 transfers of a major amount of money.

9 And I said, well, what did you do with this money to
10 our people. They said, well, we used some of it for the flights
11 from Kelly, I think -- I am trying to remember -- to Israel
12 or some of it went for that and some of it was for maintenance
13 services provided the contras.

14 I said, well, you know, if the Customs people
15 start asking you what you did with the money, then you are going
16 to have to tell them about the Iran thing and I understood
17 that was a very sensitive operation so if you display
18 all this they are going to start asking the questions
19 that this raises.

20 Q And what was Mr. Langton's reaction when you said
21 that to him?

22 A He said, yes, I understand what you are saying.
23 I said you better get ahold of somebody and tell them that we

4 Q But did he say to you, okay, I will make a call or
5 I will call Secord or something along those lines?

6 A Yes, he was going to call Secord and try to get
7 this put off or something.

8 Q I assume these things were happening pretty fast,
9 you are a day away from having to turn the documents over,
10 it is a busy company, so I assume you had a meeting in the
11 middle of the day about this?

12 A Yes.

13 Q He said I will make a phone call and came back not
14 too much later?

15 A He made a phone call immediately, but I am not
16 sure Secord was available. He might have been in the Middle
17 East, so we were able to put off the Customs people.

18 Q I don't want you to get ahead of the story that you
19 were describing. You explained to Langton the problem.

20 A I thought it was a problem. It wasn't a problem
21 to us but it could have been a problem to Secord.

22 Q He says I am going to make a call, at some point you
23 learned that he couldn't reach Secord?

24 A I think so.

25 Q Did he say I couldn't reach Secord, but I talked to

UNCLASSIFIED

164

CAS-10 1 someone else?

2 A I think Secord was in the Middle East and he couldn't
3 get hold of them.4 Q Did he say he talked to somebody else or say we
5 are out of luck, we can't reach anybody?6 A I think we just didn't turn the papers over to
7 Customs that day and solved the problem probably a little
8 later in this instance.

9 Q How many later?

10 A Maybe two or three days.

11 Q Did there come a time when Bill Langton explained to
12 you what happened?

13 A No. Just that they would take care of it, I think.

14 Q Who is "they"?

15 A Secord would take care of it.

16 Q In this context, if he said they --

17 A I don't think he said "they". He was trying to
18 call Secord.

19 Q I am trying to help you recollect.

20 A Why I can't explain it, and I don't want to sound
21 evasive, I kind of dropped the issue and moved on to something
22 else, I really didn't care if I turned them over as much as I
23 wanted them to know the repercussions of turning them over.
24 If Secord couldn't get the Customs people to quit pressing
25 on this that we were going to respond.**UNCLASSIFIED**

CAS-11

1 Q And there came a time a couple of days later
2 when you say you think your problem got solved?

3 A I do.

4 Q You are an attorney, you understood your obligations
5 to respond to a subpoena, you would want your company to be
6 in compliance. Did anyone in your company tell you how you
7 complied with the subpoena?

8 A No. You have to remember the context. This was
9 pushed real hard and then they kind of didn't care, then they
10 pushed real hard and then they didn't seem to care, Customs.
11 So they weren't that pushy about it themselves.

12 I knew we were about to turn it over to them tomorrow
13 and it could have been my company people were able to put them
14 off a couple more weeks, too, until they could get ahold of
15 Secord.

16 Q So you never actually found out from any source how
17 this matter was resolved?

18 A No, I did not. Maybe Langton called.

19 Q A couple more questions on this subject. When you
20 discovered that your company apparently was using a common
21 source of funds to make payments to cover money that you were
22 owed for the Iran operations and for the contra operations,
23 other than concern about the disclosure of the Iran operation,
24 did you have any other concern about that?

25 A No, it just never entered my mind.

UNCLASSIFIED

UNCLASSIFIED

166

CAS-12 1 Q You testified previously that you thought that the
2 Iran operation was a government-sponsored operation.

3 A Yes.

4 Q You testified previously that you had been told
5 that the funding for the contra operation was private funding?

6 A Yes.

7 Q When you say that there might be a common source of
8 funds for the two operations, did it occur to you that that
9 might be inconsistent with what you had previously understood
10 about the sources of funding for either operation?

11 A No, it should have, but it didn't.

12 Q So you were concerned about the security issue
13 but not the financing issue?

14 A No. It didn't enter my mind. It is easy after the
15 fact now when people think there is diversion of funds for you
16 to put that together, but I didn't think about it one way or
17 the other.

18 Q When you raised the matter with Mr. Langton and
19 Mr. Mason, neither one of them said anything on that subject?

20 A No. I don't know why, but it didn't ~~me~~ ^{for} me to say
21 is there something funny going on here, if, in fact, there
22 was.

23 Q If I understood your testimony on this issue
24 correctly, the original inquiry from Customs was prompted as
25 far as you could tell by the shoot down of the C-123?

UNCLASSIFIED

167

CAS-13

- 1 A Yes, sir.
- 2 Q To your knowledge, did they make any inquiries
3 about the Iran arms diversion?
- 4 A I don't think so. I don't recall any, but I am
5 not up to date on all the subpoenas. We were getting so
6 many subpoenas for awhile that I couldn't keep track of the
7 players, but I don't think we did.
- 8 Q What I am trying to establish clearly for the record
9 is that the Customs Department came to you and had a bunch of
10 questions about the contra operation.
- 11 They didn't seem to have any ^{information} ~~subpoenas~~ at all
12 about the Iran operation at that time?
- 13 A That is correct.
- 14 Q On the other hand, the company had internal
15 information about that operation?
- 16 A Yes.
- 17 Q And that was the reason -- that was what prompted
18 your concern?
- 19 A Yes. I considered it a very sensitive operation
20 and I knew it wasn't made public at that time.
- 21 Q That was the only concern that caused you to raise
22 the matters with Mr. Langton and Mr. Mason?
- 23 A Yes.
- 24 Q And that is the only matter to your knowledge
25 that they then raised with General Secord or whoever it was

CAS-14 1 that they actually called?

2 A Yes.

3 Q Thank you. No further questions.

5 BY MR. NAUGHTON:

6 Q I have one other question. Is there anything that
7 you know of that would be pertinent to this investigation
8 that we haven't gone through already? [?] is there a question
9 that is pertinent that we haven't asked yet that you think
10 would be of interest to the committee?

11 A I really don't think so. I can't think of anything,
12 no. I have tried to be as forthright -- I recognize I don't
13 have the photographic memory and I really wasn't that much
14 involved in an awful lot of this, but I think you will
15 find that our company, Mr. Mason and Mr. Langton are fully
16 prepared to give everything that we have.

17 Q I want to make sure that we don't get the
18 information because we haven't asked the right questions.

19 A I understand.

20 Q Thank you.

21 MR. VAN CLEVE: Is there anything you would like to
22 tell the committee based on your experience here, is there
23 anything that the members ought to know that would be helpful
24 to them in the course of an inquiry or just as a general
25 matter?

33 . EXAMINATION BY COUNSEL FOR THE SELECT COMMITTEE

34 . BY MR. LEON:

35 . Q Senator, by way of formality and in order to assure
36 that your expenses can be paid, I am handing you a certified
37 subpoena that has been signed by the chairman of the
38 committee. I want to note for the record that the subpoena
39 was in no way necessary, that Senator Brady was more than
40 willing and glad to come down to appear before the committee
41 without the necessity of that.42 We appreciate very much your coming here with your busy
43 schedule and we will endeavor to be brief.44 As I mentioned to you previously, the focus of our
45 questions are very limited. They focus on a particular
46 event that you were present for, and that was a meeting that
47 the Vice President, George Bush, had with Felix Rodriguez in
48 May of 1986, I believe it was May 1st.49 . I want to harken back to that particular meeting,
50 which I believe you were present at.

51 . Is it correct, first of all, that you were present

52 at a meeting between the Vice President and Felix Rodriguez
53 on May 1st of 1986?

54 . A That is correct. I believe that is the correct
55 date. I did have a meeting, but I am not positive about the
56 date.

57 . Q On that particular date to the extent that you can
58 recall, you were visiting with the Vice President yourself,
59 were you not?

60 . A I was visiting with the Vice President and we were
61 talking about politics.

62 . Q At that point, were you still a Member of the
63 United States Senate?

64 . A No, I was not.

65 . Q What year or years was it that you were in the
66 United States Senate?

67 . A I was a Member of the United States Senate from
68 April 1982 until December 1982. I resigned in the last part
69 of December 1982.

70 . Q And since then you have been working in New York
71 City?

72 . A I have been working in New York City, but I have
73 also been on a number of Government commissions, the
74 Scowcroft Commission, the Packard Commission, the Kissinger
75 Commission.

76 . Q Approximately when did you serve on the Kissinger

UNCLASSIFIED

77 Commission?

78 . A I would have to look up the dates, but I think it
79 was 1984. These commissions ran end to end and I never
80 remember when one started and the other ended.

81 . Q But the Kissinger Commission dealt with the
82 problems in Nicaragua?

83 . A That is correct.

84 . Q When you met with the Vice President May 1st, you
85 weren't there to see him with regard to the Kissinger
86 Commission or any other commission, were you?

87 . A No. We were just talking politics.

88 . Q On that occasion when Mr. Rodriguez showed up, did
89 you know beforehand that he would be meeting with the Vice
90 President that day?

91 . A No.

92 . Q Was it your sense that this meeting between the
93 Vice President and Mr. Rodriguez was something that had been
94 planned beforehand as opposed to impromptu?

95 . A I had no idea whether it was impromptu or planned,
96 but at the end of my meeting with the Vice President he
97 said, "Why don't you stick around? I have a meeting with
98 these people and you might be interested in what they have
99 to say."

100 . Q Was Mr. Rodriguez brought into the room by Donald
101 Gregg or anybody else?

UNCLASSIFIED

UNCLASSIFIED

NAME: HIR274000

PAGE 6

102 . A As I recall, it was Donald Gregg, Sam Watson and
103 Mr. Rodriguez. I believe that is all that was there.

104 . Q Donald Gregg at that time was National Security
105 Adviser to the Vice President?

106 . A Yes.

107 . Q And you knew him?

108 . A Yes.

109 . Q And Sam Watson was Donald Gregg's deputy?

110 . A That is my understanding.

111 . Q Colonel Watson, I believe it is.
112 . Before they brought him into the room, Senator, can
113 you recall if there was an introduction as to why he was
114 coming or what the purpose of the event was?

115 . A None that I remember.

116 . Q Let me hand you a document dated April 30, 1986
117 entitled "'Briefing Memorandum for the Vice President,'"'
118 encaptioned "'Event Meeting with Felix Rodriguez. Date:
119 Thursday, May 1, 1986. Time: 11:30 to 11:45 a.m., in the
120 West Wing,'" and it is from Donald Gregg.

121 . It states as the purpose of the meeting with the
122 Vice President of Felix Rodriguez, "'Felix Rodriguez, a
123 counterinsurgency expert who is visiting from El Salvador,
124 will provide a briefing on the status of the war in El
125 Salvador and resupply of the contras.'"

126 . Let me first ask you if you have ever seen this

UNCLASSIFIED

PAGE 7

127 briefing memorandum or was it shown to you on that
128 particular day?

129 . A It certainly wasn't shown to me on that particular
130 day. I may have seen it in all of the Iran/contra hearings
131 discussions since then, but I never saw it before the
132 meeting with the Vice President and Mr. Rodriguez.

133 . Q Do you have any recollection of the Vice President
134 referring to it himself that day during the meeting or
135 before the meeting?

136 . A No, I am almost positive he didn't. That wouldn't
137 be his normal practice anyway.

138 . Q Do you recall whether either Donald Gregg or Sam
139 Watson or anyone else for that matter before they brought
140 Felix Rodriguez in read from this document or any document
141 to tell the Vice President the purpose for Felix Rodriguez's
142 visit?

143 . A I am sure they didn't.

144 . MR. LEON: I will have that made a part of the
145 record, that document.

146 . [Exhibit No. 1 was marked for identification.]

147 . BY MR. LEON:

148 . Q With regard to the actual discussion that took
149 place once Mr. Rodriguez showed up, first of all, roughly
150 speaking, Senator, how long did the meeting with the Vice
151 President and Felix Rodriguez last?

UNCLASSIFIED

UNCLASSIFIED

NAME: HIR274000

PAGE 8

152 . A I can't be exactly precise, Mr. Leon, but I would
153 be very surprised if it lasted over 10 minutes. It might
154 have been 15.

155 . Q During the course of the meeting, did the Vice
156 President discuss with Mr. Rodriguez his counterinsurgency
157 efforts in El Salvador?

158 . A My memory of the whole meeting is hazy because it
159 was quick and it seems to me the Vice President was being
160 perfunctory in meeting with Mr. Rodriguez. I can't
161 precisely answer that question, because the real event in
162 the meeting that I remember, in fact, the only event I
163 remember is Mr. Rodriguez pulled out some pictures of the
164 jungle and helicopters, as I remember, and people holding
165 rifles and people pointing at the jungle, and that is all I
166 remember.

167 . Q Were they supposedly photos of his
168 counterinsurgency efforts in El Salvador?

169 . A That was my understanding, but I didn't pay much
170 attention because I must have seen a hundred of those when I
171 was on the Armed Services Committee in the Senate. It just
172 looked like any jungle. My understanding was that it was El
173 Salvador and the counterinsurgency effort there.

174 . Q Do you recall whether or not there was any
175 discussion by Mr. Rodriguez with the Vice President relating
176 to either Nicaragua or the resupply efforts of the contras?

UNCLASSIFIED

UNCLASSIFIED

NAME: HIR274000

PAGE 9

177 . A I don't believe there was. My memory is not
178 precise about a meeting so long ago, but I don't think so.
179 . Q Is that the kind of thing that would have stuck out
180 in your mind?
181 . A I think it would have.
182 . Q Particularly having been familiar with these kinds
183 of issues as a member of the Kissinger Commission?
184 . A Exactly.
185 . Q So you have no recollection of that being a subject
186 of discussion?
187 . A None.
188 . Q Do you recall whether or not at the end of the
189 meeting or at any point during the meeting an ambassador and
190 Oliver North stopping by to say hello?
191 . A I think they did. As I remember there was a
192 picture-taking session at the end of the meeting and I do
193 remember the ambassador, I think his name was Corr, and
194 Ollie North coming in for a brief moment, kind of to shake
195 hands.
196 . Q Ambassador Corr from El Salvador?
197 . A Yes. The meeting was very brief and I had the
198 impression that the Vice President was anxious to get back
199 to the subject that he and I were discussing. He was being
200 polite, as he always is, but we hadn't finished our
201 discussion and the Vice President seemed to want to get back

202 to that subject, which was domestic politics.

203 . Q After Mr. Rodriguez left the room, did you have a
204 discussion with the Vice President regarding Mr. Rodriguez's
205 activities in El Salvador?

206 . A No. We returned to our discussion.

207 . Q Has the Vice President at any time after that
208 meeting commented to you about his knowledge of Mr.
209 Rodriguez's involvement in anything other than
210 counterinsurgency in El Salvador?

211 . A I had forgotten I had been present at this meeting
212 until it came up during the Iran/contra hearings and we did
213 talk about it, but the only thing he ever said was that he
214 had no knowledge of the resupply mission and that his memory
215 of this meeting was simply one of being courteous to someone
216 who was working in the counterinsurgency movement in El
217 Salvador.

218 . MR. LEON: Senator, I have no further questions. I
219 will defer to my colleague.

220 . BY MR. BALLEEN:

221 . Q Had you, Senator, met Felix Rodriguez prior to this

222 meeting?

223 . A No.

224 . Q And if I could summarize your testimony correctly,

225 your memory is not precise as to the exact events at the

226 meeting, but to the best of your recollection you believe

227 that Rodriguez did not discuss resupply of the contras?

228 . A That is correct.

229 . Q Do you recall whether any words were said to Felix

230 Rodriguez of encouragement that he should stay on helping in

231 El Salvador or in Central America?

232 . A I really don't in any precise manner, but I know

233 the Vice President as he is with all of his guests^s was

234 grateful for him coming by his office and thanked him for

235 bringing the pictures which we looked at, but aside from

236 normal courtesy, I don't remember anything like that.

237 . Q The meeting was a ^formality, in other words?

238 . A It was not only a formality. ^As I mentioned before

239 within the bounds of being courteous, it seemed to me the

240 Vice President wanted to return to the political matters

241 that we were talking about.

242 . Q It was not something that he applied attention to

243 or focused on or discussed in any great depth?

244 . A He applies his attention to all of his visitors,

UNCLASSIFIED

245 but we had an unfinished subject and it seemed to me he was
246 anxious to get back to that, but was being polite to his
247 guest.

248 . MR. LEON: It was almost as if it were a break in
249 your meeting with the Vice President that this took place?

250 . THE WITNESS: I would say so, although I may have
251 been a little late getting to my meeting with the [#]Vice
252 President. I don't remember why we hadn't finished, but I
253 do remember that we took a few minutes after that meeting to
254 finish up the business that we had been discussing.

255 . MR. BALLEW: I have nothing further.

256 . MR. LEON: Let me again finish up. Thank you
257 again. On behalf of the House Select Committee, Senator,
258 thank you very much for making time in your busy schedule to
259 come here and to put this account of the event in question
260 on the record. We appreciate that very much.

261 . THE WITNESS: Thank you. I appreciate your
262 courtesy in arranging the meeting at this time so I could
263 make my other commitments.

264 . MR. LEON: Thank you very much, Senator.

5 Q And what will be your next assignment and when
6 will you assume it?

7 A I will be the Vice Chief of Staff of the Army
8 effective the 24th of June.

9 Q All right, sir. What is your current
10 reporting status? To whom do you report?

11 A I report directly to the Chief of Staff.

12 Q That is General John Wickham?

13 A General John Wickham. I also report to the
14 Vice Chief of Staff, General Thurman, the Under Secretary
15 of the Army.

16 Q Mr. Ambrose?

17 A Mr. Ambrose, and the Secretary of the Army,
18 Mr. Marsh. My principal superior is the Chief of Staff
19 of the Army.

20 Q And, General, what are your principal duties
21 as Director of the Army staff?

22 A Well, I'm responsible, in the name of the
23 Chief, for the coordination of staff activities within
24 the staff. I am also the direct supervisor of the
25 Director of Programs Analysis and Evaluation, Director of

1 Management, and I have general staff supervision over the
2 remainder of the Army staff.

3 Q Sir, I met with you on April 23, 1987 for an
4 interview, and when I refer this morning to having met
5 with you previously or you told me previously or whatever
6 I want the record to reflect that that's the session to
7 which I am referring and the interview to which I am
8 referring.

9 I believe on that day you told me about the
10 creation of something called the [REDACTED]
11 [REDACTED] I think it
12 would be helpful if you would walk us through the
13 creation of that committee, what it did, and the reasons
14 why you found it necessary.

17 THE WITNESS: [REDACTED]

18 [REDACTED] If we go back to the summer of 1983
19 when General Wickham took over as the Chief of Staff,
20 that summer he wrote a directive memorandum to selected
21 members of the staff, to include the Vice Chief and
22 myself, expressing concern that we provide an adequate
23 architecture to ensure [REDACTED]
24 [REDACTED] proper oversight, and in the way of oversight he
25 meant both military and civilian oversight, to include

25 A That's correct, because he'd been the Vice

1 Chief of Staff and was elevated in June of 1983 to the
2 Chief of Staff, and that was the beginning.

3 Q And did you put together an IG team that was
4 the forerunner of the permanent IG team [REDACTED]

5 [REDACTED]
6 A That's correct. Also, along with the [REDACTED]
7 went an organization that we have called the [REDACTED]
8 [REDACTED] but it is a full-time office
9 consisting of about 15 officers and civilians.

10 Q You're talking about [REDACTED] now?

11 A [REDACTED] that does the day-to-day work in the name
12 of the Chief and the Secretary of processing approvals of
13 actions with regard to all of those [REDACTED]
14 programs. We also put together an IG inspection team
15 which was to go make a one-time pass through all of our
16 [REDACTED] programs, and that developed into a
17 permanent team.

18 It also has a team from the Audit Agency, Army
19 Audit Agency, and there is a criminal investigation
20 element that is available for use by that team, if
21 necessary.

22 Q General, let me ask you a few questions about
23 [REDACTED] I believe up until the time at which it was
24 created, and which I also recall was September 1984 --

25 A That's correct.

1 Q -- the [REDACTED] system had been run out of
2 DCS/OPS; is that correct?

3 A That's correct. It was run out of [REDACTED]
4 [REDACTED] DCS/OPS. That was the central
5 point of contact, and each of the staff sections had a
6 [REDACTED] member who responded to taskings.

7 Q Under [REDACTED] would you say that it now operates
8 on a more adversarial basis with the Agency?

9 A More adversarial than before, yes.

10 Q And tell us exactly what the [REDACTED]
11 system is and how that operates.

12 A Well, the [REDACTED] system is a system that
13 has been set up to accept and process requests from
14 agencies outside of Defense for support, assistance,
15 support and assistance, to include provision of material.

16 Q That could be any agency outside of Defense?

17 A Yes.

18 Q But for all practical purposes it's
19 principally the CIA; is that correct?

20 A That's correct. Now it should not be confused
21 with what we call DOMS, the Director of Military Support,
22 which is also a DCS/OPS organization, which is designed
23 for military support to civil authority, disaster relief
24 and those kinds of things.

25 Q [REDACTED] normally operates in a manner consistent

1 with Presidential Findings and the guidance of the
2 Secretary of Defense; is that correct?

3 A That's correct.

4 Q And at the time of Project SNOWBALL, the TOWs
5 to Iran, the head of [REDACTED] was Colonel [REDACTED] is
6 that correct?

7 A That's correct.

8 Q And the head now is Colonel [REDACTED]

9 A That's correct.

10 Q What would you say relations with the Agency
11 are now in terms of how [REDACTED] is operating in its
12 administration of the [REDACTED] system?

13 A In my view the relationships are, I guess I
14 would review them as "proper". [REDACTED] has been instructed
15 to accept taskings. Before those taskings can be put out
16 to the staff for processing, they have to go through a
17 preliminary legal review, and then the Vice Chief of

4 Q If I understand your testimony, then, even for

6 [REDACTED] Vice Chief of Staff, General Thurman, is

7 required; is that correct?

8 A That's correct.

9 Q And is that both of them?

10 A Yes, sir.

11 Q Would you say [REDACTED] and the [REDACTED]

12 system have worked well?

13 A I have every level of confidence that they are

14 on track. We have had some criticism about them being

15 slow, but I would say that in those cases where there's a

16 requirement for expeditious action we can move actions

17 very quickly, and do.

18 Q And in fact there are built-in requirements

19 into the procedures that govern the [REDACTED] system

20 for expedited action; is that correct?

21 A That's correct. But none of those procedures

22 allow any short-circuiting. Approval has to be obtained

23 from both senior military and civilian authority.

24 Q Am I correct in saying that the TOW and HAWK

25 repair part transfers bypassed the [REDACTED] system?

12

1 A That's correct.

2 Q And are you aware in the four years you've
3 been Director of the Army Staff of any other transfers to
4 the CIA which have bypassed the [REDACTED] system?

5 A Not to my knowledge.

6 Q Sir, if you would, tell us when you first
7 became aware of the TOW missile requirement, what became
8 known as Project SNOWBALL?

9 A I have to refer, because at the time I refer
10 to notes that I made in my notebook which I keep secured
11 in a special safe. The first notation I have was on the
12 18th of February, 1986, which was a Tuesday, in which I
13 was informed by the Chief of Staff of program SNOWBALL.
14 I was told that Major Simpson was the action officer.

15 So it was the 18th of February was the first
16 time.

17 Q And does your log entry show that the Chief of
18 Staff needed legal advice regarding Congressional
19 notification?

20 A That's correct. I have an indication that
21 says the Chief of Staff needs legal advice re the
22 requirement to notify Congress.

23 Q I believe you told me earlier that you then
24 talked to Major Simpson; is that correct, sir?

25 A That's correct.

1 MR. KREUZER: Sir, what was this date that you
2 first became aware?

3 THE WITNESS: The 18th of February, 1986.

4 BY MR. SAXON: (Resuming)

5 Q I believe your next entry is February 24; is
6 that correct?

7 A That's correct.

8 Q And what does that log entry show?

9 A That log entry shows the notation SNOWBALL,
10 which is a trigger for my memory on the project, and the
11 notation says: Okay not to notify Congress -- meaning to
12 me that it was not the Army's responsibility to notify
13 Congress but the agency receiving the equipment had that
14 responsibility.

15 Q All right, sir. Let me stop there a moment
16 and ask a few questions to see if we can find out whether
17 anything else happened in that period. After talking to
18 General Wickham, the Chief of Staff, about project
19 SNOWBALL and talking to Major Simpson was there anyone
20 else in that period of those first few days with whom you
21 spoke about this requirement?

22 A I'm not sure. I don't believe so. I knew
23 that General Russo, who was the Assistant Chief of Staff
24 for Logistics, was the point of contact in the staff. I
25 may have talked to General Russo about it but my log does

UNCLASSIFIED

~~TOP SECRET//NOFORN~~
UNCLASSIFIED

14

1 not reflect that. But that doesn't mean that I might not
2 have spoken to someone.

3 Q When your entry said that the Chief needed
4 some legal advice regarding Congressional notification,
5 is that something that you then sought or executed on?

6 A I'm not sure that I did, but it seems to me
7 that he had indicated to General Russo that requirement.

8 Q So he wasn't telling you you were responsible
9 for finding that out, but he simply told you that he was
10 in the process of getting it himself?

11 A That's right, and he would expect me to follow
12 up.

13 Q And when your entry on the 24th said SNOWBALL
14 was okay or it was okay not to notify Congress but the
15 Agency had responsibility, who gave you that information
16 and that judgment?

17 A I'm not sure. I'm not sure of that. It may
18 be a reflection of the memorandum that the General
19 Counsel wrote prior to the 24th, I believe.

20 Q And that would be Susan Crawford?

21 A Susan Crawford.

22 Q We'll come to that in a moment. What was your
23 understanding of how this worked in terms of the Army
24 didn't have responsibility but the Agency did?

25 A Well, it was my understanding that since we

~~TOP SECRET//NOFORN~~
UNCLASSIFIED

~~TOP SECRET CODEWORD~~
UNCLASSIFIED

15

1 were providing equipment that exceeded the threshold, the
2 dollar threshold, to another government agency for use in
3 accordance with a Presidential Finding or other legal
4 reason that it would be that agency's responsibility to
5 keep the Congress informed.

6 And let me make a statement about that for a
7 second, if I might. One of the things that came about in
8 the 1983-84 time frame was the idea within the Staff --
9 and it was directed by the Secretary, by Secretary Marsh
10 and by General Wickham -- an intense sensitivity to
11 Congressional notification. That was the concern that
12 resulted over Project YELLOW FRUIT and other related
activities.

14 The Secretary made us very concerned that we
15 met the requirements of Congressional notification and in
16 fact Colonel [REDACTED] and the General Counsel and Bob
17 Winchester and I made special trips over to all of the
18 Committee staffers to bring them up to date on what we
19 were doing in [REDACTED] oversight. So the
20 notion that the Chief was concerned about Congressional
21 notification was not an unusual concern to me.

22 Q Were the problems with ISA part of that in
23 terms of Congressional sensitivity about covert
24 operations?

25 A I think yes, because ISA had gone through a

~~TOP SECRET CODEWORD~~
UNCLASSIFIED

UNCLASSIFIED

16

1 thorough review in '82-'83, I believe, and that had been
2 wound up in the spring of '83, as I recall. And that
3 whole review action increased the sensitivity and
4 certainly as General Wickham's leadership took over we
5 were very sensitive to that.

6 Q I believe, sir, I'm correct, am I not, that
7 Secretary Marsh had been a member of Congress himself.

8 A That's right.

9 Q So he was particularly sensitive to the
10 Congressional notification issue?

11 A That's right.

12 Q Now what do your records show was your next
13 entry on Project SNOWBALL?

14 A On the 25th of February I have a note that
15 says: Russo, and then an arrow, memo that quotes
16 statute. And that is that the Chief had issued
17 instructions, and I'm quite sure it was the Chief,
18 General Wickham, would instructions for a memo to be
19 prepared on Congressional notification and the
20 requirement for Congressional notification, that memo to
21 be sent to General Powell. The Chief wanted it in
22 writing.

23 Q And as far as you know was such a memorandum
24 prepared?

25 A That's correct.

UNCLASSIFIED

UNCLASSIFIED

17

1 Q And who prepared it?

2 A I believe Colonel [REDACTED] prepared that .
3 memo for my signature. It was signed on March 7 to
4 General Powell, and it referred to the requirement to
5 notify Congress.

6 Q General, I'd like for you to look at what we
7 will have marked as Brown Deposition Exhibit 1, and I ask
8 you to look at what is the last page of this exhibit. It
9 bears the number at the top of N-9900, which means for
10 the Senate Select Committee's files it is a National
11 Security Council document supplied by them.

12 I think we should point out for the record the
13 reason for that is that like a good soldier you were told
14 this was a close hold, no notes operation, and when you
15 prepared this memorandum you did not make a copy; is that
16 correct, sir?

17 A That's correct.

18 Q So the copy that we have in our files came
19 from the NSC records.

20 (The document referred to was
21 marked Brown Exhibit Number 1
22 for identification.)

23 Now I ask you to look at this document bearing
24 a date of 7 March 1985, memorandum for the Military
25 Assistant to the Secretary of Defense. That would be

1 General Colin Powell; is that correct, sir?

2 A That's correct. The date is 7 March 1986.

3 Q I'm sorry. 1986; you are right. And this
4 bears your name, Arthur E. Brown, Jr., at the bottom and
5 your signature. Is that correct, sir?

6 A That's correct. That is my signature.

7 Q And this is the memorandum to which you made
8 reference?

9 A That is correct.

10 Q If you would look at your memorandum, you
11 indicate in paragraph two that this request for support,
12 meaning the request by the CIA that 1,000 TOW missiles be
13 provided them with a contingency for 3,509 more,
14 circumvent the normal [REDACTED] system for reasons of
15 security. Is that an accurate statement, to the best of
16 your knowledge?

17 A To the best of my knowledge it's an accurate
18 statement.

19 Q And you indicated that support exceeded the \$1
20 million threshold established in the FY 1986 intelligence
21 authorization bill for reporting to Congress as a
22 significant intelligence activity; is that correct, sir?

23 A Yes, sir.

24 Q So when you stated a few minutes ago that the
25 understanding at DA was that this transfer would exceed

UNCLASSIFIED
SECRET//NOFORN

UNCLASSIFIED

19

1 the dollar threshold, this is the threshold to which you
2 had reference?

3 A Yes, sir.

4 Q And the statute to which you were making
5 reference?

6 A Yes, sir.

7 Q In paragraph three you indicate that the
8 SecDef memorandum, the Secretary of Defense memorandum,
9 of 13 June 1983 dealing with DOD support to CIA special
10 activities establishes the responsibility for
11 notification of Congress of DOD support to the Agency
12 with the Deputy Under Secretary of Defense for Policy; is
13 that correct, sir?

14 A Yes, sir.

15 Q But then you indicate that in the case of TOW
16 missiles the Army understanding on responsibilities for
17 notification conforms with the Secretary's June 1983
18 memorandum; is that correct, sir?

19 A Yes.

20 Q And what that means is that when the
21 Department of Army transfers in this case TOW missiles to
22 the CIA the responsibility for notification no longer
23 rests with DA but with the recipient agency, which would
24 be the CIA; is that correct?

25 A That's correct.

UNCLASSIFIED
TOP SECRET//COMINT//NOFORN

~~TOP SECRET//COMINT~~
UNCLASSIFIED

20

1 Q And in the final paragraph you indicate that
2 you are writing this memo to assure understanding of the
3 statutory requirement should this issue be raised by one
4 of the Congressional intelligence committees in the
5 future; is that correct, sir?

6 A That's correct, sir.

7 Q And we know now that this issue is being
8 raised.

9 A Well, the important thing is that the Chief of
10 Staff was concerned to make sure that there was a matter
11 for the record that Congressional notification had to be
12 complied with.

13 MR. KREUZER: Could I ask one question on this
14 point? In paragraph three, sir, was this a unilaterally
15 prepared memorandum to the best of your knowledge by the
16 Secretary of Defense or did he have some sort of
17 agreement with the Agency that this in fact would be a
18 procedure that the Agency would honor?

19 THE WITNESS: I don't know.

20 BY MR. SAXON: (Resuming)

21 Q General, before I go further to the trail of
22 this piece of paper of yours, let me go back up to
23 something you mentioned a few moments ago. You mentioned
24 a memorandum by Mrs. Crawford, the General Counsel of the
25 Army. What can you tell us about that memorandum, sir?

~~TOP SECRET//COMINT~~
UNCLASSIFIED

UNCLASSIFIED
CONFIDENTIAL

21

1 A Well, to the best of my knowledge Mrs.
2 Crawford prepared a memorandum for Secretary Marsh which
3 laid out the legal bounds of Congressional notification,
4 and as I recall that ruling, that memorandum by Ms.
5 Crawford indicated that in this case the Army was not
6 responsible for Congressional notification in view of the
7 fact that the material had been transferred to another
8 government agency and therefore the burden of
9 notification rested with that other agency.

10 Q And I believe I'm correct, am I not, that she
11 also referenced the 1986 Intelligence Authorization Act
12 and the \$1 million threshold?

13 A I believe that's correct.

14 Q So I'm safe in saying that when you sent your
15 memorandum to General Powell you had the legal authority
16 of the Army General Counsel to back you up on the
17 understanding of how Congressional notification should
18 work in this case; is that correct, sir?

19 A That's correct.

20 Q Now when you sent this memorandum to General
21 Powell what happened?

22 A I have an entry in my notebook dated 12 March
23 1986 which indicated to me that I had received a phone
24 call from Colin Powell with a note that said: Letter on
25 SNOWBALL from Colin to Poindexter informing. To me that

UNCLASSIFIED
CONFIDENTIAL

UNCLASSIFIED

22

1 is a trigger that suggested that General Powell had
2 forwarded my letter to General Poindexter informing him
3 of the responsibility for Congressional notification.

4 Q Now, sir, I would ask that you look at the
5 same deposition exhibit. The page on top of your
6 memorandum is a memorandum from Major General Colin L.
7 Powell to Vice Admiral John Poindexter, the President's
8 National Security Advisor, dated 12 March 1986. Do you
9 see that, sir?

10 A Yes.

11 Q And I believe I'm correct, am I not, that you
12 were never provided this memorandum by General Powell, so
13 you did not see this until after these matters became
14 public; is that correct, sir?

15 A Yes, sir.

16 Q In that memorandum he indicates that there is
17 "unease of the Army General Counsel's office over the
18 transfer of items with which you are familiar." He does
19 not say what, but we all know and assume this is with
20 regard to the transfer of TOWs to the CIA ultimately
21 destined for Iran. And it goes on to discuss the belief
22 and the understanding that the Army does not have the
23 responsibility for notification but that the CIA does.

24 And then he indicates that "I make you aware
25 of the Army's concerns in the event you wish to advise

UNCLASSIFIED

23

1 the DCI or the Attorney General." Am I correct in saying
2 that Admiral Poindexter never notified anyone at the Army
3 that notification was taking place? Is that correct,
4 sir?

5 A That is correct to the best of my knowledge.

6 Q And am I also correct in saying that General
7 Powell never notified you or anyone else within the
8 Department of the Army that notification had taken place;
9 is that correct?

10 A That's correct.

11 Q And no one at DA received any indication from
12 Director Casey that they were notifying Congress?

13 A That's correct, to the best of my knowledge.

14 Q And no one at the Department of the Army ever
15 received any communication from Attorney General Meese
16 that notification either was taking place or for some
17 reason was not required; is that correct, sir?

18 A That's correct.

19 Q I ask that you then look at the top page of
20 this Exhibit, which is a handwritten note bearing the
21 initials JP, which we believe to be John Poindexter, to
22 Paul, who we believe to be Commander Paul Thompson, dated
23 3/12/86, and it says: "Put this with the Finding".

24 Am I correct in saying that until these
25 matters became public you had never seen this notation

24

1 from Admiral Poindexter as to the disposition of this
2 memorandum; is that correct, sir?

3 A That's correct.

4 Q I believe one entry in your log that we
5 skipped was a notation on March 7 that you had sent a
6 memorandum to -- that that was the date you sent it to
7 General Powell and that Colonel [REDACTED] had prepared it;
8 is that correct, sir?

9 A Actually that was not a notation in my
10 notebook to that effect. The memo to Powell re Congress
11 notified, but I did not have a journal entry on that, to
12 the best of my knowledge.

13 Q All right, sir. Now I believe on March 16,
14 which would be after you had heard from General Powell
15 that this had been passed on, General Russo came to see
16 you to tell you that Secretary Taft -- that's Deputy
17 Secretary of Defense William H. Taft, IV -- had gotten in
18 touch with the Chief of Staff regarding Project SNOWBALL;
19 is that correct, sir?

20 A That's correct.

21 Q And what does your entry show for that day?

22 A My entry shows that Secretary Taft contacted
23 the Chief of Staff. I was told that that happened in the
24 tank, in the JCS meeting room. My notation shows that,
25 refers to TOWs. It says: TOW-II SNOWBALL. I don't

UNCLASSIFIED

UNCLASSIFIED
TOP SECRET CODEWORD

25

1 understand the notation TOW-II, because we were working
2 with basic TOWs. My notation says: 1,500, all to get,
3 with an uncertainty, which means we're not sure about
4 that number. Also indicates that the Agency wanted 200-
5 plus or minus spare parts for HAWKS, and the 200 referred
6 to line item numbers rather than the specific numbers of
7 parts.

8 Q All right, sir. Let's leave the HAWKS aside
9 for a moment. It's possible, I guess, that TOW-II
10 SNOWBALL could refer to the fact that this is the
11 requirement for the second shipment of TOWs with regard
12 to SNOWBALL. Is that possible?

13 A Possibly.

14 Q We know that the first shipment was 1,000 TOWs
15 and the second shipment wound up being 508 TOWs. So do
16 you believe your number of 1,500 might have had reference
17 to the second shipment combined with the first to make
18 1,500 all together?

19 A Could possibly.

20 Q So if I understand it, then, it was the
21 directive from Secretary Taft that actually put in motion
22 the second shipment?

23 A I believe that's correct.

24 Q Or was it that he was simply notifying the
25 Chief that it had been put in place?

UNCLASSIFIED
TOP SECRET CODEWORD

UNCLASSIFIED

26

1 A I'm really not sure of that. I think you
2 probably would have to talk to General Russo about that.
3 I don't get enough out of my notes to recollect that.

4 Q Okay, sir. Secretary Taft also made mention
5 of some spare parts for HAWK missiles.

6 A That's true.

7 Q Is that the first you had heard about this
8 requirement?

9 A Yes, it was.

10 Q In terms of the HAWK spare parts, I believe
11 you told me previously that General Russo came to see you
12 on April 16; is that correct, sir?

13 A That's correct.

14 Q And what did General Russo say at that time?

15 A Well, he had indicated -- actually he had
16 reflected to me that Mr. Taft had talked to the Chief and
17 had mentioned the TOWs under Project SNOWBALL, and then
18 he went on to say that the CIA wants about 200 line items
19 of spare parts for HAWKS. He reported that there were a
20 total of 234 line items and actually 218 were finally
21 provided, my notes indicate.

22 Q Did he give you a specific breakdown of the
23 ability of the Army to meet the requirement?

24 A In general terms, stated that of the 234, 144
25 lines were all right. My note says: 144, okay, which

1 means they were okay to ship or to provide. Thirty-eight
2 had a negative impact, meaning no readiness impact.
3 Three were substitutes, meaning that there were three
4 lines that were provided as substitute items. Therefore,
5 there were 188, I believe, of the 234 that were
6 requested.

7 Q I believe there were 46 line item numbers
8 remaining that General Russo told you if they were to
9 meet the requirement there would be greater than 50
10 percent of the stocks available with 11 numbers; is that
11 correct, sir?

12 A Yes, that's correct. Eleven items, if
13 provided, would represent more than 50 percent of our
14 stock. Fifteen represented 100 percent or more of the
15 parts available.

16 Q And does that mean there would be total
17 depletion of existing inventories as we knew them to
18 exist at that time if we met the requirement on those
19 items?

20 A That's correct.

21 Q And were there any items for which there would
22 be less than 50 percent but still significant depletion?

23 A Well, let's see. There were 15 that
24 represented 100 percent or more of the parts available.
25 Nine were at zero balance, which we couldn't provide.

1 The Agency had deleted two lines, and then we had 15
2 lines that were unidentifiable. And then I have a note
3 that indicates that we were to get an answer by the
4 following Friday on the identification of the
5 unidentifiables.

6 Q Did you have in your notations any notice of a
7 get well date for some of the items that would be
8 depleted?

9 A Yes. It seemed to me it was April of '87.
10 Let me just verify that. Yeah, February to April of '87,
11 get well date.

12 Q Now get well date, is that Army readiness talk
13 suggesting the date it would take to replenish the
14 existing inventories from Army vendors?

15 A That's correct.

16 Q And some of those items I assume would be in
17 the pipeline and in the process of being provided, and
18 others would be new procurement?

19 A That's correct.

20 Q I believe these data were supplied to you by
21 General Russo orally; is that correct?

22 A That's correct.

23 Q Once you were told that, was it your
24 understanding that this was simply a status report or an
25 update or were you to go forward and convey this

1 readiness information to someone else?

2 A No. At that point that was a status report.

3 (Pause.)

4 You had asked about the nature of the Russo
5 report on the 16th of April. That was a routine update,
6 General Russo keeping me advised of the progress of the
7 requirement, and he indicated to me -- I have a note that
8 says there was a problem with CIA on the money to be
9 received. No other point about that. But there was not
10 an alarmist notation about the report. And I accepted it
11 as a routine status report.

12 Q Did you convey those numbers to General
13 Wickham?

14 A I do not believe so.

15 Q And did you render any judgment to General
16 Russo as to whether the requirements should or should not
17 be met in terms of any readiness impact?

18 A No, I didn't. Normally the requirement for
19 readiness impact goes to the DCS/OPS, the operations
20 officer.

21 Q As part of the [REDACTED] process?

22 A As part of the [REDACTED] process, and in
23 fact of any provision of equipment from Army stocks that
24 must go through the readiness review with the Director of
25 Operations in any formal recommendations to either the

1 Chief or the Secretary.

2 Q And I believe there are people at DCS/OPS
3 through the normal [REDACTED] process who do nothing but
4 look at the readiness impact of requests; is that
5 correct, sir?

6 A That's correct.

7 Q And is it safe to say this tasking did not
8 have the benefit of the normal readiness staffing?

9 A I'm not sure of that. I'm just not sure of
10 that because of the close-hold nature of this particular
11 action, but, as I recall, General Russo's report to me
12 was not one that would say this is a significant problem
13 for us. And so I didn't view it as that and therefore
14 believed it was important to report it to the Chief.

2 Q Now you mentioned a moment ago that General

3 Russo told you there was some problem with the CIA on the

4 money to be received. What can you tell us about that,

5 sir?

6 A Well, the only thing I can tell you is that

7 that's what my notebook reflects, and to the best of my

8 knowledge General Russo indicated that that's a problem

9 that's to be worked. And there was nothing else. If

10 there had been problems subsequent to that concerning

11 that matter, General Russo would have come back to me.

12 And I did not hear from him again on that matter. In

13 fact, that was the last status report I had from General

14 Russo, and therefore was under the impression that the

15 requirements that were levied on us were met.

16 Q Sir, as we now know with the benefit of the

17 Department of Army IG and the course of these

18 investigations on the Hill and internal examinations by

19 DA, there were lots of fits and starts on this and false

20 starts from the CIA where they'd say get the missiles

21 ready to ship and then they would back off and that would

22 be changed, and there were delays and safety

23 modifications required and a lot of back and forth.

24 Were you ever made aware of any of those

25 details and those problems?

1 A No, I was not.

2 Q Was there a single individual who actually
3 made the decision on the HAWK repair parts to meet the
4 requirement and ship these to the Agency?

5 A Well, I would assume it would be General
6 Russo. As I understood it, General Wickham had charged
7 General Russo as the staff officer responsible for
8 meeting the requirements that were levied by Defense.

9 Q You just put this as a requirement levied by
10 Defense. Is it correct to say that normally when a
11 request comes from the Agency it is a request and it
12 comes in laterally to the Department of Army and goes
13 through the [REDACTED] system?

14 A That's correct. In fact, it comes in through
15 the [REDACTED]
16 [REDACTED] and then it is forwarded now directly [REDACTED]

17 Q And these two requests, SNOWBALL and CROCUS,
18 were viewed as a requirement coming down from on high
19 within the Office of the Secretary of Defense?

20 A That's correct. It was my understanding that
21 the direction for both the TOW and the HAWK parts, for
22 the TOW missiles and the HAWK parts, came from the Office
23 of the Secretary of Defense.

24 Q What would be your understanding as to whether
25 the Department of the Army institutionally or any

1 individuals involved, civilian or military leadership,
2 felt there was any discretion in the decision to meet
3 this requirement?

4 A To the best of my knowledge it was an order,
5 and there was no discretion, and discretion was not in
6 order.

7 Q You indicated that in the normal process of a
8 request coming from the Agency it would go through [REDACTED]

9 [REDACTED] To your
10 knowledge, was Admiral Crowe, the Chairman of the Joint
11 Chiefs, or the Joint Chiefs collectively ever involved in
2 any decisionmaking on SNOWBALL or CROCUS?

13 A Not to my knowledge. I just don't know.

14 Q To your knowledge did they ever look at the
15 provision of TOWs or HAWK repair parts along the lines of
16 readiness impact or strategic impact in the Iran-Iraq war
17 or the issue of whether it would be a jeopardy to U.S.
18 defense for the Iranians to have our weapons systems?

19 A Not to my knowledge.

20 Q Now I believe you told me earlier that you had
21 no knowledge of the ultimate destination of these
22 missiles, TOWs, or HAWK repair parts; is that correct?

23 A That's correct.

24 Q You did not know that they were going to Iran?

25 A That's correct.

34

1 Q You did not know they were going through
2 Israel?

3 A That's correct.

4 Q To your knowledge was anyone within the
5 Department of Army proper aware of their ultimate
6 destination?

7 A Not to my knowledge.

8 Q And I say Department of Army proper because
9 General Colin Powell is a green suit Army type, but he
10 was in the office of the Secretary of Defense.

11 A That's correct. And, as I say, I don't know
12 of anybody that was working in the Department of the Army
13 that was aware of the ultimate destination.

14 Q I believe you indicated that on October 29,
15 1986, you had a conversation either with Secretary Marsh
16 or his executive assistant, Brigadier General Carmen
17 Cavezza -- C-a-v-e-z-z-a -- regarding some questions that
18 had arisen with regard to SNOWBALL and CROCUS; is that
19 correct, sir?

20 A That's correct.

21 Q And what can you tell us about that
22 conversation?

23 A Well, there was, as I recollect -- and I can't
24 recall -- I believe it was General Cavezza, I was
25 discussing with him, indicating that there was some

1 concern about the provision of missiles and HAWK spare
2 parts and that it led me to go back through my mind about
3 the actions that we took with regard to those
4 requirements. As a result of that conversation, I placed
5 a secure phone call to General Powell, who by that time
6 was stationed in Frankfort, Germany.

7 Q He had left the Office of the Secretary of
8 Defense as the military assistant to Secretary
9 Weinberger?

10 A That's correct, and had assumed command of
11 Fifth Corps, United States Army, Europe, stationed in
12 Frankfort. I called him and asked him if he had recalled
13 receiving a memo, because, as I indicated earlier -- as
14 you indicated earlier -- I did not have a record of the
15 memo that I sent him.

16 Q And you were calling him about the memorandum
17 which we have made Deposition Exhibit 1?

18 A That's correct.

19 Q And let me say for the record, meaning no
20 disrespect to you, sir, but everyone with whom I've
21 spoken at DA or on the Congressional staffs refer to this
22 as the Brown memo, because you wrote it, so you were
23 calling him about the Brown memo; is that correct?

24 A That's correct. He vaguely remembered but was
25 not sure. He subsequently called me back and indicated

1 that he, to the best of his knowledge, he had forwarded
2 my memo with a cover memo to Admiral Poindexter
3 concerning the policy on how Congress was to be notified,
4 meaning to me that Congress should be notified in that
5 case.

6 I have an entry in my log to that effect.

7 Q Did he have in his files a copy of his memo or
8 your memo?

9 A To the best of my knowledge he did not. I
10 checked with his secretary, his former secretary.

11 Q Who was still in the Secretary's office?

12 A Who was still in the Office of the Secretary
13 of Defense, Miss Nancy Hughes. Nancy indicated to me
14 that when General Powell vacated the office he reviewed
15 his files in a different room and she did not have access
16 to them.

17 Q So as far as she knew there was no record of
18 this?

19 A That's right, and she did not recall that
20 memo.

21 Q Was that your last conversation with General
22 Powell on the issue of the Brown memo?

23 A That was my last conversation with him.

24 Q And was that your last conversation with him
25 on the issue of SNOWBALL or CROCUS generally?

1 A Yes, it was.

2 Q Now you wrote him initially, General Powell,
3 on March 7 and then on March 12 I believe you told us he
4 called you back to say that the letter had gone forward
5 to Admiral Poindexter. From that point, if that's
6 correct, that he called you on March 12, until the time
7 you called him on October 29, when he was at that point
8 in Germany, were there any discussions you had with
9 General Powell on the issue of TOWs to Iran or HAWK spare
10 parts to Iran?

11 A No. Well, to the best of my knowledge, I
12 didn't deal directly with General Powell except with
13 regard to that memorandum and the telephone call that
14 followed that.

15 Q As far as you know, did anyone in the office
16 of the Secretary of Defense or the NSC or anywhere else
17 within the Executive Branch of the government ever get
18 back to you personally or anyone at DA and say the issue
19 of Congressional notification was being worked, being
20 executed, being carried forth, et cetera?

21 A No one got back to me and, to the best of my
22 knowledge, no one else in the Department of the Army was
23 notified.

24 Q Did anyone within DA, yourself included, ever
25 raise the question of maybe we ought to go back and check

1 and see if this was done?

2 A No.

3 Q Do you have a sense of whether that's
4 understandable or appropriate or whether somebody should
5 have raised the issue, or was it your understanding that
6 General Powell made clear it was being taken care of?

7 A Well, in retrospect, as I indicated, General
8 Powell never came back, never fed back that that
9 notification had been made or that he had forwarded that
10 memo on. On the other hand, we had made it a matter of
11 record of the requirement for Congressional notification
12 and believed that we were in compliance with the law.

13 Q At any point in your discussions on these
14 issues did the issue or existence of a Presidential
15 Finding come up pursuant to which the TOWs and HAWKS
16 would have gone forward?

17 A No.

18 Q Was there any speculation within DA about
19 where these missiles were going?

20 A No speculation that came to my attention. In
21 my own mind I thought perhaps they were going [REDACTED]
22 I was not aware of any weapons systems of this nature
23 having been provided [REDACTED] but I wasn't sure.
24 But Iran was the least of my expectations.

25 Q I was going to ask you about that. When I met

1 with you before you said Iran was the last place I would
2 have thought they would go.

3 A That's right. That's a very accurate
4 statement.

5 Q Would you elaborate on that, sir, and tell us
6 why you would have been surprised that they went to Iran,
7 and particularly what your understanding was at the time
8 in terms of our selling arms to Iran directly or
9 indirectly?

10 A Well, I just reflect back to the 1979-80
11 period, when United States citizens were taken hostage.
12 Our relationships with the Iranians were cool at best
13 since that time. We have maintained a neutral stance in
14 the Iranian-Iraq war. But certainly we have not in any
15 way expressed any overt and, to my knowledge, any covert
16 support on the Iranian side.

17 And I will say that there is a great deal of
18 animosity on the part of many members of the officer
19 corps with regard to the Iranians, with regard to the
20 current Iranian administration.

21 Q Was there in fact an embargo in place on
22 shipment of arms to Iran?

23 A That's correct.

24 Q And was there not in fact an operation being
25 headed up by the State Department called Operation

UNCLASSIFIED
TOP SECRET/COBWORD

UNCLASSIFIED

40

1 Staunch in which we were pressuring our allies not to
2 ship arms to Iran?

3 A I'm not familiar with the particular name of
4 operations, but I was aware of the fact that there was an
5 effort on the part of the United States Government to
6 preclude allies from engaging in purchases or sales of
7 arms and also I was aware that arms sales that had been
8 negotiated before the revolution, those deliveries were
9 on hold.

10 Q That would be through normal FMS foreign
11 military sales?

12 A That's correct.

13 Q And is it fair to say that our policy of
14 neutrality in the Iran-Iraq war would have been fairly
15 well understood not only within the Department of the
16 Army but the Department of Defense, the NSC, State
17 Department?

18 A To the best of my knowledge it was clear
19 amongst the leadership of the Army.

20 Q General Brown, did you ever have any person
21 involvement in any of what we now know were fairly
22 complicated and confusing pricing questions on the TOW
23 missiles?

24 A No. In all FMS cases and in cases of
25 provision of arms and equipment to agencies outside the

1 Department of the Army those pricing -- the pricing is
2 developed in the Army Materiel Command, and normally that
3 doesn't come to the attention of leadership unless there
4 is something that is extraordinary, and in my four years
5 that had never been the case.

6 Q So I take it, then, General Russo never said
7 to you that there were any problems or complications with
8 regard to pricing the TOW missiles?

9 A That's correct.

10 Q Are you familiar with something called the
11 AMDF?

12 A Yes.

13 Q And that stands for the Army Master Data File?

14 A That's correct.

15 Q And what can you tell us, sir, about the AMDF?
16 What is it and how is it used?

17 A Well, to the best of my knowledge the AMDF is
18 used as a pricing guide and that determines the price
19 that we pay for items of equipment and, therefore, that
20 provides the basis for the amount of money that would be
21 transferred in the event those items of equipment are
22 transferred out of the Department.

23 Q And is it safe to say that in sort of layman's
24 terms it's a catalog for material and equipment so one
25 could go to it and look up a particular item and see what

1 the stock number was, price, et cetera?

2 A That's correct.

3 Q And as far as you know it's fairly widely used

5 A That's correct.

6 MR. SAXON: Let's go off a second.

7 (A discussion was held off the record.)

9 Q General, were you ever aware that there was
10 any pressure on General Russo or anyone else within the
11 Department of the Army to come up with a low price on the
12 TOW missiles?

13 A I was not aware of that, no.

14 Q Are you familiar with the Economy Act?

15 A Basically.

16 Q And I believe that is the Act that is used
17 when one agency of the government transfers something to
18 another agency of the government; is that correct?

19 A That's correct.

20 Q And the Economy Act would normally govern a
21 transfer from the Department of the Army to the CIA?

22 A Yes, that's true.

23 Q And to your knowledge was the Economy Act used
24 in this instance for TOWs and HAWK repair parts?

25 A To the best of my knowledge.

1 Q Do you have any knowledge about whether the
2 Economy Act permits the transferring agency to charge
3 replacement cost, or have you ever had reason to get
4 involved in the pricing question?

5 A I have not been involved in the pricing
6 question. To the best of my knowledge we have been
7 charging, that the basis of charge is the acquisition
8 cost rather than replacement cost.

9 Q All right, sir. Throughout all of SNOWBALL
10 and CROCUS and any involvement you had, were you told at
11 any point or was it repeated at various points that this
12 was a sensitive operation, close hold, no notes and so
13 forth?

14 A Extremely close hold. A question about
15 whether there was specific guidance about no notes or
16 not, because I have notes about it in general terms, and
17 if there was a specific direction on no notes, then I
18 would not have had any notes at all. But fundamentally
19 it was well understood to be an extraordinarily close
20 hold operation, and there were very, very few people that
21 were aware of its existence.

22 Q I believe you told us earlier, General, that
23 as far as you know there have been no transfers to the
24 CIA other than SNOWBALL and CROCUS from the Army which
25 bypassed the [REDACTED] system.

3 Q Would that include the fact that there have
4 been some very sensitive transfers from DA to the CIA
5 that have gone through the ██████████ system?

6 A That is correct.

7 Q And on matters that were particularly
8 sensitive in terms of the security consideration?

9 A Yes.

10 Q Were you aware of any existing ceiling during
11 1986 that the Congress had imposed on the number of TOW
12 missiles that could be purchased during that year?

13 A No.

14 Q And I would assume, then, that that issue
15 never came up in any of these discussions?

16 A That's correct. That issue did not come up,
17 to my knowledge.

18 (A discussion was held off the record.)

19 THE WITNESS: I wasn't sure. I thought you
20 were referring to some specific language that limited our
21 purchase, our acquisition of TOWs. If you are referring

5 A Yes, they would have been aware of that.

6 Q But as far as you know when this issue was
7 being worked it was never presented to you as a
8 consideration?

9 A Absolutely not.

10 Q All right, sir. The Department of the Army
11 had an Inspector General investigation into the pricing
12 of the weapons and the transfer of the HAWKS, et cetera,
13 did they not?

14 A That's correct.

15 Q Have you had occasion to review their report?

16 A I had an opportunity to review that report.

17 Q As far as you know, was it an accurate and
18 thorough report?

19 A Yes.

20 Q General, in the process of conducting that
21 investigation the Army IG was told by at least one
22 Assistant Secretary of Defense -- and that would be Mr.

25 recommended that Secretary Taft be interviewed because he

1 had had some involvement.

2 As you yourself indicate, while it may be
3 limited he at least was witting of this mission and he
4 had some involvement in it. The Army Inspector General
5 chose not to interview Secretary Taft. Do you have any
6 knowledge of why that might have been?

7 A No, I don't.

8 Q Do you have a judgment from what you know
9 about Secretary Taft's involvement and that you know
10 about IG reports whether he perhaps should have been
11 interviewed?

12 A I would say that was a judgment call. The
13 purpose of the IG report was to look at the specifics of
14 the pricing and it would be a question in my own mind of
15 any of Secretary Taft's involvement in the pricing. He
16 issued instructions, but to my knowledge the relationship
17 of those instructions to pricing I don't see a
18 connection.

19 Q Would it be fair to say the connection might
20 come in that a lot of the problems with pricing resulted
21 because the people who normally would have been involved
22 with pricing were not involved because the instructions
23 given from the Secretary of Defense's office through
24 General Powell and Mr. Taft were that this to be a close
25 hold with not many people involved? Would that be a

1 possible connection?

2 A Possible, though my understanding is that the
3 pricing for TOWs would have been developed in the Army
4 Materiel Command and based on the acquisition prices. It
5 is complex because there were missiles with and without
6 modifications, and then there were different types of
7 missiles that had to be further modified, which
8 complicated the pricing formulas.

9 But I would not have connected that.

10 Q All right, sir. We're not trying to point the
11 finger at the IG. We're simply trying to make a judgment
12 of whether they should or shouldn't have interviewed
13 Secretary Taft. In your judgment would it have been at
14 all unusual that they chose not to interview the top
15 folks at the Pentagon?

16 A It was not unusual to me that they chose not
17 to interview Mr. Taft.

18 Q Are you aware of the GAO report on the pricing
19 and the transfer issues?

20 A I am aware of it vaguely but I have not read
21 it.

22 Q Are you aware that with regard to four
23 discrete pricing questions the GAO report concluded that
24 on all four of them the prices wound up being low and by
25 that the I-TOW price, the assessments that were made on

1 price, came in too low, the price on the basic TOW was
2 too low, the price on the MOIC was too low, and the price
3 that the Army came up with as an estimate for handling,
4 crating and transportation was too low?

5 A Yeah. I'm aware that there was -- that there
6 were several audits or investigations that determined
7 that the pricing was too low, but I believe that it was
8 determined, at least to my impression that those low
9 prices were based on error and on the complexity of
10 putting modifications on or changing the configuration of
11 the missiles.

12 Q Sir, is it your judgment that the Army has
13 learned anything in terms of pricing or handling a
14 sensitive request like this from this experience?

15 A Well, certainly the issue of pricing has come
16 to the forefront and the Under Secretary of the Army is
17 deeply involved in ensuring that pricing techniques are
18 watched closely and done very carefully.

19 Q Am I also correct in saying that one
20 additional constructive thing that's come from all of
21 this is that the Army General Counsel now sees
22 Presidential Findings and receives them from the National
23 Security Council for review; is that correct, sir?

24 A I was aware that the Army General Counsel now
25 has access to them. I was not aware that she gets them

1 for review, but was aware that she has access to them.
 2 That's correct.

3 Q I may be incorrect in saying she gets them for
 4 review before the fact, but at least she sees them; is
 5 that correct, sir?

6 A To the best of my knowledge.

7 MR. SAXON: I believe those are all the
 8 questions I have on the TOWs and HAWKS and maybe Joe and
 9 Roger have something further.

10 EXAMINATION

11 BY MR. SABA:

12 Q General, I just have a few questions by way of
 13 follow-up. Returning to the time you first learned about
 14 the requirement to provide the Agency with TOWs, who told
 15 you that it was to be treated as a close-hold matter?

16 A To the best of my knowledge, the Chief of
 17 Staff.

18 Q That would be General Wickham at the time?

19 A Yes, to the best of my knowledge. I
 20 understood fully when I was first informed of the project
 21 that it was a very close hold project. It seems to me
 22 that General Wickham was going out of town. I could look
 23 at calendars to verify that. It seems to me that he was
 24 going out of town and he mentioned to me about the
 25 project, and it was the 18th of February, and he said I

1 need legal advice concerning Congressional notification.

2 And in the context of that conversation it was
3 clear to me it was a very close hold.

4 Q Did he indicate that anyone else had told him
5 to treat it as a close-hold matter?

6 A No, not specifically. I don't recall
7 specifically.

8 Q Who told you that the fulfillment of the
9 requirement would not go through the [REDACTED] system?

10 A Nobody told me that it would or would not.
11 Just by nature, I mean, by the manner in which it was
12 requested it was clear to me it was my understanding that
13 the Chief of Staff had levied the responsibility on
14 General Russo to be the action agent within the logistics
15 community to supervise the action.

16 Very honestly, it didn't flash to me we should
17 put this into the [REDACTED] system or not put it in.
18 It just didn't occur to me. I got a set of instructions
19 from the Chief of Staff, who received a set of
20 instructions from the Office of the Secretary of Defense
21 to perform this transfer.

22 Q Were you aware of any requirements in 1985,
23 specifically November or December of 1985, to provide
24 TOWs or HAWKs to either the Agency or possibly to Iran --
25 first, the Agency?

UNCLASSIFIED

~~TOP SECRET//NOFORN~~

51

1 A No. I was not aware of any previous actions
2 to provide TOWS or HAWK parts to the Agency, although
3 there could have been [REDACTED] activities, actions
4 that would do that. But I didn't have personal
5 knowledge.

6 MR. SAXON: What about specific provision of
7 TOWS or HAWK missiles, and this would be complete systems
8 and not parts, to Israel in late 1985?

9 THE WITNESS: Not to my knowledge. I was not
10 aware. It could have been through a regular FMS case,
11 but those would not necessarily come through our office.

12 BY MR. SABA: (Resuming)

13 Q Were you aware of any requirement placed on
14 Noel Koch specifically to obtain information about,
15 first, the availability of HAWKS and, second, the price
16 of TOWS in the period November-December of 1985?

17 A No. In fact, in this whole operation or up
18 until that time I didn't know Noel Koch was involved in
19 any of that. I know he was Assistant Secretary of
20 Defense for International Security Affairs responsible
21 for special operations and low intensity conflict
22 matters, but I was not aware of his involvement in any
23 actions such as that.

24 Q Was there any time in which you became aware
25 of Mr. Koch's involvement in determining the price for

1 TOWs between the United States and Israel or any third
2 party?

3 A No. I've never done any business or even
4 heard of Noel Koch's name mentioned in conjunction with
5 pricing of TOWs or HAWKS.

6 Q Do you have any recollection in the
7 discussions of pricing that you might have been involved
8 in of the number \$4,500 being indicated as the price for
9 the TOWs to be provided to the Agency?

10 A No. The number \$4,500 in that context doesn't
11 ring a bell with me.

12 MR. SAXON: Related to that, were you ever
13 told that CIA had a ceiling on the amount of money they
14 could use to purchase the TOWs?

15 THE WITNESS: No. As I indicated, the only
16 point that was ever made concerning the finances of the
17 operation was the one journal entry that I have in my
18 notebook that said some question about the money from the
19 CIA, and that was reflected by General Russo to me, and I
20 assume from that that was some type of administrative
21 problem that the Agency had with cutting a check.

22 BY MR. SABA: (Resuming)

23 Q So is it correct to say that General Russo did
24 not mention to you in detail what that problem on the
25 finances was?

UNCLASSIFIED

53

1 A No, he didn't at all.

2 MR. SAXON: He never mentioned that the Agency
3 was having to go back to the White House or the NSC for
4 funding?

5 THE WITNESS: Not to me, no. You know, as I
6 indicated, no, there was no discussion of funding at all
7 other than that one point, that he said there's some
8 problem with the CIA.

9 MR. SABA: I have nothing further.

10 MR. KREUZER: I have some. Are you guys
11 through, more or less? I'd like to go off the record.

12 (A discussion was held off the record.)

BY MR. SAXON: (Resuming)

14 Q General, let me ask you if you have any recent
15 or new information you can provide the two Committees
16 with regard to what we all know now as YELLOW FRUIT or
17 [REDACTED] of which it became a
18 part. Is there any new or additional information about
19 whether there is a secret Swiss bank account that either
20 the Department of the Army is involved with or any
21 current or former DA employee is a signatory on?

22 A Well, we did have a report that Mr. Golden,
23 who was a former member of a covert operation called
24 YELLOW FRUIT --

25 Q That would be William T. Golden?

UNCLASSIFIED

UNCLASSIFIED
SECRET

54

1 A Yes, that he had recalled having signed a
2 signature card for a Swiss bank account. We sent Mr.
3 Golden to Geneva to try to find out more details of that
4 account, but to the best of my knowledge he was denied
5 any information by the Swiss banking officials, for
6 reasons that I'm not specifically familiar with.

7 Q So your testimony today would be to the best
8 of your knowledge the existence of such an account has
9 yet to be confirmed?

10 A That's correct. I believe, because Golden
11 indicated that he had signed a number of signature cards,
12 and my suspicion is that there was a signature card that
13 dealt with a Swiss bank account, but we've not been able
14 to uncover any details of it.

15 Q In your judgment is there anything which
16 connects YELLOW FRUIT either specifically or using that
17 rubric for any of the related operations, that connects
18 it to the Iran-contra affair as we know it?

19 A We've been chasing that and have been unable
20 to get any connection. Some of the same names crop up,
21 but we have not found any direct connectivity between
22 YELLOW FRUIT or any other covert Army activity and the
23 Iran-contra affair.

Q

I believe you told me previously that there was an officer -- I believe the name you gave me was Schneider -- who spent a year doing a thorough review of YELLOW FRUIT. Is that correct, sir?

A

That's correct. Colonel Schneider worked for me directly as military supervisor, although he was working under the auspices of Mr. Ted Greenberg from the Department of Justice. Colonel Schneider's job was to review all of the records and inventory and catalog all of the materiel in operation YELLOW FRUIT. It took him the better part of a year to do that.

Q

And it's safe to say that he never surfaced the existence of any offshore bank accounts; is that correct?

A

That's correct.

Q

To your knowledge what is the total amount of money in YELLOW FRUIT that as to this day is yet unaccounted for?

A

I don't know.

Q Is it safe to say --

A

Q

A Absolutely.

Q Do you think it's possible that any individuals who were involved in the Iran-contra affairs looked at YELLOW FRUIT or SEA SPRAY and saw demonstrated a capability there of being sort of out of the system with money that's less accountable and procedures and requirements and red tape that was not such an imposition as it might be for normal channels and learned a lesson

1 there that may have given to rise to what we've come to
2 investigate?

3 A Repeat the early part of your question, John.
4 I missed it.

5 Q From what we understand to have taken place,
6 say with SEA SPRAY and the purchase of [REDACTED]
7 [REDACTED] I believe, outside of the normal
8 Congressional appropriations process, the ability to
9 rapidly do things to deploy, to move money quickly, et
10 cetera, the question arises whether any individuals may
11 have taken note of that and seen the wisdom or the
12 desirability of creating a sort of outside the system
13 network which we know Colonel North and General Secord
14 and others to have created?

15 A Well, I'm not sure about that. It seems to me
16 that you do see the same names cropping up, but I haven't
17 drawn from that, and I've been unable to run down -- and
18 we're continuing to spend a lot of effort trying to run
19 any connectivity between Colonel North's operation and
20 those covert operations that we have in place or had in
21 place, but we have not been able to find any
22 connectivity.

23 I think, you know, the capability was there
24 before 1984, but once the [REDACTED] was put into operation I'm
25 pretty sure that there was not any opportunity to take

1 advantage.

2 Q In terms of the Department of the Army?

3 A In terms of the Department of the Army, that's
4 right.

5 MR. SAXON: That's all I have on that
6 particular point.

7 MR. KREUZER: I was going to ask the broader
8 question. We may want to go off the record on this.

9 MR. SAXON: Let's go off.

10 (A discussion was held off the record.)

11 BY MR. SAXON: (Resuming)

12 Q General, let me ask you a question that is out
13 of the context of the Iran side of the Iran-contra
14 affairs, that being TOWs and HAWK repair parts, and go to
15 the contra side. There are a number of Army personnel,
16 enlisted and officers in Central America in the various
17 Mil Groups, and in some cases in the Embassies directly.

18 To your knowledge, has there been any formal
19 Army investigation of the involvement of these
20 individuals as to whether they have improperly assisted
21 the contras during any of their activities?

22 A Not to my knowledge.

23 Q If there's been no investigation, let me ask
24 you this. Are you aware of any involvement by any of
25 those individuals which we would deem improper?

UNCLASSIFIED
TOP SECRET//NOFORN

UNCLASSIFIED

59

1 A Not to my knowledge.

2 Q The next question deals with security
3 assistance. While there is an agency within the Pentagon
4 that deals with that, particularly the Defense Security
5 Assistance Agency, there are some of the same individuals
6 in Army uniforms in Central America who have involvement
7 with security assistance programs.

8 To your knowledge have there been any
9 instances in which the United States has made the
10 provision of security assistance contingent on the
11 recipient country aiding the contras?

12 A Not to my knowledge.

13 Q And I would ask that whether it be with us
14 holding out security assistance as a carrot to induce
15 said aid or whether on the part of the recipient country
16 it used aid to the contras as leverage to extract
17 security assistance. Your answer would still be the
18 same?

19 A Not to my knowledge.

20 MR. SAXON: All right, General Brown, I
21 believe those are all the questions I have. Let me see
22 if my colleagues have anything further.

23 MR. SABA: No.

24 MR. KREUZER: No.

25 MR. SAXON: Let me say on the record then,

MEMORANDUM FOR THE MILITARY ASSISTANT TO THE SECRETARY OF DEFENSE *Olson*

SUBJECT: Congressional Notification of Significant Intelligence Activities (U)

1. (TS//NOFORN) On 18 January 1986, the Army responded to a verbal tasking from your office to provide 1,000 TOW missiles to the Central Intelligence Agency with a contingency for 3,509 more at a later date. The first 1,000 missiles were delivered on 14 February 1986 to the CIA.
2. (TS//NOFORN) This request for support circumvented the normal [redacted] System for reasons of security, yet the support exceeded the \$1 million threshold established in the FY86 Intelligence Authorization Bill for reporting to Congress as a "significant intelligence activity." Funds in excess of \$3.5 million were provided by the CIA to reimburse the Army for the first 1,000 missiles. Billing and payment will occur within 60 days, or when all missiles are delivered, whichever is shorter. The Agency expects to complete the project within 60 days.
3. (TS//NOFORN) SECDEF memorandum of 13 June 1983, subject: DoD Support [redacted] (S), establishes responsibility for notification of Congress of DoD support to the Agency with the Deputy Under Secretary of Defense for Policy. It also confirms that primary responsibility resides with the Director, Central Intelligence. In the case of the TOW missiles, the Army understanding on responsibilities for notification conforms with your June 1983 memorandum.
4. (TS//NOFORN) This memo is to assure understanding of statutory requirements should this issue be raised by one of the Congressional intelligence committees in the future.
